ALFA - 200800H to 210800H

BRAVO - At 1055H Co F (-) Patrol Price received 3 rounds small arms fire from vic BT 422038. Observed 2 VC with carbines approx 50 meters away. VC fled into thick brush and escaped pursuing fire.

At 1315 Patrol Price discovered a booby trap at the entrance to Ky Long (2) BT 433041. Booby trap was located in the center of a narrow by-pass on the main trail leading into the village. A small hole was dug approx. 1 ft. deep and 1 1/2 ft. square. A loose trip wire was secured to one side of the hole and extended across the hole to a pull string frag grenade which was covered with bamboo sticks and twigs which were covered with dirt. If someone were to step into the hole they would trip the wire and set off the grenade. The booby trap was discovered because the earth over the hole was a slightly different shade from the rest of the trail. A sharpened bamboo stick was pointing directly at the booby trap so that any person leaving the village would see it.

At 1330 Patrol Price observed no males over the age of 9 in Ky Long (2). Villagers very unfriendly. There were many anti-American and anti-government signs throughout the village.

At 1455 Patrol Price received small arms fire from vic BT 435049. Observed 2 VC with carbines.

At 2005 the 4.2 area vic BT 519043 received incoming grenade. One man injured by concussion.
