PART IINARRATIVE SUMMARY

1. During the period of 1-31 October 1968, the Force Logistics Support Section performed the following significant operations in the performance of its external support mission:

a. Supply/Service Support Unit:

(1) The issue of M151 vehicles has been accomplished. Presently these vehicles are undergoing acceptance inspection and appropriate maintenance, also necessary driver instruction be provided. The M-38A1 vehicles will not be turned in until such time as the above has been completed.

(2) An inspection of the organic account of Supply Battalion was conducted and the result was considered satisfactory with discrepancies. Due to the short time interval between this inspection and the recent FSAO inspection in August, primary emphasis was placed on those areas noted as discrepancies by the FSAO Team. As a result of this inspection it is apparent that corrective action has been initiated, however, in some cases this action is considered insufficient, requiring a more vigorous approach to the problem areas.

(3) A review of the FMFPac Repair/Rebuild Program excesses has been completed by the Stock Account and Shop Stores, with negative results. In view of this the excess repair parts have been offered to CG, 1st Marine Air Wing for review.

(4) Request for Interservice Support Agreements have been submitted for Mount Out and Mount Out Augmentation requirements. The following commodity support area and supporting services are provided:

Class III POL -----	2dLogCmd, USA
Maintenance of Drum Fuel-----	2dLogCmd, USA
Class III and Packaged POL-----	USA Depot, Zama, Japan

(5) Two Incentive Awards were submitted for consideration and are presently being processed:

(a) Suggestion by Cpl E. STEMPENSKI

(b) Suggestion by Maj W. D. SAYLOR

b: Maintenance Support/Repair/Rebuild Control Center

(1) Material Maintenance Team completed their inspection of FLC from 5-11 October 1968. Team consists of nineteen officers and enlisted personnel from Headquarters, Fleet Marine Force, Pacific and fourteen officers and enlisted personnel from 3d Force Service Regiment.

DECLASSIFIED

(2) Automatic maintenance work orders and procedures to provide a positive management tool for commands and staff managers, to include an equipment repair order file and material order file. Information is currently being compiled from maintenance activities. DPP is presently programming this system. Implementation date is scheduled for 1 December 1968.

(3) The automated maintenance balance system will provide command and staff managers with a machine listing of items currently in the Maintenance Balance. The in progress listing will reflect all items under repair and their appropriate status. A completed listing will be furnished portraying the complete history of the item from date of evacuation letter regarding, until item is actually shipped.
