3. Intelligence

a. On 100333H Sep67, CAP-D4 was attacked by an estimated 150 Viet Cong using bangalore torpedoes, mortars, and B-40 rockets. The position was completely overrun in the attack, which lasted 30 to 45 minutes before the Viet Cong withdrew. No confirmation of an enemy unit could be found, but it is felt that the attacking force was most likely elements of the V-25 Mainforce battalion and probably approached and withdrew from across the Hoi An River.

b. On 110300H Sep67, this Battalion's Command Post received five (5) 140mm rocket rounds, all of which landed in or near the artillery section causing minor damage. Artillery fired counter-rocket concentrations on suspected rocket launching sites located southeast of the Battalion's Command Post below the Hoi An River.

c. On 110320H Sep67, Hieu Nhon District Headquarters was attacked by an estimated Viet Cong battalion using B-40 rockets, 57mm recoilless rifles, mortars, and satchel charges. The position was completely overrun in the attack, which lasted 15 minutes. No confirmation of an enemy unit could be found, but it is felt that the attacking force was elements of the V-25 Mainforce battalion guided and supplemented by the Q-12 local force company. The attacking force most likely approached from the immediate south.

d. When compared with the previous reporting period, the number of incidents increased just slightly in all categories indicating a continuation in the enemy's policy of harassment and hit-and-run raids.

e. Weather during the reporting period remained favorable to friendly operations within the battalion's TAOR. Water barriers continued to be no problem. The increasing precipitation as yet has not affected operations.

f. The Viet Cong initiated a total of 148 incidents during the reporting period. These incidents are categorized as follows:

(1) Engagements	26
(a) USMC initiated	21
(b) Enemy initiated	5
(2) Harassing fire	48
(3) Mines and booby traps	95
(a) Anti-personnel	76
(b) Anti-tank/vehicular	19

g. Summary of enemy casualties, personnel captured, and equipment captured or destroyed during the reporting period.

4. Operations and Training

a. Operations

(1) The 1st Bn(-) conducted a search and destroy operation on Barrier Island during daylight hours. No significant contact was made.

(2) The Bn conducted normal small unit operations during the month of September. In addition to these operations, the Bn provided security for GVN installations in Dien Ban and Hoi An during the month of September.

(3) Companies A & B conducted a search and destroy operation in Zone 1 of this TAOR. No significant contact was made.

(4) Company A conducted a two day search and destroy operation in Zone 1 of this TAOR. No significant contact was made.

(5) Company C conducted a two search and destroy operation in conjunction with 3/1 in the Viem Dong area. No significant contact was made.

(6) Small unit operations during September resulted in two significant contacts.

(a) Early on the morning of September 10 CAP B-4 was attacked and overrun. This resulted in 7 USMC KIA, 7 USMC WIA, 2 PF KIA, 2 PF WIA and 5 PF MIA.

(b) Companies A and C were conducting search and destroy operations in the Tan My (1) area and the "Horseshoe" area. A Company killed 2 VC and C Company killed 5 VC hiding in caves and/or tunnels. C Company also captured 3 VC, detained 2 Vietnamese and captured 3 weapons.

(7) The Bn conducted extensive small unit operations within the TAOR to find, fix and destroy enemy forces and supplies. During September the Bn conducted 400 fire team, 558 squad, 51 platoon and 6 company operations.

b. Training

(1) The following schools were conducted in the Battalion area during September 1967.

(a) One starlight scope school was given for 15 men. The class included 1 hour of class room instruction and two hours of practical application and firing at night.

(b) Three four day orientation courses were conducted for a total of 86 men.

(c) Two, two hour classes were given on the B8 CS-1 Root Disperser System. 65 men attended.

(d) Companies were individually instructed in the use of the Mask, Field Protective, M-17 and a CS gas chamber was used to test Gas Masks.

(e) B&S Co fired the 900" range to test fire and zero their weapons.

Logistics

a. Supply. During the reporting period, the overall supply situation remained satisfactory with discrepancies. The excesses revealed by the August inventory were invoiced to FLC during September. Some shortages exist, however. These include accessories for AN/PAC-25, certain sizes of jungle utilities, jungle boots, some office supplies and items of 782 gear (magazine pouches, canteen covers, helmet sweat bands, and pistol holsters). Previously reported shortages of sandbags no longer exist. Operational emphasis on supply warehousing procedures and supply maintenance of records was stressed during September.

b. Maintenance(1) Motor Transport

- (a) Seven M422a1 trucks deadlined 3rd echelon, one 2nd echelon and two code X'd.
- (b) One M-170 ambulance deadlined 3rd echelon.
- (c) One MRC-83 deadlined 2nd echelon.
- (d) One M27442 platform deadlined 2nd echelon.
- (e) Two M-107 trailer tank code X'd.

(2) Supply. Three typewriters turned into general supply maintenance company 1st FSR, two of these typewriters have been in for repairs since 26 July.

(3) Engineer. Water pump maintenance continued as a problem area, generator maintenance requirements were high but were resolved during September.

(4) Ordnance. The battalion inventory, LTI and fam firing of M16's is completed, but will be continued on an as required basis. Of 921 authorized M16 rifles 888 are issued, 17 were on requisition and 17 were at FSR for repairs. Disconnectors and recoil springs for the .45 cal pistol were high usage items which continued in short supply.

c. Food Services. The messhall continued to serve A-1-11, Headquarters 4-11, "I" Battery 4-11, 1st platoon 3rd 8 inch Howitzer Battery in addition to H&S Company and one rifle company in garrison. Infantry units and two CAP units were provided chow, food supplements and ice in the field.

d. Cantonment and Camp Facilities. "A" Company 1st Engineers completed the watershed roof for the battalion COC bunker. 7th Engineers graded the laterite road within the Battalion C.P. on several occasions, however, the request for resurfacing and addition to this road is still a valid need. With the abandoning of the company patrol base at BT 017572 and the salvaging of materials and Class IV efforts to improve existing positions continued. Additional tent decks were required and valid work requests were submitted for them.

DECLASSIFIED

e. Transportation. The overall transportation picture was impaired by the excessive shortage of M422's due to 3rd echelon deadlines and excessive usage requirements on available vehicles. Previously reported need for assignment of two additional 6x6 trucks still existed.

f. Water. The water point continued to provide 18,000 gallons of water per day with a need for additional water points at critical locations within the TAOR.

g. Embarkation. One Battalion Embarkation NCO attended the Division Embarkation Course and one will be scheduled as soon as a quota is available. The Battalion has three Embarkation schooled officers. Unit embarkation data is up to date, with unit embarkation efforts continuing.

6. Communications and Electronics

a. General. Radio, wire and message center operations were conducted with no interruptions of essential services.

b. Radio. During the month of September no major difficulties were encountered.

c. Wire. During the month of September a very sharp increase in V.C. activities was noticed in cutting of battalion wire lines outside the O.P.

d. Message Center. Normal "ON LINE " crypto operations were conducted.

f. Maintenance and Supply. Difficulties are outlined in subparagraph (g).

g. Problems Encountered. The shortage of repair and component parts for the AN/PRC-25 radio continued to be serious.

3. Intelligence

a. On 2 November, Companies B and D departed Quang Tri on Operation LANCASTER, a search and destroy operation under the 3d Marines. Company C was Opcon to 2/1, working generally west and south of Quang Tri, and Company A was Opcon to Cua Viet in defense of the Antrac unit there. LANCASTER ended on 10 November and Operation KENTUCKY began on 11 November. KENTUCKY, a search and destroy operation under the 9th Marines, ended on 16 November and Companies B and D returned to Quang Tri on 17 November for Con Thien. Except for a small rear echelon, the remainder of the Battalion followed on 20 November and all remained at Con Thien through 30 November.

b. LANCASTER took place generally between the YD 60 and 69 east-west grid line, just west of the MSR between Cam Lo and Con Thien. KENTUCKY took place generally east of the MSR, between the 71 and 67 east-west grid line. Both were free of enemy contact. Numerous living bunkers were discovered and destroyed, and some enemy gear was captured.

c. Activity at Con Thien was light during November, maximum effort being directed towards bunker improvement. Several company (-) sweeps were made near the perimeter, and at 260950 November, Company A made heavy contact with an estimated reinforced NVA platoon. In what amounted to an L-shaped ambush, the enemy opened fire with 60mm mortars; then immediately pinned down the company with heavy small arms/automatic weapons fire, and finally brought in 82mm mortars. All fire was well disciplined and accurate. Alpha consolidated and returned fire, bringing in air and artillery fire as well as organic 60mm mortars. Company D was dispatched to help extract Alpha, and was successful in causing the enemy to break contact and withdraw to the northwest. Withdrawal was orderly and well covered with fire. The enemy was well established in well camouflaged bunkers; surprise was complete, and the conduct of the firefight and withdrawal was thoroughly professional. Company A inflicted 6 KIA (C) and 10 KIA (P). In addition, they knocked out two machine gun positions. The tactical situation prevented any capture of equipment.

d. The enemy situation in the Nui-Con Thien Area, based on intelligence estimates, consists of elements of 3 NVA regiments working around Con Thien. Dispositions are small recon elements screening Con Thien, with larger units dispersed in depth and capable of massing quickly to hit targets of opportunity.

e. The weather remained surprisingly clear, with only several days of precipitation. Availability of air support continued to assist in keeping the enemy activity down.

f. The enemy initiated a total of 40 incidents, categorized as follows:

(1) Engagements	1
(a) USMC initiated	0
(b) Enemy initiated	1
(2) Harrassing Fire	13
(3) Mortar/artillery fire	26*
(4) Mines and booty traps	8
(a) Anti-personnel	8
(b) Anti-tank	0
(c) Found	5
(d) Detonated	3

* Total of 327 rounds, all received at Con Thien

DECLASSIFIED

DECLASSIFIED**4. Operations and Training****a. Operations.**

(1) The Battalion conducted normal small unit operations with an increase in company size patrols around Con Thien.

(2) On 1 November Company C chopped to 2nd Battalion, 1st Marines for a 2 day operation in the vicinity of Hill 80 (XD 247444).

(3) From 4 November 1967 to 17 November 1967 Companies B and D, with a command group, participated in Operations LANCASTER and KENTUCKY II & III. No significant contact was made by this Battalion.

(4) Companies A and C, with an advance command group, moved into Con Thien 19 November 1967.

(5) Companies B and D, with E & S Company (-), moved into Con Thien 20 November 1967.

(6) The Battalion conducted extensive small unit operations to find, fix and destroy the enemy. A total of 254 fire team listening posts, 16 squad, 31 platoon, 15 company and 3 battalion(-) operations were executed during the month of November, 1967.

b. Training.**(1) Battalion Training**

(a) There were 11, 3 day orientation classes held for a total of 233 men.

(b) There were 2, 2-hour Forward Observer classes held for a total of 70 men.

(c) There was one, 2 hour class held on the Starlight Scope.

(d) A total of 550 men fired the range for zero of their weapons.

(e) A total of 55 Seabees fired their weapons for zero on the Battalion range.

(2) Schools

(a) The Personnel Detector School held at Dong Ha was attended by 1 Officer and 8 Enlisted men for a period of 10 days.

(b) Schools held outside Battalion were:

SCHOOL	OKINAWA	III MAP	JAPAN
NGO	1		
VIETNAMESE LANGUAGE	2	1

AMMO TECH	2		
EMBARK SCHOOL	1 (Officer)		
CRYPTO SCHOOL			1

5. Logistics

a. Supply. During the reporting period the overall supply picture improved with priority assigned to filling the units requisitions. Some difficulties are being experienced in getting gear from FLSU-1; in the way of clothing and boots. Most monsoon items have been received, however, a shortage still exists for General Purpose tents. Accessories for the FRC-25 still remain short. Ammunition losses during this period were high and replacement in some cases.

b. Maintenance

- (1) Fourteen (14) M422A1 trucks deadlined 3rd Echelon Maintenance. One (1) M422A1 received an annual inspection.
- (2) One (1) M-170 Ambulance deadlined 3rd Echelon Maintenance.
- (3) One (1) M-37 truck, cargo deadlined 3rd Echelon Maintenance. One (1) M-37 truck, cargo deadlined 2nd Echelon Maintenance.
- (4) One (1) MRC-83 deadlined 3rd Echelon Maintenance. One (1) MRC-83 received quarterly PM.
- (5) Nine (9) M274A2 deadlined 2nd Echelon Maintenance (Starters) Two (2) M274A2 received quarterly PM. Two (2) M274A2 deadlined 3rd Echelon Maintenance.

c. Engineer. There are no engineer personnel attached to rear elements. A waterpoint is being utilized at the Airstrip Complex. Forward elements have engineer support in the way of, one (1) bulldozer operator, one (1) generator operator and four (4) engineers for minesweep.

d. Ordinance.

- (1) Four (4) M-60 machine guns deadlined 3rd Echelon Maintenance.
- (2) Four (4) M-79 grenade launchers deadlined 3rd Echelon Maintenance.
- (3) Two (2) 60mm mortars deadlined 3rd Echelon Maintenance.
- (4) One (1) 81mm mortar deadlined 3rd Echelon Maintenance.
- (5) One (1) Recoilless Rifle 106mm deadlined 3rd Echelon Maintenance. One (1) Recoilless Rifle 106mm short of the authorized allowance is on order.
- (6) Twenty-five (25) M16A1 rifles deadlined 3rd Echelon Maintenance.
- (7) Three (3) Starlight Scopes deadlined 3rd Echelon Maintenance.

e. Food Services. The battalion rear continues to eat two meals a day in the battalion messhall. The battalion forward is subsisting on C-rations with hot meals sent forward upon request. SP packs are being sent daily. There are four (4) water bills located at Con Thien with a 6 X 6 permanently assigned to that position. Availability of water seems to be no problem.

f. Cantonment and Camp Facilities. Since the recent move of the S-1 section and the Company Offices, all office space is located in tentage. Forward positions are utilizing bunkers as office space, as well as living areas. Emphasis is being placed on rebuilding defensive positions and living areas at the forward position.

g. Transportation. Maintenance problems with vehicles is still a hindrance to the effectiveness of the unit. Due to the recent use of house-cleaning trucks for resupply of material to Con Thien, an additional truck could be used. The placing of one TAD truck at Con Thien permanently, has reduced the work load at the forward position tremendously.

h. Embarkation. New mount out boxes are being prepared utilizing material received with monsoon gear in then. A complete up-dated Unit Cargo Manifest and Vehicle Priority and Summary Table has been submitted.

6. Communications and Electronics.

a. General. Radio operations have been conducted on Operations LANCASTER and KENTUCKY I and II. Radio communications have been continuously maintained with rear and with the First Marines. The Battalion moved in two echelons with two command groups maintaining continuous communications with 9th Marines; 1st Battalion, 9th Marines; and our subordinate units in the rear.

DECLASSIFIED

~~DECLASSIFIED~~

b. Radio. Radio communications during the month of November were maintained continuously during the Command Post displacement to Con Thien and on the operations named above without difficulties.

c. Wire. Wire communications have not been interrupted in the rear as a result of the move from Quang Tri to Con Thien. On the second day after our arrival at Con Thien we installed sixty-four (64) telephones, one (1) SB22 switchboard to Company B, one (1) SB22 to Company D and three (3) SB22's at the main switchboard completing our present integrated wire/radio relay communications system.

d. Message Center. Operations have been continuous during the month of November with our teletype. Currently, all incoming and outgoing traffic is being processed by courier. The 1st Marine Regiment is crypto guard for 1st Battalion. No major difficulties were encountered.

e. Maintenance and Supply. Difficulties are outlined in paragraph (f).

f. Problems Encountered. The shortage of repair and accessory parts of the AN/PRC 25 radio continues to be acute. The romex here at Con Thien is in poor condition and should be replaced with seventeen thousand (17,000) feet of single strand #6 wire.

An SB86 switchboard should replace the three SB22s currently used as the main switchboard.

Our TE for telephones is twenty-five (25) less than the telephone requirements at Con Thien. Twenty-five (25) additional phones are needed and have been requisitioned.

7. Artillery

a. Fire Support Coordination. During the month of November, B Battery, 1st Battalion, 11th Marines was in direct support of 1st Battalion, 1st Marines. E Battery, 2nd Battalion, 12th Marines was in direct support during Operation KENTUCKY. W Battery, 2nd Battalion, 12th Marines provided reinforcing fires with 4th Battalion, 12th Marines and 4th Battalion, 13th Marines providing reinforced general support. Each letter company in the Battalion was furnished with two (2) Forward Observer teams. Classes in map reading and FO procedures were conducted during each orientation period. Classes in Forward Observation procedures were also conducted in the field by company Forward Observers.

b. Artillery Provided in Direct Support of the Battalion.

(1) Close Support Missions	251
(2) Unobserved Missions	92
(3) Harrassing and Interdiction Fires	320
(4) Illumination Missions	60

c. 81mm Mortar Missions.

(1) Close Support Missions	157
(2) Harrassing and Interdiction Fires	173
(3) Registrations	115

8. Air Support

During Operations LANCASTER and KENTUCKY, and while at Con Thien, the following air support was utilized:

a. Fixed Wing.

(1) 4 Close Support Missions were flown.
(2) 48 TPQ-10's were run.

b. Air Observers. A total of 81 hours of visual recon were flown by Air Observers from Dong Ha for the Battalion.

c. Helicopter Support. The following Helicopter Support was flown:

(1) Emergency Medevacs	18
(2) Priority Medevacs	20
(3) Routine Medevacs	21

9. Medical

During the month of November the Battalion moved its site from the Quang Tri area to Con Thien. Since this time there has been a noticeable increase in shrapnel wounds. Prior to our move, there was an increase in the number of cases of Amebiasis being diagnosed. This was traced to a bad water source. Our water at this time was being obtained from the 2nd Battalion, 4th Marines site in Quang Tri.

During the month of November, Dr. Iaganin was transferred to 1st Hospital Company at Chu Lai; and his replacement, Dr. Kosch, arrived from the 1st Hospital Company on 8 November 1967.
