Enclosure (1)

CONFIDENTIALPART IIISEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. TOPICa. Personnel and Administration

(1) During the month of January, the enlisted strength increased by 864 personnel and the officer strength increased by 29 personnel. The turnover is as follows:

	<u>OFF</u>	<u>ENL</u>
Joined	<u>42</u>	<u>1274</u>
Dropped	<u>13</u>	<u>110</u>
Total	<u>+29</u>	<u>+864</u>

(2) Above figures include 2D Battalion, 7th Marines joined ADCON from the SLF, 9th MAB.

(3) Casualties caused by hostile action during the month totaled 176. Additionally, there were 17 cases of miscellaneous non-battle casualties.

(4) The average rifle company strength remained approximately the same over the month of January. The present average rifle company effective strength is 5 officers and 180 enlisted men.

(5) Administration. Administration for the month included processing 6 meritorious promotions, 128 personal awards, 17 six month overseas extensions. The reenlistment rate for January was 48%. The savings bond percentage was 79.8%. One Special-Court Martial was appointed 11 January 1969. To this date this court has not met.

b. Enemy, Weather, and Terrain(1) Significant Reports

(A) During January 1969, 7th Marines S-2 received, processed and disseminated a total of 81 low-level intelligence reports, 11 of which referred to enemy rocket units, firing sites or attack plans.

(B) During the reporting period, there were 324 instances of Vietnamese nationals volunteering information and/or material to USMC units.

(C) PW Ngo The Chi was captured on 17 Jan 69 vicinity AT975560. Until his capture, he was CO of the 4th Messenger Co, Signal Section, Group 44. Source indicated that as of November 1968, Group 44 Rear Headquarters was located at ZC185413. In addition to detailed personality listings and order of battle information concerning Group 44, he also provided additional information concerning the impending "Winter-Spring Offensive".

(D) PW Nguyen Van Dam was captured by K/3/7 at (AT 952655) on 20 Jan 69. A member of the 10th Co, 3rd Bn, 31st Regt, 341st Div, he stated that headquarters of the 31st Regt was located within the area bounded by UL (AT 8067), LR (AT 8265). He further reported that total strength of the 3rd Bn as 240.

(2) Significant Enemy Activity. During the month, there were a total of 299 incidents involving enemy forces or activity, 117 of which were enemy initiated. The enemy continues to follow the pattern established in October and November 1968 of emphasizing mining/suprise firing devices and harassing fire. During January, there were 50 mining incidents and 65 harassing fire incidents (compared with 54 and 58 such incidents during December 1968).

(3) Analysis of the Enemy Situation. During January, enemy initiated activity remained within the parameters established during the past three months, with no discernable deviation from previous patterns. Enemy units are probably in the process of regrouping, resupplying and replacing personnel in preparation for renewed activity during the TET holidays. The enemy therefore maintains pressure on FVMAF through the use of suprise firing devices and harassing fire.

(4) Enemy Capabilities and Vulnerabilities Remain unchanged from those described in the December 1968 Command Chronology, paragraph 1.b. (4)

(5) Enemy Losses.

Of these, the majority were for effecting the visual reconnaissance of TAOR's. The LINN RIVER Operation accounted for the movement of 1,230 troops, 45,854 pounds of cargo, 31 med-evacs, and 8 PW's. In addition, 28 sorties by ordnance delivering aircraft were flown in support of the operation. During the month of January this regiment provided targets and forward air observers for offset bombing trials with A-6 aircraft in support of a 1st Marine Aircraft Wing study on offset bombing procedures and documentation on CEP's.
