13. Members of the Civil Affairs Team distributed materials to refugee families in PHN HA and to families living along Route 5 South. A total of 100 lbs of wheat broken down into smallen sacks, were distributed to 20 families, 7 in PHN HA and the remainder along Route 5 South from AT945699 to AT944680. Like wise were distributed 25 school kits and 25 sewing kits. Bars of soap were given to members of each family totaling roughly 100 people. This distribution is part of an effort to provide civic action areas where engineers are actually operating. Route 5 South carries a high volume of traffic daily including equipment and materials to the forward project sites. Civic action in this area can have a tangable effect in gaining the confidence and cooperation of the Vietnamese living there. Effort of this nature will be continued by the 3d Engineer Civil Affairs team.

MOTICE

From the Loo Bon village office, all the people within the village must comply with the curriew order.

By order - our village office amounces to the people the following information gathered from the people's intelligence.

There are many V.C. who take advantage of the darkness at night to infiltrate the hamlets. To get their supplies and other materials they terrorise and threaten our fellow farmers. When they have gotton enough supplies they return to the hills and meet up with their comrades.

To protect our village, hamlets, and people, we want all the villagers to cooperate and coordinate with the present security force we have within our village to stop the infiltration of the Viet Cong.

We announce to all the people within our village to keep in mind the following points:

- 1. Complying with the curfew time which starts from 1930 and ends at 0600, nobody will leave their house unless its an emergency, eg., when a women is giving birth or someone is seriously ill. They may leave their place of residence by carrying a lamp. This goes for all the residents within our village.
- 2. People who own livestock, will keep them in a Pencorca Shed of some kind. They will not be allowed to stay in the fields or along the roadside during the hours of darkness.
- 5. During the hours of darkness their will be no gathering of any kind unless they have permission from the local authority. If the villagers do not comply with these three (5) points, the local authority or government are not responsible for the happenings that might occur during the curfew hours.

This order is effective immediately and will remain in effect until superceded by a new one. We ask all villagers to disseminate this order to their friends and relatives.

15. At the DA SOW Dispensary 36 people were treated including lman, 15 women and 14 children. Action has been initiated in the training and employing of a nurse for the dispensary. The Civil Affairs Officer made a visit to the HOA VAN District Chief to obtain information as to the proper way to register the nurse. She has been a government nurse for a period of months in QUANG TIM Province, PHUCC THAN VILLAGE. Administrative action has been started to have her records transfered to QUANG NAM Province. The addition of a nurse will increase the influence and effectiveness of the dispensary.

A total of 100 lbs. of wheat, 25 sewing kits and 10 school kits were distributed to members of TUY LOAN Hamlet. The people there have cooperated with engineer efforts in that area and have a need for civic action. An additional 100 lbs. was distributed to persons working in and around the Battalion area. These people live in HOA KHANH Village and till the fields in the Battalion area. They have been cooperative with battalion operation in the compound and have been good friends. These families are large and had a need for the additional wheat.

### HARRATIVE REPORT

One additional fire pumper trailer was obtained thru the cooperation of the 3d Motor Transport Battalion to relieve the drought striken farming area of Camp Hea hanlet. The pump was delivered by the civic action teams Operating instructions were provided by the motor transport section.

200 kilos of Munk peasuts were delivered to Yen Bac hamlet by GVN agriculture officials. The peasuts project stems from a USAID/Narine Corps Civic Action effort to improve local seeds. The "Munk" peasuts were delivered on a lean basis. The peasuts will be planted in July and will be repaid from the first harvest.

#### 13. NARHATIVE REPORT

. 13

The refugee situation in Dai Loc remains unclear. Records of the District Chief indicate that 17,345 civilians have been registered with District Headquarters since 12June. Of this 17,345, an undetermined number are refugees created by recent military operations. Plans provide for the construction of a temporary refugee camp at Dai Loc. At such time as refugees are located in this camp, an accurate refugee count will be made. Following the proper registration and screening of those refugees, steps will be taken to return them to those areas cleared by tactical units.

Of particular interest is the fact that no civilians require treatment as a result of battle wounds.
