II.TI LLYGI.CL SUMMARY FOR PERIOD O618001: TO O61600H DEC 65

1. <u>FREAT SITUATION</u>. The following intelligence reports were received by the S-2 Section.

Sierra rpts 0717351: Agent reports that 7 Dec 1965, 1-VC Co. commanded by LGC CLAU iIGALG, with a strength of 11C men, weapons 1-60mm mortar and 1 machine gun, moved from vic. (AT&89601) to vic. (AT~947625). Time of movement is unknown. B-3 rating. Agent also reports that the 2 VC Companies previously reported at (AT&65707) and (AT&85697), have moved. The location of 1 company 1s unknown and the other, led by VC XUAN LAM, has moved to (AT&65655). B-3 rating.

Crowd 2 rpts C7183CH: From Shove 3rd CIT at O7172CH. Report that Buddish are staging a demonstration in the city of Da KakG. The reason for the demonstration is the failure of U.S. to pay for damages to pogodas.

Bravo 3 patrol rpts Obl4CG: a possible river crossing at (aTe 905709). The fcot trail leading up to the river tank appeared to be well traveled. Found a sign at (aT695701) which said in English, "to American Soldiers in South Viet Nam, no dying for the purse of the capitalist yankee." The sign had a Vietnamese sign next to it saying possibly the same thing. Sign measured 11/2 X 3 feet. It was made from an aluminum anso. bix, green and pink paint were used. Appeared to have been done by a professional painter. Found punji stakes along trail last to west in GS (aT9070). The civilians seemed moderately friendly. All trails in the area seemed to be well traveled.

Bravo 3 patrol rpts C81415N: Information received from HGA THUCHG Village Chief and Police Chief, (unevaluated). They report that there are many mines forward of Bravo 3 position GS (AT\$970), (AT\$070), and (AT\$170). VC plan to mortar Bravo 3 position and attack it from the rear, (possibly meaning from the Fast).

#### 2. lilay activity.

#### SPICIAL INTELLIGENCE REPORT FROM III MAF

In order to decrive and destroy the Vietnamese Troops, the VC are using locally manufactured granades that have a firing system of acid. The tops of the granades are painted either blue or red. The safety pin is always painted blue. The VC pretend to forget the granades in the field and akVk personnel confiscate them. When the granade is picked up, and pressure is placed on the granade, it will detonate. ARVk Intel. CIT: The acid firing system has been confirmed. This is the first indication of special colors on these granades. It appears that this type granade is booby trapped in such a manner that, when a person holds it in his kand, even though the safety pin is still firmly in place, and any pressure is applied, such as that of holding it in the palm of the hand, the granade will explode.

### SPICIAL LATELLICINCE NOTE.

Three days during the month of December have special meaning to the Viet Cong.

5th anniversary of the founding of the Kational (1) 20 Dec. Front for the liberation of South Viet Name

(2) 23 Dec. The founding of the Peoples army of North Viet

MAG TSF TUNG's birthday. (3) 26 Dec. Lest year to commonate the 4th anniversary of the AFLSV., the VC substaged an american billet on 24 Dec. 1964. This year they subotaged another aderican billet on 4 Dec. 1965. Although the above incidents occurred both before and after the actual date of the amilyersary, they were conducted to colebrate the anniversary.

It is probable that other acts of terrorism and subotage will be conducted to mark the celebration. All U.S. cersonnel and installetions are considered excellent targets and several reports have less received concerning threats against the Da mand area. Every 1.5. installation must be considered a possible target. The per-led 18-27 December includes the quarter and new mean phases. The VC normally take advantage of these periods of maximum darkness and increase their sabotage and terrorism.

MELLICITUDE SUMMARY FOR PERIOD 221800H TO 231800H DFC. 1965

### 1. ELLMY SITUATION.

Sierra rpts 221907H: HOA VANG special Sector reports, Agent received information for Marine and Vietnamese units to be especially careful on Christmas and New Years Bay. VC will increase actions to harass and annoy villages and hamlets. It is believed that an attack will occur around HIFU DUC District liq. between now and the end of the year. C-2 rating by HOA VANG Special Sector.

Crowd 2 rpts 22195CH: Message from Shove, a Northern Sector of QUANG NAM reports. Rated B=2 by QUANG NAM Sector, Shove rates this F=3. It is known by intelligence reports that 1-VC Bn., commander and designation unknown, with a strength of 350 men, equipped with mortars, FAR's and individual weapons, are located in the area of DIEN BAN (AT970655). Their mission is to attack USMC forces at the following locations: (AT953667) and (AT934663). Addressees are requested to follow up and take preventive measures. This advice came from QUANG NAM Sector.

Crowd 2 rpts 222025H: St. Joe 3 Charlie (Recon) reports hearing drums and small arms fire in the AN AY Village Complex, vic. (AT910611).

Crawd 2 rpts 222055H: Report from HOA VANG 221818H. Report 1 VC Plt. in the area of (BTO34678). It is believed that their mission is to attack the HOA DA Bridge. Also report 1-VC Co. located along the West edge of the river bank from (AT953645) to (AT965665). Believed to be the same unit which infiltrated CAM NE (2) at (AT990688) on 21 Dec. 1965.

Bound Charlie rpts 230955H: Agent reports 1-VC Plt. with a strength of 36 men is located at GS (AT8669). Their weapons are 1 Bar. 5 M-1, 2 MAS-36 and 13 carbines. The VC are from NINH AN CS (AT9070), TRUC DONG GS (AT9170), and GIAO TRI GS (AT8770). Their mission is to harass USMC positions on 23, 24, and 25 Dec. 1965. F-6 rating. (S-2 Comment). Possibly HASON Plt. which is reported to operate in that area.

Sierra rpts 231115H: Report that the woman, LE TRI DAC, memtioned in a letter captured by Bravo Co. from a VC WIA on 21 Dec. 1965, is the wife of CHAO QUANG TUYEN. TUYEN was known to be a VC North Vietnamese District Chief in 1954. He may now be a VC Province Chief.

Bravo 6 rpts 231640H: Report that there were 40-50 people in the hamlet of Kijuong MI (2) GS (AT9169). Normally there are from 100-200 people in that area. This could indicate VC activity later.

### INTELLIGENCE NOTE.

1. Interrogation of a recent VC returned and other intelligence indicates that VC/PAVN elements in RV. may be equipped with the ChiCom version of the Soviet 120mm MI943 mortar. This 120mm more tar breaks into three loads, for pack transport; characteristics are as follows:

Caliber - 120mm
Length of tube - 73 inches
Weight in firing position - 606 lbs.
Llevation - plus 45 to plus 60 degrees
Traverse any degrees
Maximum rate of fire - 15 RPM
Muzzle velocity - 892 ft. per sec.
Weight of projectile - 34 lbs.
Maximum range - 6230 yds.

2. Following an attack by enemy mortars, craters and surrounding areas should be searched for tail fins and fuze bodies which will allow technical intelligence personnel to identify the type of weapon used.

1(3) Overlay-Patrol Routes and Significant Activities

(4) Lessons Learned

1. As directed by enclosure (1), Gomeany "D" (Rein) departed its CP area at 050800H, established a patrol base/observation post on Hill 112 (AT 889687), and some need patrolling to locate stream crossing sites and routes into the HOI VUC (AT 872707) sweep objective. Enroute to the patrol base, Delta 1 received one (1) round of sniper fire and Delta 3 discovered one (1) hooby trap (See enclosure (3)). Unable to determine more than a general location of the sniper, Delta 1 continued on its mission.

- 2. By nightfall, patrols had reconnoitered approximately four kilometers of stram bank to the West and South of the commany patrol base, and reported no suitable crossing sites, because of steep banks, deep water, and swift current. Two swimmers tried to get a line across at the site indicated on enclosure (3), but the attempt was abandoned after one got into serious difficulty in midstream.
- 3. The unfordable stream was reported to Battalion Headquarter, which designated GIAO TRI (1) (AT 888700) as the alternate swedy objective for the following morning. Charlie 2 was instructed to modify its blocking position accordingly. Delta 3, which had been designated as the MOI VUC sweep force, was designated to sweep GIAO TRI (1). At 052100H, Delta 3 received three (3) rounds (semi-automatic carbine) from an undetermined location Vest of the stream (See enclosure (3)). Fire was not returned for lack of a suitable target. Three ambusies were established—one in each platoon area.

4. The sweep of GIAO TRI (1) lasted from 060645% to 061100H. During the sweep, one (1) cave (See enclosure (3)) and two (2) trench lines were discovered. Two (2) CS grenades were thrown into the cave, but no one emerged. The attached engineer team destroyed the cave. The trench lines were in an advanced state of deterioration, and had apparently not been used in several months. Two (2) fifty-year-old farmers, the only men in the area, were brought in from nearby fields for questioning. The Vietnamese interpreters recognized them as persons who had been interrogated and cleared in earlier operations, and they were released. Under questioning, a woman indicated that a platoon of Vietnamese speaking a strange dialect (Interpreter's Note: presumably North Vietnamese) had been in the village two weeks before, but had departed to the northeast in twos and tarees after a day or two.

5. At the conclusion of the sweep, Company "D" was ordered to move to (AT 900670), set up a patrol base, and conduct night ambushes. Charlie 2 was returned to operational control of its parent unit. Enroute to its new objective, Delta 3 received three (3) rounds of semi-automatic carbine fire (See enclosure (3)). It returned fire with one (1) 3.5" "P round, and the sniping ceased. As it neared its objective, Delta 3 conducted a quick search of the ten houses in PHUOO MINH (6) (AT 902675). Nothing of a suspicious nature was discovered. The villagers appeared cooperative and friendly. Four ambushes were established, as indicated on enclosure (3), with negative contact during the night.

6. At 070800H, Company "D" commenced its return move, closing on its CF area by 071200H.

#### LESSONS LEARNED

COMPLET: These marshes, varying from knee to hip deep during the rainy season, are extremely slow and noisy to traverse. They are regarded as poor avenues of movement, and, accordingly, as poor Mal targets.

RECOMMENDATION: That H&I fire: planning concentrate on the ridge lines in this area, which afford the best means of night movement for VC units and couriers.

2. ITEM: Before departing on the operation, Marines emptied the contents of "B" ration dehydrated soup cans into plastic laundry bags, to be carried at the squad level.

GOH ENT: This proved to be an effective load lightening device, and a handy source of hot meals cooked either in squad "pots" (#10 cans) or in individual C-ration cans. If "minute" rice were available to be carried in this fashion, it is estimated that C-ration load could be halved.

RECONTINUATION: That future patrols be encouraged to experiment with these and similar load lightening methods, particulary in the area of rations.

(3) Lessons Learned

1. In accordance with reference (a) the following report of action and sequence of events is submitted:

a. As directed by enclosure (i) Company "D" (Rein) departed its CP area at 230700H December, enroute to TUFG SOM (AT 845724).

b. On the riverside trail between NINF AN (3) (AT 9170) and NING (2) (AT 9071), elements of Company "D" discovered a series of artistically lettered English-language signs of the "Yankee Go Home" variety, spaced in trees, and ten to twelve feet above the ground. A VC bulletin board, which described the early December hotel bombings in Saigon and VC liberation efforts, was discovered in the same area. Villagers said that the board had been up less than twenty-four hours. A minefield sign was also found in the area, but a check for mines in the area yielded negative results.

c. At 2313134, a stream crossing was attempted in the vicinity of BINH THAI (IT 8871). The 3rd platoon, Company "D", received two bursts of automatic fire (approximately 20 rounds) from the vicinity of (AT 888715). Fire was returned with small arms and six rounds from 14-79°s. A search of the area brought negative results.

d. At 231700H, the 1st platoon, Company "D", discovered a booby trap (Chinese grande rigged with a trip wire) along a trail at (AT 870715). The grande was destroyed in place.

- e. The 2nd platoon, Company "C" (Oon Con Company 'D"), initially following Company "D" in trace, sighted five VC across the rivor (aT 874707). The Charlie Two platoon engaged the VC, with the scouts of the point delivering fire which killed one VC and wounded one VC. The three other VC darted into dense brigh, while the remainder of the platoon pursued by fire. There were no driently gasualties. Of note was that the VC wore a helpettype be dge r, knowledge, of note was that the VC wore a helpettype be dge r, knowledge and carried carbinas. The lat platoon, Company "D", heard the fire fight and was six handred noters lest of Charlie Tho, along the rivers The secret shiper term, organic to Company "D", was able to deliver account their call niced shots were on target and hit the VC, also.
- f. The Charlie Two platoon established a PPB in the vicinity of (AT 886705) in order to observe HOI VIC, and to be in position to block on D+2 when Company "D' was to search and destroy within the HOI VIC complex.
- g. At 240745H, Delta One swept the village of TUNG SON. The village was deserted, and its houses and fields appeared to have been untended for at least one month. Numerous shell draters were found in the area. The sweep disclosed two hastily emplaced booky traps (2-26 grenades with pins loosened) and three large book shellers, with concrete entrances and steps. Grenades and shelters were destroyed by the attached engineer team. A 75 pound crock of rice was discovered and destroyed.
- h. At 241405H Company "D" was ordered to return to the HBR, and to bort the operation on the village of HOI VIC on D+2. The reson for the abrupt change in plans was due to a message received just prior to 1400 stating that a "cease fire" would go into effect at 241800H. The Charlie Two platoon commenced their return to the HER immediately upon receipt of the message. At 241545H, Charlie Two suffered nine HA's (none serious) at (AT 898718) caused by a homemade booby trap thought to consist of about three pounds of THT wrapped with barbed wire. Five 'HA's were evacuated by helicopter. Charlie Two resumed their novement to the NER, arriving at 241730H, without further incident.
- commenced its return to the MER at 241610H. Helicopters were requested, however none were available. At about 241820H, the lead platoon received approximately 30-35 rounds fired from six or seven different positions South of the riv r, in the vicinity of HOI VUC (AT 872707). The company immediately returned fire with all organic weapons, including 60mm mortars. Artiflery fire was requested on preplanted concentrations, and the mission was fired within 50 minutes. By 241840H all firing had censed, and Company "D" was ordered to establish a base camp for the night, conduct no offensive actions.

an await possible helilift during the night, or morning of 25 December. No firing occurred during the remaining hours of darkness. Maximum security measures were taken.

j. Helicopters did not extract Company "D" during the night; however, a helilift commenced at 250825H which lifted the company from (AT 868709) to LZ 'Mippoorvill. As each flight of helicopters entered the LZ across the river from HOI VUC, VC small arms fire was directed at the helicopters. Company "D" returned fire, again with all organic weapons, including 60mm mortars. Several helicopters sustained hits from VC small arms fire, with one crew member wounded in the arm. Two Marines were wounded (minor) while they were in the LZ preparing to board helicopters for the last flight of the lift. The helilika was completed at 250855H.
