DECLASSIFIED

SUPPLY1. Overall Supply Situation.

a. General Supply. In recent weeks, Individual Equipment has begun to be received by this unit.

b. Communication-Electronics. None.

c. Ordnance. The only immediate remedial action required is the receipt of chrome barreled weapons.

d. Engineer. The long leadtime in receiving repair parts for the Case models 450 and 580 tractors make this very much a problem area. Also, the chain saw repair parts remain critical. Both situations have been previously reported as "critical items".

2. Class II

Subclassification B

a. Critical Items. None.

Subclassification E

5. Class IX.

Subclassification B

a. Situation. A high rate of deadline equipment or impaired performance caused by lack of repair parts for the Case Model's 450 and 580 tractors as well as chain saws make the below listed items critical.

b. Critical Items. List using format from last LogSum.

c. Significant Problem Areas. Lending to the situation is the fact that there are four (4) types of Chain Saws used within this Battalion. Parts are not interchangeable and causes a higher rate of priority requisitions.

MAINTENANCE

1. Overall Maintenance Situation. The maintenance of the battalion has been improving steadily over the previous months however, the slow turn around of equipment from FISS-3 and 3d P.R. remains a major problem. This organization has noted a slow and in several instances non-receipt of code letters and messages on combat essential equipment.

a. General Supply. The Battalion Supply situation has remained much the same during the month of August as the situation during the previous month.

b. Communication. It is noted that there is a fast turnover of both 2d and 3d echelon items in this section.

c. Ordnance. The ordnance maintenance has remained at an acceptable level during the month of August.

d. Engineer. The organic maintenance of engineer equipment is at a high level at this time.

e. Motor Transport. A slow turn around of equipment from repair facility FISS-3, remains a major problem.

2. Other Major Items of Equipment. (See Tabs A-D attached hereto.)

COMPANY BULLETIN 1500

From: Commanding Officer
To: Distribution List

Subj: Monthly Training Plan; August 1969

Ref: (a) BnBul 1500 of 16 June 1969

Encl: ✓(1) Training Schedule

1. Purpose. To prescribe that training which will be scheduled for H&S Company personnel during the month of August, in accordance with reference (a).

2. Background

a. The continuing heavy work load in Headquarters and Service Company makes formal classroom type instruction difficult in most cases. For this reason section leaders must exercise maximum initiative and originality toward effective training.

b. The training objective of Headquarters and Service Company is to train each individual to obtain maximum effectiveness in combat with emphasis on combat engineer skills and specific MOS skills. Practical application should be utilized to the maximum extent possible, consistent with work load requirements.

3. Action

a. Section leaders will submit a weekly training report to the company office by 1400 each Thursday.

b. Suggestions from the sections regarding the training program are encouraged.

4. Self Cancellation. 31 August 1969.
