NARRATIVE SUMMARY

The Battelion participated in Scotland II primarily during the month of June. On 3 June the Battelion was helo lifted from Operation LANCASTER II OA into Scotland II OA. The normal mission of the Battelion was to seize and defend Arty Fire Bases, with companies conducting search and destroy patrols along with screening activities around the fire bases.

On 3 June, the Battalion CP, "A" and "B" companies were helo lifted into LZ ROBIN with "C" Company going in LZ LOOM on the 4th, followed by "D" Company on the 5th. The Battalion, being CCON to First Marines, was chopped back to Fourth Marines O51800H. About O600H on 6 June, "C" and "D" Companies came under heavy attack by an estimated 150 NVA, using a/w, s/a and RPG fires and chicom grenades. The two companies repelled same with s/a, a/w, 60mm and 81mm mortars arty, fixed wing and UH-IE gunships, inflicting heavy casualties upon the NVA. Light contact continued throughout the day, with s/a, 82mm mortars and 130mm arty fire being used against the Battalion. Fixed wing strikes and arty were used in suppressing these fires. An extract of two platoons of "C" Company was made about 1400H, and the last helo crashed and burned as a result of heavy enemy .50 cal fire. The helo was in such a position that it could not be reached at that time by friendlies. The remaining forces of "C" and "D" companies were extracted later in the afternoon.

On 7 June, the Battalion CP, "A" and "B" Companies plus "D" Company, 1/3, were lifted from LZ ROBIN to Hill 515 (906279). The Battalion constructed a fire support base at that location and defended same until 18 June. During that time numerous company patrols around the base destroyed approximately 300 bunkers and several hundred meters of a road that was 5 to 8 meters wide. Also destroyed were several acres of corn, cucumber, tobacco, squash, tomatoes, potatoes and okra.

On 11 June, at approximately 0215H, an estimated company of NVA attacked LZ TORCH, using s/a, RPG, satchel charges and chicom grenades. Assault was oriented toward "C" Btry, 1/12 and "A" Company, 1/4. Repelled assault with s/a, e/w, M-26 grenades, M-79, 60mm and 81mm mortars and arty, both direct and indirect lire. A flare ship provided illumination. Friendly casualties resulting from action: "C" Btry - 4 KIA/17 WIA; Co "A" = 10 KIA/5 WIA; Co "D", 1/3 - 1 WIA.

About 0830H the same day, received 50 to 75 rds of 82mm mortar. Silenced 82mm tube with fixed wing and 81mm mortar. Capt Mannilla, "A" Company Commander, was hit in the back and shoulder and was med-evaced. Additional casualties due to this incoming was 17 WIA. At 2100H, "A" Company had movement in front of its lines. Fired 60mm and 81mm mortar. Lt Jones, "A" Company Commander, was wounded in the leg by sniper fire and was med-evaced.

At 150830H, Company "D", 1/3, was chopped from 1/4.

On 18 June the Battelion CP, "B" and "D" Companies moved to LZ MIKE. "A" Company was moved to LZ STUD completing evacuation of LZ TORCH.

From 19 to 30 June, the Battalion CP was located at LZ MKE, with two companies

in the perimeter and two companies screening south of Rt #9.

At 222120H, Co "C" ambush observed 5-6 NVA at 928609. Fired a/w, s/a, 60mm and 81mm mortar, with excellent coverage of target. Search of area next day revealed blood and marks that indicated bodies had been dragged off.

At 251330H, "D" Co patrol found remains of a downed C-123 with 15 bodies. Grave Registration assistance was used in recovery. Also found were 30 M-16 rifles, 3 SRB's and other equipment including helmets and cartridge belts.

"A" Company, at 301400H, made contact with 4-5 NVA. Fired two rds M-16, observing one NVA fall. Pulled back and called arty mission. One NVA KIA confirmed at coordinate 028439.

Vas generally well constructed with even surface. Overhead trees had limbs cut to provide possible vehicle passage. Found comm wire along road. Trails leading off road led to what appeared to be transit areas. These areas were well policed and provided excellent coverage from aerial observers. 8. Logistics.

a. Supply.

- (1) Class I. All Class I was drawn at LZ STUD in support of operations. Hot sandwiches were prepared at Camp Carroll, brought to LZ STUD by vehicle, and sent to troops by helicopter. On 26 June the Battalion Mess commenced operation at LZ STUD and "R" rations were served three times daily. One hot meal per day was prepared and sent to LZ MIKE from LZ STUD.
- (?) Class II. Battelion Supply remained at Dong Ha with FLSG-B as the source of supply. Sherrages in the following items were again experienced during this period:

Mask, Protective, M-17 medium size
Body Armor, upper torso, all sizes
Utilities, shirt (jungle) and trousers (jungle)
GP tents

5-gallon water cans were a constant problem due to combat loss and, at times, being taken by helicopters to the wrong LZ's. Plastic water bags were used and proved very satisfactory in emergencies for a one-time resupply only.

- (3) Class III. Class III was adequate at IZ STUD
- (4) Class IV. Class IV was adoquate at IS STUD
- (5) Class V. Class V was dequate at LZ STWD with the exception of one day when the anno dump was hit by enemy fire. At that time there was a shortage of 81 mortar, 60 m mortar and pyrotechnics of all types.

b. Trensportation.

(1) Organic. During this month the battalion received its new M51Al's. These vehicles were used for administrative runs to Dong Ha and for carrying cargo within 12 STUD.

(2) Support.

(a) Vehicular. Support was preceived from 1st, 3rd, and 9th Motor Transport Battalion at various times during the month. At LZ STUD there were no Class II Supplies/medical supplies available and transportation of these supplies to LZ STUD from Dong Ha along with mail and Class VI was difficult to accomplish. Division Motor Transport provided transportation (when available) and the FLSG-B had to approve the vehicle's joining its convoy. On several occasions joining of the convoy from Dong Ha to LZ STUD was disapproved due to the large size of each convoy.

c. Engineer Support. Engineer support teams provided the battalion with demolitions capabilities.

9. Civil Affairs.

There were no Civil Affairs activities conducted during this reporting period. Staff Sergeant D.A. WEARHURHOLTH, 1463029, USMD, attended the two-day Personal Response Course at Quang Tri.

10. Psychological Warfare. All psychological warfare aperations were conducted by higher echelon.

11. Personnel and Administration.

e. General. During the reporting period, the Battalion's administration section was located at Dong Ha. At the close of the reporting period, each rifle company averaged 38 men below manning level, and 124 were in a non-effective status. This battalion is currently 8 officers below M/L in the 0302 MOS and still has a critical shortage of an 0402.

During the month 73 Lance Corporals were promoted to Corporal, 131 Privates First Class were promoted to Lance Corporal and 6 Privates were promoted to Privates First Class. 13 Corporals were promoted to Sergeant and 2 Corporals were meritoriously promoted to Sergeant.

12. Intelligence.

a. Energy.

(1) 1st Bn, 4th Marines started on an operation in conjunction with Lancaster II on 4 June 1968. Fire Base ROBIN was established with little difficulty and contact in the immediate area was with small units. The enemy showed his capability of fighting a delayed action and his ability to use the high canopy of the jungle. Charlie and Delta Companies established LZ LOOM and were brought under heavy ground attack by an estimated Regt of the 304th Division. Again the enemy showed his ability to delay and counter with swift offensive actions where the terrain particularly favors such tactics. After successfully establishing Fire Base ROBIN, 1/4 moved to establish Fire Base TORCH in the vicinity of Hill 515. The road is wide enough for vehicle travel; however, evidence of this was noted. The road appeared to have been cut in place by power tools or extensive man power expertly done by entrenching tools. The trees appeared to have been cut by power saw and large rocks showed evidence of being blown by demolitions. Any holes in the road had been filled by rocks, and large logs were added to give the drainage effect reeded for an all-weather road. Treils leading off the road led to transit cooking area. These transit areas were approximately 200 meters apart and appeared to be used by the NVA working on the road. The bridge found at XD 916296 was constructed to handle vehicle

Workdown

traffic. "B" end "D" Compenies found an agriculture field et XD 901267 and at XD 925723 containing corn, potatoes, squash, okre, tobacco and tomatoes. The field was approximately 75x300 meters in area, and appeared to be cultivated by transit area NVA and probably was used as a readily available food supply.

At 0215H, 11 June, two rifle shots were heard. It was at this time that a Sapper team hit, putting 1/4 under a two-front attack. The Sapper team was heavily camouflaged and exhibited the capability of massing and delaying, coupled with swift offensive actions. The offensive action of the Sapper team failed. However, they combined their failure with heavy mortar attacks. On 19 June we established LZ MKE for a future fire base. The companies were employed for extensive matrolling.

- b. Weather. The weather was generally clear to partly cloudy for the month of June. Visibility was reduced periodically due to intermittent afternoon rain storms. Lunar illumination was 80 to 90% for the first two weeks of June, declining slowly towards the last two weeks of June.
