PART II NARRATIVE SUMMARY

A.

INTELLIGENCE

A. INTELLIGENCE

- 1. buring the month Division Forces succeeded in driving the North Vietnamese Army 320th Division back into North Viet Nam. A continued program of Fire Support Base Construction is expected with deeper penetration toward Laos and the DMZ. A break in the rain during the last half of the month greatly aided construction efforts.
- 2. Additional Atomic Demolition Funitions problems were encountered during October. Four students from "B" Company sent to Okinawa were not allowed to attend the school because of a security clearance change. Previously a secret clearance with a BI initiated was required. The new requirement, the authority for which is not yet known, calls for a Top Secret Clearance based on a completed BI. The ADM Officer is investigating this change.
- 3. The S-2 began compilation of an enemy bunker report in response to a request from G-2 collections. A letter was sent to the companies requesting information and drawings, this was obtained from several members of the Battalion. The completed report will be included as an appendix to the Division PERINTAEP to be published semi-monthly.
- h. The compilation of security clearance and investigation information begun in September was completed buring October. The S-2 now has a file showing all clearances and investigations which have been completed on members of the Battalion.

B. TRAINING

- 1. General Military Subjects training was conducted during the month of October as indicated in Part IV Section D. As an adjunct to this program, the S-3 (Training) section began the collection of manuals and writing of lesson plans corresponding to the monthly training schedule to be sent to companies in the field to facilitate monthly GMS training.
- 2. At the verbal direction of the Commanding General, 3d Marine Division (Rein) FMF, the 3d Engineer Battalion prepared a syllabus and established required facilities at Vandegrift Combat Base for the purpose of instructing infantry personnel in the use and maintenance of hand tools and chain saws to be used in the construction and development of landing mones and fire support bases. The course consists of one day of lecture and practical application. Students who satisfactoraly complete the chain saw portion will be issued a U.S. Government Operators Identification Card (Standard Form 46) indicating chain saw qualification.
- a. On 9 October 1968 a letter was sent to the Commanding General informing him that the school was ready to begin operation with 3 classes per week of infantry squad size.
- b. By the end of the month 2 infantry battalions had requested quotes to the school, however, these will have to be postponed until November due to the fact that the facility was required to move so as to be further idstant from the ammunition storage at Vandegrift Combat Base.
- 3. On 9 11 October six personnel from this Battalion were trained at the Land Mine Warfare/Demolitions School.
- 4. The following Officer/SNCO training was conducted during the month of October:

```
9 October - M-274 mule
```

16 October - 20 kw, 30 kw, 60 kw generator

16 October - M-151 jeep (Company "A" & Company "C")

23 October - MRS-100

23 October - Case 450 tractor (Company "A" & Company "C")

30 October - M-60 Crane

- 30 October Case 580 tractor (Company "A" & Company "C")
- 5. On 12 October 1968 "In Coutry Indoctrination" was conducted for six personnel of this Battalion.
- 6. During October the following training and licenses were issued by the Battalion Motor Transport Section:

M-37 3/4 T

M-151 jeep

M-51 dump truck

C.

OPERATIONS

C. OPERATIONS

1. General. During the month of October, Company "A" (-) (Rein), Company "B" (Rein) and Company "C" (Rein) remained in direct support of the 4th, 3rd and 9th Marine Regiments respectively. The remainder of the Battalion to include Headquarters and Service Company (-) and Engineer Support Company (-) were deployed in general support of the 3rd Marine Division.

2. General Combat Support.

a. A total of 884,860 meters of road were covered by 3rd Engineer Battalion visual/deliberate mine sweeps during the month of October. The following road segments were covered by regular daily sweeps:

TD 265562 to YD 097576 YD 026562 to YD 008564 XD 985546 to YD 008564 XD 983532 to XD 921419 XD 886401 to XD 866397

- b. The Camp Carroll back access road to the Mai Loc area was swept on an as required basis in support of 3rd Marine Regimental Operations.
- c. On 25-27 October a construction team from Engineer Support Company, under the direction of the Battalion S-3 (Operations) section constructed a maintenance building for heliliftable tractors and chain saws, and three temporary buildings for the chain saw/infantry tool set school at Vandegrift Combat Base.
- d. On 27 October a team for the S-3 (Operations) section conducted a road/bridge reconnainance of route #558 from the route #9 junction to Mai Loc and of the Camp Carroll back access road to Mai Loc. Request for this reconnaissance was made by the Division Engineer Office.

3. Direct Combat Support.

- a. The three engineer companies of the 3d Engineer Battalion continued in direct support of the 3 infantry regiments of the 3d Marine Division as reported in the September Command Chronology.
- b. During the month of October the Battalion participated in all major operations of the 3d Marine Division. The clearing of helicopter landing zones and the construction and development of fire support bases continued in direct combat support. During the past month 39 helicopter landing zones were cleared through the use of demolitions and/or heliliftable tractors by the three engineer companies of the Battalion. In addition the following fire support bases were constructed:

FSB Alpine - ID 758532 FSB Gurkha - ID 826485 FSB Catapult - ID 826616 FSB Quantico - ID 871429 FSB Robin - ID 909338 FSB Holcomb - ID 118437

c. Platoons of the three letter companies continued to perform pioneer type engineer work in direct combat support of the various infantry battalions.

4. Combat Service Support.

- a. Roads and Bridges. During the month of October the 3d Engineer Battalion dust suppression program in the Quang Tri Combat Base area was greatly curtailed due to the spasmodic rains which have announced the start of monsoon season.
- (1) Company "A" completed stabilization and ditching of the acess road to their company forward area at Vandegrift Combat Base.
- (2) Company "B" continued grading and making culvert network at Camp Carroll. 120 feet of 36 inch culvert was installed in addition to the spreading of rock at Camp Carroll. 50 cubic yards of gravel were also hauled and spread to fill pot holes at Camp Son Thon Lam.
- (3) Engineer Support Company installed two 18"x50" corrugated culverts and one drop inlet on the 3d Marines (rear) road. Fill and dehydrated concrete were used to stabilize the 9th Marines (rear) road, and two 36"x50' culverts were installed. Normal road maintenance continued on the MSR fronting the Battalion area, and a road network internal to the Battalion area was started to jucilitate normal service runs within the Battalion.
- b. <u>Field Fortifications</u>. The 3d Engineer Battalion continued to assist other organizations with materials, manpower, and technical advice to improve existing field fortifications including defensive wire, trench lines, and bunkers. The Base Defense COC bunker was surveyed and recommendations for improvements and rebuilding submitted to the Division Engineer.

- c. General Construction. Major construction projects commenced during the month were:
- (1) Installation of 116'x50' helo pad for the Commanding General.
- (2) Construction of Officers mess/Officers club at Head-quarters Battalion.
- d. Utilities. The Utilities Platoon continued to operate and maintain generators at Quang Tri and Cua Viet. Electricians continued an inspection program of all generators and conducted school to brain generator operators for units supported. Installation of a power distribution system for 1st AmTrac Battalion began during October. Various small plumbing and electrical wiring projects were conducted within the Battalion and in general support of the 3d Marine Division. Water points were operated at Quang Tri Combat Base, Cua Viet, C-4, FSB Cates, C-3 Camp Carroll, Camp Thon Son Lam and Vandegrift Combat Base. A total of 6,664,000 gallons of potable water and 120,000 gallons of non-potable water was produced during the month. Shower points operated during the month: Quang Tri (9), Dong Ha (1), Cam Lo (1), Camp Carroll (2), Camp Thon Son Lam (1), Vandegrift Combat Base (2), Ca Lu (1), Fire Support Base Cates (1), and Camp Red Devil (1).

D.

COMMUNICATIONS

D. COMMUNICATIONS

- 1. Communications facilities including 24-hour switchboard, radio and message center watches were maintained for the Battalion. Radio watches were begun at the letter companies on a 24-hour basis and the companies begun using separate frequencies for all intra-company traffic. Difficulties were experienced in this area with respect to interference and some doubling-up of two companies on one frequency was necessary.
- 2. A daily summary radio message format was designed for use by the companies in their reports to the S=3. This format was used for approximately two weeks and then discarded. Information requested by the format was not being supplied by the companies.
- 3. The system of thrust points originated by Comm for reporting of coordinates was successfully employed during the month. The list was revised on 28 October 1968.
- 4. Despite efforts by the Motor T section, a review of requisitions by the S-4, and inquiries at FLSG-B, no MRC-83 jeeps were brought off deadline and currently none of the 7 jeeps are operational.
- 5. One man attended the crypto-security school in Japan and one man attended a cable splicing school in Saigon. 1/Cpl KIRKENDOLL was sent TAD to 9th Motor Transport Battalion to install a workable wire system since their current system is inadequate.
- 6. An additional line was added to the Quang Tri switchboard giving the Battalion 3 lines. As a result of new construction all wire lines in Support Company were replaced and a new frame was installed near the post office.
- 7. Four inspection trips were made by supervisory personnel for the purpose of answering complaints, inspecting gear and solving specific communication problems at the companies. Two areas covered in detail included the installation of remote capability at "B" Company and a review of mine detector custody and records.
- 8. Ever 90 pieces of equipment were repaired by the technicians during the month. The high deadline rate on mine detectors continued with over 30 detectors being sent to FLSG-B.

B.

LOGISTICS

4. logistics

- 1. During the month of October, 3d Engineer Battalion conducted logistic and service support operations from Quang Tri Combat Base. Support was also provided to Companies "A", "B", and "C".
- 2. Received (3) Remington and (2) air compressor chain saws, (2) M274A2 Hules and (3) M-105 trailers.
- 3. During the month of October, Battalion water points produced 6,664,000 gallons of potable water in support of Division units, and delivered 120,000 gallons of non-potable water. The Battalion is presently operating (8) water points.
- l_4 . Lumber and material for (3) strongbacks and (1) maintenance facility were sent to VCB for use by GM3E.
- 5. The Battalion put out BnO 11330.2 concerning Standing Operating Procedures for Operation and Maintenance of Generators.
- 6. Reports were made in AF1 format on all lumber requisitions.

F. CIVIL AFFAIRS

F. CIVIL AFFAIRS

- 1. The MEDCAP program remained stalemated by washed out roads throughout October. If monsoon rains hold off in early November, limited MED-CAPS will be resumed.
- 2. The washed out causeway on the road to Thieu Phong District from Quang Tri City was reconnoitered by 3d Engineer Battalion. The Division Engineer requested the job and the report will be submitted through the Division Engineer office to G-5.
- 3. Approximately 500 candy and toy packets were distributed by the Battalion during the Children's Festival in October. Most of the packets were distributed to Vietnamese elders who passed them to refugee children.

S-2

B. S-2 Sequential listing of Significant Events:

| 2 October 1968 | | Roads to Dong Ha and to Thieu Phong District blocked by road damage from floods. |
|-----------------|------|---|
| 9 October 1968 | | Began collection of intelligence on enemy bunkers for G-2. This intelligence effort to continue during month and be completed for inclusion in the 15 November 1968 PERINTREP. |
| 9 October 1968 | | Letter of denial of security clearance prepared for Officer in 3d Engineer Battalion. Information relative to this action held in S-1 Confidential files. |
| 12 & 15 October | 1968 | Tests of incomming siren and bunker drill held with satisfactory results. |
| 13 October 1968 | | Road to Dong Ha closed because of heavy rains. |
| 17 October 1968 | | Completed study of record books for clearance data of personnel in the 3 letter companies. Data to be used for assistance in the ADM program. |
| 19 October 1968 | | Road to Dong Ha closed for repairs. |
| 24 October 1968 | | In preparation for FSB and LZ construction report, a letter was submitted requesting ISO and photographic support from Division. Letter sent to the Informational Services Officer via the G-3 Training Office. |
| 26 October 1968 | | History of the 320th Division actions in SVN presented to the Officers and Staff NCO's at weekly briefing. |
| 28 October 1968 | | Review of mine detector status completed in conjunction with S-3 operations. |
| 29 October 1968 | | Received word from Division Air that no C&C helicopters will be available for frag until late November or early December. |

Ċ.

S-3

c. Sequential Listing of Significant Events:

- 1 October 1968 Commanding Officer advises that TFH-4 called about the following: (1) We should establish demo/chain saw/hand tool school at Vandegrift Combat Base.
 (2) Come up with requisition system for speedy replacement of LZ/FSB tool parts.
- 2 October 1968 S-3 Alpha went to Vandegrift Combat Base to coordinate with TFH-4 about school program at Vandegrift Combat Base and other problems regarding FSB/LZ operations. The following was established:

 (a) Students to be engineers for chainsaw, demo and hand tool instruction. Students to be infantry for chainsaw and hand tool instruction.

 (b) TFH-6 would like to meet 3d Engineer Battalion Commanding Officer and discuss problems ASAP.

 (c) S-3 submit syllabus to TFH-4 within 3 days.

 (d) There is good practical application area in surrounding hills. (e) TFH-4 will coordinate with G-4 about infantry tool kit requisitions. (f) TFH-4 will put requirement for maintance and school facilities on DEO ASAP.
- 3 October 1968 S-3 Alpha wrote up and sent out material request for maintanance school facility for Vandegrift Combat Base to Division Engineer Officer.
- 3 October 1968 Executive Officer requests compilation report of chainsaw spare parts on order with tracer action indicated be made by S-4 and delivered with hand tool report (same type) to G-4 ASAP. Notified S-4.
- 4 October 1968 Third Battalion rear requests sweep team to sweep route #558 for convoy of resupply to 3/9 at D-5.

 Set up with "B" Company to meet convoy at route #9
 #558 intersection at 1200.
- 5 October 1968 S-3 attended battalion meeting. Commanding Officer directs (1) Become familiar with TM-5-335 concerning road compaction (2) Become familiar with clinometer and hand level for FSB/LZ measurements. (3) Read appendix 6 of FMFMF 3-3.
- 6 October 1968 Division Engineer Officer called S-3A about 3 seahuts requested at Vandegrift Combat Base: (1) No seahut material available. (2) We can draw maintenance facility materials form our lot as available. (3) DEO will monitor radio net during day and until 2000 each night.

- 7 October 1968 3d Platoon, Company "B", reports to S-3A that they will begin building Fire Support Base Catapult at coordinates XD 825605 at 1530. Also, 1st Platoon will begin building Landing Zones at 1330.
- 8 October 1968 S-3A recieved message on requirements for "A" Company to spread grass seed at FSB Cates and Shepherd. Seed is available at "A" Company, 11th Engineers, Vandegrift Combat Base.
- 8 October 1968 Two EOD men came by about report of booby traps out at wire detail area. SSgt PICKETT escorted them to the position.
- 8 October 1968 SSgt PICKETT and EOD men returned with (2) booby trapped 105 rounds. S-3A notified Base Defense.
- 9 October 1968 S-3A dispatched SSgt PICKETT and material to construct living quarters, classroom, and maintenance facility at Vandegrift Combat Base.
- 9 October 1968 S-3A sent letter to Commanding General, 3d Marine Division, indicating that 3d Engineer Battalion is ready to conduct hand tool/chainsaw school for infantry personnel at Vandegrift Combat Base on 13 October 1968. A request was made that G-3 (Training) use quota system in assigning students.
- 10 October 1968 S-3 departed Quang Tri Combat Base with commanding officer Sgt Major and a party of 3 to tour Fire Support Bases.
- 11 October 1968 S-3 departed with Sgt Major and Commanding Officer from Quang Tri Combat Base.
- 11 October 1968 S-3 and party arrived Camp Carroll; checked in with Commanding Officer, 3d Marine Regiment.
- 11 October 1968 Commanding Officer directs 1st platoon Company "C" is OP Con to Company "B" to assist in clearing FSB Catapult.
- 11 October 1968 S-3 and party arrive LZ Catapult, one H34 helicopter down and damages at end of LZ. Spent entire day at Catapult. 1st Platoon, Company "C" never arrived due to non-availability of helicopters and weather.

- 11 October 1968 S-3 and party departed IZ Catapult.
- 11 October 1968 S-3 received word that 1st Platoon Company "C" with all required equipment arrived at Catapult.

 A squad from 11th Engineers is reinforcing.
- 12 October 1968 S-3 held meeting with Company Commanders to discuss timely and accurate reporting on Daily Summarys and After Action Reports.
- 12 October 1968 S-3 held meeting with section heads to discuss coming weeks work schedule.
- 12 October 1968 S-3 went to Commanding Officer's meeting.
- 13 October 1968 S-3 notified Commanding Officer, Company "B" concerning proper procedure for releasing OP Con of first platoon Company "C".
- 14 October 1968 S-3 requested reports from letter companies concerning road conditions in their area of recon.
- 14 October 1968 Major NICOLI requests to know by message, conditions of bridges 9-11-12-13-23 ASAP.
- 14 October 1968 S-3 reports to Division Engineer conditions of roads in Companies "A" and "B" AORs.
- 15 October 1968 Company "B" report to S-3 that Khe Gia bridge is out, 11th Engineer bringing deck balk to repair bridge.
- 16 October 1968 S-3 drafted letter to Division Engineer Officer assigning 2 NCOs to inspection team (MOS 1349 and 1371) for 11th Engineer Battalion Inspection.
- 16 October 1968 S-3 received message from Commanding Officer,

 Company "B" indicating Khe Gia bridge had callasped.
- 17 October 1968 S-3 took trip to Dong Ha, discussed with the DEO the expediating of materials for work projects.
- 17 October 1968 S-3 roughed up draft of Generator SOP and water point SOP.
- 18 October 1968 S-3 was directed by Commanding Officer to survey
 4th Marines (rear) road and 2/3 (rear) road.
 Schedule work immediately.
- 18 October 1968 S-3 received information from the Division Headquarters that Colonel F. HARRIS, Headquarters Marine Crops, A04I will arrive tomorrow at 1600 -1700 for briefing.

- 19 October 1968 S-3 began to prepare briefing to be given to Colonel F. HARRIS, Headquarters Marine Corps, AO4I.
- 19 October 1968 S-3 briefed Col. HARRIS on Battalion operations.
- 20 October 1968 Lt. HAGENSEN assumed duties as S-3A.
- 21 October 1968 S-3 held meeting with Commanding Officer, S-4,
 Spt Company Commanding Officer, and Utilities
 Officer, regarding Battalion policy for replacement of down generators and "deadlined" water point
 equipment.
- 22 October 1968 S-3 and S-3 Chief arrived Camp Carroll and visited Commanding Officer, Company "B".
- 22 October 1968 S-3 and S-3 Chief departed Camp Carroll for Vande-grift Combat Base; visited Companies "A" and "B".
- 24 October 1968 S-3 informed Companies "C" and "B" that responsibilities for C-4 sweep team would be taken over by Company "C" effective Monday, 28 October 1968.
- 24 October 1968 S-3 held meeting with Support Company Commanding Officer to coordinate construction projects of following day.
- 24 October 1968 S-3 drafted Battalion Technical Inspection program bulletin.
- 25 October 1968 S-3 checked out portion of Quang Tri River with Commanding Officer and Commanding Officer, 3d Shore Party Battalion to determine suitability for Mike Boat Landing site. Request by Division Engineer Officer. Area is satisfactory for limited use as it would require considerable stabilization if we're to reveive extended use.
- 25 October 1968 S-3 departed for Vandegrift Combat Base with Commanding Officer and Sgt Major by jeeps.
- 25 October 1968 S-3 arrived Vandegrift Combat Base. Checked out shower point, Company "A", "C" and LSA and checked in with Commanding Officer, 4th Marine Regiment. Company "C" was satisfactory. Company "A" needed some police. Shower point needed police and also extra pump. Vandegrift Maintenance Facility had all unsatisfactorys in police, procedures and facilities.

- 25 October 1968 S-3 visited Company "B" troop billeting. Found the billeting, police and supply all unsatisfactory.

 He advised Executive Officer that he would be back Tueday to inspect area.
- 25 October 1968 S-3 held meeting with Support Company Commander and Utilities Chief. The follwoing action taken residiscrepancies above: a. Sent Training NCO and team of 4 to Vandegrift Combat Base to construct school maintenance facility. b. Sent 12 sheets of plywood to Rockpile shower point to repair shower stalls. C. Arranged for 5 man working party to police Rockpile shower point. d. Sent Staff NCO from Utilities to Rockpile, Vandegrift Combat Base, Camp Carroll shower point to advise and give technical assistance and organize.
- 25 October 1968 S-3 reveived request from DEO, requesting that route #558 from Cam Lo to Mai Loc be sweeped and reconnoitered within 3 days.
- 26 October 1968 S-3 directed S-3A to contact 3d Marines and request squad to accompany recon/sweep of route #558. Request granted. Squad will accompany tanks to junction of #558 and #9 and meet Engineer team at 1000.
- 26 October 1968 S-3 attended Commanding Officer's meeting.
- 27 October 1968 S-3 left Quang Tri to commence recon sweep of route #558.
- 28 October 1968 Commanding Officer, Company "B" informed S-3 he had just become responsible for mine sweep 30,000 additional meters of road since 3d Marines AO was being extended. Company "B" needs more mine detectors.
- 28 October 1968 S-3 requests to know number of mine detectors by I.D.# in hands of letter companies.
- 28 October: 1968 S-3 was informed by Comm Officer that mine detector inventory obviously in error. Instructed Communications Officer to send his Supply man to companies tomorrow to straighten this out. Will redistribute mine detectors after knowing exactly when and how many assets we have.
- 30 October 1968 S-3 departed Dong Ha for Vandegrift Combat Base to check out infantry tool kit/chain saw school and tractor maintanance facility; visit water points at Camp Carroll and Vandegrift Combat Base; vist letter companies.

D.

S-4

b. S-4 Sequential listing of Significant Events

- 2 Oct 68 Lt. SWINSON reported aboard for duty as Battalion S-4.
- 3 Oct 68 Started compiling a listing of all requisitions of spare parts for chain saws and infantry tool kits.
- 4 Oct 68 Received 3 Remington chain saws and 2 air compressor powered chain saws.
- 5 Oct 68 Sent 1 CONEX container, 1 table vise, 1 drill, and 1 grinder to VCB for maintenance facility. Also sent 1 Amr Mar 4 KW generator.
- 6 Oct 68 Received 4 chain saws from FLSG-B.
- 8 Oct 68 Sent welding rig to VCB maintenance facility.
- 11 Oct 68 Supply received (2) M274A2 Mules, invoiced (1) M52 Truck
 Tractor to 11th Engr. Bn. Started to cut (3) prefab strongbacks for VCB.
- 13 Oct 68 20 KW generator USMC# 231192 evacuated to 3d FSR.
- 14 Oct 68 (3) strongbacks could not be trucked to VCB because Khegia bridge was washed out. (1) M51 w/bridge trailer and (1) tractor w/high bed to Danang.
- 16 Oct 68 Received 7 axes complete and 50 ax handles.
- 17 Oct 68 3/9 and 1/3 generators went down.
- 19 Oct 68 Special briefing for Col HARRIS from HQMC.
- 20 Oct 68 Sent 3d Engr. 60 KW generator to 1/3.
- 23 Oct 68 Sent (3) strongbacks to VCB. Water point at Cam Lo River moved to C-3.
- 24 Oct 68 3d Engr. diesel truck turned in to FLSG-B. Received 8 bundles of 3/8" plywood, 4 bundles of 5/8" plywood, 4 bundles of 1x10.
- 25 Oct 68 Picked up (3) M-105 trailers from the RUC line.
- 27 Oct 68 Utilities jeep, M151 USMC# 335104 was stolen from the MT lot sometime during the night.
- 29 Oct 68 3/9 30 KW generator is down with a cracked head.
- 30 Oct 68 Invoiced 20 KW generator USMC# 230996 to 11th Engr. Bn.

- 3. Mission: To provide close combat engineer support and construction of fire support bases.
- a. The number of Engineers involved in Operation Scotland II/ Nanking is 86.
- 4. Major Items Of Equipment: 450-580 Tractors.
- Materials Expended:
 - 3 external loads of demo
 - b. Army CH-47's
 - c. 151b shape charges

 - d. 250 lbs blocks TNTe. Cratering charges
- 6. Chronology: (See enclosure)
- 7. Total Demolition Work:
 - a. Developed FSB for 6-105 positions
 - b. Developed ammo pits for "I" Company, 3/12
 - c. Developed 6 gun positions and ammo pits for ARVN 105 battery
- 8. Other Work:
 - a. 2nd Platoon conducted normal minesweep in the AO b. Another sweep was conducted by 2nd Platoon from Calu west on route #9 to FSB "STORMY"
- 9. Engineer Observation:

We tried using new company push to establish comm between A2 at Calu and A at Vandegrift Combat Base. We will be using 65.50 for out comm while in the field. The Operations is scheduled to go five (5) to seven (7) days but will more than likely be extended. There are four (4) 175's at Calu which can overshoot Io Roz and if need be displace to FSB "STORM" to hit targets further west in Laos.

- 10. Recommendations: None
- 11. Lessons Learned: None

R. L. SEABORG

CHRONOLOGY

- 3 October 1968 On D-2, we had staged 3 external loads of demo and also case 450 and 580 Tractors plus POL (by staple banded cases). Two (2) external lifts of pioneer chest, demo and case 450 and 580 Tractors had been staged at LSA for HAWK
- 4 October 1968 On D-1, all lifts were dropped into NANKING. Found soil to be such that tractors could work with only minimum demo assistance. When cases were staged. they were rigged for CH-53 to pick up. Army CH-47's were available and supposedly have a lift capacity of 15,000 pounds so the blades were put back on 450's and POL in bucket of backhoe, thereby doing away with one external lift. SSgt HUDSON and five (5) 1371's helilifted with "E" Company 2/9 into HAWK. to develop 4-155 gun positions and ammo pits for "T" Company 1/11. We used 15 lb. shape charges and TNT to blow rough holes which cases then carve in and finished off. All four (4) positions completed at approximately 1600 and FSB crew was helilifted to Vandegrift Combat Base by 1730. We left one external load of pioneer tool chest and unused demo slung for pick-up on D-Day for return to Vandegrift Combat Base. 155's were not lifted into HAWK on D-1 as planned due to a mix-up on the choppers. By 1630 on D-1 4 four man demo teams from 2nd Platoon were attached to 2/4 in preparation for helo-assault on D-Day. A3 Act and A6 talked to 3/4 Commanding Officer and S-3 and arranged for 3d Platoon personnel to stay in their own area at Vandegrift Combat Base and to link-up with Companies "I", "M" and "L" of 3/4 by 0730 on D-Day.
- 5 October 1968 3rd Platoon personnel linked-up with 3/4 (-) by 0730.

 4-man demo teams attached to Companies "I", "M" and "L".

 Lt. HAGENSEN, radio operator and 4-man tunnel team with
 Alpha Command Group. 250 lb. blocks of TNT were
 distributed to people in Companies "I", "M" and "L" to
 cut down on the need for resupply. At 1000, 3/4 (-)
 commenced helilift into objective area. SSgt HUDSON and
 the five (5) people from his FSB Team joined "H" Company
 2/4, giving "A" Company ten (10) Engineers and giving
 "E", "F" and "G" Companies four (4) man demo teams. At
 approximately 1015, 2/4 commenced helilift into objective
 area. "H" Company 2/4 has the mission of blowing/

interdicting Route #9 between long Vei and Khe Sanh Ville. Thus the additional Engineers were attached to them. The Commanding Officer of 2/4, Major O'Neil plans on blowing the road in five places- 2 on D+1, 2 on D+2, and once on D+3. Gy FISHER will stage five (5) external loads of demo (shaped and cratering charges and TNT) at LSA for this purpose. At approximately 1130, SSgt STANTON and his FSB Team were helilifted back to Vandegrift Combat Base along with one external conveying pioneer tool chest and unused demo. The case 450 and 580 Tractors from HAWK were lifted back to Vandegrift Combat Base shortly before this. All twelve (12) gun positions at Nanking were finished by 0900 and tractors were to be lifted out at 1500. SSgt STANTON had one other external load of demo slung for pick-up and returned to Vandegrift Combat Base when he and his FSB Team left. 1/4 will be hililifted into their objective area.

6 October 1968 - 1/4 will be helilifted into their objective area A.M. The 2nd Platoon will provide two (2)- four (4) man demo teams to two (2) companies and the FSB Team (3d Platoon) lifted out of NANKING will provide the other two (2) demo Teams. It. ENGLEBRETSON (2nd Platoon) breaking in on his first Engineer type operation will be with SSgt STANTON (3d Platoon) with 1/4 Command Group. The 2nd Platoon is also conducting its normal minesweep in the AO plus a minesweep from Calu west on Route #9 to FSB "STORMY", an 8 position resupplied by road, as required. An LZ clearance Team with pioneer chest and chain saws is on standby at the company's position at Vandegrift Combat Base. This team is composed of 3d Platoon personnel.

6-8 Oct 68 concl: The Commanding Officer of 2/4, Major O'Neil (more affectionately known as "Thunder Tongue") plans on blowing road in 5 places - 2 on D+1, 2 on D+2 and 1 on D+3.

- 3. The mission of engineer element was to provide close combat support to 1/9 with particular emphasis on the construction of landing zones and the destruction of enemy material.
- 4. Major items of equipment employed: chainsaws
- 5. Materials expended: 1369 lbs of C-4, 3841 lbs of TNT, 5375 feet of det cord, 8000 feet time fuse, 1000 blasting caps, and 50 fuze lighters.
- 6. Chronology: See Enclosure (1)
- 7. Engineers Observation:
 - a. Coordination was excellent with 1/9. Engineers were used exclusively for engineer work.

DCM:ted 3100

- b. Anti-tank mines were found that weighed almost 18 lbs. They were the plastic type. The fuse well was covered by plastic. There were fuse wells on the side and bottom of the mine. 30 meters from the place where the mine was found was a sign tacked to a tree which read "Route 9", with an arrow pointing southeast. This cache was located at 895632
- c. In the majority of bunkers discovered, the engineers found detonators for 122mm rockets.
- d. The engineers were used extensively during the operation. During the first twelve days they blew enemy caches and friendly equipment that had to be abondoned. During the latter part of the operation, engineer effort was devoted to 12 construction.

8. Lessons Learned

- a. Item: Cutting and removing felled trees
 - 1. Discussion: In cutting felled trees for easier handling, notching the tree and covering the strip charge with mud reduced the amount of explosives by one half.
 - 2. Conclusion: Although tamping charges is not revolutionary, continued emphasis of this method must be stressed in the small unit level.

9. Recommendations:

a. Chainsaws should be transported by helicopter in a suitable container to prevent damage.

D. C. Mills

JR St. Might Sci.

CHRONOLOGY

17 September 1968

Engineers attached to A, B, and C Companies all produced negative results this day.

The engineer team with D Co blew i butterfly mine at 909103 using \$ 1b of C-4.

LCpl COTTON and LCpl SOARES med-evaced with schrappel wounds.

18 September 1968

Engineers with C Co blew 1 butterfly mine at coord 915666 using \$\frac{1}{4}\$ lb C-4. Engineers with D Co blew 1 L7 for externals at coord 915659 using 20 Lbs C-4. Engineers with A Co blew 265-50 cal. rounds, 1 LAAW, 7 smoke grenades, 1 pop flare, 1 complete helmet, 2 flak jackets, 1 E tool, 1 pack, 4 canteen covers, blowing all with 7 3/4 lbs C-4. Cpl SCHREI, and PFC MCMINN with A Co were med-evaced with schrapnel wounds.

19 September 1968

The engineer team with A Co conducted two patrols at 0900-1400 and 1400-1800, both with negative results. The team with C Co blew 1 butterfly mine at coord 915666 using $\frac{1}{4}$ lb C-4. Teams with B and D Co's both produced negative results this day.

20 September 1968

Teams with A, C, and D Co's all produced negative results, while the team with B Co blew 1000-7.62 link rounds, 2 M-16 rifles (979457 and 722232), 12-60mm rounds, 5 pop flares, 2 smoke grenades, 19 M-16 magazines, 2 ponchos, 1 M-16 binod, 1 E tool, and burned 2 cargo nets. All items were blown by 10 lbs TNT. PFC MIRTH with A Co was med-evaced with fever of unknown origin.

21 September 1968

The engineer team with A Co conducted one patrol from 0000-1800 with negative results. They also blew 1 helmet, 4 flak jackets, 2 canteen covers, 1 claymore mine, 46-M-26 grenades, 5 E tools, 1 pack, 3 LAAWS, 64 M-16 magazines, 68-60mm rounds, 600-7.62 linked rounds, 100-.45 cal rounds, 1200-5.56 rounds, 7 pop flares, 1 smoke grenade, and 1 trip flare. All items were blown with 5 lbs C-4 and 75 feet det cord. All items blown by the A Co team were blown in place with the demolition.

ENCLOSURE (1)

The engineer team with B Co blew 2 M-16 rifles (#777427, 516103), 1 M-26 grenade, 20 M-16 magazines, 2 packs, 2 ponchos, 3 poncho liners, 1 flak jacket, 3 helmets, and 1-60mm mortar round using 10 lbs C-4. The team with C Co blew 21 flat top bunkers (6x8x5) at coord 905660, using 43 lbs C-4. The team with C Co produced negative results.

22 September 1968

The engineer team with A Co blew 11-60mm rounds, 7-81mm rounds, 3 helmets, 2 flak jackets, 5 cargo nets, 2 M-26 grenades, 1 smoke grenade, 1 canteen, 1 E-tool, 4 cargo slings and 6 M-16 magazines using 7 lbs C-4. The team with B Co blew 1 LZ for externals using 25 lbs C-4. Them with C Co blew 1 LZ for externals using 60 lbs C-4. The team with D Co blew 1 LZ for externals using 80 lbs TNT.

23 September 1968

The engineer team with D Co worked continued work on LZ blown the previous day.

The team with C Co conducted 1 patrol, 0800-1300, with negative results, and blew

2 flat top bunkers (6x8x5) at grid coord 904660 using 5 lbs C-4. Teams with

A and B Co's produced negative results.

24 September 1968

The engineer team with C Co blew 583-61mm mortar rounds, 171 RPG-7 round, 270 Russian AT mines, 21-122mm rockets, 56-28mm rockets, 111-107 recoiless rounds, 6000-12.7mm rounds, 1847 fuses and detonators for RPG-7&2, 82mm, 60mm, 122mm, 107mm, and 88mm rounds, and 260000 AK-47 rounds plus 1500 lbs rice. All this was blown with 1 enemy AT mine (Russian) at coord 827654. They also cut 1 L7 using axes. The team with 3 Co blew 1 external med-evac L7 using 17 1/8 lbs C-4. Teams with A and D Co's produced negative results.

25 September 1968

The engineer team from A Co received 300 lbs of C-4 from this Company's GySgt who told the troops to burn it for heat. Approximately 100 lbs was used.

ENCLOSURE (1)

Teams with C and D Co's worked together on 1 LZ. The team with B Co blew 1 external med-evac LZ using 18 lbs C-4.

26 September 1968

The team with A Co was attached to B Co for the remainder of the operation. These teams constructed 1 LZ using 300 lbs TNT. C and D Co teams worked on 1 LZ, blowing 26 trees, 6 stumps using 240 lbs C-4. The coord of this LZ was 295632 and the C-4 used was abondoned by another unit (2/26).

27 September 1968

Teams with C and D Co's completed work on the LZ started on 26 September at 895632 using 941 lbs TNT. Teams with B Co continued work on LZ started on 26 September.

28 September 1968

The team with C Co blew 381-82mm rounds, 368 cases of AK-47 rounds (1000 rds per case), 135 RPG-2 rockets, 156 Russian AT mines, 2500 lbs roundstick form TNT and 660 claymore mines at coord 895632 using enemy TNT as demolition. Teams with B Co constructed 1 LZ using 240 lbs TNT and 1000 feet det cord. The team with B Co blew 1 LZ using 240 lbs TNT. LCpl NUNES and LCpl NEUPERTyrom C Co were med-evaced.

29 September 1968

The team with C Co constructed 1 LZ at coord 891641 using 200 lbs TNT. The team with B Co completed the LZ from the previous day. The team from D Co used 20 lbs TNT to complete the LZ started 28 September.

30 September 1968

The team with C Co constructed 1 LZ for externals at coord 801641 using 115 lbs TNT.

The D Co team conducted 1 patrol, 1040-1330, destroying 24 A-Frame bunkers (5x3x4)

using 10 lbs TNT. Another 20 bunkers (7x4x10) were destroyed by hand.

1 October 1968

The team from B Co blew 1-82mm round, 1 Chi Com grenade, 19 M-26 grenades, 2 M-33 grenades, 2 pop flares, 9 M-79 rounds, 200-7.62mm Tinked rounds and 50-.45 Cal. rds

ENCLOSURE (1)

using 5 lbs C-4. Team with C Co constructed 1 LZ at coord \$86362 using 235 lbs TNT. The team with D Co produced negative results.

2 October 1968

Engineers with D Co completed 1 LZ using 100 lbs TNT and 3000feet det cord. In this process they found 1 russian AT mine. The team with E Co constructed an LZ at coord 901638 using 575 lbs TNT and 2000 feet det cord. The team with C Co produced negative results.

3 October 1968

The team with A Co blew 1 flack jacket, 6 canteens, 1 fuel can, 1 axe head,
40047.62mm linked rounds, 5 LAAWS, 2 helmets, 1 can time fuse, all blown with
5 lbs TNT. The team from D Co completed LZ at C Co posit using 300 lbs TNT and
90 lbs C-4 and 500 feet det cord. Teams with B and C Co's produced negative results.

4 October 1968

The team from C Co constructed 1 LZ at 873646 using 200 lbs TNT, 90 lbs C-4, and 5000feet det cord. The team from D Co conducted 1 patrol destroying 4 bunkers (4x8x4) with 15 lbs C-4, and 20 bunkers (3x5x3) by hand. The team with B Co built 1 LZ using 500 lbs TNT and 50 lbs C-4. Team with A Co produced negative results.

5 October 1960

The team with A Co constructed 1 L7 at 852647 using 250 lbs TNT and 500 feet det cord. The team with B Co completed 1 LZ using 12 lbs TNT. C and D Co's produced negative results.

6 October 1968

The team with A Co, B Co and D Co produced negative results while C Co constructed 1 IZ at coord 850648 union 180 lbs TMT.

7 Ocother 1968

All teams returned to the rear.

- 3. Engineer elements consisted of combat engineers assigned the mission of combat support, involving the building of a FSB for two batteries of 105's, three 155's and four 4.2mm mortars.
- 4. Najor items of engineer equipment: 450 Bulldozer.
- 5. Materials expended: 50 gallons of diesel fuel, 40 lbs shape charges, 40 lbs cratering charges, 2 lbs TNT, 16 lbs C-4.
- 6. Chronology: See enclosure (1).
- 7. Engineer Observations: Coordination with the artillery batteries was good. The engineers were used for the FSB intended.
- 8. Lessons Learned: Get togeather with artillery representative on FSB and plan the construction of the base as far as possible, providing for a trail or road between the guns.

9. Recommendations: It is recommended that a more specific order be published on the use of the 450 and 580. It is not at all clear what exactly the equipment is authorized to do.

DC mills

CHRONOLOGY

24 October 1968

Engineers arrived at 1600. By 1830 six 105 pits had been completed and two aumo berms prepared.

25 October 1968

Heavy Equipment prepared three 155 positions, two ammo berms, a ledge for miscellaneous gear, an LZ 80 ft by 120 ft, and began a trench line between gun positions. The other engineers blew three tree stumps with 16 lbs of C-4, a powder burn pit with one 40 lbs shape charge and a 40 lbs cratering charge, and worked by hand for three hours on four 4.2mm mortar positions.

26 October 1968

Heavy Equipment completed six more 105 pits, two FDC/Exec Pits for the 105's and 155's, an ammo berm, a C-Rations storage area (30' x 30') and continued work on trenches.

27 October 1968

The trench lines were completed between the 105 pits. One FIC/Exec Pit was dug for the 155 battery. One powder berm pit was blown with one 40 lbs shape charge and one 40 lbs cratering charge. All equipment and men departed FSB Robin during the afternoon.

- 3. The mission of the engineer element was to provide close combat support to 2/9 with particular emphasis on construction of landing zones and the destruction of enemy material.
- 4. Major items of equipment employed: None
- 5. Materials expended: 51 lbs C-4, 165 lbs TNT, 9 15 lbs shape charges, 1,765 ft detonating cord and 40 sections of bangalore torpedos.
- 6. Chronology: See enclosure (1).
- 7. Engineer Observations: The lack of small tools, especially K-Bar Knives and pliers or wire cutters make working in the field sometimes difficult. Crimpers which could be used on everything but wire would be useful but are not available in sufficient quantities to give each man a pair.

- 8. Lessons Learned: In clearing fields of fire in extremely thick brush, use of portable flame throwers should be considered as an alternative to use of large numbers of bangalores.
- 9. Recommendations: That each combat engineer in the field be provided with a pair of crimpers and at least two pairs of wire cutters and two K-Bar Knives be provided to each team.

ACHILLE

CHRONOLOGY

3 October 1968

2/9 opcon to 4th Marines, C. P. to FSB Sheppard, both to FSB Cates and Hill 691, Foxtrot to Sheppard, 950 and Calu Hotel Company to Quantico.

4 October 1968

Echo moves to FSB Hawk, Foxtrot Team and Sgt MACWILLIAMS sweep to FSB Stormy. Sgt ROBERTS to VCB to get tools for C. P. Hotel Team and Cpl STODDARD destroyed 7 bunkers (5'x3'x5') 3 DH-10 mines, 400 50-Cal rounds, 1-107mm rocket, 15-82mm rounds, 2-60mm rounds, 9-82mm fuses, 550 7.62 rounds, 24 Chi Com gernades and 1 NVA pick using 36 lbs of C-4 on a patrol.

5 October 1968

Sgt ROBERTS and LCpl WATKINS back to C. P. Group, Hotel Team used 32 lbs of C-4 on two patrols to destroy one tunnel (12' Long x 7' dia) 1 - 4.2 dud round, 1 - 3.5 dud round, 1 - 81mm dud round and 5 laws.

6 October 1968

C. P. Team constructed cover over COC meeting area. Hotel Team used 9 - 15 lbs shape charges to construct water hole (20' long x 10' wide x 10' deep) Foxtrot Team put in defensive wire and made 2 - 81mm gun pits using 5 lbs TNT.

7 October 1968

C. P. Team cleared fields of fire using 20 bangalores, 50 lbs TNT and 6,00% ft det cord. Foxtrot Team built obstacle gate and constructed one bunker (6' x 7' x 4')

8 October 1968

PFC RAY sent to Hotel Team to replace LCpl ZORTMAN for Admin Reasons Foxtrot Team laid approximately 300 ft of wire.

9 October 1968

1stLt WINTERSTEEN to C. P. Group. Golf Team and Cpl HERMAN cut tops off 10 drums for trash cans. C. P. Team used 20 bangalores, 110 lbs TNT and 700 ft det cord to clear fields of fire.

10 October 1968

Echo Company moved to objective "A" opcon to 3/4. Golf Team had one patrol with negative results. Hotel Team used 15 lbs C-4 to destroy 5 bunkers $(4^{\circ} \times 5^{\circ} \times 3^{\circ})$ while on patrol.

11 October 1968

Sgt MACWILLIAMS to Quang Tri for Admin Reasons. Hotel Team accompanied one patrol with negative results.

12 October 1968

1stLt wintersteen returned to Engineer Battalion C. P. Hotel Team had two patrols with negative results.

13 October 1968

C. P. Team erected 3,000 gallon water tank for FSB Sheppard, needed patches which were requested the same day but did not arrive. Also C. P. Team out drums for heads.

14 October 1968

No work reported due to weather. No communications with echo.

15 October 1968

No work reported due to weather. No communications with Echo.

16 October 1968

No work reported due to weather. No communications with Echo. 2/9 received word to report back to WCB, but could not due to weather.

17 October 1968

2/9 minus Echo Company returned to VCB.

- 3. Engineer elements consisted of combat enginers assigned the mission of combat support, involving the clearing and developing of landing zones, destruction of dud rounds as well as the destruction of captured enemy rounds.
- 4. Major items of engineer equipment: None
- 5. Material expended: 1,320 lbs of C-4, 1,873 lbs TNT, 230 ft Time Fuse, 350 Blasting Caps, 7,300 ft Det Cord.
- 6. Chronology: See enclosure (1).
- 7. Engineer Observations: Proper coordination was made. Utilized properly. No intelligence. Mission of operation would have been impossible without the landing zones the engineers built.

- 8. Lessons Learned: None
- 9. Recommendations: None

DC mills

CHRONOLOGY

7 October 1968

Left VCB with 5 engineers and 10 force recon men to construct an LZ at cordinates 017396 (Hill 824). SSgt ROBERTSON and 4 engineers arrived at this position at 1830, commenced blowing trees and working most of the night.

8 October 1968

Commenced work on LZ at 0630 and at 1300 were ready for a CH-46 and internal loads. Continued to improve LZ by cutting brush on the approaches using hand made line charges. Lowered 15 meters on one side of the LZ about 18 inches. Using 15 lb shape charges, at 4 foot intervals, ground and large rocks were leveled, widening the LZ about 2 meters. 1800: 15 men; 10 recon and 5 engineers stood watch this night. Material Used: 450 lbs C-4, 200 lbs TNT, 2,000 ft det cord, 85 blasting caps, 30 ft time fuses.

9 October 1968

Joined with Mike Company and moved from 017396 to 009398 to construct new LZ. Arrived new position at 1615, received first external at 1830. 6 engineers left VCB with Lima Company for 034387 (LZ Eden), 4 engineers left with India Company for FSB Henderson. Kilo Team replaced by India 3/3 at FSB Winchester as security. Moved to Camp Carrol. India Team returned to FSB Henderson for security.

10 October 1968

Commenced work at 6530 at 009398, were ready to accept internals at 1015. Continued to level and widen for blade clearance. Materials used: 450 lbs TNT, 20 blasting caps, 20 ft time fuse, 1,500 Detcord.

11 October 1968

SSgt ROBERTSON and 9 engineers moved from 009398, attached to the 1st Platoon of Mike Company to 997392 (Hill 627) to construct a new LZ. LZ was cleared and received first external at 1400. Continued work, removing stumps and large protruding rocks. Materials used: 100 lbs TNT, 10 ft time fuse, 15 blasting caps, 100 ft det cord. Lima Team moved from 034387 to 045387, negative results on move. Kilo Team at Camp Carrol. India Team at FSB Henderson, laid 200 ft single concertina, also repair of other wire work.

12 October 1968

SSgt ROBERTSON and 9 engineers with the 1st Platoon of Mike Company at 997392 commenced work on LZ at 0630. Continued to level along the North side of the ridge. LZ was prepared to take internal loads at 1130. Materials used: 300 lbs TNT, 20 ft time fuse, 25 blasting caps, 500 ft det cord. Lima Team moved with the Company to 048374. Completed 25% of LZ. Kilo Team sent LCpl HORN and LCpl WATKINS to Quang Tri to ride security for a convoy. India Team at FSB Henderson repairing double concertina.

13 October 1968

SSgt ROBERTSON and 9 engineers continued to widen and to improve LZ. Choppers can approach from any direction. Cut trees and brush by hand due to lack of demo. LZ 50% done. Kilo Team cleaned weapons and worked on gear. India Team still at FSB Henderson.

Enclosure (1)

14 October 1968

SSgt ROBERTSON and 9 engineers moved from 997392 to 034386, but did not arrive until morning of the 15 Oct 1968 because the wrong trail was taken and Mike Company was lost. Lima Team got there resupplies but the time fuse would not light. Materials used: 90 lbs TNT, 15 blasting caps, 10 ft time fuse, 150 ft det cord. LZ 75% done. Kilo Team waiting to move from Camp Carrol. India Team at FSB Henderson repairing tangle foot.

15 October 1968

SSgt ROBERTSON and 9 engineers spent the remainder of this day checking feet and resting. No engineers work done on this day. Lima Team continued work on LZ, weather still hampering work. Only small trees left in approach and exit of LZ. Materials used: 125 lbs TNT, 20 blasting caps, 10 ft time fuse, 100 ft det cord. LZ 85% complete. Kilo Team still waiting to move from Camp Carrol. India Team still repairing wire at FSB Henderson.

16 October 1968

SSgt ROBERTSON moved to 034387. No engineer work done this day. Lima

Team continued to work on LZ at 049374. LZ now 100% complete. Destroyed

9 LAWS and 10 M-26 grenades. Materials used: 35 lbs TNT, 5 blasting caps,

5 ft time fuse. Kilo Team rode convoy to VCB. India Team built incoming

bunker at FSB Henderson.

17 October 1968

SSgt ROBERTSON and 3 engineers moved from 034387 to 052368. Negative results on trip. Lima Team moved from 048374 to 052368 with Sgt BLACKWELL and 4 engineers, found 100 75mm pack Howitzer rounds near this position

17 October 1968 Cont'd

by Lima Company. Kilo Team moved to Radio Relay Hill and spent the night.

India Team still repairing tangle foot at FSB Henderson.

18 October 1968

Continued work on LZ at 052368, using axes to clear away brush due to the lack of demo. Weather hindering progress, thick and heavy undergrowth also hindering work. Bangalores required to clear it out. LZ suitable for externals. Materials used: 138 lbs TNT, 30 blasting caps, 15 ft time fuse. Kilo Team pulled a patrol, no engineers used. India Team repaired washed out wire at FSB Henderson.

19 October 1968

LZ excepted internals for medevacs. All work done this day by axe due to lack of demo. Received chow by external but no demo. Kilo Team to VCB. India at FSB Henderson.

20 October 1968

Received resupply of 1,020 lbs C-4, 150 blasting caps, 5000 ft det cord and 500 ft time fuse. LZ 90% cleared. Leveled by using ditching charges, Plenty of clearance for blades. Materials used: 620 lbs C-4, 25 blasting caps, 2000, det cord, 15 ft time fuse. Kilo Team at VCB. India Team blew 40 US 40mm mortars at FSB Henderson. Materials used: 15 lbs TNT.

21 October 1968

Destroyed 7 M-26 grenades, 3 LAWS and 400 rounds of 7.62mm (US) rounds. Completed LZ. Materials used 250 lbs C-4, 30 blasting caps, 700 ft det cord, 30 ft time fuse. Kilo Team at VCB. India Team at VCB.

MONTHLY TRAINING SCHEDULE

HEADQUARTERS
3d Engineer Battalion (Rein)
3d Marine Division (Rein) FRF
FPO San Francisco 96602

BnBull 1500 3/BEH/roh 260ot 68

BATTALION BULLET IN 1500

From: Commanding Officer
To: Distribution List

Subj: Battalion Training Schedule

Ref: (a) BnO 1500.4B

Enol: (1) Training Schedule for all Companies
(2) Lesson Outline and Training Aids

1. Purpose. To publish the monthly training schedule for the month of Hovember.

2. Action.

a. The enclosed training schedule will be practed and a gradit white of this command. Company Commanders will ensure an approximate according to maintained for personnel under their supervisions.

b. Companies will conduct NOS and General Military Subjects Training to the maximum extent consistent with the combat support mission of this battation. Due to the fact that a large portion of 3d Engineer Battalion personnel are working in groups smaller than squad size in separate locations, most training will have to be conducted by relatively junior NCO's. Attached Engineer personnel may also be included in training given by the unit they are supporting. Time, location and instructors will be selected by the unit commander.

- c. Training conducted will be reported on the daily summary. The report will include topic, period of instruction and number of personnel present.
 - d. Training conducted will also be recorded on the individuals fraining Record.

3. Self-Cancellation 1 December 1968.

LOGISTICS SUMMARY

HEADQUARTERS 3d Engineer Battalion 3d Marine Division(Mein), FMF TFO San Francisco 96602

4/JDS/tap 4000 28 October 1968

From: Commanding Officer

Commanding General, 3d barine Givision(Rein), FAF (SC-4)

Subj: Logistics Summary as of 28 October 1968

(a) 30, 3d far Hiv ms, 1914348 Oct 68

(b) DivU 4000.6A

Encl: (1) Status of Communication/Electronic Equipment

(2) Status of Engineer Equipment and Engine Generators

(3) Status of motor Transport Equipment
(4) Status of Ordnance Equipment
(5) Oritical Repair Parts

(6) Special Items

1. Supply Situation

- s. There is no longer a shortage of jungle utilities in the Battalion. Uas masks are still critical, none have been received during this reporting period.
- i. The to the shortage of pulverized limestone, this organization has been unable to pu into operation its (14) 600 Will water furification Units.
- c. We have received 116 Flack Jackets through the Firect Exchange regram this month. The lirect exchange Program during this reporting period has shown a downward trend. During this reporting period 9 items were burned in and only 1 item was received.

he sirect exchange of the receiver-transmitted for the HC-25 is still considered inferior to the old program of repair by FLSG-B.

- d. Luring this reporting period the Battalion received 384 sheets of 3/8" plywood, 192 sheets of 5/8" plywood, 3600 bl of 1x4 and 3 500 BF of 1x1C. to still have a critical shortage of 2x4 which is on an \$2 priority.
- e. Three ner supply personnel reported aboard, this includes one new Symply Officer.
- 2. <u>Vi A J L V/B di</u>

3. <u>6- - II Alas I.</u>

a. Juneary

1. Furing the north of october (4) 55 GHM pumps, (1) Lembed Mills.
(1) > U BU 1160 and (1) Chain has were assigned an unservicable condition code. This or asize on the received during the onth of october (2) May A2 butes, and (3, 2105 trailers.

b. Not Ap licable
