NARRATIVE SUMMARY

1. During the month of December 1930 small unit patrol activities were conducted. They resulted in 32 contacts, of which 24 were initiated by friendly forces and 8 by the VC. Enemy casualties are listed in Part III.
2. Intensive saturation patrol activity utilizing small-unit, long range, patrols was conducted throughout the month to deny the enemy access to the rocket belt, and rocket launching sites.
3. Many personnel of this command received new M-16 rifles during the month and consequently more emphasis was placed on M-16 rifle training, care and cleaning, familiarization firing, battle sights, and immediate action. Other training included basic map reading, POW treatment with emphasis on the Articles of the Geneva Convention, fire discipline, Claymore mines, spot reports and med-evac requests, the M-72 rocket launcher, and the rules of engagement.

b. Significant operations conducted. During the evening of 20 December 1967, the 1st Battalion, 7th Marines was able to prevent a rocket attack on the Danang Vital Area. The Battalion was alerted to the strong probability of coordinated ground and rocket attacks within the I Corps Area through a series of intelligence reports and during a special intelligence briefing conducted on the afternoon of the 20th by members of the 1st Marine Division Staff. During the evening of the 20th squad patrol activities were deployed on all likely avenues of approach to the rocket belt within the Battalion's TAOR. At about 2300H a squad ambush patrol from Company D observed a column of approximately 100 NVA/VC moving east out of the Happy Valley complex and into the rocket belt. Immediately other patrols and a platoon-sized reaction force was maneuvered into position to intercept the enemy column. At approximately 2400 the patrols and reaction force engaged the enemy force with small arms, artillery and 81mm mortars. During the next four hours the units in the field had almost continuous contact with the enemy force, and the Battalion Command Post came under heavy mortar fire. The forces in the field attacked to the west and overran an enemy machine gun position and a complete 122mm rocket launcher tube and its tripod and sight. By 210430H the enemy had fled from the battle field, and the reaction force and patrols had accounted for 17 confirmed enemy KIAs while sustaining 2 USMC KIAs and 5 USMC WIA. During the morning of the 21st the friendly forces searched the area of the battle and found an additional 122mm rocket launcher tube, enemy weapons, and other assorted equipment.

g. New Techniques Employed. Experience with the sweeping and clearing roads of mines has demonstrated the need for effective security between the time the road has been swept, and the time traffic actually begins to flow over the road. One effective means of preventing the enemy from emplacing a mine after the sweep team passes is to utilize an observation post augmented by a scout/sniper team on a commanding piece of terrain from which the road can be observed. The team is placed in position prior to the commencement of the road sweep. They must stay in position until traffic actually begins to flow. They also add to the security of the often vulnerable sweep team.

f. Equipment. The supply situation in general has improved from last month. Class II Type II supplies have been getting to us faster through normal supply channels, but we are still having difficulties getting motor transport repair parts. Class I and Class IV supplies we have had no trouble getting through normal supply sources.

g. Command Relations. Normal.

h. Logistics: The overall picture for this month has been of substantial progress.

a. We now have a 100 KW generator plant which will support the entire hill including all the tremendous electrical needs for the mess hall.

b. A shower house complete with hot water and electric lights has been completed and is in operation.

c. Motor transport has over 50% of its vehicles deadlined due to shortage of repair parts. The support from 11th MT Bn is having similar problems resulting in frequent interruptions in the supply lines. However the basic needs are being supplied with a little left over for comfort items.

i. Civic Action.

(1) Liaison with Hieu Duc District Headquarters has continued to be both effective and friendly.

(2) A total of 717 Vietnamese civilians were treated during the month of December by the Corpsman within the TAOR. Additionally, the Battalion Surgeon and Battalion Dentist held weekly Med-CAP's for the more seriously ill at different locations in the TAOR.

(3) Cardboard boxes, ammunition boxes, lumber and sand bags were contributed to the District Chief for distribution. The movie theater at TUY LOAN was completed in the market place. Farm tool sets, Carpenter sets, sewing machines, barber kits and school supplies were distributed throughout the TAOR.
