REGIMENTAL ORDER P3400.1F

From: Commanding Officer
To: Distribution List

Subj: Standing Operating Procedure (SOP) for Nuclear, Biological, and Chemical Defense

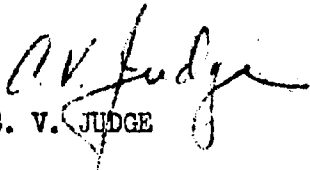

Ref: (a) MCO 3400.3A
(b) DivO 3400.4E

Reports Required: (I) NBC Defense Team Roster Par 101.3
(II) NBC Defense Equipment Inventory Par 301.2

1. Purpose. To promulgate Nuclear, Biological, and Chemical Defense procedures to be used in both training and combat.

2. Cancellation. RegtO 3400.1E.

3. General. It is the responsibility of each unit commander to ensure that his unit is capable of surviving an NBC attack and continuing to accomplish its mission in an NBC environment. This order, together with references (a) and (b), sets forth standing operating procedures to assist commanders in preparing their units for NBC Operations.

C. V. JUDGE

SECTION IV		
NUCLEAR, BIOLOGICAL, AND CHEMICAL DEFENSE PROCEDURES	401	4-1
ORGANIZATION	401.1	4-1
STAFF RESPONSIBILITIES	401.2	4-2
SUBORDINATE UNIT RESPONSIBILITIES	401.3	4-3

SECTION I101. DEFENSE PERSONNEL

1. The Commanding Officer will assign a Regimental NBC Defense Officer and NCO. Normally, the billet of NBC Defense Officer will be assigned to the Regimental S-3A as an additional duty and the billet of NBC NCO should be assigned as a primary duty to a non-commissioned officer having an MOS of 5711. Additional personnel will be assigned to assist in NBC functions, as required.
2. Each company-size organization in the regiment will organize and maintain an NBC Defense Team consisting of at least one officer and four enlisted assistants. At least two of the enlisted team members should be capable of performing the following missions:
 - a. Advise the Company Commander of NBC matters.
 - b. Supervise and conduct NBC training within the unit.
 - c. Operate and perform 1st echelon maintenance on the protective, detective, and NBC sampling equipment organic to the unit.
 - d. Perform decontamination of all equipment organic to the unit.
 - e. Establish and supervise a personnel decontamination station.
3. Current rosters of personnel assigned to NBC Defense Teams will be maintained by Battalion NBC Defense Officers and an up to date roster in the format of Figure 1-1 submitted quarterly to this Headquarters (Attn: S-3) by the last day of each quarter.

SECTION IINuclear, Biological, and Chemical Defense Training Procedures and Proficiency Standards201. PROFICIENCY STANDARDS

1. Standards of individual proficiency in NBC training and defense are set forth in references (a) and (b). All Marines must be basically familiar with the capabilities and limitation of NBC/RCA attack weapons, and the defensive equipment organic to the unit.
2. Standards of unit NBC training are established by references (a) and (b). Each unit must have sufficient training in NBC defense measures to enable it to maintain its unit integrity and perform its mission under conditions of NBC/RCA attack.

202. TRAINING POLICY

1. In addition to the training policy stated in reference (b), the following requirements apply:

- a. Company and platoon level training will be conducted on the employment of Riot Control Agents (RCA). All units will familiarize their personnel with the E-8 CS Launcher and M106 Mighty Mite portable dispenser.

- b. The protective mask M-17 will be carried on all operations and carried by all personnel involved in the defense of bridges, and defense of static installations. Individuals will be held accountable for the maintenance of the M-17 protective mask.

203. PROFICIENCY DRILLS. Unit Commanders will conduct proficiency drills to ensure that all personnel are capable of initiating individual and unit protective measures.

204. SCHOOL TRAINING. School training at Division level in-country is not presently available.

SECTION III301. NBC DEFENSE MATERIAL1. Inspection

a. All units will conduct periodic inspections of all NBC equipment in storage to include technical inspections by qualified personnel. Cool and dry storage areas are required for the storage of NBC equipment. Special packing requirements for NBC equipment in tropical climates are listed in reference (b).

b. Field Protective Masks require special maintenance and inspection.

(1) All M-17 Field Protective Masks will be inspected weekly by individual personnel. The following items will be checked:

- (a) Eye lens for cracks.
- (b) Voice emitters for cracks or holes.
- (c) Mold or rot on rubber or fasteners.
- (d) Canister filter elements for water.

(2) All personnel will use the waterproof bag designed to protect the mask from moisture.

c. Rubber suits and other rubber and rubberized equipment will be inspected for evidence of deterioration of the rubber due to heat. Protective measures will be taken to insure that all rubber items are stored correctly in accordance with reference (b).

d. Radiac equipment will be inspected and stored in accordance with existing publications currently with the instruments. Calibration of all radiac equipment will be accomplished by 1st FSR every six months. Radiac instruments will not be stored with the batteries installed. Instruments destined for embarkation will be packed so as to withstand rough handling and will be waterproofed.

2. Reports. NBC Defense equipment must be inspected and inventoried quarterly. An inventory of NBC material on hand, and a listing of supply actions taken to fill deficiencies will be submitted to this Headquarters (Attn: S-3) quarterly on the last day of each quarter utilizing the format in Figure 3-1.

302. TRAINING ALLOWANCES OF NBC MATERIALS AND MUNITIONS. Allowances for training will be published separately.

401.2

SECTION IV401. NUCLEAR, BIOLOGICAL, AND CHEMICAL DEFENSE OPERATING PROCEDURES1. Organization

a. The control and direction of NBC defense effort within the Regiment is a function of the S-3.

b. On order of the Commanding Officer, a Regimental NBC Defense Center will be activated. It will be composed of the personnel assigned in accordance with paragraph 102.1 of this order.

2. Staff Responsibilitiesa. Regimental S-1

(1) The Regimental S-1 will keep advised of the radiation, biological, and chemical level in the area occupied by the units of the Regiment, and in conjunction with the NBC Defense Officer, advise the Commanding Officer when units are approaching a predetermined level of radiation dosage, biological, or chemical contamination, and when they may require rotation as NBC casualties. The S-1 will assign personnel having NBC occupational specialties to NBC billets.

b. Regimental S-2

(1) Maintain a current estimate of the NBC capability of the enemy.

(2) Disseminate information of enemy employment of NBC weapons.

(3) Process and forward all captured enemy NBC munitions and equipment.

c. Regimental S-3

(1) Recommend operations plans/orders in consideration of enemy capabilities and actions.

(2) Prepare plans for the continuation of the regimental mission in the event of mass evacuation of a subordinate unit or units.

(3) Supervise the activities of the NBC Defense personnel assigned to the S-3.

4-1

401.2

d. Regimental NBC Defense Officer (Assistant S-3).

- (1) Provide assistance to members of the executive and special staff on NBC Defense matters.
- (2) Assists in preparation of troop safety plans.
- (3) Maintain a continuous estimate of vulnerability to NBC attack.
- (4) Prepares initial assessment of damage to friendly units resulting from enemy NBC attack.
- (5) Assist in preparation of the NBC Annex to operations plans and orders as appropriate with the threat of enemy use or likelihood of employment by friendly troops.
- (6) Utilize an NBC Defense Center or Combat Operations Center to perform the following functions.
 - (a) Notify Commanding Officer and insure dissemination of warnings from higher authorities that the enemy has initiated employment of NBC weapons or employment of such weapons is considered imminent.
 - (b) Prepare fallout prediction messages and disseminate locations of areas of hazard resulting from nuclear fallout.
 - (c) Coordinate NBC surveys when required on Regimental level.
 - (d) Maintain current NBC contamination overlay for the situation map.
 - (e) Maintain a file of current capabilities of subordinate and reinforcing units to perform the mission of NBC monitoring and surveying.
 - (f) Coordinate use of RCA within the area of operations controlled by this Regiment.
 - (g) Process and forward all requests for the employment of RCA from subordinate units.

e. Regimental S-4

- (1) Supervise area damage control and mass evacuation.

4-2

(2) Recommend the establishment of decontamination station in conjunction with NBC Defense Officer.

(3) Estimate requirements for, and make recommendations on the distribution of NBC Defense equipment.

f. Regimental Communications Officer

(1) Provide one radio operator for each monitor team as required.

(2) Fill the communication requirement involved in mass evacuation.

g. Regimental Surgeon

(1) Supervise the training of medical teams in the treatment of NBC casualties.

(2) Prepare plans for mass casualties involved in NBC warfare.

h. Regimental Motor Transport Officer

(1) Make available aircraft for survey and monitoring of large areas.

(2) Process all requests for all air-delivered RCA munitions.

3. Subordinate Unit Responsibilities

a. Establish Battalion NBC standard operating procedures.

b. Train all Marines in basic NBC Defense measures and employment of RCA ordnance.
