PART II NARRATIVE SUMMARY

The 3D Dental Company provides dental support throughout the TAOR of the 3D Marine Division to personnel of the Division. In addition, it provides dental prosthetic treatment and dental repair preventive maintenance services to Navy and Marine personnel of NSA, 1st MAF and MCB units in the TAOR. Assistance to Graves Registration is provided in identification of the dead. Company personnel provides support to the Marine Memorial Children's Hospital at "D" Medical facility, Dong Ha. Dental civic action support was provided to several 1st BDE of the 1st Mechanized-1st ARVN Regiment "County Fair" cordon-and-search operations during the month. Several significant new programs were initiated during the month. The first consisted of sending a team composed of dental officer and one dental technician by helicopter to active forward Fire Support Bases to examine and treat potential dental medevac casualties. The team remained at each FSB for as much time as was found necessary to render required treatment before moving on to the next FSB. This program has proved to be extremely valuable from a morale standpoint as well as virtually eliminating dental medevacs from FSBs so visited. The second program consisted of sending the dental team on weekly visits to one or more of the 14 Combined Action Platoons of Combined Action Group Four operating in the 3D Division's TAOR. The team brought dental care to the Marine elements of the CAPs as well as the Regional Force and Popular Force troops and their families, a heretofore untreated segment of the military family. An oral surgeon with the Company, with the cooperation of the Navy MILPHAP personnel at Quang Tri Provincial Hospital, established a weekly maxillo-facial tumor clinic at the hospital.

Enclosure (1)

This program shows signs of being very rewarding. Increased emphasis on the Division's cleft lip/cleft palate program through the employment of improved PSYOPS material has resulted in the discovery of many more cases requiring treatment. Two RVN Navy corpman of the junk fleet based near Qua Viet have received sufficient training, by company personnel, to enable them to perform DENTCAPS on their own, thereby reaching hamlets heretofore untouched.
