INTELLIGENCE

DECLASSIFIED

A. INTELLIGENCE

1. During the month Division Forces reported continuing build-up in enemy activity moving in-country from the DMZ and the Laotian border. There has been a significant build up around the Dong Ha and Quang Tri area in the latter part of the month. Reports indicated a possible attack on these areas during the early part of March.
2. Pertinent information regarding mines and booby traps found by the 3rd Engineer Battalion during daily sweeps can be found in section B, Operations.
3. The battalion has been continuing on a heavy work load schedule; FSB progress can be found in section B, Operations.
4. Several background investigations of Naval Investigation Service were returned with deficiencies in finger printing. These individuals will be reprinted at Graves Registration and the applications are being prepared for reapplication.

DECLASSIFIED

B.
TRAINING

DECLASSIFIED

B. The following training was conducted during the month of February:

1. Officers and SNCO Training

- a. 5 February 1969 - Cancelled
- b. 12 February 1969 - Vehicle Recovery
- c. 19 February 1969 - 3d Engineer Battalion Presentation
Fire Support Bases
- d. 26 February 1969 - Euclid Front End Loading

2. In-Country Indoctrination (COATIP)

- a. 4 February 1969 (5)
- b. 11 February 1969 (7)
- c. 23 February 1969 (9)

3. Land Mine Warfare

- a. 5 February 1969 (10)
- b. 19 February 1969 (8)

4. Dereo Presentation for Officers and SNCO (3 hrs)

- a. 22 February 1969

5. MOS Training

- a. Communications Platoon Received 4 hours MOS 2511 training conducted on Sunday
- b. Supply Platoon received 4 hours MOS 3051 and 3041 training. This Platoon received cross training. Training is conducted on Sunday.

DECLASSIFIED

C.
OPERATIONS

DECLASSIFIED

C. OPERATIONS

1. General. During the month of February, 1969, Company "A" (-) (Rein), Company "B" (Rein), Company "C" (Rein) remained in direct combat support of the 4th, 3d, and 9th Marine Regiments respectively. Company "B" (-) and 1st Platoon Company "A" were returned to the operational control of 3d Marine Division from 1st Marine Division. The remainder of the battalion was in general support of the 3d Marine Division.

2. General Combat Support.

a. A total of 1,377,600 meters of road were covered by 3d Engineer Battalion visual/deliberate route sweeps. The following road segments of routes 9, 561, and 558 were covered by daily sweeps:

<u>Company</u>	<u>Sweeps No.</u>	<u>From</u>	<u>To</u>	<u>Meters</u>
"A"	3-01	315725	318727	500
"A"	3-01A	301747	295751	500
"B"	3-02	117700	132642	6500
"B"	3-03	132642	135592	6750
"B"	3-05	117582	111552	4000
"C"	3-06	097526	111552	3500
"C"	3-07	135592	076571	6000
"C"	3-08	026562	076571	5750
"C"	3-09	987555	026562	5500
"A"	3-10	010462	983544	8200

b. The following mine incidents were reported. When looking at the reports for January and February, a trend becomes apparent for each month, mining activities took place all in one week, with negative finds for the rest of the month.

<u>Type</u>	<u>Location</u>	<u>Date</u>
A.T., plastic, 25lbs	133625	23 Feb
A.T., plastic	056561	24 Feb
A.T., plastic (2)	982524, 982526	25 Feb
A.T., plastic (●) 25lbs	048569, 133636	26 Feb
A.T., plastic (4) 25lbs	064571, 062571	28 Feb

c. Tunnel team employment: Negative results

d. A route reconnaissance was conducted on route #9 from Ca Lu to bridge #32 at XD 921419.

e. From 15-21 February 5 engineers from Company "A" instructed ARVN engineers on the use of the gasoline engine driven chain saw during landing zone construction.

f. Engineer Support Company completed a land clearing operation at Area A-2, clearing 400 acres with 10 TD 18A tractors.

3. Direct Combat Support

a. The 3 engineer companies of the 3d Engineer Battalion continued to support the 3 infantry regiments of the Division as reported in the January Command Chronology.

b. During the month of February, the Battalion participated in all of the major operations of the 3d Marine Division, the largest of which was Dewey Canyon. This combat support in the field included the destruction of enemy fortifications and supplies, plus the development of 3 helicopter landing zones and 2 Fire Support bases. The FSB's are:

FSB Turnage 253085
FSB Erskine 164107

4. Combat Service Support

a. Roads and Bridges.

(1) Dust suppression conducted in Quang Tri Combat Base on 3.1 miles of road.

(2) One 18"x25' culvert installed in CamLo compound road network.

(3) Two 18"x25' culverts installed at 3d Engineer Battalion M.T. lot.

(4) One 18"x80' culvert installed at 3d Tank Battalion tank park.

Approximately 500 cu yds of fill was used to complete the project.

b. Field Fortifications

(1) The 3d Engineer Battalion continued to assist 3d Marine Division with materials and supervisory personnel in the construction and improvement of wire obstacles and bunkers.

(2) A total of 3,933 man hours were expended in the construction of 71 Dive Bunkers for Quang Tri Combat Base.

c. General Construction. Major projects completed during the month of February:

(1) Constructed (6) 8x8 bunkers for 4th CAG

(2) Power survey for area C-4.

(3) Head and shower for 3d Engineer Battalion Chaplain and Sgt. Major.

(4) Install tin roof on 3d Engineer Battalion armory.

(5) Wire 2 huts for 3d Recon.

(6) Power survey at Camp Elliot.

d. Utilities. The utilities platoon continued to operate generators at Quang Tri Combat Base and Cua Viet. Water points were operated at Quang Tri, Cua Viet, C-4, FSB Cates, C-2, Camp Elliot, and Vandegrift Combat Base. A total of 4,132,305 gallons of potable water and 731,100 gallons of non-potable water were produced. Shower points were operated at Quang Tri (12); Dong Ha (4); Camp Elliot (1); Vandegrift (2); FSB Cates (1); and Camp Red Devil (1).

DECLASSIFIED

D.

COMMUNICATIONS

DECLASSIFIED

D. COMMUNICATIONS.

1. Communications platoon has received a communications officer.

2. Communications platoon has not received any new personnel. They are five (5) radio operators short, with another one due to rotate this month.

3. Communications platoon is now preparing for an inspection.

4. Normal twenty four (24) watches were maintained on radio, switchboard and message center.

DECLASSIFIED

E.
LOGISTICS

DECLASSIFIED

4. Logistics

1. During the month of February, 3d Engineer Battalion continued to conduct logistic and service support operations from Quang Tri Combat Base. Companies "A" and "C" have also performed support activities from Vandegrift Combat Base while Company "B" has been providing support from Dong Ha Combat Base.

2. (1) TD-18 Tractor, (1) M274A2 Mule, (1) M37B1 3/4 Ton Cargo Truck, (8) 55GPM Pumps, and (1) LM-62 Welder were received by this organization in the month of February.

3. The battalion water points produced 4,801,800 gallons of potable water in the month of February while supporting the Division. The Battalion has 60 water points in operation at the present time.

4. No additional information has been received thus far on a new special allowance for mine detectors.

DECLASSIFIED

F.
CIVIL AFFAIRS

DECLASSIFIED

REPAIRS

1. MEDCAP was on an inactive status during the month due to shortage of personnel and enemy activity in areas stated for operation.
2. The Battalion Industrial Relations Officer of the 3rd Engineer Battalion conducted a party for the new year celebrations for the Vietnamese workers of the Battalion on 21 Feb.

JDW:jca
17 February 1969

From: Commanding Officer
To: Commanding Officer, 3d Engineer Battalion (Attn:S-3)

Subj: After Action Report, FSB Geiger (XD 74514405)
Operation Dawson River West

Ref: (a) 3100.1C

Encl: (1) Chronology

1. Units Supported: Delta Battery, 2nd Bn. 12th Marines and Delta Co. 1st Bn. 9th Marines, in the 9th Marines AO west of Khe Shan Combat Base from 2 January to 5 January 1969.

2. Engineer Task Organization:

Lt. F.C. Gray III
L/Cpl. Robinson, M.
L/Cpl. Washinton, L.
L/Cpl. Schult, D.L.
EO3 Petrigliano, G. MCB 7 "A" Co. 3rd Plt.

3. The mission that was assigned was to build FSB Geiger at Grid Coordinates XD 74514405.

4. Major Item of Equipment Employed: D-6 (USN equipment from MCB 7)

5. Material expended: Approx. 55 gals of diesel fuel
Equipment hours: 24 hours
Man hours: 150 hours

6. Chronology:

2 January 1969

1000 Arrived at the wrong position. 1200 Helo lifted 4000 meters to grid coordinates XD 74514405, which was the site for FSB Geiger. 1330 D-6 arrived without the operator. 155 mm guns were dropped in the wrong position. Platoon leader found it necessary to move the guns using the tractor without the operator.

Tab A

DECLASSIFIED

DECLASSIFIED

1400 Began clearing operations with D-6. 1430 E03 Petrigliano arrived as the D-6 operator. 2000 Completed 2 ammo berms for the 155mm guns, one gun pit for the 155mm gun and an area was cleared (50 by 150 ft.) for use as an LZ. 2030 Commanding Officer of Delta Battery informed me that 9th Marines CP was moving into FSB Geiger making additional work load on the D-6 and operator.

3 January 1969

0700 Began work on two shelves for the Regimental CP to move into that afternoon. 0930 D-6 lost its left track. Informed at this time that the Regimental CP group would be moving into FSB Smith at Greid Coordinates 7885 3821. This decision was made late on the night of 2 January 1969, but not passed onto the CO of Delta Battery. 1230 Completed repairs on the D66. 1900 Completed 2-155mm gun pits, 1-FDC position (30'x10'x8') and 1 ammo berm for the 105's. LZ widened, Equipment hours: 8½ hours.

4 January 1969

0700 Platoon leader informed by the CO of Delta Battery earlier, that due to the terrain it was not necessary to dig out his gun positions and that dirt filled 105 boxes would be used to encircle his 6 guns. Due to that flat, rolling terrain it was necessary to cut a fire break 360 degrees around the battery position and dig two trash pits. 1800 Completed 1 trash pit 50'x20'x10', 1 trash pit 30'x15'x8', 1 fire break 10 ft. wide x½ ft. deep x 250 meters long, 3-105 gun pits. Delta Battery CO decided to use the D-6 after all for his guns, at least 3 of them.

7. Engineer Observations:

Throughtout the operation of building FSB Geiger there was a complete lack of coordination. The D-6 was to have arrived after all the 105's and 155's had arrived-it arrived first, without ist operator. The 105 guns were to arrive before the 155's-the 155 guns came in first. Engineer's primary mission was to insure that the ammountion berms were completed the 155 gun positions and then to work with the 105's. After the operator arrived the job went with little trouble until 9th Marines forgot to inform engineer's that the Regimental CP was not coming to Geiger but rather to Smith. In working with Delta Battery, I found that coordination was impossible. There would always be an ever-changing primary mission. Considerable time was lost in that the Staff or Officers with Delta would think nothing of telling the D-6 operator excatly what to do and how to do it. This problem area was overcome when I spoke to the Commanding Officer of Delta Battery.

DECLASSIFIED

8. Lessons Learned: During and after the construction of FSB Tun Tavern, engineers recommended that a field grade officer be placed in over-all charge. This was done on FSB Barnett, and although it was an extremely small hill, with a great amount of explosives requiring much co-operation, the mission of completeting FSB Barnett was completed well within the time limit. It is still recommended that for FSB construction, 100% co-operation and coordination with all units involed is required. Without this it is mass confusion for those units and their commanders who are tasked with their individual mission and no sympathy for the mission of the other unit commanders.

BATTALION BULLETIN 1500

From: Commanding Officer
To: Distribution List

Subj: Battalion Training Schedule

Ref: (a) BnO 1500.4B

Encl: ✓(1) Training Schedule for All Companies

1. Purpose. To publish the monthly training schedule for the month of March.

2. Action.

a. The enclosed training schedule will be carried out by all units of this command. Company Commanders will insure an acceptable level of training is maintained for personnel under their supervision.

b. Companies will conduct MOS and General Military Subjects Training to the maximum extent consistent with the combat support mission of this Battalion. Due to the fact that a large portion of 3d Engineer Battalion personnel are working in groups smaller than squad size in separate locations, most training will have to be conducted by relatively junior NCO's. Attached Engineer personnel may also be included in training given by the unit they are supporting. Time, location and instructors will be selected by the unit commander.

c. Training conducted will be reported on the weekly summary. The report will include topic, period of instruction and number of personnel present.

d. Training conducted will also be recorded on the individuals Training Record.

3. Self Cancellations: 1 April 1969

 (5) Status of Ordnance Equipment
 (6) Critical Repair Parts

1. In accordance with reference (a), enclosures (1) through (6) are submitted by this organization.

WALTER L. PRESAC

STATUS OF SUPPLY SITUATION

Section I - Supply

1. Overall Supply Situation. As reported last month supplies still seem to be getting to the unit faster than ever, however, there are still a few items that are needed that we haven't acquired as of yet. We have caught up on our reconciliation with the companies and found approximately a 3% error on the units records. All discrepancies that were found on the informal inspection have been corrected and at present the back-order reconciliation for MEI is being done. Within the next month we will lose due to rotation our personnel. The Supply Chief, Chief clerk, Warehouse chief, and the Document control clerk. With these personnel rotating the Supply Section will have a total of 13 personnel, 6 below T/O for the Section.

2. Class I. Not applicable

3. Class II.

Subclassification B

a. Situation. Due to the demand for road sweeps and our supporting faster to infantry units, mine detectors still are a critical item for the Battalion.

b. Critical Items.

FSN	U/I	NOMENCLATURE	MONTH	ITEM	QTY ON REQD IN EXCESS	LATEST	
						REPORTED	CRITICAL

- a. NONE
- b. NONE

6. Class VA and VB. Not applicable

ENCLOSURE (1)

7. Class VI. Not applicable

8. Class VII.

Subclassification A N/A

Subclassification B

a. Situation. For the majority of the Class VII items we are up to T/E. Tractors are still below T/E however as due to redistribution by the Commanding General 3d Marine Division we have to wait on ordering these items. We received 6 T1-18 tractors and 4 additional T1-15 tractors in the past month. The 450 and 580 tractors that we now have on an experimental phase are working and we are getting most of the spare parts in the time allowed. The 450 and 580 tractors are a great benefit to the supporting unit in the field and it is felt that it would be beneficial to this unit and to the Marine Corps if we were given a T/E allowance for this item. Mine detectors are outlined in paragraphs 3a and 3b.

RCL 5/1/81 (1)

10. Class IX. (Continued)

c. Significant Problem Areas. The major problem confronting this unit on chain saws is that there is a high percentage that are deadlined for the spare parts out lined in paragraph 10b. The Battalion is up to 7/8 on chain saws but at present approximately 30 chain saws are deadlined which is over 6.5% of our 1/8 allowance. Due to the high expectation of the use of the saws, all spare parts have attained a critical status. To date we have 33 outstanding requisitions for spare parts for chain saws, of which four have no status and all are over 30 days old. We have received no spare parts for the chain saws in the past month.

11. NOT APPLICABLE.

Section II - Maintenance

12. Maintenance Situation. At the present time the battalion organic maintenance completed on Engineer Equipment is at a high level. However, the Motor Transport organic maintenance situation is getting critical as many of the battalions' motor vehicles are deadlined at the Motor Transport lot awaiting repair parts. The Direct Exchange Program has been working quite well for the Communication and Electronics gear. In the past month (9) AN/DRG 25's and (4) P-153's were direct exchanged through the Shop Stores at FLDG B. The slow turn around of gear turned into FLDG B is a major set back in the equipment readiness of the battalion.

13. NOT APPLICABLE.

14. Other Major Items of Equipment.

a. Status.

REQ. TITLE	ALLOWANCE	Q/H	2d ECH I/L	3d ECH B/L
M57D1 Cargo Trk 3/4 Ton	20	19	7	6
Although no one specific problem or parts failure can be detected on this piece of equipment the deadline rate is high. The slow turn around from FLDG B plus the lack of 2d echelon parts keeps the deadline rate on this vehicle high. Without this vehicle for use as an administrative vehicle the M151A1 Jeep is overloaded with work and the tactical vehicles of the battalion can not be used to their maximum tactical purpose.				
M51A2 Dump Trk 5 Ton	24	26	5	1
Any deadline of this vehicle seriously hinders the accomplishment of the battalions tactical mission. The lack of proper shop working areas is the main reason for the deadline of these vehicles.				

ENCLOSURE (1)

14. Other Major Items of Equipment.

a. Status. (Continued)

ITEM	ALL RANGE	9/8	20 ECL D/L	30 ECL D/L
#15141 Jeep Due to the lack of other administrative type vehicles this vehicle is seriously over worked to accomplish the administrative functions of the battalion.	13	13	1	1
#27442 Buick The lack of repair parts and proper working area have kept the deadline rate of these vehicles high.	27	26	16	
T1-15 Tractor The slow turn around from F100 B of this item plus the T/8 deficiencies keep this item in a constant critical status. At the present time the battalion has 3 T1-15 tractors on order.	15	10	0	5
T1-16 Tractor At the present time the T/8 deficiency is the only problem which this unit has with this piece of equipment.	23	6	0	0
150746 Mobile Crane The lack of this piece of equipment in our inventory seriously handicaps the organizations mobile lifting capacity.	2	1	0	1

b. Critical Items.

PSN/ ART No.	ITEM	STATUS
A-50244	CYLINDER ASBY FOR CASE TRACTOR	CRITICAL
T-42166	DRIVE SEAL FOR CASE TRACTOR	CRITICAL
2610-051-9266	TUBE 900 X 16	CRITICAL
261-051-9602	TUBE 1400 X 24	CRITICAL

c. Significant Problem Areas. The lack of proper repair shops to perform organic maintenance in has caused the output of organic maintenance to slow and at times even to stop. The maintenance shops are now being built and should help to increase the amount of organic maintenance being completed by this organization. One serious problem is lack of operators and mechanics for our engineer equipment and motor transport equipment. At the present time we have a provisional rifle platoon in the field. These people were taken from Support Company and is seriously handicapping the technical sections supporting capabilities. As long as this requirement exists our capacity for electrical, water, and engineer support will significantly decrease.

Section III - Services15. Service Situation.

a. Property Disposal. Letters of unserviceable property were received on 2 major end items.

b. Laundry. Laundry service has not yet been made available at Quang Tri Combat Base.

c. Bath Units. That organization is presently operating 20 bath units for organizations of the Division. This Battalion presently holds its authorized allowance of 26 bath units with an additional 14 held in excess.

d. Bakery. The Battalion Bakery continues to provide sufficient baked goods to meet the needs of this organization.

e. Ice. During the month of February the quantities of ice received were adequate.

f. Food Services.

1. The performance of the Food Service Section remains outstanding. The battalion Mess Hall is presently feeding an average of 450 men per day.

g. Mortuary Services. Not applicable

h. Graves Registration. Not applicable

16. Significant Problem Areas. At the present time the service situation does not present a major problem.

						0

The high deadline rate of this vehicle places a work overload on the M151A1. If these vehicles were available for administrative use the tactical vehicles of the Battalion would be freed to perform their tactical mission.

The non-availability of this item in the field causes an extra work load to be placed upon the men in the field and the M151A1.
