PART II

NARRATIVE SUMMARY

Α.

INTELLIGENCE REPORT

A. INTELLIGENCE

- 1. Background investigations were requested for six Battalion personnel for the Atomic Demolition Munitions Program.
- 2. MIne and Booby-trap reportings were only one half of the total reported in November for the Northern I Corps AO. A total of 32 reportings were made -22 in the Marshall Mountain AO, 9 in the Kentucky AO, 3 in the Dawson River AO, and 0 in the Scotland II AO.

This rather low level of incidents is an indication of the anomalous situation which continues to exist in Northern I Corps. Agent reports continue to indicate the enemy intention of initating a Spring offensive while in actuality his operations remain at a low level.

- 3. A continuation of excellent weather permitted the Battalion to continue its heavy work load. Several FSBs were closed during the month while 4 were built and 2 started. The success generated by the complementation of infantry tactical operations by the FSBs has generated a similar FSB program in the Southern I Corps Tactical Area.
- 4. Five semi-automatic carbines (CHICOM SKS) and one Bolt Action Rifle (USSR) were registered at Division G-2 as war trophies.
- 5. The outlook for Engineers is continued construction of FSBs and continued combat support of infantry operations.

В.

TRAINING

B. TRAINING

- 1. On 2 December 1968, (13) personnel from 3d Engineer Battalion Fam Fired their T/O weapon.
- 2. From 4 December to 6 December 1968 (13) personnel from HAS "B", AFD "C" Companies, 3d Engineer Battalion attended Land Mine Warfare and Demolitions School.
- 3. 1-37 School was conducted for Officers/SNCO'S of H&S and Support Company, 3d Engineer Battalion on 4 December 1968.
- h. On 7 December 1968 13 personnel from H&S and Support Company, attended In Country Indoctrination (COATIP).
- 5. Communication procedures school was conducted for Officers/SMCO'S of M&S and Support Company on 11 December 1968.
- 6. On 15 December 1968 a 1 hour class was conducted on V.C. Fines and Booby Traps for Construction and Motor Transport Sections of Support Companies. 30 personnel were present.
- 7. On 16 December 1968 8 personnel from 3d Engineer Battalion Fam Fired their T/O weapon.
- 8. 105 Air Compressor School was conducted for Officers/SNCO'S of HAS and Support Companies, 3d Engineer Battalion on 18 December 1968.
- 9. On 20 December 1968 a contact team from III MAF held a (1) day school on 2d echelon Motor Transport Maintenance in 3d Engineer Battalion classroom. The following organizations attended:
 - 3d Engineer Battalion
- 10 (Host Unit)

- 3d Shore Farty Battalion
- 10
- 10. On 21 December 1968 8 personnel from H&S company, "A" and "C" Companies attended In Country Indoctrination (COATTP).
- 11. On 23 December 1968, a class on the Parson's Trench was conducted for Staff/Officers of H&S and Support Companies, 3d Engineer Battalion.
- 12. Between 24 December and 28 December 1968 34 personnel from 3d Engineer Battalion attended Land Mine Warfare/Demolitions School.
- 13. On 28 December 1968, 34 personnel from 3d Engineer Battalion attended Incountry Indoctrination in the Battalion classroom.

C.

OPERATIONS

1. General. During the month of December 1968, Company "A" (-) (Rein), Company "B" (Rein) and Company "C" (Rein) remained in direct combat support of the 4th, 3d, and 9th Marine Regiments respectively. On 9 December the 2d Platoon, Company "B" departed for An Hoa with Battalion 1/3 to participate in Operation Tayler-Common and became OPCON to the 1st Marine Division. On 12 December the 3d Platoon, Company "B" followed in direct support of Battalion 3/3 in Operation Taylor-Common. The 1st Platoon, Company "B" remained at Cam Lo RVN in direct support of Battalion 2/3 (3d Marine Division TAOR). The remainder of the Battalion, including Headquarters & Service Company (-) remained in general support of the 3d Marine Division.

2. General Combat Support.

a. A total of 1,527,457 meters of road were covered by 3d Engineer Battalion visual/deliberate route sweeps. The following road segments were covered by regular daily sweeps:

m.n.		500
"A" 01 31572 "A" 01A 30174 "B" 02 11770 "B" 03 13264 "B" 05 11758 "B" 06 09752 "C" 07 13559 "C" 08 02656 "C" 09 98755 "A" 10 01046	132642 135592 111552 111552 12 076571 12 076571 15 026562	500 6500 6750 4000 3500 6000 5750 5500 8200

- b. In compliance with a verbal request from the Division Engineer Officer a visual reconnaissance of Route #8B from Route #1 to the C-3 Bridge was conducted by the Commanding Officer, Company "B", on 2 December 1968. Recommendations were reported to the Commanding General in CO 3d Engr Bn ltr 3/RVN/djg of 3 Dec 68.
- c. The 1st Platoon, Company "B" utilizing surveyors from the Battalion Operations Section made a detailed survey of the Cam Lo District Headquarters Compound to determine drainage requirements for Battalion 2/3.
- d. Bunkers at Fire Support Base Cates were inspected by 3d Platoon leader, Company "C" at the request of the Commanding Officer of Battalion 3/9. These were first generation bunkers (ammo boxes) and the majority were declared unsafe and condemned.

- a. The 3 engineer companies of the 3d Engineer Battalion continued to support the 3 infantry regiments of the Division as reported in the November Command Chronology.
- b. During the month of December the Battalion participated in all major operations of the 3d Marine Division, and also Operation Taylor-Common in the 1st Marine Division TACR as indicated in paragraph 1 above. The clearing of helicopter landing zones and the construction and development of Fire Support Bases continued. During the past month 13 landing zones were cleared through the use of demolitions and/or heliliftable tractors by the 3 engineer companies of the Battalion. In addition the following Fire Support Bases were constructed:

FSB Fuller	3	YD	013593				
FSB Shielo	3	YD	104268				
FSB Biddle	2	(D	998467				
FSB Davis	7	YD	042273				
FSB Russel	2	KD	911592				
FSB Moville	, 7	ΚD	821577				
FSP Fuller	II (Dong Ha	9	YD 0175	93			
	Mt.)						
FSB Lance			793408				
FSB Pike			191451	(1st	Mar	Div	TAOE)
FSS Spear			185400	(1st	Mar	Div	TAOR)
FSB Big Joh	ın :	YD	042273				

c. Platoons of the engineer companies continued to perform pioneer type work in direct support of the various infantry battalions.

4. Combat Service Support

a. Roads and Bridges.

- (1) During the month of December the Battalion utilized 273 barrels of RC-800 asphalt to dust suppress 10.4 miles of road in the Quang Tri Combat Base area.
- (2) Road maintenance was continuous through out the Quang Tri Combat Rase and Vandegrift Combat Base areas.
- (3) Engineer Support Company completed construction of a road leading to the 4th CAG. Project required 850 cubic yards of fill, one culvert, 33 equipment hours, and 56 man hours.

- b. Field Fortifications. The 3d Engineer Battalion continued to assist other Division organizations with materials, manpower, and technical supervision to improve existing field fortifications including defensive wire, trench lines, and bunkers.
- (1) Bunker was constructed for 3d Reconnaissance Battalion $(10' \times 24')$
- (2) 10 Engineer personnel were employed for a 14 day period to improve tactical wire obstacles on the Quang Tri Combat Base perimeter.
- (3) TD-15 tractor was utilized to clear area around the Quang Tri Combat Base defensive wire in sector GOLF and FOXTROT.
- c. General Construction. Major construction projects completed during the month of December:

 - (1) 3d Engineer Battalion Chapel(2) Landscape the Battalion 3/2 messhall area
- (3) Constructed 10 4 holer burn out heads to be distributed to Division units.
- (4) Constructed 80' x 150' helo pad for 3d Reconnaissance Battalion
 - (5) Fill & grade Division Post Office parking lot.
- d. Utilities. The utilities platoon continued to operate generators at Quang Tri and Cua Viet. Water points were operated at Quang Tri Combat Base, Cua Viet, C-4 FSB Cates, C-3, Camp Elliot and Vandegrift Combat Base. A total of 8,260,500 gallons of potable water and 790.500 gallons of non-potable water was produced during the month of December. Shower points were operated at: Quang Tri (12) Dong Ha (4), Camp Elliot (1), Vandegrift Combat Base (2), FSB Cates (1), C-2 (1), Con Thien (1), Camp Red Devil (1).

D.

COMMUNICATIONS

- 1. A courtesy inspection was held by the 3d Marine Division C.E.O. All radios, switchboards, phones and accessories were inspected along with records.
- 2. One radio operator from "B" Company was replaced; he is on 30 days special leave.
- 3. The Battalion received two long range antennas, ANT 2236. They were immediately employed with "A" and "C" Companies at Vandegrift Combat Base. These antennas will afford better communications between these two forward units.
- 4. Communicatons platoon has received 4 personnel during the month, upon completion of training in radio procedures and incountry indoctrination, these men will be sent to the 3d Engineer Battalion Letter Companies.
- 5. Preparation for the moonsoon season was accomplished. Water proofing of mount out boxes continues.
- ϵ . Communications platoon is operating without a Communications Officer at present.
- 7. Normal 24 hour watches were maintained on radios, switch-boards and message center.

E.

LOGISTICS

4. Logistics

- 1. During the month of December, 3d Engineer Battalion conducted logistics and service support operations from Quang Tri Combat Base. Support was also provided to Companies "A", "B", and "C".
- 2. The Battalion received during the month of December 4,480 BF of 2x12 3,840 BF of 3x12, 864 BF of 6x6 and 665 sheets of the plywood. Equipment received in December are (2) MRS-100 Tractors, (8) 55 GFM Pumps, (1) Euclid Front End Loader, (5) High Pressure Cleaning Units and (1) M-105 Trailer.
- 3. In December water point of this Battalion produced 6,494,500 gallons of potable water in support of Division units. This Battalion is presently operating 7 water point.
- 4. Last month 29 mine detectors were assigned an unserviceable condition code and placed on requisition. To date none have been received. A total of 28 mine detectors are presently on temporary loan to this Battalion from various organizations.

F.

CIVIL AFFAIRS

F. CIVIL AFFAIRS

1. Two MEDCAPS were conducted during the month on 18 Dec and 24 Dec. Both were held in the Trieu Phong District.

The 18 Dec MEDCAP was at Gio Do (YD 275635) where the Medical Team treated 43 adults and 58 children while the Dental Team treated 24 people. Battalion personnel consisted of the S-5, the Battalion Surgeon, three Medical Corpsmen, one Dental Officer, two Dental Technicians, one interpreter and five enlisted Marines. One child was evacuated to the Quang Tri Hospital because of malnutrition.

The 24 Dec MEDCAP was at An Loi (YD 285613) where the Medical Team treated 64 adults and 95 children while the Dental Team treated 28 children and adults. Battalion personnel consisted of the S-5, the Battalion Surgeon, three Medical Corpsmen, two Dental Technicians, one interpreter, and five enlisted Marines. One child was evacuated to the Quang Tri Hospital for possible tuberculosis.

The inhabitants of both hamlets were found to be generally in good health. Personal hygiene was again the greatest problem Upon interrogation it was found that the hamlets had been free of VC/NVA influence for several weeks.

One physical education kit was given to the school in Gio Do. Two swings were set up at the An Loi School. 3000 cookies and 1600 toys were given to MACV at Trieu Phong for Christmas distribution. These had been acquired from Division G-5.

- 2. The District Chief gave the Battalion S-5 some priority projects in the district. These were visited on 22 Dec by the S-5 and an engineer estimator from the Battalion. Plans were given to Division G-5 for confirmation.
- 3. The Battalion plans to continue its MEDCAP program while at the same time further its sphere of influence in the Civic Action and Psychological fields.

PART III SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

A.

S-1

21 December 1968: Battalien Promotion Board held for selection of one (1) Corporal and thirty-six (36) Iance Corporals

B. S-2

В.	S-	-2 Sequent	tial Listing of Significant Events
1.	Dec	1968	S-2 was Pay Officer for H&S Company, 3d Engineer Battalion.
2	Dec	1968	S-2 to FSB Dick for pay call.
4	Dec	1968	S-2 to Thon Bich La Trung (YD 357576) for discussion with 4 th CAG Plt. Commander.
4	Dec	196 8	Sat on Special Courts Martial at Division.
5	Dëc	196 8	Perimeter Guard at QTCB on Condition I.
6	Dec	1968	S-2 clerk transferred to "B" Company and new clerk posted.
6	Dec	1968	Interpreter went to Mai LOc to assist sweep team.
8	DEc	1968	Shore Party perimeter on Condition I.
8	DEc	196 8	Interpreter returned from field.
9	DEc	1968	S-2 was verification officer at Division Dispursing.
10	DEc	1968	S-2 to Division G-5 for discussion.
10	Dec	1968	"Spooky" on station Northeast of QTCB from 2245 to 2330.
11	Dec	1968	To Trieu Phong with interpreter for meeting with District Chief. CG, 3d MarDiv, visiteddarea during this time.
15	Dec	196 8	S-2 discussed FSB Fuller construction with "A" Company Commander for information on photo album.
16	Dec	1968	S-2 to Division G-2 to discuss clearances.
16	Dec	1968	Interpreter assisted on 3d MOtor Transport MEDCAP.
17	D _e c	1968	S-2 to Trieu Phong for meeting with District and MACV chiefs.
18	Dec	1968	MEDCAP at Gio Do.
19	Dec	1968	S-2 to Division G-5 to pick up Christmas gifts.
20	Dec	1968	Interpreter to Da Nang for administration.
22	Dec	1968	S-2 and Battalion engineer estimator estimated material needs for Civic Action projects at proposed sites.

23 Dec 1968	S-2 attended Division Officers Club meeting.
24 Dec 1968	MEDCAP at An LOi.
27 DEc 1968	INterpreter to 3d Tanks for MEDCAP.
28-31 Dec 1968	S-2 attended Basic Organic Supply School at the Forced LOgistic Command in Da Nang.

C.

s-3

C. Sequential Listing of Significant Events.

- 1 December 1968 S-3 discussed situation of lack of sand and concrete with a representative of the Base Coordinator Office and the Commanding Officer.
 - S-3 went to FLSG-B to track down mine detectors & attempt to discover why Code H letters are not submitted on lost detectors. Requested Supply NCO check w/Division G-4 to find out what can be done to speed up the process of getting more detectors.
- 3 December 1968 Division Engineer Officer called S-3 relative to site for sand. Brought him up to date on progress.

Division Engineer called S-3 requesting to know when he would be able to accompany S-3 on visual recon of route 558 and Camp Carroll back access road.

- 4 December 1968 Submitted National Foute #8B reconnaissance to Division Engineer Officer.
 - S-3 checked at MACV Sector Advisor to attempt to obtain permission to haul sand out of area adjacent to Quang Tri Bridge.
- 5 December 196? S-3 visited Division Engineer Officer to discuss sand pit, bunker materials, amd process by which infantry units should order construction materials, and engineer support.
- 6 December 1968 Move to Quang Tri City Bridge with security element and sweep team to sweep road into sand pit area 8 area itself.

S-3 attended conference with Division Engineer Officer to discuss mount out of 2d & 3d platoons, of "B" Company to An Hoa, RVN.

- 8 December 1968 S-3 went with Commanding Officer to visit Division Engineer Officer, CO, 3d Marine Regiment, and CO "B" Company to discuss upcoming operation.
- 10 December 1968 Notified Base Coordinator that 3d Engineer Battalion would load in sand pit tomorrow. Request Base Coordinator notify customers.
- 12 December 1968 3-3 informed "C" Company that their is one mine detector at this position for his use.

- 18 December 1968 S-3 contacted "A" Company Commander and requested that he report all of the Fire Support Bases currently being used by the 4th Marine Regiment.
- 20 December 1968 Notified all letter company commanders to contact their respective Regiments, and inform that chain saw and hand tool school is now accepting students at the Vandegrift Combat Maintenance School.
- 26 December 1968 S-3 departed for An Hoa to visit with "B" Company (-) in support of the 3d Marine Regiment. Checked in with Regimental staff and observed initial phases of FSB construction projects. Also made liaison with 3d Engineer Battalion expeditor.
- 27 December 1968 S-3 is at An Hoa, RVN.
- 30 December 1968 S-3 went to Vandegrift Combat Base to visit with the Letter Companies.

The task organization report was turned over to the S-1 Section for submission to Division beginning on 1 January 1969.

D.

5-4

D. S-4 Sequential Listing of Significant Events

- 3 Dec 68 Three M51 Dump Trucks dispatched to haul rock from 11th Engineer Battalion.
- 6 Dec 68 Motor Transport inspection, outcome very good. Inspectors from 3d Motor Transport Battalion.
- 9 Dec 68 Submitted Engineer Assistance request to Division Engineer requesting 12 bundles of MSA1 matting.
- 12 Dec 68 Submitted Engineer Assistance request to Division Engineer requesting 1,000 BF of 1x material.
- 13 Dec 68 MAG-39 personnel inspected Utilities section, results satisfactory.
- 15 Dec 68 Submitted CONEX Inventory Report to G-4.

 Received MRS-100 Tractor from FLSG-B.

 M52 Truck, Tractor and highbed sent to DaNang for supply run.
- 19 Dec 68 Submitted letter to Division Engineer as per their request for list of materials salvaged from Camp Carroll.

 SPEED Requirement for (7) 150 GPM electric pump, (2) 150 GPM pump boosters, (2) 650 GPM pump power unit change and (12) Homelite XI-904 Chain Saws submitted to G-4.
- 21 Dec 68 Sent one shower unit to Cua Viet and one to 11th Engineer Battalion.
- 25 Dec 68 SPEED requirement for (1) Distributor, Bituminous, Truck Mounted and (2) Case C-580 Tractors submitted to G-4.
- 27 Dec 68 Picked up 20 flourescent light fixtures from MCB-11.
- 30 Dec 68 SPEED requirement for MO-MAT submitted to G-4.

COMPANY "A" 3d Engineer Bettalion (Rein) FMF 3d Marine Division (Rein) FMF FPO San Francisco 96602

RLSchrm 5750 15 December 1968

Commanding Officer From

Commanding Officer, 3d Engineer Battalion (Rein) FMF (Attn: S-3) To :

After Action Report: Fire Support Base Fuller

Encl: /(1) Chronology

1. A detachment of Company "A", 3d Engineer Battalien, reinforced by 3d Engineer Battalion case tractor personnel, provided direct support to the 4th Marine Regiment in the development of Fire Support Base Fuller in the vicinity of Dong Ha Mountain from 2 December 1968 to 7 December 1968.

2. Engineer Task Organization:

NAME	<u>rank</u>	SERIAL#/MOS
SEABORG, R. L. CORTRIGHT, J. M. IMES, L. N. DANIELS, W. SCARBOROUGH, A. REAVES, R. H. PICA, R. E. SANDERS, R. L. RICHEY, J. R. HEGEDUS, J. W. ECKERSON, C. J. DOGIEL, M. L.	Capt Sgt LCpl LCpl LCpl LCpl PFC PFC PFC LCpl LCpl	091887/1302 2323910/1371 2365800/1371 2366572/1371 2366929/1371 2376199/1371 2422287/1371 2370849/1371 2376736/1371 2380693/1371 2327631/1345 2391453/1345
BAYLOG, P. P.	PFC	2399292/3531

- 3. The engineer mission assigned was twofold:
- a. Clear a path through the supposedly mined/boobytrapped defensive wire surrounding the position at Dong Ha Mountain.
- b. Provide engineer support as required in the development of FSB Fuller, develop a helicopter landing zone, six 105 mm gun positions and ammo storage pits.

To accomplish the assigned missions, a detachment of combat engineers from Company "A" was assembled to provide required demolition support and the heavy equipment detachment of 3d Engineer Battalien located at VCB was tasked to provide a case 450 tractor and case 580 Backhoe with operators to be heli-lifted into the jeb site when called for.

+ 43-A

- a. Case 450 tractor
- b. Case 580 Backhoe
- c. Four Remington chainsaws
- d. Infantry pioneer chest

5. Materials Expended

- a. 1160 lbs of C-4
- b. 200 lbs of TNT
- c. 15 15 lb shape charges
- d. 150 Bangalore Torpedoes
- e. 5800 feet of det cord
- f. 300 feet of time fuse
- g. 850 non-electric balsting caps
- h. 55 electrical blasting caps
- i. 50 feet of line charge
- j. 35 gal chainsaw mixture
- k. 10 gal chainsaw oil

6. Chronology (See Enclosure)

7. Engineer Observations:

- a. A true visual reconaissance of the proposed site of FSB Fuller was not actually made. The engineer commander had had it pointed out to him once while being heli-lifted from Dong Ha mountain but only had time for a quick look. Closer scrutiny would have revealed the thick undergrowth on the western end of the position and would have lent credence to the use of napalm to burn off some of the undergrowth prior to going into the site. A good visual reconaissance mightehave also revealed to gentle slope of the terrain to the west and recommended artillery and fixed wing prep of that area to knock down as many of the trees as possible and thus cut down on the engineer effort in that particular area. Buch prep fires on the particular area where the gun positions were to be located would have been more of a hindrance than a help, as this area, while having thick undergrowth, had relatively few trees actually on the ground where the gun positions were slated to go.
- b. Having the artillery battery commander with a small working party go in with the engineer element again proved invaluable. Initial agreement, which was later confirmed, on organization of the FSB is invaluable in this type of project. The artillery personnel worked with the engineers manning to chainsaws giving two men working with each chainsaw which is better than having one man with a chainsaw working by himself.
- c. The Remington chainsaws held up very well throughout the project. This can be attributed to the relatively newness of the particular chainsaws used on the job. With more use and wear, their utility will be decreased to where eventually they will become more of a burden than a help in the amount of time spent in

- d. The term "infantry squad", when related to number of personnel, is misleading. The two squads working with and/or providing security for the engineers had 6 or 7 people in them. The project itself could have kept many more people (an additional 15 people was requested by the engineer commander but to no avail) busy as a working party to follow in the path of engineers to dispose of the inevitable debris.
- e. IZ clearance, whether or not an FSB is to follow, is a joint effort by all concerned. Engineers will be busy blowing trees and stumps and, unless other qualified personnel are present and available, will be running any chainsaws on the job. Infantry and artillery personnel when available must provide personnel to work with all pioneer tools available in the unenviable but yet necessary job of clearing tree branches, limbs, and debris from the zone.
- f. Infantry personnel again proved adept at breaking pioneer tools and were less than overjoyed when given a replacement tool.
- g. No HST personnel were available at FSE Fuller until 6 December. Engineer and artillery personnel directed helicopters into the zone as required using smoke grenades and hand and arm signals but without radio communication. Engineer personnel had been given a class on HST techniques several months ago which came in handy at FSE Fuller. Having to provide one man to be more-or-less class and accessible to the landing zone took just that much more away from the engineer effort.
- h. There were numerous trees of various diameters surrounding the job site which had to be taken down, whether by demo, chainsaws, axes or machetes. Demo teams working ahead of other personnel used a rule of thumb of placing charges on trees of 6" diameter or greater. This proved necessary and most useful as there were sufficient number of trees of less than 6" diameter to keep chainsaws busy.
- i. Bangalore torpedoes were used very successfully in clearing dense undergrowth so that demo teams could move in and place charges. Several shots were made of 10 bangalore sections, resulting in a cleared path 50'x15' wide. All bangalores were fired electrically.
- j. When engineers ran out of TNT and C-4 near the end of the project, 15 lb shape charges were used to blow down the few remaining trees needed to unmark artillery fires. The base of the shape charge was placed against and at right angles to the tree trunk several feet above the ground and tied in place with marline. The charge was placed on the side of the tree in which the direction of fall was desired and fired non-electrically. This proved highly successful.

MARLINE

MARLINE

15 LB SHAPE CHARGE

- k. Development of and resupply for FSB Fuller went very smooth up until the time the 105 mm's were lifted in. Prior to this time, the only loads, with the exception of the backhoe, which were dropped into the zone were those which had been requested by personnel actually on the FSB site. External loads were called for as they were needed and projected ahead as much as possible. With only requested loads coming into the zone, the zone was kept clear of unecessary gear and the heavy equipment was able to move about freely.
- 1. Part of the mission assigned to engineers was to clear a path through the supposedly mined/boobytrapped defensive wire enclosing the position on Dong Ha mountain. The M58 HE line charge was used to do this. The only items "cleared" were two trip flares. No evidence of any mines or boobytraps was found.
- m. The engineer effort in building FSB Fuller was essential to the accomplishment of the mission and went smoothly. Once on the job site the engineers broke down into two demo teams and assigned personnel to run the chainsaws. Sgt. CORTRIGHT, PFC "Bones" SANDERS and PFC HEGEUS worked as one demo team and LCpl IMES, LCpl PICA and PFC RICHEY made up the second team. LCpl "Poor Boy" DANIELS, LCpl "Scotty" SCARBOROUGH and LCpl "Hey Slick" REAVES worked primarily with the chainsaws. LCpl ECKERSON operated the case 450 and LCpl DOETEL the case 580. PFC BAYLOG was assigned to take pictures of the development of the FSB.

8. Lessons Learned:

- a. Bangalore Torpedoes proved very effective in clearing dense undergrowth. Sections of bangalores can be connected together quickly and are easy to place. Any time spent in blowing bangalores is well worth the effort as it greatly facilitates further work in the area cleared.
- b. 15 pound shape charges proved very effective in blowing down trees as outlined in paragraph 7j above.
- c. The need for a good visual reconnaissance of any FSB site cannot be emphasized enough. Only from a good visual reconnaissance can an estimate on the amount and type of demolitions required for the job be obtained.

9. Recommendations:

- a. Consideration should always be given to the employment of bangalore torpedoes when it is known that the LZ/FSB site has dense undergrowth.
- b. Consideration should also be given to the use of 15 pound shape charges to blow down large trees.

R. L. SEABORG

CO, 4th Marines

CO, 3dBn, 12th Marines

CHRONOLOGY

- 29 Nov 68: 4th Marines frag order for 30 Nevember published stating to "Commence planning for development of Fire Support Base in the vicinity of Dong Ha mountain.
- 30 Nov 68: New FSB to be named KULER. 4th Marines published warming order to prepare FSB Fuller commencing on 2 December 1968. Information received that the engineers and artillery personnel would be heli-lifted to Deng Ha mountain and walk into the new FSB site. It was also disclosed that there were conflicting reports of mines/beebytraps in the defensive wire surrounding Dong Ha mountain which would have to be cleared by engineers to establish a safe exit cave.
- 1 Dec 68: Engineers prepared to be heli-lifted to Dong Ha mountain on 2 December 1968. One external load of demo chainsaws, pieneer tools staged at the LSA at VCB by engineer personnel.
- 2 Dec 68: Engineers and artillery personnel waited most of the day at the 4th Marines helo-pad at Ca Iu. Plans for using command and control helicopters to heli-lift to Dong Ha mountain were aborted when one of the helicopters crashed while attempting to land in the vicinity of Lang Ho. Finally at 1820 engineers and artillery personnel were lifted into Dong Ha mountain by a CH-46 and spent the night there.
- 3 Dec 68: Between 0800 and 0900 engineer personnel, wearing mine field boots and lower body armor in addition to their normal protective gear, cleared a path through the suppesedly mined/boobytrapped area on the western end of Dong He mountain perimeter. Fifty feet of line charge was used to clear this path. The only items "cleared" were two trip flares. No evidence of any mines or boobytraps was found. At 0910 engineer and artillery personnel with two squads of security previded by the 2d Platoon, Company "M", 3d Battalion, 4th Marines, departed Dong Ha mountain and arrived at the FSB site (YD014593) at 0940. A 360 degree perimeter was established and engineers commenced placing demoltion charges on trees. An external landing gone already present at the FSB site. An external load of demolitions, chainsaws, PCL and a pioneer tool chest, which had previously been staged at VCB LSA by engineer personnel, was requested immediately and was dropped into the zone at 1010 by a CH-46. The initial engineer demolition effort was to improve the landing zene. Demolition charges were placed on the larger trees surrounding the zone and the chainsaws cut down smaller trees surrounding the zone and also cut tree stumps in the zone as low as possible. A six-man detachment of artillery personnel from "I" Battery, 3d Battalien, 12th Marines worked along with engineers on the chainsaws and on squad of infantry worked with pioneer tools in clearing tree limbs, branches, stumps and debris from the landing zone. The other squad of infantry previded security for the jeb site. Engineers not working with the chainsaws were split into two demo teams and assigned areas to work in. At 1500, Colonel Stormy SEXTON, 4th Marines Commanding Officer, and Lt. Col. FOXWORTH, Commanding Officer of 3d Battalien, 12th Marines, visited to job site, having been heli-lifted to Dong Ha mountain and then walking down the job site. The imitial on-the-ground organization for the FSB was

determined to be thus: The landing zene would be on the eastern part of the generally level terrain with the western end being developed into a full battery-sized position to include six 105 mm gun positions, amme storage pits and hele for the FDC. Work prierities as established earlier between Captain SEABCRS, the engineer commander, and Captain HCLIDAY, Commanding Officer of "I" Battery, were also agreed upon as being development of the landing zone to accept internal loads and then preparation of the gun positions in conjunction with improvement of fields of fire and observation. By this time, the zone had been sufficiently impreved to allew the case 450 tractor to be lifted in and such request was made. At 1715 the tractor was lifted into the job site by a CH-53 with ne problems. At 1740 a CH-46 carrying the tractor blade and POL attempted to drop the same into the zone but rapidly closing ground feg prevented this and the external load was returned to the LSA at VCB. A four man infantry listening post arrived at the job site shortly after 1800 and the artillery personnel and two squads of infantry left to return to Dong Ha mountain for the night. The infantry listening post set in en the western end of the position and engineer personnel maintained a two man listening post on the eastern end of the position. Engineers had used 150 lbs of C-4, 22 ft of time fuse, 420 ft of det cord and 73 non-electric blasting caps in blowing 50 trees at the FSB site throughout the day. Also LCpl SCARBCRCUGH had found and blown 1 dad 81 mm WP round and two dad 60 mm WP rounds on the LZ.

Work commenced again on improving the landing some blowing with demo 4 Dec 68: large trees and outting deum and clearing the smaller trees (with cahinsaws) blocking approach and exit lanes. Artillery persennel and two squads of infantry arrived shortly after 0800 and were put to work in the same manner as before. At 1000 Major MCKENNA, 4th Marines S-3, Major THORMOND, 4th Merines Artillery Liasien Officer and Captain BAXTER, 4th Marines Communications Officer, arrived at the job site, walking down from Dong Ha mountain. The proposed plan for development of the FSB was confirmed and a possible site for the regimental COC was selected. At 1150 a CH-46 dropped the tracter blade and a 55 gal drum of diesel for the tractor in at the job site. The tractor operator, being carried internally in the same helicepter was dropped off at Dong Ha mountain and subsequently lifted into the job site at 1155 by another CH-46, which set its rear wheals on the zone and hovered while the operator debarked and PFC RICHEY, who had earlier that morning sprained his left knee, got on and was returned to VCB. In the afternoon sufficient trees had been cleared around the zone and work commenced clearing the area where the gan positions would go. Several 15 lb shape charges were also used to blow holes underneath stamps for the placement of TNT After a break fer chew the blade was put back on the tractor and the tractor commenced work on leveling the landing zone at 1337. Holes underneath the larger tree stumps had been previously dug and demolition charges composed of TNT set off the uproot and loosen any stumps on the existing landing zone area that the tractor might have trouble with. The slopes surrounding the artillery position were

heavily wooded and it was necessary to start about halfway down clearing trees so that the trees higher up would not be hung up when they were filled. The western end of the position had numerous bambee thickets and at Sergeant' CORRIGHT's suggestion, a resupply request for bangalore torpedoes was sent in. No infantry HEP personnel were on the hill and subsequently all resupply requests were made through engineer channels and then made known to the 4th Marines 3-4 representative at the LSA. At 1700 2 CH-46 external loads came in bringing the bangalores requested, additional POL for the chainsaws, additional pioneer tools and demo, water and C-rations. Through an all hands effort the zone was quickly cleared and the nets were staged for external pick-up. By 1800 the case 450 tractor had leveled off a 90°x40' helopad. Engineers had used 250 lbs C-4, 60 lbs TNT, 1510 feet det cerd, 144 non-electric blasting caps and 32 feet time fuse in blowing 128 trees and 12 stumps. The night time pesture was the same as the previous night.

- The first part of the morning was devoted to using bangalores to clear 5 Dec 68: brush and bamboo to allow easier access and mobility on the western end of the position. Chainsaws were PM ed during this time. Once all the bangalores had been fired, work continued on clearing the slopes and commended on clearing tree limbs, branches and debris from the upper area. Paths had been out to several ravines on the northern side of the position to allow for easy disposal of wasterand debris and for the start of garbage dumps. At 1145 the case tractor 450 had continued to impreve the landing zone and upon the arrival of the backhoe, commenced to out a slot for the backhee to be able to dig an ammo storage pit. At 1525 the backhoe started digging the ammo storage pit, and the tractor started work on the first gun position, which was completed by 1700. Engineers blew charges until 1930 in an effort to clear the area where the remaining gun positions would go of eight large trees. For the day engineers used 205 lbs C-4, 42' time fuse, 940' det cord, 184 nonelectric blasting caps and 16 electrical caps in blowing 105 trees and 50 bangalore terpedoes. All bangalores were fired electrically. Artillery personnel remained at the jeb site evernight and provided 3 men to supplement the engineer listening post.
- Continued work, sectionalizing the large trees felled the night before 6 Dec 68: with C-4 and blowing the remaining stumps. At 0950 the backhoe finished digging the ammo storage pit. Final demensions were 40'x6'x6' deep. At 1020 Lt. Col. FOXWORTH contacted Captain SEABORG and advised him that the plans for FSB Fuller had been changed as follows. (1) Only 3 gun positions were to be developed at Fuller. (2) 3 guns would be lifted into Fuller commencing at 1200 today but would remain there for only so long as it would take to prepare 3 gun positions on Dong Ha mountain. (3) That FSB Fuller would be evacuated once the three guns were lifted to Dong He mountain that afternoon. The original plans for FSB Fuller called for leaving the improved 90 x40 LZ intact and developing the battery position to the west of the LZ/ The new plans changed this and the tractor began digging the second gun position on the western end of the LZ and adjacent to the one gun position already prepared. The tractor finished the second position shortly before 1200 and commenced working on the third position to the west of the first gun position. The first

105 mm was dropped into the first gun position at 1218, followed by the second 105 mm at 1235. The third gun position was completed at 1255 and the third and last 105 mm was dropped into position at 1310. Additional artillery personnel from "I" Battery and a security detachment from 4th Marines Headquarters Company were lifted into the zone at this time. An HST team was also lifted into the zone. Prior to this time both engineer and artillery personnel had been directing helicopters into the zone without any problems. At the time the change in plans was received, engineers and other personnel assisting them were still in the presess of cleaning up as they blew and out down trees, having them carried eff and thrown ever the side of the hill. When it was known that the guns would be coming in earlier than expected, and that the FSB would only be temperary, most of the clean-up type work was stopped and full attention was given to clearing fields of fire for the 105 mm's. It was initially thought that the tracter would be able to cut places for the backhow to be able to move about and dig further holes with the rapid influx of equipment, same and resupplies flooding the zone these plans were aborted and both the tractor and the backhow were staged to be lifted out. A Staff NCO from 3d Shor Party was lifted into the zone to check out the cables and slings and at 1625 the backhoe and operator were lifted out of FSB Fuller and returned to the LSA at VCB by a Marine CH-53. The blade was taken off of the case 450 and at 1642 the tractor was lifted to Dong Ha mountain by a CH-53. The blade was lifted to Dong Ha mountain at 1712, followed shortly by the tractor operator and two combat engineers with the necessary demo and tools to clear stumps for the tractor. Engineers remaining at Fuller continued blowing until 1930 to clear fields of fire, concentrating on an almost due west direction and path so that the 105 mm's could fire in support of FSB Russell withoug any fires being masked. Priority for clearance to the west in support of FSE Russell was given because Russell had recently been hit by NVA small arms and mortar fire. Engineers for the day blew 112 trees and 29 stumps using 130 lbs TNT, 310 lbs C-4, 2300 ft det cord, 52 ft time fuse, 3 15 lb shape charges and 240 nonelecteic blasting caps. Also 50 bangalores were blown to clear underbrush using 33 electrical caps. Engineers did not provide any night time security and enjoyed a good mights sleep except for a noisy infantry post pulling back into the perimeter.

Pagineers contumed to clear fields of fire for the 105 mm's. Bangalores were again used to clear paths through dense undergrowth to get to the trees to place charges on them. At 1217 the battery fired its first fire mission from FSB Fuller. In the late afternoon 15 lb shape charges were used to blow down the remaining trees after all the TNT and C-4 had been used. It was 1730 when the fields of fire were completed. Engineers during the day had blown 56 trees using 20 lb TNT, 170 lbs C-4, 189 ft time fuse, 70 non-electric blasting caps, and 12 15 lb shape charges. Fifty bangalore torpedoes were also blown, the last few bangalores were blown electrically using a BA-386 battery from a PRC-25 radio to provide the needed electrical current. Engineer spent the night at FSB Fuller.

8 Dec 68: Engineers returned to VCB in late morning.

TOTAL ENGINEER WORK

- 1. Three 105 mm artillery positions
- 2. One 40'x70' helicopter landing zone
- 3. One 40'x6'x8' deep artilley ammo storage pit
- 4. One safe lane through defensive wire at Dong Ha mountain
- 5. 451 trees and 41 stumps blown with demo
- 6. Approximately 420 trees were out down with chainsaws
- 7. One dud 81 mm WP round blewn
- 8. Two dud 60 mm WP rounds blown

Subj: After Action Report; Operation Scotland JI Afton (FSB Dick)

Ref: (a) BnO 3100.10

Encl: (1) Chronology

- 1. In support of 9th Marine Regiment in the Scotland II area of operation during the period 13 Nov to 19 Nov 68
- 2. The task organization for 1st Plt, "C" Co, 3dEngrBn was as follows:

PFC BELLO
LCpl BLACK
Cpl BURKE
PFC COTE
LCpl COTTON
LCpl DALTON
LCpl DAVIS
Cpl LAKE
PFC MCKEE
LCpl NUNES

LCpl REEVES
PFC RIVERA
Cpl SHEDD
Sgt SHERROD
PFC SUDDETH
LCpl VEST
Cpl SIPPLE
LCpl BOTELHO
PFC HANLEY
Lt HUGHES, M. N.

- 3. The mission of engineer elements was to build a fire support base for one battery of 105 howitzers, a regimental CP area and a CP area for 2/12.
- 4. Major items of equipment employed: 1 450 bulldozer, 4 chain saws, 4 shovels, 4 axes, 4 machettes.
- 5. Materials expended: 2920 lbs C-4, 900 lbs C-4, 65 15 lb shaped tharges, 10 40 lb shaped charges, 6 40 lb cratering charges, 6000 ft det cord, 500 ft time fuze, 1 case fuse lighters, 430 blasting caps, 25 gal diesel fuel, 10 gals gasoline, 2 gal oil.
- 6. Chronology: See enclosure (1).
- 7. Engineer observations: The fire support base and CP areas were constructed to specification and within the set time limits. The engineers received every bit of time needed to complete the job efficiently and well.

Coordination in receiving the 450 dozer, moving it and then returning it to Vandegrift was excellant.

8. Lessons Learned: Use of 15 lb shape charges in conjunction with 450 tractor for breaking up soil.

9. Recommendations:

- a. When using a cratering charge or TNT buried any depth in rocky soil, a minimum safe distance from the charge should be considered to be 300 ft. Furthermore, it is advisable to instruct all personnel in the area to keep looking up after the charge has exploded in order to avoid falling debris.
- b. When the 450 dozer is working in ground fill with large rocks and bolders, the job can be speeded up and made much easier by the 15 lb shaped charges. Whenever the bulldozer runs into layers of hard rock or one large rock, one or more 15 lb shaped charges blown on the rock will allow the dozer to easily cut down another foot or more. The use of the shaped charges saves wear and tear on the dozer and speeds up the job at the same time.

J. D. WINTERSTEEN

By Direction

CHRONOLOGY

Mb

13 November 1968

15 engineers were flown out of FSB Anne with "A" Co, 1/9 to LZ Miami.

14 November 1968

15 engineers arrived sight of FSB Dick at 1230. Work was begun. An LZ (40x40) was completed by might fall and some of the trees along the side of the hill 618 were removed. Used 150 lbs TNT and 50 blasting caps.

15 November 1968

450 dozer arrived in the morning at FSB Dick. By 1830, four gun positions were completed and one ammunition berm was begun. A new LZ was cleared (50x50). Used this day were: 400 lbs C-4, 500 lbs TNT, 4 40 lb shaped charges, 1 40 lb cratering charge, 30 15 lb shaped charges, 2000 ft det cord, 150 blasting caps.

16 No vember 1968

6 gun positions, 2 ammo berms and an area for external loads was completed.

An FDC pit was begun and the LZ was 80% completed. Used 800 lbs C-4,

200 lbs TNT, 40 15 lb shaped charges, 2500 ft det cord and 120 blasting caps.

17 November 1968

The 9th Marines CP area was cleared and leveled, the LZ was finished (50x50), the FDC pit was completed, and a few remaining trees blown off the side of the gun positions. The 2/12 CP area was cleared of trees and made ready for the bulldozer. Used 720 lbs C-4, 100 lbs TNT, 10 15 lb shaped charges, 1400 feet det cord and 80 blasting caps.

18 November 1968

The 2/12 CP area was finished by 1030. PSP matting was laid on the ENCLOSURE (1)

LZ. All but 4 engineers for "A" Co, 1/9 and 4 for the 9th Marines left FSB Dick for Vandegrift Combat Base. Used 50 lbs TNT, 4 15 lb shaped charges, 100 feet det cord, 30 blasting caps.

4. Chain Saws

5. 200 lbs C-4, 620 lbs TNT, 1800 ft det cord, 200 blasting caps, 1000 ft time fuze, and 200 ft Bangalore Torpedo.

Chonology: See enclosure (1). 6.

7. ENGINSER OBSERVATIONS:

- Company concerning the construction of FSB Big John. Demolitions and tools for the job were drawn, transported to the LSA, and turned over to 1/9 S-4 representative. Subsequently the gear was lifted to the wrong position. When the engineers assigned to construct FSB Big John arrived at the site there were neither demolitions nor tools available. It took an extra day to straighten out the mix up. This situation has been brought to the attention of the Battalion Commander who has been dealt with it accordingly.
- b. During the operation some engineer teams were required to stand hole watch, in my opinion unnecessarily. I have since had the 1/9 set the policy that engineers will stand hole watch only when it is tactically imperative that they do. Engineers will be used as infantrymen only as a last resort.
- elephant grass and bamboo. Discussion: In a position occupied by one company during operation Dawson River, the elephant grass and bamboo covered the area reducing visibility in many sections of the perimeter to few feet. The density of the growth was such that to use machetes to cut fields of fire would have taken days. The availability of Bangalore Torpedos being good, the engineers used them in an attempt to speed up the clearing operation. It was formed that a lenth of Torpedo would clear thick underbrush, grass and bamboo to a width of of fifteen feet.

9. RECCEMENDATIONS:

- a. That Dangalore Torpedos be used where possible to facilitate and expedite the clearing of fields of fire or other projects where dense growth must be removed.
- b. That a Battalion order be published concerning the use of Combat Engineers in the field as infantrymen (ref paragraph 7(b)).

J.D. WINTERSTEEN Acting

CHON OLOGY

1 December 1968

"A" Co Negative work, "B" Co Negative, "C" Co Negative, and "D" Co Negative.

2 December 1968

"A" Co Negative, "B" Co Negative, "C" Co Negative, and "D" Co worked on improving the LZ at (098232) for 2 hours (8 man hours) LZ TARAWA.

3 December 1968

"A" Co 2 Agents left with one Platoon for a two day patrol with negative results that day. "B" Co Negative, "C" Co Negative, and "D" Oo blew fields of fire using Banghabre Torpedos (150 ft) 5 hours worked, 15 mmn hours.

4 December 1968

"A" Co The two engineers on the two day patrol blew 2 bunkers at 033258. They were small one man bunkers. Two more bunkers were blown at 028253. These were of A-frame construction, 3x5x4. At this same position 7 above-ground bamboo hooches were destroyed.. "B" Co Negative, "C" Co cleared one LZ using 50 lbs of TNT at (043213) LZLeyte and "D" — Co. had one medi-evac, Lt HUGHES (0102946) with a wound in his right leg from an AK-47. More clearing was done using 50 ft of Bangalore Torpedos.

5 December 1968

"A" Co two Agents accompanied a Rifle Platoon on an overnight patrol. "B" Co blew duds at FSB SHILCH 5-105 Howitzer rounds using 5 lbs. C-4. "C" Co two gun pits were blown at FSB Big John using 175 lbs of TNT. The FSB was 50% completed. 3 Agents worked 3 hours (24 man hours). "D" Co Negative.

6 December 1968

"A" Co 2 Agents on overnight patrol blew one bunker (6x4x3) box type, at 025244. They used 1½ 1b C-4. "B" Co Negative, 8C" Co one gun pit was blown using 60 lbs of TNT, all gun pits complete at FSB Big John, and "D" Co Negative.

7 December 1968

2 Agents with A 60 left with a plateon to build an LZ at new position LZ MONTEREY (199305). A second LZ was blown for FSB Big John with 90 lbs of TNT. The engineers with B Co cleared an OP using 20 lbs of C-4.

8 Decmeber 1968

An LZ was blown for the 1st Platoon of "C" Co that had moved to a new position. 90 lbs of TNT was used (053279) LZ SAIPAN 3 Agents working with the 3rd Platoon of "A" Co cleared an LZ using 80 lbs of C-4, work was 60% completed. (199305)

9 December 1968

"A" Co engineers finished clearing an LZ using 60 lbs of TNT.

2 Agents returned from a 5-day patrol with "D" Co.

10 December 1968

No work reported.

11 December 1968

2 Engineers with "A" Co left on a two day patrol. 27 Mortar (81mm) rounds were blown up at "C" Co position using 5 lbs of TNT.

12 December 1968

8 rounds of 105 ammo destroyed at FSB SHILOH, 5 lbs TNT used 11-31mm mortar rounds blown for Delta Co, 5 lbs C-4.

13 December 1968

2 Agents returned from patrol with "A" Co. There were negative results. Engineers with "C" Co blew two V.C. mines using 2 lbs of TNT.

14 December 1968

No work reported.

15 December 1968

No work reported

16 December 1968

Ko work done.

17 December 1958

"A" Co engineers worked on an LZ using chain saw. (171246) LZ Subic. "C" CO. engineers worked on improving their LZ, blew trees using 100 lbs of TNT (178258) LZ SANTIAGO.

13 December 1968

"A" Co engineers continued work on LZ. (171246) LZ Subic.

ENCLOSURE (1)

19 December 1968

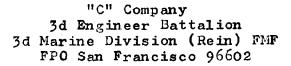

"B" Co engineers left FSB SHTLOH worked on a LZ improving it using 100 lbs TNT. "D" Co engineers improved an LZ for the company's lift to the Rockpile 80 lbs C-4 at (178258) LZ SANTIAGO.

20 December 1958 to 24 December 1958

1/9 waited to be lifted back to VCB, weather didn't permit lift until 24th between 20th and 24th engineers., worked on existing LZ's using the remainder of their demo a total of 80 lbs of TNT and 20 lbs of C-4.

3. The mission assigned was to give close combat support including construction of fire support base to 3/9 and attached units.

- 4. Major items of equipment used were the Case 450 tractor, the Case 580 backhoe tractor, and numerous chain saws.
- 5. Materials used: 11,310 lbs. C-4, 4700 lbs. TNT, approx. 20,000 Ft. det cord, 40-40 lb. shaped charges, 85-15 lb. shaped charges, 40-40 lbs. cratering charges.

- 6. Chonology: See enclosure (1).
- 7. Engineer Observations: Engineer support remain in its combat support role throughout this operation by building numerous LZ and two Fire Support Bases.
- 8. Lessons Learned:
- a. The use of 40 lbs. cratering charges to loosen the dirt for the Case 450 dozer in cutting down narrow ridge line in the building of an LZ simplifies construction.
- b. The use of a field grade officer at FSB Barnett proved to be of great value in the role of coordinator, This should be continued.
- 9. Recommendations: Negative

J.D. WINTERSTEEN Acting

CHRONOLOGY

8 November 1968

1430 Arrived at proposed F SB Tun Tavern with 13 engineers, 5/5 Lima 3/9 and a portion of Fox 2/12. 1830 Completed 3 gun pits, 1 ammo beam and cleared all trees from the landing approaches. Naterials used: 360 lbs. C-4, 4 equipment hours 65 man hours.

9 November 1968

13 engineers completed remaining 3-105 gun pits and another ammo bearm. Completed 3-155mm gun pits, one ammo berm and one LZ Materials used: 340 lbs. C-4, 130 lbs. TNT, 15-15 lb. shape charges, 1-40 lb. shape charge. 12 equipment hours 156 man hours. 7 engineers returned to VCB.

10 November 1968

AM Two agents traveled to Hill 661 and completed a LZ. Used 40 lbs. C-4, k-15 lb shaped charges. PM Completed 155mm gun position an one 155 ammo berm. 90 man hours Lima Team one patrol negative results.

11 November 1968

16 engineers plus one officer with 3/9. 3/9 6 patrols, 60 man hours. negative results.

12 November 1968

16 engineers plus one officer with 3/9. 4 patrols 48 man hours. negative results.

13 November 1968

16 engineers one officer with 3/9. 5 patrols 80 man hours. negative results.

14 November 1968

16 men plus one officer with 3/9. 6 patrols. 72 man hours. negative results. Mike Team 25% complete LZ at 027377 used 150 lbs. C-4. Kilo Team 50% complete LZ at 028367 used 220 lbs C-4. India Team 25% complete LZ at 060354.

15 November 1968

16 engineers plus one officer with 3/9, 2 patrols, 16 man hours negative results. Mike Team 50% complete LZ 200 lbs. C-4. Kilo Team 100% complete LZ 240 lbs. C-4. India Team 50% complete LZ 220 lbs. C-4. LZ man hours: 120 hours

16 engineers plus one Officer with 3/9. No patrols. Mike Team 100% complete LZ 220 lbs. C-4. India Team 100% complete LZ 440 lbs. C-4. LZ man hours: 64 hours

17 November 1968

16 engineers plus one Officer with 3/9. Negative patrols.

18 November 1968

16 men plus one Officer with 3/9. 2 patrols. 64 man hours Negative Results. India Team 75% complete LZ at 090300. 44 man hours. 240 lbs. C-4. Mike Team 50% complete LZ at 1163064 50 man hours 450 lbs. C-4 chain saw 5 hours.

19 November 1968

16 engineers plus one Officer with 3/9 2 patrols, 24 man hours Negative Results. India Team LZ at 090300 100% complete. 40 man hours. 200 lbs. TNT and 175 lbs. C-4 Mike Team LZ at 116306 10% complete. 250 lbs. TNT and 340 lbs. C-4. chain saw 8 hours. 50 man hours.

20 November 1968

16 engineers plus one Officer with 3/9. 4 patrols, 40 man hours. Negative Results. Mike Team continued to widen LZ at 116306 100 lbs. TNT.

21 November 1968

16 engineers plus one Officer with 3/9. 4 patrols. 60 man hours. Negative Results. India Team expanded LZ at 090300. 36 man hours. Materials used 210 TNT, 210 lbs. C-4 and 21-15 lbs. shaped charges.

22 November 1968

16 engineers plus one officer for 3/9. India Team 220 lbs. C-4 40% LZ at 096334, 40 man hours. Kilo Team 2 patrols, 44 man hours Negative Results. Mike Team 220 lbs. C-4, LZ 40% complete at 114302 30 man hours.

23 November 1968

16 engineers plus one Officer for 3/9. 2 patrols. Negative Results 32 man hours. Mike Team 350 lbs. C-4 LZ 70% complete 44 man hours. India Team 175 lbs. C-4 LZ 100% complete. 40 man hours.

ENCLOSURE (1)

24 November 1968

15 engineers and one Officer with 3/9, no pattols. Mike Team LZ 100% complete, 50 man hours. 220 lbs. C-4. Kilo Team 8-60mm mortar rounds (US) and 40 LAAWS destroyed.

25 November 1968

14 men plus one Officer with 3/9, no patrols. Lima Team building 3/9 COC bunker at Tun Tavern, 8 man hours.

26 November 1968

14 engineers plus one Officer with 3/9. Kilo Team moved to 148317 negative results. Mike Team moved to Hill 762 (141299) negative results. Lima Team 3/9 COC bunker 30 man hours 30% complete. Gave 1 hour class on Demo to 3rd Platoon, L/3/9 (47 men).

27 November 1968

16 engineers plus one Officer with 3/9. Mike Team LZ at 141299 100% complete. 630 lbs. C-4, 40 man hours. Lima Team COC at Tun Tavern 75% complete. 40 man hours.

28 November 1968

16 engineers plus one Officer with 3/9. Lima Team COC for 3/9 CP 100% complete, 20 man hours.

29 November 1968

17 engineers in support of 3/9, negative rest as patrols. LZ at 986471 50% complete, 400 lbs. C-4.

30 November 1968

15 engineers in support of 3/9. Completed LZ at 986471, used 200 lbs. of C-4.

1 December 1968

15 engineers in support of 3/9, No patrols.

2 December 1968

13 engineers in support of 3/9, No patrols.

3 December 1968

13 men in support of 3/9, No patrols FSB Barnett: 22 man hours in LZ. 75% complete. 5 men, 1 Officer, 3001bs. C-4 used.

4 December 1968

20 engineers and 1 Officer in support of 3/9, 1 patrol, 30 man hours.

DECLASSIFIED

Destroyed 5 bunkers, 4 RPG's, 8-82mm mortaring rounds with 94 lbs. C-4, LZ 100%, complete, 126 man hours at FSB Barnett, at 199328. 850 TNT, 12 engineers used.

5 December 1968

16 engineers and one Officer support 3/9, FSB Barnett (199328): Built 1 ammo berm, 2 gun pits, used 4500 ft det cord, 3600 TNT 45-15 lb. shaped charges, 29-40 lb. shaped charges, 150 lbs., C-4, 5 hours on Case 450 dozer.

6 December 1968

16 engineers and one Officer supporting 3/9, FSB Barnett 100% complete. 6 gun pits, 2 ammo berms and LZ 100%. Used 200 bs. C-4, 1000 lbs. TNT, 32-40 lbs. cratering charges, 40 lbs. shaped charges, 4000 feet det cord.

7 December 1968

15 engineers in support of 3/9, LZ at 870277 100% complete 30 man hours. 970 lbs. C-4. Destroyed 2 A-frame bunkers.

8 December 1968

15 engineers in support of 3/9, cutting field of Fire 6 man hours, patrols, 32 man hours 1 hootch. 15'x7'x10' destroyed.

9 December 1968

13 engineers in support of 3/9, one patrol, 36 man hours. Negative results.

ENCLOSURE (1)

12 engineers in support of 3/9, 72 man hours working on LZ's at from Esso L 2.4 UO.8, 40% complete, used 388 lbs. C-4, 20 lbs. TNT

11 December 1968

12 engineers in support of 3/9, 72 man hours. LZ at from Esso L 2.4 UO.8 100% complete, used 385 1b C-4.

12 December 1968

12 engineers in support of 3/9, 32 man hours on 4 patrols. Negative results.

13 December 1968

14 engineers and one Officer. Blew four bunkers, all A-frame construction. Blew all bunkers. Blew 3-57mm recoiless rifle rounds. C2-RPG's, 34 NVA 61mm rounds, fuses for 8000 rounds, 95% complete on LZ at 228304. Used 320 lbs. C-4.

14 December 1968

14 engineers and one Officer. Blew 2-122mm rocket rounds, 72-61mm mortar, 6 RPG's, 4000 rounds AK-47, 4 NVA entrenching tools, 3 NVA packs, 40 lbs. C-4.

15 December 1968

14 engineers and one Officer, 4 patrols, 65 man hours Negative results.

16 December 1968

15 engineers and one Officer with 3/9. Blew 9 RPG rounds, at 241274, 3 patrols. LZ 100% complete Tiparillo L1.6 UO.3 14 man hours. Used 440 lbs. C-4, 400 lbs. TNT.

17 December 1968

17 engineers plus one Officer. Blew 1500 NVA blasting caps at 257305, 4 engineers on 2 patrols. Negative results, 32 man hours. Cleared field of fire for 106's. Used 195 lbs. C-4.

18 December 1968

11 men plus one Officer. India Team (4 engineers) upcon to 2/9. Two Companies moved, Negative results, 64 man hours in the move. 1 patrols, 8 man hours. Negative results.

ENCLOSURE (1)

19 December 1968

BnBul 1500 3/ELP/djg 26 December 1968

BATTALION BULLETIN 1500

From: Commanding Officer
To: Distribution List

Subj: Battalion Training Schedule

Ref: (a) BnO 1500.4B

Encl: $\sqrt{(1)}$ Training Schedule for All Companies

1. Purpose. To publish the monthly training schedule for the month of January.

2. Action

- a. The enclosed training schedule will be carried out by all units of this command. Company Commanders will insure an acceptable level of training is maintained for personnel under their supervision.
- b. Companies will conduct MOS and General Military Subjects Training to the maximum extent consistent with the combat support mission of this Battalion. Due to the fact that a large portion of 3d Engineer Battalion personnel are working in groups smaller than squad size in separate locations, most training will have to be conducted by relatively junior NCO's. Attached Engineer personnel may also be included in training given by the unit they are supporting. Time, location and instructors will be selected by the unit commander.
- c. Training conducted will be reported on the wooldy surmary. The report will include topic, period of instruction and number of personnel present.
- d. Training conducted will also be recorded on the individuals Training Record.
- 3. Self Cancellation: 1 February 1969

R. V. NICOLI By Direction

DISTRIBUTION: "A"

BnBul 1500 26 December 1968

1. SUPPLY SITUATION

- a. Small Jungle utilities are becoming a short supply item. Large quantities of the new camouflage jungle utilities were received last month but were rapidly depleted. Fresently the on hand stock of jungle utilities consists of trousers only in small sises.
- b. Due to the shortage of pulverised limestone, this organisation has been unable to put into operation its (14) 600 GFH water Furification Units.
- c. During this reporting period this organisation received 4,480 of 2x12, 3,840 of 3x12,x864 of 6x66 and 665 sheets of 6° plywood. The non-availability of structural lumber such as 8x8, 10x10 and 12x12 continues to be a problem.
- d. The establishment of a Supply and Material Expeditor (3d Engr 5no 4400.5) last month has proven to be effective in expediting critical supply items by truck convey from Daking to Quang Tri.

2. NOT APPLICABLE

3. CLASSES II ALL IV

a. STRACY

1. During the month of December (1) 125 Scraper, (1) Chain Saw,

(1) 4 kW Generator, (1) ME-10 Reefer, (1) M274 Mule and (1) M105 Trailer were assigned an unserviceable condition code. This organization has received during the month of December (2) MRS-100 Tractors, (8) 55 GFM Pumps, (1) Euclid Front End Loader, (5) High Pressure Cleaning Units and (1) M105 Trailer.

^{*}MUTE: Administrative deadline.

- 7. NOT APPLICABLE
- 8. OTHER HAJOR ITEMS OF BUILDING
 - a. See enclosures (1) through (4).

a. The largest problem confronting this organization are T/E deficiencies and the high 3d echelon deadline rate.

9. SERVICE SITUATION

- a. <u>Fromerty Pisposel</u>. Letters of unserviceable property were received on 6 major and items.
- b. <u>laundry</u>. Laurdry service has not yet been made available at among Tri Combat hase. Inquiry at hase Coordinator (UCB) revealed that units will be notified by FLEG-B when the facility will be available for use.
- c. <u>Math Units</u>. This organisation is presently operating 23 Bath Units for organisations of this Division. This Battalion presently holds its authorized allowance of 26 Bath Units with an additional 14 held in excess.
- d. Enkery. The Battalion Bakery continues to provide sufficient baked goods to meet the needs of this organization.
- e. Ice. During the month of December the quantities of ice received were adequate.

f. Food Services

- 1. The performance of the Food Service section remains outstanding. We are presently feeding and average of 450 men per day.
- g. Mortvary Services. This Battalion had made persons KIA as of 28 December 1968.
 - h. Graves Registration. Not Applicable.
- i. <u>Notable Water</u>. During the month of December, Battalion Water Points produced 6,494,500 gallons of potable water in support of Division units. This Battalion is presently operating 7 water points.
- 10. NOT APPLICABLE
- 11. NOT APPLICABLE
- 12. NOT APPLICABLE
- 13. TRANSPORTATION
- a. The biggest problem confronting the Motor Transport section of this organization is the slow receipt of spare parts through normal supply channels and the Direct Exchange Program.

14. NOT APPLICABLE

15. MISCELLAMEOUS
