PART II - NARRATIVE SUMMARYPERSONNEL AND ADMINISTRATION

The total strength of 1st Tank Battalion is 50 Marine Officers, one Naval Officer, 912 Marine enlisted, and 17 Naval enlisted. The battalion joined four Marine Officer, one Naval Officer, 235 Marine enlisted and two Naval enlisted during March. This includes five Marine Officers, 130 Marine enlisted and two Naval enlisted as Company B, 5th Tank Battalion. Losses were three Marine Officer, two Naval Officers, 38 Marine enlisted and one Naval enlisted.

The battalion anticipates the loss of five Marine Officers and 41 Marine enlisted during the month of April.

Eighteen requests for extensions of overseas tour were forwarded during March. These extensions bring the total man-months gained through extensions during 1968 to 162. The major incentive for extensions of overseas tour was the special 30-day leave program.

On 13 March 1968, Company B (Rein), 5th Tank Battalion, with a strength of five Officers, 130 Marine enlisted and two Navy corpsman was attached to the battalion. With the addition of one more tank company, the S-1 is now administratively supporting two and one-third additional companies, without augmentation of administrative support personnel. At present the battalion is suffering a critical shortage of NCO's in the 0141 field. Of the seven sergeants rated by manning level, present on board strength is four, with three of these rotating to CONUS within 45 days. Of the seven corporals rated, the battalion has four though it is anticipated that two will be gained through promotions in the near future. Through a reorganization of the Battalion S-1, a redistribution of all 0141 NCO's was made to companies in an attempt to gain full utilization of their experience. Although placing a heavier burden on the battalion, the reorganization proved itself by reducing unit diary error rate to .2 percent.

The battalion's morale during this period was excellent although all personnel were required to work long hours in varied jobs.

A total of 15 casualties were sustained during March, four med-evac, and 11 non-med-evac. There was one non-hostile casualty, requiring hospitalization who eventually expired.

There was one special courts-martial and two summary courts-martial during March. There were three punishments under Article 15.

INTELLIGENCE

Weather: March high mean temperature was 85 degrees, the low 70 degrees. This was within the 25 year mean of 81 degrees and 70 degrees respectively. Rainfall this month was 0.19 inches.

Intelligence: An analysis of intelligence during March indicates the enemy avoided major contact with U.S. forces in the 1st Marine Division TAOR. He continues to regroup and reorganize forces lost during the TET Offensive. The increasing shortage of food should have led to an increase in limited ground attacks against GVN outpost and food producing areas to establish control of the agricultural areas; however, this did not materialize.

In the DaNang TAOR on the night of 4-5 March (anniversary of the Lao Dong Party) main and local for units launched a series of coordinated attacks against friendly outposts and installations. Toward the end of the month, Operation Worth in the base area of the 31st NVA Regiment and 368B (rocket) Regiment may have interdicted plans of this unit. The entire DaNang AOR remained relatively quiet with no major enemy initiated incidents or heavy weapons attacks through the end of March.

In the Task Force X-Ray TAOR enemy initiated activity decreased during the month. Marine, Army, and ARVN search and clear operations in the Hue area continued to make significant contact through the period; however, enemy initiated activity was limited to logistic buildups in the A Shau Valley. Increased reports of movement of troops, armor and artillery in the area attest to the intention of NVA units to renew conventional warfare in the I Corps Tactical Zone.

The 1st Tank Battalion experienced two mine incidents as compared to eight during the same period in 1967, a new low in enemy unconventional activity in the area. There was 1 RPG incident involving an Ontos in the Task Force X-Ray TAOR.

In the Southern Sector AOR, a low in reliable intelligence accompanied the low in enemy initiated activity. GVN sources continue to be contacted as often as possible to draw on all sources to aid the Southern Sector Defense Commander's decision as to alert status appropriate to the threat to the security of the sector.

TRAINING AND OPERATIONS

During the month of March the 1st Tank Battalion participated in one major operation, Operation Ford. All units of Company A (-) (Rein) were in general support and the 1st and 2nd Platoons of Company A (Rein), 1st Antitank Battalion were in direct support. The operation was concluded on 20 March.

Company A (-)(Rein) is located in the Phu Bai/Gia Le area where they are in direct support of Task Force X-Ray. The 1st Platoon remained as security for the Song Cau Do and Song Tuy Loan Bridges in the Southern Sector Defense Command AOR until 24 March when they were relieved by 3rd Platoon, Company B, 5th Tank Battalion. The 1st Platoon is now in general support of the Division and constitutes a portion of the Division reserve.

On 23 March, the Company Headquarters of Company A (-)(Rein), 1st Tank Battalion (Rein) moved its location from DaNang to Phu Bai so that it could better support the platoons at that location.

Several tanks from Company B (Rein) provided fire support for infantry operations during the month. The tanks were limited in movement because of wet rice paddies. Other operations were primarily involved with reaction forces for infantry and CAP units, security for road sweeps, support for search and destroy operations and security for command posts.

Company C(-)(Rein) remains in direct support of 3rd Battalion, 27th Marines and the 2nd ROK Brigade in the Hoi An area. The 3rd Platoon remains attached to Company B, 1st Tank Battalion and is located at An Hoa.

Company A (Rein), 1st Antitank Battalion, remains in direct support of Task Force X-Ray with headquarters at Gia Le. The 3rd Platoon is in direct support of the Phu Bai Defense Command. On 22 March, the 1st Platoon, Company B, 5th Antitank Battalion was transferred to A Co, 1st Antitank Battalion for duty in the Phu Bai area.

Company B(Rein), 5th Tank Battalion was joined by 1st Tank Battalion on 13 March. The Company received an intensive training program and on 29 March the 1st and 2nd Platoons moved to 27th Marines in direct support of 1/27 and 2/27. The headquarters group remains at 1st Tank Battalion CP.

The task organization for the 1st Tank Battalion(Rein) is as follows;

Company A (-)(Rein): D/S Task Force X-Ray (Phu Bai)

Southern Sector Defense Command

The CO, 1st Tank Battalion through the 1st Tank Battalion COC, continues to initiate and control defensive activities within the Southern Sector. During the month 744 activities were conducted by SSDC tenant units including five special activities varying from squad to platoon size.

At 020945H a 30 man search team from 7th Communications Battalion and a scout dog team uncovered a cave and captured one VCS at (AT978704). Several items of equipment were found in the cave including a mess bucket full of rice, one battery and numerous propaganda pamphlets.

At 040105H, the Hill 34 complex received approximately 40 rounds of 122mm rocket fire. Those units suffering casualties and damage from the attack were 7th Communications Battalion; 4th Battalion, 11th Marines; 2nd Battalion, 13th Marines and Company B, 7th Engineer Battalion. Damage was light and friendly casualties were 4 KIA and 10 WIA. Several rockets also impacted in the Hoa Cam Training Center but there were no casualties and no material damage.

At 040900H a platoon size patrol from 1st Tank Battalion discovered a possible rocket or mortar site at (AT985702). The Division G-2 investigated the site and photographs were taken.

At 062025H, the bridge security forces at the Song Cau Do Bridge at (AT998707) received incoming small arms fire and observed 20 VC wearing black pajamas in the perimeter wire. Fire was returned with 90mm and small arms but a search the following day disclosed negative results. There were no friendly casualties.

At 061345H a platoon size force was dispatched from 1st Tank Battalion to check a report of Vietnamese digging trenches at (AT941713). The platoon reported normal activity in the area with no evidence of trenches. There was no enemy contact.

At 232340H a 7th Communications Battalion patrol received small arms and automatic weapons fire from an unknown number of enemy at (AT981705). The patrol returned the fire and searched the area with negative results. There were no friendly casualties.

At 282215H, a 3rd MP Battalion patrol received an incoming grenade resulting in 2 USMC WIA. The patrol returned fire but did not search the area because of the wounded personnel.

LOGISTICS

On 31 March 1968, the 1st Tank Battalion had a shortage of 25 major items; two M48A3 tanks, one M51 VTR, five M38A1 $\frac{1}{2}$ T trucks, one 30 KW Generator, and 16 TE-33 communications tool kits. To fill T/E deficiencies, this command received four M50A1 Ontos, one M48A3 tank, five Xenon searchlights, three caliber .50 machine guns, 26 M18 binoculars, one test set AN/GRM 55, three AN/VRC 44 radios, and one M49A2C refueler. Also received, were eleven 106mm recoilless rifles and one M49A2C refueler in exchange for a non-multifuel M49. Under the R&E program the command received eleven tracked vehicles; two M67A2 flame tanks, eight M48A3 tanks and one M48A3 tank with bulldozer attachment.

Supply activities have operated routinely and efficiently during this period with major emphasis placed on intergrating the supply records of Company B, 5th Tank Battalion, which was attached to this battalion on 13 March 1968.

The transportation of cargo and personnel to our units in the field has presented very few problems this month. The increased availability of Rough Rider convoys to the Phu Bai TAOR has significantly decreased the problems associated with transporting cargo to our units in that area. During this period, 86 personnel and 11,500 lbs., of cargo were transported to Phu Bai by air, and five tracked vehicles plus crews were transported by LCU. The Motor Transport Platoon logged a total of 30,130 miles, hauled 885 $\frac{1}{2}$ S/T of cargo, and transported 12,978 passengers in the I Corps area during March.

The Battalion Maintenance Platoon performed excellently during this period achieving the lowest deadlined percentage for tracked vehicles in over eight months. The lift and recovery capability of the section was significantly increased with the addition of one M51 VTR which arrived with Company B, 5th Tank Battalion, and one M51 VTR and one M543 Wrecker becoming operational after an extended period of deadline. During March two tanks sustained mine damage, one was submerged, and one Ontos was hit by an RPG rocket. One of the mined tanks was repaired by this command and the other is awaiting 2nd echelon repair parts. A message was sent to CMC requesting that the submerged tank be considered as an R&E vehicle and not be assigned a condition Code F due to the short submersion time (7 $\frac{1}{2}$ hours) and the fact that it was submerged in fresh water. Damage to the Ontos was confined mainly to the gun tubes on one side of the vehicle and these were replaced immediately by company maintenance personnel. With the arrival of Company B, 5th Tank Battalion, the maintenance section is now responsible for 107 tracked vehicles by T/E and it is anticipated that additional maintenance personnel will be necessary to function with a high degree of efficiency. Support from field maintenance was also excellent during this period with four tank packs received, six Xenon searchlights

repaired, and numerous contact teams from 1st FSR.

Selective interchange of suspension spare parts is still considered to be a key factor in the rapid repair of mine damaged vehicles. Due to the low number of mine incidents during this period all replacement parts were obtained through normal supply channels.

Improvements to the battalion cantonment during March consisted primarily of increasing perimeter wire and installation of five new defensive perimeter bunkers with assistance from a platoon of Company A, 7th Engineers. The interior of the enlisted messhall was painted and several outbuildings were constructed to comply with sanitation and safety regulations. An addition to the Officers Mess, to be used as a scullery and storeroom, is presently under construction with completion expected around the middle of April.

Services of the Vietnamese concessions were satisfactory this month. The Korean PX laundry was not able to meet its commitments and the services of a Vietnamese laundry had to be utilized temporarily. By the end of March the Korean laundry was again operating efficiently and the services of the Vietnamese laundry will be terminated.

During March five radio sets AN/VRC-71 kits were released from 9th MEB assests held at FIC to modify 1st Platoon, Company B, 5th AT Battalion. The four vehicles in country were modified and the remaining modification kit is on board awaiting arrivial of the fifth and final vehicle of the platoon from Hawaii.

On 13 March Company B, 5th Tank Battalion was joined by the 1st Tank Battalion (Rein). All vehicles were given complete technical inspections and all discripencios were corrected.

On 18 March, Area Communications Center was transfered to 7th Communications Battalion. Over the counter service is now being provided to the 1st Tank Battalion by this unit. The battalion placed all teletype equipment in storage and online crypto material was returned to the RPS Custodian for storage. 1st Tank Battalion Message Center continues to process all radio and teletype traffic for this command.

No vehicles were deadlined during March for Communications. A 99% operational capability was maintained in the battalion.

MEDICAL

The month of March brought a noticeable decrease in Sick Call with 681 visits. Two-hundred and eighty-nine immunizations were given and 147 tuberculin skin tests were administered.

Fifteen men were wounded as a result of hostile action. Of these, four were hospitalized and 11 were treated and returned to duty. There were 22 men on the Sick List during March. Seven of these were wounded during hostile action in February. Of the 15 admitted to the Sick List in March, eight were medical illnesses, four were hostile injuries and three were non-hostile injuries, one of which was fatal. Ten of those admitted to the Sick List were evacuated out of country. Of these, six were injuries sustained during hostile action and two were non-hostile injuries. Total man-days lost to the battalion secondary to illness or injury were 91.

A Medical Technical Inspection was held on all letter companies and Company A, 1st AT Battalion. All were found to be satisfactory in administration, supply and sanitation.

A hospital corpsman was sent to the Preventive Medicine Unit, 1st Marine Division to broaden his knowledge and gain experience in sanitation practices at the battalion level.

There were five cases of venereal disease diagnosed and treated, one of which was contracted within the DaNang area.

Personnel changes in the Medical Section during the month included a new Battalion Surgeon and two hospital corpsman. One hospital corpsman rotated to CONUS for duty.

The major efforts of the CA Team were again directed toward expanding and improving the pig project. Some difficulty was encountered with skin disease among the pigs. This problem was overcome with the aid of Army Veterinarians. The new road to the Breeding Farm was completed during March.

During the early part of the month, clothing was distributed to refugees in the Phong Bao area.

A good working relationship was established with the Revolutionary Development Team in Phong Bao. The battalion provided them with various material and technical assistance during March.

The MEDCAP program continued to be implemented. People receiving medical assistance numbered 603.

Emphasis was placed on two new themes in the Psychological Warfare campaign. Those were VC disregard for civilian lives and don't give rice to the VC.

During March materials were distributed in the following quantities:

- 13,200 Pounds of garbage
- 125 Articles of clothing
- 120 Bars of soap
- 52 Sheets of roofing tin
- 14 Quarts of paint
- 1 Truck load of sand

My SITREP 065 for the period 050001H to 052400H March 1968

1. Major Operation Summary. None.

2. Significant Contacts

051910H At 1745H C-11 detonated a mine on the MSR at BT 070695. It is believed to be command detonated because it was the second vehicle in the column that was hit and the mine was emplaced two meters from the edge of the road where a treeline comes down to the edge of the road. The mine consisted of 50 pounds TNT blowing off #4 and #5 and damaging #3. #3, #4 and #5 housing blown loose. Vehicle was towed to ACCP. (Damage to right side).

051900H C-11 and C-13 received two mortars rounds while preparing C-11 for towing. ARVN troops providing security for vehicles pointed out where the rounds came from; C-13 fired three rounds 90mm high explosive - mortars ceased.

3. Plans Summary. None.

4. Significant Events

050745H C-21 and C-22 departed Hoi An Airfield for ROKMC GP.

050916H C-52 and F-33 departed CAP Golf 6 for Tu Cau Bridge with slave cables.

050947H C-52, F-33, C-11 and C-13 departed Tu Cau Bridge for ACCP.

051242H C-21 and C-22 departed ROKMC GP for Hoi An Airfield.

051730H C-13 and C-11 departed ACCP to provide night security for CAP Golf 6.

051732H C-52 and F-33 departed ACCP to provide night security for Tu Cau Bridge.
