## Command, Operations and Training

The month of September was devoted to normal tactical operations in established areas of coordination within the four districts of Quang Tri Province.

With the announcement of the redeployment of the Third Marine Division a series of planning conferences were held with the Quang Tri Province Chief, Province Senior Advisor and the 1st Brigade 5th Infantry Division (Mechanized). No major adjustments in the disposition of territorial forces were deemed necessary as ARVN, the remaining US units, and the present territorial forces continue to provide a security climate in the populated areas favorable for pacification. The 1st Brigade, 5th Infantry Division (Mech) will continue to provide the required fire support and reaction forces necessary for Combined Action Platoon operations.

Initial steps were taken in the relocation of Combined Action Platoons in Hai Lang and Trieu Phong District in order to take advantage of progress made in the pacification of Quang Tri Province and the minor redistribution of territorial forces within those districts.

The aftermath of typhoon Boris, along with a follow up tropical storm had a serious effect on the conduct of operations throughout the province. Severe flooding and high winds caused large scale damage to homes and public buildings. Resupply of CAPS isolated by the high waters was of primary concern. Boats that were acquired prior to the monsoon season were put into service as was helicopter support which was heretofore not required.

As the storms subsided the CAP Marines assisted the people, Popular Force (PF) soldiers, Popular Self Defense Forces (PSEDF) and Revolutionary Development Cadre within their tactical areas of coordination to overcome the hardships imposed by the storms.

The level of Viet Cong activity remained unchanged during the month in the populated areas of the province. VCI activity remained at a relatively low level. Although, there were numerous reports of rice collection, propaganda and terrorist activities, very few of these reports were confirmed. With the coming of the Quang Tri rice harvest, operations were conducted within CAP tactical areas of coordination to deny the enemy access to the harvested crops. Ambushes were set along lines of communication and suspected infiltration routes and artillery concentrations were planned on likely assembly areas. The key of rice denial remains to be the protection of the rice once it has been harvested and bagged for transportation to a government warehouse. The reluctance of some villagers to trust the Government storage system and family ties with the VC make the execution of an effective rice denial program a difficult proposition. The security provided by the CAPs with the primary mission of hamlet security has been an effective tool in the overall rice denial plan.

Night operations continued to dominate the tactical scene during the month. The requirement for all except three CAP Marines to be on patrol or ambush during hours of darkness was modified slightly to a requirement for a night command post with active listening posts and one roving ambush patrol which has several preplanned ambush sites along its route. The last ambush site which is occupied two hours prior to dawn is located within easy reaction distance of the command post. The movement of the patrol acts as a stimulant to the patrol and increases their ability to remain alert. Night tactical activities are required for all CAPs from

Popular Force participation in activities remained adequate throughout the month, although, their desire for a large compact command post remains a deterrent to more effective night activities. Weekly reports from the CACO Commanders continue to provide the S&S the statistical and qualitative evaluations of the CAPs. This material is organized at the District level in order to provide meaningful comparisons, identify performance trends, and isolate problem areas.

The training of the Popular Force soldier continued to receive major emphasis during the month. The five phase marksmanship training course for each CAP continued to receive maximum command attention but was hampered by adverse weather conditions experienced during the month.

CACO 4-3 provided formal instruction for each CAP covering procedures for calling artillery missions, illumination and high explosive adjustments, distance estimation and crater analysis. The instruction was given by an artillery forward observer who travelled throughout the CAP TAOCs spending the night in the field and conducting practical application periods.

The Group PSYOPS program continued to complement the tactical situation in Quang Tri. The employment of the Revolutionary Development Cultural Drama Team, the 3rd Marine Division sound and movie van and back pack loud speaker teams continued to be effective methods of establishing the Government of Vietnam presence in contested hamlets. Face to face contact with villagers continues to be the most effective method for leaflet and poster distribution. The employment of village and hamlet officials to accompany the PSYOPS patrols assist in establishing an image of governmental involvement in the pacification effort. Themes stressed during the month were the Voluntary Information Program, Chieu Hoi, sanitation and enhancement of the GVN image.

CACO 4-1 has initiated a program of weekly dinners honoring the hamlet elders, hamlet chiefs, and village chief. This event is rotated throughout the CACOs five CAPs and has received an enthusiastic response from the villagers. The food is prepared at CACO headquarters by local Vietnamese and consists of rice and chicken. Attendance has been excellent and the relationship between the villagers, CAP Marines and PF has been greatly enhanced.

Results of the PSYOPS effort for the month were:

CAC 4-1 operated in Dong Ha and Mai Linh Districts throughout the month with the Command Post located at the Dong Ha District Headquarters compound. The sub-station at Mai Linh District Headquarters compound continued as a communications link with the CAP and also provided liaison with the District Senior Advisor. Significant contacts with the enemy during the month include the following events.

052240H Aug 69. Under illumination, an ambush activity from CAP 4-1-2 sighted two armed VC in a restricted area at YD 346479. Two FFs fired 34 rounds of 5.56 ammunition at the enemy who disappeared into the under brush. As the ambush deployed to sweep the contact site, thirty rounds of incoming AK-47 and carbine fire were received from a range of 100 meters. 150 rounds of 5.56 were returned as the activity maneuvered to exploit the contact. The sweep continued without incident and the activity re-established their ambush at a new site.

100200H Aug 69. A patrol from CAP 4-1-4, investigating unusual noises, observed a culvert on Highway 1 being blown with demolitions. Three enemy were departing the scene at 200 meters range as the patrol illuminated with pop-ups. The patrol fired 10 M-79 and 150 S/A rounds and received 40 rounds of incoming AK-47 fire. The CAPs CP displaced to assist in the sweep but contact could not be re-established. Artillery was fired on the suspected escape routes.

112340H Aug 69. An element from CAP 4-1-5, while on an ambush, sighted rocket launchings at 5600 mills from YD 22614 at an estimated distance of 4,000 to 5,000 meters. Another ambush activity from CAP 4-1-4 sighted rocket launchings at 5600 mills from YD 226623 at the same time, the sightings were reported to Dong Ha Base Defense.

140900H Aug 69. A patrol from CAP 4-1-5 located 352 National Liberation Front propaganda leaflets at YD 225617 which had been distributed by an unknown size enemy force on the night of 13-14 August 1969. Samples of the leaflets were forwarded to III MAF.

141710H Sept 69. Cpl A. A. GALLINATI, 2471619, received a minor eye injury (non-hostile) while attempting to set up a trip flare in the night CP location at YD 218609. He was medevaced to Delta Med where he was treated and returned to the CACO 4-1 CP. His condition was reevaluated and at approximately 151000H Sept 69 and he was returned to full duty.

251030H Sept 69. The night CP of CAP 4-1-2 heard a loud Vietnamese civilian radio in their TAOC. The Kit Carson Scout stated that it was a VC broadcast stating that "VC were to come and kill all the Americans." A patrol was dispatched to YD 345381. The Marines confiscated the civilian radio and searched the surrounding area. There were no further incidents.

260015H Sept 69. A four man ambush from CAP 4-1-1 sighted approximately 50 VC moving at the edge of a road in Nhu Le village YD 312476. The ambush opened fire with two LAWS and two M-79 rounds and withdrew to the west along the edge of the village. Illumination was requested at 0017H and fired at 0025H. A reaction force from FSB Sharon was requested at 0030H to move to a location east of village. The area was swept finding many footprints, but there was no further contact. H.E. mission was called on YD 310470 to cut off possible withdrawal routes. Mission was not fired because of friendly units in the area.

260405H Sept 69. An ambush from CAP 4-1-3 sighted two boats, one with three Vietnamese and one with two Vietnamese, proceeding down river. illumination was fired and the boats were directed to shore for questioning. The Vietnamese were detained and sent to Dong Ha District Headquarters for questioning.

302330H Sept 69. An ambush from CAP 4-1-1 at YD 31803 heard movement at 2130H but could not identify the noises due to heavy rain. Later at 2330H one Marine while changing the location of a claymore was the target of one VC grenade. The Marine returned fire with his M-16 and one grenade. The ambush threw grenades at the suspected positions but the enemy broke contact. A sweep was conducted with no further activity. UNCLASSIFIED

CACO 4-2 continued operations in Hai Lang District with the Company Headquarters located at the District Headquarters compound. Significant contacts with the enemy are as follows:

072240H Sept 69. An ambush activity from CAP 4-2-4 sighted three to five enemy moving away from the kill zone and took them under fire at 70 meters range with 60 rounds of 5.56. Nine incoming AK-47 rounds were received by the ambush as the VC moved to the north west where the fleeing figures were fired upon by a second CAP 4-2-4 ambush at YD 423533. The VC returned 21 rounds of AK-47 fire and disappeared in the river to the south. A sweep of the area under responsive artillery illumination revealed one drag mark and blood trail terminating in the river at YD 423530.

082340H Sept 69. A listening post for the night CP of CAP 4-2-4 observed two to three VC moving toward the night CP located at YD 429527. The LP fired 40 rounds S/A and 8 M-79 rounds receiving three incoming grenades and 20 rounds of AK-47 fire as the enemy broke contact. The CP maneuvered under responsive artillery illumination to pursue the contact. The enemy fled, however, three newly constructed bunkers and a single blood trail were located near the contact site. One USMC received minor wounds as a result of the contact.

112100H Sept 69. The Combined Action Company 4-2 CP YD 416481 received approximately 15 rounds of small arms fire from an estimated M-16. All rounds impacted outside the perimeter wire. An illumination mission was called and no further activity was reported. The fire originated in the vicinity of YD 420470.

112210H Sept 69. While on an ambush patrol, CAP 4-2-1 investigated noises in their vicinity. The point Marine initiated action with small arms fire after sighting an armed VC. Fire was exchanged resulting in the wounding of the Marine. Illumination was called and a search conducted. No trace of the enemy was found.

120200H Sept 69. A patrol from CAP 4-2-3, while moving to their ambush site, observed one VC at YD 425546. The patrol initiated small arms fire. The VC escaped without returning fire.

121015H Sept 69. A newly constructed bunker was located at YD 470523 by a daylight patrol from CAP 4-2-1. The bunker was destroyed by the Marines. This bunker was located near the contact site of 112210H Sept 69.

122115H Sept 69. While in an ambush position at YD 432554, a patrol from CAP 4-2-3 sighted a figure with a light moving into the ambush position. The ambush initiated fire with small arms. The enemy returned approximately 15 to 20 rounds of small arms fire and broke contact. A search was conducted under illumination but contact could not be reestablished.

152235H Sept 69. The FFs on an ambush set by 4-2-3 observed movement approximately 100 to 150 meters from the ambush site at YD 428557. Friendly fire was initiated and illumination was called. A sweep of the area was conducted without further contact.

192215H Sept 69. A listening post from CAP 4-2-4's CP observed two VC at approximately 50 meters and took them under fire at YD 429528. The enemy returned three rounds S/A fire and withdrew. An illumination mission was called and a sweep of the area uncovered no trace of the enemy.

232120H Sept 69. A PF member from an ambush from CAP 4-2-1 observed one VC moving approximately 100 meters from the ambush site at YD 472525. The PF fired three rounds and the enemy fled without returning fire. Illumination was fired and a sweep of the area was made without further contact.

CACO 4-3 continued operations in Trieu Phong District with the Command Post located in the District compound. Significant contacts with the enemy included:

091030H Sept 69. Acting on intelligence provided by a villager, CAP 4-3-5 participated in a search operation for a VC known to be in a bunker west of their TAOC at YB370553. One VC named Le Phuc Luc was killed by a grenade at the bunker location. There was no VC unit identification. One M-16 rifle with three magazines and one NVA sub machine gun type 50 with one magazine were found in the bunker.

201530H Sept 69. CAP 4-3-3 and PF Platoon #24 provided security for Vietnamese National Police and IF Platoon #86 while they conducted a search in reaction to intelligence for VCI flooded out of bunkers. One female VCS was captured and taken to Trieu Phong District Headquarters for interrogation.

220100H Sept 69. A patrol from CAP 4-3-5 sighted Vietnamese crossing a trail in a populated area at YL 380562. Illumination was fired and a search was conducted. One Vietnamese female without an ID card was detained and sent to Trieu Phong District Headquarters for interrogation.

271745H Sept 69. A Marine from CAP 4-3-2, while moving near the CP at YD 357616, saw unidentified foot prints in the mud. Investigating the tracks he discovered a VC grenade in a C ration can. He picked up the device and attempted to throw it. As he ran for cover the device exploded causing fragment wounds to his right ankle and left buttocks. A medevac was called and the Marine was taken to 3rd Med for treatment.

## MEDICAL

The progress of MED-CAPS in the 4th CAG area has continued to increase during the month of August. In the month of August this command treated 7,360 patients, during the month of September this number was increased by 3,393 making a total of 10,753 patients treated.

At the present time there is one Hospital Corpsman assigned to each CAP and one HM2 assigned to each CACO as a supervisor of the lower rated personnel. It is felt that the Senior Corpsman have contributed a great deal to the increase in the patient work load as a result of their constant supervision and assistance in setting up regular working hours, and acting as a supply link between the CACOs and 4th CAG Headquarters.

This CAG is anticipating the discontinuation of DENT-CAPS due to a decrease in patients being treated. It has been determined from past DENT-CAPS that the majority (90%) of all treatments have been of a medical nature, therefore the DENT-CAPS are being replaced by a MED-CAP type operation with the assistance of a medical officer from the 3rd MEDICAL BATTALION. There were 7 DENT-CAPS held and 81 patients treated during the month of September.

A corpsman meeting was held on the 5th of September 1969, and various problems were discussed, among them was the potential sanitation problem involving the Vietnamese Food Service workers. Physical examinations and other required procedures were scheduled and conducted by the Preventative Medicine Section of the 3rd Medical Battalion to minimize this problem area.

At the present time the 4th CAG has five dispensaries operating in Quang Tri Province and three additional dispensaries in the planning stages, there are also two Hospitals utilized by Naval Medical Personnel to conduct MED-CAPS.

Treatment and patients seen at Headquarters Aid Station numbered 118. This was a decrease over last month due to treatments rendered at the CAP and CACO level. The majority of patients treated fell in dental and dermatology areas. A break down and classification of patients treated at Headquarters Aid Station is as follows:

a. Upper Respiratory Infection -----	4
b. Skin Diseases -----	13
c. Diarrhea -----	3
d. Dysentery -----	2
e. Fever of Undetermined Origin -----	7
f. Injuries: Hostile -----	2

## LOGISTICS

During the month of September the Supply Section of 4th CAG focused its attention primarily on pending FSAO inspection which is scheduled for 6 October 1969, in addition to providing all of the necessary support required by the CAGO's and sections. The S-4 section had its abilities greatly enhanced by the addition of a Gunnery Sergeant 0441 who will assume the duties of S-4 Chief.

In preparation for the FSAO inspection all supply functions and procedures were reviewed with a critical eye to determine if and where problem areas existed. The review pointed out several areas which deserved attention, one of which was the warehouse. Work was begun in August to establish sound warehousing procedures and this was completed in September. Included in the improvements to the warehouse was the construction of two-hundred 4.2 cubic foot mount-out boxes to be used in the issue room. These boxes were numbered and marked in accordance with current directives, and a locator system established. Also a medium storage warehouse was established utilizing sixteen cubic foot boxes. Presently, a manifest is being prepared to facilitate movement of the group if the necessity should arise.

Other preparatory measures included a complete inventory, a requisition reconciliation, preparation of serialized weapon records, updating of accounting and receiving procedures and a review of the quarterly check list of directives and the subsequent requisitioning where required. The baggage room also received attention during September. Bins and shelves were constructed, and a locator system established to facilitate the storage of equipment.

With the departure of the Third Marine Division and the continuing necessity for maintaining boats and motors for use in resupply during the monsoon seasons, it was requested of Division G-4 that Third Shore Battalion be authorized to invoice to this command the needed boats and motors. This request was approved, and subsequently four boats and six 35 horsepower outboard motors were invoiced to this command. It is noteworthy to add that maintenance of this equipment will become difficult with the departure of Third Shore Party Battalion. During September eight more Marines were schooled in operation and maintenance of outboard motors.

During September the generator situation of this command continued to be critical. This command continues to use a 69KW Generator on temporary loan from a local Naval Construction Battalion. Repairs have not yet been completed on a PU 482 Generator that was deadlined in January of this year and evacuated to Public Works, Yokosuka, Japan, via the Third Force Service Regiment. On 4 September this command received a message from CG III MAF stating that our pending requisition for a PU 482 Generator was no longer valid, and that we would be force fed a PU 718 Generator from MC100. To date the generator has not been received.

September saw the completion of the Group Messhall. It was formally opened on 27 September by the Commanding Officer. The messhall now serves three meals a day to approximately fifty people. Also construction was initiated on a maintenance building for the Motor Pool. Included in this facility will be a covered work area and a parts and tool room. Construction was begun and completed on an 8' x 16' bunker in the vicinity of the enlisted barracks. It will accommodate 30-35 persons, and conforms to current bunker construction standards. A request continues to be valid for eight 8' x 8' prefabricated bunkers from the Third Marine Division to fulfill all our bunker needs. To date twelve of the twenty-five loads of gravel requested by this command have been received to aid in erosion control during the monsoon season.

Construction usually takes about a week, and this makes the projects' implementation easier since labor is hard to retain on a self-help volunteer basis for longer periods of time. CARE carpentry kits are distributed during construction to the villagers. Use and beneficial results are immediate, CAP 4-2-3 treated 440 patients during the first week of operation with the CAP corpsman and local hamlet nurse working together. After completion of the dispensary, the villagers used the tools and tin along with local materials to rebuild their school. CARE school kits were then distributed to the teacher along with school supplies, making the school a working reality after its previous loss earlier in the month during a severe tropical storm.
