OPERATIONS

All CAPs remained stable for the month of May. Under consideration during this period was the relocation of CACO 3-3 or some of its CAPs. Phu The District was the targeted area. Consideration was also given to relocating two of CACO 3-1's CAPs to the western regions of Huong Tra District where there is increased enemy influence and activity. These considerations are generally agreed on by Vietnamese officials.

The alleged "Summer Offensive" was noted in Phu Loc District where terrorism and sabotage reflected an upswing in those hamlets and areas not covered by CAPs. CACOs 3-2 and 3-5 shared the majority of the enemy contacts and activity. The overall Group effort resulted in five VC KIA, ten VCS and 11 individual weapons captured.

Ordinance, both friendly and enemy, continues to be turned in at a moderate but constant rate by Vietnamese civilians who receive commensurate cash rewards. The areas of the highest turn in are Phu Vang, Huong Tra and northern Phu Loc District.

Both day and night activities increased considerably to counter the increase of enemy activity and effort. Emphasis has been placed on increased mobility of the CAP during daylight hours and the utilization of multiple ambushes at night.

~~CONFIDENTIAL~~(OPERATIONS CONTINUED)

The Province Chief held a meeting at each district to discuss and possibly remedy some problem areas within the CAPs. The CACO CO, District Chief, and CAP Marine squad leaders and PF Trung Si's attended. The result of these meetings was a letter to all districts setting forth proper policy to be followed with respect to CAPs. The degree of compliance, by VN, has not yet been measured.

The CAPs continued to participate in RF and ARVN operations contributing to the overall success of the pacification of Thua Thien Province.

TRAINING

CAP and CACO level training continued with emphasis toward utilization of supporting arms and ambush/patrol techniques. The matter of lack of attendance at training by PFs was brought to the Province Chief's attention who directed that immediate corrective measures be taken by the District Chiefs. There was a slight increase in PF attendance as a result.

The Mobile Training Team graduated two PF platoons within Huong Tra District. The May graduated platoons scored well on their exams and departed in an enthusiastic and confident manner. The team is now awaiting the assignment of additional PF platoons.

The 3d CAG Orientation Program was put into effect and comments by the new students were quite favorable concerning the instruction. A copy of the syllabus is contained within the supporting documents.

SUPPLY & LOGISTICS

Material readiness and equipment availability still retained it's C-1 status.

New data bank cards were submitted to III MAF to up-date and annotated the current 3d CAG MEDS deck.

Group Order (GruO 8020.2) on ammunition handling and storage was reevaluated and rewritten providing more specific and simplified guidance to the companies.

To support the "Weekend Break Program", that brings 24 CAP Marines & Corpsmen to the rear for two and $\frac{1}{2}$ days of R&R; three additional living quarters were acquired and fitted with bunks, mattresses and linen.

Motor Transport, upon direction of higher Headquarters, was reinspected by Force Motor Transport Section and received an excellent rating.

This month also saw the completion of present T/E evaluation by the S-4 and company commanders, and the submission of numerous T/E changes based on the "Mobile CAG Concept". Additionally, the S-4 and company commanders commenced the compilation of allowance lists to ensure the adequacy of combat essential items of equipment and supply, and deletion of accountability for non-combat essential items.

MEDICAL

The early part of the month saw a major effort by preventive measures to combat a recurrence of the plague at Lang Co. Large scale dusting to kill the carrier and over 10,000 inoculations to residents of the area who were effected.

Med Caps continued to flourish with nearly 23,000 routine ailments being treated.

Admiral DAVIS, who is chief BuMed, accompanied by Captain STOVER (USN) III MAF Force Surgeon visited 3d CAG and the XXIV Corps Chief Surgeon. The Admiral received a concise and informative briefing by the Group Medical Department.

CIVIC ACTION

No new major civic action projects were initiated during the month; however, numerous small, high impact projects were completed to include the refurbishing of two dispensaries. Three small foot bridges, two village record offices, and one wooden/grass dwelling were also constructed. Progress continued on Operation Hospital, which is now 85 per cent completed.

SPECIAL SERVICES

The "Weekend Break" program commenced this month with 24 CAP Marines returning to Phu Bai for a two and half day rest and recuperation, each weekend. Free beer and soda, assorted athletic equipments, books and a Sunday cookout were provided for the men.

The remainder of the required materials were acquired for the recreation room and final construction was completed during the latter portion of the month. Furniture was still in shipment, being expected in early June.

36. On 20 2200H May 69 at coordinates ZD 078008 (1Km SW of Phu Loc District Headquarters) CAP 3-2-1 while in their ambush site, observed three VC moving in an easterly direction approximately 50 meters away. CAP initiated fire with small arms, M-60, M-79s and one Claymore mine. The VC fled to the north without returning fire. A sweep of the area revealed one VC/KIA and one AK-47 with magazine.

RESULTS: One VC/KIA and one AK-47 rifle with magazine
