## PART II

## NARRATIVE SUMMARY

The 7th Engineer Battalion continued support of the III Marine Amphibious Force within the Da Nang area. Platoons from the attached 1st and 3rd Bridge Companies are rendering additional support in the Chu Lai, Hué/Phu Bai, and Dong Ha areas.

During June elements of Co A, 9th Engineer Battalion were re-located to the 1st Bn 1st Marines TAOR to begin the repair and upgrading of National Route 1 between Da Nang and Thang Binh. The total project will include the repair or replacement of bridges and drainage structures and pavement rehabilitation necessary to open this section for class 50 traffic prior to the 1967-68 monsoon season.

Company B was relocated to the 2nd Bn 1st Marines TAOR to enable them to more efficiently conduct engineer operations in that area. Major projects include construction of a 283' class 35/55 bridge across the Song Vinh Dien near Bo Mung Hamlet. Upon completion of the bridge construction of a lateral road connecting Route 1 and Route 13C will be started. The bridge will be named in memory of Corporal Andrew J. COOPER who was killed by sniper fire on 15 May 1967 while working on the bridge.

Company B is continuing work on the rebuilding of an irrigation dam in the Ha Thanh area. A steel sheet pile core and a sheet pile spillway protective wall have been 12% completed. The remainder of the dam will be compacted earth fill with a concrete cap. This project is being constructed in conjunction with CORDS to provide storage and control of irrigation water for the local farm lands.

Work continues on Route 5' by Companies "A" and "D" to bring the road elevation above high water mark and to surface the road with crushed rock. During June 12,684 cubic yards of fill and 5,878 cubic yards of crushed rock were placed and compacted on Route 5.

The major portion of the Da Nang Air Base minefield has been cleared. Since the project began in July 1966, 27,000 man hours have been expended by Companies "C" and "D". 1032 M-16 Bounding AP mines and 1571 M-14 blast type AP mines have been removed from the field. Six Marines were injured while clearing this uncharted minefield.
