INTELLIGENCE

DECLASSIFIED

A. INTELLIGENCE

1. Enemy activity was increased since the last reporting period due to the start of the current offensive which began on 11 May 1969 with the shelling of the majority of military installations not only in Northern I Corps, but the entire area of South Vietnam. Reports indicated that enemy activity would be heavily increased on the night of 19 May 1969 in celebration of Ho Chi Minh's birthday. However, there were no major incidents that night as anticipated. Mining incidents were down over last month, however, latest intelligence reports indicate a VC guerrilla platoon working along Route #9 with the mission of mining and harassment. Agent reports indicate the enemy has intentions of infiltrating additional troops into South Vietnam with the purpose of reinforcing troops they already have there.

2. Existing "table-top" procedures have been steadily improving this month thus giving current personnel and incoming personnel into the S-2 Shop a more comprehensive understanding of S-2 functions.

COMPANY "A"
 3d Engineer Battalion (Rein) FMF
 3d Marine Division (Rein) FMF
 FPO San Francisco 96602

2 May 1969

From: Commanding Officer
 To: Commanding Officer, 3d Engineering Battalion (Rein) FMF
 Subj: After Action Report: Improvement of Fire Support Base Neville
 Encl: (1) Chronology

1. First platoon of Company "A", 3d Engineer Battalion, reinforced by 3d Engineer Battalion case tractor personnel, provided direct support to the 4th Marine Regiment in the development of Fire Support Base Neville located at 827574 from 10 April to 1 May.

2. Engineer Task Organization:

1st Platoon, Company "A", 3d Engineer Battalion
 One heavy equipment operator, 3d Engineer Battalion (VCB)

3. The Engineer Mission Assigned:

a. Provide engineer support as required in the development of Fire Support Base Neville, develop an external landing zone, three 8'x12' bunkers and one 10'x24' bunker for 4th Marine Regiment, improvement of the 5th and 6th gun pits, and one 8'x12' bunker for an executive bunker.

To accomplish the assigned mission, 1st Platoon (-) from Company "A" was charged with providing the required demolition support and the heavy equipment detachment of 3d Engineer Battalion located at Vandergrift Combat Base was tasked to provide a Case 450 tractor and operator to be heli-lifted into the job site when called for, and a 105 air compressor when called for.

4. Major Items of Engineer Equipment Employed:

- a. Case 450 tractor
- b. Infantry pioneer chest

TAB A

5. Materials Expended (Demolitions)

- a. 800 lbs. of 6-4
- b. 500 lbs TNT
- c. 1000 ft. detonation cord
- d. 10 40 lb. shape charges
- e. 26 15 lb. shape charges
- f. 30 ft. time fuse
- g. 100 non-electric blasting caps

Materials Expended (Building)

- a. One bundle of air field matting
- b. 1540 board feet 8x8
- d. 8280 board feet 3x12
- d. 1 roll of roofing paper
- e. 12 drift pins
- f. 200 lbs. of 60D nails
- g. 55 gal. diesel
- h. 10 gal. of 30 W oil

6. Chronology (See Enclosure)

7. Engineer Observations:

a. Having an artillery battery representative with a small working party to go with the engineer element has proven invaluable in the past. This was not done in the case of the operations up at Neville. The ranking man left behind was a L/Cpl in communication. After three days of work, the engineer officer was forced to call back to the artillery S-3 to send out an artillery officer. After he arrived, work progressed to a satisfactory completion.

B. When building supplies arrived they came in such quantities that the area became over crowded. And all but a very few of the bundles were unmarked. It is recommended that a greater coordination between S-3 and S-4 take place in the future, and that all bundles of material are marked as to what they are for.

BATTALION BULLETIN 1500

From: Commanding Officer
 To: Distribution List

Subj: Quarterly NBC Training Plan; 4th Quarter, FY1969

Ref: (a) MCO 3400.3A
 (b) MCO 3400.4

Encl: ✓(1) Required training for personnel assigned to 3d Engineer Battalion NBC Teams

1. Purpose. To prescribe that training which will be scheduled for personnel assigned to Battalion NBC teams in accordance with reference (a) and (c).

2. Background.

a. In order to carry out its mission, if subject to NBC attack, the 3d Engineer Battalion must be able to take action to protect personnel, equipment and facilities. The objective of the NBC training program of this Battalion will be to provide trained personnel able to carry out assigned tasks in either offensive or defensive NBC operations.

b. The requirement for each company within the Battalion to assign a decontamination team and a monitor/survey team, has been suspended due to the manner in which companies are tactically employed. NBC teams will be maintained on Battalion level only, under supervision of the Battalion NBC Officer.

3. Action.

a. NBC Officer will be responsible for supervising and scheduling NBC training as indicated in enclosure (1).

b. NBC Specialist will approve all lesson plans and insure that all instruction is technically correct, and will supervise the Battalion NBC equipment maintenance program.

c. Company Commanders will insure that all personnel assigned to Battalion NBC teams are present for periods of instruction as indicated in enclosure (1).

4. Self Cancellation. 30 June 1969

Subj: Monthly Training Plan; month of June

Ref: (a) EnC 1500.10
 (b) EnBul 1500

Encl: ✓(1) Enlisted
 ✓(2) NCO's

1. Purpose. To prescribe that training which will be scheduled for Company C personnel during the month of June.
2. Background. The work load and combat support mission of the Company C in support of the 9th Marine Regiment makes formal classroom instruction difficult in most cases. For this reason training must become decentralized and informal.
3. Action.
 - a. Platoon Commanders will insure that a minimum of four hours of MOS training each month be completed by all NCO's and enlisted in their platoons.
 - b. Platoon Commanders will report all training to the Company Commander in a written format after completion of any training.
 - c. Combat operations in support of the 9th Marine Regiment will, at times, hamper training schedules on the platoon level. Again, decentralization of training may be necessary and the engineer team leader will be tasked with training.
 - d. Training conducted will be reported on the Weekly Summary Report to the 3d Engineer Battalion.

Subj: Company Training Schedule; June 1969

Ref: (a) BnO 1500.4C
 (b) BnBul 1500 dated 20 March 1969

Encl: (1) Training Schedule, June 1969

1. Purpose. To prescribe that training which will be conducted for Engineer Support Company personnel during the month of June 1969 in accordance with references (a) and (b).

2. Background. Reference (a) is the Battalion SOP for training and provides instructions for the conduct of training within 3d Engineer Battalion. Reference (b) prescribes that training which will be conducted for 3d Engineer Battalion personnel during the period 1 April to 30 June 1969.

3. Action.

a. The period from 1100 to 1300 on Sundays will be utilized to accomplish the training promulgated by monthly company training Bulletins. While the Monthly Company Training Bulletins set forth that training which is required, training in excess of this is encouraged consistent with operational commitments.

b. A minimum of four hours of MOS training will be scheduled and conducted each month. Such training will be conducted by the individual technical sections. Section heads will submit to the Company Executive Officer, or in his absence the Company First Sergeant, by the 22nd of each month that MOS training which they desire to conduct for the following month.

c. That portion of the scheduled training periods not utilized for MOS training will be devoted to GMS training. Such GMS training will normally be conducted on the company level, making maximum utilization of instructions from outside sources.

d. The reporting period for training conducted will be 1800 Wednesday to 1800 Wednesday. Such report will be submitted to the company office not later than 1200 on Thursday following the end of the reporting period. Each section will submit a training report utilizing forms available at the company office.

STATUS OF SUPPLY SITUATION

Section 1 - Supply

1. Overall Supply Situation. The Battalion Supply situation has remained much the same during the month of May as the situation during the previously reported month. Certain items remain in demand that the Battalion cannot obtain. The overall situation is still improving steadily.

The present situation has greatly improved. This supply section has received six new personnel in the past month.

2. General. (None)

3. General.

Subclassification b

a. Situation. As previously reported, due to the heavy use and high cost involved, the Battalion's mine detectors are still in a critical status. Other items that are critically needed are typewriters and centrifugal pumps.

1. Chain Saw Problems/Issues. The major problem confronting this unit at this time is that there is a high percentage that are declined for the repair parts listed in paragraph 10 b. The Battalion is up to 1/2 on chain saws at present approximately 30 chain saws are declined which is over 20% of our / assignments. Due to the high expectation of the use of the saws, all spare parts have attained a critical status. The lack of repair parts on hand for the M450 and M50 tractors cause these items to be declined under time available in the needed parts.

11. SummarySection 11-Maintenance

12. Maintenance Situation. The organic maintenance completed on engineer equipment is at a high level and the Motor Transport organic maintenance has been improving steadily in the past month. The Motor Transport and Engineer equipment maintenance shops are now nearly completed. The M450 has (5) M51A2 tank tracks awaiting turn in under the R&R program. Turn in of these vehicles and the receipt of replacement vehicles will improve the overall maintenance situation greatly. The slow turn around of equipment and the repair facilities of M450-B and M50-B remain a major problem. This organization has noted a slow turn in several instances a non-receipt of core letters and messages on combat essential equipment. At the present time this organization has several pieces of gear which are official notification of being given yet no official notification in which has reached this headquarters.
