2330		123	282330	PC-P: At 282330H 12 explosions occurred in the vicinity of Charlie 3 PB. Charlie 4 patrol returning to the base area had several explosive devices detonated on the flanks of and within the patrol causing (1) KIA and (1) MIA. The explosions were initially thought to be mortar fire but lack of fragments deny this conclusion. In the flash of the initial explosion the two point men of the patrol saw 6-8 VC whom they fired on before being knocked down by subsequent explosions. The VC withdrew without returning fire. A search of the area by the patrol
