13. Due to civil unbest and traffic restrictions in and around the city of DA NANG, civic action was limited. This time was taken to inventory plans and stocks of supplies held by members of the civic action team. Medical supplies were replenished at the DA SON dispensary and corpsmen worked to clean up the area for future treatments.

Plans were discussed concerning modifying the civic action program for the period of civil unrest. Action planned for the 9th Marines area will be delayed and more of an effort applied in the 3rd Marines TAOR.

The indigenous employee program progressed in spite of civil unrest. Security clearances were obtained for a additional employees who will work at the FLSG lumber yard. There have been 160 individuals who have continued to work during the period of unrest. The number has fluxuated due to individuals from DA NAMG not being able to leave the city to work. They have tried to get out to work but have not always been successful. Workers have advanced in pay scale as there skills are improved. The workers receive instruction in construction skills, electronics, masonry and road building, and have greatly aided the engineer effort of the battalion.

### 1. Nerrative Summery, 9th Marines:

a. The QUANG NAM Province Education Chief visited proposed school sites in the 9th Marines some of action and approved construction of three classrooms to be built on a self-help basis with III MAF funds. Two rooms will be added to the MIEU DONG hamlet school, (BT 014686), to accommodate 100 new students. 150 students now attend classes at the school. A one room hamlet school was approved for AN TRACH (1), (AT 970664). The school is expected to provide facilities for 80 students and relieve the overcrowded condition of the HOA LOI school located in AN TRACH at AT 972662. Because both schools are to be built with GVM approval, the teachers, once recruited, will be eligible to receive salaries from QUANG NAM Province.

## 2. Special Report. Five Mountains Pacification Area:

a. Pacification Headquarters at BO MUNG, (BT 025657), reported that the Pelitical Action Teams for HOA CHAU and HOA DA villages returned to their villages on 20 May. While true, the information was hardly timely. HOA VANG district reported that the two teams returned to District Headquarters at 1700 on 21 May. This move leaves one Political Action Team operating in the campaign area. The HOA LOI village team is currently located in AN TRACH hamlet, (AT 972662). The remaining five teams are at HOA VANG District Headquarters.

b. The Pacification Cadre Leader reported that the cadre for the five villages are still working in their assigned locations. The cadre groups from HOA DA, HOA CHAU and HOA THAI villages spend the night at BO MUNG. Only the HOA LOI and HOA PHUOC cadre groups spend 24 hours a day in their villages.

13. The Battalion Civil Affairs Officer coordinated with the Civil Affairs Officer of the Second Battalion, Third Marines. Further development of civil action in the La Chau area was discussed. Members of the Battalion civil action team are planning to provide medical aid to the La Chau area. The effort applied in this area hopefully will gain the confidence of the people with the result that the VC actions in the immediate area will be reported. In the last year nearly twenty Marines have been killed or wounded near this area due to VC mines and booby-traps.

The village chief of Hoa Khanh has offered assistance in trash removal from the Battalion area. A plan for this has been discussed and results will be forth comming.

### CIVIL AFFAIRS

On 20 May 1966, a contingent of Vietnamese from Loc An (964064) presented a Vietnamese flag to the second platoon of Company "M". In a ceremony at 0800, 21 May 1966, a joint honor guard consisting of Popular Forces and U. S. Marines raised the flag at the Loc An Village Chief's office. This is the first time in several years that this village has felt it had adequate protection to fly their flag.

At 1130, 21 May 1966, the Village Chief of Loc Diem (969062) with three (3) village elders and about ten (10) other village officials came to Company "M" Headquarters and presented the company with approximately 100 pounds of bananas. The gift was the people's expression of gratitude and appreciation for Marine protection.

13. The Civil Affairs Officer visited the village chief of HOA KHANH Village. The purpose of the visit was to finalize the proposed agreement to collect trash from the 3d Engineer Battalion area. Passes are being produced for the five individuals who will remove the trash. Also discussed were plans for the removal of certain graves from the battalion area, and a suitable payment for the graves. The project proposed for trash removal and for grave removal will employ men from HOA KHAMH Village and HOA THANH Village. Work should begin in a day or two.

Due to inclement weather the civil affairs program of the 3d Engineers was severely limited. Arrangements were made to secure leaflets to be distributed by members of the civic action team in the LA CHAU area. The only other contact made was with the HOA KHAME Village Chief.

Distribution List

Subj: Enemy Situation; report of

- 1. The 2/9 Bn S-2 at 0900 22 May in During Son (1) spoke to the Village Chiefs of During Son (1), Phong Le (1), and one PAT team member. The Vietnamese reported that approx 40 V.C., many armed with M-14's, wearing assorted civilian clothes, and carrying radio gear (type unknown) were in During Son (1) on the night of 21 May.
- 2. The VC entered Ducng Son (1) at Vicinity BT 001685 at about 212000H. They gathered people together at the PAT office and asked for their cooperation. The villagers refused, and the VC burned one bamboo structure, weeked a second, and removed several papers and documents from a concrete building used by the PAT for office space at AT 997687.
- 3. The VC then withdrew to the South. The PAT representative fall they had moved toward Giang Dong (BT 007677).
- 4. The VC passed out propaganda prior to departing Ducng Scn (1).
- 5. Further, the Village Chief of Thong Le (1) reported that no VC entered his village during the night. The chief of Durng Son (1) indicated that he aradical to VC while they were in his village, but that the VC told his wife he would be killed if he did not aid the VC. The VC that spake to her, as well as the VC who burned the buildings, spake in a Northern Vietnamese disloct, according to the Chief.
- 6. The PAT member indicated that 40 VC were in Giang Dong at about 211930H via (BT 007667). The VC did not speak to the people. He further indicated the CVC were in Cam Nam (BT 013703) at 2100. They set up a VC flag, which was removed on the morning of 22 May by PAT personnel.
- 7. The VC all reportedly withdrew South after midnight. (The Village Chaofs felt that the VC had been in the 3 villages at the same time. However, when questioned about the times, they were infact, uncertain. The 3 villages may have been occupied by the same unit at different times.)
- 8. No further information was available. (Bn S-2 Comment: Due to USMC disposition during the night of 21 May, it is felt unlikely that the VC were elements of units engaged with 1/9 on 21 May. It is possible, but not probable that withdrawing VC elements entered Duong Son (1), via Cam Ne (1) and Cam No (2). Withdrawing VC elements entered Duong Son (1), via Cam Ne (1) and Cam No (2). It is more likely, however, that a 40-50 man unit, with a mission of temporism or propaganda moved into the rear portion of 'the 2/9 TAOR via La The Bac (1)

(BT 005631) and Ha Tay BT 008645), Tan Hanh (BT 000655 and North into Qua Giang (2) (BT 003667). Reports received on 11 May and 12 May, from local Vietnamese, indicated 4 and 7 man groups of VC moving from Qua Giang (2) into Giang Dong on several different occasions during early May. ARVN elements at Bo Mung at approx 212130H requested 31mm mortar clearance for a mission at (BT 003655) on an unknown target. (Further information from Sen Liaison not available at present time.) It is likely that about 40 VC moved North on the route listed above sometime during the night of 21 May, and entered unprotected villages that were felt by the VC to be cooperating with the USMC and GVN, in an attempt to regain control in 2/9's rear areas.)

9. At 221230 the Bn S-2 received, additional information from W/O NGUYEN MON (RF) that last night his bridge at BT 016675 received moderate small arms and automatic weapons fire throughout the night, from an estimated plateon of VC located at BT 013671 (pagoda) and BT 027674. Villagers of Qua Giang (BT 015665) this morning reported that an unknown number of VC armed with 3 81mm mortars, 5 57RR and unknown number of 60mm mortars were in Qua Giang last night; Their, mission was to attack Bo Moung and then move to Da Nang. He stated that villagers have been moving from Giang Dong (BT 005677) since 0800 this morning, toward Miau Dong (BT 017684). (Villagers are still moving.) Also reported that VC destoryed fences in Nhon Tho (2) (BT 017658), Nhon Tho (1) (BT 003657), Quá Giang (1) (BT 015665), and Giang Dong (BT 005677) last night. People going to the market this morning told him one platoon of VC were in Thi An (2) (BT 037672) for a meeting last night, and crossed the river to fire at his position. He feels at the present time there is one VC company in Giang Dong (BT 005677), one company in Nhon Tho (1) (BT 003657), and one plateon in Thi An (2) (BT 037672). VC entered area when the 51st Regt moved out yesterday, he said.

10. At 291300H at (BT 017675) RF personnel reported that they had received approx 20 rounds K-50 fire from vicinity (BP 013677).

11. The 51st Rogt S-2 relayed a report at 221400H that 400 meters of defencive fence line in Yen Me (2) (AT 990684) had been destroyed by an unknown number of VC during the night of 21 May.

13. The Da Son dispensary was opened yesterday and is now operational. A total of 128 men, women, and children, were treated. Four youths who had been receiving medical training were on the job.

In the La Chao area along Route #5 South, a load of scrap lumber was delivered to improve pathways leading on to the road. The indigenous aided in hand digging ditches along the road and, by placing scrap lumber across the ditches, allowing passage from footpaths to the road. The project is part of a continuous effort to improve Route 5 South.

The village chief of Hoa Khanh village was contacted again. Secured from the village chief were photographs of the five individuals who will remove trash from the battalion area. Identification cards are being made for these five.

- a. The CHIEU HOI returnee who surrendered to DUC DUC District Headquarters on 15 May has led Marines of 3d Battalion, 9th Marinestee a cache of rice estimated at four tons. The returnee, reportedly a former VC economic cadre men, claimed positive knowledge that the rice, located in PHU LOC (1), (AT 927493), was intended for use by insurgents.
- b. Five thousand safe conduct passes were delivered to 3/9 for distribution in DUC DUC District. A group of refugees with known YC relatives have been indoctrinated by Vietnamese Information Service personnel and are being sent to their hamlets with instructions to distribute the passes.

# 2. Special Report, Five Mountains Pacification Areas

a. FAT and Eural Construction Cadre personnel were withdrawn from HOA LOI village on 23 May because of a false impression on the part of Pacification Headquarters that Marines were leaving the area. The departure of the PAT and Cadre personnel and the erronecus information that Marines were leaving prompted 425 people from the southern sections of HOA HOI village to leave their homes for safer parts near MTHU DONG, (BT 006686). Having been reassured by the 9th Marines that Marines had not and would not abandon the village, the Pacification Cadre Leader agreed to poinsert his personnel into the village. On 25 May the 9th Marines will provide two trucks for that purpose. Meanwhile the PAT's are to contact the 425 refugees at MIEU DONG, appraise them of situation and encourage them to return to their homes.

13. Over the past three weeks an extensive road improvment project has been conducted on route #5, south from (AT945699) to (AT942692). The road improvements has involved repair of seven bridges and installations of culverts. The culverts are of particular note. For several months the villagers from DUONG LAM (1), PHOUC NIN (4), and LA CHAU (1) have requested culverts to extend their irrigation systems under the road bed and allow water to pass freely to adjacent rice paddies. From an engineering point of view the culverts were essential to proper maintenance of the road. Their installation would prevent water flow from washing out the road bed in certain critical areas during the rainey season. During the past 3 weeks the 3rd Engineer Battalion installed a total of six sulverts in areas that suited local irrigation requirements and the engineer requirements on the road. Hamlet chiefs were consulted along with the land owners involved as to the specific location of the culverts. The people in the area knew the culverts would be installed for them by Marines, yet when work actually began there were always a number of villagers on hand to actually help dig diversion ditches on each side of the road to protect the culverts. They also sided in the ardnous task of constructing sand bag wing wells. On two occasions land owners requested to do all the land work themselves. The entire project has worked out to the highest expectations to the villagers and Marines engineers.

The civil affairs officer from 7th Engineers and the chief of HOA KHANH visited the 3d Engineers civil affairs officer. The purpose of the visit was to discuss collection and delivery of wood scraps to the refugee hamlet of DA PHOGO. The 3rd Engineers have had several dealings with Mr. Nguyen Then, the village chief.

USN Captain LOFGRIMEN visited the battalion civil affairs officer to make plans for dental treatment in out laying areas. Arrangements were made for treatment in DA SON administered from the dispensary operated by 3d Engineers.

#### MARRATIVE REPORT

Today 2,950 plasters were contributed into the Vietnemess economy, Culent laundry, for laundry services.

The civic ection team visited the Hamlet of Cam Hoa teday on the request of the hamlet committee. The family heads of eightysix families, representing the population of Cam Hoa Subhanlets I thru 7 were present to verify a population commus taken carlier. A rester of ID and numbers was purified. Each family head received one CARE tailoring hit consisting of ten meters of black cloth, one pair of ecissors, buttons, thread and meedles. Each subhanlet chief received a package of vegetable meeds for the fall planting season. Instructions on planting techniques were given by the civic action officer. Each family also received a har of laundry scap and a har of face scap with an appropriate sanitation lecture by the civic action corponan. While the people were gathered the corponan treated II4 people for cuts, skin irritations, respitory allments, etc. The hamlet chief and the committee expressed their gratitude and requested the services of the corponan once each week. A tentative schedule was set up for 1250 each Monday.

It should be noted that the above meeting was advertised and presultated well in advance. The time chosen was the noon hour when the country people do not work in the fields. The result was a 100% voluntary attendance of all family heads. This healet has not been previously worked by Maximos or GVN officials beyond sweeps and search and destroy operations. The attitude of the people was excilent. Their attention to instructions was remarkable.

The above sequence of events was recorded on sound and film by the Armed Forces Combat Motion Picture Feam working out of the Frens center in Danang.

Work continued on the Windmill and Model "A" Ford engine to be used for irrigation.

School books, reported in yesterday's report, were well received by the teachers and school children in the Yes Buc Hamlet school.

MARRATIVE MERCAT:

the of the first civic action projects in Yen Bec Hamlet, a playground for the children, began showing some very and tear. One of the testertotters was broken. The hamlet committee assigned three men to assist the civic action team in repairing the tester totter.

A monte for a service road to Yen Bac was layed out today by the civic action team. This road will emble vechicles to enter the healet for the first time. One Ontos traveled the new route and parked near the market center. The arrival of the Ontos was timed to coincide with a school bread and the siests of the farmers. The occasion wassomething like a minor Armed Forces Day. It was a great success and caused many favorable compants from the elders.

Two men detailed by the hemlet committee picked up sorry lumber, donated by the 3d antitenk fattelion, and began building more school deaks for the Marine sponsored hemlet school.

Work continued on a well being dug in Subsenlet 3 of Yen has banlet.

All of the above sequences were recorded on film and sound by the Armed Forces photographic team.

13. The indigenous employee program is back to 100% now that the civil crisis in DA NANG is over. Workers living in DA NANG now have no problem in getting out to work and have every reason to believe this will be the permanent future condition.

The DA SON despensary was open and treated 39 individuals. The common ailment was infection and there were a predeminance of adult males treated.

The village chief of HOA KHANH requested that the battalion civil affairs officer allow the villagers to come into the battalion area to locate and identify family graves. Arrangements have been made for removal of the graves in the near future.

1. Special Report. Five Mountains Pacification Areas

a. Political Action Team personnel reported that only about 40 per cent of the 425 people who evacuated HOA LOI Village on 25 May have returned to their homes. The remainder are delaying their return until they are certain the village is safe. Members of the Rural Construction Cadre were reportedly working in MIEU HONG, (AT 016685), to convince the people to return to the village.

b. After investigating the two incidents of Y. C. vandalism reported by Pacification Headquarters to have occurred on 24 May, the S-2 of 3d Battalion, lat Marines concluded that they were the same incidents that took place on 21 May as reported in the 9th Marines Daily Civic Action Situation Reports of 22 and 23 May.

2. Barrative Summary. 9th Marines:

a. Four HOA LOT Village school teachers were contacted and informed of the proceedures necessary to become eligible to receive GVN salaries for their work. They were told to centact the Education Chief of HOA VANG District and make arrangements to attend a brief teacher training course given at GUANG NAM Province Headquarters. Upon completion of the course the teachers are certified and can be paid by District Headquarters.

MARRATIVE REPORT:

Today 9,000 piesters were contributed into the Vietnesese economy (Orient Laundry) for laundry services.

Two truck loads of sorap lumber were delivered to the hamlet of Yen Boo. The hamlet committee distributed the wood to the individual families. While all the people were gathered, the hamlet committee took the opportunity to talk to the people on a tree farm project. The committee members explained what they had seen when they had visited a tree farm on a Marine sponsored tour. The people were attentive and interested.

In the afternoon the elders of the five subhamlets were taken to the tree farm to see for themselves what the hamlet committee had reported. At the same time they were given a tour of a pig farm, rabbit farm and occomit grove. The elders were appreciative. The foreman and a mun of the catholic monastery were very helpful and informative.

A water handpump was assembled and installed by the Battalion Maintenance Section at a recently renovated well. The handpump will eliminate the introduction of foreign matter which was previously introduced by dip buckets, dirty ropes and wires.

Work continued on the pump assembly of the Model "A" Ford engine irrigation pump.

Meutenent MIGLIM from the Armed Forces Motion picture team performed a clown skit for the children during a school break at the Yen Bac Memlet school. After initial fright and smarement the children warmed up to the alown. Their laughter and excitement indicated that they will remember this day for a long time to come.

Brush and dirt has been sufficiently elected to allow vehicles to enter the homlet. The elders visiting the tree fain this afternoon were the first ones to leave the hamlet by a motor vehicle. Intense pride and pleasure was noticeable in the faces of these octogenariess.

Ref: Force NCCO 5081.1A

1. Marrative Summary, 9th Marines:

a. QUANG NAM Province education specialists accompanied by a representative of the 3d Marine Division G=5 and the 9th Marines Civil Affairs Officer contacted the HOA LONG and HOA LOI Village Chiefs to discuss school construction in KIN SON, (BT 070704). It was decided to repair the present school building and add two rooms. Building materials will be provided by III MAF and local labor will be used. The new rooms are slated for use by 120 children from XUAN TRA, (GS BT-0669), and AN TRA, (BT 077695).

b. Whitewash for the HOA LOI Village Dispensary, (AT 972662), and the HOA CHAU Village School, (BT 002689), was obtained from the 3d Marine Division G-5.

c. The Hamlet Chief of BUONG SON (2) requested that Marines build a culvert across a road at AT 993684 to restore the natural supply of water to the adjacent rice fields. The flow of water was interrupted when Marines constructed a road parallel to the reliroad bed to facilitate repair work. The request was relayed to the 3d Engineer Battalion and an agreement was reached to start work on the culvert in the near future.

13. A visit to the Ha w s made by members of the civic action team. In the hamlet there are seven refugee families who have been living there for the past two months. Since they are not yet established and have not been able to plant and harvest any crops they are forced to pose a burden on the rest of the hamlet. A total of 800 pounds of bulgar wheat was delivered to the hamlet and was distributed to the families by the hamlet chief. The chief distributed some of the wheat to other members of the community. In addition, about 200 bars of soap were distributed to the refugee families and other hamlet members.

13. Dental treatment was administered at the Da SON DISPENSORY to members of HOA EHANH Village. The assistance had been prearranged with the village chief who had spread word through out the village. Plans have been made to continue dental assistance on a weekly schedule. On Mondays the dispensory will be primarily devoted to dental treatment due to the largenumber requireing aid. Approximately 100 persons received dental treatment and 40 persons received medical treatment.

MARRATIVE REPORT:

The Civic action team visited the Hamlet of Cam Hea today to conduct sickeell and to talk to the hamlet committee. The hamlet committee requested the help in filling out several claims resulting from burned down homes due to flares. The flares were apparently fixed by elements of the 3d Battalion, 3d Marines prior to their relocation. 200 pounds of bulgar wheat were distributed to the farmers of subhamlets 4 & 5 of Cam Hon.

The Cam Hos school was presented with a new volley ball for their athletic program.

During sick call 100 bars of scap were distributed. The sanitation standards of the people in this hamlet are very low in comparison to Yen Bac hamlet. Of the lll people treated most of the treatments from for skin infections which could be prevented by frequent washing. A preliminary survey seems to indicate that the number of wells is inadequate.

Work on the model "A" irrigation pump is near completion.

Work and modifications continued on the windmill. Mr. Bill COOK from USAID, said during his recent visit that the windmills produced from Taiwan have not been satisfactory. The complete windmill somes with a wooden drive shaft and wooden propeller blades. Both, shaft and blades, are very fragile. Of the twenty pumps he has inspected none of them worked satisfactorily. The windmills do not operate properly in winds less than 12 to 15 miles per hour due to the low gear ratio. Winds of this velocity are seldom experienced in the low lands. The 3d Antitank Battalion windmill/as several modifications thus far such as metal blades and an increased gear ratio.
