PART II
NARRATIVE SUMMARY1. Personnel and Administrative.

a. The Administrative Rear (Chu Lai, RVN) moved to 11th Motor Transport Battalion Compound (DaNang, RVN) during 3-5 July 1967. Administrative functioning during July was complicated by fluctuating helicopter transportation, as well as from communication problems between the Battalion at Que Son and the Administrative Rear at DaNang.

b. The rotation caused further difficulties with incoming mail being delayed five days. The mail problem was satisfactorily resolved with the establishment of a Post Office by the 5th Marine Regiment handling 1st Battalion, 5th Marines mail. A daily mail run was established for incoming mail by helicopter from the 5th Marine Regiment to 1st Battalion, 5th Marines (Que Son, RVN).

c. Mobile postal and PX runs made from the 1st Marine Division were successful in providing postal service and providing health and comfort items to Battalion members.

d. On 25 July 1967, an Awards Ceremony was conducted at the 1st Battalion, 5th Marines Combat Base. The Regimental Commander, 5th Marines presented the following awards: One Navy Commendation Medal, two Purple Heart Medals, and two Commanding General's Certificates of Commendation.

e. During the month the Commanding General, 1st Marine Division visited the Combat Base on three occasions. On four occasions the Commanding Officer, 5th Marines visited the Combat Base.

f. The construction of a Battalion Memorial Chapel was accomplished from contributions made by members of the command. Local Vietnamese were hired for the construction job. On 30 July 1967, the Commanding General, 1st Marine Division and Commanding Officer, 5th Marines attended the New Chapel dedication. The Commanding General delivered a short address.

2. Enemy, Weather and Terrain.

a. During July 1967, the enemy continued to operate in the vicinity of the combat base. The enemy strength was estimated to be one regiment equivalent consisting of varied, identified and unidentified units. Information received from the Sub-Sector Que Son District Chief and rated C-3 by the Battalion S-2 revealed the following information concerning enemy unit designation and location. The 105th NVA Battalion operated generally to the north of the Battalion's Combat Base; and a training Battalion, the 70th NVA located in vicinity (AT 984367) were the two identified units in the AO. Unidentified units according to aforementioned source are company sized units at coordinates (BT 065404), (BT 080407), and Battalion sized units at (BT 083354), (BT 086353) and (BT 063268). Follow-up action was taken on intelligence reports received from Que Son District during July 1967.

b. The weather during July was humid with occasional rains. The average high temperature was 97 degrees and low was 81 degrees.

c. The Que Son area is a mountainous promontory about nine miles long and four miles in width and orientated in a general northeast to southwest direction. The area is cut by the KHE SUOI NOR RIVER northeast to southwest. The river provides a corridor which is the best avenue of approach into the center of the mountains. A finger of mountains southwest of the Battalion's combat base can provide an excellent withdrawal route for the enemy.

d. Bamboo and scrub are the prime vegetation feature. This factor restricts long and short observation and limits the availability of suitable helicopter landing zones.

3. Organization and Operations.

a. During July, the Battalion did not participate in any large scale operation, but continued to actively and aggressively control the area adjacent to the combat base at Hill 51 (BT 025345). Company size operations and daily platoon and squad patrols; including tank/infantry and ontos/infantry patrols were conducted.

b. On 6 July 1967, the Battalion was assigned the responsibility for providing BALDEAGLE (Alert Company) for the 5th Marine Regiment. The Battalion maintained this assignment for the duration of the month. During the period of 19-29 July 1967, operational control of Company B was passed to the 2nd Battalion, 7th Marines. On 25-26 July 1967, operational control of Company C was passed to the 3rd Battalion, 5th Marines. Company C while conducting search and destroy operations with the 3rd Battalion, 5th Marines accounted for the capture of one M-60 machine gun, 1 M-16 rifle and 6 VC KIA confirmed.

c. Improvement on the tactical wire and field fortifications were continued throughout the month. Secondary and supplementary positions were constructed. Fields of fire continued to be cleared and the Battalion defensive fire plans were refined.

d. During the month, five Red Alert drills were conducted testing the alertness of the Combat Base. On each occasion, the alternate COC was manned. During one drill, RCA was integrated to test the alertness and reaction of troops. All the drills were considered to be successful.

4. Training.

a. Training was conducted on both Battalion and company level with emphasis continuing on familiarization firing of individual weapons, instruction on the M-16, fire discipline, fire distribution, leadership and weapons safety, indoctrination of new personnel, proper use of M-17 gas mask, ambush techniques and small unit tactics.

b. On 10 July 1967, the Deputy Chief of Staff, 1st Marine Division arrived at the Combat Base with an M-16 rifle instruction team. Available officers, SNCO's and NCO's of the Battalion were presented a period of instruction on the proper care and maintenance of the M-16 rifle.

c. The Battalion continued to utilize schools provided by higher Headquarters. During the month of July 1967, 13 Marines attended schools in DaNang, RVN and Okinawa.

5. Logistics.

a. During the month of July 1967, there were a significant increase in the buildup of the Combat Base. Due to normal supply of building materials and movement of the Battalion Rear to Hill 51, work was completed on the OOC and BAS bunkers. Presently the engineers are constructing the communications bunker. Nine prefabricated heads were also constructed.

b. On 17 July 1967, water tanks and pipe were received for establishing a second water point for messhall resupply and resupply of Nui Lac Son. The water point was finished on 20 July 1967, and the helicopter resupply of water to Nui Lac Son was begun on 21 July 1967.

c. On 23 July 1967, General Purpose Tents were issued throughout the Battalion for living spaces. In conjunction with the receipt of building materials, the movement of the Battalion Rear was continued to Hill 51.

d. On 9 July 1967, the company offices, Battalion Supply and Motor Transport initially moved from DaNang to Hill 51. This movement was completed by 15 July 1967. About 80% of the Battalion's organic supply and equipment has been moved from DaNang to the Combat Base.

6. Civil Affairs/Civic Action.

a. During July, 1010 Vietnamese civilians were treated by the Battalion MEDCAP team. One Vietnamese girl is being trained as a nurses aid. The MEDCAP program is being expanded to include dental extractions by the medical officer. 29 dental extractions were performed during July 1967.

b. The Commanding Officer and Staff members of the Battalion hosted a dinner at the Battalion messhall for the Que Son District officials on 2 July 1967.

c. A total of 15 Vietnamese civilians were employed in the construction of the Battalion Chapel. Beginning 26 July 1967, they assisted in erecting the Chapel frame. 27 July 1967, the roof was begun and it was completed the following day. The dedication for the Chapel was held 30 July 1967. The rapid construction of the Chapel which was achieved with local indigenous manpower, represents an increasing good will between local Vietnamese civilians of Lanh Thuong (5) and the Marines of the 1st Battalion, 5th Marines.

[REDACTED]

d. A program previously designed to benefit both Vietnamese civilians and the Marines of the 1st Battalion, 5th Marines was continued during the month with the delivery of wet garbage for livestock feed to the Vietnamese in exchange for bamboo needed for construction requirements within the Combat Base.

e. On 23 July 1967, the Commanding Officer accompanied by 5 Staff members attended the wedding reception of the Assistant Village Chief of Que Son Village.

f. On 31 July 1967, the Commanding Officer presented a flag to the Que Son District Chief at a flag raising ceremony held in Lanh Thuong (5) Hamlet. The flag is being flown from a flag pole presented to the villagers by the battalion.

7. Psychological Operations.

a. The Psychological Operations Team, attached to the Battalion, conducted loudspeaker broadcasts to Vietnamese in the area of the Combat Base, urging them to return to RVN controlled areas. Leaflets were distributed by local patrols emphasizing the Chieu Hoi and weapons/booby traps reward program.

b. During the month, local Vietnamese leaders have turned two Chieu Hois over to the Battalion. The Battalion has paid out 800 piasters to local Vietnamese civilians for pointing out booby traps.

8. Comptroller Activities.

a. 1st Battalion, 5th Marines started FY 1968 activities with a budget authorization of \$70,000.00.

9. Communications.

a. During the first half of the month, the communication platoon, 1st Battalion, 5th Marines received an AN/MRC-62 radio relay van and team from the 5th Marine Regiment and established telephone communications. Throughout the month communications equipment received first and second echelon maintenance. On 17 July 1967, teletype was installed and full scale operations began on 22 July 1967. Electrical wiring was provided for essential working spaces and wiring of the combat base. On 21 July 1967, communications equipment and wirelines were installed in the new COC bunker. A complete inventory of the Battalion's communications equipment was completed and the construction of the new communications bunker was started.

6. Supporting Forces.

a. Air

(1) During Operation "CALHOUN", air support was provided by the 1st Marine Air Wing. On D+3 a TAC/A directed two air strikes. The first strike was conducted in vicinity (AT 985375) against a target consisting of 7 VC observed by Company B. One flight of A4 aircraft were directed on the target, in support of Company B. Subsequent to the strike, the area was searched with negative results. The second air strike was conducted in vicinity coordinates (AT 978361) as an area preparation controlled by the Air Liaison Officer. A TAC/A directed one flight of A4's on the target.

(2) TAC/A and AO were utilized throughout the operation by all participating units.

(3) FAC teams were assigned with each participating unit. The Air Liaison Officer moved with the Command Group.

b. Artillery

(1) Battery D, 2nd Battalion, 11th Marines was in direct support of the 1st Battalion, 5th Marines during Operation CALHOUN. On call fires were planned to secure the left flanks of the Battalion, to fire preparation fires on objective areas and on terrain along the Battalion's route of advance.

(2) Company A used artillery on D-Day in vicinity (AT 001409) to recon by fire. The results of the mission were two fold - it enabled the company to mark its route of advance and disclosed some VC activity in the area.

(3) The Battalion Command Group was supported by Battery D on D+1 when two rounds of illumination were fired in vicinity (AT 004389) after two incoming grenades and some small arms fire were taken by the command group. On D+2 four (4) rounds of 105mm HE were fired in vicinity (AT 013377) a route of advance into the CP area. Battery D supported Company B on D+3 by firing in vicinity (AT 985374), when snipers were observed in the area. Coverage of the target area was excellent and further activity in the area was unobserved.

(4) H&I fires were fired nightly in the operating area, on harbor sites, avenues of infiltration, mortar sites and other likely places of VC activity. Artillery fire provided during the operation was quick, responsive and effective.

(5) An Artillery FO team was assigned with each participating unit. The Artillery Liaison Officer moved with the Command Group.

c. Engineers

(1) Engineer support was provided by Company B, 1st Engineer Battalion with engineer teams assigned with each company and the Command Group. During the operation, engineers were effectively employed to destroy numerous caves and tunnels.

7. Intelligence.

a. Estimate of Enemy Strength, Location, and Disposition in the Objective Area.

(1) Forces anticipated in the immediate area.

| NAME/NUMBER | UNIT | TYPE | LOCATION | STRENGTH | TACTICAL DISPOSITION |
|--------------|------|---------------|----------|----------|------------------------------|
| 3rd NVA Regt | NVA | BT 0826 | | 660 | Well trained and disciplined |
| K-50 Company | LF | Base Area 116 | 70 | | Unknown |
| Q-13 Company | LF | Base Area 116 | 80 | | Unknown |

(2) Intelligence was initially provided to this unit by the 5th Marine Regiment and 1st Marine Division PERINTREP 12-67 (Base Area 116) (Update).

b. Enemy Strength and Situation Actually Determined During the Operation

(1) Little opposition was encountered during the operation and those met seemed to have been taken by surprise indicating there was an apparent communications deficiency among the enemy.

c. VC/NVA Units Identified.

(1) Local Guerrillas

d. Significant Intelligence Gained.

(1) It was discovered that the Vietnamese populace were friendly and of a cooperative nature when approached for information but at times were hesitant to volunteer information in apparent fear of VC reprisal.

(2) The suspects captured displayed obvious fear when approached by Marines.

(3) Interrogation of detainees indicated a strong infrastructure, consisting of Youth, Farmers and Women's Associations.

(4) The objective of this operation was to fix and destroy forces and supplies in the objective area.

e. Terrain.

(1) Critical Terrain Features.

(a) HON NUI TAU (AT 970389), elevation 3,129 feet.

(b) NUI MAT RANG (AT 983432), elevation 2,771 feet.

(2) Relief and Drainage.

(a) The area is a mountainous promontory approximately nine miles long and four miles wide. It is oriented generally northeast and southwest. The area is prominently cut northeast to southwest, by the KHE SUOI NOI River. This river provides a corridor which is the best avenue of approach into the center of the mountains. Extending southwest of the base area is a finger of mountains which would provide the enemy an excellent route of withdrawal.

(3) Vegetation.

Predominately evergreen forest and scrub. This placed a restriction on long and short observation and limited the availability of suitable helicopter landing zones.

(4) Obstacles.

A few rivers and streams traversed the objective area, but did not present any major problems to foot movement. Tank movement in this area is severely restricted.

(5) Avenues of Approach.

(a) Trails in the operational area were good to excellent for foot troops.

f. Cross Country Movement.

(1) No unusual problems were encountered for infantry.

g. Weather.

(1) Throughout the operation, the weather was warm and humid with late afternoon showers, and, for the most part, unrestricted visibility.

8. MISSION.

a. Commencing on D-Day conduct S&D operations into vicinity of Division Objective 2 to discover and capture or destroy enemy forces, supplies and equipment therein.

9. CONCEPT OF OPERATION.

a. The 1st Battalion, 5th Marines (-) commences movement to LOD, at H-Hour, continues attack to Objectives A and B and conducts reconnaissance in force along routes of advance Spring and Summer and conducts combat patrols in the lowlands contingent to the hill mass comprising Base Area 116.

Medical supplies were forwarded to 5th Marines S-2. Results: 1 VC (WIA).

(9) 301430H Company A located in vicinity (AT 970320) received 50-75 rounds small arms fire from 15-20 VC, wearing green type utilities, located in vicinity (AT 958321). Company A returned fire with 150-200 rounds small arms fire, 10 M-79 rounds and 20 60mm HHR rounds. An air strike was requested and completed at 1705H, Company A sustained two casualties. A medical evacuation was effected to extract the USMC casualties from the operational area. Following the air strike, elements were dispatched to search the area. Blood trails were found indicating 6 VC KIA probable. Results: 1 USMC KIA, 1 USMC WIA, 6 VC KIA probable.

(10) 301715H Company A was directed to continue attack to Objective 5.

(11) 301845H Company A located in vicinity (AT 982314) received 20 rounds small arms fire from an unobserved sniper located in vicinity (AT 987-316). Fire was received from the northeast at a distance of approximately 300 meters. Company A returned fire with 40-50 rounds small arms fire, 10 M-79 rounds and 3 60mm HHR rounds. The area was searched with negative result. Results: 1 USMC WIA.

(12) 301942H 19 refugees located in vicinity (AT 985325) requested that Company A evacuate them from the area.

(13) 301942H Company A established night defensive perimeter in vicinity (AT 986356).

h. D+6. 1 July 1967

(1) 010600H 1st Platoon Company C, and tanks departed for the Combat Base with 19 refugees. See 301900H.

(2) 010700H Company A located in vicinity (AT 983322) received 10-15 rounds small arms fire from an unobserved sniper located in vicinity (AT 978-313). Fire was received from the southeast at a distance of 500 meters. Company A returned fire with 30-40 rounds small arms fire and 8 M-79 rounds. The area was searched with negative results.

(3) 010810H Company A arrived at Objective 5.

(4) 010830H Company A located in vicinity (AT 992309) received 25-30 rounds small arms fire from an unobserved sniper located in vicinity (AT 995-313). Fire was received from the northeast at a distance of 400-500 meters. Company A returned fire with approximately 325 rounds small arms fire and 10 M-79 rounds. A squad searched the area with negative results. After the squad passed through the area, the sniper resumed firing, wounding 2 Marines. The area was taken under fire with 60mm and 4.2 inch mortar fire. Company A secured an LZ and requested an emergency medical evacuation. The medical evacuation helicopter received 5-10 rounds small arms fire while attempting to land. After the medical evacuation was completed, the area was searched with negative results. 2 USMC WIA.

(5) 010915H 1st Platoon, Company C and tanks returned to the Combat Base with 45 refugees. Refugees were questioned and turned over to the QUE SON District Refugee Center.

(6) 011045H During the questioning of the refugees, one Vietnamese male was pointed out as being a VC. During the interrogation, the VC readily admitted to being an economist of the VC cadre and stated he no longer wanted to work for the VC. He admitted this was the first opportunity he had to get away from the VC. In his possession, he had a small box containing papers with Chinese writing, assorted medicines, 2 changes of clothing, and 3300 piasters. Medicines, papers and piasters were forwarded to 5th Marines S-2.

(7) 011200H Company A continued to conduct search and destroy operations in accordance with enclosure (13).

(8) 011200H Operation CALHOUN terminated.

12. Administrative Mattersa. Supply

(1) Resupply was effected by helicopters controlled by Helicopter Support Teams provided by the 1st Platoon, Company B, 1st SP Battalion. HST's were attached to each participating company and the Command Group.

(2) Initially 6 MCI's were carried by each individual. This proved adequate for a three day period. A basic allowance of ammunition and 3 canteens were carried by each individual. Ammunition resupply requests were processed through routine missions. Water presented no problem due to the numerous streams located in the operating area. In addition to individual weapons, machine guns and both 60mm and 82mm mortars were carried on the operation.

b. Maintenance

(1) Cleaning equipment for crew served and individual weapons was carried by all units. Weapons were cleaned and inspected on a daily basis. No maintenance problems were encountered during the operation with weapons or equipment utilized by the battalion.

c. Treatment of Casualties and Evacuation and Hospitalization

(1) Casualties were initially treated by 3 corpsmen attached to each letter company and 2 corpsmen and Battalion Surgeon moving with the Command Group.

(2) Casualties were evacuated by helicopter and were transported to a Collecting and Clearing Company located at the LSA at TAN KY, RVN. At the Collecting and Clearing Company, casualties were processed and further transferred to field hospitals located in the CHU LAM and DI NANG area.

d. Transportation

(1) The only transportation utilized during the operation was helicopters. Helicopters were utilized to effect routine resupply missions and medical evacuations. On D+4, 23 refugees were transported by helicopter to the battalion combat base. One minor problem was experienced with the helicopters. The mountainous terrain of the operating area offered few landing zones for the helicopters.

e. Communications

(1) Operating units were in close proximity to each other. As a result, no significant problems were encountered with communications.

12. Medical Evacuation

(1) Each corpsman carried sufficient medical supplies to provide adequate treatment of the wounded, until a medical evacuation could be effected.

(2) Casualties were evacuated by helicopters. The arrival of helicopters was timely on all evacuations.

(3) The battalion had no heat casualties, although the temperature reached highs of around 100 degrees. Omission of upper torso body armor and command attention to the consumption of salt tablets were factors in preventing heat casualties.

13. Special Equipment and Techniques

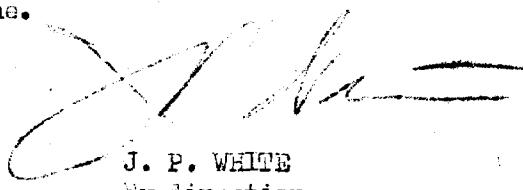

No special equipment and techniques were utilized by this Battalion during Operation CALHOUN.

14. Commanders Analysis

a. Operations in mountainous terrain with jungle canopy require renewed attention to the principals of land navigation and compass reading. The problems were further complicated by the variations in terrain height and the corresponding effect on vertical distance traveled.

b. This operation presented no serious problems of resupply or availability of water because deployments and resupply were planned to take advantage of available landing zones and water points.

15. Recommendations. None.
