UNCLASSIFIED

(5) "C" Company, 1st Engineers with the help of the 81mm mortar platoon have constructed two (2) 81mm ammo bunkers which have greatly improved the effectiveness and combat readiness of Hill #10.

(6) A ten thousand (10,000) gallon water tank has been installed at the Battalion Water Point to insure the availability of water at all times. The two engineer personnel at the water point have proved to be doing an outstanding job.

(7) The Battalion Laundry Unit has been in operation during the month of May and is proving to be a great asset to this Battalion.

(8) The organic transportation problem previously encountered has completely diminished with the arrival of twenty (20) M151A1 Jeeps in the Battalion on 13 May 1968. Non-organic transportation, seven (7) 5 ton trucks, are being provided by "C" Company, 11th Motor Transport Battalion. The overall transportation capabilities of this Battalion are excellent.

n. Intelligence(1) Enemy situation during the period 1-31 May 1968

(a) Numerous low level agent reports were received indicating the continued presence of up to regimental size units operating within the 1st Battalion, 7th Marines TAOR. Aside from several unidentified units, the 368B Artillery Regiment is the main unit, consisting of two Battalions in 1/7's TAOR, including the Regimental Headquarters. Recent usually reliable sources indicate that the Headquarters unit is in the south-western area of 1/7 TAOR.

(b) There have been no recent identifiable contacts with the 402nd Battalion. It is believed that they are operating in tactical support of, and as guides of the 31st Regiment. The Q-16 Company is believed to be in logistical support and acting as guides for NVA units within 1/7's TAOR.

(2) Significant trends noted during the subject period

(a) The enemy has very definitely been avoiding any significant contact in the 1/7 TAOR.

(b) The booby-trap incidents have increased considerably during the latter part of the reporting period. Areas of heaviest concentration were along the Song Yen River and the Khuong My/Dong Bich area. The enemy mined the main supply routes through the TAOR on five different occasions. Three were detonated and two were found.

s. Activation/Deactivation/Redesignations. None.

t. Medical.

(1) General. Prior to the onset of Operation Mameluke Thrust the general health of the battalion was excellent. Shortly after the operation began many casualties were evacuated with severe diarrhea. The number involved assumed epidemic proportions in some companies. Questioning of the patients revealed that the men had failed to use Mclazone tablets. Contribution to this problem is the fact that in some cases the men were limited to three canteens of water per day. The troops were so thirsty that when they reached water they neglected to use the tablets as instructed. The temporary nonavailability of water undoubtedly contributed directly to the large number of heat casualties encountered.

(2) Evacuation. Evacuation of casualties continues to be good with no problems in this area.

(3) Supply. No major problems. In the case of some items that are unobtainable within the time needed we have been able to obtain the needed items by going through other than the regular channels.

ENCLOSURE (1)

(4) Other. The Medical Officer and other members of the BAS conducted an inspection of the mess facilities, sanitation and waste disposal facilities available at Alpha Company's Hill 22. There were intolerable inadequacies in each area inspected. Remedial measures have been undertaken and a followup inspection will be carried out. A similar inspection of the facilities at Delta Company's Hill 41 revealed only minor discrepancies which likewise are being corrected.
