c. Medical

(1) General. During the month of November there was a Significant decrease in the number of FUO's and malaria cases. The major medical problem this month has been immersion foot. This was due to the increased rainfall in the area and three operations each of which lasted several days. On the most recent operation Charlie Company had 16 cases as reported by its senior corpsman. With treatment these men have been returned to full duty within a few days. We urge unit commanders to see that their men go into the field with an extra pair of socks.

(2) Evacuation. On 27 November there was a delay of 2 hours and 30 minutes in getting a med-evac helo for mission 5V. The reason given that the med-evac helo had mechanical problems. We hope something has been done to prevent a possible recurrence of this problem.

(3) Supply. No major problem although we are still awaiting a refrigerator and an autoclave.
