COMMAND CHRONOLOGY 5TH MARINES

1. Organizational Data

- a. Designation & Location. 5th Marine Regt. Chu Lai, RVN.
- b. Period Covered. 1 September through 30 September 1966
- c. Command & Staff Officers
 - (1) CO Colonel C. F. WIDDECKE
 - (2) XO Lt. Col. C. W. AIRHEART
 - (3) S-1 Second Lt. R. G. PONTILLAS
 - (4) S-2 Major B. R. CUMMINS
 - (5) S-3 Major G. HUBBARD
 - (6) S-4 Capt. L. E. JOHNSON
 - (7) Civil Affairs Officer Capt. G. R. FRANK
 - (8) ALO Major N. F. SCHNIPPEL
 - (9) Comm Officer Major C. R. BRINDELL
 - (10) Chaplain Lt. Comdr. F. B. BAGGOT (USN)
 - (11) Medical Officer Lt. M. H. DAVIS (MC) (USN)
 - (12) CO Hq Co 5th Marines Capt. G. K. YOUNG

2. Commanders Narrative Summary

a. Organization. During the month of September the 5th Marines operated with three Battalions, the 1st, 2nd and 3rd Battalions of the 5th Marine Regiment. On 30 September 2nd Battalion (-) (Rein) was chopped opcon 3rd Mar Div. Tab 1.

b. Summary of Significant Events. OPERATION NAPA was conducted with the 1st, 2nd and 3rd Battalions of the Regiment in conjunction with ARVN forces from 5 September to 15 September 1966. Tab 2 is the after Action Report for OPERATION NAPA. On 17 September 1st Mar Div issued a directive concerning the planning of Operation Monterey. The planning directive from Division was issued to 5th Marines on 17 September. Tab 3. Operation Monterey commenced on 290630H and was terminated 300600H. The short time involved resulted from the requirement to chop the 2nd Battalion, 5th Marines to 3rd Marine Division. Golden Fleece 5-1 was conducted from 15th to 20th in support of the rice harvest. See enclosure (3). TR

c. Personnel and Administration. The regiment experienced a turnover of approximately 651 persons. 233 persons were rotated to CONUS, 108 reassigned to other Division Units, and 418 replacements were received. The average battalion strength is 29 Marine Officers and 1000 enlisted personnel.

d. Intelligence

(1) During this period, the S-2 section continued normal daily intelligence functions of advising, planning, coordinating and supervising the collection, processing, and dissemination of intelligence on insurgent strengths, locations, capabilities and intentions. For OPERATION NAPA, 5-15 September, this section, less two enlisted men remaining at 5th Regiment (Rear), moved to the forward command post at Tam Ky, RVN in order to better provide the commander and subordinate commanders with information, intelligence, counterintelligence resources, interrogator-translator sub-teams, and aerial observation reports of the battle area. On 21 September 1966 Major B. R. CUMMINS assumed the duties as Regimental S-2 Officer, relieving Major P. M. JOHNSTON who was reassigned to 3rd Battalion, 5th Marines. In addition to these primary duties S-2 personnel mans bunkers as part of the Regimental C.P. perimeter defense.

e. Training. 5th Marines continued emphasis on specialist type training. In addition personnel from FLSG B are being trained in patrols ambushes etc through on the job training with the Battalions. This phase normally lasts two weeks and gives the Marine in the "rear" a better look at the "war".

The following subjects were covered:

- (1) Scouting & Patrolling
- (2) Field Fortifications
- (3) Voting Information
- (4) Mines & Booby Traps
- (5) Map Reading
- (6) Schools attended by 5th Marines personnel during September:
 - (a) NCO Leadership (Okinawa)
 - (b) Vietnamese Language (DaNang)
 - (c) Landmine Warfare
 - (d) Comm Security
 - (e) Weapons Repair Course

f. Special Operations: Operation Napa, Tab 3, and Operation Monterey.

g. Combat Air Support. A total of 303 troops and $13\frac{1}{2}$ tons of supplies

were lifted during September.

h. Fire Support

1. 2nd Bn, 11th Marines fired a total of 13,304 rounds in support of 5th Marines during September.

2. Naval gunfire fired 56 rounds in support of 5th Marines during September.

i. Logistics. During the month of September the following logistical functions were performed:

1. On 3 September plans for Operation NAPA were finalized and incorporated into Frag Order 12-66 Tab 2. For further details of Operation NAPA see Tab 2.

2. Efforts for camp improvement were continued. Approximately 2000 feet of board walk was constructed utilizing pallets from FMK. There are no logistical problems at this time that adversely affects the Combat Readiness of this Command. Captain T. H. METZGER reported to the Regiment on 1 September 1966 as Asst. S-4/Regt. Supply Officer.

j. Civil Affairs. Civil Affairs Activity during September consisted of both the pacification effort within the TAOR and participation in Operation Napa.

(1) Operation Napa - during the period 6-15 Sept 66, 5th Marines units assisted in the evacuation of 122 refugees and $3\frac{1}{2}$ tons of rice.

(2) Continued improvement was shown in the pacification progress within the TAOR. During the elections held on 11 Sept 66 for a Constitutional assembly, 93.5% of the registered voters cast their ballots. Units of the 5th Marines continued with assistance to the populace. 8570 Medical Treatments were administered to the people during September. Assistance was rendered in the protection of the rice harvest, in construction of a new Village Market Place, in distributing school kits and playground equipment for school children and in providing assistance to refugees.

k. Medical

(1) During the month of September, the personnel of Regimental Aid Station participated in Operation Napa. The Regimental Aid Station personnel set up an Aid Station in CP area, holding sick call for Headquarters company personnel and emergency treatment. Four Vietnamese nationals were treated, but no MEDCAP was conducted.

(2) The following number of patients ^{W&L} seen at the Regimental Aid Station during the month of September:

a. Headquarters Company	215	66.9 %
b. 5th Marines (other than Hq Co)	52	16.2 %

c. Others	54	16.9%
Total	321	100 %

(3) A total of 1419 dental military patients and 310 MEDCAP patients were treated during the month of September.

1. Chaplin Services

(1) Number of Religious Services

(a) Protestant

Sunday Worship	4	73 attended
Bible Study	4	16 attended
Episcopal Communion	2	10 attended

(b) Catholic

Sunday Mass	4	193 attended
-------------	---	--------------

(2) Catholic coverage for the Regimental Headquarters was made by Chaplain EDWARD KANE, Episcopal Communion was conducted by Chaplain VICTOR KRULAK.

(3) Civic Action

(a) School kits received from the Open Bible Tabernacle of Baltimore, Maryland were given to Vietnamese school children.

(b) The final contribution from the Protestant Chapels in the Chu Lai area was given to the Tin Lanh Church of An Tan for the construction of the Sanctuary. The amount of the contribution was 110,410 Piasters.

6. Supporting Forces

a. Artillery and Naval Gunfire. Artillery support was used effectively and considered, overall, excellent. Although Naval Gunfire was available it was not utilized due to the effectiveness of artillery and the excessive ranges battalions operated at. See enclosures (1) thru (4).

b. Air Support. Planned air support for Operation Napa was in fact used.

(1) Helicopters. Maximum use of helicopters was precluded due to non availability. Six helicopters were used in direct support; four for re-supply and two for medical evacuation. On D-Day armed HUEY's were utilized as a TAC (A) in support of the battalions, thereafter these helicopters remained in condition III. The following is a summary of all helicopter support during Operation Napa.

Sorties Flown	508
Flight Hours	(53)
Cargo	54.6 Tons
Personnel	331
Med Evac	87
Aircraft Hit	10
Aircrew WIA	2

(2) Fixed Wing. Fixed wing aircraft were on station until 1000 on D-Day 5 September 1966 thereafter they reverted to condition III.

(3) Communications. Communications were satisfactory throughout the operation. The PRC 47, 41 and 25 were used for the TAR, TAD and TACP nets. See enclosures (1) - (3).

c. Armour. One platoon of Ontos was used effectively as security for artillery firing positions at the LSA near Tam Ky. A heavy section of this platoon was attached to 3rd Bn 5th Marines on 13 September and the remainder returned to the Chu Lai TAOR on the same date. See enclosures (3) and (5).

d. Recon. See enclosure (6)

e. Combat Service Support. See enclosures (1) thru (3).

DECLASSIFIED

SECRET

7. Intelligence. See Enclosures (1) - (3).

A. Enemy forces expected to be encountered in the area of Operation Napa
were elements of the 21st NVA Regiment, the 50th VC Battalion, the 72nd VC
MF Battalion, and two LF Companies (A/16 and K-52nd).

B. VC Strength and Disposition Found During the Operation:

1. On D-Day, elements of the 1st Battalion, 5th Marines became engaged with an estimated squad size local force unit, with contact lasting for a short period. During the night of D-Day, an element of the battalion was probed for a period of approximately one hour by an estimated 2 main force squads, using small arms, automatic weapons, hand grenades, and 60mm mortar fire. From D+1 to the end of the OPERATION, enemy activity consisted of sporadic fire and one boobytrap incident.

2. 3rd Battalion, 5th Marines made contact with local force VC only. The majority of contacts were from the delivery of small arms fire by small groups of VC from concealed positions in trees and hedgerow lines at ranges up to 500 meters.

C. Viet Cong Units Identified: None

D. Significant Intelligence Gained:

1. The voluntary evacuation of approximately 122 villagers to Tam Ky, indicates a growing discontent with VC forces in the area of operation.

2. Interrogation of villagers in Thon Bon Hamlet (BT 230255) and Qui Xuan Hamlet (BT 213253) indicated the possible presence of one main force VC/NVA company in these areas as late as 0500 on the morning of D-Day. VC were thought to have moved northwest to the vicinity of Phu Thu Hamlet (BT 197253), prior to the arrival of the Marines.

3. Enemy units engaged in probing attacks on the "B" Company position on the night of D-Day were thought to be Main Force units as indicated by uniform and equipment discovered on VC KIA's.

E. Terrain

1. Critical Terrain Features: Hill 26 (BT 209249) and Hill vicinity of (BT 223248).

2. Observation and Fields of Fire: The terrain covered during Operation Napa was predominately rice paddies cultivated in wetland rice. Small areas of high ground populated with small villages were scattered about the paddies. These areas are characterized by thickly vegetated tree lines and hedgerows. Most villages were ringed with a defensive trench system developed by the VC. These trenches offer excellent fields of fire and excellent cover and concealment. High and steep hills in grid squares (BT 1920), (BT 1921), and (BT 2020) are covered with thick low shrubbery. These hills offer excellent observation of the lowland paddies.

F. Civic Action. Civic action conducted during Operation Napa was focused chiefly upon the evacuation of refugees from the Battalion RACR to Tam Ky. Evacuation statistics for the Operation was 122 men, women, and children.

SECRET

8. Mission. Conduct coordinated search and destroy operations with elements of 2nd ARVN Division in the Tam Ky and Phuoc area, area one and two on enclosure (7).

9. Concept of Operation. 5th Marines to conduct ground reconnaissance search and destroy operations in assigned zones of operation. (Areas one and two on enclosure (7)).

10. Execution. Operation Napa originally designated El Paso, was conceived approximately one week prior to instigation. At 031850H 5th Marines received the initiating directive and issued Frag Order 12-66 the same day.

a. On 4 September 1966 all units moved to Tam Ky vicinity BT 292229.

b. 5th September, D-Day 1st and 2nd Battalions moved into area one, 1st Battalion on the north, 2nd Battalion in the south to conduct search and destroy operations. At this time ARVN was conducting operations to the south of area one. See enclosure (7).

c. On September 6 D+1 a recon platoon was inserted on Hill 253, BT 183205.

d. On 7th September, D+2, 1st Battalion and Headquarters Company 5th Marines (-) returned to their Chu Lai TAOR.

e. 8 September, D+3, 3rd Battalion commenced search and destroy operations in area two (enclosure (7)).

f. 11 September, D+6, 3rd Battalion moved to area three to prepare for operations (enclosure (7)).

g. 13 September, D+8, 3rd Battalion moved to area four to conduct search and destroy operations (enclosure (7)).

h. 14 September, D+9, Company G 2nd Battalion, 5th Marines and a heavy section B Company 1st AT Bn were attached to 3rd Battalion, 5th Marines. Remaining units at Tam Ky returned to Chu Lai TAOR.

i. 15 September, D+10, 3rd Battalion returned to their Chu Lai TAOR.

j. Operation Napa terminated 151200H September 1966.

k. Significant actions are highlighted in enclosures (1) - (3).

11. Results

a. Personnel Losses

VC KIA 20	FRIENDLY KIA	7
VC KIA 46 (PROB)	FRIENDLY WIA	51
VC WIA 8	NON BATTLE CAS	52
VC WIA 18 (PROB)		
VCS 61		
VCS 56		

b. Equipment and Material Losses. Seven weapons were captured by 3rd Battalion, 5th Marines during Operation Napa. Other ordnance and equipment captured are listed in enclosures (1) - (3).

SECRET

12. Administration ~~Management~~. See enclosures (1) - (3).

a. The administrative planning for the operation was sufficient to accomplish the mission.

b. The establishment of the LSA at Ky Ha had definite disadvantages, namely, the excessive amount of time required to fly to and from the objective area.

c. The troops carried sufficient amounts of Class I and V for D-Day. The problem of water re-supply should be solved by the Unit Commanders by utilizing local water. Re-supply of water by five-gallon water cans, greatly restricts the mobility of the units involved: i.e. increased number of re-supply runs necessary; pick up empty cans, etc.

d. During the period 6 September 1966 thru 14 September 1966 the tonnage of re-supply was 54.6 tons. This was all flown out of the LSA by helicopter. There was an excessive amount of clothing requested during this operation. This should not normally be necessary. However due to the short time in country and the operational commitments, the units were unable to request and receive clothing through normal supply procedures.

e. Maintenance presented no problems.

f. Treatment of casualties and evacuation and hospitalization were satisfactory. When there is no S & R team located within the proximity of the area of operation, casualties should be forwarded to 1st Med Battalion. In isolated incidents, casualties were forwarded to the Regimental Battalion Aid Station.

g. Transportation, primarily helicopter, was satisfactory. However the administrative use of re-supply helicopter's did to some extent hamper the re-supply effort. If re-supply helicopter's are used for administrative lifts it should be in conjunction with re-supply flights.

h. Communications was hampered slightly by the fact that the location of the LSA was distant, necessitating the relay of message traffic for the using unit through HST, Regimental CP and on to the LSA. Again closer positioning of the LSA would alleviate this.

i. Medical facilities and treatment were adequate.

13. Special Equipment and Techniques. See enclosure (3).

14. Commanders Analysis. For the most part the Operation progressed smoothly, some difficulty was experienced however in the 3rd Battalion's move into area three. The decision to move into this area was made late on D+5. Operations in area three were delayed until liaison with Vietnamese Forces in this area could be made. The refugee influx had been considered in planning for the operation and all concerned were ready to receive them. Cooperation with army advisor's at Quang Tin Province Headquarters and Vietnamese officials was excellent. The processing and relocation of the refugees into the refugee centers went smoothly with no problems. Marine trucks assisted in transporting the refugees to their new hamlets.

SECRET

SECRET

15. Recommendations. In future operations, refugee evacuation should be exploited and sufficient helicopters be made available to aid the evacuation.

6. Supporting Armsa. Air Support

(1) Helicopter Support - Two armed Huey aircraft provided convoy escort from Hill 54 to Tam Ky on D-1. On D-Day, two Huey aircraft again provided convoy escort from Tam Ky to the Battalion dismount point. Six H-34 aircraft were used on D-Day for evacuation of casualties.

SECRET

SECRET

In addition, two armed Huey aircraft were continually on station during daylight hours. Three H-34 aircraft, accompanied by armed Huey aircraft, evacuated three casualties on D+1. Additionally, two and one half tons of rice were relocated to Tam Ky on D+1. One resupply mission, made up of six H-34 aircraft, brought in supplies on the evening of D+1. Three medical evacuations were performed on D+2, and two H-34 aircraft provided convoy escort for the Battalion back to Hill 54.

(2) Fixed Wing - Fixed wing support for this operation consisted solely of one aircraft performing spotting missions throughout the daylight hours of the operation.

b. Artillery Support.

(1) 5 September 1966 - Artillery was used to fire preparation fires on the Battalion objective. The fires were for a duration of fifteen minutes and were controlled by an air observer. Target coverage was excellent. Fuzes, quick and ~~delay~~, were employed in order to detonate any booby traps. During the night of 5 September, extensive H & I fires were fired within approximately 500 meters of front line positions. At 052235, Company B received mortar fire, grenades and small arms fire from an estimated two VC squads. The fire fight continued for approximately one hour. Continuous artillery illumination was provided during this period. Fires were called on suspected VC withdrawal routes. The area was investigated the following morning and numerous VC blood trails were found.

(2) 6 September 1966 - The Battalion moved back over the previous day's route in the direction of Highway 1. Artillery air observers provided excellent visual coverage of the operation area and made timely reports to the Battalion. This provided the Battalion with current information regarding terrain and villager movement. The night of 6 September was comparatively uneventful as far as enemy contact was concerned. Again artillery H & I fires were fired close to friendly troops. Naval gunfire was on call throughout the night but was not employed due to lack of enemy contact.

(3) 7 September 1966 - At 0830, the Battalion boarded trucks to return to the combat base at Hill 54. The overall support by artillery was considered to be excellent. The support was provided by E and F Batteries of Second Battalion, and K Battery, 4th Battalion, 11th Marines.

7. Intelligence

a. Estimate of VC Strength, Location and Tactical Disposition

(1) Forces Anticipated in the Immediate Objective Area.

UNIT	LOCATION	STRENGTH	TACTICAL DISPOSITION
21st Regt, 620th Div 1st Bn	BT 1821 BT 2023	200 600	UNK UNK

SECRET

SECRET

<u>UNIT</u>	<u>LOCATION</u>	<u>STRENGTH</u>	<u>TACTICAL DISPOSITION</u>
3rd Bn	BT 2223	600	UNK
80th Bn	BT 2125	400	UNK
72nd Bn	BT 2122	450	UNK
A-16 Co	BT 2124	150	UNK
K-52 Co	BT 1021	150	UNK

(2) Intelligence information was initially furnished to this unit by the 5th Marines.

(3) The objective of this operation was to conduct search of area of operation and to destroy any VC units in assigned area.

b. VC Strength and Situation Actually Found on Operation NAPA. As a result of the operation, elements of this Battalion accounted for six VC KIA by body count; one VC KIA (probable); seven VC WLA (probable); thirteen VCC; and eleven VCS. All VCC/VCS were forwarded to 9th ITT for further interrogation. On D-Day, elements of the Battalion became engaged with an estimated squad size local force unit, with contact lasting for a short period. During the night of D-Day, an element of the Battalion was probed for a period of approximately one hour by an estimated two Main Force squads, utilizing small arms, automatic weapons, hand grenades and 60mm mortar fire. From D+1 to the end of the operation, enemy activity consisted of sporadic sniper fire and one booby trapping incident.

c. VC Units Identified. None

d. Significant Intelligence Gained.

(1) The voluntary evacuation of approximately 60 villagers from QUI XUAN Hamlet to TAM KY indicates a growing discontent with VC forces in the area of operation.

(2) Interrogation of villagers in THON BON Hamlet (BT 230255) and QUI XUAN Hamlet (BT 213253) indicated the possible presence of one Main Force VC/NVA Company in these areas as late as 0500 on the morning of D-Day. VC were thought to have moved northwest to the vicinity of PHU THU Hamlet (BT 197253) prior to the arrival of the Marines.

(3) Enemy units engaged in probing attack on B Company position on night of D-Day were thought to be main force units as indicated by uniform and equipment discovered on VC KIA. Enemy snipers were estimated to be local force personnel, with the mission of harassing and delaying the Marine advance.

e. Terrain

(1) Critical Terrain Features. Hill 26 (BT 209249) and Hill (unk) (BT 223248) and surrounding hamlets.

SECRET

SECRET

(2) Observation and Fields of Fire. The terrain in the area of operation consisted primarily of several hamlets surrounded by rice paddies under cultivation. Throughout, it offered excellent fields of fire for defenders and attackers. Cultivated areas and small hills offered excellent observation.

(3) Cover and Concealment. Excellent cover and concealment were provided by tree lines, grassy areas, hedge rows and locally constructed trench lines within and surrounding the hamlets. Concealment in cultivated areas was poor, but, some cover was provided by paddy dikes.

(4) Obstacles. No major obstacles were encountered. Streams were found to be fordable.

8. Mission. 1st Battalion(-)(Rein), 5th Marines conducted search and destroy operation east of Hiep Duc-Song, Ly Ly Valley, Quang Tin Province.

9. Concept of Operation. Commencing 1300 on D-1; 1st Battalion 5th Marines (-)(Rein) moved via truck convoy to Tam Ky; thereafter on D-Day moved via truck east of Hiep Duc-Song, Ly Ly Valley, Quang Tin Province, and conducted search and destroy operation in assigned area.

10. Chronological Sequence of Events.

a. D-Day 5 September 1966

(1) 051035H - Company C, (BT 233253), received three rounds sniper fire from one sniper. No fire was returned. Unable to determine location of VC due to thick vegetation.

(2) 051120H - Company D, (BT 241258), received six rounds sniper fire from an estimated six snipers at (BT 246257). Company D returned 12 rounds small arms fire, and observed one VC knocked down by fire. VC broke contact. Searched area, found nothing. Estimated one VC WIA (probable).

(3) 051225H - Company D (BT 232248), received approximately 50 rounds small arms fire from an estimated ten VC at (BT 230243). Company D returned approximately 50 rounds small arms fire and two 60mm mortars. VC ceased fire. Area was not checked. Notified 3rd Battalion, 5th Marines from whose assigned area VC fire came.

(4) 051230H - Company B, (BT 227257), apprehended two VC. One admitted he was a VC. Other VC was identified by police chief of QUI XUAN Hamlet. Both VC were screened and forwarded to 5th Marines S-2.

(5) 051323H - Company C, (BT 223250), received 40 rounds small arms fire from an estimated ten VC at (BT 223248). Company C returned approximately 150 rounds small arms fire and five LAAM's. Company C sustained one USMC WIA, who was evacuated to 1st Med Bn. Area was searched, nothing found.

SECRET

SECRET

(6) 051335H - Company D, (BT 225245), received approximately 20 rounds automatic weapons fire from an estimated eleven VC at (BT 223247). Two platoons from Company D assaulted VC position and fired approximately 100 rounds small arms fire and four LAWS. VC broke contact. A thorough search of the area was conducted. Five dead VC were found. Also found were one US sub-machine gun and a sack containing miscellaneous 782 gear. The captured weapon and 782 gear were forwarded to the 5th Marines S-2.

(7) 051400H - Company C, (BT 223249), apprehended one VC. VC was identified by police chief of Qui Xuan Hamlet. VC was screened and forwarded to 5th Marines S-2.

(8) 051430H - Company B, (BT 214255), apprehended three VC. All VC were identified by police chief of Qui Xuan Hamlet as being VC suppliers. All were screened and forwarded to 5th Marines S-2.

(9) 051430H - Company D, (BT 224246), located a dead VC dressed in black short PJ's. Body was booby trapped with pressure release type Chi-Com grenade. Booby trap and body were destroyed in place.

(10) 051435H - Company D, (BT 219249), apprehended four VCS. All were screened and forwarded to 5th Marines S-2.

(11) 051600H - H&S Company, (BT 213253), apprehended four VC. All VC were identified by police chief of Qui Xuan Hamlet. VC were screened and forwarded to 5th Marines S-2.

(12) 051630H - Command Group and Companies B, C and D, established night defensive positions. Refer to Operation Overlay for D-Day.

(13) 051730H - Company B, (BT 210255), apprehended one VC female nurse identified by police chief of Qui Xuan Hamlet. VC was screened and forwarded to 5th Marines S-2.

(14) 051925H - Company B, (BT 211254), received four rounds small arms fire from an estimated two VC at (BT 214244). Company B returned four 60mm mortars. VC broke contact. Area was not checked due to darkness.

(15) 052235H - Company B, (BT 212254), in defensive position, was probed by an estimated two VC squads. VC threw eight to ten hand grenades, fired eight 60mm mortars and approximately 80 rounds small arms. Company B returned approximately 20 hand grenades, 15 M-79 rounds and 100 rounds small arms. VC broke contact and fled to the northwest. Artillery fire mission conducted on VC withdrawal route. Company B sustained two USMC KIA's. A thorough search of the area revealed one VC KIA (confirmed), one US sub-machine gun and several pieces of 782 gear. Due to the extensive amount of blood and signs of bodies having been dragged away, Company B estimated one VC KIA (probable) and six VC WIA (probable).

b. D+1 - 6 September 1966.

(1) 060635H - Company C, (BT 209249), received approximately seven rounds sniper fire from two snipers at (BT 207245). Company C returned approximately 20 rounds small arms fire and one LAWS. A thorough search of the area was conducted. Found nothing.

SECRET

SECRET

(2) 060700H - Company C, (BT 205243), apprehended one VCS who had approximately 800 lbs of rice concealed in his hut. VCS was sent to 5th Marines S-2.

(3) 060835H - Company C. (BT 200243), located a VC billeing area. Police chief of Qui Xuan Hamlet stated area was used for VC lectures. Billeing area was destroyed by fire.

(4) 060840H - Company C, (BT 200244), apprehended one female VC identified by police chief of Qui Xuan Hamlet as being a VC supplier. VC was screened and forwarded to 5th Marines S-2.

(5) 061130H - H&S Company, (BT 214255), apprehended one VC identified by police chief of Qui Xuan Hamlet as being Chairman of Young Women VC Association. VC was screened and sent to 5th Marines S-2.

(6) 061315H - Company B, (BT 233255), tripped two tension release booby trapped Chi-Com grenades buried along trail. Company B sustained four minor USMC WIA's.

(7) 061430H - Company D, (BT 252256), apprehended one VCS. VCS was screened and sent to 5th Marines S-2.

(8) 061625H - Company C, (BT 247255), received five rounds sniper fire from one sniper at (BT 247253). Company C returned 50 rounds small arms fire, ten M-79 rounds and three 3.5 rockets. Company C sustained one USMC KIA. A thorough search of the area was conducted and five VCS were apprehended, screened and forwarded to 5th Marines S-2.

(9) 061630H - Command Group and Companies B, C and D established night defense positions. Refer to D+1 operations overlay.

c. D+2 - 7 September 1966

(1) 070835H - Companies B and C, (BT 274264) received approximately 50 rounds automatic weapons fire after loading on trucks from an estimated four VC's. Companies B and C returned approximately 80 rounds small arms fire. VC broke contact and a thorough search of the area was conducted. Found nothing. Company B sustained three minor USMC WIA's. Company C sustained two minor USMC WIA's.

(2) 070915H - Command Group and Companies B, C, and D arrived Hill 54 and secured from Operation NAPA. Refer to D+2 operations overlay.

12. Administrative Matters

a. Supply Maintenance. Because of the excellent job by personnel of HST and the Battalion, both at the LSA and forward units, no matters of an unusual nature occurred.

b. Casualties. Evacuation was excellent due to the immediate response of helicopters.

c. Communication

(1) Battalion communication for Operation NAPA was dependent on HF, UHF and VHF. Voice radio nets were terminated at the Battalion with the AN/PRC-47, AN/PRC-41 and the AN/PRC-25. Two field expedients RC 292 antenna were used on the Regimental TAC #1 and #2.

(2) In the Battalion CP, one SB-22 and one TA-1 were used. All rifle Companies laid wire to the switchboard as soon as they were in defensive positions. Considering the weather, terrain and distance, communications was excellent to outstanding.

13. Commanders Analysis

a. Although Operation NAPA was of relatively short duration, definite contact was made with local and main force VC units. Initial contact was made with an estimated 11 local VC's. An immediate assault by the two lead platoons of Company D neutralized the element of surprise and resulted in five confirmed VC killed. One weapon was captured. During the night of D-Day an estimated two squads of main force unit probed the defensive perimeter. Here, properly prepared fighting holes and fire discipline prevented this attack from being successful.

SECRET

DECLASSIFIED

SECRET

b. The artillery support during this operation was well planned and executed. Additionally, the "on station" aerial observer provided timely information in regards to terrain and village activities while the Battalion was on the move.

6. Supporting Forcesa. Artillery

(1) There was one six gun 105mm Howitzer Battery in direct support of the 3rd Battalion, 5th Marines during Operation NAPA. One platoon of 4.2" mortars was attached; one platoon of 155mm guns was in supporting range.

(2) There were no serious problems encountered with the employment and delivery of artillery. The supporting battery was able to register frequently and fire missions were timely and accurate. On one occasion H and I fires were restricted due to invalid correction data.

(3) The no fire zones established for use by the Battalion were of great value. Their use aided in bringing targets of opportunity under fire quickly and effectively. All liaison nets were monitored constantly and missions were cleared in a minimum amount of time. H and I fires

~~DECLASSIFIED~~
~~SECRET~~3121
21 September 1966

and night defensive concentrations were extensively used; procedures for requesting and clearing them were fully adequate.

(4) The 4.2" mortar is a valuable close support weapon. The advantages are a highly mobile, large caliber weapon; good supporting range (5500 meters as compared to 3000 meters for the 81mm mortar); low personnel requirement; rapid movement and very accurate fire capability. The 4.2" mortars were especially useful for nighttime activities in providing high candle power illumination while the 105mm Howitzer Battery delivered HE rounds. The extra time required for one supporting battery to provide both illumination and HE is often costly.

b. Naval Gunfire. No Naval Gunfire was used in support of Operation NAPA.

c. Air

(1) The wounding of a pilot by snipers pointed up the need for helo escorts, either fixed wing or armed UHIE's. The armed UHIE's are preferred because of their slower speed, longer time on station and an ability to maintain a relative flight pattern to facilitate observation and quick reaction to sniper fire. One UHIE flying wing on two or more UH 34's during resupply missions is desirable. It is virtually impossible for ground troops to completely eliminate sniper fire against helicopters.

(2) The withdrawal of Regimental Headquarters from Tam Ky early in the operation marked the beginning of diminished helicopter support. Two helicopters were provided in direct support for battalion resupply. During Operation NAPA the rifle companies were widely dispersed, a 4.2" Mortar Platoon was required to be moved periodically and resupplied daily and the LSA was located relatively distant from the operational area. Two helicopters proved to be inadequate under these conditions.

(3) When medical evacuation helicopters were stationed at Tam Ky, the reaction to requests for evacuation of wounded personnel was excellant. Emergency evacuations provided by Chu Lai-based helicopters took 35 minutes from the time a request was submitted.

(4) The Napalm used in Operation NAPA proved to defective. Only three out of eight tanks dropped were ignited.

7. Intelligence

(1) The terrain covered during Operation NAPA was predominately rice paddies cultivated in wetland rice. Small areas of high ground populated with small villages were scattered about the paddies. These areas are characterized by thickly vegetated tree lines and hedgerows. Most villages were ringed with a defensive trench system developed by the VC. These

~~SECRET~~

3121
21 September 1966

trenches offer excellent fields of fire and excellent cover and concealment. High and steep hills in grid squares BT 1920, 1921, and 2020 are covered with thick low scrub. These hills offer excellent observation of the lowland paddies.

b. Intelligence received prior to the commencement of the operation indicated that contact with local force VC units and possible contact with Main Force elements of the 21st NVA Regiment and the 72nd Main Force Battalion could be expected. Enemy contact during the operation was made only with local force VC. The majority of contacts resulted from the delivery of small arms fire by small groups of VC from concealed portions in tree and hedgerow lines at ranges of 500 meters. Supporting arms were used extensively to cover and support ground maneuver elements moving toward enemy positions.

c. The VC infrastructure in the villages of Cam Khe (1) (BT 223235), My Thanh (BT 226236), Phu Lai (BT 210231), Tam An (BT 208236), Tam Phu (BT 203234) and the surrounding area was seriously jeopardized by Operation NAPA. Through the use of "Black, White and Grey Lists" and PF's from the local area VC and VC sympathizers were identified and captured. Questioning of villagers revealed that in most villages almost 1/3 of the local cadre was apprehended before the rest escaped. A total of 48 captives were identified as VC. An additional 45 VC suspects were picked up and processed.

8. Mission. During the conduct of Operation NAPA, the 3rd Battalion, 5th Marines was assigned the following mission:

a. On order, on D-day execute a motor movement from positions at Tam Ky to the edge of the assigned TAOR of Operation NAPA (see enclosure 1).

b. Dismount and conduct search and destroy operations within the assigned TAOR in accordance with Commanding Officer, 5th Marines oral instructions of 031330H September 1966.

9. Concept of Operation. At 0630H on D-day the 3rd Battalion, 5th Marines conducted a motor movement from Tam Ky northward along National Route #1 to a designated dismount point. Upon dismounting companies moved into pre-designated zones of action to conduct search and destroy operations within the 3rd Battalion, 5th Marines assigned TAOR.

10. Execution

a. D-1 - 4 September 1966

(1) At approximately 041500H Sep66 the operation order was issued to Unit Commanders and supporting Unit Commanders of the 3rd Battalion, 5th Marines.

~~SECRET~~

~~DECLASSIFIED~~3121
21 September 1966b. D-day - 5 September 1966

- (1) At 050630H units of the 3rd Battalion, 5th Marines (-)(Rein) commenced a motor movement from Tam Ky northward along National Route #1 to a designated dismount point near the edge of the assigned TAOR (see Operation Overlay, Part 1, enclosure (1)).
- (2) The 3rd Battalion, 5th Marines dismounted from the motor transport and commenced movement into the assigned TAOR at 0700H.
- (3) At 0800H Company L found and evacuated 340 rounds of .30 caliber ammo at BT 273253.
- (4) At 0630H Company K received ten to fifteen rounds of small arms fire from an estimated one VC at BT 257255 and returned thirty rounds M-14 fire. A squad searched the area with negative results.
- (5) At 0820H Company L discovered a suspected booby trap (an unexploded 105mm HE round) at BT 282247 and blew it in place.
- (6) At 0840H Company K received seven rounds small arms fire at BT 253255 and returned forty rounds M-14 fire and two LAWS. The area was searched with negative results. One USMC WIA.
- (7) At 0930H Company K discovered one VC classroom at BT 252254. No books, papers or personnel were found; however, weapons diagrams were on the walls. The classroom was destroyed.
- (8) At 1020H Company K received sixteen rounds small arms fire from BT 244243 and returned ninety rounds M-14 fire and one round M-79. One VC KIA and one Thompson sub-maching gun, four magazines and three M-26 fragmentation grenades were captured.
- (9) At 1040H Company I personnel tripped a booby trap at BT 238247. Three USMC WIA and one scout dog WIA.
- (10) At 1215H Company L received fifteen rounds small arms fire from BT 230241 and returned twenty rounds M-14 fire. The area was searched with negative results. One USMC WIA.
- (11) At 1245H Company L captured one VC, one M-1 US rifle, seventy-two rounds of .30 caliber ammo and one M-26 fragmentation grenade at BT 241249.
- (12) At 1540H Company K received thirty rounds small arms fire from BT 225223 from two automatic rifles. Company K returned thirty-five rounds M-14 fire and searched area with negative results.
- (13) At 1930H Company L captured two VCS in a tunnel in the vicinity of BT 213234.

~~DECLASSIFIED~~
SECRET

~~REF ID: A65871~~
~~SECRET~~3121
21 September 1966

(14) At 2000H the Battalion CP received ten rounds small arms fire from the vicinity of BT 227225 and returned thirty rounds M-60 fire and six rounds 105mm HE. Results were undetermined.

(15) At nightfall on D-day units were located as follows:

- (a) Battalion Command Post - BT 237229.
- (b) Company I - BT 215235.
- (c) Company K - BT 237229.
- (d) Company L - BT 237229.

c. D+1 - 6 September 1966

(1) At 0700H Company L was helilifted from BT 237229 into a blocking position on a ridge line running from BT 193213 to BT 197210. Companies I and K continued to sweep abreast through their zones of action towards Company L's position.

(2) At 0730H Company L at BT 206212 received thirty to forty rounds of small arms fire from a village at BT 210210. Company L returned thirty rounds M-14 fire and directed rockets from armed UHIE's. The VC withdrew.

(3) At 1155H Company K found an M1919A4 .30 caliber MG near a trail at BT 210214. A thorough search of the area was made, but no additional equipment was found.

(4) At 1230H Company K received one 82mm mortar round at BT 199214 from the vicinity of BT 196203. An artillery mission was called in on the target area with unknown results.

(5) At 1330H the hamlet chief of the hamlet at BT 199214 said that the VC had kept his people prisoner and that they all wanted to leave for Tam Ky.

(6) At 1035H Company L received thirty rounds small arms fire from BT 203210 and returned fifty rounds M-14. One USMC WIA. One VC KIA (Probable).

(7) At 1115H Company I spotted ten VC at BT 199229 and took them under M-14 and M-79 fire. The enemy fled to the west. A search of the area was made with negative results.

(8) At 1145H Company K found one Chicom grenade by the trail at BT 210215 and blew it in place.

~~SECRET~~

~~SECRET~~
~~DECLASSIFIED~~3121
21 September 1966

(9) At 1845H Company I received ten to fifteen rounds small arms fire from four or five VC near a bunker in the vicinity of BT 178229. Artillery fire was adjusted on the target with an estimated two VC KIA (Probable).

(10) At dusk on D+1 units were located as follows:

- (a) Battalion Command Post - BT 194205.
- (b) Company I - BT 178218.
- (c) Company K - BT 194205.
- (d) Company L - BT 197210.

d. D+2 - 7 September 1966

(1) At 0835H Company I received twenty rounds small arms fire from a hamlet at BT 198223 and returned thirty rounds of M-14 and two rounds 3.5" rocket fire.

(2) At 1010H Company I received five rounds small arms fire at BT 215225 from the vicinity of BT 211232 and returned sixty rounds M-14 fire with negative results. One USMC WIA.

(3) At 1020H a recon OP spotted ten VC with a machine gun at BT 199228. Company L called in sixteen rounds of 105mm HE fire with good target coverage.

(4) At 1045H Company L found a tunnel 300 feet long and four to five feet high below the surface at BT 201201 and captured three VC digging near the tunnel and three VCS hiding nearby.

(5) At 1205H Company L received ten to twenty rounds automatic weapon and small arms fire from BT 200230 and returned fifteen rounds M-14 fire. A search of the area produced negative results.

(6) At 1400H Company K completed the evacuation of fifty-six refugees from a hamlet located at BT 204206 to the Tam Ky refugee center.

(7) At 1300H Company K at BT 214226 caught three young men in a village hut who had no identification. Evacuated to 9th ITT.

(8) At 1540H Company K received four rounds small arms fire at BT 201201 while evacuating the VCS. A squad was sent to search the area and found five VC hiding in a hut who also had no identification. One VCS was caught running across a field.

(9) At 1510H Company K received four or five rounds of small arms fire from one VC sniper at BT 216226 from the vicinity of BT 216228 and returned four rounds M-79 and twenty rounds of small arms. A search of the area produced negative results.

~~SECRET~~

~~SECRET~~

3121
21 September 1966

(10) At 1535H Company K blew up an empty bunker at BT 206116.

(11) At 1700H a young male approached Company L's position at BT 200230 and ran away when challenged. Ten rounds M-14 were fired in pursuit. The man fell, got up and ran. One VC WIA (Probable).

(12) At 1820H Company L received one round of sniper fire at BT 200232 from an unknown location. Company L returned one hundred rounds M-14 fire and searched area with negative results. One USMC KIA.

(13) At 1900H resupply helicopter at Company L's position received five rounds of small arms fire from BT 205236 and returned eighty rounds M-60 machine gun fire. Three VC KIA (Probable).

(14) At dusk on D+2 units were located as follows:

- (a) Battalion Command Post - BT 216237.
- (b) Company I - BT 223247.
- (c) Company K - BT 216237.
- (d) Company L - BT 200232.

e. D+3 - 8 September 1966

(1) On D+3 companies were assigned new zones of action in which to conduct search and destroy operations (see Operation Overlay, Part 2, enclosure 2).

(2) At 0825H Company L received three rounds sniper fire at BT 200237 from an unknown enemy position. One USMC WIA. One squad maneuvered and searched the area with negative results.

(3) At 1040H a Company I patrol sighted three VC at BT 227247 and tracked them to a tunnel. The VC refused to come out so a fragmentation grenade was thrown inside. One VC KIA (BC) and two VC WIA (Confirmed).

(4) At 1030H Company K at BT 221235 captured two Vietnamese hiding in a cave with a woman and two small children. One man in the tunnel was identified as a VC by a PF, the other was taken as a VCS. The woman was identified as the wife of a VC. VC uniforms and the ID card of a dead ARVN were in her house.

(5) At 1200H Company L captured one VCS male about thirty years of age in a sweep of a village at BT 204240.

~~SECRET~~

~~SECRET~~~~DECLASSIFIED~~3121
21 September 1966

(6) At 1230H a Company L patrol was taken under fire by two VC at BT 196243. Company L received ten rounds small arms fire and returned fifteen rounds M-14 fire with unknown results.

(7) At 1330H a Company L patrol sweep of a hamlet at BT 223947 uncovered one VCS in a cave at BT 223246 who was returned to the Battalion CP for questioning. He was subsequently forwarded to 9th ITT.

(8) At 1450H Company K received four rounds small arms fire at BT 218238 from enemy position at BT 214237 and returned two rounds 60mm mortar fire. A fire team searched the area with negative results.

(9) At 1320H Company I found a 105mm HE round suspected booby trap at BT 221248 and blew it in place.

(10) At 1500H Company K at BT 238229 found two females hiding in a tunnel. VC tax collector papers and ledgers were found in their house. At BT 216225 two men were running away and when apprehended were found to be VC instructors.

(11) At 2100H Company I sprang an ambush at BT 217251 on an estimated fifteen VC moving into their area. Company I fired 250 rounds M-14 fire and six hand grenades. The VC returned four hand grenades and thirty rounds small arms fire while retreating. Three VC KIA (Body Count). Seven VC KIA (Probable). About twelve VC were seen withdrawing to hill 26 at BT 208249. Thirty-five rounds 105mm HE delivered on hill with estimated six VC KIA (Probable).

(12) At dusk on D+3 units were located as follows:

(a) Battalion Command Post - BT 216237.

(b) Company I - BT 223247.

(c) Company K - BT 216237.

(d) Company L - BT 209237.

f. D+4 - 9 September 1966

(1) At 0730H Company I received four rounds of small arms fire from BT 218254 and spotted three VC running away. Company I returned thirty rounds small arms fire. One VC KIA (BC), one VC WIA (Confirmed), and two VCC.

(2) At 1030H a Company K patrol spotted six VC carrying one machine gun at 220212 moving west.

(3) At 0915H Company I at BT 225246 picked up a man aged fifty years during the sweep of a village. He was identified as a VC by a PF.

~~SECRET~~

35-21

21 September 1966

(4) At 1115H Company L received four rounds small arms fire from BT 205235 and observed two men running south along the tree line. Company L returned twenty rounds M-14 rifle and pursued the VC with negative results.

(5) At 1200H Company K at BT 233237 spotted four VC in an ambush position. An 81mm mortar concentration was called in on the position. A squad assaulted position and found traces of blood in the area.

(6) At 1330H Company K at BT 225235 called a fire mission on six VC moving towards Hill 25 at BT 239229. Three volleys were fired with excellent target coverage.

(7) At 1400H Company K at BT 218237 received eight rounds small arms fire from BT 215239 and returned twenty rounds M-14 and three rounds 60mm mortar fire. The area was searched with negative results.

(8) At 1020H Company I apprehended one woman in a sweep of village at BT 232252. PF said the woman maintained a VC meeting place.

(9) At 1040H Company I swept a village at BT 229257 and apprehended one VC.

(10) At 1030H Company I at BT 230255 picked up one male in a sweep who had 1320 Piastres on his person. He was believed to have been a VC tax collector.

(11) At 1230H a Company I patrol found eight rounds 20mm incendiary ammo hidden in a small cave at BT 230255 and destroyed them in place.

(12) At 1300H a Company I patrol found a large tunnel at BT 210252 which was ten feet under the surface, three feet wide and fifty feet long. It was destroyed the following day.

(13) At 1640H a Company I patrol discovered a large tunnel system about 200 meters long at BT 211236 which was destroyed the following day.

(14) At 1630H Company K patrol was led by a VCC to a hole which was freshly dug and recently used. The hole, large enough for three to four men, was destroyed.

(15) At 2045H Company I at BT 223247 received sixteen rounds small arms fire from vicinity BT 220249 and returned ten rounds M-14 fire. One VC KIA (Probable).

(16) At dusk on D+4 unit locations were as follows:

(a) Battalion Command Post - BT 216237.

~~SECRET~~

~~SECRET~~

3121

21 September 1966

(b) Company I - BT 223247.

(c) Company K - BT 216237.

(d) Company L - BT 209237.

g. D+5 - 10 September 1966

(1) At 0830H a Vietnamese male about thirty years of age was brought to the Battalion CP by an elderly couple who appeared to be his parents. He had shrapnel wounds in his side and legs. No interpreter was available so no details were given. This man was in serious condition and was evacuated through medical channels as a VCS.

(2) At 0830H Company K at BT 21223 received fourteen to sixteen rounds of small arms fire from BT 212221 and returned forty rounds of M-14 fire and eight rounds 81mm mortar fire. Two VC KIA (Probable).

(3) At 0925H Company K at BT 220227 received two rounds sniper fire from BT 225224. Company K returned ninety rounds M-14 fire and sent a fire team to the suspected enemy position with negative results.

(4) At 0900H Company L found one M-79 round booby trap at BT 213236 and blew it in place.

(5) At 1100H Company I at BT 213236 received six rounds small arms fire from estimated three VC at BT 200238. Company I returned ten rounds M-14 fire and searched area with negative results.

(6) At 1245H Company K received two rounds sniper fire at BT 241230 from BT 231244. Ten rounds M-14 fire were returned and a fire team was sent to investigate. Negative results.

(7) At 1330H Company L found four 60mm rounds booby trapped at BT 247238. A company K squad located at BT 246240 fired forty to fifty rounds M-14 fire and four rounds M-79 at a fleeting enemy target. A search of the area produced negative results.

(8) At 1810H a Company I platoon received fifteen rounds small arms fire from an estimated four or five VC at BT 233253. The platoon returned eighty rounds small arms fire and searched the area with negative results.

(9) At 2035H Company K received fifteen rounds small arms fire from BT 245240. Company K, located at BT 247240, returned twenty rounds samll arms fire and set ambushes awaiting the enemy's return.

(10) At 2130H Company K squad ambush received fifteen to twenty rounds small arms fire from an estimated two VC in the vicinity of BT 247244. The squad returned fifteen to twenty rounds M-14 fire and withdrew to Company K perimeter due to compromise of the ambush position. One VC WIA (Probable).

21 September 1966

(12) At dusk on D+5 units were located as follows:

- (a) Battalion Command Post - BT 216237.
- (b) Company I - BT 216237.
- (c) Company K - BT 247240.
- (d) Company L - BT 235248.

h. D+6 - 11 September 1966

(1) On D+6 companies were assigned additional zones of action on the eastern sector of the Battalion TAOR in order to extend search and destroy operations (see Operations Overlay, Part 2, enclosure (2)).

(2) At 0745H Company L found one Chicom type fragmentation grenade placed in a hedgerow at BT 253258. The booby trap was detonated causing one USMC WIA evacuated.

(3) At 0610H a Company I ambush at BT 248247 killed one VC male about twenty years of age. No weapon found.

(4) At 0745H a Company L patrol detonated an M-26 grenade booby trap at BT 254255. One USMC WIA evacuated.

(5) At 1205H Company I at BT 222236 sealed a tunnel about forty meters long which contained one hundred pounds of rice scattered about which was impossible to retrieve.

(6) At nightfall of D+6 units were located at the following positions:

- (a) Battalion Command Post - BT 234248.
- (b) Company I - BT 234248.
- (c) Company K - BT 247240.
- (d) Company L - BT 248257.

i. D+7 - 12 September 1966

(1) At 0915H the Battalion CP received three rounds small arms fire at BT 234249 from BT 227245 and returned fifteen rounds M-14 fire, six rounds 81mm mortar fire and twelve rounds 105mm HE fire. One USMC WIA. A patrol searched the target area and found one male VCS at BT 227245 at 1000H. He had no weapon, however several women were trying to hide him.

~~SECRET~~
~~DECLASSIFIED~~3121
21 September 1966

He was the only male in the village. Upon interrogation he said he saw four VC armed with SMG in green uniforms moving westwards.

(2) At 1515H Company I tripped a booby trap at BT 262254. One USMC WIA.

(3) At 1630H the 3rd Battalion, 5th Marines terminated operations in the previously assigned TAOR and moved south by truck convoy along National Route #1 to an area southwest of Tam Ky. The 3rd Battalion, 5th Marines set up positions for the night within the 6th Regiment ARVN TAOR. At dusk units were located as follows:

- (a) Battalion Command Post - BT 293195.
- (b) Company I - BT 289194.
- (c) Company K - BT 283197.
- (d) Company L - BT 292194.

j. D+8 - 13 September 1966

(1) At 1500H on D+8 the 3rd Battalion, 5th Marines commenced a foot movement from previous positions to the edge of a newly assigned TAOR. (see Operation Overlay, Part 2, enclosure (2)).

(2) At 1850H a Company I resupply helicopter received thirty rounds of small arms fire from BT 244171 and returned forty to fifty rounds machine gun and M-14 fire with good effect on target.

(3) At 1900H Company I found three mines at BT 247173 which were one M-16 type and two bomb fragmentation type. They were destroyed in place.

(4) At nightfall of D+8 units were located as follows:

- (a) Battalion Command Post - BT 252175.
- (b) Company I - BT 247173.
- (c) Company K - BT 250178.
- (d) Company L - BT 252175.

k. D+9 - 14 September 1966

(1) On D+9 the 3rd Battalion, 5th Marines commenced extensive patrolling within the new TAOR.

(2) At 0100H Company I received at BT 247173 three incoming fragmentation grenades from fifty meters west of their perimeter and did not return fire.

~~SECRET~~ ~~CLASSIFIED~~3121
21 September 1966

(3) At 0320H Company K at BT 250179 received four rounds of small arms fire from an unknown location fifty meters north of their perimeter.

(4) At 0915H Company L at BT 298171 received eight rounds small arms fire over a period of about ten minutes from BT 249169 and returned fifteen rounds of M-14 fire.

(5) At 0950H Company L received forty to fifty rounds of small arms fire from an estimated five or six VC over a period of about one hour. Company L returned one hundred rounds small arms fire, ten rounds 60mm mortar fire and 81mm mortar fire. A squad searched the area and found one VC KIA with expended .45 caliber brass nearby.

(6) At 1000H Company I at BT 255153 received twenty rounds small arms fire from an estimated three or four VC at BT 261150 and returned twenty to thirty rounds M-14 fire. One USMC WIA.

(7) At 1145H Company L received five rounds small arms fire at BT 251158 and returned ten rounds M-14 fire. The area was searched with negative results. One USMC WIA.

(8) At 1200H Company L captured four VCS at BT 250160 who were sitting in a house in an area from which the company had received small arms fire. All were males of military age.

(9) At 1530H a Company K resupply helicopter at BT 241165 received five rounds small arms fire from an undetermined location. The co-pilot of the aircraft was wounded.

(10) At 1530H Company I at BT 257163 received five to six rounds sniper fire from BT 262145 and returned fifty rounds small arms fire and six rounds 3.5" rocket fire.

(11) At 1550H Company I received twenty rounds small arms fire at BT 257163 from BT 265145 from an estimated four VC. Company I returned one hundred rounds small arms fire and saw one VC go down. One VC WIA (Confirmed).

(12) At 1615H Company G received fifteen to twenty rounds small arms fire at BT 263198 from an estimated five VC at BT 255198 and returned eighty rounds small arms fire and seven rounds M-79 fire. One USMC WIA. One VC WIA (Probable). Four VCS were captured in the vicinity of the sniper fire.

(13) At 1630H Company K at BT 236162 received ten rounds small arms fire from BT 236156. Armed helicopters strafed the enemy position with good target coverage. The results were unknown.

~~SECRET~~

3121

21 September 1966

(14) At 1800H Company G swept a hamlet at BT 259199 and received ten rounds small arms fire from an unknown location. Two USMC WIA.

(15) At 2015H a Company L patrol received two rounds of small arms while enroute to an ambush position. The patrol returned fifteen rounds M-14 fire. One USMC WIA. Two VC KIA (Probable).

(16) At dusk on D+9 units were located in the following positions:

- (a) Battalion Command Post - BT 247155.
- (b) Company I - BT 263153.
- (c) Company K - BT 241165.
- (d) Company L - BT 247155.
- (e) Company G - BT 261188.

1. D+10 - 15 September 1966

(1) At 0830H Company K at BT 241165 spotted three VCS moving up a hill at BT 229146 and called in four rounds 106mm HE fire. One VC KIA (Probable).

(2) At 1000H the 3rd Battalion, 5th Marines commenced a tactical withdrawal from previously occupied positions.

(3) At 1145H Company K at BT 195254 received four rounds small arms fire from an enemy position at BT 195253 and returned twenty rounds small arms fire, two M-79 rounds and three LAWS. One USMC KIA.

(4) At 1200H Company L found a large tunnel eighty meters long, four feet wide and five feet high at BT 244160 which had not been recently used. The entrances were destroyed by an engineer squad. Documents were found in the tunnel indicating the identity of the village VC Chairman.

(5) At 1530H units of the 3rd Battalion, 5th Marines made rendezvous with truck transportation at BT 262189.

(6) At 1630H the 3rd Battalion, 5th Marines commenced a motor convoy movement from BT 262189 to the 3rd Battalion, 5th Marines Chu Lai TAOR, thus terminating Operation NAPA.

(7) The convoy arrived at the 3rd Battalion, 5th Marines Chu Lai TAOR at 1800H.

~~SECRET~~

11. Resultsa. Enemy

(1) The following is an assessment of VC personnel casualties inflicted by 3rd Battalion, 5th Marines:

- (a) VC KIA (Body Count) - 14.
- (b) VC KIA (Probable) - 41.
- (c) VC WIA (Confirmed) - 8.
- (d) VC WIA (Probable) - 11.
- (e) VC Captives - 48.*
- (f) VC Suspects - 45.

*NOTE: 16 were apprehended as VCS and identified under interrogation by 9th ITT as VC.

(2) The following is a compilation of enemy equipment and material captured and/or destroyed by 3rd Battalion, 5th Marines:

- (a) 1 - M1919A4 .30 Caliber machine gun.
- (b) 1 - French sub-machine gun, Model 79.
- (c) 1 - U.S. .30 Caliber M-1 rifle.
- (d) 1 - U.S. Thompson sub-machine gun.
- (e) 2 - French MAAS 36 rifles.
- (f) 1 - semi-automatic SKS 7.62mm rifle.
- (g) 6 - fragmentation grenades (captured).
- (h) 6 - Chicom wooden handle grenades (destroyed).
- (i) 10 - booby traps (destroyed).
- (j) 3 - mines (destroyed).
- (k) 807 - rounds small arms ammo.
- (l) 3 - illumination grenades.

~~SECRET~~

~~SECRET~~3121
21 September 1966

- (m) 8 - rounds 20mm incendiary (destroyed).
- (n) 5 - rounds 60mm mortar (destroyed).
- (o) 4 - packs.
- (p) 4 - cartridge belts.
- (q) 9 - uniforms.
- (r) 4 - M-1 Carbine magazines.
- (s) 5 - Thompson sub-machine gun magazines.
- (t) 1 - pair wire cutters.
- (u) 1 - assault machine gun ammo drum.
- (v) 14 pounds documents.
- (w) 15 pounds medical supplies.
- (x) 10 tons rice.

b. Friendly

(1) Casualties sustained by 3rd Battalion, 5th Marines were as follows:

- (a) Killed in Action - 3.
- (b) Wounded in Action - 33.

12. Administrative Matters

a. Resupply

(1) During Operation NAPA all resupply was accomplished by helicopter. The availability of only two resupply helicopters supporting the reinforced battalion from the Logistical Support Area located relatively distant from the operational area required a minimum of two hours to accomplish daily resupply.

(2) Normally, the companies and the Battalion CP were on the move throughout the day and planned resupply just prior to dark. Units were required to locate a landing site and night positions prior to 1700 in order to accomplish helicopter resupply.

(3) Water cans and ammunition in excess of tactical requirements while on the move were always scheduled for pick-up by helicopter at first light. Although these requests were accepted and confirmed, not once did pick-up of water cans and other excess supplies commence earlier than 0830.

~~SECRET~~

~~SECRET~~ ~~DECLASSIFIED~~

5121

21 September 1966

(4) The two helicopters provided in direct support of the Battalion were expected to accomplish all helicopter missions required by the Battalion. This included tactical displacement of the 4.2" Mortar Platoon, evacuation of VCC and VCS, evacuation of captured material, liaison visits to subordinate units and higher headquarters, redistribution of attachments as the tactical situation required and expedited resupply of demolitions and other special equipment required in specific instances. At times two helicopters simply could not provide adequate support and lengthy delays in receiving helicopter support resulted.

(5) Although two helicopters were placed in direct support of the Battalion, lengthy delays in receiving helicopter support when no missions were being flown in support of the Battalion indicated that they were not always available.

b. Maintenance. Maintenance support was effective and no unusual problems developed.

c. Evacuation and Hospitalization

(1) Medical supplies for both the line companies and the Battalion Aid Station were obtained with no difficulty. Having representatives of the medical section of the 3rd Battalion, 5th Marines at the LSA with staged medical supplies expedited the obtainment of these supplies. The staging of routine sick call supplies and equipment for the BAS at the LSA as well as having routine sick call gear shuttled back and forth on the resupply runs was of great assistance in alleviating the necessity of carrying a cumbersome and heavy medical chest cross-country.

(2) Helicopter medical evacuation was excellent in most cases. However, in at least one instance fifteen minutes had elapsed between the time an emergency med-evac request was transmitted by the Helicopter Support Team and the time the patient died; during this period no helicopter left the ground. In retrospect, it is unlikely that a quicker response would have saved the patient, but had this occurred in other instances it could have been the determining factor in the patient's survival.

(3) The usage of three classifications of patients for evacuation continues to be quite effective and was not abused in any instances.

d. Transportation. Transportation to support tactical and logistic requirements was effectively accomplished through the use of helicopters and motor transport, as necessary.

e. Communications

(1) FM radio communications during Operation NAPA were excellent. A relay station located at Tam Ky assured that positive contact was maintained at all times between the Battalion and Regiment. At one point a

~~SECRET~~

SECRET

~~DECLASSIFIED~~3121
21 September 19663121
21 September 1966

retransmission link was established which provided loud and clear communications directly to Regiment. This was not continued, however, and the relay shot was again activated.

(2) HF radio was used for the TAR net and was tested for possible use on the Regimental Command Net. Communications on both nets became poor after approximately 2000 hours and usually went out. The AN/PRC-47 again proved to be an excessive load in an operation where the Command Group moves with the line companies and displaces quickly and frequently.

f. Medical Evaluation

- (1) Total number of medical evacuees - 57.
- (2) Killed in Action - 3.
- (3) Died of Wounds - 00.
- (4) Non-Combat Deaths - 00.
- (5) Wounded in Action - 33.
- (6) Missing in Action - 00.
- (7) Combat injuries - non-wounds - 1.
 - (a) Contusion - 1.
- (8) Non-Combat Injuries - 52.
 - (a) Heat Casualties - 14.
 - (b) Gastroenteritis - 11.
 - (c) Upper Respiratory Infection - 2.
 - (d) Fever of Undetermined Origin - 4.
 - (e) Venereal Disease - 2.
 - (f) Fractures (Non-Battle) - 1.
 - (g) Cellulitis - 3.
 - (h) Gunshot, Wound Accidental - 1.
 - (i) Sprains - 4.

~~DECLASSIFIED~~
SECRET

~~DECLASSIFIED~~~~SECRET~~3121
21 September 1966

- (j) Dermatological - 5.
- (k) Visual Loss - 2.
- (l) Headaches, Chronic - 1.
- (m) Hematuria - 1.
- (n) Physical Examination - 1.

13. Special Equipment and Techniques

a. Scout Dogs

(1) The 3rd Battalion, 5th Marines employed scout dogs for the first time during Operation NAPA. They proved to be a valuable asset to the combat effectiveness of the companies to whom they and their handlers were attached. Scout dogs were used with points on company movements, as security on patrols and as early warning devices against enemy ambushes. They were extremely useful when used in the clearing of caves and tunnels. On one occasion the scout dogs found three VC that were hiding in a cave which was well camouflaged and which ordinarily might have gone by unnoticed by the patrol. The fear of dogs on the part of the VC was used effectively on several occasions in drawing out information from prisoners during interrogation.

(2) Two drawbacks were experienced with the use of scout dogs. First of all, they tire rapidly during a long march in hot, humid weather. Secondly, a source of water for the dogs is necessary during operations in hot climates. In one instance a company was maneuvering through mountains in the heat of the day and both of the attached scout dogs passed out. Water within the company was in short supply and no streams, wells, or paddies were located in the area. The scout dogs were evacuated.

14. Commander's Analysis

a. Civic Action

(1) Civic Action conducted during Operation NAPA was focused chiefly upon the evacuation of refugees from the Battalion TAOR to Tam Ky. Evacuation statistics for the Operation are as follows:

<u>DATE</u>	<u>ADULTS</u>	<u>CHILDREN</u>	<u>TOTAL</u>
7 Sept 1966	28	36	64
8 Sept 1966	13	15	28
9 Sept 1966	10	17	27
10 Sept 1966	4	3	7
12 Sept 1966	3	0	3
			<u>129</u>

21 September 1966

(2) Medical assistance rendered involved, for the most part, treatment by individual corpsman during company sweeps. In addition, small quantities of soap were distributed to needy families in the operational area.

(3) A battalion-size operation directed solely toward refugee evacuation would produce good results in the western-most portion of the zone of action initially assigned to the 3rd Battalion, 5th Marines. A planned operation of this sort would provide refugees with ample time to gather belongings and make thorough preparations for departure. The companies would not be committed to a search and destroy mission over a certain area and could remain in lucrative areas as long as necessary to complete the evacuation.

15. Recommendations

a. Logistics

(1) In future operations every effort be made to ensure that helicopter support is available when requested at first light. Units on search and destroy missions cannot be burdened with night defensive ammunition and water cans while on the move. The minimum wait of two hours every morning for helicopter pick-up during Operation NAPA was a serious deficiency in support.

b. The dependence of **units** operating in the field on helicopter support is significant. Adequate controls on available helicopters should be established to ensure that the tactical maneuver of ground operating units suffers minimum delay.

c. The Logistical Support Area should be located as close to the operational area as possible to reduce turn-around time on helicopter resupply missions.

d. If possible, the infantry battalion be provided FM equipment and frequencies be established to replace HF equipment and frequencies. The AN/PRC-25's performance in the field, particularly in the environment experienced in South Vietnam, has been equal in most cases to the AN/PRC-47. The AN/PRC-25 radio, on the other hand, does not represent a cumbersome weight problem on the move nor is its operation dependent upon a more complicated battery resupply problem.

7. Supporting Forces

Battery D (-), 2d Battalion, 11th Marines (Tien Phuc)

8. Intelligence. 5th Marines ISUMs

9. Mission. Provide artillery fire support to USMC and ARVN Forces in the area of operations.

10. Concept of Operation. The Commanding Officer, 11th Marines directed 2d Battalion, 11th Marines (-) (Rein) to provide artillery support for Operation NAPA.

11. Execution. At 041130 Sept 1966, the 2d Battalion (-) (Rein), 11th Marines commenced displacement by motor convoy to positions in the vicinity of Tam Ky, coordinates BT 2923. This movement was made in convoy consisting of 1st serial, Command/Control Group; 2d serial, Battery E; 3d serial, Battery F and 2d Platoon, Mortar Battery and 4th serial, Battery K with a ten minute interval between serials. All units were in position and prepared to fire by 041415.

ENCLOSURE (4)

CONFIDENTIAL

CONFIDENTIAL

During the movement to and from Tam Ky, Battery L, 4th Battalion, 11th Marines was prepared to fire supporting fires if required.

Battery D (-) located at Tien Phuc (BT 115140) fired three missions and expended 114 rounds in support of Operation NAPA for USMC and ARVN units.

At 051152 Sept 1966, 2d Battalion, (-) fired preparatory fires in support of a landing by 1st Battalion, 5th Marines. 100 rounds were expended.

At 050600 Sept 1966, Battery K and Battery D (-) fired preparatory fires in support of a landing by a Recon element. 129 rounds were expended.

At 070930 Sept 1966, Battery K displaced to TAOR position. At 071145, Battery F and Command/Control Group displaced to TAOR positions. Battery E, commanded by Capt GORE, remained in position at Tam Ky in support of 3d Battalion, 5th Marines. The two remaining guns from Battery E were called forward and joined Battery E at Tam Ky. 2d Platoon, Mortar Battery was attached to 3d Battalion, 5th Marines and initially remained at Tam Ky. While attached to 3d Battalion, 5th Marines, the Mortar Platoon displaced five times by helicopter, firing a total of 38 missions and expending 250 rounds.

On 14 Sept 1966, Battery E displaced to positions at BT 262191. On 14 Sept 1966 and again on displacement to TAOR positions on 15 Sept, Battery E and the Mortar Platoon were hit by an undetermined number of VC which Company G, security for the artillery positions, took under fire and maneuver and routed. Artillery fires claimed a total of three confirmed KIAs, two VIAs and one possible WIA during Operation NAPA.

MISSIONS FIRED

A liaison team and two FO teams were provided by the 2nd Battalion, 11th Marines for coordination of USMC artillery fire within the ARVN sector. The only artillery support requested by ARVN units during Operation NAPA was in the form of H&I fires.

12. Naval Gunfire. One ship, the USS Mullinix (DD-944) was on station from 061800 to 070800 Sept 1966 but did not fire any missions in support of Operation NAPA.

CONFIDENTIAL

CONFIDENTIAL

13. Administrative Matters

a. Supply. Class V was drawn from the ASP, FLSG B as required. Support for other classes of supplies was provided by the 2d Battalion, 11th Marines base camp.

b. Maintenance. One truck from Battery F developed brake trouble and was returned to 2d Battalion, 11th Marines Base Camp for repair. No other major type repairs were required.

c. Transportation. Organic transportation was used for both displacements and resupply.

d. Treatment of Casualties. Evacuation was administered by 5th Marines with hospitalization provided by B Med's primary facility at Chu Lai.

e. Civil Affairs. None.

f. Communications. Generally, communications were very good. The hot line to the 11th Marines was out only once for a period of about 2 hours but generally weak. Teletype was not utilized during this operation.

14. Special Equipment and Techniques. Radio Relay was employed by the 5th Marines with two channels being utilized by the 2d Battalion, 11th Marines (one hot line to the 11th Marines and one hot line to 1st Marine Division COC). Radio Relay communications were periodically weak but satisfactory.

15. Commander's Analysis. Operation NAPA provided experience and developed confidence in officers and men and proved again that they can perform their mission under flexible conditions.

The nature of the operation was such that major displacements were not necessary. Battery E made one displacement and the Mortar Platoon, while attached to 3d Battalion, 5th Marines, made five displacements by helicopter.

During the first phase of the operation, a technical FDC was established at the Command/Control Group level for Batteries E and F and the Mortar Platoon, with Battery K maintaining their own FDC. On 7 Sept 1966 technical fire direction control was passed to Battery E and the Mortar Platoon.

Primary communications for units in the immediate area was by wire. Radio communications to FO and liaison personnel were very good.

On 15 Sept 1966, while Battery E and the Mortar Platoon were displacing to their TAOR positions they received incoming small arms fire which was quickly returned by both the infantry security company and the artillery units. No casualties were received by the artillery units.

AFTER ACTION REPORT: OPERATION NAPA

1. Code Name. NAPA, a Regimental search and destroy operation.
2. Dates of Operation. 040930H ~ 151530H September 1966.
3. Location. Quang Tin Province, Tam Ky District.
4. Control or Command Headquarters. 5th Marine Regiment, Colonel C. F. WIDDECKE, Commanding.
5. Task Organization
Company B (-), 1st Antitank Battalion Capt J. E. FELKER
2nd Platoon, Company A, 1st Antitank Battalion SSgt A. F. HOLMAN JR.
6. Supporting Forces. None.
7. Intelligence. See 1st Marine Division Intelligence Summary for the operational period.
8. Mission. Provide direct support to the 5th Marines with one Ontos platoon.
9. Concept of Operation. Company B was directed to provide support to the 5th Marines with one antitank platoon. Initial plans called for the antitank platoon to provide security for artillery firing positions in the vicinity of the LSA at Tam Ky. The platoon was to be prepared to provide support as directed by the Commanding Officer, 5th Marines anywhere in the operational area. To coordinate their activities a command group, led by the Commanding Officer, Company B moved with the Regimental Command Group to Tam Ky.
10. Execution.
D-1(4 September)
040930H. Company Command Group and 2nd Platoon, Company A (OPCON Company B) departed Hill 35 for Tam Ky. The platoon provided convoy security for the 5th Marine Regimental Command Group.
041120H. Convoy arrived at Tam Ky; one Ontos broke a short axle about 8 kilometers south of Tam Ky and was towed in by an M-62 Wrecker.
041300H. Company Command Post established at Tam Ky.
041800H. Ontos repairs completed after arrival of replacement axle.

1

ENCLOSURE (1)

CONFIDENTIAL

CONFIDENTIAL

3123
20 Sep 1966

041800H. Heavy section of 2nd Platoon placed in direct support of the 1st Battalion, 5th Marines, light section of 2nd Platoon placed in direct support of the 3rd Battalion, 5th Marines. Both sections assigned mission of providing security for Regimental Command Post and artillery firing positions.

D-Day (5 September)

050900H. The Company Commander requested permission for the Ontos to fire ninety (90) rounds of prep fire on Hill 26, vicinity of BT 208249, which was to be used by 1/5 for their Command Post on the night of 5 September.

051300H. Permission denied; 2/11 directed to lay prep fire.

051400H. 2nd Platoon placed in direct support of G-2/5 for security and defense of Tam Ky.

D plus 1 (6 September)

060800H. The Company Commander recommended that the antitank platoon be attached to 3/5, joining that unit at Cām Khe (1), coordinates BT 223226, for the remainder of the operation. Preparations made.

061600H. Link-up of antitank platoon with 3/5, scheduled for the morning of 7 September, postponed one day.

D plus 2 (7 September)

071700H. The Company Command Group departed Tam Ky with the Regimental Command Group for Hill 35. The 2nd Platoon remained at Tam Ky in support at G-2/5.

071800H. Company Command Group arrived at Hill 35.

D plus 3 (8 September)

081130H. Platoon Commander, 2nd Platoon informed that scheduled link-up with 3/5 had been cancelled. Platoon to remain at Tam Ky to support G-2/5.

D plus 4 (9 September)

090900H - 091200H. The heavy Ontos section of the 2nd Platoon and one squad from G-3/5 made a armored recon of the area two thousand meters north of Tam Ky between the railroad tracks and Route #1. Captured one (1) Viet Cong suspect at BT 271236. Suspect had no Identification Card, no voter's card and acted very nervous. No rounds expended.

D plus 5 (10 September). No change.

D plus 6 (11 September). No change.

ENCLOSURE (1)

2

CONFIDENTIAL

CONFIDENTIAL

3123
20 Sep 1966

D plus 7 (12 September)

121400H - 121600H. The heavy Ontos section of the 2nd Platoon and one squad from G-2/5 made an armored reconnaissance through Phuong Hoa (1) (BT 281237) and the area north of the LSA. No contact.

D plus 8 (13 September)

131500H. The 2nd Platoon departed the LSA to link-up with 3/5.

131515H. Link-up accomplished at BT 287199. Platoon moved with I-3/5 to BT 247183. The light section was placed in direct support of L-3/5 at BT 245170. The heavy section was placed in direct support of K-3/5 at BT 242167.

131900H. Set into night defensive positions.

D plus 9 (14 September)

140900H. Light section detached to return to combat base (Hill 35). Heavy section swept with K-3/5 from BT 242174 to Hill 83 (BT 248169). Set into defensive positions.

D plus 10 (15 September)

150900H. Three (3) Viet Cong in open spotted at BT 229147. Ontos at Hill 83 (BT 248169) fired four (4) rounds 106mm. One (1) Viet Cong KIA (probable).

151000H. 2nd Platoon, with K-3/7, commenced movement eastward to link-up with artillery.

151200H. 2nd Platoon, with K-3/5, received small arms fire from BT 255183. One (1) USMC KIA. Ontos, at BT 254185, returned fire with one hundred twenty-five rounds caliber .30, 75 rounds caliber .50 and five rounds 106mm. Ontos advanced within one hundred meters of target under fire. Destroyed house being used as cover by Viet Cong. Two (2) Viet Cong KIA (probable).

151435H. G-2/5 received small arms fire from two concrete dwellings at BT 258194. Called for Ontos support. Because of thick undergrowth and dense hedgerows Ontos could not return effective fire from a covered position. The Ontos Commander maneuvered his vehicle to within two hundred meters of the enemy position before he was able to return effective fire. Ontos fired fifteen rounds of caliber .50 spotter-tracer and five rounds 106mm, destroying both buildings completely. One (1) Viet Cong KIA (probable).

151700H. 2nd Platoon returned to Hill 35.

11. Results. Four (4) Viet Cong KIA (probable), three (3) houses destroyed.

12. Administrative Matters. No problems encountered.

13. Special Equipment and Techniques. None utilized.

CONFIDENTIAL

3123
20 Sep 196614. Commander's Analysis.

- a. This operation went a long way toward dispelling doubts as to cross-country travel capability of Ontos. Virtually all Ontos operating was done off the roads.
- b. Ontos fire appears to have been overcontrolled. Although suitable targets appeared, permission to fire was often denied. In some cases the target was fleeting, and had disappeared before other supporting arms could be brought to bear.

15. Recommendations.

- a. Increase the employment of Ontos units in a manner which exploits the inherent mobility and firepower of the Ontos.
- b. Give greater control in the employment of the Ontos to the local Ontos unit commander.

6. Supporting Forces:

a. Artillery: The 2nd Battalion, 11th Marines was in direct support of the 5th Marines for the operation. Reconnaissance platoons called a total of four fire missions with excellent coverage on two of the targets. There were fire adjustments delays encountered in all fire missions due to the narrow zone of action in which the 5th Marines were operating. During the firing of each mission clearance had to be obtained from at least one and sometimes two of the operating battalions because of the close proximity of the friendly forces. Additionally, the number

 DECLASSIFIED AFTER 12 YEARS
 DOD DIR 5200.10

CONFIDENTIAL

ENCLOSURE (6)

CONFIDENTIAL

of aircraft and med-evacs in the area created firing delays. One fire mission required two hours to complete. Artillery also fired 120 rounds as preparatory fire with good results on the landing zone used by the reconnaissance patrol.

b. Air: The 1st Marine Aircraft Wing provided helicopters for insertion, extraction and resupply of the reconnaissance patrol. Their use was preplanned with the exception of the extraction when only three hours notice was available to the aircraft. The helicopters operations were effective and timely.

7. Intelligence: See enclosure (1).

8. Mission: Conduct Reconnaissance Operations in support of the 5th Marines.

- a. On D-Day established Platoon OP at BT 183205
- b. On order established OP at BT 159264
- c. Be prepared to displace and reestablish OPs on order

9. Concept of Operation: See reference (b).

10. Execution: At 060730H (D+1) a reconnaissance platoon was inserted on hill 253 at coordinate BT 183205. The platoon established an OP in the same vicinity with their principle direction of observation to the east. Their secondary direction of observation was to the north. Observation was excellent in both directions. Throughout the operation communications were excellent. The reconnaissance platoon was in direct communication with the 3rd Battalion and its companies, providing the Battalion and the company commanders with immediate intelligence concerning the VC in these areas of operation. The platoon remained in position 33 hours and was extracted at 171600H Sept 1966.

11. Results: The reconnaissance platoon had 11 sightings of 67 VC. One fire mission resulted in two VC WIA, confirmed. Results of other fire missions could not be confirmed or observed, as there were no ground searches of the area. There were no losses of personnel or equipment in the reconnaissance unit.

12. Administrative Matters:

- a. Helicopters were used for all insertions, extractions, and resupply with excellent results.
- b. Radio communications were solely FM utilizing the AN/PRC 25. No communication difficulties were encountered during the operation.

CONFIDENTIAL

13. Special Equipment and Technique:

a. The reconnaissance unit maintained direct communications with the friendly units in the area providing timely intelligence and other operational information that facilitated the movement of the friendly units. This was good but it is felt that a reconnaissance communications net should be activated. This net should be separate from the battalion and company tactical nets. In addition to providing more rapid dissemination of reconnaissance information the outstanding advantage would be the removal of reconnaissance traffic from the tactical net, and the reduction of the communications burden in the reconnaissance unit. In order to provide timely information during a two battalion operation, it is necessary for the reconnaissance unit to guard a minimum of four nets, two battalion tactical nets and two company tactical nets. At times the reconnaissance unit could be guarding as many as six or eight nets depending on the number of companies forward. These nets are in addition to the reconnaissance company tactical net and the reconnaissance artillery request net. Considering the time of most reconnaissance patrols, 18-20 min, the method of operation and the other elements of their mission, security and observation, timely communication becomes difficult at best. The addition of a reconnaissance net within the battalion would help to alleviate the communications tie up. Further, it would only require the addition of one net that the company and battalion would be required to monitor. It would also eliminate the requirement for the infantry battalion to relay intelligence information from the reconnaissance units as the reconnaissance company headquarters can easily monitor the reconnaissance net and report information directly to the regimental S-2.

14. Commanders Analysis:

a. In operations of a limited nature, such as Operation NAPA, reconnaissance units could best be employed early to locate enemy movement in the objective area prior to the commitment of the infantry units. This should result in the best positioning of infantry units, and be especially applicable to operations where the use of a helicopter assault force as well as the best selection of landing zones.

b. In most instances the availability of a reaction force that could exploit the sighting of reconnaissance units would be profitable and provide numerous opportunities for contact that might otherwise be missed because of the lack of available units that could respond rapidly. During Operation NAPA there were two opportunities that in each case could have resulted in contact with at least twenty Hardcore VC. Artillery on these targets was ineffective because of the long delays that developed when trying to obtain clearance to fire.

CONFIDENTIAL

3. At one point in the operation the use of reconnaissance units as perimeter security and local ambush patrols was strongly considered. Although within the capability of reconnaissance units it is felt that if this had occurred the reconnaissance units would not have been employed to the fullest advantage. The use of trained reconnaissance personnel in this manner also effects the employment of reconnaissance in support of the remainder of the Division. When the above use of reconnaissance units was considered eight of the eleven reconnaissance platoons available to the CHU LAI area were committed and the other three had just returned from patrol.

15. Recommendations:

- a. That reconnaissance units be inserted at the earliest opportunity to take maximum advantage of their intelligence gathering capabilities. Their ability to direct fire can still be utilized during the latter stages of the operation.
- b. That infantry units establish a reconnaissance net as noted in paragraph 13a above.

PATROL REPORT

1. 1 Off, 16 Enl, 1 USN

2. Mission: In support of Operation NAPA, establish an OP on Hill 253 vicinity BT 184204 and conduct surveillance of the surrounding area. The primary direction of observation is SE, S, and E.

3. Time of Departure: 060630H

4. Time of Return: 071600H

5. Route: NONE

6. Synopsis: This patrol covered a period of 33½ hours, with 11 sightings of 67 VC. Directions and information was passed on to the 5th Marine units where appropriate, and 3 arty fire missions were called-resulting in 12 VC KIA probable and 2 VC WIA. The patrol found 4 Chicom grenade booby-traps which they disarmed and turned in to EOD; all day on the 7th the patrol's OP received sporadic sniper fire.

7. Observation (Enemy and Terrain)

TIME	COORDINATES	OBSERVATION
060630H	BT 184205	4 Chicom grenade booby-traps found in LZ; were blown in place or disarmed.
060745H	BT 209196	5 VC moving N, blk PJ's, packs and rifles.
060802H	BT 196181	4 VC moving N, blk PJ's and coolie hats, rifles and packs.
060810H	BT 192227	4 VC moving NW, double timing, blk PJ's, rifles.
060815H	BT 184238	16 VC moving W, then N, utility type uniforms, soft covers, camouflaged with sticks and brush, rifles and packs. Fire mission called, good coverage but damage unobserved.

DECLASSIFIED

060930H	BT 184240	7 VC joined the 16 above; utility uniforms, soft covers, packs and rifles. Appeared to be rear guard.
061027H	BT 179251	1 VC moving W on trail, utilities and soft cover, pack and rifle.
061230H	BT 194201	5 VC; 3 male and 2 females, blk PJ's 2 rifles.
061231H	BT 194201	2 VC, 1 WIA being carried by the second man; blk PJ's, coolie hats, 1 rifle.
061235H	BT 190199	Fire mission on above mentioned VC, good coverage, unobserved results.
061430H	BT 139232 BT 095242	4 signal fires lighted in succession burned for $\frac{1}{2}$ hr. 1 hr later they were lighted again.
070600H	BT 196228	3 VC moving N at double time, blk PJ's coolie hats, 1 rifle.
070940H	BT 199228	13 VC moving E toward friendly USMC company; utilities and soft covers, 1 A-4 MG, packs and rifles. Called fire mission outstanding coverage of woodline, 12 VC KIA probable, 2 VC WIA.
071231H	BT 186227	4 VC came out of woodline vicinity of fire mission; 2 walking and 2 wounded.
071536H	BT 211225	5 VC moving NE on trail at double time, utilities and soft covers, 5 packs and 5 rifles. USMC squad got in fire fight with VC.

8. Other Information: The OP on Hill 253 is good but offers no cover or concealment; tallest growth is 18" high. All day on the 7th, this patrol received small arms sniper fire in vicinity of their position.

9. Results of Encounters with Enemy: None

10. Condition of Patrols: Good

11. Conclusions and Recommendations: If better communication with the small units (plts) could be worked out between the infantry and recon teams, reaction of infantry units to information observed by the recon team would be much better.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

- (1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.
- (2) Section Journal. Enter time information is received within section.

b. Time Out:

- (1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.
- (2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

- (2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

- (f) Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

- (5) Oral messages are reduced to writing and processed like written messages.

- f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

- Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

- a. Unit or Section:
 - (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
 - (2) Enter designation of section if this is a section journal maintained by a general staff section.
- b. Place: Enter coordinates or name of locality.
- c. From: Enter date, time, and time zone that journal is opened.
- d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

- (1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

- (2) Section Journal. Enter time information is received within section.

b. Time Out:

- (1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

- (2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

- c. Serial No.: Number each entry consecutively as information is received by keeper of journal.
- d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages and orders are recorded as they are made known.

- (2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

- f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

- Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

a. Time In:

- (1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.
- (2) Section Journal. Enter time information is received within section.

b. Time Out:

- (1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

- (2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages, and orders are recorded as they are made known.

- (2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

- f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

- a. Unit or Section:
 - (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
 - (2) Enter designation of section if this is a section journal maintained by a general staff section.
- b. Place: Enter coordinates or name of locality.
- c. From: Enter date, time, and time zone that journal is opened.
- d. To: Enter date, time, and time zone that journal is closed.

2. Body:**a. Time In:**

- (1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

- (2) Section Journal. Enter time information is received within section.

b. Time Out:

- (1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

- (2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

- e. Serial No.: Number each entry consecutively as information is received by keeper of journal.

- d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages and orders are recorded as they are made known.

- (2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

- f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

- Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

- a. Unit or Section:
 - (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
 - (2) Enter designation of section if this is a section journal maintained by a general staff section.
- b. Place: Enter coordinates or name of locality.
- c. From: Enter date, time, and time zone that journal is opened.
- d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

- (1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.
- (2) Section Journal. Enter time information is received within section.

b. Time Out:

- (1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

- (2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages and orders are recorded as they are made known.

- (2) Although brief, entries must include all vital elements of information; such as what, where, when, how, and who.

- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

- f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

- a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

- Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.
