NARRATIVE SUMMARY

2. Background and Mission Assigned. On 19 June 1965 the Ninth Marine Regiment and the 2nd Battalion, Ninth Marines, were activated as RLT-9 and mounted out for operations in the Republic of Vietnam. The Regimental Landing Team sailed from Buckner Bay aboard Task Group 76.6. A landing was made beginning 6 July in Danang Harbor over Tien Sha Peninsula and Red Beach Two. RLT-9 and BLT-2/9 moved to an assembly area in the vicinity of coordinates (AT 996723).

Missions Assigned: Defend the DANANG Air Base perimeter and the assigned portion of the TAOR, and be prepared to conduct unilateral search and destroy operations. Maintain one company in a one hour reaction posture. Conduct aggressive combat/reconnaissance patrolling throughout the assigned portion of the TAOR. Prepare to counterattack to restore integrity of the Air Base perimeter. Prepare to conduct combined operations with ARVN beyond boundaries of the assigned portion of DANANG TAOR.

2. Terrain, Topography, and Weather. The area of operation is an alluvial coastal plain. DANANG which is situated in the QUANG NAM province comprises the center of the area. The highest relief is the Presqu'ile de SON TRA to the northeast rising to 693 meters. The TOURANE river, which flows from south to north into the Bay of TOURANE, divides the city of DANANG in half. Tributaries of the TOURANE river (the SONG CAU DO from the west, and the SONG VINH DIEN from the south) trisect the southern portion of the area of operation. The SOUTH CHINA SEA bounds the area to the east. The population density of DANANG ranks among the highest in VIETNAM. North-south traffic through the area is limited to two improved highways and to river boats. East-west traffic is limited to rivers, trails, and unimproved roads built by Marine engineers. Except for Presqu'ile de SON TRA and the city of DANANG, the area can be said to be a sea of cultivation with many villages and hamlets forming islands therein. There are occasional low gently rising hills in the area. There are many tall trees of varied species. These are found mostly in the city, on small hills, and in the villages. The secondary growth throughout the area is dense.

The weather has not been a limiting factor to operations during this period. There has been little cloud cover and rain. The rain comes mostly in the late afternoon. Towards the end of July, dry winds typical of the monsoon have been increasing. Ground temperatures are very hot, usually in the high nineties, and occasionally higher depending on wind conditions.

3. Chronological Summary of Events.

19 June - ADMINO THIRD MARDIV Msg 181519Z activated RLT-9 for deployment in accordance with 3d MARDIV OPORDER 201-65. BLT-2/9 was activated for surface lift, but had to retain posture as the air lift BLT until relieved. BLT-2/7 was activated as a surface mountout BLT and attached to RLT-9. The LSG's and LSU's normally deployed with a RLT and BLT's were incorporated in a detachment of FSR. RLT-9 (-) was designated Embarkation Group Alpha with Colonel F. E. GARRETSON the Group Commander. White Beach was to be the port of embarkation. The amphibious tractors would have to swim aboard at Ora Wan. Company C, 1st Shore Party Battalion was to provide personnel and equipment to operate White Beach. A tentative date of 21 June 1965 was set to commence embarkation of BLT-2/7. A tentative assignment of shipping was made on the basis of the availability of three APA's, four LSD's, one AKA, and one LPH.

20 June - The CO RLT-9 directed subordinate units to submit Combat Readiness Reports and to correct their embarkation data. ADMINO THIRD MARDIV Msg 191515Z deleted BLT-2/7 from the RLT-9 task organization. It was planned to load the following supplies:

Class I 15 days MIC
15 days fuel, trioxane

Class II Type 1 Authorized TE
Type 2 Operating stack plus all mountout blocks Batteries 15 day RLT surface block

Class III 30 days special oils and lubricants

Class IV All on-hand

Class V Basic Allowance

21 June - The THIRD MARDIV (rear) Embarkation Order 1-65 was published designating RLT-9 HQ, 3d Engineer Battalion (-) and 3d AntiTank Battalion (-) as Embarkation Unit Bravo. BLT 2/9 was designated Embarkation Unit Charlie. It was planned to send an advanced party of eight officers and fifteen enlisted men to Vietnam by airlift on 25 June.

22 June - Staging began at White Beach for the USS Mathews (AKA-96). Captain N. H. VREELAND was designated the CO of troops. Lieutenant S. BULL was made embarkation officer. Staging was very slow due to a shortage of trucks and materials handling equipment.

UNCLASSIFIED

~~SECRET~~

23 June - Loading of the USS Mathews began at 231030I.

24 June - Loading of the USS Mathews was delayed because of priority to BLT 3/7. The USS Mathews had to leave the pier. RLT-9 OPORDER 201-65 was published.

25 June - The USS Mathews returned to the pier and loading continued slowly due to the shortage of materials handling equipment. The USS Clymer (APA-27) was added to the RLT-9 assignment of shipping and an LST was dropped. The CG III MAF directed RLT-9 to carry a basic allowance of ammunition plus thirty days. The USS Renville was added to the assignment of shipping to carry the thirty days of ammunition.

26 June - The USS Mathews completed loading and moved to anchorage.

27 June - Staging began for the USS Clymer (APA-27) and the USS Carter Hall (LSD-3) at White Beach. Staging began for the USS Colonial (LSD-18) at Naha Port. Army stevedors were assigned to load the ammunition aboard the USS Renville.

28 June - The USS Carter Hall and USS Clymer began loading. Captain A. E. LEE was assigned CO of troops and First Lieutenant B. ALBOLWICH was assigned as embarkation officer for the USS Carter Hall. Major E. E. BROOKS and First Lieutenant R. J. JUDLOW were assigned respectively as CO of troops and embarkation officer for the USS Clymer. Annex I (The Landing Plan) to OPORDER 321-65 was published.

29 June - The loading of the USS Clymer continued and the loading of the USS Renville commenced. The USS Carter Hall moved to Ora Wan to load the amphibious tractors.

30 June - The USS Colonial began loading at Naha Port. Captain J. ROACH was assigned as CO of troops and Captain B. V. STONUM was assigned as embarkation officer. The USS Clymer completed loading and moved to anchorage. The USS Winston was added to the assignment of shipping to take on the Class V supplies that could not be loaded on the USS Clymer and the USS Renville. Army stevedors stopped loading the USS Renville necessitating a one hundred and fifty man working party from BLT 2/9 to finish the job.

1 July - Loading continued.

2 July - The loading of RLT-9's assigned shipping was completed. The forward echelon of the advanced party for RLT-9 consisting of the S-3, Major K. E. TURNER, the S-4,

Major R. L. GOODALL, and the Communications Officer, Major H. R. HENN, arrived in DANANG, RVN, and reported to the 3d MARDIV (Fwd) CP at 021730H July.

3 July - Task Group 76.6 sailed from BUCKNER Bay with RLT-9 embarked. The forward echelon of the RLT-9 advance party flew by helicopter to HUE PHU BAI to make a reconnaissance of the proposed area of responsibility for the Regiment. They were recalled shortly after arrival there because of an impending change to the mission of RLT-9 which would later be incorporated in RLT-9 OPORDER 321-65. The forward echelon commenced planning for the reception of the advanced party.

4 July - Colonel F. E. GARRETSON and the advance party arrived at the DANANG Airbase at 041030H. The RLT-9 CP was established at (AT998724). CINCPACFLT Msg 030444Z directed CCMSEVENTHFLT to sail one BLT to Danang and to be in position to commence landing at 061500H July 1965. RLT-9 began preparations for a landing at DANANG.

5 July - CTF 76 OPORDER 300-65 was published calling for Task Group 76.6 to land RLT-9 and combat/support elements over Red Beach Two, DANANG. Priority of landing was; (1) Shore Party Detachment, (2) BLT 2/9, (3) Remainder 3d Shore Party Battalion (-) and 9th Motor Transport Battalion (-) and, (4) RLT-9 Headquarters and remaining embarked elements. A six section causeway was to be erected at Red Beach Two on D-Day to aid the landing. It was decided to land all heavy equipment at TIEN SHA Peninsula until the causeway could be erected at Red Beach Two.

6 July - RLT-9 OPORDER 321-65 was published. Task Group 76.6 arrived at DANANG harbor and RLT-9 began unloading over Read Beach Two and TIEN SHA Peninsula. All the landing craft from the Task Group were pooled and personnel and supplies were debarked as boats became available. The USS Colonial was designated the primary control ship and the TACLOG group moved there to control the debarkation. Unloading of supplies on the beaches and movement off the beaches was hampered by a shortage of materials handling equipment and trucks. All Class I and Class V supplies were left in the FLSG staging areas on the two beaches.

7 - 8 July - The unloading continued at a very slow pace because of the shortage of trucks to move supplies off the beaches. Most of the equipment and supplies were palletized. There was only one forklift operating in the RLT-9 assembly area at (AT985715). All the wheeled vehicles of RLT-9 Headquarters were in the CP area by the evening of 8 July.

9 July - Task Group 76.6 completed unloading Embarkation Units Bravo and Charlie. Much of the equipment and supplies was still staged on the beaches.

11 July - As part of the preparation for the movement of RLT-9 from its positions north of the Song Cau Do (river) into the southern portion of the proposed 3d MARDIV TAOR, the 3d Recon Battalion was requested to conduct reconnaissance operations of the entire southern sector which is roughly the area bounded on the north by the Song Cau Do (river), the South China Sea on the east, the UTM grid line 49DT66 on the south, and the Song Yen (river) on the west. Company D, 3d Recon Battalion, was assigned this task and developed a five day recon plan. RLT-9 FMAG ORDER 1-65 was published to support this recon operation. Company G, 2d Battalion, was designated the reaction force. Shortly after Company D, 3d Recon Battalion left their patrol base at the north side of the railroad bridge at (AT998707), the 1st Platoon came under heavy small arms fire from enemy who were in well concealed positions in the hamlet of DUONG SON (1) (AT9968). The platoon was pinned down by the enemy who were estimated to be a platoon. One Marine who was shot in the head died while being evacuated by helicopter. Company G was ordered committed and made a sweep in afternoon of the hamlet DUONG SON (1). Throughout the afternoon they were engaged in sporadic fire fights with the well concealed enemy. They also received fire from the hamlets DUONG SON (2) and CAM NE (1) and (2) (AT9967) and (AT9968). Two Marines from Company G were wounded. It could not be determined if any of the enemy were wounded; but it is likely some were. Most of the Viet Cong force withdrew from DUONG SON (1) during the fight, but approximately eight snipers were left behind concealed in tunnels to come out at night. Two of these were later reported to be women. Before dark Company F, 2d Battalion and 1st Platoon, Company D, Division Recon, moved to DUONG SON (1) to reinforce Company G. Positions were dug around the village for the night. The other two Recon Platoons moved to (AT998707) railroad bridge. The sniper fire from DUONG SON (1) and the surrounding hamlets continued throughout the night.

12 July - Early in the morning RLT-9 OPORDER 322-65 was issued ordering 2d Battalion, Company B (-), 1st Antrac Battalion, and Company D, 3d Recon Battalion, to conduct a sweep through the village of CAM NE that day. Intelligence reports indicated that the center of resistance was located in the hamlets Cam Ne (1) and (2). A hard core company was believed to be working in this area with at least a platoon in DUONG SON (1). Companies G and F remained in positions around DUONG SON (1).

while Company D, 3d Recon Battalion (OpCon BLT 2/9), and Company B, 1st Battalion (OpCon BLT 2/9), swept west from the railroad tracks to the Song Yen (river). The sweep began at 120830H and was completed before dark. Company D on the left swept the hamlets of DUONG SON (2) (AT9967), YEN NE (2) and YEN NE (3) (AT9868), CAM NE (6) (AT9768), YEN NE (4) (AT9767), and CAM NE (3) (AT9668). In the middle of the afternoon the 1st platoon met strong resistance in CAM NE (6) at (AT976684) where they encountered a cement bunker concealed in a hut surrounded by a personnel mine field. There was a mined fence in front of the mine field and pungee traps throughout the area. Heavy resistance was also found in YEN NE (4) while the 3d Platoon and 60mm Mortars laid down a base of fire. Throughout the day the Company was receiving fire from all directions. They sustained twenty-two casualties all of whom were wounded by small arms fire or booby trapped grenades. When the Company arrived at the SONG YEN (river) in CAM NE (3) they began retracting their movements back to the railroad bridge at (AT998707). All the way back they received fire from cleverly concealed positions. At the end of the operation they estimated that they had killed or wounded at least twenty-five of the enemy, but it was not possible to recover any of the bodies. Company B swept the hamlets of PHONG LE (1) (AT9969), CAM NE (1) (AT9869) and CAM NE (2) (AT9868), and CAM NE (5) (AT9769). They moved with three platoons abreast with the Company CP in the center. The Platoon on the right and the Platoon in the center met light resistance while the 1st Platoon on the left met heavy resistance in the hamlet of CAM NE (2). All of the Marine casualties in the Company B area were from the 1st Platoon, and most were from the 1st Squad. One Marine was killed and two were wounded by small arms fire, and two were killed and four wounded by a mine which was booby trapped. In addition a Vietnamese Army interpreter with the Company CP was wounded in the leg. After sweeping through the villages the Company moved to (AT965692) where they met LVTP-5's which brought them back down the Song Yen (river) and Song Cau Do (river) to the railroad bridge from where they boarded trucks to return to the 1st Battalion. Throughout the sweep operation the 2d Platoon, Company B, 1st Amtrac Battalion, had maintained blocking positions in the Song Yen (river) and Song Cau Do (river). Companies F and G remained in positions around DUONG SON (1) during the night. All of the RLT-9's equipment and supplies had been moved off of Red Beach Two and TIEN SHA Peninsula and moved to the appropriate camp areas. The TacLog Group was secured and returned to the Regimental Headquarters. The Platoon from Company F, 2d Battalion, which had been providing security for Red Beach Two, was boarding trucks to return to their Company when they were fired at by a sniper with an automatic weapon. One Marine was killed by the sniper. A searchlight tank pursued the sniper and fired at him with a 50 caliber machine gun; but managed to escape. Company H was still aboard the

USS Renville as the ships working party. The Renville was at CHU LAI south of DANANG unloading ammunition.

13 July - Company F conducted a search of DUONG SON (1) (AT9968) aided by a Regional Force platoon from the DANANG Special Sector. They found Viet Cong documents and maps of the trenches and tunnels. The villagers indicated that the Viet Cong had left during the night. That afternoon a boy was killed and a man wounded in the village when the boy opened a booby trapped box. They were evacuated by the Marines and the man was taken to a civilian hospital. Company H debarked from the USS Renville and returned to the 2d Battalion CP at 131345H. A medical assistance program was begun in the villages in the RLT-9 area.

14 July - The 2d Battalion moved one platoon of Company E to the FLSG ammo dump at (AT997733) to relieve units from the 3d Marines. Colonel F. E. GARRETSON, CO RLT-9 made a visit to DUONG SON (1) and talked to the village chief and head Buddhist priest using an interpreter. They indicated that medical supplies and assistance for the village orphanage was a great concern. Colonel GARRETSON pledged assistance which began forthwith. The villagers appeared friendly and cooperative. They supplied intelligence information on the activities of the Viet Cong in that area.

15 July - The 2d Battalion searched the hamlet of DUONG SON (1) using Company F and one Regional Force platoon from the DANANG Special Sector. An intelligence team and a Vietnamese psychological warfare team went along and indoctrinated the villagers on why the Marines were there. The village was then completely ringed with the positions of Companies F and G. At 151840H two platoons of Company H and one platoon from Company E were helilifted about 15 miles to the south to provide security for a downed helicopter. The helicopter was recovered and the platoons returned that night without making any enemy contacts. A medical aid station was set up by a doctor and staff. Company E (~) moved into the perimeter at DUONG SON (1) to reinforce the other two companies there. During the night a VC was wounded or killed at the perimeter of the village, (AT998685), using a sniper scope. Blood was found the next morning where the VC fell but the body was gone. RLT-9 FRAG ORDER 2-65 was issued directing the 2d Battalion to establish a perimeter defense around DUONG SON (1) with the primary defenses being oriented to the south and southeast.

16 July - Enemy resistance within the hamlet of DUONG SON (1) seemed to be at an end. Company E shot a sniper out of a tree

south of DUONG SON (1) at (AT995680). One Marine received a minor wound from small arms fire. Colonel F. E. GARRETSON made direct liaison with NGO MUI, the HOA CHAU village chief, and with ON VAN QUA, the village police chief. Liaison was also established with HOA CAM Training Center. A direct phone line was laid between the Training Center and the RLT-9 Headquarters. A phone line was also laid to HOA VAN District Headquarters. RLT-9 FRAG ORDER 3-65 was published directing the 2d Battalion to send one reinforced squad to HOA CAM Training Center on 17 July for a combined patrol along the north bank of the Son Cau Do (river). RLT-9 OPORDER 323-65 was published directing the 2d Battalion to search the hamlets of PHONG LE (2) and CAM NAM on 18 July. Company E at DUONG SON (1) received four 60mm Mortar rounds in their positions. Three Marines were wounded superficially. It was suspected that the mortars were in CAM NE (2). 3.5" rockets were fired in that direction in an attempt to silence the mortars.

17 July - 3d Engineer Battalion repaired a bridge at (AT999699) making the MSR to DUONG SON (1) passable to $\frac{1}{4}$ ton traffic. The 2d Battalion began conducting combined patrols with forces from the HOA CAM Training Center. At 172100H two rocket type devices were fired over the positions of Company G at DUONG SON (1). They came from the edge of CAM NE (2). Company G returned the fire with 3.5" RR WP rounds. Under the illumination of the WP, machine gun fire was brought to bear on men sighted in the open. It was not determined if any of these men were hit.

18 July - Company E moved from the 2d Battalion CP and established defensive positions from (AT991723) to AT987724. The 1st Platoon, Company H, and a detachment of 6 LVTP-5's supported a 1st Battalion, 9th Marines operation by establishing a blocking force on the Song Cau Do (river). Sniper fire was received all during the night from the hamlets adjacent to DUONG SON (1) but no Marines were wounded. The VC beat on drums and pans throughout the night. The search of PHONG LE (2) and CAM NAM was postponed.

19 July - Company B (-), 1st AmTrac Battalion, using two LVTP-5's established a river check point at the bridge at (AT998707). At 191000H they found a propaganda raft floating in the river and turned it over to the Division G-2. Company H (-) relieved Company F in position at DUONG SON (1). One hundred and seventeen civilians were treated by the 2d Battalion medical station. Five rounds of sniper fire were received during the night by Company G but the fire was not returned since the sniper's location could not be found. Naval gunfire fired illumination mission during the night expending fifteen rounds of ammunition.

20 July - Company E (-) relieved Company G in positions around DUONG SON (1), (AT998683) to (AT993654). Company G moved to positions at (AT991723) to (AT987724). A 60mm Mortar, dud round was found in Company E's positions at DUONG SON (1). Seventy-two civilians were treated by the 2d Battalion medical staff. Company E (-) received six rounds of small arms fire between the hours 201740H and 201910H from a house in YEN NE (2) (AT992683). This house was fired on and hit by a 3.5" RR HE round. Four VC ran from the house, one of which was shot down by rifle fire. At approximately 201930H three VC were spotted moving into position across the railroad tracks from the Company E positions. When the VC fired, fire was returned with small arms and 3.5" RR. One VC was hit with a 3.5" RR round, and another was hit with a 40mm grenade.

21 July - A VC flag was found planted at (AT982720) near 3d Tank Battalion positions. When investigated at 211130H, it was found to be booby trapped with a grenade. The grenade was detonated in place. Company B (-), 1st AmTrac Battalion, made a river reconnaissance of the Song Cau Do (river) and Song Yen (river). The CO RLT-9 attended a conference with the G-3 (OPNS) I Corps, the G-3 III MAF, the Senior Advisor to the Danang Special Sector. A concept for the implementation of the action requested by the CG I Corps ltr to CJ III MAF in regards to the expansion of the Danang THOR was discussed. It was agreed that further expansion south of the Son Cau Do (river) would be accomplished when mutually agreed to by RLT-9, the District Chief, and the Danang Special Sector. These three headquarters developed a phased plan for the occupation and securing of the villages of HOA CHAU, HOA DI, HOA THAI, and HOA PHUANG. The 3d Platoon Company H moved to positions at PHONG LE (1) at 211830H. They received fire from CAM NE (2) during the move. Company E fired at the snipers. Twice during the night movement of three or four persons was picked up by the TPS-21 ground surveillance radar. Company E returned fire both times with 3.5" RR WP rounds and 40mm grenades. Two VC were observed to be hit but the bodies could not be recovered. RLT-9 OPORDER 321-65 was published assigning missions to the Provisional Air Base Defense Battalion (PABD) and to the 1st Battalion, RLT-9. The order called for the defense of the Danang Air Base, the phased relief of the 1st Battalion as companies of the PABD Battalion could be formed, and for the phased occupation of the area south of the Song Cau Do (river). It also called for aggressive patrolling throughout the RLT-9 THOR.

22 July - At 221100H the 2d Platoon, Company H assisted ARVN troops from Danang Special Sector make a search of PHONG LE (1) while the 3d Platoon remained in position as a blocking

force and Company B (-), 1st AmTrac Battalion, took up blocking positions in the Son Cau Do. There was no VC contact. The 1st Battalion, Ninth Marines, were detached from the 3d Marines and returned to OPCON RLT-9 at 221130H. One hundred and sixty-seven civilians were given medical aid by the 2d Battalion medical staff.

23 July - The 2d Battalion, supported by Company B (-), 1st AmTrac Battalion, and in conjunction with a Popular Force Platoon under the command of the Village Chief, Mr NGO MUI, conducted a search of PHONG LE (2) and CAM NAM (BT 0070) as part of Phase One of RLT-9 OPORDER 321-65 in accordance with RLT-9 OPORDER 323-65. This operation was marred by the accidental shooting of two of the Popular Force men by Marines. The lead elements of Company H were moving toward CAM NAM when they were taken under fire by two men at (BT002698) who they thought were VC. They returned the fire. LE DUC CHAU was killed and HUYNH QUANG TAN was wounded. Major J. A. BUCK, the Executive Officer of the 2d Battalion attended the interment of LE DUC CHAU at Phong Le (2) that afternoon and offered his family a suitably inscribed headstone which they were too poor to afford. There was no evidence of any enemy activity in PHON LE (2) or CAM NAM. During the night, one man from the 3d Platoon of Company H was wounded in the back south of PHONE LE (1) by a shot that came from PHONG LE (1). Company A of the PABD Battalion was activated and relieved Company D, 1st Battalion, of their positions on the Danang Airfield. Company D moved south of the Air Base to the hamlet of BINH HOA vicinity BTC25733.

24 July - The 1st and 2d Battalions maintained their positions. Company D took responsibility for patrolling the area south of the Danang Air base, north of the Song Cau Do, and east of Highway 1A. There was no enemy contact during the day or night. 3d MARDIV OPORDER 321A-65 was published. RLT-9 was deactivated and a new task organization published for the Ninth Marines.

25 July - Phase One of Operation 321A-65 was continued. A patrol sent to the hamlet QUANG CHAU (1), (BT0069), determined there was no enemy activity in the hamlet. To take advantage of the situation, the 2d Battalion moved two platoons of Company G south to positions from (BT016713) to (BT008692). A dinner conference was held at the Ninth Marine CP between the principle representatives of HOA VANG District and the Ninth Marines. Fifty-six civilians were treated by the medical staff of the 2d Battalion. The Med-Cap supplies were depleted but more supplies were expected within days. During the night harrassing sniper fire was fired at the sentry at Post #8 on the Danang Air Base.

26 July - Company H, 1st Battalion, searched the hamlet of QUANG CHAU (2) and afterwards moved their lines south of the hamlet. Two VCS were captured during this operation and were turned over to the Hoa Vang District Headquarters for interrogation. Sixty civilians were treated by the 2d Battalion medical staff.

27 July - Continued consolidation of Phase One of Operation 321A-65.

28 July - Company G, 2d Battalion, helilifted to CHU LAI to relieve units of the 4th Marines on the MLR for operations. The Ninth Marines took over security of the railroad bridge at (AT998707) replacing a Regional Force Company from DANANG Special Sector.

29 July - Division ordered the Ninth Marines to have a Battalion (-) stand by as a reaction force. They were placed on alert at 291130H. They were not committed, and were told to stand down at 291800H. Company G, 2d Battalion, returned from CHU LAI and took up positions at (AT986716). Ninth Marine FRAG ORDER 5-65 was issued ordering Company D, 3d Recon Battalion, to provide security for the DANANG East complex and MCB-9 by patrolling the area south of Marble Mountain.

30 July - The 2d Battalion made a reconnaissance of the Song Vinh Dien (river) in preparation for an ensuing operation in that area. Ninth Marine FRAG ORDER 6-65 was issued directing the 2d Battalion to begin Phase Two of Operation 321A-65 by sweeping the HOA DA village and occupying positions on the north bank of the Song Vinh Dien (river) to deny the HOA DA village to the VC.

31 July - Company F, 2d Battalion, in a combined operation with the 591 Regional Force Company cleared the area of HOA DA village north of the Song Vinh Dien. No VC were encountered during the operation and all objectives were occupied by 311400H. The Ninth Marines now had under their control approximately nine square kilometers south of the Song Cau Do including thirteen hamlets in two villages and four kilometers of Highway. Phase One of Operation 321A-65 had been completed and Phase was well under way.

Non-Combat casualties		5	3	

b. Enemy Casualties

KIA	40 (unconfirmed)
WIA	None known
POW	None

5. No enemy equipment was captured, but numerous documents of an intelligence nature were captured during searches of villages. These documents were turned into G-2

d. Working in close cooperation with the DANANG special Sector, and the HOA VANG District Headquarters, the Ninth Marines have extended control over two villages south of the Danang Air base including thirteen hamlets generally out to mortar range from the base. This control varies from actual occupation and civic action programs to aggressive patrolling and search operations. The Danang Air base and Danang East complex defensive postures have been appreciably improved.

Ref: (a) DivO P3800.1 (Intel SOP)
 (b) CCMUSMACV Intelligence Guide of 19Nov64
 (c) RO 3800.1E
 (d) Maps (to be designated)

1. ENEMY SITUATION.

- a. Current INTSIMS, OOB and Special Intelligence Reports
- b. See Appendix 1 (Intelligence Estimate) (to be issued).

2. GENERAL INTELLIGENCE MISSION.

- a. See references (a) through (c).
- b. Units forward intelligence information concerning enemy, weather and terrain, as acquired, to this headquarters.
- c. Personnel will be briefed and kept current as to the situation in the areas of interest.
- d. Train personnel in the various intelligence skills: passwords and countersigns, handling of POW's, camouflage, personal censorship, terrain appreciation, security and combat intelligence.
- e. Intelligence specialist teams will be provided as available.

3. MEASURES FOR HANDLING CAPTURED PERSONNEL, DOCUMENTS AND MATERIAL.

Sections 6 and 7 of reference (a) apply. All captured equipment and documents are the property of the U. S. Government.

4. MAPS, CHARTS, PHOTOGRAPHS AND PUBLICATIONS.

- a. Units will maintain planning maps in the quantities stated in reference (a). Attached units will draw a TaoCTA Map from their parent S-2 for the current areas of interest.
- b. This headquarters will maintain and issue operational planning maps to attached units (less artillery) as per section 12 of reference (c).
- c. This headquarters will issue operational maps to all units in the RLT. In submitting map requirements: list, series, scale, sheet number, and amounts required. The standard tactical map will be of a 1:50,000 scale.

B-1

~~CONFIDENTIAL~~

1

CONFIDENTIAL

d. Request for aerial photographs in accordance with figure 4-1-1 of reference (a).

5. COUNTERINTELLIGENCE.

a. Section 8, Counterintelligence, of reference (a) applies.

b. Censorship will be on order of higher authority. Censorship stamps and instructions will be issued when imposed.

c. Indigenous personnel will not be hired except on authority given by this headquarters.

d. Password and countersigns will be issued by this headquarters at 1200 daily.

e. Press releases and other publicity activities will be controlled by Commanding Officers. Names and organizations of correspondents will be reported to this headquarters.

6. REPORTS AND ADMINISTRATION.

a. Section 16 of reference (c).

b. Units will submit the following reports upon activation for embarkation:

(1) List of personnel filling intelligence billets in unit.

(2) List of language qualifications in unit.

(3) List of personnel requiring access to regimental classified material. Commanding Officers will certify the security clearance of individuals.

Time Zone: H (Effective on arrival RVN)

1. MISSION. Commencing 22 June 1965 RLT-9 commences phased embarkation at White Beach, Okinawa, prepared for deployment and combat operations as directed.

2. CONCEPT. This order provides for the tactical embarkation of BLT 2/9 and RLT-9 Headquarters aboard assigned shipping.

(a) Embark Unit Bravo is commanded by CO RLT-9 and consists of RLT-9 headquarters, 3d ATBn(-) 3d MarDiv and 3d Marines (Rear). 3d AT Bn(-) and 3d Marines (Rear) are not tasked organized to RLT-9 but are embarked aboard RLT-9 shipping for transportation.

(b) Embark Unit Charlie is commanded by CO BLT 2/9. Clearing Platoon Co C 3d Med battalion, a part of RLT-9, is embarked for transportation.

(c) Prior to the deployment of RLT-9, the CO, selected staff officers/enlisted, Headquarters Company 9th Marines, CO 2/12, and selected staff officers/enlisted of BLT 2/9 will fly to the projected area of responsibility for formulation of plans for employment of the RLT.

(d) Assignment of specific mission will be directed by separate message.

 (d) 3dMarDiv SIS, Selected Areas 001-62 SVN
 (e) USMAC, Vietnam, Viet Cong Military Order of Battle Study
 (f) Current 3dMarDiv and III MAF Intsums

1. MISSION.

a. Basic Mission. During early July 1965 Headquarters, RLT-9 travels up the Song Hue River, lands at HUE, RVN (Republic of Vietnam), proceeds via Route #1 to vicinity of PHU BAI Airfield and conducts military operations against Viet Cong Forces in the TAOR.

b. Previous decisions and assumptions.

(1) ARVN forces and local populace will not interfere with the RLT-9 landing.

(2) BLT 3/4 will assist RLT-9 in landing.

2. CHARACTERISTICS OF THE AREA OF OPERATIONS.

a. General. The HUE-PHU BAI Area of operations is on the low, marshy, coastal plain mid-way between the Demarcation Line and DANANG. To the south and west the rugged Annam mountains tower over the plain. National Route #1 parallels the coast about 6 miles inland, extends the axis of the plain and connects the population centers.

b. Weather. The landing will be conducted during the middle of southeast monsoon. July is the dry season; thus a minimum of rain (1.5 in) will fall on about six days. Moderate cloudiness, minimum humidity, good visibility and 50% clear nights can also be expected. The temperature will average between 80-96 degrees. Neither winds nor severe storms should hamper operations during July.

c. Terrain. To the east of National Route #1 lies a low, flat plain devoted almost entirely to wet rice paddies. Numerous canals, rivers and lagunes inter-lace the terrain. Trafficability is difficult to impossible in this area for all vehicles. West of Route #1 is a gently rolling, piedmont belt extending about ten miles to the mountains. This area is poor to fair for tracked vehicles. Vegetation in the area

~~SECRET~~

B-1-A-1

TAB-2

~~SECRET~~

tends to be sparse, cultivated and should not hamper either observation or movement. The surface material in the plain consists of clay silts and sand underlain with plastic clay. There are no critical terrain features (other than bridges) necessary to secure in accomplishing the mission. See TAB A. (Road Study).

d. Hydrography.

- (1) SONG HUE River: The SONG HUE is a major river and travels 16 miles from the South China Sea to HUE. There is no tide and the current tends to be sluggish. The river has a minimum width of 145 meters and a maximum width of 550 meters. The depth of the river is unknown, with the bottom of the river consisting of sand and mud. Height of banks varies between 3 and 13 meters. The section of the river from YD750210 to YD809310 is navigable by river barges, lighters and LCM's at high water, and sampans all year (1-2 ft draft).
- (2) DAI GIANG: Located at YD755213 to YD970103. (Lagune De Cau Hia) This river flows generally east. Width of this river varies from 24 to 60 meters. Banks are gently sloping 6 to 8 meters high. During the high water period the river is unfordable. Depth and current velocity are unknown. It has a sandy silt bottom.
- (3) During July, the streams will be at low water. However, their silty bottoms and steep banks may make them an obstacle to cross.

e. Political, Economical, Sociological. HUE is the ancient capital of Vietnam and still maintains its cultural and political airs. Located within the city (pop. 100,000) are the headquarters of the ARVN 1st Division, the provincial capitol (THAU TIEN) and a rather, politically volatile university. Agriculture is the principal employment in the area and the family/village life is strongly based on Buddhism/Animism. In relation to some of the southern provinces THAU TIEN is not heavily populated. Its people are considerably more literate (40%). A strong Catholic-refugee influence is felt in HUE.

3. ENEMY SITUATION.

- a. Strength. Viet Cong strength in the proximity of HUE (PHU BAI) area that could affect the landing of the RLT Headquarters is estimated to be 1040, armed with rifles, sub machine guns, 60mm mortars and an assortment of mines and demolitions. Unit structure and locations will be published as available.
- b. Recent and Present Activities. Viet Cong activity in the area has consisted of small probes, sniper fire and road mining. No large scale attacks have been reported.
- c. Other Factors. The 1st ARVN Division with headquarters at HUE is operating in QUANG TRI and THUA THIEN Provinces. ARVN forces appear to nominally control HUE and the surrounding area.

~~SECRET~~4. ENEMY CAPABILITIES.

- a. Capability #1. To harass the landing of the RLT Headquarters by mining the river, blowing bridges, cutting the road and sniping activity.
- b. Capability #2. Attack the RLT Headquarters during the landing, after the landing or during the transit from HUE to the Airfield in the strength of 2 Battalions reinforced with three local force companies (III MAF Estimate).

5. CONCLUSIONS.

- a. Based on Viet Cong strength and the presence of US/ARVN forces in the area it is felt that the Viet Cong will not adopt Capability #2 but he may resort to any or all activities outlined in Capability #1.
- b. The Viet Cong will not be able to prevent the landing of the RLT Headquarters by the adoption of Capability #1 or #2 due to the presence of US/ARVN combat units in the area.
- c. The biggest obstacles faced in the accomplishing of this mission may be the heat and low water level in the SONG HUE River.

1. ROADS AND BRIDGES.

- a. National Route #1 is a major highway and extends generally north-northwest from AT934895 to YD670268. National Route #1 is an all-weather, bituminous surface treatment (over macadam) in fair to good condition, 4.3 to 4.9 meters wide. Width increases near and in cities. Drainage is generally good. Shoulders are earth and gravel, 0.6 to 0.9 meters wide, in good condition. The road distance from HUE to HUE (PHU BAI) Airfield is 8.9 miles.
- b. There are seven bridges along National Route #1 from HUE to HUE (PHU BAI). (See Sketch Map page B-1-A-2).

SECRET
 9th Mar. Regt. 0031865
 Control No. 750f 61
 Copy No. 750f 61

1. Situation.

a. Enemy Forces.

(1) See Annex B (Intelligence) and current INTSUMS.
 (2) The enemy in the past has employed imitative deception and jamming on radio nets. Wire lines can be expected to be cut frequently during the hours of darkness.

b. Friendly Forces.

(1) See Annex A (Task Organization)
 (2) Amphibious Task Group (TG 76.9) provide communication and crypto guard for embarked Landing Force Units during movement to the objective area.

(3) Command Posts.

(a) Afloat.

CTG 76.9	USS CLYMER (APA-27)
RLT-9	USS CLYMER (APA-27)
BLT-2/9	USS PICKAWAY (APA-222)
2nd Bn 12th Marines	USS COLONIAL (LSD-18)

(b) Ashore.

TAB-3

5. Executiona. Concept of Operation

- (1) See Annex C (Concept of Operation)
- (2) Embarkation Communications as provided by CG Third MarDiv (rear). This plan provides for initial deployment to HUE PHU BAI, RVN. Communications during consolidation will be primarily radio.
- (3) Communications will conform to principles, methods, and procedures established in references (a) through (e) except as modified by this Annex.

b. RLT-9(1) Ninth Marines Communication Platoon.

- (a) Install, operate and maintain communications required to support the RLT-9 concept of operations in accordance with references (a) through (e) and this Annex.
- (b) Provide Radio Relay Teams and Equipment to Support Radio Relay employment in accordance with Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.
- (c) Be prepared to provide communications to attached units for independent operations when directed.

(2) BLT-2/9

- (a) Install, operate and maintain communications required to support the RLT-9 concept of operation in accordance with this Annex.
- (b) Establish normal internal communications.
- (c) Coordinate and support AN/TRC-27 Radio Relay Team to be attached in the objective area.
- (d) Be prepared to provide communications for separated tactical units.

(3) 2D Battalion 12TH Marines (Rein)

- (a) Install, operate and maintain communications system in support of assigned mission.
- (b) Establish Conduct of Fire Communications in accordance with Appendix 1 (Radio Frequency Plan) and Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.
- (c) Establish internal communications as required.

(4) CO "B" 3D Tank Bn.

- (a) Install, maintain and operate communications in accordance with this Annex.

CONFIDENTIAL

CONFIDENTIAL

- (b) Establish internal communications as required.
- (5) CO "C" 3D Anti-Tank BN.
 - (a) Install, maintain and operate communications in accordance with this Annex.
- (6) CO "B" 1ST Amphibious Tractor BN.
 - (a) Install, maintain and operate communications in accordance with this Annex.
- (7) CO C 3D Engineer BN.
 - (a) Install, maintain and operate communications in accordance with this Annex.
 - (b) Install internal communications as required.
- (8) CO A 9TH Motor Transport BN.
 - (a) Install, maintain and operate communications in accordance with this Annex.

c. Coordinating Instructions.

- (1) In the event of casualty to the RLT-9 headquarters, all RLT-9 subordinate units establish communications with RLT-9 alternate headquarters (BLT-3/4).
- (2) Maintain strict communication and physical security of all Communication-Electronic facilities.
- (3) Communication Center.
 - (a) See reference (c).
 - (b) Use Greenwich Mean Time (Zulu) for all message date-time groups. Local time (Hotel) may be used within message text.
 - (c) When referring to messages originated by other services, nations, or allied commands, include both date-time group and reference or cite number, in accordance with INC-5B.
- (4) Messenger Service.
 - (a) Scheduled messenger service will be established when facilities become available (schedules to be published). Special messenger service will be provided as required.

D-3

CONFIDENTIAL

3

~~CONFIDENTIAL~~

- (b) All units will establish helicopter landing points in the vicinity of their headquarters. Landing points will be marked in accordance with Appendix 4 (Warning, Visual, Sound and Pyrotechnics) to this Annex.
- (c) Commanders will instruct liaison and visiting staff officers to check with communication center for courier service before departing Command Post.

(5) Cryptographic.

- (a) Off-line effective edition of KAK-2697.
- (b) On-line effective edition of KAK-2641.
- (c) Authentication effective edition KAA-60.
- (d) KAC-138 CINCPAC Numeral Code is effective for joint use within the Pacific Command.
- (e) ACP-165 contains a compilation of operation brevity codes for use in radio-telephone communication and is effective for joint use in RVN.
- (f) Units that have teletype circuits equipped with On-line Cryptographic Equipment will pass all traffic On-line.
- (g) All units will carry two (2) months ROB in addition to current effective editions.

(6) Radio.

- (a) Guard all assigned circuits commencing at H-3 on D-Day. Radio silence until lifted by this Headquarters.
- (b) Radio circuits in accordance with Appendix 1 (Radio Frequency Plan) to this Annex.
- (c) Call signs in accordance with Appendix 2 (Radio Call Signs) to this Annex.
- (d) On all radio circuits where SSB is the designated emission, initial contact will be made in USB. All AN/TRC-55 radios will be operated in the Low Power Position.
- (e) On all radio circuits where HF and VHF (FM) modes of emission are assigned initial contact on these circuits will be made on VHF (FM) emission.
- (f) Report all attempts at jamming or imitative deception to this headquarters (Attn: COMM O) by immediate message. Use format contained in Appendix 6 (Electronic Warfare) to this Annex.

(7) Radio Relay/Wire.

- (a) Radio Relay and Teletype installation in accordance with Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.
- (b) Priority of installation of Trucks/Remotes/Locals within RIT-9 shall be in accordance with Chapter 7 of Reference (c), except that Radio Relay truck lines to the

D-4

~~CONFIDENTIAL~~

(3)

~~CONFIDENTIAL~~

FSCC shall have priority over Radio Relay trunk Lines to switchboards and FSCC local telephone shall have priority after the S-3 local.

- (c) Wire installation, Telephones, Teletype and Radio Relay operating procedures in accordance with reference (c) and GP-134.
- (d) Wire will be used for internal GP installations.
- (e) Switchboard Call Signs in accordance with Appendix 3 (Switchboard Call Signs) to this Annex.
- (f) Wire line installation in accordance with reference (d).

(8) Warning, Visual, Sound, and Pyrotechnics.

- (a) In accordance with Appendix 4 (Warning, Visual, Sound, and Pyrotechnics) to this Annex.
- (b) Particular attention is invited to the fact that red smoke marks enemy position.
- (c) Illumination and smoke signals once used are immediately declassified because the enemy can also see them. To elude the enemy, in conjunction with the use of illuminations and smoke signals, friendly units must confirm using radio communications or panel VS-17/GWX if radio is not available.

(9) Tac Log Communications.

- (a) See Admin Plan 321-65.
- (b) BLT-2/9 Shore Party Team embarked in USS Cabildo (LSD-16) establishes beach terminal on Shore Party Control Net. RLT-9 Tac Log enters this net when established on Primary Control Ship, USS Colonial (LSD-18).

(10) Air Communications.

Appendix 1 (Radio Frequency Plan) to this Annex.

(11) FSCC Communications.

Appendix 1 (Radio Frequency Plan) and Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.

(12) Naval gunfire.

Appendix 1 (Radio Frequency Plan) to this Annex.

4. Administration and Logistics.

- a. See RLT-9 Administrative Plan 321-65.
- b. The FLSU attached to BLT-3/4 at HUE PHU BAU has a limited third echelon electronic supply and maintenance capability. During consolidation, requests for this support via RLT-9 headquarters.

Appendix 4 (Visual, Sound and Pyrotechnics) to Annex D (Communication-Electronics) to Operation Order 201-65 and Operation Plan 321-65

Ref: (a) ACP 136
 (b) Third MarDiv OpOrder 321-65
 (c) FMFPacO PO2000.2B

Time Zone: H (In objective area)

1. General.

(a) See references (a), (b) and (c).
 (b) Visual signals are a supplementary means of communications and are transmitted by panels, flashing lights, signal flags, and pyrotechnics.
 (c) Unit tactical CW call signs will be used on all visual circuits.

2. Warning and Alert Signals.

<u>SIGNAL</u>	<u>MEANING</u>	<u>HOW DISSEMINATED</u>	<u>REMARKS</u>
AIR DEFENSE WARNING "RED"	AIR ATTACK IMMINENT OR TAKING PLACE	FLASH MESSAGE, SHORT REPEATED SOUND OF SIRENS OR WORD OF MOUTH	SIRENS WILL NOT BE USED FOR ANY OTHER SIGNAL WITHIN OBJECTIVE AREA
"YELLOW"	AIR ATTACK IS PROBABLE	MESSAGE, WORD OF MOUTH	
"WHITE"	AIR ATTACK IS IMPROBABLE	MESSAGE, TELEPHONE WORD OF MOUTH	MAY BE DECLARED BEFORE OR AFTER AIR DEFENSE WARNING "YELLOW" OR "RED"

3. Miscellaneous Visual Signals.

(a) Flag displayed from tank turret:

<u>SIGNAL</u>	<u>MEANING</u>
"RED"	Tank is in distress, require infantry assistance.
"ORANGE"	Tank is low on fuel or ammunition, pulling back to replenish.
"GREEN"	Requist contact on telephone at rear of tank.

(b) Aircraft Maneuver Signals:

CONFIDENTIAL

<u>AIRCRAFT MANEUVER</u>	<u>MEANING</u>
360 Degree Left Turn	Display CP Identification
360 Degree Right Turn	Mission Completed
*Alternate Dips and Climbs	Display Front Lines Markings
Rook Wings	Message or Displays Understood
*Yaw Right-Left	Standby For Message Drop
Sharp S-Turn	Will Support, You Mark Target
Circle Right-Rocking Wings	Am Trying To Contact You By Radio

*It is not practical for jet aircraft to execute these maneuver signals.

(c) The following illumination and smoke signals are effective. No others authorized.

(1) Used by ground units and river and sea units for liaison together or with aircraft.

ILLUMINATION SIGNALS

<u>TYPES</u>	<u>MEANING</u>
SIGNAL, GROUND, RED STAR CLUSTER (ONE SIGNAL IS FIRED)	Encircled or attacked by the enemy. Request for support (Type of support) such as aircraft, artillery relieving forces, etc.,- must be affirmed by radio)
SIGNAL, GROUND, RED STAR CLUSTER (CONTINUOUS FIRE OF 3 OR MORE SIGNALS)	Request for emergency illumination (radio liaison must be established)
SIGNAL, GROUND, GREEN STAR PARACHUTE	Request for ammunition
SIGNAL, GROUND, GREEN STAR M125 (HAND-HELD)	Request for evacuation
SIGNAL, GROUND, WHITE STAR PARACHUTE M127, (HAND-HELD) OR SIGNAL, GROUND, WHITE STAR ANM 44 A1	Radio breakdown
SIGNAL, GROUND, WHITE STAR CLUSTER (FIRE OF 3 SIGNALS)	Request for radio communications on the air-ground frequency
SIGNAL, GROUND, WHITE STAR CLUSTER (CONTINUOUS FIRE OF 3 OR MORE SIGNALS)	Request for cease of illuminating firing and shelling
SIGNAL, GROUND, RED STAR, PARACHUTE M126 (HAND-HELD)	We are withdrawing from this position

CONFIDENTIAL

SMOKE SIGNALS

SIGNAL, GROUND, YELLOW SMOKE, M64
ORGRENADE, RIFLE, YELLOW SMOKE
OR

GRENADE, HAND YELLOW SMOKE, M18

SIGNAL, GROUND, GREEN SMOKE M65
ORGRENADE, RIFLE, GREEN SMOKE
OR

GRENADE, RIFLE, GREEN SMOKE M18

GRENADE, RIFLE, RED SMOKE

Marking of the friendly units position or of a secured area for an urgent or normal aircraft landing.

Please inform us of the enemy direction or position

Marking of the enemy position

(2) Used by aircraft for liaison with ground units.

GRENADE, HAND, GREEN SMOKE M18

Please inform us of the enemy direction

GRENADE, HAND, RED SMOKE, M18

Marking of the enemy position

GRENADE, HAND, SMOKE, HC (WHITE)
ANM 8

Request for radio communications on the air-ground frequency

OR

SIGNAL, AIR-GROUND, WHITE STAR
CLUSTER (FIRE OF ONE SIGNAL)

(D) PANELS

(1) SEE REFERENCES (A) AND (B)

(2) Panels are employed by ground forces as a means of recognition and identification. The panel sets VS-4/U and VS-6/U are normally used for identifying vehicles.

(3) Use VS-4/U (RED) panels to identify vehicles and armor in forward areas on odd dates. Use VS-6/U (YELLOW) panels on even dates.

4. SOUND Sound devices will be used in accordance with locally prepared SOP'S.5. Helicopter Landing Point Identification.a. Helicopter Landing Points (General Information).

(1) Helicopter landing points should be selected which provide helicopter pilots adequate space to maneuver into the wind in order to take advantage of increased performance of the helicopter under a favorable wind direction.

(2) All landing points will be at least 100 feet in diameter paying particular attention to ensure overhead wire or antennas do not obstruct the landing areas.

CONFIDENTIAL

D-4-3

3

CONFIDENTIAL

- (3) Areas of hard ground, solid rock, or grass are the best natural landing points for helicopters. Graveled areas shall never be selected as a helicopter landing point. Dry barren areas should also be avoided since dust clouds created by the helicopter may reveal landing and takeoff to the enemy.
- (4) Landing points will be policed of debris and any loose material to avoid damage to aircraft.
- b. Safety Precautions. It is mandatory that all landing points personnel be briefed on the following precautions:
 - (1) Personnel will stand clear of the landing and departure aircraft.
 - (2) Approach only after a beckoning signal from the pilot or co-pilot.
 - (3) Approach and depart other type helicopters from the right front of the aircraft.
- c. Landing Point Communications.
 - (1) Unit communication officers will install a local telephone from the landing point area to unit switchboards. The telephone will be properly marked and the landing point messengers will maintain a telephone watch on this telephone.
 - (2) To prevent unnecessary landing at the helicopter landing point, when there is no outgoing traffic, the letter "N" will be displayed in the immediate vicinity of the triangle.
- d. Helicopter Landing Point Marking System.
 - (1) All landing points will be marked with equilateral triangle by using three panels from either panel set AP-30C or AP-30D. The color selection will contrast with the landing point in order to be easily recognized by aircraft.
 - (2) Prevailing wind directions will be shown by installing a short pole (approximately three feet) with streamers, flag, or pennants of sufficient length to allow the pilot to see the local wind.
 - (3) Once a helicopter point has been established with the triangle, the type and size of the unit will be identified as follows:
 - (a) Type of Unit. Identified by one or more panels from panels VS-4/U (RED) or VS-6/U (YELLOW) in the center of the triangle.

<u>TYPE OF UNIT</u>	<u>IDENTIFICATION</u>
Infantry/Reconnaissance	One Yellow Panel (VS-6/U)
Artillery/Tanks	One Red Panel (VS-4/U)
Aviation	Two Yellow Panels (VS-6/U)
Service and Support	Two Red Panels (VS-4/U)

D-4-4

CONFIDENTIAL

(3)

~~CONFIDENTIAL~~

(b) Size of Unit. Identified by one or more panels from panel set AP-30C or AP-30D placed directly above and centered on top of the triangle.

<u>SIZE OF UNIT</u>	<u>IDENTIFICATION</u>
COMPANY/Battery	Roman Numeral One
Battalion/Squadron	Roman Numeral Two
Regt/MAG/MAU	Roman Numeral Three
Brigade/MAB	Letter "X"
Div/Wing	Letter "XX"
MAF/MAC	Letter "XXX"

(c) Panel set AP-30C or AP-30D as appropriate in conjunction with panels US-4/U or VS-6/U provides all the necessary equipment and color arrangements needed to effect the above displays.

(d) Upon receiving an air raid warning/alert the helicopter landing point marking will be removed without delay. The markers will be replaced immediately after "all clear" is sounded.

(e) The senior headquarters designator will be displayed when composite headquarters are established. Report to 3dMarDiv units served by the common helicopter landing point.

(f) Helicopters will not be diverted from their assigned route without approval of the CG 3dMarDiv.

(g) Night marking for the helicopter landing point will depend upon the tactical situation, however, satisfactory night markings may consist of three flashlights placed at the apex of the triangle site marker or vehicle lights flushed from a vehicle parked down wind of the landing point and illuminating the landing area.

(h) Care must be exercised in securing panels to the ground to prevent destruction of the displays each time a helicopter lands or takes off.

Appendix 6 (Electronic Warfare) to Annex D (Communication Electronics)
 to Operation Order 201-65 and Operation Plan 321-65

Ref: (a) III MEF OPlan 37-64 for 9th MEB

1. CONTROL OF EMPLOYMENT FOR ELECTRONIC WARFARE IN RVN.

a. COMUSMACV approval must be obtained prior to the conduct of active ECM in all operations, except that commanders of major subordinate units engaged in active combat may employ EW as indicated below when in their considered judgement, such measures are essential to the conduct of the campaign, or for the safety of military forces when time does not permit authorization by higher headquarters.

- (1) Employ active ECM against non-communications electromagnetic radiations.
- (2) Employ electronic jamming against communication circuits passing clear text voice traffic which has an immediate effect on the local tactical situation. Electronic jamming of other communication circuits will not be conducted without prior approval of COMUSMACV.

b. Electronic Warfare conditions may be imposed by this, or higher headquarters.

2. JAMMING OR DECEPTION REPORTS.

a. Scope. Cliff Reports, as outlined below, apply to any case of known intentional jamming or interference from unknown source (mutual interference, etc.) experienced by electronic communications systems, radars, navigational aids, etc., assigned this command.

b. Purpose. To provide the CommO with notification of electronics interference of either an intentional nature experienced by electronics units of this command. Also to provide information when radar and/or UHF/VHF air-to-ground channels are experiencing ECM/Jamming or interference. These reports will provide data for evaluating the effectiveness of enemy active EW efforts.

c. Reports.

- (1) When incidents of jamming which can not be credited to friendly forces or malfunctions are experienced by ground radio,

CONFIDENTIAL

ground radar, navigational aids, or any other electronics systems within or under the jurisdiction of this command, a CLIFF Report will be forwarded by immediate message to RLT-9 (Attn: COMM O). Method of transmission will be by the most expeditious method available. Security classification of this report is SECRET. The following format will be used in submitting this report:

- (a) Unit submitting report and date-time-group.
- (b) Location of site facility (Site number, code name, designation).
- (c) Type of equipment.
- (d) Nomenclature of equipment.
- (e) Frequency interfered with.
- (f) Bandwidth affected.
- (g) Source of interference.
- (h) Location of interference source.
- (i) Azimuth of interference.
- (j) Type of interference (noise, pulse, spot, sweep, barrage, chaff).

(2) Termination report format will be as follows:

- (a) Location of site/facility (site number, code name, designation).
- (b) Date and time interference started.
- (c) Date and time interference stopped.

(3) Conditions of jamming deception and/or unknown interference will be as follows:

- (a) Condition 1 - light interference.

D-6-2

CONFIDENTIAL

3

DECLASSIFIED

CONFIDENTIAL

(b) Condition 2 - moderate interference.

(c) Condition 3 - heavy interference.

(b) NWIP 22-6
(c) FMFM 3-1SECRET
9th Mar. Regt.
Control No. 0031465
Copy No. 30 of 611. GENERAL

a. This plan calls for:

(1) The formation of elements of one BLT and one RLT headquarters into serials prepared for landing over one or more beaches/landing sites as directed.

(2) The establishment of a preferred order of debarkation.

b. BLT 2/9 is combat loaded aboard the USS Pickaway (APA-222) and the U.S.S. Cabildo (LSD-16). RLT-9 Headquarters is loaded aboard the U.S.S. Clymer (APA-27), U.S.S. Carter Hall (LSD-3), U.S.S. Colonial (LSD-18), U.S.S. Mathews (AKA-96). The major portion of the 30 day Class V supply block is loaded aboard the U.S.S. Renville (APA-227).

2. PREFERRED ORDER OF DEBARKATION

- a. Pre-Loaded LCUs from all ships.
- b. BLT 2/9 Personnel and Vehicles.
- c. Command and Control Elements RLT-9.
- d. Supplies and Equipment BLT 2/9 - (on 2/9 Shipping)
- e. 5 Days CL I - AKA-96 - RLT-9 Serials 476-480.
- f. RLT-9
 - (1) APA-27
 - (2) LSD-3
 - (3) LSD-18
 - (4) AKA-96

SECRET

g. Upon establishment of receiving facilities at landing site commence phasing in ammunition from APA-227.

3. CONTROL MEASURES

a. Ship to shore control in accordance with reference (a), (b) and CTF 76.9 Operation Plan for this operation.

b. TAC Log will function in accordance with reference (c) and appropriate Administrative Instructions as issued.

4. COORDINATING INSTRUCTIONS

a. All serials are non scheduled with exception of free boats. Selective unloading of bulk cargo as directed by control organization.

b. If depth of river prevents traffic by LCU, beach pre-loaded LCU at site to be designated, reload on LCM-8.

CONFIDENTIAL

9th Mar. Regt.

Control No. 075065

Copy No 17 of 70

1. STRENGTHS

a. Unit strength will be as directed by ref (c) Tab A (TROOP LIST). RLT) to appendix 4 to Annex A.

b. Initial shortages will be submitted to RLT-9 Headquarters upon activation of this plan. Report in following format:

MARINE CORPS NAVY

- (1) (OFF) on hand/authorized (OFF) on hand authorized
- (2) (ENL) on hand/authorized (ENL) on hand/authorized
- (3) Location of unit
- (4) Remarks

c. Upon activation of this plan a daily strength report, using above format will be submitted as of 1000. Negative reports are required for no change reports.

d. Critical shortages (critical MOS actually needed to sustain continued operations) will be reported as required to RLT-9 Headquarters.

e. Reports. See Annex D (REPORTS) to this plan.

2. REPLACEMENTS

a. Requests for replacements will be submitted to RLT-9 Headquarters as needed.

b. Rotation policies and procedures will be promulgated separately.

c. Unit replacements will be as directed by higher authority.

3. DISCIPLINE LAW AND ORDER

a. Military Justice - Manual for Courts-Martial, 1951; JAGINST P5800.7; Navy Regulations, 1948; DivO P5800.9.

B-1

CONFIDENTIAL

TAB-5

CONFIDENTIAL

- b. Convicted prisoners to be confined for more than 30 days will be transported via logistics flights to Camp Butler Brig, Camp McTureous, Okinawa. Units provide own chasers to MAF evacuation points.
- c. Courts-Martial, NJP review is from Battalion to CG, 3d Mar Div.
- d. Apprehension by foreign authorities. Personnel involved in violations of local law or customs will not be released to civilian (RVN) authorities without approval of higher authority. In such cases, personnel so involved may be subject to prosecution for violation of Article 134 UCMJ.
- e. Persons apprehended by civilian (RVN) authorities.
 - (1) Submit following report when notified of the apprehension of military personnel;
 - (a) Name, rank, ser no, org
 - (b) Name, org of apprehending officials
 - (c) Alleged offense
 - (d) Location of apprehended

- f. Responsibility to local nationals/property - Unit Commanders will thoroughly indoctrinate all personnel concerning the rights, customs, religions and traditions of the Republic of Viet Nam. See Annex H (TROOP INSTRUCTIONS) TO OPPLAN 321-65.

g. Military police. Unit assigned to RLT-9 is responsible for conducting the following activities:

- (1) Conduct criminal investigations. Other Party, Third Worldwide, etc., units provide own chasers to MAF evacuation points.
- (2) Apprehension of deserters, escapees, absentees and stragglers.
- (3) Establish and maintain an RLT-9 Straggler Control Point. See Annex D for Report required.
- (4) Establish and maintain an RLT-9 POW collection compound.
- (5) Enforce and control traffic in RLT zone of action.
- (6) Assist in Civil affairs action as directed by RLT-9, including displaced persons evacuation control.
- (7) Patrol of areas frequented by service personnel when directed by RLT-9, within RLT-9 area of responsibility.

B-2

- e. Responsibility to local authorities regarding civilian (RVN) authority to apprehend, transport and confinement or returning the civilian (RVN) to the United States by the Headquarters of that Army.

CONFIDENTIAL

CONFIDENTIAL

(8) Maintain liaison with civilian authorities or other military services in RLT-9 area of responsibility.

4. POW'S EVACUEES AND REPATRIATES

a. RLT-9 will establish a POW collection point.

b. POW'S will be handled in accordance with FM 19-40, FM 27-10 and DivO P3800.1.

c. Evacuees and Repatriates will be processed through POW collection points. However, they will be separated from POW'S at all time.

d. A civilian collection point will be designated in RLT-9 area of responsibility from which they will be evacuated to an MAF collection point as rapidly as possible.

e. Line crossers will be held separately from POW'S and their presence immediately reported to MAF. They will be processed as POW'S but separately from POW'S.

5. GRAVES REGISTRATION

a. Unit Commanders are responsible for the collection, identification and evacuation of their dead to collection points to be designated.

b. Field burials are not authorized. Evacuation of the dead will be as directed by the Medical Annex to Admin Plan 321-65.

c. Division order P5000.36 and MARCOPERSMAN prescribe graves registration procedures.

6. MORALE AND PERSONNEL SERVICES

a. Leave and Liberty

(1) Emergency leave only will be authorized.

(2) Liberty to be authorized when tactical situation warrants and when so directed by higher authority.

b. Rest and recuperation. Instructions to be promulgated.

c. Disbursing

(1) Terms furnished BET's.

CONFIDENTIAL

CONFIDENTIAL

(2) When directed an RLT-9 disbursing section will be formed ashore from the BLT disbursing teams.

(3) Giving local nationals and/or using U. S. dollars for local purchases is forbidden. U. S. currency use is restricted to officially authorized facilities such as military finance or disbursing officers, the American Embassy, branches of National Offices of Exchanges and Air Viet Nam ticket Office.

(4) Maximum acquisition of U. S. currency is limited to \$100.00 per month per man.

d. Postal instructions, including addresses etc, will be issued upon establishment of an RLT-9 post office. Use present 3d Mar Div mailing address until directed otherwise.

e. Exchange services to be announced.

f. Special Services

(1) Unit Commanders develop special services programs as tactical situation permits.

g. Decorations and Awards

(1) See Navy and Marine Corps Awards Manual

(2) Awards for foreign personnel will be as directed by higher authority.

(3) Awards from foreign governments will be accepted only upon approval of higher authority.

h. Religious Services to be scheduled and conducted as the tactical situation permits.

7. CIVIL AFFAIRS. See appendix 1.

8. PERSONNEL PROCEDURES

a. Personnel procedures and administration will be conducted as prescribed by MARCOPERSMAN and DivO 5000.3D.

b. Personnel requiring assistance for preparing wills, power of attorney, etc. will be referred to the MAF legal section via RLT-9 Headquarters.

c. Personnel to be evacuated from MAF area will be transferred by SR to the 3dMarDiv.

CONFIDENTIAL

d. Casualty reporting. See appendix 2.

(1) Casualty cards will be forwarded to RLT-9 Headquarters as completed.

(2) Casualty report will be submitted to RLT-9 Headquarters as of 2000 daily by 2200. Negative reports are required.

9. INTERIOR MANAGEMENT

a. Interior management including CP location and internal arrangement will be as prescribed in reference (d).

(b) Maximum use of local uninhabited buildings, both private and governmental, for office space, billeting, storage etc. and the availability of such shelter should be considered in selecting and setting up the unit CP. Unless directed by higher authority, no local inhabitant will be displaced from their homes etc. for the mere purpose of gaining shelter.

c. Location of tentage will take into consideration natural cover/concealment and defendability in establishing the internal arrangement of the CP.

10. CIVILIAN EMPLOYEES. Requests for civilian employees will be submitted to MAF via RLT-9 Headquarters.

11. INFORMATIONAL SERVICES. No informational services will be authorized until directed by higher authority. When authorized the following provisions will be enforced.

(a) Casualty cover will be forwarded to RLT-9 Headquarters as completed. All ISR will be forwarded to MACV (Military Advisory Commission Viet Nam) CIB (Command Informational Bureau) via RLT-9 Headquarters for review and release. Report will be submitted to RLT-9 Headquarters as of 2000 daily by 2200. Negative reports are required.

b. Correspondents/photographers must have a valid MACV, CIB correspondent accreditation in order to visit RLT-9 area.

c. When directed by higher authority field press censorship will be enforced. See an prescription in reference (d).

(d) Unit Commanders will maintain buildings, both private and governmental, for office space, billeting, storage etc. and the availability of (1) Indoctrinate all troops of their responsibilities in regards to conduct. Unless directed by higher authority, no local inhabitant will be displaced from their homes etc. for the mere purpose of gaining shelter. (2) Instruct troops of the importance for U. S. assistance to RVN.

e. Location of tentage will take into consideration natural cover/concealment and defendability in establishing the internal arrangement of the CP.

B-5

12. OFFICIAL REPORTS. Requests for civilian employees CONFIDENTIAL and military personnel are required.

(5)

~~CONFIDENTIAL~~

(3) Utilize Fleet Hometown News Center for noteworthy individual and unit achievements.

(4) Vigorously support authorized correspondence in area of responsibility.

(5) Exercise field press censorship in area of responsibility when directed.

Appendix 1 (Civil Affairs) to Annex B (Personnel) To RLT-9 Administrative Plan 321-65

Ref: (a) CG, 3dMarDiv(Rear) msg 181519Z June 1965

1. SITUATION

- a. Enemy forces. See Annex B (Intelligence) to Operation Plan 321-65.
- b. Friendly forces. See Operation Plan 321-65.
- c. Attachments and detachments. See Annex A (Task Organization) to Operation Plan 321-65.

2. MISSION. The RLT-9 civil affairs mission supports tactical operations by minimizing civilian interference therewith, fulfills obligations imposed by international law, furthers our national policies.

3. GENERAL

- a. The primary responsibility for the exercise of CA (Civil Affairs) control and authority over the local population, facilities and resources lies with the government of RVN.
- b. Because of the nature of communist operations, there will be a strong insurgency threat to the local government and RLT-9. The authority exercised, responsibilities assumed, and action taken by the military commanders with respect to the lands, properties and inhabitants of the operational area will affect military operations to a large degree.
- c. Civil affairs operations will be conducted in such a manner as to complement military operations by gaining support of the people and contributing to the isolation and defeat of the guerrilla of insurgent forces.
- d. Except to the limited degree set forth below regarding civil action, military sources will not be diverted to civilian use except where failure to do so would endanger the security of friendly forces or seriously interfere with attaining military objectives.

4. EXECUTION

- a. Property. Welfare facilities, school buildings, hospitals,

B-1-1

CONFIDENTIAL

(5)

CONFIDENTIAL

churches, temples, monuments and cemetaries will not be occupied, damaged or destroyed except in case of acute tactical necessity.

b. Claims. All cases of injury, death or damage to persons or their property arising from RLT-9 operations other than those arising immediately from combat operations will be reported to this headquarters (S-1) as soon as practical and by the quickest means. Such reports will cover identification of the unit or personnel involved, location and date and time of the incident, the general nature of the incident, and identification of any injured or deceased person or property owner, if known.

c. Civic action. All units will participate, to the extent practicable and in consonance with the tactical situation, in projects useful to the local civil populace, and improvement of water resources, sanitation and roads. Any such activities undertaken upon public property or facilities will first be coordinated through the RLT-9 Civil Affairs Officer.

 Plan 321-65

Ref: (a) MCO 3040.1A
 (b) MCO P5000.3 (MARCORPERSMAN)

1. General

- a. Unit commanders will use ref. (a) and (b) as a guide for reporting casualty information.
- b. Combat casualty reporting as used in ref (a) means the reporting of changes in the status of personnel who are lost because of death, capture, wounded, missing, ill or injured. "Wounded In Action Not Evacuated" will be reported for administrative purposes.

2. Casualty and Burial Cards

- a. Casualty Card, USMC NAVMC 10453-PD (Rev 12-60) will be the standard form used as the primary casualty reporting document.

- b. Burial Card, USMC, NAVMC 10454-PD (Rev-12-60) will be used by Graves Registration Teams.

3. Preparation of Casualty Cards

- a. First level of medical services that service the casualty will prepare casualty cards for the below occurrences:

- (1) Initial admission for treatment.
- (2) When treated and returned to duty.
- (3) When treated and evacuated.
- (4) When returned to duty after treatment or hospitalization.
- (5) When evacuated.
- (6) When death occurs after admission.
- (7) KIA's.

- b. Lowest administrative echelon will submit casualty cards for below occurrences:

- (1) Missing or missing in action personnel.
- (2) Captured
- (3) KIA's bodies not found.

CONFIDENTIAL

REF ID: A6510

- (4) Wounds not resulting in loss to unit and evacuation.
- (5) Burials in temporary or isolated graves.
- (6) Ill or injured non-battle status.
- (7) Change of status of casualty i.e. WIA to KIA.

4. Processing of Casualty Cards

- a. Packaged and forwarded as completed to RLT-9 Headquarters.
- b. Negative reports are required subsequent to 2000 daily.

5. Casualty and Burial Bulletins. To be promulgated by MAF, CRCC.

Discrepancies to Bulletins shall be reported ASAP to RLT-9 Headquarters.

- (e) Each is prepared to accept casualties.

2. MEDICAL MISSIONa. RLT Nine

(1) A Medical evacuation station will be established in the Beach Support Area by "D" Co (-) 3d Med Bn.

(2) Supervise and coordinate normal medical support to BLT 2-9.

b. Organic and attached Medical Platoon and Sections. Provide normal combat medical support.

c. Coordinating Instructions

(1) Be prepared to augment medical facilities of ships on which embarked.

(2) All units with qualified personnel test water sources in area.

(3) Report immediately the presence of disease in epidemic proportions.

CONFIDENTIAL

TAB-6

CONFIDENTIAL

3. SANITATION AND PREVENTIVE MEDICINE

- a. Troop Commanders of all echelons require maximum sanitary discipline possible under combat conditions.
- b. Untreated water is not to be considered potable.
 - (1) Water will be procured from approved sources only.
 - (2) When approved water is unavailable water purification tablets will be used. If this is not possible, water will be purified by boiling prior to consumption.
- c. Only approved food will be consumed.
- d. All troops will receive required immunizations prior to debarkation.
- e. Malaria preventive measures will be instituted and include: Ingestion of one (1) chloroquine-primaquin tablet per week by each man; use of mosquito repellents and mosquito netting; wearing enough clothing to cover exposed areas of body if not protected otherwise.
- f. Personnel will be thoroughly instructed in personal hygiene, sanitation, first aid, and prevention of heat prostration.
- g. See appendix 1 for detailed information concerning diseases and health hazards in South Vietnam.

4. EVACUATION

- a. Movement
 - (1) The health of all embarked personnel is the responsibility of the ship's medical officer.
 - (2) Embarked troop medical personnel will render all practicable assistance to ship's medical personnel as regards to medical service for embarked personnel, utilizing ship's supplies and equipment.
- b. Assault-Landing Phase
 - (1) Until medical facilities are established ashore, casualties occurring during the landing of troops will be returned to designated casualty receiving ships.
 - (2) A Shore Party unit will be established at Hue. It will be provided with a medical unit to be designated which will receive and evacuate casualties forward to "A" Co (-) 3d Med Bn. at Phu Bai. Facilities for Da Nang will be coordinated by 3d MAF.
 - (3) Helicopter evacuation between Hue and Phu Bai and the designated casualty receiving ship and Phu Bai will be provided. Requests for helo-evacuation will be made through CO "A" (-) Med Co, 3d Med Bn via RLT-9 at Phu Bai. Ground transportation by ambulance between Hue and Phu Bai will also be provided. Evacuation at Da Nang will be as directed by 3d MAF.
 - (4) Casualties which occur on the river may be directed either seaward or toward Hue. The direction of evacuation will be toward the evacuation station which can be reached in the shortest time without materially impeding the advance of the landing party.

CONFIDENTIAL

CONFIDENTIAL

(5) Proper Security must be provided for ambulances moving in unsafe areas.

c. Air Evacuation: Refer to paragraph 4.b.(3).

d. Casualty Overload

(1) Designated unit will be prepared to furnish one medical officer and 10 corpsmen with medical equipment and supplies to include 10 stretchers to reinforce the evacuation station if casualty overload occurs.

(2) In no case will evacuation of casualties in a situation of serious casualty overload be delayed for lack of complete medical records or other administrative requirements.

e. Precedent of Evacuation

(1) First Priority evacuation. Casualties for whom expedient treatment will save life or limb.

(2) Second Priority Evacuation. Casualties who, after emergency care, incur little increased risk by delay in further treatment.

(3) Third Priority Evacuation. Casualties so critically injured that only complicated and prolonged treatment offers any hope for survival.

f. Priority of Treatment

- (1) US Military Personnel
- (2) US Civilian
- (3) Other SEATO Military Personnel
- (4) POW's
- (5) Others

g. Evacuation Policy: As prescribed by 3d MAF.

5. HOSPITALIZATION

a. Ship Medical Facilities

(1) Primary Casualty Receiving Ship. USS George WIMMER APA-27.

(2) Secondary Casualty Receiving Ship. USS PICKETT APA 222.

(3) Casualty Evacuation Control Ship. USS CARTER HALL LSD-3.

b. 3d MAF Hospitalization Facilities

- (1) Co "A" (-) 3dMedBn. Phu Bai
- (2) 3d MAF Hosp Da Nang.

c. Other Facilities. See 1.c.

d. US civilians will be screened for communicable diseases, given necessary immunizations, and when necessary, evacuated via Military channels as expeditiously as possible.

e. Republic of Viet Nam civilians will be referred to RVN medical facilities when possible. Lifesaving care, however, may be provided RVN civilians, but they will then be transferred to RVN facilities as soon as possible.

f. POW's will be screened for communicable diseases and given necessary immunizations. Maximum use will be made of captured medical personnel, supplies, and equipment in the treatment of

CONFIDENTIAL

(6)

CONFIDENTIAL

POW's. POW's will be hospitalized as directed by the Landing Force Commander until evacuated.

6. MEDICAL SUPPLY

a. RLT Nine

(1) See Reference (a). Emergency supplies will be air delivered as required.

(2) All units will have authorized allowances.

b. Enemy. Whenever feasible, maximum use of captured medical supplies will be made in the treatment and care of POW's.

c. Whole Blood

(1) The USS GEORGE CLYMER will establish a small blood bank.

(2) Co "A" (-) 3d Med Bn at Phu Bai.

(3) 3d MAF Hosp at Da Nang

Appendix 1 (Diseases and Health Hazards of South Vietnam) to
Annex C (Medical) to RLT NINE Administrative Plan 321-65 for CO,
RLT NINE

CONFIDENTIAL

Ref: None

9th Mar. Regt.

Control No. 075365

Time Zone: H

Copy No. 20 of 681. GENERAL

a. During an extended operation in the country of South Vietnam, it is likely that troops operating in the area will become exposed to many potential health hazards and diseases. A comprehensive listing of diseases and hazardous health conditions in the country has been compiled herein whereby personnel will have knowledge of the hazards to health present. Preventive measures must be taken to insure a minimum of incapacitating diseases among 9th MAF Forces.

2. DISEASES OF SPECIAL MILITARY IMPORTANCE

a. Malaria. Malaria is the principal cause of sickness and death in South Vietnam. It is estimated that every native living in the malarial zones has been infected one or more times by the time he has reached 25 years of age. Unless adequately protected, a stranger to these areas would quickly succumb to the disease. The foothills and highlands are intensely malarious, while the Mekong Delta and the coastal belt are comparatively malaria free with the exception of occasional local outbreaks. The three principal types of malaria infection occur in all parts of South Vietnam. Plasmodium falciparum infection predominates in July, August and September when the rainfall is the greatest. P. vivax infection predominates in November, December and January when the rainfall is less. These two types account for about 85% of all cases of malaria and for an even higher percentage of malaria deaths. P. malarias is present throughout the year and accounts for the remaining 15% of cases. Extensive malaria control programs have been instituted in recent years that will probably significantly decrease the severity of the problem, but malaria will always remain endemic.

b. Gastro-Intestinal Infections. These diseases are the second major infectious disease problem of South Vietnam. The major factors responsible for this condition are: insanitary water, primitive sewage disposal methods, insanitary handling of foods, and unhygienic personal habits. The abundance of flies, especially from March through November, contributes to the spread of the enteric infections.

C-1-1

TAS-7

CONFIDENTIAL

CONFIDENTIAL

(1) Amebic and Bacillary Dysentaries. Both diseases are very prevalent. Bacillary dysentary (usually due to the Flexner and Shigella groups of bacteria) is the more serious and widespread, and is known to occur in epidemics in many villages in the rainy season.

(2) Typhoid and Paratyphoid Fevers. Both diseases are widespread among the people. Human carriers probably play an important part in the transmission of these diseases.

(3) Flagellate Diarrhea. Diarrhea caused by giardia lamblia, chilomastix mesnili, Trichimonas hominis, and other flagellates occurs frequently in South Vietnam.

(4) Cholera. Cholera is endemic in South Vietnam and breaks out repeatedly in large epidemics. The disease occurs usually in the southern regions of the country. The threat of cholera is always imminent because of the difficulty of controlling the coastal traffic of a vast fleet of junks and boats on the intricate network of waterways in the Mekong River Delta.

c. Venereal Disease. All known types of venereal disease exist, but gonorrhea is the most prevalent. These diseases are especially frequent in the ports and principal cities where prostitution flourishes. An adequate public health program to combat venereal disease does not exist in South Vietnam.

d. Injuries caused by the heat. Heatstroke, heat exhaustion, heat cramps and prickly heat are common among the inhabitants of South Vietnam and can be expected to be very troublesome to unacclimated persons who do not take adequate precautions.

3. DISEASES OF POTENTIAL MILITARY IMPORTANCE

a. Plague. Plague is endemic in South Vietnam, where the rats and fleas necessary for the spread of the disease are common. Although there have been no recent epidemics, the possibility of such exists, since cases are reported annually in the Mekong River Delta.

b. Typhus Fever. Epidemic or louse-borne typhus (transmitted from man to man by the body louse *Pediculus corporis*) is endemic in South Vietnam. The crowded living conditions and migration of natives during a war in the area could easily produce an epidemic. Murine or rat flea-borne typhus occurs sporadically throughout the year, especially in Cochinchina and Annam. Scrub or mite-borne typhus (also called *tsutsugamushi* disease), is endemic and cases occur throughout the year.

c. Dengue Fever. Dengue fever is endemic in South Vietnam, this disease reoccurs at intervals of years in pandemic waves. An

CONFIDENTIAL

epidemic may last one season or several years. The Aedes mosquito spreads dengue fever. This disease is important because, although it is seldom fatal, it can be disabling to large numbers of people for short periods of time.

d. Pappataci Fever. (Sandfly fever) Although this virus disease has been reported in South Vietnam, the vector (the Sandfly) is present and the disease has been reported from neighboring countries. The disease is important because large numbers of non-immune troops may acquire the disease at the same time, and the period of convalescence is prolonged.

e. Skin Diseases

(1) Scabies (itch). This moderately contagious and irritating skin infection is found throughout the country.

(2) Ringworm. Infections due to Trichophyton and Epidermophyton, the principal causitive agents of athletes foot and other forms of ringworm, are found commonly in South Vietnam.

(3) Secondarily infected insect bites and chronic ulcers are common among the poorer segment of the population.

4. DISEASES LIKELY TO AFFECT SMALL NUMBERS OF TROOPS

a. Viral Infections. Infectious hepatitis is common in South Vietnam. This disease is spread in the same manner as gastrointestinal diseases. The illness incapacitates persons for long periods of time. Poliomyelitis occurs sporadically throughout the year in South Vietnam. A number of cases of viral encephalitis (mainly the Japanese "B" type) have been reported, but this disease has never been in epidemic proportions.

b. Filariasis. Although this disease has never been a problem in South Vietnam, it is a potential threat, as foci of filariasis occur around Dong Hoi, just above the 17th parallel in North Vietnam. Filariasis is a non-fatal but disabling disease.

c. Leishmaniasis. Visceral leishmaniasis (Kala azar) occurs throughout South Vietnam, but the incidence rate is unknown. The disease is transmitted by the bite of an infected sandfly. Humans, dogs and cats serve as reservoirs of infection. Epidemics of Kala azar have occurred in other parts of the world, but have not been reported in South Vietnam. Cutaneous Leishmaniasis (oriental sore) also occurs in South Vietnam. This form of the disease is transmitted by direct person-to-person contact as well as by insect vectors.

d. Leptospirosis. Several forms of this jaundice disease have

CONFIDENTIAL

found in South Vietnam, principally in rural and primitive areas. The causative spirochetes are disseminated in food and water contaminated by the urine of infected rats. Man contracts the disease by eating or drinking infected water or food, or by swimming, wading, or washing in water contaminated by infectious rat urine.

e. Relapsing Fever. Louse-borne relapsing fever, caused by spirochetes of the genus borrelia, occurs in South Vietnam, but its incidence rate is unknown. Outbreaks of this disease, like epidemic typhus, can be associated with the mass movement of troops and refugees.

f. Respiratory Diseases. Influenza periodically occurs throughout South Vietnam, in a mild epidemic form. A small number of troops may be expected to suffer from pneumonia and the commoner forms of acute respiratory diseases.

g. Rat-bite Fever. As there are large numbers of rats in the country, this disease probably occurs, and would affect small numbers of personnel bitten by rodents.

h. Rabies. This disease occurs frequently in dogs throughout the country. The vaccination of dogs is neglected, and the disease has resulted in a large number of human deaths. A religious taboo exists which prohibits the destruction of dogs and which is a handicap to rabies control.

5. DISEASES CAUSING HIGH MORTALITY OR MORBIDITY RATES IN THE MILITARY POPULATION

a. Tuberculosis. Tuberculosis is a very important disease in South Vietnam. In some areas as much as 22% of the population is infected. The disease is widespread among all age and occupational groups. Control of the disease is hampered by a lack of treatment and isolation facilities and the general poor health of the people. The danger that this disease might present to troops in the area would depend on the amount of close contact they had with the natives since the disease is spread by person-to-person contact. Intestinal Tuberculosis is transmitted by drinking milk from infected cows.

b. Intestinal Parasites. Intestinal parasites are very common among the people of South Vietnam. Hookworm disease affects the entire country, and it is estimated that 800,000 children in South Vietnam are infected with this parasite. Common parasites include hookworm (both *Nector Americanus* and *Ancylostoma Duodinale*), roundworm, *Strangyloides*, *stercorales*, whipworm, tapeworm (*Dipylidium Caninum*, *Taenia Solium*, and *Tania Saginata*) and the flagellates (*Giardia Mamblia*, *Chilomastix Mesnili* and *Trichomonas Hominis*). The military significance of these intestinal parasites is the same as for the dysenteric infections. Effective sanitary control measures which are rigidly enforced will minimize troop morbidity.

CONFIDENTIAL

CONFIDENTIAL

c. Leprosy. The disease is endemic in South Vietnam and is a major health problem in some areas. The 100,000 lepers in the country are now receiving medical treatment, but the great majority of lepers are not isolated. This disease should not be of great military significance, because prolonged and intimate association with an infected person is thought to be necessary for contagion.

d. Trachoma. A significant percentage of the population suffer from this eye disease, spread through poor personal hygiene and flies.

e. Yaws. This disease is endemic in South Vietnam, but it is not a serious health problem. Poor personal hygiene and flies spread the disease. The disease is crippling but it is seldom fatal.

f. Dietary Deficiency Diseases. The vitamin deficiency diseases are a very important public health problem. Beriberi, due to lack of vitamin B (caused by eating polished rice rather than unmilled grain), and hypo-proteinosis (diet deficient in protein or meat) are disabling and decrease the resistance of effected individuals to infectious diseases. Other vitamin deficiency diseases also occur. Goiter is prevalent in the iodine poor mountainous areas, but it is not likely to be a military problem.

g. Smallpox. Despite a widespread vaccination program, endemic areas of smallpox are found throughout South Vietnam. Past epidemics of the disease have been very virulent and carried a death rate as high as 92%. Epidemic outbreaks of smallpox are a possibility, especially if war forces the migration of unvaccinated refugees from neighboring lands.

6. MISCELLANEOUS DISEASES.

a. Addiction to Narcotics. Opium is produced in Laos and it is smuggled into South Vietnam. Opium is consumed primarily in the Saigon Oho Lon metropolitan area.

b. Trematode (Fluke) Infections.

(1) Schistosomiasis. Infestation with the Asiatic Blood Fluke (*S. Japonium*) is endemic in South Vietnam, but infrequent in occurrence. The disease is produced by the entrance of the causative parasite into the body by drinking contaminated water, or by swimming or wading in polluted waters. The transmitting hosts are small fresh water snails.

(2) Liver Fluke. Infestation with the Asian Liver Fluke (*Clonorchis Sinensis*) is caused by the ingestion of raw or partly cooked fish which contains cysts of the parasites. It is endemic but infrequent in occurrence in South Vietnam.

CONFIDENTIAL

(3) Fasciolopsiasis. Intestinal infestation with fasciolopsiasis occurs in Cochinchina. It is contracted by eating infected raw water plants such as water chestnuts.

c. Childhood Diseases. Measles, mumps, whooping cough and chicken-pox occur throughout the country, occasionally in epidemic form. Scarlet fever and diphtheria are also known to occur.

d. Tetanus. (Lockjaw) The disease is present in South Vietnam. The widespread use of night soil as fertilizer makes tetanus a serious potential threat that can complicate any wound, battle or non-battle.

e. Animal Diseases Transmittable to Man. Important animal diseases transmittable to man in South Vietnam are rabies, leptospirosis, ratbite fever, tularemia, bovine tuberculosis, trichinosis, brucellosis and anthrax. Melioidosis, a gladders-like disease of rodents, is also transmittable to man. Unsanitary living conditions facilitate the spread of this disease. Man is infected by contact with diseased animals or the ingestion of contaminated food or water. Melioidosis is reported to have occurred among French troops in 1952 and 1954.

RLT-9 Operation Order 321-65

Ref: (a) Maps: VIETNAM 1:50,000 Series L701 Sheets 6659 II, III Sheets 6658 I, IV Sheet 6558 I Series L005 Sheet 6559 II
 (b) 3dMarDiv Operation Order 321-65
 (c) RLT-9 Admin Plan 321-65

Time Zone: H

Task Organization: Annex A (Task Organization)1. SITUATION.a. General.

(1) This plan provides for the deployment of RLT-9 to DANANG, Republic of Viet Nam. It provides for the administrative landing over Beach Red Two, the occupation of assembly areas, and initial disposition of forces in the DANANG Area.

b. Weather, Terrain and Enemy Forces.

(1) The DANANG Area in July is relatively dry, hot and clear. Temperatures will range from 80 degrees to 100 degrees. The rain will be only three inches falling on about eight days in July. The terrain in the right portion of the regimental zone of action is generally rolling, uninhabited and open with excellent observation. On the left flank, east of Route #1, the terrain is flat, marshy (with light woods), and heavy population along the roads. Viet Cong operations in the landing and initial deployment areas are minimal. Thus there should be no serious opposition to the landing and deployment north of the CAU DO River. Small groups of Viet Cong operate extensively south of the river and the area can be considered hostile. At all times when outside the Marine Compound anti-personnel activities can be expected (sniping, contaminated soft-drinks, etc.). INTSUMS will be issued periodically.

(2) See Annex B (Intelligence) to Operation Order 201-65.

c. Friendly.

(1) Third Marine Division defends airfields and ancillary facilities at CHU LAI, DANANG, and PHU BAI; occupies critical terrain, conducts combat patrols in assigned TAORs; when directed, executes offensive operations in order to render combat support to RVNAF.

ORIGINAL

~~SECRET~~

- (2) Third Marine Regiment defends DANANG Airfield from (BT013768) west around perimeter to (BT017754), PHU BAI Airfield and the 8th RRV Facilities. Other assigned missions are in conformance with 3d Marine Division mission.
- (3) FMAW provides helicopters, observation aircraft, and close air support as required. 1-TAC and 4-F4B will be on station initially as air cover for landing.
- (4) VNAF conducts CAS missions for I Corps, RVNAF, and strikes against DRV and VC.
- (5) VNN maintains counter-infiltration screen along RVN coast.
- (6) USS Seventh Fleet conducts naval and air operations against DRV and VC, maintains readiness to provide NGF and air support to 3d Marine Division on request.

d. Attachments and Detachments. Annex A (Task Organization).

- (1) Co D 3d Med Battalion detached from RLT-9 on landing. Report to CO 3d Med Battalion.
- (2) Coll Sec Co D 3d Med Battalion detached from BLT 2/9 on landing. Report to CO Co D 3d Med Battalion.

2. MISSION. Commencing D-Day, RLT-9 lands over Beach Red Two/Tien SHA peninsula, occupies assembly area vicinity 935715. On order occupies assigned sector of FEBA, conducts reconnaissance, operations, security missions and offensive/defensive operations within assigned sector as directed.

3. EXECUTION.

- a. Concept of Operations. Annex C (Concept of Operations)
- b. BLT 2/9
 - (1) Commencing H-Hour, D-Day, land in accordance with Annex I (Landing Plan). Conduct motor march to assembly area vicinity 998723 (Pn CP) and 9871 (leading companies).
 - (2) On arrival assembly area, maintain one company as reaction force prepared for operation as directed. Non-committed companies occupy company areas as assigned by BLT 2/9.
 - (3) Provide one platoon to SP for beach security, Beach Red Two.
 - (4) On order occupy and defend assigned portion of FEBA. See Appendix I to Annex B (Operation Overlay).

ORIGINAL

⑧

~~SECRET~~

- (5) Provide ships platoon USS Renville.
- c. 2d Bn (-) 12th Marines
 - (1) Land in accordance with Annex I (Landing Plan).
 - (2) Occupy position areas in accordance with Appendix 1 to Annex C (Operation Overlay).
 - (3) Direct Support RLT-9.
- d. Co B (-) 1st Amphibious Tractor Battalion
 - (1) Land in accordance with Annex I (Landing Plan).
 - (2) Occupy assembly area north side Beach Red Two.
 - (3) On order, occupy assembly area vicinity 998723.
 - (4) Direct Support RLT-9.
- e. Co B (-) (Rein) 3d Tank Battalion
Co C (-) (Rein) 3d Anti-Tank Battalion
 - (1) Land in accordance with Annex I (Landing Plan).
 - (2) Occupy assembly area in accordance with Appendix 1 to Annex C (Operation Overlay).
 - (3) Direct Support RLT-9.
- f. Coordinating Instructions.
 - (1) Reports
 - (a) Spot reports ASAP on actions where U.S. personnel are wounded or killed.
 - (b) Flash reports on contacts with enemy forces of platoon size or larger, incoming artillery or mortar fire, and/or air or armored attack.
 - (c) Submit patrol plans and operation plans for offensive operations to CO, RLT-9 for approval not later than 72 hours prior to time of execution.
 - (d) Detailed after action reports will be submitted on any action in which an enemy force of platoon size or larger is encountered. Reports will contain following information:

ORIGINAL

~~SECRET~~

SECRET

1. **Statistical data - Units involved, strengths, time, place, casualties, nature of action.**
2. **Narrative account of action.**
3. **Lessons learned, problems or difficulties encountered, areas or matters requiring increased training or attention, suggestions for future operations.**

(2) **Rules of engagement**

- (a) Rounds will not be inserted in the chamber of individual weapons unless an encounter with the enemy is obvious, and in the judgment of the senior Marine present; this measure must be taken to preserve the lives of USMC personnel.
- (b) During hours of darkness the sequence of engagement will be:
 1. Challenge.
 2. If there is no response to the challenge or the response is incorrect, the area will be illuminated.
 3. If the person challenged makes an overt attempt to avoid apprehension, opens fire or commits any other hostile act and thereby endangers the life of the challenger, the challenger may load and fire.
- (c) Magazines will not be inserted in weapons in a camp area during daylight hours unless under attack.
- (d) Supporting Arms.
 1. Use of all supporting arms will be cleared by the appropriate FICCS.
 2. No supporting arms will be fired into any populated area except when the infantry battalion commander on the ground personally determines that such action is necessary to save Marine lives, and that there is no alternative to such a course of action.

5. **COMMAND AND COMMUNICATIONS-ELECTRONICS.**

Annex C (Concept of Operation) to Operation Order 321-65

Ref: (a) Maps: VIETNAM 1:50,000 Series L701 Sheets 6659 II, III Sheets 6658 I, IV Sheet 6558 I Series L005 Sheet 6559 II

1. MISSION. Commencing D-Day, RLT-9 lands over Beach Red Two/Tien SHA peninsula, occupies assembly area vicinity 985715. On order occupies assigned sector of FEPA, conducts reconnaissance, operations, security missions and offensive/defensive operations within assigned sector as directed.

2. CONCEPT.

a. The general concept of operations for RLT-9 is based on instructions outlined in 3dMarDiv OpOrder 321-65 and will be conducted in three phases:

Phase I - Security of base area and establishment of FEPA.

Phase II - Deep patrolling and offensive operations.

Phase III - Reserve and reaction force operations in coordination with RVNAF.

b. Phase I.

(1) On order CTG 76.6, PLT-9 commences Debarkation over Beach Red II and Tien SHA peninsula, executes motor move to assigned positions (See Operation Overlay).

(2) Personnel and light vehicles will land over Beach Red Two. Heavy equipment will land over Tien SHA Beaches until causeways are available on Beach Red Two. On installation of causeway land all elements RLT-9 on Beach Red Two.

(3) Execute motor move by serials to assembly areas (See Operation Overlay).

(4) Upon establishment of base camp, occupy and develop assigned sector of FEPA.

c. Phase II.

(1) Principal military objective in Phase II is the rejection of the Viet Cong by the people of the southern sector of the Division TADOR.

C-1

~~SECRET~~

(8)

ORIGINAL

~~SECRET~~

- (2) Operations conducted will be designed to liberate the area of VC influence. Viet Cong in sector will be killed or captured. Aggressive patrolling, ambushes, raids, and other offensive operations will be conducted.
- (3) Concurrently with military operations a civic action program will be developed.
- (4) Reconnaissance efforts and other offensive operations that contribute to the security of the base area will be conducted. Liaison will be established with RVNAF forces in zone and with District Chiefs in zone.

d. Phase III.

- (1) Phase III operations involve provisions of combat support to RVNAF forces on the basis of operational coordination.
- (2) Commencement of Phase III operations will be directed by CG 3dMarDiv.

Encl: (1) Appendix 1 Change 1 to Subject Annex

Time Zone: H

1. Make the following pen and ink corrections and addition
to subject Annex and its Appendixes.

a. Change "CTG 76.9 and TG 76.9" to read "CTG 76.6 and TG
76.6," respectively wherever they appear.

b. Para 1.b.(3)(b): Change coordinates RLT-9, BLT-2/9 and
2nd BN 12TH Marines to read, "VIC 9972, VIC 9972, and 'to be
announced', " respectively. Delete BLT-3/4 and associated
coordinates.

c. Para 2.a.(2): Change "Hue Phu Bai" to Da Nang

d. Para 2.c.(1): Delete "RLT-9 alternate headquarters is
(BLT-3/4)" and substitute therefore, "CG Third MarDiv (forward)."

e. Para 2.c.(6)(d): Change "AN/TRC-55" to read, "AN/TRC-75."

f. Insert new subparagraph 2.c.(6)(g) as follows:

(g) During ship-to-shore movement and prior to opening
RLT-9 Command Post ashore, the following stations
will guard RLT-9 Command Net, utilizing personnel and
equipment of the RLT-9 advance party.

<u>STATION.</u>	<u>LOCATION</u>
RLT-9 Forward	VIC 9972
RLT-9 Control	996755

RLT-9 Control will assume net control initially.

g. Delete para. 4.b.

2. Remove present Appendix 1 and insert enclosure (1) of this
change in lieu thereof.

 RLT-9 HEADQUARTERS,
 DA NANG, VIET NAM
 061200H JULY 1965

ADMINISTRATIVE ORDER 321-65 to Accompany OPERATION ORDER 321-65

Ref: (a) Map: Indo-China 1:50,000 (Tourane) Sheets 6659 III, 6658 IV, AMS
 Series L701

Time Zone: H

1. SUPPLY. RLT-9 Headquarters and BLT 2/9 departed Okinawa on 3 July 1965.

a. They embarked with the following quantities of supplies and equipment:

(1) CLASS I

(a) MCI: 15 days
 (b) Fuel Triozene: 15 days

(2) CLASS II, TYPE I

(a) Initial Allowance TA/TE Remarks: Less those items of
 cold weather gear
 turned into 3dFSR.

CLASS II, TYPE II

(a) Dry Cell Batteries 15 days Remarks: Battery block for BLT
 2/9 unavailable; some
 shortages in RLT block.

(3) CLASS III

(a) Special oils and lubricants.

(4) CLASS IV

(a) Field Fortification Material. No blocks available. Very
 limited amount on hand.

(5) CLASS V

(a) Basic Allowance plus 30 days.

(6) All units embarked with operating blocks on hand.

(7) All encampment/garrison items had been previously turned into
 Division as ordered.

~~CONFIDENTIAL~~

TAB-9

~~CONFIDENTIAL~~

b. Control and Distribution. Supply dumps will be established in areas to be designated by the Commanding Officer, RLT-9 and the Commanding Officer, RLT 2/9. Of the thirty (30) days of Class V embarked aboard assigned shipping, five (5) days will be retained in the RLT-9 and RLT 2/9 dumps. The remaining twenty-five (25) days of Class V will be stored by FLSG.

c. Plan for Landing. See Annex I to Operation Order 321-65 for details on the landing plan.

(1) Landing Site. On or about 070730H July 1965 or when directed by higher authority, RLT 2/9 and RLT-9 Headquarters will commence unloading across Beach Red Two. (Vicinity of coordinates 953813). One (1) causeway will be emplaced by that time to facilitate off-loading. Priority of off-loading will be given to RLT 2/9.

(2) Beach Area. Prior to 070730H July 1965, road improvements will be made connecting Beach Red Two to Highway #1 which will permit one-way traffic to circulate. Beach matting will be emplaced along the beach and on the egress routes.

(3) Control. Control in the beach area will be exercised by the Shore Party Officer attached to RLT-9 Headquarters. He will make maximum use of the material handling equipment and trucks available to expedite the movement of supplies and equipment off the beach. FLSG will assume control of all Class V on the beach.

(4) MP Support. The Division Provost Marshal will assign military police to man key intersections from the beach area to the RLT and RLT assembly areas. There are a few areas along the route which have low hanging wires. The PMO will station personnel at those locations to lift the wires when high pieces of equipment, (tanks, 8", etc.) pass.

(5) Hours of Off-Loading. Installation of flood lights in the beach area will permit off-loading operations to continue on a twenty-four (24) hour basis.

(6) Movement of Supplies. Highway #1 is acceptable for the movement of all trucks, engineer equipment, tanks and ontos. A decision will be rendered by higher headquarters on whether or not the amtracs will be permitted to drive on the highway. In any event, the amtracs will come ashore first. If the use of lowboys is required to move the amtracs, they will stage on Beach Red Two until general unloading is completed.

(7) Security. The Commanding Officer, RLT 2/9 will assume responsibility for the defense of the beach area.

2. EVACUATION AND HOSPITALIZATION.

a. Evacuation. A helicopter site will be established in the vicinity of Beach Red Two at a location to be designated. In the event that evacuation is required, helicopter(s) will be called into transport injured/wounded personnel to the field hospital at Da Nang.

~~CONFIDENTIAL~~

b. Aid Station. Aid stations will be established in the assembly area at sites to be designated by the Commanding Officer, RLT-9 and the Commanding Officer, BLT 2/9.

3. TRANSPORTATION.

a. Availability. The Commanding General, 3d Marine Division has directed that division units provide all possible motor transport support for RLT-9 and BLT 2/9 during the period of their unloading operations. In accordance with this policy, the Commanding Officer, RLT-9 has been authorized direct liaison with the Division Motor Transport Officer to insure that adequate transportation is made available during the off-loading period. Despite this order, motor transport will be at a premium during the period of unloading, and maximum utilization will be made of all available vehicles.

b. Trafficability. Engineer effort has improved the road from Highway #1 to Red Beach Two. However, care must be exercised by all drivers on the road. Highway #1 is a hard surface road, and the route to the assembly areas, though treacherous in spots, requiring driver attention at all times, is passable for all vehicles and equipment.

4. PERSONNEL.

a. Discipline, Law and Order. The complexity of the mission assigned to the Marine Corps in the Da Nang area requires the implementation of a high state of discipline at all times. Marines are operating in areas occupied by friendly civilians but where the appearance of Viet Cong is always to be anticipated. Troops must be alert at all times while on guard duty, patrols and when off the base for any reason. Fire discipline must be enforced at all times.

(1) Liberty. Liberty regulations will be published in accordance with those promulgated by higher authority. All hands will refrain from entering off-limit areas. Incidents bringing discredit upon the United States will lead to the loss of liberty privileges in the areas inhabited by the local population. All hands will be briefed on the subject of proper decorum on liberty and the necessity for respecting the rights of the Vietnamese.

(2) General Disease. There is a high frequency of reported cases of venereal disease in the Da Nang area. Character guidance lectures as well as advice from the Regimental/Battalion Surgeon will be given to all hands prior to the commencement of any liberty.

b. Morale and Personnel Services.

(1) Morale. All Unit Commanders will institute a program designed to maintain high morale. When the tactical situation permits, athletic programs will be initiated. Specified quotas will be assigned to each unit for beach runs, liberty parties, etc. Personnel will be encouraged to enroll in off-duty correspondence courses to further their education and military proficiency.

~~CONFIDENTIAL~~(2) Personnel Services.

(a) Mail. Mail delivery has been improving steadily in the past few months. Normal mail delivery time to and from the United States to Viet Nam varies from four (4) to seven (7) days. Personnel will be encouraged to write home frequently to allay the concern of relatives over their welfare. The mailing address for personnel stationed in this area is:

Private Joe DOE, 1888762, USMC
HqCo, 9th Marines,
3d Marine Division (Forward)
FPO, San Francisco, 96601

(b) Red Cross. A Red Cross representative is available twenty-four (24) hours per day in the 3d Marine Division compound at Da Nang.

(c) Leave. Normally, emergency leave only will be granted. It is anticipated that an R&R program will be initiated in the near future.

c. Civil Affairs. All hands are directed to respect the privacy and property of the Vietnamese. A thoughtless act of courtesy can do much to undermine the good will engendered by our participation in the defense of their country.

(1) Cemeteries. Personnel are prohibited from molesting Vietnamese tombs and cemeteries which dot the landscape. This is considered sacred ground by the Vietnamese and will be respected.

(2) Food and Drink. Personnel are cautioned against consuming any food or drink from the local economy, unless it has been approved by proper medical authority. Untreated drinking water will not be consumed. Water points will be established by the engineers which will be capable of meeting the requirements for potable water.

(3) Traffic Hazards. All vehicle operators will be especially cautious when driving on the streets and highway of Viet Nam. The streets are used by pedestrians, bicycle operators and animals resulting in hazardous driving conditions. Drivers will be alert at all times and strictly obey all speed limits.

(4) Respect for Property. All hands will respect the living quarters, possessions and privacy of the Vietnamese. If military necessity requires entering villages, commanders will take all steps necessary to insure that the rights of innocent Vietnamese are protected.

5. MISCELLANEOUS.

a. Reports. Unloading status reports will be submitted by the embarkation officer from each ship carrying BLT-9 and BLT-9 personnel upon the commencement of unloading and every four (4) hours thereafter until unloading has been completed.

b. Uniform Regulations.

~~CONFIDENTIAL~~

(1) RLT and BLT Assembly Areas. Personnel will wear the utility uniform or the light weight army utility uniform at all times. The jacket will not be removed unless authorized by the unit commander for personnel engaged in work requiring strenuous physical exertion. Personnel will carry their weapons, pistol belts and normal equipment at all times. The wearing of helmets and body armor is optional, at the discretion of the unit commander.

(2) Liberty. Utilities will not be worn on liberty. Lance Corporals (E3) and below will wear the summer service uniform with short sleeves. Officers and Corporal (E4) and above may wear the summer service uniform or appropriate civilian attire. Weapons will not be taken on liberty.

(3) Identification. Name tags will be removed from the utility uniform. Names will be stenciled or indicated with a marking pencil directly above the left breast pocket on the utility jacket. All personnel are required to wear their rank insignia on their utility caps directly below the Marine Corps Emblem.

c. Disbursing. Normal disbursing procedures will be followed. Personnel may not draw more than \$200.00 in currency monthly. Checks may be sent home for quantities above \$200.00.

d. Special Medical Precautions.

(1) Salt Tablets. The intense heat necessitates all personnel to take salt tablets daily. The frequency of their use fluctuates on the degree of activity of the individual concerned. A person engaged in light activity should take a minimum of two (2) tablets per day. An individual engaged in strenuous activity, (patrols, working parties, etc.), should take from six (6) to eight (8) tablets daily.

(2) Malaria Pills. Malaria pills will be taken weekly as directed by the Regimental/Battalion Surgeon.

Ref: (a) MAP: TOURANE 1:50,000, Sheet 6659 III

Time Zone: H

TASK ORGANIZATION: No Change

1. Situation

a. Enemy Forces. Viet Cong have infiltrated objective villages. Estimates vary up to 50 VC or VC sympathizers in objective area.

b. Friendly Forces. HOA VANG District Headquarters provides one PF platoon for village sweep. Provide interrogators for check of all male inhabitants. Provides Civil Affairs Team to direct action of male inhabitants.

2. Mission. BLT 2/9 establishes cordon around objective area, prevents escape of all male inhabitants. Provides force to cover village sweep.

3. Execution

a. Concept of Operations - BLT 2/9 establishes cordon around objective area, prevents any male inhabitant of military age from escaping. ARVN (PF) platoon from HOA VANG district headquarters sweeps village. Loudspeaker from HOA VANG directs inhabitants to go to brick factory GC (ATO16705) where District Chief screens inhabitants. LVT Platoon provides river security.

b. BLT 2/9. Prior 0600, 18 July establish cordon around village. See Annex A (Operation Overlay). Prevent all male inhabitants of military age from leaving village.

c. Company "B" 3d Amtrac Bn. Prior 0600, 18 July establish river patrol. See Annex A (Operation Overlay). Prevent river escape.

d. S-2 9th Marines. Coordinate with HOA VANG DISTRICT on screening of village inhabitants.

e. Coordinating Instructions. Rules of engagement remain as directed in DivOpOrder 321-65.

Annex C (Concept of Operations) to Operation Order 321A-65

Ref: (a) MAPS: INDO CHINA, 1:50,000 Series L701, Sheets 6658 IV, 6659 III
 (b) 3d MarDiv OpOrder 321A-65

Time Zone: H

1. MISSION. Defend DANANG Air Base perimeter and assigned portion of the TAOR, prepared to conduct unilateral search and destroy operations. Maintain one company in a one hour reaction posture. Conduct aggressive combat/reconnaissance patrolling throughout assigned portion of TAOR. Prepare to counterattack to restore integrity of Air Base perimeter. Prepare to conduct combined operations with ARVN beyond boundaries of assigned portion of DANANG TAOR.

2. CONCEPT.

a. General. I Corps ARVN has concurred in the expansion of the 3d Marine Division TAOR to include all areas within mortar range of the DANANG airfield. See Appendix (2) Operation Overlay. The expanded TAOR includes areas whose population density ranks with the highest in Viet Nam. This is the first instance where areas of such a population density has been given to Marine Corps units. Operations in the expanded TAOR must be conducted with restraint, with close coordination with Danang Special Sector and with HOA VANG District Headquarters in order to prevent injuries to own combatants and civilians. Additionally, the pacification program of the VIETNAM government provides political and civic action teams to follow up seizure of Viet Cong controlled hamlets for the purpose of changing the allegiance of the villages to the Viet Nam government. Occupation of Viet Cong controlled villages will proceed at a pace to insure that once seized, the village remains friendly. The progress of the attack to secure the assigned TAOR is strongly influenced by the availability of ARVN Forces and their willingness and capability to work in close coordination and cooperation with the 9th Marines.

b. Designation of zones. See Appendix 1 (ARVN Area Overlay) to Annex C (Concept of Operations).

(1) A zone - Completely pacified. Control by USMC desirable at earliest date.

(2) B zone - Areas of high density population. VC influence varies from strong to neutral. See Annex B (Intelligence). Occupation and/or military operations to be conducted with close coordination and cooperation with local forces.

C-1

SECRET

(15)

SECRET

(3) C zone - Area cleared of Viet Cong influence. Occupation or military operations are unnecessary.

c. Forces available and assigned tasks.

(1) Provisional AIR BASE DEFENSE BATTALION.

(a) This battalion is at present being formed over a phased time schedule from Division personnel assets. In existence is Company "A" which has replaced one company of the 1st Battalion, 9th Marines on the airfield defense perimeter. As each company is formed, FAM fired on assigned weapons and trained in its duties, it will relieve a company of the 1st Battalion, 9th Marines on the perimeter defense. This company from 1/9 will in turn move to Sector A south of the airfield. Upon relief of two or more companies and upon acceptance of the responsibility for air base defense by the Commanding Officer, Provisional Air Base Defense Battalion, control will shift from the 1st Battalion, 9th Marines.

(b) Time schedule for formation of PAED companies follows:

Company "A" - 19 July 1965
 Company "B" - 31 July 1965
 Company "C" - To be Designated
 Company "D" - To be Designated
 H&S Co - 6 Aug 1965

(2) 1st Battalion, 9th Marines, upon incremental relief from air base defense will occupy bivouac sites, will establish defensive positions along north bank of the SONG CAU DO and will aggressively patrol area A. Upon relief of airfield defense 1/9 reverts to Div reserve.

Company "D", "A", H&S BT 024734
 Company "C" BT 032736
 Company "B" AT 008723

Security for DANANG EAST will be provided by 1/9.

(3) 2d Bn, 9th Marines presently occupies and defends the village of HOA CHAU as phase I of its operations in Sector B south of the SONG CAU DO. On order, operations will be conducted in the village of HOA DA as phase II.

d. FUTURE OPERATIONS.

(1) Dependent on the assignment of additional forces or release of 1/9 from Div reserve, phase III will see the expansion of the

SECRET

outer ring around DANANG into the village of HOA PHOUNG AND HOA THAI.

(2) Upon pacification of the outer ring, phase IV operation will include combat operations to the outer limit of the regimental TAOR.

2. Mission. Commencing on order, communication-electronic elements of Ninth Marines (-)(Rein), establish and maintain the communication support for operations within assigned sector of responsibility.

3. Execution.

a. Ninth Marines Communication Platoon.

(1) Install, operate and maintain communications required to support the Ninth Marines concept of operations in accordance with reference (a) through (e) and this annex.

CONFIDENTIAL

(2) Provide Radio Relay Teams and Equipment to support Radio Relay employment shown in Appendix 5 (Radio Relay/Wire Circuit Diagram) to this annex.

(3) Be prepared to provide communications to attached units for independent operations when directed.

b. 1st Bn 9th Marines. Install, operate and maintain communications required in accordance with references (a) through (e) and this annex. Coordinate and support AN/TRC-27 Radio Relay Team attached and be prepared to provide such additional communication facilities as may be directed.

c. 2d Bn 9th Marines. Install, operate and maintain communications required in accordance with reference (a) through (e) and this annex. Coordinate and support AN/TRC-27 Radio Relay Team when attached and be prepared to provide such additional communication facilities as may be directed.

d. Da Nang AF Prov Def Bn.

(1) Install, maintain and operate communications in accordance with this annex.

(2) In view of inability to perform communication center functions, III MAF will assume communication guard. Message delivery and pick up will be provided by AF Prov Def Bn.

e. Units assigned direct support missions to Ninth Marines.

(1) Install, maintain and operate communications in accordance with this annex.

(2) Install internal communications as required.

(3) Be prepared to relay communications when units are widely separated.

f. Coordinating Instructions.

(1) Communications will conform to principles, methods and procedures established in references (a) through (e) except as modified by this annex.

(2) In the event of casualty to the Ninth Marines headquarters, all units will establish communications with 1st Bn Ninth Marines as alternate Regimental CP.

(3) Communication Center.

(a) See reference (c)

CONFIDENTIAL

CONFIDENTIAL

- (b) Use Greenwich Mean Time (Zulu) for all message date-time groups. Local time (Hodel) may be used within message text.
- (c) When referring to messages originated by other services, nations, or allied commands, include both date-time group and reference or cite number in accordance with DNC-5G.

(4) Messenger Service.

- (a) Special messenger service will be provided as required. Scheduled messenger service will be established when facilities become available and the tactical situation permits.
- (b) All units will establish helicopter landing points in the vicinity of their headquarters. Landing points will be marked in accordance with Appendix 4 (Warning, Visual, Sound and Pyrotechnics) to this Annex.
- (c) Liaison and visiting staff officers will check with communication center for courier service before departing Command Posts.

(5) Cryptographic.

- (a) Off-line effective edition of KAK-2697.
- (b) On-line effective edition of KAK-2641.
- (c) Authentication effective edition KAA-60.
- (d) KAC-138 CINCPAC Numeral Code is effective for joint use within the Pacific Command.
- (e) ACP-165 contains a compilation of operation brevity codes for use in radio-telephone communication and is effective for joint use in RVN.
- (f) Units that have teletype circuits equipped with On-line Cryptographic Equipment will pass all traffic On-line.

(g) All units will carry two (?) months ROB in addition to current effective editions.

(6) Radio.

- (a) Radio circuits in accordance with Appendix 1 (Radio Frequency Plan) to this Annex are effective on order.

CONFIDENTIAL

CONFIDENTIAL

(b) Call signs in accordance with Appendix 2 (Radio Call Signs) to this Annex.

(c) On all radio circuits where SSB is the designated emission initial contact will be made in USB. All AN/TRC-75 radios will be operated in the Low Power Position.

(d) Report all attempts at jamming or imitative deception to this headquarters (Attn: COM 0) by immediate message. Use format contained in Appendix 6 (Electronic Warfare) to this Annex.

(7) Radio Relay/Wire.

(a) See Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.

(b) Priority of installation of Trucks/Remotes/Locals shall be in accordance with Chapter 7 of Reference (c), except that Radio Relay trunk lines to the FSCC shall have priority over Radio Relay trunk Lines to switchboards and FSCC local telephone shall have priority after the S-3 local.

(c) Wire installation, Telephones, Teletype and Radio Relay operating procedures in accordance with reference (c) and ~~ICF-134~~.

(d) Wire will be used for internal CP installations.

(e) Switchboard Call Signs in accordance with Appendix 3 (Switchboard Call Signs) to this Annex.

(f) Wire line installation in accordance with reference (d).

(8) Warning, Visual, Sound, and Pyrotechnics.

(a) See Appendix 4 (Warning, Visual, Sound, and Pyrotechnics) to this Annex.

(b) Particular attention is invited to the fact that red smoke marks enemy position.

(c) Illumination and smoke signals must be confirmed using radio communications or panel VS-17/GVX if radio is not available.

(9) Air Communications. Appendix 1 (Radio Frequency Plan) to this Annex.

(10) FSCC Communications. Appendix 1 (Radio Frequency Plan) and Appendix 5 (Radio Relay/Wire Circuit Diagram) to this Annex.

CONFIDENTIAL

CONFIDENTIAL

(11) Naval gunfire. Appendix 1 (Radio Frequency Plan) to this Annex.

4. Administration and Logistics.

Appendix 4 (Visual, Sound and Pyrotechnics) to Annex D (Communication-Electronics) to Operation Order 321A-65

Ref: (a) ACP 136
 (b) Third MarDiv OpOrder 321A665
 (c) FMFPacO FO2000.2B

Time Zone: II

1. General.

(a) See references (a), (b) and (c).

(b) Visual signals are a supplementary means of communications and are transmitted by panels, flashing lights, signal flags, and pyrotechnics.

(c) Unit tactical CW call signs will be used on all visual circuits.

2. Warning and Alert Signals.

<u>SIGNAL</u>	<u>MEANING</u>	<u>HOW DISSEMINATED</u>	<u>REMARKS</u>
AIR DEFENSE	AIR ATTACK	FLASH MESSAGE,	SIRENS WILL
WARNING "RED"	IMMINENT OR TAKING PLACE	SHORT REPEATED SOUND OF SIRENS OR WORD OF MOUTH	NOT BE USED FOR ANY OTHER SIGNAL WITHIN OBJECTIVE AREA
"YELLOW"	AIR ATTACK IS PROBABLE	MESSAGE, WORD OF MOUTH	
"WHITE"	AIR ATTACK IS IMPROBABLE	MESSAGE, TELEPHONE WORD OF MOUTH	MAY BE DECLARED BEFORE OR AFTER AIR DEFENSE WARNING "YELLOW" OR "RED"

3. Miscellaneous Visual Signals.

(a) Flag displayed from tank turret:

<u>SIGNAL</u>	<u>MEANING</u>
"RED"	Tank is in distress, require infantry assistance.
"ORANGE"	Tank is low on fuel or ammunition, pulling back to replenish.

CONFIDENTIAL

"GREEN" Request contact on telephone at rear of tank.

b. Aircraft Maneuver Signals:

<u>AIRCRAFT MANEUVER</u>	<u>MEANING</u>
360 Degree Left Turn	Display CP Identification
360 Degree Right Turn	Mission Completed
*Alternate Dips and Climbs	Display Front Lines Markings
Rook Wings	Message or Displays Understood
*Yaw Right-Left	Standby for Message Drop
Sharp S-Turn	Will Support, You Mark Target
Circle Right-Rocking Wings	Am Trying To Contact You By Radi

*It is not practical for jet aircraft to execute those maneuver signals.

The following illumination and smoke signals are effective. No others authorized.

(1) Used by ground units and river and sea units for liaison together or with aircraft.

ILLUMINATION SIGNALS

<u>TYPES</u>	<u>MEANING</u>
SIGNAL, GROUND, RED STAR CLUSTER (ONE SIGNAL IS FIRED)	Encircled or attacked by the enemy. Request for support (Type of support) such as aircraft, artillery, receiving forces, etc., must be affirmed by radio.
SIGNAL, GROUND, RED STAR CLUSTER (CONTINUOUS FIRE OF 3 OR MORE SIGNALS)	Request for emergency illumination (radio liaison must be established)
SIGNAL, GROUND, GREEN STAR PARACHUTE	Request for ammunition
SIGNAL, GROUND, GREEN STAR M125 (HAND-HELD)	Request for evacuation
SIGNAL, GROUND, WHITE STAR PARACHUTE M127, (HAND-HELD) OR SIGNAL, GROUND, WHITE STAR ANM 44 A1	Radio breakdown

CONFIDENTIAL

CONFIDENTIAL

SIGNAL, GROUND, WHITE STAR CLUSTER (FIRE OF ONE SIGNAL) Request for radio communications on the air-ground frequency

SIGNAL, GROUND, WHITE STAR CLUSTER (CONTINUOUS FIRE OF 3 OR MORE SIGNALS) Request for cease of illuminating firing and shelling

SIGNAL, GROUND, RED STAR PARACHUTE M126 (HAND-HELD) We are withdrawing from this position

SMOKE SIGNALS

SIGNAL, GROUND, YELLOW SMOKE, M64
OR
GRENADE, RIFLE, YELLOW SMOKE
OR

Marking of the friendly units position or of a secured area for an urgent or normal aircraft landing.

GRENADE, HAND YELLOW SMOKE, M18

SIGNAL, GROUND, GREEN SMOKE M65
OR
GRENADE, RIFLE, GREEN SMOKE

Please inform us of the enemy direction or position

GRENADE, RIFLE, GREEN SMOKE M18

GRENADE, RIFLE, RED SMOKE

Marking of the enemy position

(2) Used by aircraft for liaison with ground units,

GRENADE, HAND, GREEN SMOKE M18

Please inform us of the enemy direction

GRENADE, HAND, RED SMOKE, M18

Marking of the enemy position

GRENADE, HAND, SMOKE, HC (WHITE)
ANM 8

Request for radio communications on the air-ground frequency

OR
SIGNAL, AIR-GROUND, WHITE STAR CLUSTER (FIRE OF ONE SIGNAL)

d. Panels

(1) See References (a) and (b)

(2) Panels are employed by ground forces as a means of recognition and identification. The panel sets VS-4/U and VS-6/U are normally used for identifying vehicles.

(3) Use VS-4/U (RED) panels to identify vehicles and armor in forward areas on odd dates. Use VS-6/U (YELLOW) panels on even dates.

~~CONFIDENTIAL~~

4. ~~Sound~~ Sound devices will be used in accordance with locally prepared SOP'S

5. Helicopter Landing Point Identification.

a. Helicopter Landing Points (General Information).

(1) Helicopter landing points should be selected which provide helicopter pilots adequate space to maneuver into the wind in order to take advantage of increased performance of the helicopter under a favorable wind direction.

(2) All landing points will be at least 100 feet in diameter paying particular attention to ensure overhead wire or antennas do not obstruct the landing areas.

(3) Areas of hard ground, solid rock, or grass are the best natural landing points for helicopters. Graveled areas shall never be selected as a helicopter landing point. Dry barren areas should also be avoided since dust clouds created by the helicopter may reveal landing and takeoff to the enemy.

(4) Landing points will be policed of debris and any loose material to avoid damage to aircraft.

b. Safety Precautions. It is mandatory that all landing points personnel be briefed on the following precautions:

(1) Personnel will stand clear of the landing and departure aircraft.

(2) Approach only after a beckoning signal from the pilot or co-pilot.

(3) Approach and depart other type helicopters from the right front of the aircraft.

c. Landing Point Communications.

(1) Unit communication officers will install a local telephone from the landing point area to unit switchboards. The telephone will be properly marked and the landing point messengers will maintain a telephone watch on this telephone.

(2) To prevent unnecessary landing at the helicopter landing point, when there is no outgoing traffic, the letter "N" will be displayed in the immediate vicinity of the triangle.

~~CONFIDENTIAL~~

CONFIDENTIALd. Helicopter Landing Point Marking System.

(1) All landing points will be marked with equilateral triangle by using three panels from either panel set AP-30C or AP30D. The color selection will contrast with the landing point in order to be easily recognized by aircraft.

(2) Prevailing wind directions will be shown by installing a short pole (approximately three feet) will streamers, flag, or pennants of sufficient length to allow the pilot to see the local wind.

(3) Once a helicopter point has been established with the triangle, the type and size of the unit will be identified as follows:

(a) Type of Unit. Identified by one or more panels from panels VS-4/U (RED) or VS-6/U (YELLOW) in the center of the triangle.

<u>TYPE OF UNIT</u>	<u>IDENTIFICATION</u>
Infantry/Reconnaissance	One Yellow Panel (VS-6/U)
Artillery/Tanks	One Red Panel (VS-4/U)
Aviation	Two Yellow Panels (VS-6/U)
Service and Support	Two Red Panels (VS-4/U)

(b) Size of Unit. Identified by one or more panels from panel set AP-30C or AP-30D placed directly above and centered on top of the triangle.

<u>SIZE OF UNIT</u>	<u>IDENTIFICATION</u>
COMPANY/Battery	Roman Numeral One
Battalion/Squadron	Roman Numeral Two
Regt/MAG/MAU	Roman Numeral Three
Brigade/MAB	Letter "X"
Div/Wing	Letter "XX"
MAF/MAC	Letter "XXX"

(c) Panel set AP-30C or AP-30D as appropriate in conjunction with panels US-4/U or VS-6/U provides all the necessary equipment and color arrangements needed to effect the above displays.

(d) Upon receiving an air raid warning/alert the helicopter landing point marking will be removed without delay. The markers will be replaced immediately after "all clear" is sounded.

(e) The senior headquarters designator will be displayed when composite headquarters are established. Report to 3dMarDiv units served by the common helicopter landing point.

D-4-5

CONFIDENTIAL

(15)

CONFIDENTIAL

(f) Helicopters will not be diverted from their assigned route without approval of the CG 3dMarDiv.

(g) Night marking for the helicopter landing point will depend upon the tactical situation, however, satisfactory night markings may consist of three flashlights placed at the apex of the triangle site marker or vehicle lights flashed from a vehicle parked down wind of the landing point and illuminating the landing area.

(h) Care must be exercised in securing panels to the ground to prevent destruction of the displays each time a helicopter lands or takes off.

(i) The following examples of helicopter landing points markings are provided for guidance and instructional purposes:

Example 1

Infantry Company

Appendix 6 (Electronic Warfare) to Annex D (Communication-Electronics)
 to Operation Order 3214-65

1. Control of Employment for Electronic Warfare in RVN.

a. COMUSMACV approval must be obtained prior to the conduct of active ECM in all operations, except that commanders of major subordinate units engaged in active combat may employ EW as indicated below when in their considered judgement, such measures are essential to the conduct of the campaign, or for the safety of military forces when time does not permit authorization by higher headquarters.

(1) Employ active ECM against non-communications electromagnetic radiations.

(2) Employ electronic jamming against communication circuits passing clear test voice traffic which has an immediate effect on the local tactical situation. Electronic jamming of other communication circuits will not be conducted without prior approval of COMUSMACV.

b. Electronic Warfare conditions may be imposed by this, or higher headquarters.

2. Jamming or Deception Reports.

a. Scope. Cliff Reports, as outlined below, apply to any case of known intentional jamming or interference from unknown source (mutual interference, etc.) experienced by electronic communications systems, radars, navigational aids, etc., assigned this command.

b. Purpose. To provide the CommO with notification of electronics interference of either an intentional nature experienced by electronics units of this command. Also to provide information when radar and/or UHF/VHF air-to-ground channels are experiencing ECM/Jamming or effectiveness of enemy active EW efforts.

c. Reports.

(1) When incidents of jamming which can not be credited to friendly forces or malfunctions are experienced by ground radio, ground radar, navigational aids, or any other electronics systems within or under the jurisdiction of this command, a CLIFF Report will be forwarded by immediate message to ~~Hq~~ Ninth Marines. Method of transmission will be by the most expeditious method available. Security classification of this report is SECRET. The following format will be used in submitting this report:

D-6-1

CONFIDENTIAL

(15)

CONFIDENTIAL

- (a) Unit submitting report and date-time-group.
- (b) Location of site facility (site number, code name, designation).
- (c) Type of equipment.
- (d) Nomenclature of equipment.
- (e) Frequency interfered with.
- (f) Bandwidth affected.
- (g) Source of interference.
- (h) Location of interference source.
- (i) Azimuth of interference.
- (j) Type of interference (noise, pulse, spot, sweep, barrage, chaff).

(2) Termination report format will be as follows:

- (a) Location of site/facility (site number, code name, designation).
- (b) Date and time interference started.
- (c) Date and time interference stopped.

(3) Conditions of jamming deception and/or unknown interference will be as follows:

- (a) Condition 1 - light interference.
- (b) Condition 2 - moderate interference.
- (c)

D-6-2

CONFIDENTIAL

CONFIDENTIAL

(c) Condition 3 - heavy interference.

Ref: (a) MAPS: Tourane, 1:50,000 Sheets 6659 III, 6659 II, 6658 IV and 6658 I
 (b) Ninth Marines Operation Order 321A-65
 (c) IFM-22
 (d) FMFM 7-1

Line Zone: H

TASK ORGANIZATION: Annex A1. SITUATION.a. Enemy Forces.

(1) Annex B (Intelligence) to Operation Order 321A-65 and current INTSUMS.

b. Friendly Forces.

(1) Annex F (Air Support) to Operation Order 321A-65.
 (2) Annex G (Naval Gunfire) to Operation Order 321A-65.

2. MISSION. Defend Danang Air Base perimeter and assigned portion of the TAOR, prepared to conduct unilateral search and destroy operations. Maintains one company in a one hour reaction posture. Conducts aggressive combat/reconnaissance patrolling throughout assigned portion of TAOR. Prepares to counterattack to restore integrity of Air Base perimeter. Prepares to conduct combined operations with ARVN beyond assigned portion of Danang TAOR.

3. EXECUTION.a. Concept of Operation.

(1) Battalion FSCC's will coordinate supporting fires within the battalion zone of action. However all requests for supporting fires will be approved by Ninth Marines FSCC before firing.
 (2) Ninth Marines FSCC will coordinate supporting fires within the Regimental TAOR and effect necessary liaison with higher headquarters for clearance to fire supporting arms when required.

E-1

CONFIDENTIAL

(15)

CONFIDENTIAL

- (3) All requests for high explosive fires must be coordinated and approved by 3d Marine Division FSCC before firing. Illumination requests in designated areas may be approved by 9th Marine's FSCC. 3d MarDiv FSCC must be notified as soon as possible that illumination is being fired.
- (4) Commanding Officer, Airfield Defense Battalion has been granted authority by CG 3d MarDiv to use supporting arms as necessary without prior approval by regimental or 3d MarDiv FSCC.

4. TARGET INFORMATION.

a. Target List.

- (1) Annex B (Intelligence) to Operation Order 321A-65.
- (2) The target list will be maintained by the Regimental Commander. Subordinate commanders will be prepared to maintain such portions of the target list as apply to their assigned areas of responsibility.

b. Restricted Targets.

- (1) Every effort will be made to preserve religious, cultural, medical and public installations. Fires in populated areas will be kept to a minimum. Fires will not be called on bridges, highways or railroad tracks.
- (2) High explosive fires will be fired only upon approval of the 3d Division commander or when in the opinion of a battalion commander, failure to fire H.E. immediately would lead to the loss of Marine lives or jeopardize the mission of a unit of battalion size. Illumination east of the QO north-south grid line will be fired only upon approval of the 3d MarDiv FSCC and DaNang Special Sector due to the large number of RVN forces in that area. Illumination west of the QO north-south grid line within the 9th Marines TAOR may be fired upon approval of the Regimental Commander.
- (3) Destruction of restricted targets is prohibited except on approval of the 3d MarDiv Commander or when in the opinion of a Battalion Commander, failure to destroy immediately, would cause Marine casualties or jeopardize the mission of a unit of battalion size.

c. Restrictive fire plans.

- (1) When it is necessary to ensure an adequate degree of safety from friendly fires for aircraft conducting large or critical

CONFIDENTIAL

missions, the following restrictive fire plan will be employed:

PLAN WAGONMASTER

All surface fires are prohibited between prescribed maximum and minimum altitudes within the specified rectangular area during the stated time interval. The length of the area is designated by two points whose coordinate will be given and the width is specified by a given distance to either side of the line joining the two points.

(2) Units requesting an air support mission will recommend a restrictive plan if required. Higher headquarters will not impose a restrictive fire plan contrary to recommendations of the requesting unit, unless the need is clearly indicated. Recommendations and orders for the restrictive fire plan will state the coordinates of the points delineating the center line, the distance to either side of the center line, the maximum and minimum altitude and the time period,

Example: "Wagonmaster 013698 to 042698. 2000 meters. 1000 to 10,000 feet. 1040 to 1055"

5. AIRCRAFT SAFETY.

a. Air sentries and lookouts.

(1) Air sentries will be stationed by artillery firing units and naval gunfire support ships to check fire when friendly aircraft approach the area.

(2) Artillery forward observers and naval gunfire spotters will check fire when the trajectories of artillery and naval gunfire projectiles endanger friendly aircraft.

b. Fire on helicopter approach and retirement lanes. Fire on helicopter approach and retirement lanes in use is restricted to observed fire with an additional requirement that an observer be capable of ensuring the safety of helicopters.

6. GROUND FORCES SAFETY.

a. No fire line.

(1) Definition: A line, short of which artillery or ships do not fire, except on request of the supported commander.

(2) CG 3d MarDiv will publish effective no fire lines. Emergency changes by infantry battalion commanders will be considered valid unless countermanded.

CONFIDENTIAL

b. Bomb line.

- (1) Definition: A line which defines the rear boundary of a zone of general air action. This line is arranged, if possible, to follow well-defined geographical features. To the rear of this line, all air strikes against enemy surface targets must be controlled by the close air support system and must be:
 - (a) Requested or approved by the appropriate ground commander.
 - (b) Integrated with fire and movement of the supported unit, including its other supporting arms.
- (2) Bomb lines will be prescribed by CG 3d MarDiv.

7. COMMAND AND COMMUNICATIONS-ELECTRONICS.

- a. Annex D (Communications-Electronics) to Operation Order 321A-65.

b. Command Posts.

- (1) 3d MarDiv (AT995756)
- (2) 9th Mar (AT999726)
- (3) 1stBn, 9th Mar (BT001745)
- (4) 2dBn, 9th Mar (AT998723)
- (5) 2dBn, 12th Mar (AT999726)
- (6) Provisional ABD Bn (BT001745)

Annex F (Air Support) to Operation Order 321A-65

Ref: (a) 3d MarDiv OpOrder 321A-65

Time Zone: H

1. SITUATION.

a. Enemy Forces. Annex B (Intelligence) to Operation Order 321A-65.

b. Friendly Forces.

(1) Annex A (Task Organization) to Operation Order 321A-65.

(2) Elements of the 1st MAW will provide CAS, helicopter and air delivery missions in support of Ninth Marines.

2. PROCEDURES.

a. Air strike requests will be forwarded to the Division FSCC via the normal chain of command for approval.

b. Air strikes will be conducted under the positive control of the TACP, TAC(A) or ASRT.

c. Battalion ALO's and FAC's have the authority to request direct medical evacuation flights (MED-EVACS) through the DASC, but are required to notify the Regimental ALO of all impending and completed MED-EVACS.

d. An Airforce C-123, with a 200-Flare capacity is on 30 minute standby at Danang AF. Judicious utilization of this aircraft should be foremost due to the shortage of aircraft flares in this area. Requesting of this support is coordinated through Regimental FSCC.

e. Requests for pre-planned and prearranged on call aircraft for support will be forwarded to the Regimental ALO for coordination by 1000 on the day prior to the day that the mission is to be effected.

f. Standard mission request forms should be used in requesting all types of support.

3. HELICOPTER LANDING ZONE PROCEDURES.

a. Three Helicopter LZ's are located within the operating area of Ninth Marines.

CONFIDENTIAL

- (1) Sandpiper (Ninth Marines) 999-723 4 helo capacity.
- (2) Sandpiper "A" (3d Tk Bn) 991-710 2 helo capacity.
- (3) Sandpiper "B" (Reaction Force) 985-721 12 helo capacity.

b. Utilization of these LZ's require coordination through Ninth Marines ALO.

c. LZ's 3.a. (1) and 3.a. (2) have night lighting facilities available.

d. The Reaction Force will normally be transported via vehicle to the Dan A/F in the event of night committments.

e. The following information is required about LZ's prior to mission approval:

- (1) Coordinates
- (2) Marked or unmarked
- (3) Secure or unsecure
- (4) Medical assistance (if applicable)
- (5) TACP call sign and frequency

f. All LZ's should be properly marked with smoke and/or panels whenever feasible.

4. CAPABILITIES AND LIMITATIONS.

- a. Support aircraft of the 1st MAW in support of Ninth Marines are capable of delivery combinations of bombs, rockets, napalm, smoke and 20mm cannon fire.
- b. All weather and night missions are enhanced with the assistance of ASRTs and aircraft flares.
- c. CAS aircraft are on 14 minute strip alert 24 hours a day.

5. REPORTS.

- a. Spot reports of missions flown in support of Ninth Marines shall be submitted to the ALO, Ninth Marines as soon as possible.
- b. Information required:
 - (1) Type mission (MEDEVAC, CAS, RESUPPLY)

CONFIDENTIAL

- (2) Time Alerted (TIME MISSION CALLED IN)
- (3) A/C on station (TIME A/C ON STATION OR AT LZ)
- (4) Time Completed (TIME A/C DEPARTED STATION OR LZ)
- (5) Results (SUCCESSFUL OR UNSUCCESSFUL)
- (6) Coordinates SELF-EXPLANATORY
- (7) Remarks (DELAYS, INJURIES, DAMAGE ASSESSMENT)

c. Reports will be forwarded to Ninth Marines via Land Line or Ninth Marines TAC NET whenever possible.

6. COMMAND AND COMMUNICATIONS-ELECTRONICS.

- a. Call Sign and Frequencies. See Appendixes 1 & 2. (Call Signs and Frequencies) to Annex D (Command and Communications-Electronics) to this Operation Order.
- b. Control Agencies:
 - (1) TACC VIC BT 0175
 - (2) DASC VIC BT 0175

Time Zone: H

Task Organization:

TG 71.8 (Naval Gunfire Support Group)

TU 71.8.1
 TU 71.8.2
 TU 71.8.3
 TU 71.8.4
 TU 71.8.5

1. SITUATION.

a. Enemy Forces. See Appendix B (Intelligence) to Operation Order 321A-65 and current INTSUMS.

b. Friendly Forces.

(1) T.G. 71.8 (Naval Gunfire Support Group)

(2) Annex F (Air Support) to Operation Order 321A-65

2. MISSION. Naval gunfire will support the conduct of reconnaissance operations, security missions, attacks and counterattacks; will destroy or neutralize enemy forces and will provide night illumination.

3. EXECUTION.

a. CTU 71.8 is in general support of III MAF. Direct support ships will be assigned on a daily basis by III MAF.

b. Coordinating Instructions.

(1) Approval to fire missions.

(a) In most cases Naval Gunfire projectile trajectories will pass through Danang Air Base's climb and glide paths. Therefore all naval gunfire missions must be approved by 3d MarDiv on an individual basis before the order to fire is given.

G-1

CONFIDENTIAL

(15)

CONFIDENTIAL

- (b) Silence on the Naval Gunfire Spot Net (NGSN) by 3d MarDiv FSCC will not be considered as approval to fire a mission. 3d MarDiv will pass "cleared to fire" over the NGSN as approval to fire an individual mission.
- (c) Silence on the NGSN by 9th Marines FSCC and by battalion FSCC will be considered as approval by these units to fire a mission.
- (2) Units desiring fire support ships make request to 9th Marines. Preplanned missions must be submitted 48 hours in advance to 9th Marines FSCC.
- (3) Standard Salvos for Call Fires. At discretion of SFCP.
- (4) Night Illumination. Will be coordinated by 9th Marines (FSCC).
- (5) Restrictions.
 - (a) Normally VT fuses will not be employed when the line of fire passes over friendly troops or craft. If the tactical situation requires the use of VT-fused projectiles under these circumstances, approval of 9th Marines FSCC must be obtained.
 - (b) All Naval Gunfire missions will be observed by either a U.S. NGF spotter, NAO, or F.O.
- (6) Assignment of mission target numbers.

1/9 - 000 - 199
 2/9 - 200 - 399

4. ADMINISTRATION AND LOGISTICS.

- a. Equipment for Naval Gunfire teams as provided by units concerned.
- b. Reports.

Ammunition Reporting Codes:

<u>Caliber</u>	<u>Code Word</u>
3" / 50	Tucker
5" / 38	Rickenbacker

FRAG ORDER 5-65

1. Situationa. Enemy Forces

(1) See current INTSUMS.

(2) At the present time no VC organized units have been reported operating in the immediate proximety of the Danang East complex. However in the past units in up to company strength have been reported. Current reports have indicated only isolated incidents of sniper fire. The main threat to this area is still from elements of the 7th VC Bn last reported operating in the area centered on GS (BT 0162).

b. Friendly Forces

(1) The 9th Mobile construction Battalion is bivouaced in an area around GC BT 056738 and are working on a hospital site vicinity GC BT 064725.

(2) 2d platoon, company "D", 3d Recon Battalion has a squad OP at Marble Mountain GC BT 068712.

c. Attachments and Detachments. Remain the same.2. Mission. On order company "D", 3d Recon Battalion will provide one reinforced platoon and company "B", 3d Tank Battalion will provide a heavy section of tanks for security of the Danang East complex to include the MCB-9 bivouac area and the hospital construction site.3. Executiona. Concept of Operations. Company "D", 3d Recon Battalion using one platoon provides security for MCB-9 and the Danang East complex by conducting aggressive combat/reconnaissance patrols to kill or capture any enemy operating in the vicinity of the Danang East complex.

Confidential

b. Company "D", 3d Recon. On order move one platoon to the vicinity of Marble Mountain GC BT 075710 and establish a PPB. Conduct aggressive combat/reconnaissance patrols to kill or capture any enemy in the area of the Danang East complex.

c. Company "B", 3d Tank Battalion. On order move a heavy section of tanks to the PPB at Marble Mountain to provide direct support for the platoon from company "D", 3d Recon Battalion.

d. 2d Battalion, 12th Marines. Provide one F0 Team direct support of 1st platoon, company "D", 3d Recon Battalion.

e. Coordinating Instructions

(a) Rules of Engagement remain in effect.

(b) Direct liaison with MCB-9 is authorized.

(c) One squad from the 593 Regional Force Company will report to the platoon from company "D", 3d Recon Battalion at Marble Mountain.

4. Administrative and Logistics. No change.

5. Command and Communications-Electronics. Remain the same.
