#### 9. Mission Assigned

- a. First Battalion, First Marines occupies and controls assigned sector of TAOR, defends MLR in assigned TAOR, provides security for installation on Hill 327 (AT 971737), provides security force in coordination with Regional Forces for bridgat (AT 946699) and conducts unilateral search and destroy operations in assigned TAOR. The Battalion conducts aggressive combat/reconnaissance patrolling throughout the assigned TAOR, prepared to conduct combined and coordinated operations with RVNAF within or beyond the boundaries of assigned TAOR. The battalion designates one company as regimental reserve to be committed only on authority of Regimental Headquarters.
- b. The battalion conducts all operations in such a monner as to gain the loyalty and cooperation of the people and create conditions which permit the people to pursue their normal routine in peace and security.
- 10. Background. To accomplish the assigned mission the battalial TAOR has been divided into company sectors with each rifle conconducting ggressive patrolling, village sweeps and numerous ambushes in their assigned sector. The companies defend their portion of the MLR by employing observation posts, listening posts, road blocks, checkpoints and through occupation of prepared positions in critical areas. During the period 31 Novice to 18 December 1965 the battalion furnished one squad for DAN. As harbor security.

#### Administration.

a. Personnel Accounting.

(1) Since the last report, the difficulty encountered in the initial phases of the rotation of personnel to CONUS has been alleviated by the timely arrival of orders from higher headquarters.

(2) Since the last report, the difficulty encountered with replacements erriving without complete record books has been alleviated considerably. Those arriving from CONUS have had their records in their possession. However, personnel reporting to this command from other units within the 3d Marine Division continue to arrive without orders and or record books. In some cases, this causes considerable delay in joining the personnel concerned, in order to indicate the correct on roll strength of the command.

b. Awards.

(1) The following awards were processed and forwarded to higher headquarters recommending approval:

(a) Silver Star
(b) Bronze Star
(c) Nevy Commendation Medal
(d) Purple Heart

(2) 77 Purple Heart Medals were received by this command, and presented or forwarded to the personnel concerned.

(3) One Navy Commendation Medal w/combat distinguishing device was presented to a member of this command by the Commanding General, 3d Marine Division.

c) <u>Fromotions</u>. During this reporting period, the following promotions were effected:

(1) To First Lieutenant 3 (2) To Sergeant 6 (3) To Corporal 9 (4) To Lenge Corporal 16

d. Postal.

(1) The battalion post office received an inspection by the division postal officer. The descrepancies found were noted and are being corrected.

(2) The battalion post office was moved to a new location, which provides improved working conditions and increased security.

(3) Mail continues to arrive twice drily. Service is considered excellent.

#### e. Pay. No change

f. Post Exchange. The PX serviced the bettelion on two seperate incresions during the month. On both occasions, it became nesessary

for the battalion to furnish organic transportation in order to pick up supplies and service the companies. The normal amount of time required to service the entire battalion is two days. The reason is the physical separation of the companies, the extra rifle company presently under the operational control of this command, and the condition of the roads. In both instances, the quantity of supplies has been adequate to service the entire command.

- There were two applications submitted this month by Staff Non Commissioned Officers of this command requesting selection for either warrant officer or second lieutenant.
- h. <u>Legal and Discipline</u>. The following action on legal and discipline matters of this command was completed during this reporting period.

(3) One Special Court Mertial conducted in October is being reviewed by the Judge Advocate General.

(4) Investigations. There were three investigations completed during the month, three more are presently being conducted.

(5) Inquiries. Two inquires were conducted in accordance with par 13265 of the MARCORPERSMAN. One resulted in the discharge of the subject Marine for reasons of unsuitability. The other resulted in the retention of the subject.

#### 3. <u>Intelligence</u>

a. Enemy Situation at the beginning of the period. Intelligence reports revealed that VC morale has improved but supply problems, especially the procurement of rice, remain critical. Informers reported that VC were planning raids on rice growing areas within and adjacent to the MLR because many rice caches were captured and destroyed by ARVN and USMC units in past months. One significant report revealed that the USMC units at Hill #41 (AT934664) and Hill #22 (AT954668) were mindering the VC supply line from the low lands to the mountainous area in the west. No VC Main Force attacks were made at the beginning of the month despite continued reports of VC Main Force companies and be ttalions preparing to attack the area of Hill #41 and Hill #22. All C activities at the beginning of the month were limited to probing actions and sniper fire.

#### b. Enemy initiated incidents during the period.

- (1) The enemy initiated thirty-four incidents within the TAOR of 1st Battalion, 1st Perines. Sixteen of these were during daylight hours (0600-1800); the remainder were during the hours of darkness (1800-0600). The majority of the incidents reported were probing actions and harassing sniper fire.
- (2) 121305H December 1965 a lone VC attacked a Bravo Co. observation post killing 1 Marine and capturing 2 M-14 rifles. This is the only incident of an actual VC assault on a USMC position within the TAOR during the month of December.
- (3) 2623554 December 1965 an unknown number of VC delivered intense snall arms fire and several rifle grenades against Alfa C. security squad at the pontoon bridge (AT947699). No friendly casualties were suffered and the VC withdrew when the position could not be penetrated.
- (4) This month, agent reports confirmed the presence of a Main Force VC Battalion in the southern sector of the T4OR. This unit has been tentatively identified as the DOC LAP Battalion. On three occasions unconfirmed reports were received locating a PAVN Battalion in the mountainous area, west of the TAOR. The reports have not been substantiated by the capture of PAVN soldiers or PAVN ralliers.
  - c. Summary of enemy casualties, captured, and equipment captured during the period.
    - (1) Viet Cong Losses (Personnel)
      - (a) One KTA

ENCLOSURE (1) SECRET

- (b) Two WIA (Both WIM's later died of wounds)
- (c) Five VCC
- (d) Sixty-eight VCS
- (2) <u>Viet Cong Lesses (Weapons)</u> (Nene)
- (3) Vich Cong Losses (Miscellaneous)
  - (a) Eleven man traps
  - (b) Four booby traps
  - (c) Three bear traps
  - (d) Three caves
  - (e) Two Viet Cong flags
  - (f) Two Viet Cong homemade mines
  - (g) One pistol belt
  - (h) One ChiCom Grenade
  - (i) One flare
  - (j) One spider trap
  - (k) Numerous propaganda leaflets
  - (1) 4,000 pounds of rice
- d. Significant trends noted during the period. Nineteen reports of battalion sized units were received during the month of December. Of these, three were reported to be PAVN units and the remainder Viet Cong Main Force. Although reports indicate a build up in the southern portion of the TAOR, the reported units did not initiate any offensive activity. Viet Cong prisoners taken by ARVN units revealed that the Main Force VC units bolstered guerrilla morale by providing heavy weapons support to guerrilla attacks; Main Force units did not participate in the assault phase of the attacks. The establishment of the new MLR has seriously impeded VC movement in the populated areas of the TAOR. The protection provided by this new deployment has increased our ability to protect the local populace thereby making them more at ease in reintering intelligence information. In celebration of the 5th Anniversary of the NLFSVN, the Viet Cong increased propaganda activities and indoctrination throughout the western and southern areas of the

TAOR. The threatened attacks on U.S. units and installations in the Danang area never materialized. It is highly probable that the lack of VC activity during the period is due to the withdrawal of local units to base areas to train and prepare for future operations. The VC monsoon offensive never materialized due to increased patrolling by front line units and it can be expected that the Viet Cong will attempt to gain the initiative in the coming months.

e. Enemy situation at the end of the period. Enemy activity has increased in the AN MY area (AT9260) and HOI VUC (AT8770). Both of these areas are on the periphery of controlled areas and offer the Vict Cong forward operating areas in close proximity to jungle bases. The enemy initiated two incidents during the 30 hour Yuletide cease fire, although "C propagandists stated they would abide by the cease fire. Both incidents involved small arms fire delivered at friendly units. Friendly patrols have not succeeded in establishing contact with major VC units but have apparently succeeded in confining VC units to the west and south of the TAOR.

OF CLASSIFIED

a. Objectives. - (1) There were no attachments added to the task organization of the battalian during this reporting period.
- (2) Company "F" (Rein) 2nd Bn, 1st Marines replace: Company "I" (Rein) 3d Bn, 4th Marines on 21 December 1965 and is now under the operational control of 1st Bn, 1st Marines. Company "I" returned to its parent organization and is now under operational centrol of 3d Bn, 4th Marines.
- d. <u>Ontrol</u>. Control of the Battalian was excreised from the Battalian Command Post throughout the entire reporting period. Vire and radio communications continue to be used equally to exercise control over the rifle companies. On 5 December 1965 the command bunker was completed and the S-2/S-3, FSCC, and critical communications facilities commenced operating from it.
- e. Problem Areas. No significant problems exist in the area of command and control.

- w Wire. No change.
- b. Radio. The battalion berrowed two AN/PRC-25 radios from FLSG for employment with a deep recon patrol. These radios have provided outstending communications. Battery life of the BA-386/U (AN/PRC-25) has exceeded 72 hours and the batteries are still in use. It is recommended that radio sets AN/PRC-25 be allocated to the infantry battalions as soon as possible.
  - c. Radio relay. No change.
- d. <u>Message center/teletype</u>. Teletype (AN/TGC-14(V)A) and crypto equipment (KW-7) have provided continuous on-line communications during December. The battalion message center handled over 400 electrically transmitted messages without an equipment failure.
  - e. Maintenance and supply. No change.
- f. Problems encountered. The main problem during December has been the supply of small, but important items such as lance poles PO-2 (telephone poles), electrical tape and electrolyte kits for BB-451 batteries.

- (1) USOM provided the villagers from THACH NHAM Hemlet (AT 950717) with 20 bags of cement for a well.
- (2) USOM provided Hieu Duc District Dispensary with 160 bags of cement, 100 aluminum sheets for roofing and some lumber to construct a 20 bed annex for the dispensary. This will be a self-help project with all labor being provided by local villagers. Estimated time of completion of project is 1 March 1966.

d. Appe on Resills of Civil Affairs program.

- (1) During December, each company has continued to consolidate their positions and has made daily contact with the villagers in the respective company sectors. Every effort has been made to consult with village or hamlet chiefs prior to undertaking any action which may affect the local population.
- (2) Of particular note is the definate increase in the friendliness of the villagers through the controlled areas of 1st Battalion, 1st Marines TAOR. Practically all villagers traveling along the roads within the MLR wave and say hello to any Marine who passes them either on foot or in a vehicle.

# UD Doctor Explores New Face Of Viet War

An Upper Darby Navy Lieutenant with medical training is playing a major role in a new kind of war in Vietnam. This is a kind of war that many observers believe may have a greater impact on world peace than conventional fighting has had so far.

One scene of that war, as described by eyewitnesses, would go like this:

A villager in the tiny settlement of Phouch Nhin would fome forward to a mobile disensory, set up by Marines of the 3d Battalion 4th Marine Regiment. Lt. John E. Becker, from Upper Darby, would ask "What seems to be bothering you?" A translater would act as the intermediate and the villager with a baby in one arm would reply: "I can't sleep at night because of pains in my back."

Dr. Becker would examine him, prescribe some treatment and feasible medication, and call for the next patient.

The new "war", known as MEDCAP (Medical Civilian Assistance Program) would continue throughout the day as villager after villager would come forward and describe his symptoms. The first MEDCAP tam is composed of one civil affairs officer, one doctor and

three corpsmen. The new "war" has the same battle-

ground as the conventional Cong may always be found war in Vietnam and the Viet somewhere in the bleachers.

NAVY DOCTOR Lt. John B. Becker, Upper Darby, applies disinfectant to forehead of a Vietnamese village child who had come to the mobile dispensory set up near Da Nang. Infections were among the most common sufferings of the villagers. Becker reported.

Photo and news item contained in the Pennsylvania Delaware County dated 9 December 1965. NOTE EDITORIAL ERROR: Spelling of dectors' last name should be BOCKER and unit mentioned should be 1st Battalion, 1st Marines.

### Does Job In Hoa Loc

DA NANG, Victnam (ISO)— The Marine Corps-Navy civil affairs team of the 1st Bn., 1st Marine Regt., 3d Marine Div. has enlisted the aid of the U.S. Army in a people-to-people program in a village near here.

Working closely with the Marines and the Navy corpsmen in the village of Itoa Loc is an Army psychological warfare team whose purpose is to counter Vict Cong anti-American propaganda.

The Army's psywar team adds, another facet to the Marines' successful civil affairs program by showing the Vietnamese through magazines and motion pictures ways to improve farming methods and raise cropyields.

While the 1st Bn. Marines goes about the business of distributing soap, food and clothing, a Navy medical team treats villagers for cuts, infections and skin diseases. At the same time the Army psymar team makes a house-to-house visit distributing information filled magazines and talking with the villagers.

Highlight of the 1st Bn.'s effort' me an evening movie, usually shown at the village school house

The civil affairs team said newsreeks showing the truth of the war in Victium always play to a full-house."

THIS ITEM APPEARED IN THE 21 DEDEMBER 1965 ISSUE OF THE STARS AND STRIPES

## Now No Bullets

The civil affairs team of the 1st Bn., First Marine Regiment, 3rd Marine Division, is not a timid crew. In performing their function of giving medical help to Vietnamese villagers and distributing gifts of clothing and food from the United States, they do not limit themselves to safe areas of the countryside.

Recently, accompanied by a squad of Marines, the team penetrated into an area normally seen only by heavily armed patrols

only by heavily armed patrols.

In a small hamlet near Da
Nang, Vietnamese interpreters
announced the presence of the
"bocsi" (doctors) over a loud
speaker.

Despite pouring rain, a crowd soon gathered around the Americans to receive treatment from the Navy corpsman.

After the medical team finished their work, Marines passed out clothing and canned foods to the Vietnamese.

The team members are convinced that their audacity is paying off. Navy corpsman Robert LeBiane (Windsor, Ontario, Canada) feels their work is effecting a permanent change in the people's attitude toward health and cleanliness.

The daily visits to the country!
side are showing definite results. I according to 1stLt. Jim Keeley, battalion civil affairs officer. "In the beginning, nobody waved at 1 you on the road, and you couldn't go out without getting shot of "

go out without getting shot at."
Now the team is greeted by friendly waves and shouts almost tonywhere they go in the battalton.
