A CONTRACTOR OF

22 Oct - Oct 0740H H/SP/2 observed a friendly aircraft pass overhead and noted that 3 rounds of small arms fire were fired at the lane from vicinity BT 020507. From their position at MT 31500 the OP called Clam mortars which had a good effect on the target. The area was not searched due to the need of the OT to remain unknown. At 1440H H/SI/1 at JT 022570 discovered a road block made from crude materials; again another road block was found at DT 014560. The lat blockade was blown by M-79 rounds and the 2nd was destroyed by hand. Patrol continued on its mission. At 1515H H/SP/1 at DT 024574

and ET 025574 discovered 2 male VCS in a hut which contained khaki uniforms and a large amount of rice. VCS were taken to DIEN BAN District Headquarters. At 1620H as USMC vehicle crossed bridge at BT 042 621 a M-79 round or rifle grenade detonated. The vehicle continued north without casualties. At 1505H F/RP/3 at BT 015619 received small arms fire from BT 019617 and returned same while commencing assault on position. The patrol observed 10-15 young males fleeing suspected enemy position and an artillery mission was called with good coverage. Buring assault a M-26 frag grenade was found rigged as a mine thus slowing the advance. The mine was blown in place and the advance resumed but by this time VC had fled in unknown direction. The area was swept with negative results. There was 1 platoon search and destroy patrol; 1 platoon and 2 squad security patrols; 1 platoon recon patrol; 10 squad ambushes; and 4 listening posts during this period.
