1. PAF ORGANIZATION COMMITTED TO COMBAT

a. Combat Mission Assigned. Occupy and defend assigned TACR. Maintain a saturation level of patrol activity within TACR. On order be prepared to conduct offensive operations outside TACR. Interdict and deny the use of waterways and other routes of egress or ingress to the enemy. Provide security for the road net and traffic within TACR. Locate, capture and destroy enemy forces attempting to move material or rockets into the rocket belt. Conduct a pacification program in support of the GVN. Assist in the RD program.

b. Casualties Inflicted on the Enemy

25 KIA

c. Logistics

(1) 1st Engineer Battalion has reconstructed two bunkers that were destroyed by fire.

(2) The new BAS is near completion. 1st Engineer Maintenance Platoon is in the process of installing water.

(3) All grade III turn-in ammunition is being inspected for safety before leaving the combat base.

(4) Supply is in excellent condition.

d. Communications

(1) General. Command Material Management Inspections were held, first, by regiment and by division the following week. All discrepancies have been corrected. Communication personnel took a survey of electrical wiring requirements in the "A" Company and "B" Company areas. Rewiring of "A" Company has been started. The battalion joined two KY-9/radio technicians. We are now able to maintain our own KY-9's. Previously we had to send them to regiment for repair. The Battalion Communication SOP was published and distribution made.

(2) Radio. The antennas RC-292 were grounded per instruction from the division inspection team. Heavier wire was used and was extended directly to a separate ground stake rather than using the existing holding stake. Radio Frequency Power Test Set AN/URM-43C was borrowed through the Division CPO's office for a one week period and all available AN/PRC -25's in the battalion were checked for sensitivity and power out.

ENCLOSURE (1)

UNCLASSIFIED

(3) Wire. A cable laying plow was borrowed from 7th Communication Battalion and used to bury approximately two hundred meters of telephone cable leading from 7th Communication's cable terminal to the battalion communications center. This was necessitated by the heavy vehicle traffic over this area.

e. Administration. No problem areas have been encountered.

f. Civic Action

(1) A total of 680 Vietnamese were treated in 28 medcaps held by company corpsmen and the Battalion Surgeon and Dentist. There has been a steady increase in the response of the Vietnamese people.

(2) Liaison with Hieu Duc Headquarters and the MACV Advisors has continued to be effective.

g. Special Services

(1) A letter was submitted to III MAF requesting a third account (for Hill #41).

(2) Beer and soda was provided for cookouts and companies returning from the field.

(3) Special Services is trying to get musical instruments for the battalion.

h. Weather

(1) Maximum Temperature: 107

(2) Minimum Temperature: 77

i. Intelligence

This is a known AEL for the 368B Arty Regiment.

l. Medical

(1) General. There has been a significant decrease in the incidence of malaria in the battalion during the month of August. There were only six documented cases. This can be attributed to the fact that there were no major operations in August thus there was no prolonged exposure in the high risk areas. I would anticipate the malaria rate to remain low as the battalion remains at its base.

ENCLOSURE (1)

(2) Evacuation. Longest on emergency Medevac was 50 minutes, the quickest was 10 minutes, the average was 30 minutes.

(3) Supply. No problems were encountered.

(4) The BAS was moved to its new location near the landing zone. It is functioning smoothly now. Our only major problem is lack of running water.
