VC was taken to Battalion CP Hill 69 (BT 468068).

Amplification Report of the Ky Phu Action

During the attack on Ky Phu (2) on 26 February and the subsequent investigation of the area in which the action took place the following observations were noted:

- (1) There was evidence many of the VC were treated for wounds and returned to the fight. Many had fresh bandages and field dressings on their wounds. For the number of estimated wounded they sustained, the VC apparently had a large force with medical units outside the wire to render medical assistance and evacuation. They seemed to be a concentrated effort by the VC to extract their dead and wounded. Dead bodies were found with leather harness strapped across their chests, under their arms and up the back of their necks, used to pull them off the scene of the battle. Two dead VC were found, one had been pulling the other with one of the harnesses when he was killed. Many of the seriously wounded VC kept fighting until they were killed. One VC that had his arm blown off in front of the wire, had a tourniquet and packed mud on the stump and yet crossed the wire and continued to throw grenades until he was killed. A possibility exists that the VC were doped for the attack.
- (2) The dead VC appeared well-fed, muscular, in good health and larger than the Vietnamese normally seen in this area. Many of the dead were about 5' 8" and 165-180 lbs.
- (3) The VC crawled under the wire to get inside the perimeter. There were scratches on their bodies and pieces of cloth on the wire. All dead VC were barefooted.
- (4) Once the VC were in the CP area, they seem to be more interested in obtaining weapons and equipment than killing PF's or Marines. One Marine Sergeant reported seeing three VC come out of his tent with his pistol, some 782 gear and clothing, and were trying to escape through the wire when they were killed.
- (5) During the sweep made by Company I on the afternoon of the 26th of February villagers in Thanh My Trung (1)(BT 445023) and Thanh My Trung (2)(BT 455033) reported VC had passed through that morning with many dead and wounded. Villagers were unable to give exact numbers but stated there were many dead and wounded and they had buried their dead in the vicinity (BT 465037). This area was searched thoroughly but Company I was unable to find any graves. The villagers were reluctant to give any accurate information as this area is VC controlled.
