NARRATIVE SUMMARY

1. This command's activities for the month of August were largely devoted to saturation patrolling throughout the Battalion's TAO with particular emphasis on increased security and surveillance measures in the area designated as the Rocket Belt. No enemy rocket attacks were launched from this Battalion's TAO during August. Engagement by friendly patrols consisted of six light contacts with fire team size enemy units. The contacts were characterized by brief engagements at close range with subsequent withdrawal of the enemy.

2. In the last week of August, pre-election terrorist and harassment activities were prevalent. These activities included the assassination and attempted assassination of local village officials, destruction of several small bridges, and intermittent sniping at bridge repair parties. To assist in countering these tactics, GVN Forces of Company and Battalion size were employed in the Battalion TAO in conjunction with units of this Battalion with the mission of guarding segments of Highway One. Increased utilization of aerial observers to provide greater surveillance and conduct fixed wing strikes against suspected enemy positions proved effective.

3. In response to intelligence reports of enemy activity in the Elephant Valley area, Company F was helilifted to vicinity (AT 8288) and conducted a four day reconnaissance in force along trails, stream beds and ridgelines north of the Song Cu De. This search of extremely dense jungle yielded no signs of recent enemy activity. On 30 August, Company A 1st Bn, 5th Mar OPCON to 2/7 conducted a two day search and destroy operation along the base of hills nine miles west of Da Nang. Again, this operation yielded no signs of enemy activity. Extensive plans were formulated for this Battalion's participation in a Regimental size operation named "Y.200" to be conducted in Happy Valley. However, this Battalion's participation was postponed indefinitely due to other operational commitments.
