- 1. The 1st Amphibian Tractor Bn at CUA VIET PORT FACILITY received enemy artillery fire on nine days of the month of September 1967. Nost fires were harassing in nature; the average number of rounds received each day fire was received was 27. The greatest number of rounds received in one day was 84.
- 2. The most significant events of the month were the conduct of Operation GROUSER I, the support given to the SIF and BLT 2/3 in particular in Operation FORTRESS SENTRY 17-26 September 1967 and the support given to ARVN engineer units in transporting fortification material to their strongpoint A-1.
- a. GROUSER I was a Battalion sized search and destroy operation conducted by this Bn with Co "F", 2d Battalion, 3d Marines. Results were 20 MVA KIA (Conf) and 2 MVA KIA (Prob); one USEC KIA and 19 USEC WIA. The after action report is attached.
- b. Casualties sustained during FORTRESS SENTRY were six LVTP-5Al mined, one LVTE-1 mined, one LVTE-1 sunk. Three (3) of the LVTP-5Al that were mined were total losses and have been coded X. Personnel casualties in this operation were none (0) KIA, (11) WIA. During support of ARVN units on strongpoint A-1, one (1) WIA has occurred and O vehicles mined.
- 3. Patrolling to the south of the CP area has continued. Patrolling north of the CUA VIET was suspended during FORTRESS SEMTRY. This Bn had previously maintained a platoon on patrol in the "rocket box" continuously: (Grids YD 2469-2869-2866-2466). CG 3d Har Div msg 021050HCCT rescinded this task.
- 4. A highlight was the capturing of eight 140 ill rockets on 2 September. Other patrols have found less significant quantities/types of weapons.
- During the month of September 1967 the Battalion suffered the following casualties:

Battle: KIA (Oh) DOM (OO)

TIA (72)

Non-Battle: KIA (00)

WIA (00)

DECLASSIFIED

- (1) NVA KIA (Conf) 20
- (2) NVA KIA (Prob) 2
- 11, ADMINISTRATIVE MATTHE. Administrative plans proved a equate.
- a. Supply Techniques, Combat Loads, Assumition and Meanens Carried by Assault Troops.
- (1) Sufficient amounts of Classes I and 7 samplies were carried on LVT to last for two days. Each LVV corried 5000 rounds of 30 coliber linked assumition. Resupply to units dismounted was directly from the LVT following in tracks of lead elements. This eliminating the requirement for resupply from an LSA.
- (2) Direct medical assistance was creableshed about one LVT rigged with a litter ldt. Additional medical sublice about this vehicle reduced corpsments locks and provided a safe place to administer aid after recovery of a casualty.
- (3) Weapons carried by Co "A", 1st AmTrac Dn personnel included the M-M rifle, 15 caliber piston, M-79 grenade launcher and 30 caliber MJ munted on top of INTP-5. Co "F", 2/3 carried T/" weapons.
- b. Maintenance. Permal smintenance was conducted throughout the operation.
 - c. Treatment of Casualties, Evacuation and Mospitalization.
- (1) Standard modical aid was provided by unit corpsmen in all wounded. Wounded were evaluated as to sericusness of condition at the unit corpsmen level. The sericusly wounded were initially aided and removed to battalion forward CP by LVF litter tractor where MTD-Evec was accomplished by the 'IST attached to Co "F" 2/3. All MED-Evac were sent to the USS TRIPOLI.

o. Transportation. Only organic IT were utilized in the envement of troops and supplies during the operation. To mys., 2/3 was transported to and from the lat Aughibian Tractor Satisfien resition at the VIET PORT FACILITY from the USE TRIPOUT by City.

e. Communications

(1) Difficulties encountered during Operation CICKORY II resulted from assigned frequencies being too high for AO's. The limited number of PRO 25 radios held in the battalion at that time raised problems which were in part everyone by redistribution of radios from the "B" to 06 "A" thereby providing sufficient communications to talk with AO, artillogy and DED-EVAC helicopters for this operation. This also enabled a backup of man carried radios, become instabledation of the VE LZ nevice radios on the LVI enabled the ferrord OP to have excellent communications with all organic and supporting agencies with exceptional speed and clarity of transitission.

f. Medical Evaluation

- (7) With the augmentation of the HET assigned to Co "F", 2/3, evacuation of temmed was rapid and considered excellent. Initial requests for MED-EVACS were made by the let refrac Bn with control from them on being accomplished by the HST.
- (2) Unlike Operation MICKORY II, sufficient componen were available in write of the let Andrew Ba, thereby insuring sufficient initial medical aid both in the field and at the CUA VICT FOUR FACILITY throughout the operation.
- (3) Movement of mounded early in the operation was accomplished by INT litter tractors from the units in contact to the AST as discussed earlier.
- 12. SPECIAL EQUIDENT AND FECTOTORIES: Jone.

13. COMMARKES AVAILABLE

- a. Freet missions of the 266 WM Br were not known but intelligence reports indicated the establishment of a some heavily fortified position in the vicinity of MH BA Repost area vio (YD 274704) to interdict neval craft novement between the CUN VIST PORT FACILITY and DONG IV. and a more positive control of possisce resources to influence fortherning National elections.
- b. Once again a combination of infantry and LVI was employed against enemy forces which had infaltrated bouch of the DMZ. The timelines of this operation prevented VC/NVA forces from intimidating voters and hampering Mational elections. Additionally, it deterred any designs of the enemy to establish bases South of the DMZ as secure areas from which to conduct attacks against DONG HA COMBAT BASE, CUA VIGT PORT FACILITY and New craft along the river.

Torces could be brought to bear against infiltrating units rapidly and inflict substantial casualties.
