The diagrams show two vectors, A and B, originating from the same point. In the first diagram, vector B is drawn horizontally to the right, and vector A is drawn upwards and to the right. A third vector, R, is drawn from the tail of B to the tip of A, representing the resultant. In the second diagram, vector A is drawn horizontally to the right, and vector B is drawn upwards and to the right. A third vector, R, is drawn from the tail of A to the tip of B, representing the resultant.

Reasons suspected tunnel entrance at coordinates
990631 (check point #2) on river edge

Plan (a) To "boat" 11 men from the
bridge to within 100 meters of the
suspected tunnel (check point #1). On
signal this force will move and comb out
off the east side of the river around the
tunnel entrance.

(b) The boat will return to the bridge,
pick up 4 additional men and proceed
to check point #2 (990631) and
commence a search of this suspected tunnel
entrance.

BATTALION BULLETIN 1500

From: Commanding Officer
To: Distribution List

Subj: Training; week of 30 December 1968-5 January 1969

Encl: (1) Training Schedule

1. Purpose. To promulgate weekly training requirements.
2. Background. The difficulties of conducting a well organized and effective training program in a combat environment are recognized; however, if unit leaders are aggressive and resourceful in pursuing training objectives, good results can be achieved. It is understood that periods of instruction may have to be repeated four or five times in order to gain participation by the entire company. Enclosure (1) allows unit commanders maximum flexibility in integrating training requirements and tactical commitments.
3. Action. Unit commanders will accomplish training specified in enclosure (1). A report will be submitted by 1600 Saturday of training not accomplished.
4. Self-Cancellation. 6 January 1969.
