				<u>Summary of Periods Action</u>	
				There was no enemy contact in the AO during the day. All companies continued to defend their positions and conducted patrolling operations from them. Company positions remained the same except that Company "A" continued their sweep towards Hill 838, holding up and establishing an LZ at checkpoint 8 (KD 773594). Three spot reports were submitted to the Regiment. Companies "A" and "D" discovered an NVA pack and some trails, old bunkers and a cove entrance. Details in spot reports #88, 89, and 90.	
				<u>Plans for 15 June</u>	
				Company "A" will temporarily terminate their sweep toward hill 838 and conduct extensive patrolling and searching from their present position. All other companies will continue to defend, and conduct patrolling from, their present positions.

				<u>Summary of Period's Action</u> Company "A" arrived at Hill 838 and will establish a Company Patrol Base in that area. They had negative contact. Companies "B", "C", and "D" continued patrolling and defense of their positions and had negative contact. In a late report Company "D" spotted movement at 162130H on a hill to their southwest (FSB Alpine) and called artillery fire in on it, causing some secondary explosions and triggering what appeared to be trip flares. Details on Spot report #92. At 1310 Company "B" located at LZ Cata-pult, received 8-10 rounds of 82MM mortar fire which fell short of the target. Details on spot Report #93. <u>Plans for 18 June</u> Based on contact experienced by 2/4 to our East over the past few days, Company "B" will launch two three day platoon patrols, and Company "C" will send one three day platoon size patrol to the edge of our eastern boundary. They will concentrate on setting up ambushes along the ridge line and Cam Lo River Valley leading out of 2/4's AO. Company "A" will commence extensive patrolling operations from Hill 838. Company "D" will continue patrolling in the southern Lang Ho Valley.

				Summary of Period's Action		
				Company "A" conducted patrolling operations from hill 838 with negative contact. They are presently searching for another company position in the general area, since they would be unable to build an internal LZ on hill 838, without a major engineering effort.		
				Company "D" dispatched a platoon to the old FSB Alpine to recon it for use as a Company patrol base. The platoon occupied the hill without incident and will spend the night there. They found an old AK-47 and some miscellaneous gear on the hill. Details in spot report #94		
				The two 3-day patrols launched by Company "B" arrived at the battalions eastern boundary and began choosing ambush sights. They had no contact.		
				Company "C" had no contact. In addition to defending FSB Neville they have sent a 3-day patrol to our eastern boundary to the south of those dispatched by Company "B". They will engage in ambush and patrolling activities in conjunction with Company "B". They had no contact.		
				Plans For 19 June		
				Company "A" will continue their patrolling activities from hill 838 and try to locate a more suitable area for an LZ.		
				Companies "B" and "C" will defend their present positions and continue ambushing and patrolling activity along the eastern boundary.		
				Company "D" will move to the old FSB Alpine (XD 755531)
