During this reporting period, the enemy continued his probing, sniping and harassing tactics with emphasis on avoiding any large scale contacts. An increase of mines/booky traps employed by local force VC and hamlet guerillas was quite evident. During this period, 129 incidents were recorded, 66 of these were M-26 grenades, the remaining consisted of M-33 grenades; 60mm, 81mm, 82mm mortar rounds; 105mm, 155mm and 8" artillery rounds. On numerous occasions, the enemy crossed the Song Thu Bon river between (AT 878508) and (AT 906524). Artillery fires placed at these crossings resulted in over 40 enemy killed.

On 30 January, a major contact was made with a force of 300 NVA in the northeast part of the AO (AT 997542), in which the enemy suffered a major defeat of 73 KIA.

Enemy units identified in the AO during this period were the Q82 LF Company, R20 LF Battalion, Group 44 Headquarters, and an unidentified NVA com-munications unit.

c. Supporting Arms

(1) Air. The month of January showed and increase in the tempo, as well as the scope, of air operations flown in support of this Battalion. During this period, the 1st MAW and USAF rendered excellent fixed and rotary wing support, a summary of which is as follows:

(a) Fixed Wing. This support consisted of 18 flareships for 13.1 hours; 17 C47 gunships for 23.5 hours; 105 TACA/AO Teams provided 130.5 hours of time on station for VR's, protective cover, and controlling Tactical Air Strikes (TAS). 143 TAS missions were flown in support of the Battalion, providing close and deep air support for contact missions as well as against S-2 targets and targets of opportunity detected by AO's and ground units. TACA/AO Teams controlled 70 airstrikes. 17 FAC controlled and the remaining TAS missions were A-6 Radar Beacon strikes.

Of the total TAS missions flown during the month, definitive bomb damage assessment is available for only 82 flights and is listed below:

Structures Destroyed 116	-: -:
Bunkers Destroyed 19	- i, .
Trenchline Destroyed (Meters) 250	
Treeline Destroyed (Meters) 3400	
Secondary Fires (Non-napalm) 11	٠.
Secondary Explosions 21	
KBMA 85,	, 2
Structures Damaged 8	11111
Sampans Destroyed 10	(
Total Ordnance Dropped 1,231,500	lbs

(b) Rotary Wing. Helicopter operations consisted of daily resupply missions; 2 troop lifts for the Command Group; 1 VR; 3 Gunships; and Med-Evac missions for 226 USMC (105 of whom were emergency category) and 23 indiginous personnel.

- (c) <u>Night Owl</u>. This month 1st Battalion, 5th Marines initiated a new concept "Night Owl" (Close air support at night). These air strikes were controlled by the FAC which consisted of marking the targets at night with artillery and 81mm mortar illumination, timed to burst at ground level. Experience proved a string of four covering an area of 100-150 meters marked the target best and provided the pilot a good ground reference for this attack. Each flight carried napalm and 500 pound bombs. Napalm was dropped first to further mark the target. The results were excellent and this system proved to be accurate. Excessive damage and numerous KBA's were observed through a Starlight scope. This in close coordination with Spooky and A-6 Beacon strikes provides the Battalion with a 24 hour air strike capability and denies the enemy the safe cover of darkness for his operations.
- (2) Artillery. On 1 and 2 January 1969, D Battery, 2nd Battalion, 11th Marines was in direct support of the Battalion. During the period of 3-31 January, direct support was provided by Tango Battery and a platoon from Whiskey Battery, 2nd Battalion, 11th Marines. Reinforcing fires were provided by 2nd Battalion, 11th Marines and by the 1st Field Artillery Group. Tango Battery fired 169 missions, of which 10 were contact missions, with a total of 1732 rounds expended. Whiskey Battery fired 153 missions, of which 19 were contact missions, with a total of 1326 rounds expended.
 - (3) Engineers. Excellent support was again provided by Company B, 1st Engineer Battalion. Engineers were employed principally to destroy duds, booby traps, captured enemy ammunition, enemy bunkers/fortifications and to conduct daily mine sweeps of the road networks in the 1st Battalion, 5th Marines AO. Numerous mines and booby traps were detected by visual sightings and mine detecting equipment. Loss of lives, wheeled and track equipment was considerably reduced by the detailed searching effects employed by the engineers.
 - (4) Shore Party (HST). HST's were provided by Company B, 1st Shore Party Battalion. These teams provided satisfactory support in coordinating and effecting helicopter resupply and Med-Evacs.
 - (5) Amtrac. A light section of the 4th Platoon, Company A, 3rd Amtrac Battalion was in direct support of the 1st Battalion, 5th Marines from 12 January and continues into the month of February 1969. The LVT's provided satisfactory support in transporting troops.

- (6) Tanks. A light section of the 2nd Platoon, Company B, Tank Battalion was in direct support of the 1st Battalion, 5th Marines. Excellent results were achieved by using tanks to support the daily MSR mine sweeps and providing direct fire support to the daytime Battalion
- (7) Scout Snipers. Detachment Scout Sniper Platoon, Headquarters Company, 5th Marines provided excellent sniper fire for the Battalion, which resulted in 5 enemy kills during the month.
