PART II

NARRATIVE SUMMARY

During February, 1969, the hospital continued to operate with companies A, B, and C centrally located at Quang Tri Combat Base. For the first twenty-two days of February, there were four MUST unit wards and two semi-permanent wards in operation. On 22 February one of the six semi-permanent wards under construction was completed to the extent that it was opened with forty-four operating beds. The added beds gave the Medical Battalion greater flexibility and facilities for caring for the increase in casualties which were received during the last six days of February.

Company D continues to be assigned in support of the Dong Ha Combat Base and gives medical support to units operating in that area. On 1 September, 1968 D Medical Company facilities were dedicated as the "Third Marine Division Memorial Children's Hospital" Dong Ha Facility. This mission is in addition to the Dong Ha support mission of U.S. Military Forces. The operating beds available at D Medical Company is presently thirteen beds for U.S. Military personnel. Additionally, thirty beds (including cribs & bassinets) were available for children.

Elements of Headquarters and Service Company continue to be assigned medical support responsibilities for Task Force Hotel and is located at Vandergrift Combat Base, RVN. There are no designated bed capacity at Vandergrift Combat Base.

The total admissions for 3rd Medical Battalion this period were 740 compared to 597 during January. There was a significant increase in the number of patients triaged during February, 1,879, as compared to 1,465 triaged during January. Other pertinent statistics are furnished in part III of this report. Moreover, a copy of all monthly medical reports are appended in part IV. These reports which are furnished for the first time can be used to glean detailed medical statistics as desired.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. FMR organizations not committed to combata. Medical Support

(1) The Medical Battalion continues to operate three of its collecting and clearing companies (A, B, & C) as a division hospital for support of the Third Marine Division and other attached units and to give depth to medical support.

(2) The four MUST unit wards and the three semi-permanent wards provide 194 operating beds. This is a 44 bed increase over the month of January. The completion of the five additional wards under construction will further increase the bed capacity in the near future.

(3) An additional 15 beds for U.S. Forces is available at D Medical Company which continues to operate at the Dong Ha Combat area.

(4) Although no designated beds are available at Vandergrift Combat Base, significant emergency medical care is provided to Task Force Hotel by elements of H&S Company (CHARLIE MED) which support this area.

(5) In addition to support provided to Third Marine Division personnel, support has also been provided to the Army's 1st Brigade, 5th Infantry Division (Mechanized) upon the re-deployment of the Army's 18th Surgical Hospital. This also has required the Third Medical Battalion to assume greater responsibility in the evacuation and hospitalization of ARVN, and Vietnamese civilians in all TAORs under the cognizance of the Third Marine Division.

(6) While B Company, 75th Support Battalion of the 1st Brigade, 5th Infantry Division (Mechanized) operates a 30 bed medical facility at Quang Tri Combat Base, all urgent/emergency U.S. Army casualties are normally evacuated directly to Third Medical Battalion.

(7) Moreover, outpatient consultation services are furnished to U.S. Army personnel in the areas of internal medicine, general surgery, orthopedic surgery, psychiatry, dermatology, and laboratory services.

(u) Significant statistical data are as follows:
 (a) Number of sick days 3,238 (Hostile 749; Non-hostile 252; Disease 2,237).

(b) Average patient stay 4.5 days

(c) Peak census 144

(d) Operating room procedures 971

(e) Number of patients evaced by fixed wing 412

(f) Number of patients evacuated by helicopter 1,145

b. Personnel and Administration

(1) The average number of enlisted Navy personnel increased from 225 to 252 over the previous month. The battalion continues to provide hospital corpsmen on a TAD basis to CAG Units and Provincial Rifle Companies at the expense of lost man-days that appear to be creditable to this unit. At present one corpsman is involved. Navy staffing is considered satisfactory during the month of February.

(2) One problem that exists in marine staffing is that no provisions have ever been made to compensate for patient census when allocations for cooks are made. As the patient census rises, additional work is created on the messing section that cannot be handled with the T/O allowance. Additional billets have been requested through the G-1 section.

(3) Marine enlisted promotions during February were as follows:

(a) GySgt <u>1</u>	Sgt <u>1</u>
Cpl <u>2</u>	Lcpl <u>4</u>

(4) The following awards were awarded;

(a) Bronze Star <u>1</u>	Navy Achievement <u>1</u>
Purple Heart <u>5</u>	Vietnamese Silver Star <u>9</u>
Navy Commendation <u>1</u>	

c. Training

(1) Training during the month of February consisted of three general areas which are as follows:

(a) General Military Subjects - Approximately one-third of the quarterly compliment of general military subjects

[REDACTED]

were taught in the month of February. This quarterly schedule is based on those subjects considered necessary for a Marine's continued proficiency while realizing that time available and the tactical situation are limiting factors. The following is a list of the GMS taught in February:

<u>Subject</u>	<u>Hours Taught</u>
Interior Guard	1
Basic Communications	1
Hand-to-Hand Combat	1
Tactical Training of the Individual	1
Map Reading and Compass	1
Military Courtesy and Discipline	1
Security of Military Information	1
U.S. Pistol, Cal. .45	1

(b) Command Orientation and Troop Indoctrination Program-

The Medical Battalion is in somewhat of a unique situation in that personnel replacements reporting aboard have usually been with another unit in country (corpsmen) or the number of Marines joining the battalion in a months time is so small that it was only practical to have one (1) Troop Indoctrination Lecture in the month of February.

(c) Familiarization Firing of M16A1 Rifle - Personnel

from the Medical Battalion are firing every two (2) weeks by the Division M16 Contact Team. During the month of February two (2) sessions of three (3) hours each were accomplished.

d. Logistics

(1) Lead time for both Medical and Organic supplies continues to be excessive. The supply priority system is presently considered to be ineffective.

(2) The time lapse following the determination that third and fourth echelon maintenance is required, and evacuation to authorized servicing facilities is too great before the item is repaired or declared beyond economical repair.

(3) Some routine common items of supply such as light bulbs, blank forms, galley flatware, paper, etc., are not available through normal supply channels on a timely basis and routine supply trips to DaNang must be made by Third Medical Battalion personnel to obtain these items. This method is time consuming, expensive, and considered to be an unsatisfactory method of receiving routine supplies.

(4) A total of 72 primary movers logged 14,423 miles in making 679 runs during February 1969. No significant problems exist within this section.

e. Command Relations

(1) A normal command relationship for a Medical Battalion operating ashore under the Landing Force Commander exists.

f. Community Relations

(1) In addition to the support given CAG teams and the "Third Marine Division Memorial Children's Hospital" previously delineated in this report, individual medical officers continue to volunteer their time to work in the Quang Tri Provincial Hospital. The Medical Battalion also provides out patient consultation service on a limited basis to other medical facilities who refer Vietnamese patients. Also medical evacuation service is provided to the hospital ships on station.

A total of six in patients and 139 out patients were treated at Third Medical Battalion during February. In addition, Delta Medical Company's primary effort is directed to the care of Vietnamese children. Consequently, there were a total of 80 Vietnamese admissions and 1,185 sick days accumulated at D Company during February.
