PART II NARRATIVE SUMMARY

During this reporting period the battalion maintained an overall combat readiness posture of category 2. Problem areas were: (1) Shortage of Field Grade Officers which was partially alleviated upon receipt of one (1) LtCol and one (1) Major, and one (1) Captain being promoted; (2) combat equipment losses increased and at the end of this period were at 15% with no information available as to replacements; (3) critically needed spare parts have not arrived as anticipated.

The Battalion continued it's support of the 1st and 7th Marine Regiments along with the 2nd Battalion, 5th Marines during this period. One (1) platoon remained under the operational control of the 196th Light Infantry Brigade in the Chu Lai TAOR. Technique of employment consisted of one platoon (10 LVTP5's) in support of each infantry battalion in the Da Nang TAOR. As detailed in enclosure (2), this included logistic, reaction and combat support missions.

Operations for the month were highlighted by the battalion participating in Operations "Arizona" and "Brown". Thirty-four (34) vehicles were provided for "Arizona", (the largest contingent of LVT's employed during the past year on a single operation) consisting of twenty-nine (29) LVTP5's two (2) LVTP5 CMD's, two (2) LVTE1's and one (1) LVTR1. Ten (10) LVTP5's were employed on "Operation Brown".

As the operations commenced, the LVT's transported the blocking, sweeping and command groups into position, affording them unimpeded movement and increased impetus. After the command group was positioned, the LVT's were deployed in support of the sweeps, and to augment the command groups' perimeter of defense. During periods of heavy contact LVT's were maneuvered to provide cover and evacuation for casualties to a secure helicopter landing some.

Throughout the operations, the LVT's were subjected to sporadic small arms and automatic weapons fire. On one occasion, a five (5) vehicle column while displacing L Company, 3/7, to a forward position, came under heavy small arms, automatic and antitank fire. The infantry dismounted but were unable to move. Three (3) LVT's immediately assaulted the high ground (Hill 11) and encountered an enemy squad in fortified positions. As the LVT's reached the crest of the hill the enemy broke contact and began to flee. The LVT's continued the assault, overran their positions, and pursued them accounting for three (3) KIA and four (4) WIA.

Camp development has continued. Two (2) projects of primary concern are the remodeling of the messhall and rewiring of the electrical power distribution system. Both projects are awaiting scheduling at Public Works. General improvements have been made on the roads and drainage system. New bunkers have been constructed using battalion resources and continued emphasis is being stressed to further improve the battalion's defenses.

PART III SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. TOPICS.

- a. Personnel and administration.
- (1) During the reporting period three (3) MC Officers, O Navy Officers, thirteen (13) MC Enlisted and O Navy Enlisted rotated to CONUS. Two (2) MC Officers, O Navy Officers, sixty-seven (67) MC Enlisted and two (2) Navy Enlisted replacements were received.
- (2) During the reporting period the battalien had the following casualties: Four (4) KIA and thirty-nine (39) WIA.
 - b. Intelligence.
- (1) Normal administrative and combat intelligence functions were carried out during the month.
- (2) Fifteen (15) LVT's were mined during this period, resulting in three (3) vehicles being completely destroyed, seven (7) requiring evacuation to CONUS, three (3) second echelon maintenance, and two (2) receiving minor damage to the suspension systems.
- (3) There were twelve (12) other contacts consisting of five (5) enemy ambushes and seven (7) incidents of sniper fire.
- (4) The battalion patrols and ambushes encountered no hostile activity and observed nothing unusual in the assigned sectors of responsibility. Inhabitants of the hamlets around the battalion perimeter have displayed a spirit of friendliness and cooperation.
 - c. Training.
- (1) Formal training was conducted throughout the month on the M16, FAM Firing of all personnel with the M16 was accomplished this month in conjunction with operational commitments.
 - (2) OJT and normal maintenance procedures were conducted this month.
