Subj: Meritorious Mast, case of Corporal Maximiliano V. OCANAS
2037313/0141, USMC

Ref: (a) MCO P5000.3, MARCORPERSMAN

1. Purpose. To promulgate the results of Meritorious Mast held for subject member by the Commanding Officer this date.

2. Mast. Corporal OCANAS, I take great pleasure in recognizing your outstanding performance of duty as an administrative clerk, Headquarters Company, 4th Marines. Your devotion to duty, as the Unit Diary/Service Record Book Clerk is particularly noteworthy. You have been a tireless worker who has spent many hours in excess of what is expected of you in carrying out the mission of this command. You have worked continuously under arduous conditions, always maintaining high morale which has served as an example for those who serve with you. The increase in Headquarters Company personnel from 160 to 275 has been a challenge which you have reacted to in a most enthusiastic and professional manner. Problems of personnel, transfers and attachments have faced the unit since arrival in Viet Nam; however through perseverance, long duty hours and devotion to duty, you have performed a task greater than normally expected of a Corporal. Your performance of duty during these difficult times is in keeping with the high standards and traditions of the Marine Corps. Your Commanding Officer is directed to make this Meritorious Mast a part of your official service record.

3. Action. The Commanding Officer, Headquarters Company, 4th Marines is hereby directed to make appropriate entry in the service record book of Corporal Maximiliano V. OCANAS in accordance with reference (a).

Subj: Personal Photography

Ref: (a) FOR/NCC/SA I CORPS BUL 1700

1. Purpose. To emphasize security hazards involved in personal photography and set forth guidance and restrictions on the taking of personal photographs in South Vietnam, in compliance with reference (a).
2. Background. A check of local civilian photo shops reveals that many personally taken photographs contain information which could be of considerable value to the Viet Cong. It must be assumed that the Viet Cong have the capability to acquire copies of locally processed film. As a result, such photographs constitute a security threat to friendly military installations and personnel.

3. Discussion

- a. Personal photography is a source of considerable enjoyment to a large number of personnel; it is not the intent of this bulletin to curtail all personal photography.
- b. Nevertheless, personal photography must be controlled to insure that the enemy is denied valuable information.

4. Areas Restricted to Photography

- a. Personal photography of critical areas is prohibited. For purposes of this bulletin the following areas are designated critical areas:

(1) Major headquarters areas.

(a) Includes regiment and battalion CP's.

(2) Supply installations.

(3) Communications sites.

(5) Port facilities.

(6) Such other areas as are designated by subordinate commanders.

b. Personal photography of military installations from aircraft is prohibited.

c. Personal photographs of defensive positions will not be taken when such positions can be oriented with the surrounding terrain.

5. Action. Commanders will take appropriate action to control personal photography to include but not limited to:

a. The indoctrination of personnel in the security dangers of indiscriminate photography and restrictions on personal photography.

b. The designation of critical areas in addition to those listed in paragraph 4a above.

Subj: Organization of Provisional Company

Encl: (1) Composition Of Provisional Company
(2) Concept of Employment

1. Purpose. To provide for the organization of a Provisional Company formed from Headquarters Company and attached units.

2. Background

a. Due to the mission assigned to this Regiment and the fact that there are only two battalions assigned, it is not possible to maintain a regimental reserve of larger than a company. Whenever two companies or more of a battalion are committed to an operation for a duration that extends beyond the daylight hours the battalion must be augmented by additional forces in order to continue to man assigned defense positions.

b. If the Regiment is attacked to the extent that it is necessary to commit the regimental reserve it will be necessary to reconstitute the reserve. It is unlikely that forces will be available from either of the battalions; therefore, the Regiment must be prepared to reconstitute a reserve from other units of the Regiment.

c. In view of the above, a Provisional Company will be formed to augment either battalion or to reconstitute the Regimental Reserve as required. The composition of the Provisional Company is shown in enclosure (1). Enclosure (2) sets forth the concept of employment of this Unit.

3. Action

a. Commanding Officer, Headquarters Company

(1) Provide personnel for the Provisional Company as indicated in enclosure (1).

(2) When directed, assume command of the Provisional Company.

RegtO 5400.1

(3) Conduct training and reaction drills as necessary to ensure that the Provisional Company is capable of carrying out assigned missions.

c. Commanding Officers, attached units

(1) Provide personnel for the Provisional Company as indicated in enclosure (1).

4. Administrative Instructions. The Provisional Company will receive its logistic support from the battalion it is augmenting. In the event the company is utilized as a counterattack force, logistic support will be provided by Regimental Headquarters Company.

Subj: Processing Civilian Casualties

Ref: (a) ADC msg 150140Z Nov65 (NOTAL)

1. Purpose. To promulgate procedures for evacuating civilian casualties.

2. Information. In the past, numerous problems in identification and disposition of civilian casualties have been created for Company "B", 3d Medical Battalion, by the indiscriminate and uncontrolled forwarding of injured Vietnamese to them by units in the field. To provide for control in the evacuation and handling of such casualties, reference (a) was published.

3. Action. In implementation of reference (a) the following procedures apply:

a. Civilian casualties normally will be evacuated by any means at hand to Vietnamese medical facilities for treatment. If delivery to a Vietnamese hospital or dispensary is impractical, or life-saving emergency treatment is required, then the casualty may be delivered to Company "B", 3d Medical Battalion, provided the instructions set forth below are followed.

b. The casualty will be tagged with date, name, and home hamlet or village in addition to medical information by the unit initiating the evacuation.

c. As soon as practical after evacuation of a civilian, the unit that initiated the evacuation will contact Company "B", 3d Medical Battalion to determine the patient's status and ensure that all necessary information is available to enable Company "B", 3d Medical Battalion to properly dispose of the individual.

d. The unit will also ensure that the proper civil authority (normally the district chief) is notified of the location and status of the casualty.

RegtO 5083.1
6 Dec 1965

e. When the casualty has recovered sufficiently to be moved (or has died), the unit will be notified and then has the responsibility to arrange for returning the patient (corpse) to his home village. If the village is located to the north of Ly Tin District Headquarters, or in some other area not considered secure for vehicular travel, then arrangements will be made for relatives to receive the patient or remains at the District Headquarters.

f. Surface transportation for returning patients or remains will be arranged through FLSU #1.

g. Helicopter transportation to inaccessible areas for persons being returned will be arranged by the unit which initiated the initial evacuation.
