PART II

NARRATIVE SUMMARY

1. During the month of September 1042 small unit activities were conducted. These activities resulted in 60 contacts of which 37 were initiated by friendly forces and 23 by enemy forces. Enemy casualties are listed in Part III.
2. Intensive saturation patrol activity utilizing small-unit patrols was conducted throughout the month. The method of patrolling has been changed for night activities. Units move throughout their AO during the night to ambush any activity detected instead of spending all night in one bush site. This has resulted in more contact.
3. First Battalion, 7th Marines did not participate in any major operation during the month of September.
4. Training was conducted by all units throughout the month, with emphasis placed on small unit operations.

PART III

1. THE ORGANIZATION COMMITTED TO COMBAT

Interdict and deny the use of waterways and other routes of egress or ingress to the enemy. Provide security for the road net and traffic within the TAOR. Locate capture or destroy enemy forces attempting to move material or rockets into the rocket belt. Conduct a pacification program in support of the GVN.

b. Significant Operations Conducted. None.

(1) Maintenance of all bunkers on Hill #10 are in need of close police call each morning. The overall up keep of all bunkers is fair. However they need continuous maintenance due to the up coming monsoon season.

(2) In the past month the BAS has been equipped with sufficient lighting and running water. This was a great improvement due to personal hygiene and sanitation.

(3) The Battalion Ammunition Bunker is in a good state of police and control of all ammunition is in accordance with current Battalion and Division Orders. In the past month we have re-sand bagged and waterproofed the bunkers and put the necessary drainage facilities that are needed for the up coming monsoon season. They now meet the requirements set forth by the Division Ordnance Officer.

(4) At the present time, there are no late reports.

(5) The overall transportation capabilities of the Battalion is excellent, but vehicle maintenance is at the present time a problem due to the lack of spare parts and the adverse road conditions.

(6) The Battalion Embarkation is in excellent mount-out condition at the present time.

(7) In the last month supply has been receiving the prescribed amounts of monsoon gear that is needed. This gear is ready for issue at any time.

h. Civic Action

corners (AT943688) has continued to be effective and together with company ModCaps has accounted for 12 ModCaps being conducted, treating 378 Vietnamese Nationals.

(2) Liaison with Hieu Duc and MACV continues to be highly effective.

i. Administration. No problem areas have been encountered.

j. Personnel. The battalion is presently at C-1 manning level. The total strength is 35 Marine Corps Officers and 1159 Marine Corps enlisted, 3 Navy Officers and 56 Navy enlisted.

k. Communications

(1) General. The JMEPPac Inspection was held September 9th. Communications-Electronics received a mark of satisfactory with minor discrepancies. The camp electrical distribution system was balanced to accommodate rapid power requirements to Golf Battery, and to provide equal drains on the three phase lines.

(2) Radio. Three new antennas AS-2236 were received and instruction was given to all radio personnel in their use. This antenna is particularly suited to garrison use due to its size. One new MRC-83 has been received and another is ready for delivery from FLC. A covered (KW-7) radio teletype circuit was provided with 7th Marines via an AN/PRC-47 for a period of 4 days. This would alleviate an emergency or long period disruption of the radio relay (AN/TRC-27) circuit with 7th Marines.

(3) Wire. A new telephone line to Delta Company was laid along the barrier wire. This provides a greater measure of wire security than experienced on the previous routes.

(4) Repair. A new repair shop was acquired with the remodeling of the unused camp shower building. This building provides much needed shop space. A UFM-44 signal generator set was received. A Battalion Radar (AN/PPS-6) school was started for company operators. This school will run five days and will incorporate both classroom and practical application.

1. Special Services

(1) Three (3) volleyball nets were erected in Battalion Area.

Precautions were undertaken, a well and shower in Charlie Company area were quarantined because of suspected contamination. Recommendations were made to have wash cans at each holer to procure enough insect repellent so that each hooch has a can and a mosquito net for each cot. Since the wet season is approaching we may expect a rise in the malaria cases and foot problems- specifically immersion foot. Emphasis will be placed on these topics to each new group of replacements.

(2) Evacuation. Evacuation remains efficient.

(3) Supply. No problems with supply.
