2. ENDY, WEATHER AND FERRALL

An General. During the month of November enemy activity decreesed in this Battalion's TADR. Intelligence sources indicated that the enemy may have been preparing for a concentrated attack on Da Nang and outlying military installations. While the enemy has been building up in this area the use of mines and surprise firing devices have declined.

The Volunteer Information Program was emphasized this month and the results were the greatest amount of ordnance ever turned into this Battalian. On at least one occasion the enemy has booby trapped ordnance and left it for the local children to turn it in to the motorized patrol.

A detachment of IndCIT working with the 2nd Battalion has captured the majority of the Viet-Cong infrastructure in the outlying villages. Interrogation has revealed that over 100 Viet-Cong have been killed in the vicinity of Viem Dong (BT 095695) during the past two months. CIT and ITT continued to up date the blacklist utilizing captured documents and intelligence sources.

in Jouther and Terrain

- (1) Weather. Partial typhoon conditions provailed throughout the month of November. Trafficability and visibility remained good in areas except lawlands adjacent to Vinh Dien river which were subject to illocating. Although the monsoon season is well under way the monsoon may be termed light to moderate.
- (2) <u>Normain</u>. Terrain in the 2nd Battalion, 1st Marines TAOR makes operations difficult due to the fact that much of the area is immidately.

enclosure (1)

5. ORGANIZATION AND OPERATIONS

- a. For the entire reporting period the Battalian was tasked with the following primary missions: To conduct unilateral, joint and combined offensive operations within the assigned TAOR to locate and destroy enemy bases which pose the greatest throat to the GVN control of important population and economic centers and to the security of friendly military installations, and secondly to deploy forces throughout the assigned TAOR to provide defense of the Da Nang vital area and military complex, with emphasis on routes of approach to probable rocket/mortar launch positions to include waterways.
- b. Offensive operations in the Battalion TAOR consisted largely of day and night small unit combat patrols and night ambush patrols. In addition, three search and clear operations and two cordon and search operations were conducted. Company D, 1st Battalion, 1st Marines was chopped to the 2nd Battalion, 1st Marines for a one day, helicopterborne search and clear mission in the Riviera Area. Road security was maintained by the use of engineer sweep teams, day time rat patrols, night time roving patrols, observation towers and radar devices.
- c. Contact for the reporting period was light and consisted of daily harascment by VC employing surprise firing devices and small unit sniper teams. However, there was a significant decrease in the number of mining incidents when compared to past months. There were two incidents of enemy shelling the 2nd Battalion, 1st Marines CP. The first consisted of five 82mm mortar rounds resulting in five VIA's (minor). The second incident consisted of eight 82mm mortar rounds and resulted in the destruction of one M-35 truck.

4. AIR SUPPORT
