7. 190800H: Text of captured VC propaganda leaflet (Ref Item #9 of CAP OPSUM 161600H - 171600H APRIL 1970) is reproduced below:

C.A.G. UNITS' SERVICEMEN !

The policy of Americanization of the Vietnam war has met with complete failure. This military adventure has cost the US tens of thousands of American lives and brought dislocation to the American economy and blemish to the honour of the United States.

Under the so-called Civic actions, the US rulers are pushing you into the same path of death...

C.A.G.'s activities serve the US odious program of Vietnamizing the war which would prolong it in another form. They go countering the interests of the US people and trample on the sovereignty of the Vietnamese nation.

Be aware that the Vietnamese people don't need the presence of C.A.G. units on their soil! Even if you are assigned to work in those units, it is wise for you to keep a neutral attitude. Don't risk your lives to make yourselves a shield to protect the traitorous Thieu-Ky clique despised and hated by all the Vietnamese people.

Refrain from patrolling and setting ambushes to massacre the Vietnamese people. Remain in place and let the people go freely to farm and earn their livelihood.

If you keep such an attitude you will be welcomed and safe until you return home with your beloved ones.

Otherwise, if you keep on doing harm to the Vietnamese people, you will be severely punished by the People Liberation Armed Forces and even by the puppet troops who are working at your side, since they are also Vietnamese.
