5. CHAPLAIN

During the month of July, the Chaplain conducted 8 Sunday Catholic services with 190 men in attendance and 21 daily Catholic worship services with 198 men in attendance. He also visited 20 patients in hospitals in Danang. He handled 15 Red Cross calls and counselled 40 Marines. He arranged for 4 Protestant Sunday services to be held. 130 men atte ded those services. He offered Catholic Mass for other Marine units twice with 22 men in attendance. In Civic Action matters, he assisted the Battalion S-5 in making contact with the Vietnamese Priest, in the An Hoa area who has recently been assigned to establish a parish and is in need of much assistance.

HAPRATIVE SUMMARY

During the month of July, the Battelion continued to conduct operations in the Phu Lac (6) and the Liberty Road area. With the exception of three company sweep and block type operations, platoon and squad size combat patrols were the primary mode of operation. Hight time activities included squad size ambushes and small hunter/killer teams. Close range enemy contact was infrequent during the month. Far more common were long range sightings of enemy troop movement. In cases of this nature, supporting arms were well used.

Security operations for Liberty Bridge and Liberty Road North were conducted with no particular problems. On 20 July, the defense of Liberty Bridge and surrounding 10 was turned over to the 1st Battalion, 5th Larines when the Battalion became Regime tell reserve for Operation DURANT FELK. On 31 July, the Battalion was committed to Operation BURNATI FELK. Including the Section was committed to Operation BURNATI FELK.

PART III

SEQUENTIAL LISTINGS OF SIGNIFICANT EVENTS

A. TOPICS

1. Personnel and Administration.

a. Strength. The Battalion strength at the beginning of July was 35 officers and 1,105 enlisted. At the end of the month, the strength was 33 officers and 1,101 enlisted. The Battalion joined 4 officers and 145 enlisted during the month. 6 officers and 149 enlisted men were transferred. Casualties sustained by the Battalion during the month of July were as follows:

		BATTL	E	NON-BATTLE	TOTAL
KIA	WIA	DOM	WIANE	<u> IBD MBC</u>	
5	26	2	16	0 35	84

- b. Discipline, Law and Order. There were three courts-martial held during the month of July one General Court and two Summary Courts. Four Article 32 Pre-Trial Investigations were held. At the present time there are three Marines from the Battalion confined in the INI MAP Brig. Pending courts include nine Special Courts-Martial, one Summary Courts-Martial and one General Court-Martial.
 - c. Postal. Mail for the month of July was normal.
- d. Avards. There were 23 awards received and presented with appropriate ceremony during the month. Among these, there were thirteen Bronze Stars, one Vietnamese Cross of Gallentry and five Mavy Commendation Medals. Eight awards were readdressed and forwarded to former members of this command. During this period, 33 U.S. awards for heroism and meritorious service were processed by the Battalion.

2. Intelligence.

- encountered. All contacts were with small groups of VC forces. On 5 July, an ambush from Company G observed eight to ten MVA moving southeast of Liberty Bridge and took them under fire killing three of the enemy. Documents found on one of the bodies indicated that he was the Battalion Commander of the 3rd Sapper Battalion. No other enemy units were identified.
- b. Weather. The weather for the month was fairly normal with a cool period of about three days when the temperature was a cool 90 degrees. The remainder of the month, the temperature ranged in the upper 90's.

Late afternoon showers were frequent with a total of 6.08 inches of precipitation received.

c. Terrain. Rice maddles with small knolls of high ground were the predominate terrain features. Company H, operating in the Que Son Mountains since 24 July, found the terrain very steem and rugged with much of the area covered with undergrowth and high canopy.

3. Organization and Operations.

a. Organization. The following units were attached or detached from the Battalion during the month of July:

Company E, 2nd Battalion, 5th Marines OPCON to 5th Marines from 191000H to 291500H.

Company H, 2nd Battalion, 5th Marines OPCON to 2nd Battalion, 1st Marines from 241200H to 312400H.

b. Operations. During the month of July, the Battalion provided security for Liberty Bridge and Liberty Road and conducted Company size and small size operations in assigned area of operations. On 20 July, the Battalion commenced participation in Operation DURHAM FEAK.

c. Supporting Arms.

(1) Air Support.

- (a) Tactical Air Support. Air support for the Battalion totaled 106 air strikes. Of these, 49 were controlled by the Battalion Forward Air Controller, 26 were controlled by Aerial Observer and 31 were Beacon strikes also controlled by the Battalion Forward Air Controller. Marine air support delivered ordinance on enemy targets resulting in 112 structures and 84 bunkers destroyed, seven secondary fires, seven secondary explosions, one anti-aircraft site destroyed and two enemy killed.
- (b) Helicopter Support. A total of 73 medical evacuations were completed. Of these, 23 were emergency, 32 were priority and 18 were routine medical evacuations. On 31 July, the Battalion helilifted into the Que Son Mountains. Four CH-46 and two CH-53 helicopters were employed to lift 643 combat troops.
- (2) Fire Support. Fire support for the month came from Batteries D and W, 2nd Battalion, 11th Marines with Battery D firing the majority of the missions. Rounds fired in support of 2nd Batt lion, 5th Marines were in excess of 1,200 rounds.

The only limiting factor during this period was the nearness of friendly units to each other. In almost every instance, the on-calls for a unit would be danger-close to one or more other units. In spite of this, the artillery was used whenever the situation warranted.

4. Training.

- a. During the month of July, 112 Marines were processed through indootrination training prior to their deployment to the field.
- b. The refresher training program for the Battalian rear personnel was continued. The program stresses those subjects dealing with the defense of the Battalian rear.
 - c. Division and higher level school training was as follows:

Division Leadership	11
Land Mine Warfare, Demolitions and	
Booby Tran Training	48
Cable Splicing School	1
Registered Publications School	- 1
Basic Ammo Tech School	1
Bassic Infantry Weapons Repair	
School	1
KY 28-38 School	1
I Corps Generator School	2
Mit Carson Scout School	· 1
Vietnamese Language/Culture Course	1
16mm Projectionist School	1

5. Logistics.

During the month of July, the Battalion continued to provide security for Liberty Bridge and Liberty Road Morth and prepared to be helilifted into the mountainous canopy in conjunction with Operation DURHAM PEAK.
Pallatized ammunition directly from Danang and all other classes of supply by return truck convoy from An Hoa continued to be the mode of resumply for Phu Lac (6).

In preparation for leaving Phu Lac (6), all organic property not signed over to 1st Battalion, 5th Marines was returned to An Hoa by truck convoy utilizing five-ton, 6 by 6 trucks provided by Regiment as well as the Battalion's own organic transportation. The move was completed from 16 to 20 July 1969.

The Supply Officer, in conjunction with the Battalion Commander and the S-4 determined specific requirements for operations in the mountains. Special emphasis was placed on procuring one-half inch hylon climbing rope, additional plastic water containers, mosquito nets, camouflage sticks and large on-hand stocks of insect repellant and rifle cleaning gear.

The messhall at the Battelion rear continued to provide three exceptionally fine hot meals a day in addition to sending an occasional hot meal in vat cans to the companies operating in the field. No major problems exist in the operation of the messhall despite the fact that six cooks are running a field mess at Phu Lac (5) and providing two hot meals a day for the companies at the bridge and the Battalion Command Post.

The 100 Kilowatt generator providing power for the Battalion rear was rendered inoperable on 20 July as a result of lightning. MSA in Danang quickly provided a replacement 100 Kilowatt generator and full power was restored on 21 July.

Battalion Supply moved from the 5th Marines Regimental Command Post area to the Battalion area. The move greatly facilitates the cambilities of the companies to draw necessary equipment; increases the communications between the supply officer, Battalion executive officer, S-4 a d other staff officers. Because of more physical space now available to supply, the entire supply operation is better organized and controlled. A newly constructed 10 feet by 24 feet bunker is being utilized as the Battalion Armory.

The continuing process of improving the defensive perimeter at An Hoa required that engineer items be maintained at a high level of supply.

6. Supply.

Batteries for the Starlight Scope (BA-1100), in short sumply for the past few months, were received giving the Battalian sufficient on hand quantities. Magazines for the M-16 rifle were received this month. The Armory now has sufficient stock for the next operation.

During the month, 19 .45 caliber pistols were received.

Battalion supply anticipated the needs of the Battalion for Operation DURHAM PEAK and quickly obtained sufficient quantities of the following items:

M-16 magazines
Cleaning compound
Plastic water containers
One-half inch nylon rope
Mosquito repellent
Mosquito face nets
Camouflage sticks

7. Motor Transport.

During the month of July, the Motor Trans ort Section maintained a forward motor pool at Phu Lac (6) and the rear at An Hoa. On 11 July, the Division CMMI team visited An Hoa for a courtesy inspection; the team recommended that the motor pool at An Hoa be graded to provide a better parking area. All phases were satisfactory except for a lack of first echelon maintenance. Corrective action was initiated to correct the findings and recommendations.

8. Medical.

The Battalion Aid Station consisted of one medical officer, one chief petty officer, and 21 hospital corpsmen. A forward Aid Station located at Phu Lac (6) consisted of one medical officer and four hospital corpsmen. Letter companies were maintained at six to eight hospital corpsmen.

There were three cases of malaria, one case of rabies and five cases of venereal disease, four being gonorrhea and the other MSU, treated by the BAS.

A program of general immunization was conducted on Battalion personnel. MedCaps in coordination with 5th Marines were conducted around An Hoa on a regular basis. At Phu Lac (6), a Vietnamese sick call and emergency treatment were provided with approximately 50 patients being treated per week. A County Fair was conducted at Henderson Hill.

A total of 506 patients were seen during July with an average of 21 porsons daily.

Routine medical complaints were as follows: .

Dermotitis		93
Gastroentoritis		22
Orthopedic	•	41
Ear Disorders	•	13

9. Communications.

Redio transmission in the AO of Liberty Bridge continued at a 95 per cent reliability. Redio transmission was improved since the last time the Battalion operated in this general area by the use of high antennas with remote units on the towers at both Phu Lac and An Hoa.

A thorough phone rewiring of Phu Lac (6) was completed. All major cabling was put underground and additional frames installed. Upon relief of Phu Lac (6), the wire section began an upgrading of the wire system at the Battalion rear.

On 20 July, lightning struck the communications complex at the An Hoa tower and burned out the linking cable between the tower and the COC. The Log Periodic Antenna, An/PRC-25 and remote unit were destroyed. The radio operator was knocked off his seat but not injured. The entire system was grounded which obviously prevented further destruction and any casualties. A review of heavier and different grounds is being made.

Division reinspected the communications facilities. No formal written remarks were received, but the inspection team lauded the unit for its outstanding improvement.

The unit was able to obtain replacement AN/PRC-41's after a week of continuous visits to FLC. HF equipment still has a 20 per cent failure rate even though it is not used. Vehicle exposure to the direct sun may be the cause.

For Operation DURIAM PEAK, the unit sent out a retransmission team. Problems previously encountered by the Battalian when working in mountainous regions were eliminated through the use of new retransmission cables, with improved shielding, circuitry, and tension support at the choke boxes.

10. Civic Action.

The Battalion established a firm working relationship with the village chiefs in the Phu Lac (6) area facilitating the task of moving the people

of Xuyen Hoa and Xuyen Loc Villages into a new village near Phu Lac (6). The plans for the new village were completed and approved by Duy Xuyen District. First Battalion, Fifth Marines returned to Liberty Bridge on 20 July and will continue to work with the village chiefs, procuring the necessary machinery for land clearing and materials for building. Security for the new village will be provided by Marines on the Phu Lac (6) side, and a Popular Forces compound on the Go Noi Island side.

The village chiefs built an office immediately adjacent to the Phu Lac (6) cantonment from which they can conduct government business and have a residence close to the Marines with whom they will be conjunctively working.

Sick call was held for the villagers with approximately 50 persons treated per week. One elderly woman was sent to NSA Hospital from Kuyen Hoa Village to see an eye specialist.

11. Psychological Operations.

Hand leaflets are continually being passed out to the people of Xuyen Hoa Village and contact is maintained stressing the Cheiu Hoi Program. There was one Cheiu Hoi from Xuyen Hoa Village during the month.

12. Statistics of Equipment and Casualties.

DIG	SER NO.	ORG	INCIDENTS
0001H	1	S-3	New Journal opened
0700Н	2	s 3	While moving to the objective, the first platoon
			leader from Company G detonated a booky trapped
			M-26 grenade with trip wire between two bushes
			at AT928519. While security for med-evac was
			being set in, a Marine from Company G detonated
			a booby trapped 81mm illumination cannister
a and a second control of the second control			filled with C-4 set with trip wire. Results:
			Two USMC WIA Evac.
1 735H	3	S-3	While on patrol, Company H found two surprise
			firing devices in bomb craters at AT955530.
			One was a cofram bomblet with pressure detonation
			and the other was a C-ration can packed with
·			C-4 set with trip wire. Results: All ordnance
			was destroyed in place.
1930H	4	\$ 3	While en route at AT911515 to an ambush site,
t. Brak Armilionik akçı			a squad from Company F received small arms fire
			from seven enemy in a treeline at AT905510. The
			squad opened fire with small arms and called
		An old up - majoratory code, ago, ago, a com an	in an 81mm mission. Results: Negative.
22 1 5H	5	S3	While sitting in ambush at AT908512, a squad
			from Company F observed four VC/NVA moving north-
			east 35 meters from their position. The ambush
			opened fire with small arms and M-79. The enemy

and the same of the same Date: 17. July 1969
