The Battalion's personnel posture in relation to the strength authorized by current manning level is unacceptable. This Battalion is currently in PERSONNEL LADINESS CATEGORY C-3 with a chargeable strength of 32 Marine Officers and 482 Marine enlisted as compared with an authorized manning level of 36 officers and 597 enlisted. By the end of November without additional replacements, the Battalion will be short 4 officers and 142 enlisted. (These figures do not include combat casualties). Increased operations are anticipated during the coming months; it is expected that the casualty rate of the Battalion will increase, thus necessitating more replacements than have been programed based on past attrition rates.

During the month of October, the Battalion joined 5 Marine Officers, and 54 Marine enlisted, and dropped 9 officers and 64 enlisted. This trend of losses exceeding gains have prevailed for the last few months and there is no indication of a reversal of this trend based on available information.

The following MOS's are considered critical because in each category they: are 25% or more below authorized manning level strength; 0141, 1811, 2141, 3041, & 3371.

No disciplinary action was required during the month of October.

Morale continues to remain excellent. R&R trips are the major factor in maintaining morale as they are the only chance personnel have to take a break and relax for a short time.

The Battalion's program to voluntarily extend personnel overseas continues to have good results. Two requests were submitted during the month for a total of 122 extensions since arriving in-country for a total of 619 man months gained through extensions.

INTELLIGENCE

During October 1%6, weather was a major factor influencing tank combat operations throughout the I Corps ZOA. A total of 30.35 inches of rainfall was recorded. The majority of rain fell during the period 17 through 24 October. During this time rivers overflowed their banks into the rice paddies, tank fords became impassable, and some class 60 ton pontoon bridges were damaged. Tank movement in the Panang TAOR came to a standstill south of the Song Cau Do River.

Within the Southern Sector of the Pivision Rear Area Defense there were 4 VC initiated S/A incidents. This is a substantial decrease from what was reported in September. This is probably due to Operation Madison in the Cam Ne area and Operation Teton in the Tra Khe area. These village complexes are just south and southeast of the southern sector and are known VC infiltration routes. Both operations mentioned above were conducted during October.

In the Danang TAOR, with the exception of one mining incident, there were no VC initiated antitank actions as were prevalent during the summer months. In the Cam Lo - Con Thien area, on Operation Prairie, there was one sizeable NVA initiated ambush directed at elements of company "A" and "C" on 12 October at coordinates (YD 126666). The terrain in the ambush area is thick with vegatation and affords the attacker concealment to within twenty meters of his target. During this engagement a heavy volume of RPG-2 antitank rocket fire was received resulting in three tanks being penetrated.

The following is a chronological listing of antitank mines detonated during October 1966:

- 1. On 120900H a company "R" tank detonated an AT mine at (AT 904 545) resulting in moderate damage to the suspension system. Two tank crewmen were WIA, non medevac.
- 2. On 131100H a company "C" tank detonated an AT mine at (YD 134719) resulting in moderate damage to the suspension system. Mine estimated to contain 30 35 lbs of TNT.

On each of the above incidents the mines were not covered by enemy fire.

'ENCLOSURE (3)

Tank combat operations during the month of October were in support of two major operations, Macon and Prairie, and other operations in the TAOR's. These operations accounted for 60 VC KBGF confirmed, 40 VC KBGF probable, 1 VC WBGF confirmed, 2 VC WBGF probable, 9 VCC and 12 VCS apprehended. Additionally, tank action was responsible for the sinking of 4 boats.

rounds of caliber .50, 18,010 rounds of caliber .30, 1,505 rounds of 7.62mm and 500 rounds of caliber .45.

Tank mobility was greatly reduced during October 1966 because of heavy rains. Certain areas in both the Da Nang and Prairie TAOR's became completely impassable for tanks for several days due to flooding, deep mud and washed out river and stream fords.

OPERATION MACON

The 2d Platoon of Company "B" remained in direct support of 3/9 throughout the month of October on Operation Macon. Although the tanks were actively engaged, enemy contacts were negligible with no known enemy tasualties inflicted through tank action.

OPERATION PRAIRIE

Company "C", 3d Tank Bn, remained in direct support of the 4th Marine Regiment on Operation Prairie. On 6 October 1966, Company "A" commenced deployment from the Da Nang ThOR to the Prairie ThOR. Deployment was completed on 9 October 1966 and operations were conducted during the remainder of the month in support of elements of the 3d Marine Division on Operation Prairie.

SPECIAL OPERATIONS

10 October 1966: At 101530H Tank Battalion Headquarters received an agent intelligence report from the US Army Senior Advisor and the ARVN Security Officer of the Hoa Cam Regional Forces Center that 2 VC tax collectors had entered the village of Phong Bac at (AT 995712) at 101300H and were believed to still be in the billage. The Hoa Cam Security Officer volunteered the services of ARVN Troops from the training center to assist in a sweep of the village. A hasty plan was devised to conduct the wweep of Phong Bac, utilizing personnel from Hoa Cam R.F. Training Center, 3d Tank Battalion, 3d Anti-Tank Battalion, 1st AmTrac Battalion, and PF's from Phong Bac. The sweep commenced at about 101600H and secured at about 101813H. A total of 50 VCS males and 1 VCS female were apprehended and interroggeted by the security officer from Hoa Cam. A total of five were h hlæld for further investigation by Hoa Vang District Headquarters and the remainder were released. A subsequent report from Hoa Vang Distriet Headquarters stated that of the 5 interrogated, 3 were VCC and 22were being detained as VCS pending further investigation. The final investigative report stated that 4 were VCC and 1 was released as cleared.

11 October 1966: At 111530H a search and clear operation was conducted in the vicinity of the village of Phong Bac at (AT 991707) by elements of 3d Tank Battalion, 1st AmTrac Battalion, 3d AT Battalion, Scout Dog Platoon, 1st MP Battalion, and PF's from Phong Bac. Results of the operation was 1 covered trench 42 feet deep by 7 feet in length destroyed by demolition charge.

17 October 1966: At 172145H an ambush from 1st AmTracBn located at (AT 987713) observed about 5 VC approaching the ambush sight across the rice paddy vicinity of (AT 986712). The ambush opened fire, received 5-10 rounds of carbine fire in return and the VC broke contact. The area was illuminated by tank searchlight from 3d Tank Bn perimeter and no casualties were observed.

19 October 1966: At 191600H a 3d Tank Bn patrol apprehended a VCS at (AT 995708). The suspect was acting suspicious and when questioned had no identification papers. The VCS was turned over to III MAF POW compound for investigation.

26 October 1966: At 262200H, a 3d Tank Bn squad in ambush at (AT 995-709) observed 1 VC moving toward the ambush site through a treeline at (AT 995708). The squad fired 25 rounds small arms into the VC position. E lements of the squad searched the area with undetermined results because of darkness. The area was searched at daybreak with negative results. 4 spider holes and a 7 foot long L shape covered trench was found at (AT 995710). All were destroyed by EOD at 271645H.

27 October 1966: At 272305H 3d Tank Bn S-3 at (AT 989708) received a report from 1st AmTrac Bn that their squad in ambush at (AT 985713) observed 12 to 15 VCS moving northwest at (AT 985714). A check with

Hoa Cam R.F. Training Center (AT 978717) was made and no troops from the Training Center were in that area. All units in this area were notified of VCS movement, but no further sightings were made.

At 272310H a 3d Tank Bn tank on perimeter defense at (AT 989708) observed a boat beached at (AT 989702). The tank was ordered to sink the boat and expended 3 rounds 90mm HE. Results of firing, 1 boat destroyed.

30 October 1966: At 302015H a 3d Tank Bn tank, while on a roadblock at (AT 984719) received small arms fire from (At 986725). The tank returned fire with 100 rounds .30 caliber machinegun fire. Results of the fire were undetermined as lack of personnel precluded a search of the area.

3d Tank Battalion continued to conduct troop orientation for individuals and units as required by current directives.

Formal school training consisted of 4 enlisted attending the Xenon tank mounted searchlight maintenance training course. The Battalion Supply Officer and one (1) enlisted supply man attended the MUMMS Orientation Course in Okinawa.

Operations and Intelligence briefings were conducted for officers and Staff NCO's in the Battalion CP three times a week.

LOGISTICS

1. General

- a. The period covered by this report is from 1-31 Oct 1966.
- b. During the month of October the overall effectiveness of the Command's Logistic Support has been good. The continued lack of Class II Type II tank repair parts is the only exception.
 - c. The main logistical efforts during this period were as follows:
 - (1) A continued effort to procure critically required tank repair parts.
 - (2) "A" Company embarked to Dong Ha area.
- (3) The supplying of two (2) companies in the Dong Ha area. This has been accomplished by using ICU's. This has proved quite satisfactory in the past month.
 - (4) Continued development of the cantonment.

2. Supply

- a. Procurement availability, and distribution of supply
- (1) The availability and distribution of Class I, III, IV, and V supplies remains excellent.
- (2) The non-availability of Class II Type II repair parts for the suspension system of the Mu8A3 Tank remains a problem. Every effort has been made to alleviate this problem. This non-availability of repair parts is the major factor which effects the combat readiness of this unit.
- (3) The percentages of all FY66 documents completed as of the end of the fiscal year is as follows

	Pri 02	Pri 05	<u>Pri 12</u>	<u>Pri 17</u>	TOTAL
Documents Completed Fill Rate	402	1485	6576	1687	10,150

3. Evacuation and Hospitalization

- a. General Status. The overall effectiveness of the preventive medicine section is excellent. Continual stress is placed on malaria control.
 - b. Hospitalization and evacuation for the month of October.

	<u>Air</u>	Surf	Aw Evac	Ret to Duty
KIA	0	1	0	0
WIA	0	3	0	3

4. Transportation

- a_{\bullet} The overall effectiveness of the motor transport platoon continues to be excellent.
- b. The command is furnishing 1-M38Al with driver to 1st MarDiv. Five (5) M-54 trucks were assigned to 1st MarDiv for a period of ten (10) days.
- c. The milage for the month was 45, 118. There were no accidents during the month.
- d. The vehicles are being maintained in excellent condition. This is due to the continual attention given to 1st echelon drivers maintanance and weekly PM of all vehicles.

5. Service

a. Tank Maintenance

- (1) Tank maintenance has done an outstanding job during the month of October. Three (3) tanks were submerged to create an extra burden on the maintenance section. All three (3) tanks have been recovered. In addition our maintenance section has rendered maintenance services to 1st Tank Battalion.
 - (2) The overall maintenance effort is excellent.

b. Cantonment

(1) Improvement of the cantonment is continuous.

During the month of October 1966, a number of command and control changes occurred which affected the Battalion Headquarters and certain subordinate elements.

On 10 October 1966, 3d Tank Battalion (-) consisting of the Battalion Command Group, H&S Company (-), Company "B" (Rein), and Company "C" (-), 1st Tank Battalion (OpCon 3d Tank Battalion) passed from the operational control of the 3d Marine Division to the operational control of the 1st Marine Division in the Da Nang Taor.

Company "A" (Rein) was deployed to Dong Ha in the Prairie TAOR during the period 6 - 9 October 1966 under the operational control of Task Force Delta. On 10 October 1966, Task Force Delta was deactivated and the 3d Marine Division Forward Command Post was opened at Dong Ha. Company "A" (Rein) remained under the operational control of 3d Marine Division Forward for the rest of the month. Company "A" was placed in direct support of the 3d Marine Regiment on 17 October 1966.

Company "C" (Rein) remained in the Prairie TAOR during the entire month of October 1966 in direct support of the 4th Marine Regiment.

On 26 October 1966, operational control of Company "C", 1st Tank Battalion was returned to 1st Tank Battalion (-) which had opened its Command Post in the Ba Nang TACR;

On 30 October 1966, 3d Tank Battalion joined the SLF Tank Platoon attached to BLT 3/3. This platoon replaced the 2nd platoon, Company "C", 3d Tank Battalion, which was attached to BLT 2/4 on 13 October 1966 for deployment to Okinawa.

The following is a recapitulation of the operational control status of 3d Tank Battalion as of 31 October 1966:

1st Marine Division

3d Tank Bn (-) (Da Nang) H&S Co (-) (Da Nang) Co "B" (Rein) (Da Nang)

3d Marine Division

Det H&S Co (Liaison Team) (Phu Bai) Company "A" (Rein) (Prairie TAOR) Company "C" (Rein) (Prairie TAOR)

COMMUNICATIONS-ELECTRONICS

During the month of October 1966, Command Post displacements forced this and other battalions to cooperate closely on radio nets in order to maintain reliable communications. Company "A", 3d Tank Battalion, secured from the Battalion Common Net because of displacement to the Prairie TAOR. Company "C" (-), 1st Tank Battalion, secured from the Battalion Common Net to enter its parent unit command net. Traffic to Company "A" was relayed by radio through Company "C", 3d Tank Battalion, also located in the Prairie TAOR. Additionally, this relay net was used for traffic between 1st Amphibian Tractor Battalion units. In spite of the multiplicity of nets and units, cooperation at all levels was outstanding. The task of coordination and centralization of communications for all units within the Southern Sector, 1st Marine Division Rear Area Defense was assigned to this Battalion, vice the 1st Amphibian Tractor Battalion. An AN/MRC-62 was procured from the 5th Communications Battalion and, with this equipment, four (4) voice channels and one (1) superimposed teletype channel were placed into operation with the 1st Marine Division during the latter part of the month.

The teletype channel was established in the Southern Sector Rear Area Defense Communications Center. The Communications Center guarded for the 1st and 3d Tank Battalions, the 1st and 3d Anti-Tank Battalions, the 1st Amphibian Tractor Battalion, and the 3d, 7th, and 9th Motor Transport Battalions. The 1st and 3d Anti-Tank Battalions each provided three (3) men to operate the Communications Center. The equipment to operate the Communications Center included one (1) TT-4, one (1) TT-5, one (1) F-98, one (1) KW-7, one (1) Telegrapher's Typewriter, and one (1) Ditto Machine. With no back up equipment and no technicians, future operating problems are foreseen. Power was supplied from camp power with a PE-75 generator for auxiliary power.

Trunk lines were removed and installed with the departure and arrival of units. The trunk lines to the 1st 8" Howitzer Battery (SP), 4th Battalion, 12th Marine Regiment, 9th Marine Regiment (Rear), 3d Marine Division Switch, and the 12th Marine Regiment FDC were removed. Trunk lines to Company "A", 7th Engineer Battalion and the 1st Tank Battalion were installed.

The personnel situation was somewhat improved because of continued cross-training, but there was a shortage of radio operators and a communications chief.

MEDICAL AND DENTAL OCT 1966

Military Sick Call for the Battalion during this reporting period was approximately the same as reported during the previous month. Total Military Patients seen - 207. As a point of interest, the Dental Service within this area is generally considered "OUTSTANDING". All Military referred to the Dental Sections have received prompt and satisfactory care.

Venereal disease cases for the month of October totaled one, which is a sharp drop from the three reported in September. The one case, which was diagnosed as genorrhea, was contracted in the local area of Redbeach.

The Civil Action team did not visit Phong Bac for the reasons previously reported, however patient care has continued to be provided to a limited number of Phong Bac residents at the BAS. Total patients seen at the BAS was 495 involving approximately 600 individual treatments. Visits were also made to Hoa Guong, however the efforts to visit this and other areas were greatly reduced due to the lack of transportation and in part to foul weather conditions. Total patients seen at Hoa Guong was 289, with approximately 375 treatments involved.

Again it has been noted that an increase of adults from the Phong Bac area have been reporting to the BAS for treatment. At the present time, and with the advice of our Civil Affairs Office, consideration is being made to provide treatment to Phong Bac non-ambulatory cases. The Nursing Trainees assistance has greatly been reduced. At the present time we have one Nurse Trainee left who is faithful to the present program. An investigation will be conducted to determine the cause of this sharp drop off.

TRANSPORTATION: At the present time, the BAS's Jeep Ambulance is in line for survey, and only through the assistance of the MTO of this Battalion, has this section been afforded temporary relief. Unless a permanent vehicle is assigned, the MFDCAP program to other areas may have to be discontinued.

The month of October was a period of transition for the 3d Tank Battalion Civic Action Team. Primarily the transition encountered resulted from the replacement of the 3d Marine Division by the 1st Marine Division Consequently reassignment of areas of responsibilities and re-evaluation of past, present and future projects were the keynotes of the month.

Several factors affected the performance and responsibilities of the 3d Tank pattalion Civic Action Team: lack of transportation; personnel on leave; inclement weather; and time consuming alignment procedures involving new units,

Vict Cong activity has decreased during the month of October as compared to the previous month. The increase of daylight and nightime patrols conducted by 3d Tank Battalion personnel, coupled with closer scrutinization of indigenous personnel in Phong Bac Hamlet have successfully contributed to diminish Viet Cong activity.

Popular Forces and the Hoa Vang District Headquarters provided information on several occasions during the month which resulted in the apprehension of enemy personnel. In addition, on an extremely limited level, at present, villagers revealed information concerning Viet Cong hiding places; consequently, several bunkers, caves, and tunnels were discovered and destroyed. The willingness of even a small precentage of villagers to divulge Viet Cong activites and positions definitely indicated a positive step toward further exploitation of enemy information if USMC forces aggressively continue their efforts in the Rear Area to other tide of Viet Cong activities.

Continued progress was maintained towards completion of the addition to Phong Bac school. Since the 13 September 1966 bombing, the wall, new roof and repairs to the old roof have been completed. A cement finish to the walls and a concrete floor are all that are lacking from final completion which will be by mid-November. As in the past, the people of Phong Bac have provided the labor and much of the skill necessary for construction of the school.

Another continuing school project is the English class held at khue Troung II. The course is pilot in nature and much important information is being gained toward establishing a more encompassing and effective syllabus. However, the interest and results with those students now attending is most gratifying.

The absence of villagers from using the new Phong Bac market place was investigated during the month. It was disclosed by the Hamlet Chief, Nguyen Duong, that before the villagers would use the facility a Buddhist Shrine had to be erected. With materials supplied by 3d Tank Battalion the villagers constructed the shrine; accordingly, the market place is now considered completed and actual occupancy of the stalls has commenced. Efforts are being extended towards attracting various shops of a permanent nature. By utilizing the potentiality of the market place, it is envisioned that an economic and social center will develop on a limited level

Enclosure (11)

During October a new procedure for medical assistance to the villagers of Phong Bac was instituted. Regular sick call hours were established at the 3d Tank Battalion CP twice daily and emergencies on a 24 hour basis. Using this system the total number of patients treated was 913. In comparison, this figure demonstrated nearly a 600% increase over last month's total. However, combined totals for all MEDCAP activities administered, which totaled 1300, were less than the total figure for the month of September. During the month, for example, the village of Hoa Cuong received only five MEDCAP visits. The unavailability of vehicles and personnel were the two factors that proved to be detrimental, to our program.

An aid station in Phong Bac is still not a reality, however plans for its development are presently under study. There are two proposed locations for the aid station, the Phong Bac market place (AT 000733) and the Phong Bac School (AT 989703). The new station will provide daily medical assistance.

During the month only one volunteer nurse consistently aided the MEDCAP team, the other four trainees were present only at irregular intervals. Their absences were attributed to various reasons such as personal business, illness, and general apathy. In the future the nurses training program will be operated in conjunction with the Phong Bac aid station. By combining the nurses training and the aid station into one project we hope to establish a more consistent program. This consistency in training should prove effective by developing a greater degree of efficiency and subsequently maintaining the nurses personal interest.

Despite our obvious goal to help the people help themselves, relief assistance is still required each month. During October, for example, the 3d Tank Battalion distributed more than a half a ton of used lumber to the hamlet population of Phong Bac for use as home repair material and as cooking fuel. About 5,350 lbs of edible garbage from the mass hall was given away for use as pig food and approximately 200 lbs of soap was distributed to reinforce a continuing personal hygiene campaign. Clothing was another item distributed during the month. The village and hamlet chiefs were directly involved when the clothing was handed out. A number of school supplies were dispensed to the children. Villagers working with Marines on local civil affairs projects were invariably the recipients of appropriate amounts of bulgar wheat, cooking oil, or canned goods.
