e. Personnel Summary.

(1) Replacements more than compensated for losses during August. Although there remains a few shortages in critical MOSs.

(2) Total enlisted strength versus T/O is considered adequate. The officer strength although increased in August is still considered as the only critical personnel area.

2. Informational Service. For the month of August a total of 148 stories were submitted by this team for release, also a total of 900 Fleet Home Town News forms were submitted to Division ISO for release.

~~UNCLASSIFIED~~

3. Special Services.

a. During the reporting period this section conducted 8 beach parties to China Beach for the personnel of Headquarters Company and also rear echelon personnel of Battalion's attached to this Regiment, patients, etc. These parties are very successful.

b. Movies are shown daily in an outdoor theater and have a "full house" each performance. Personnel of this unit are offered the opportunity to attend all USO shows in the ~~Forward~~ Enclave. Transportation is provided for both forward and rear CP personnel with arrangements made for chow when necessary. The 9th Marines was designated Host for USO Show "The Great Scott". This show was cancelled because the performers plane was grounded at Cam Ranh Bay. Cigarette lighters bearing the insignia of the 9th Marines were to be requisitioned from the first quarter allocated funds. Each person in this unit will be given a lighter.

c. It is contemplated to utilize the remaining funds for this quarter to request permission to purchase beer, soft drinks and ice to be used on beach parties planned for the month of September.

d. This unit has requisitioned and received numerous games and athletic equipment for issue. Current projects at this time are: to set up "work out" spaces in both forward and rear areas for weight lifting equipment. Golf driving range at the forward CP.

4. Discipline.

a. No unusual problems.

b. Courts-Martial:

| <u>Completed</u> | <u>Pending</u> |

| GCM <u>0</u> | GCM <u>0</u> |
| SPCM <u>5</u> | SPCM <u>1</u> |
| SCM <u>2</u> | SCM <u>0</u> |

c. Regimental Commanders Office Hours - 0

d. Battalion Commanders Office Hours - 5

e. Company Commanders Office Hours - 14

5. Morale, P.X., Postal Affairs, Liberty and R&R.

a. Morale. Morale within the Regiment remained excellent.

b. Post Exchange Facilities. PX facilities continued to provide highly satisfactory service to the Regimental Command Post (Rear) and the 1st Battalion.

c. Postal Affairs. Mail delivery and pickup remained satisfactory. Money order sales in the An Hoa area and on Hill 55 remains to be a problem. Recommend establishing a unit U. S. Post Office at An Hoa.

- (1) A new Regimental Order was published on leave and liberty.
- (2) The Regiment received and allocated equally among the battalions and Headquarters Company the following R&R quotas:

| | |
|--------------|------|
| Hawaii | - 7 |
| Okinawa | - 57 |
| Penang | - 10 |
| Kuala Lumpur | - 10 |
| Sinapore | - 10 |
| Taipei | - 22 |
| Manila | - 8 |
| Toyko | - 37 |
| Bangkok | - 36 |
| Hong Kong | - 20 |

Returnees from R&R reported the program working smoothly and expressed their satisfaction with it.

6. Administration.

- a. The occupation of a forward and rear Regimental Command Post continued to be an obstacle to smooth administration. The separation of the Adjutant/S-1 from the majority of his sections personnel, official and directive files in the rear, slows down and hampers the efficient functioning of this section.
- b. Annual directives review conducted and many Regimental Directives have been rewritten or in process of being revised.

7. Chaplain Activities.

- a. During the month of August Catholic and Protestant Services were held at the Regimental Headquarters on each of the four Sundays. The total attendance for these Sunday Services was: Catholic 145, Protestant 57
- b. In addition to these Sunday Masses for the 9th Marines, the Regimental Chaplain celebrated 8 Sunday Masses for units without Catholic Chaplains, including 3d Tanks, 1st EVT's, 4/12, 2/1. The total attendance at these Masses was 337.
- c. During the month Mass was provided for the 3d Battalion in An Hoa. The Regimental Chaplain celebrated 6 Masses at the Battalion Headquarters and outlying letter Companies. Total attendance was 182.
- d. With the arrival of two new Battalions, namely 2/1 and 2/26, and at the request of the Division Chaplain, the Regimental Chaplain assumed the responsibility of providing Catholic coverage for these units. A Sunday Mass will be celebrated at each of the Battalion Headquarters. In addition one day a week will be devoted to each of these units in order to cover their outlying letter Companies.

S-2 CHRONOLOGY1. Area of Operations

a. The Regimental Zone of Action was reduced in size by 24.5 square miles as the result of the relief of the 2d Bn 9th Marines by the 2d Bn 1st Marines on 14 ~~September~~^{August} and the assumption of the responsibility for the former ZOA of 2/9 by the 1st Marines. (2/9 moved to the HUE-PHU BAI TAOR under OPCON of the 4th Marines). The remainder of the 9th Marines ZOA which comprises an area of 109 square miles, a complete description of which can be found in chronologies of previous months, remains unchanged.

b. Weather. The effects of the weather on tactical operations were negligible. Generally, during the month, fair weather prevailed with occasional periods of rain and reduced visibility.

| | |
|---|-------------|
| No days w/measurable rainfall..... | 5 days |
| Total rainfall..... | 1.08 inches |
| Maximum rainfall during 24 hr span..... | .75 inches |
| Maximum temp during August..... | 97° |
| Minimum temp during August..... | 72° |
| Average winds for August..... | NW at 5 kts |
| No days w/less than 5 miles visibility..... | 0 |

c. Roads and Trails. August saw the completion and formal opening of LIBERTY Road from Hill 55 (AT 966617) to the AN HOA Industrial Complex. Existing MSR's and feeder roads and trails remained trafficable throughout the month and portions of the MSR from DANANG to Hill 55 were improved through the efforts of Marine Engineers and Navy Seabees. The weather had no significant effect on trafficability.

2. Viet Cong Order of Battle (See Figure I) ~~During the month, the reported disposition of the Viet Cong units remained relatively unchanged from the previous month. Total estimated Viet Cong strength of confirmed units remained at 1,400 (800 Main Force, 600 Guerrilla, and 200 Main Force and Guerrilla units). The following table summarizes the estimated disposition of confirmed units for the month of August. Information below is based on information from personnel and official publications relating to the~~

Force, 500 Local Force and 100 assigned to special mission units (engineers, reconnaissance and assassins). In addition, the estimated number of guerrillas remains at about 400.

b. Reports from GVN and ARVN sources have suggested the presence of an additional and unidentified VC Battalion located and operating east of the AN HOA operating area and south of the SONG KY LAM, SONG BIEN BINH. It is possible that two or more unidentified local force companies that have been reported operating in this general area have been organized under a unified command.

c. The presence of the R.20 Bn continues to be reported in the western AN HOA area; however, companies of that battalion have ranged into the eastern portion of the AN HOA area and north across the SONG THU BON. Affiliations to the V.25 Bn (AKA 5th) persisted from intelligence agents placing that battalion also in the western section of the AN HOA west of the SONG THU BON/SONG THIN YEN. No confirmation of this battalion has been made, however, and it is still considered to be a "shadow" of the R.20 Bn. The suggestion has been made that it is the administrative counterpart of the R.20 Bn through which personnel input and logistic support are funneled.

| Mortar | 19 | 26 | 9 | 4 |
| Mines/Booby Traps | 122 | 157 | 86 | 72 |

b. The reduction in the total size of the ZOA notwithstanding, the level of enemy activity remained relatively constant compared with last month. Other factors which bore influence on the incident figures were the continuation of Operation MACON throughout the month and Operation SWANNEE.

c. Operation MACON (see July Command Chronology) continued to be characterized by small unit contacts, observations by reconnaissance OP's located in the hills to the south of the AN

~~OPERATIONS~~

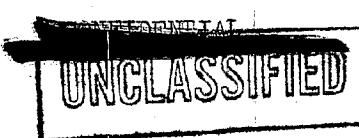

HON area and VC harrassment of Marine patrols by long range sniper fire. The construction and formal opening of LIBERTY Road (see Operations Section of this chronology) influenced Marine activities in the MACON area in that primary attention was directed toward the security of the road and the traffic thereon. The preponderance of incidents in the MACON area involved the Marine units tasked with the security of the road.

d. Operation SWANEE (see Operations Section of this chronology) was a 3d Marine Division Operation, the mission of which was to provide security on both shores of the river while a hydrographic survey was made of the SONG KY LAM/SONG THU BON from the mouth of the river ~~as it~~ enters the South China Sea west to the vicinity of (AT 880512), a distance of approximately twenty five statute miles. The 9th Marines had operational control of the operation from the vicinity of (AT 998547) west to the termination point. Though the boat making the survey proceeded without incident, the Marine units ashore were involved in the three most significant contacts of the month (see para e. below).

e. Three contacts initiated by the VC in company minus or larger strength were recorded during the month.

(1) At 192015H, Company A 1/9, participating in Operation SWANEE and located in the vicinity of (AT 9654), was attacked by an estimated 50 to 60 Viet Cong from seven different locations with heavy small arms fire and 60mm and 81mm mortars. No penetration of the company perimeter was attempted, however, the small arms fire continued until artillery fire was brought to bear. Enemy casualties were estimated to be 10 KIA (Probable). USMC casualties were 2 KIA and 6 WIA all resulting from one incoming mortar round.

(2) At 201400H, the 3d Battalion (minus), operating in support of Operation SWANEE in the vicinity of (AT 8751) and (AT 8752) was attacked by an estimated 200 Viet Cong with small arms and rifle grenades. Contact continued for approximately

UNCLASSIFIED

UNCLASSIFIED

forty five minutes whereupon the VC broke contact and withdrew to the west. Enemy casualties were 10 KIA (Confirmed). USMC casualties were 5 KIA and 6 WIA. It is of interest to note that this area is that which is considered to be the stronghold for the R.20 and V.25 Battalions and has seen only limited and cursory operations by USMC units.

(3) At 201745H, Company A 1/9 in the vicinity of (AT 9550) (at this time Company A was not involved directly in Operation SWANNEE, however, it held that position as a result of its previous participation in this operation) was attacked again by an estimated 50 Viet Cong from many directions with heavy small arms and mortars.

(4) The areas in which the 3 incidents mentioned above took place are areas in which the Viet Cong had enjoyed relative freedom of movement and he indicated by these attacks his intentions to not give up easily his control of these areas. It should be remembered that the Viet Cong had previously been denied control of a considerable amount of operating area by Operations GEORGIA and LIBERTY (see chronologies for June and July). It is believed that the Viet Cong units involved in each of these engagements were elements of the R.20 Bn with possible support from local force and guerrilla units.

f. As reflected by the statistics in paragraph 3a above, incidents of sniping and harrassing fire increased considerably. This can be attributed in part to the fact that 9th Marine units continued to develop semi-fixed and fixed positions throughout the ZOA providing the Viet Cong with a certain target for long range sniping and harrassing fires at any time of his choosing. The accuracy of the sniper continued to improve giving additional credence to the suggestion in last month's chronology that a better equipped and better trained individual has assumed the role of sniper in lieu of the guerrilla whose efforts at sniping were more harrassment than a threat.

UNCLASSIFIED

~~CONFIDENTIAL~~

g. The use of mines and booby traps continued to be a significant Viet Cong tactic. However, whereas in previous months the anti-personnel mine made up the greater portion of the total incidents, the Viet Cong directed more effort to anti-vehicular type mines during August. This was an expected reaction on the part of the Viet Cong in view of the increased vehicular traffic throughout the ZOA as a result of the completion of LIBERTY Road and the traffic patterns which, of necessity, have been established in and around the fired positions.

h. Other significant factors which are believed to have contributed in part to the overall plan of Viet Cong activities are the GVN National election scheduled for 11 September 1966 and the fall rice harvest which will take place during the latter part of October. The VC has a vested interest in both of these events. His activities, coupled with intelligence reports, have suggested that the Viet Cong will do everything within his capability to disrupt or prevent the orderly electoral process. The Viet Cong have tasked the local village and hamlet cadre and guerrillas with the bulk of operations to counter the elections. This has included intimidating the people by threats and acts of terrorism to discourage them from voting. Though no specific mission of local and main force Viet Cong has been determined it is expected that they will be employed to exploit any opportunity where a larger force is required to disrupt the election. Concerning the forthcoming rice harvest, there have been indications that local and main force elements are gradually infiltrating into certain areas in sufficient strength to enforce their taxation of the people at the conclusion of the harvest and to attempt to deny small USMC patrols from moving into certain areas.

4. VC Casualties (1 Aug - 31 Aug 66)

3. An additional point may well be significant in this area. The Viet Cong's January force is believed to disrupt the election. One reason for this is that the election date is the same as the 11th.

~~SECRET~~S-3 CHRONOLOGY

1. General. During the month of August the 9th Marines conducted normal security and clearing operations, continued Operation MACON and conducted Operations WILCOX and SWANNEE. Additionally, the Regimental Commander entertained numerous officials and dignitaries, the most distinguished of which were General JOHNSON, Chief of Staff, U. S. Army on 8 August 1966; General Wallace M. GREENE Jr., Commandant, U. S. Marine Corps 10 August 1966; and the President of Republic of Vietnam and Ambassador Henry Cabot LODGE 15 August 1966. On 1 August 1966 change of command of 3/9 was effected when Major Fred K. MACLEAN Jr. relieved Major George H. GRIMES as Commanding Officer. On 13 August 1966 2/9 was chopped OPCON to Fourth Marines and 9th Marines assumed OPCON 2/1. On 14 August 9th Marines chopped OPCON 2/1 to First Marines and that portion of 9th Marines TAOR occupied by 2/1 became the responsibility of First Marines. On 27 August 1966 Liberty Road linking DANANG with AN HOA was opened by Major General Wood B. KEE in dedication ceremonies held at AN HOA during which the 9th Marines assumed OPCON 2/1.

2. Operation MACON. During the month of August, 3d Bn, 9th Marines engaged in search and clear operations, conducted ambushes, patrols and outpost operations along Liberty Road, bridge and ferry site in own TAOR. These actions were designed to retain control of the line of communication, provide security for engineer and civilian construction workers, minimize enemy activity along Liberty Road from AN HOA to the southern bank of the Song Thu Bon (AT 925530) and actively search out and engage the enemy throughout the entire MACON TAOR. Much of August was spent in this and continued normal security and clearing operations. Commenced Operation WILCOX. Operation WILCOX was conducted by 1st Bn, Ninth Marines in its TAOR in the DUC KY area bounded on the north by SONG AI NGHIA and on the south by SONG LACH THO. Operation WILCOX commenced at 110400H August 66 with companies A/1/9 and I/3/9 moving into blocking positions along SONG AI THO and SONG AI NGHIA respectively. Companies D/1/9 and F/2/9 occupied attack positions along railroad bed from vic (AT 995508) to (AT 995510) and commenced the search and clear operation at 0615 with two companies attacking abreast in a westerly direction. The operation terminated at 121200H Aug 66 when the attacking force reached the SONG AI NGHIA and the blocking force.

3. Operation SWANEE. Operation SWANEE was a 3d Marine Division operation involving elements of the 1st and 9th Marines performing a security function for elements of CTF-116, conducting a Hydrographic survey from the mouth of the Song Thu Bon to AN HOA. The 1st and 9th Marines provided security for the survey while functioning within their respective TAOR. The Ninth Marines participation in Operation SWANEE was conducted in three phases with the 1st Bn being responsible for the survey and the 9th Marines being responsible for security. The survey was conducted in three phases.

UNCLASSIFIED

for Phase I and II and the 3d Bn for Phase III. Phase I commenced at 170645H Aug 66 with L/3/9 establishing a blocking position vic (AT 990500) to (BT 000500) and Companies A, C and I (CO I OPCON TO 1/9 from 3/9) attacking to the east to destroy enemy forces in the area between SONG THU BON and SONG BA REN and to link up with elements of 1st Marines providing security for survey crew at boundary of TAOR vic (AT 998546). The boundary of TAOR was reached at 172100H and the link up effected terminating Phase I of SWANNEE. Phase II commenced at 180700H Aug 66 when 1/9 assumed OPCON of the Hydrographic Survey Team and supporting elements. Co I chopped OPCON to 3/9 and Co G/2/1 chopped OPCON to 1/9 and 1/9 attacked to the west along the SONG THU BON providing security on south bank until the survey team reached the boundary of 2/1 and 1/9 on north bank of SONG THU BON where G/2/1 was chopped to its parent organization. From this point 1/9 provided security on both banks of SONG THU BON until survey team reached the Liberty Ferry Site at 181600H Aug 66 which marked the conclusion of Phase II. Phase III commenced at 200630H Aug 66 with the operational control being exercised by 3/9. Companies L and M with Co C (OPCON to 3/9) in trace disposed along the north side of the SONG THU BON and Co I on the south side attacked to the west in assigned ZA to provide security for the survey team. At 201530H Aug 66 the technical advisor of the survey team indicated that sufficient data had been obtained and the necessity for proceeding further was obviated; upon his recommendation Phase III of Operation SWANNEE was terminated at (AT 883516). Operation SWANNEE was officially terminated at 202000H Aug 66 when Co C chopped OPCON to parent organization 3/9 forces retracted from the area; Survey crew closed 3/9 CP and at the direction CG 3d Marine Division, the survey craft retracted to Liberty Ferry Site.

5. Task Organization.

a. Task organization for Operation MACON consisted of 3d Battalion, Ninth Marines, and combat support elements of the battalion.

b. Task organization for Operation WILCOX consisted of A, E and I Companies, 9th Marines and combat support elements.

c. Task Organization for Operation SWANNEE consisted of 1st and 3d Bns 9th Marines. Company L, 3d Bn, 1st Marines, Co E, 2d Bn, 3d Marines. Combat support consisted of tanks, amtracs, artillery, anti tank and Recon units in direct support of Ninth Marines.

S-4 CHRONOLOGY

1. Logistics. The Force Logistic Support Group (Alpha) is the primary source of supply and maintenance support for all units of the 9th Marines. All classes of supplies and maintenance support beyond the capability of the units are provided by FLSG(A). Motor vehicle transportation requirements beyond the units' capabilities are provided by the 3d and 9th Motor Transport Battalions. Air transportation, (helicopters), is provided by elements of Marine Aircraft Group 16.

a. Supply.

(1) Supply point distribution was in effect for the 1st Battalion during the reporting period and unit distribution was effected by this battalion to its forward companies. Unit distribution was provided to the 3d Battalion by a Force Logistics Support Unit from FLSG(A) during the reporting period. Supply point distribution was in effect for the 2d Battalion during the period 1 to 10 August. On 10 August, the 2d Battalion commenced movement to PHU SAU and upon completion of their movement went under the operational control of the 4th Marines on 14 August. At this time, the 2d Battalion TACR, now occupied by the 2d Battalion, 1st Marines became part of the 1st Marines' TACR.

(2) The 3d Battalion, 9th Marines continued to conduct Operation Mason during the entire reporting period. This unit has received supply support for this operation, which still continues, from the aforementioned LSU.

(3) During this reporting period, the 9th Marines conducted Phases II and III of Operation SWANNE, with elements of the 1st Battalion, 9th Marines and 3d Battalion, 9th Marines participating. On 16 August, 'E' Company of the 2d Battalion, 3d Marines and 'I' Company of the 3d Battalion, 1st Marines were put under the operational control of the 9th Marines. On 17 August, a U.S. Navy LCM-8 entered the 9th Marines TACR, sailing up the Song Thu Bon, and came under the operational control of the 9th Marines. On 18 August, the 2d Troop, 4th Cavalry Regiment, ARVN, came under the operational control of the 9th Marines. These units were provided supply support by the 9th Marines. The 2d Troop, 4th Cavalry Regiment, ARVN, reverted to their parent organization on 19 August. 'E' Company of the 2d Battalion, 3d Marines and 'I' Company of the 3d Battalion, 1st Marines reverted to their parent organizations on 21 August, upon termination of Operation SWANNE. The U.S. Navy LCM-8 remains under the operational control of the 9th Marines and continues to be supported by this command.

b. Transportation.

(1) The primary means of transportation for units of the 9th Marines are organic vehicles. Motor vehicle transportation beyond the capability of the units is provided by the 3d and 9th Motor Transport Battalions. Helicopter transportation is provided by elements of Marine Aircraft Group 16 to support the requirements for internal resupply, tactical troop movement, medical evacuation, and reconnaissance missions for forward units of the 9th Marines.

S-5 CHRONOLOGY

~~SECRET~~1. GENERAL.

a. During August the 9th Marines continued functioning in close cooperation with GVN officials in the field of civic action. Continuous contact was maintained with DIEN BAN, DAI LOC and DUC DUC District and initial contact was established with DUY XUYEN District Headquarters. Village officials remained with 9th Marines units while plans were being made to establish them in village headquarters. Four COUNTY FAIR operations were conducted in the last days of August resulting in 14 VC KIA, and eight VC captured along with two individual weapons and a variety of grenades, documents and uniforms. Five VCS were detained for questioning. Six-hundred sixteen villagers were screened during these operations.

b. The 5th Platoon of the U. S. Army Civil Affairs Company, operating in the AN HOA area in support of the 3d Battalion, 9th Marines, became firmly involved in civic action projects in the area. Cooperating with DUC DUC District officials, the platoon was instrumental in the establishment of local farmers' associations, youth groups, and promotion of dispensary and school projects.

c. On 14 August the 2d Battalion, 1st Marines replaced the 2d Battalion, 9th Marines and the 9th Marines passed operational control and civic action responsibility of seven villages of DIEN BAN District to the 1st Marine Regiment.

2. Areas of Activity.

a. Education: Distribution of textbooks to children in the 9th Marines Zone of Action continued during the month of August. Building materials were supplied to repair a school damaged by VC in the AN HOA area. School throughout the 9th Marines Zone of Action benefited from frequent visits by MEDCAP teams.

b. Public Works:

(1) Medical: Continuous medical assistance was made available to civilians at four permanent civilian aid stations. MEDCAP teams lent assistance to two GVN dispensaries and were instrumental in gaining Provincial approval for the construction of a new dispensary at DUC DUC District Headquarters. In DUC DUC District the 3d Battalion, 9th Marines stood ready to initiate an extensive hamlet health worker education program which lacked only Provincial authority for GVN certification of graduates of the school.

(2) Roads: Liberty Road, providing a land route for civilian and military traffic to the AN HOA area, was opened to limited traffic during August. Vehicles belonging to the AN HOA industrial complex began convoying supplies and equipment into the area.

AIR SUPPORT CHRONOLOGY

1. Operational Highlights.

a. On 18 August in response to Operation SWANNEE helicopters were utilized to resupply three companies of 1st Bn.

b. On 19 August helicopters were again utilized for an emergency resupply for 1st Bn. An LVT was out of commission and the part was delivered allowing the LVT to continue its support of 1st Bn.

c. Puff The Magic Dragon was utilized during the evening to thwart an attack on Alpha Company 1st Bn. His tremendous firepower and capability to illuminate the area and control Hueys added immeasurable in stopping the attack.

2. Helicopter Support

a. In addition to the above mentioned, daily helicopter resupply of 9th Marines units were utilized except on 14, 15, 16 and 22 July when helicopters were not available.

b. Reconnaissance elements from 3rd Bn, AN HOA, were inserted into and extracted by helicopter on the average of once every two days during August.

c. One hundred and sixty-three helicopter MEDEVAC's were conducted for 9th Marines units, carrying 144 WIA'S, 49 U. S. ILL, 6 ARVN WIA'S, 1 ARVN ILL, 50 Civilian WIA's and 6 civilian ILL to immediate medical aid..

d. The lack of a command helicopter during Operation SWANNEE for CO, 9th Marines unrestricted use and extremely limited observation capability during the entire month is considered a limiting factor. It is recommended that a command helicopter be made available on a scheduled basis, during the month and for all future Operations.

3. Fixed Wing Support

a. Support for helicopters on resupply and troop lifting missions was provided by fixed wing aircraft during August.

b. Fixed Wing Strike aircraft were on station during daylight for Operation SWANNEE.

c. Four airstrike missions were conducted during the month. Three were controlled by ground controllers and one by an airborne controller.

d. USAF C-123 aircraft continued resupply of the AN HOA area. The runway has been operational due to the absence of rain. However, it will become unusable when the rains come.

4. Personnel and Equipment

a. One Battalion is short one forward air controller and two more will leave in the next thirty days for their flying tour with the wing. Each Battalion has an overall shortage of four enlisted personnel. Three MRC-87's are deadlined.

MEDICAL CHRONOLOGY AUGUST 68

1. Significant Events

a. Headquarters Company, Ninth Marines remains separated with a forward and rear CP. The Regimental Aid Station is located in the rear and is responsible for the treatment and disposition of individuals in that CP. First Battalion, Ninth Marines have established a Battalion Aid Station in the vicinity of Hill 55, and personnel attached to the forward CP utilize the services of that medical facility. However, patients needing definitive treatment or hospitalization for short durations are sent back to the rear CP for disposition. A Mental Van has been set up in the rear CP and is available to all personnel in this area.

2. New Developments

a. The Ninth Marine Regimental Surgeon was reassigned to the Division Field Hospital, 3rd Medical Battalion for duty. There will no longer be a Regimental Surgeon. The medical officer at First Amphibious Tractor Battalion has been designated to provide medical care for Headquarters Company, Ninth Marines (Rear), and First Battalion, Ninth Marines (Forward) has been designated to provide medical care for Headquarters Company, Ninth Marines (Forward).

b. At the present time, First Battalion, Ninth Marines are maintaining a medical officer in the rear and all Headquarters Company, Ninth Marines referrals are being made to him.

3. Problem Areas

a. None

4. MEDCAP

a. Monthly requisitions for MEDCAP supplies for use by elements attached to the Ninth Marines was submitted in accordance with current directives to III MAF Civil Affairs Officer. Upon receipt of medical supplies, they were distributed to the Battalion Aid Stations and other units according to their requirements.

5. Patient Statistical Data

a. The number of patients seen this month was a decrease of 14 from the prior month. The Regimental Aid Station provides minor surgical care and follow-up in addition to routine sick call. A ten bed ward is maintained by First Battalion, Ninth Marines in the rear CP for the care of those Marines recently discharged from the hospital for follow-up care and observation before returning to the field for duty. Any serious injury or illness is evacuated to either the Division Field Hospital or the Station Hospital, East DANANG as referrals. The Regimental Aid Station is geared to take care of our CP, and it operates independently from other units.

b. The following is a breakdown of patient statistical data: Number of patients seen, 176; referrals to the Division Field Hospital and the

Station Hospital, East DANANG, 1; admissions to the sick list, 1; and dental referrals, 25.

c. The majority of routine treatment included skin disorders, upper respiratory infections, diarrhea, and ear infections. Emergency treatment consisted of lacerations, contusions, sprains, and burns. However, these disorders have not impaired functional capacity of the unit.

6. Innocalulations and Prophylactic Medicine Administered

a. Total immunizations for the month of August were 188, and total material chemoprophylaxis administered was 1,000.

~~SECRET~~COMMUNICATION-ELECTRONICS CHRONOLOGY

1. Operation Macon. No additional communication techniques were developed and no problems have arisen.
2. Operation Swannee. Operation SWANNEE was conducted and concluded with no difficulties. The LCM-8 remains in the Regimental TAOR at liberty bridge site. Radio equipment was provided to the LCM-8 to allow them to enter the Regimental Tac Net.
3. Training.
 - a. On 15 - 16 August 1966 instruction on the Secure Voice Equipment, TSEC/KY-8 was given to representatives of the Regimental Headquarters and each battalion.
 - b. On 18 August 1966 a Comm-Elect contact instruction team conducted instruction on selected radio equipment for personnel of the Regiment.
 - c. One Marine attended the AN/TSC-15 Radio Operator's School, held at Communication Company, Headquarters Battalion from 22-27 August 1966.
4. Radio Relay. The AN/TRC-27 radio relay link between hill 55 and the 2d Battalion was deactivated on 16 August 1966. Difficulties continue to be encountered with the generator, PU-278. Excellent service is being provided by the AN/MRC-62 from Communications Company, Headquarters Battalion.
5. Wire. Improvements were continued on the Regimental wire system in anticipation of the monsoon season. Various laterals in the rear CP were turned over to the Area Commander, 3d Tank Battalion. Cables were installed from the Wire Frame to the new Comm and Bunker and internal installation of the bunker was commenced. A 4 pair cable was installed across the Song Thu Bon at the liberty bridge site. A decrease in interdiction of wire lines by H&I fire has been noted.
6. Communication Center. On 31 August 1966 the Communications Center was displaced to Hill 55 with minimum disruption of service. Difficulties continue to be encountered in the repair and replacement of tape cutter. During August 4003 messages were processed through the Communication Center.
7. Personnel. At the present time, technicians are the only serious problems. Incoming personnel during August compensated for losses in the other Comm MOS's. Anticipated losses in Staff NCO's ranks during September will cause a problem in this area.
8. Power Distribution. A 60KW generator is still required to furnish complete power for Hill 55. A split distribution system

100-2000

is currently in use and it is not believed that this will be satisfactory over an extended period of time. The helicopter LZ was furnished with landing lights and appears satisfactory. Wiring was commenced on the new Command Bunker.

FIRE SUPPORT CHRONOLOGY

1. Artillery

a. Operation Wilcox. A one day search and clear operation commenced on 11 August 1966 and was supported by BTRY E, 2d Battalion, 12th Marines, and BTRY L, 4th Battalion, 12th Marines. Four missions were fired in support of the operation with an expenditure of 60 rounds of 105MM and 117 rounds of 155MM ammunition.

b. Operation Swannee. Operation SWANNEE commenced on 17 August and terminated on 21 August. The operation was supported by the 2d Battalion, 12th Marines (DS), BTRY L, 4th Battalion, 12th Marines (GS REIN), Composite Plt 8" How BTRY (SP) (GE), and BTRY A, 1st Battalion, 12 Marines (Rein). A platoon of 155MM howitzer (SP) of BTRY L/4/12, displaced to the vicinity of Hill 55 (AT 964618) to provide extended coverage for the operation. Active artillery support was expected during the operation. The covering force protecting a navigational survey team of the SONG THU BON River expected frequent VC contact and harrassment. On 20 August artillery experienced its most intensive period of support and fifteen targets of opportunity were engaged in support of 3d Battalion, 9th Marines. Five preparations were fired during 3d Battalion, 9th Marines river crossing in the vicinity of (AT 900540). There were 493 rounds of 105MM and 173 rounds of 155MM ammunition expended during the entire operation.

c. Significant Events. On 12 August BTRY E, 2d Battalion, 12th Marines displaced to HUE-PHU BAI in conjunction with the 2d Battalion 9th Marines. During August all 2d Battalion, 12th Marines FO teams were equipped with the AN/FRC-25 radio. The capabilities of this radio has resulted in the most dependable communication yet experienced with all FO teams during the delivery and control of artillery fires. The ASR for 105 MM HE ammunition was established as 16 rounds per tube per day during August. Expenditures of ammunition during daily firing did not exceed the ASR and no problems arose in limiting artillery support. All targets were attacked by the method of fire requested without limiting fire for effect. All ammunition expenditure were closely monitored and the artillery H&I concentrations were assigned so that 81MM mortars and the 155MM howitzer could fire the majority of concentrations and allow adequate 105MM ammunition to be available to attack targets of opportunity.

a. Late Report. At 301100H, a Co H patrol apprehended 2 female VCS at (AT998572). The suspects were believed to be VC sympathizers in the CAM CIA area.

b. Late Report. At 310900H, a 3dBn 9thMar recon element at (AT 832453) observed 100 to 150 Vietnamese National's congregating at (AT 829467). Eight armed VC dressed in grey uniforms carrying packs joined the civilians and after a brief period, departed. Subsequently, a total of 300 civilians were reported in the area and they appeared to be delivering baskets of rice to a collection point.

7. New Identifications.

a. At 311300H, the 3dBn 9thMar S-2 reported the results of a preliminary debriefing of the returnee who rallied on 30 July. (See para 3.d.(3) 9thMarines IN (SUM 1/21)). The returnee stated that he had seen 3 Vietnamese males armed with rifles with scopes in his hamlet, MU MUAN (4) (AT 9149). He stated that these men were dressed in yellowish colored uniforms and wore sandals and soft hats. He described the men as NVA and stated that there are 10 NVA soldiers in each of the villages in the AN HOA area. A few days ago he walked from (AT 9751) to (AT 9552) and observed 200 to 300 armed men, all wearing yellowish colored uniforms and full-length boots (combat boots). The returnee said that these men were also NVA and had 7 large recoilless type weapons, each requiring 10 men to carry it. When the USMC and ARVN forces move into the area these NVA forces displace to safe havens to the east. Additional information will be provided when available. (S-2 comment: Reports of 23 and 25 July indicated that one NVA Co was located in the vicinity of (AT 9755)).

a. At 082010H, the 3dMar S-2 relayed a report from the DAI LOC District Headquarters that the VC District Chief has ordered the village Chiefs of LOC HOA Village (AT 870558), LOC TAE Village (AT 845546) and LOC PHUOC Village (AT 890540) to provide a 50 man working force to carry VC provisions to the vicinity of HUU NIEN mountains at (ZC 1949). The report was rated F-6. (S-2 comment: F-6 VC POW camps and training areas are located in vic (ZC 1949)).

7. New Identifications. None8. Enemy Movement

a. At 081830H, the 3dBn 9thMar S-2 relayed a report from the 2dBn 51stARVN Regiment that special agents and local villagers informed them that 1 VC Co with a strength of 130 men identified as the V.15 displaced from the mountains to the south to the vicinity of (AT 955523). This VC force is armed with 2 60mm mortars, 1 MG and 3 AN/PRC-10 radios. The report stated that this Co displaced to the south when the Marines entered the area in July. The 51st ARVN rates the report B-2. (S-2 comment: F-3 Possibly Q.18 (LF) Co).

b. At 082010H, the 3d Mar S-2 relayed a report from the DAI LOC District Headquarters that 1 VC Co, with a strength of 90 men and commanded by LAM has displaced from the vicinity of (AT 867517) to (AT 866552). DAI LOC rates the report B-2. (S-2 comment: F-2 Normal operating area of R.20 Bn. VO XUAN LAM carried as CO of R.24 Co. Reported strength of 90 men is approximately 30 less than previous estimates of the strengths of R.20 Co's. Suggests that attrition is being felt by R.20 Bn and that replacement sources are being exhausted. Recent reports have indicated only 3 companies of R.20 Bn being active which may indicate a considerable reduction in R.20 strength).

13. Other

a. Below is an excerpt from COMUSMACV msg 030310Z Aug 66 (C):

(1) During recent months US/FVN/RFN/NAF have severely punished VC/NVA forces which have operated in battalion and larger size formations. Enemy losses in these engagements have been substantial. As a result there is growing evidence of a noticeable change in VC/NVA tactics. There is no indication of a significant change in the VC/NVA capability to launch large scale attacks as reported in the current MACV estimate. It appears that the enemy is emphasizing small scale operations. This change in emphasis may be accelerated during the period preceding the September GVN elections. Since it is expected that enemy efforts to disrupt governmental procedures will increase, the VC/NVA may make an all out effort to achieve some semblance of victory and to

~~CONFIDENTIAL~~

(A)

~~CONFIDENTIAL~~~~CONFIDENTIAL~~

discredit law and order as well as the GVN authorities responsible for enforcement.

(2) It is anticipated that the VC/NVA intensification of local force operations will be manifested by small-scale, multiple attacks against RVNAF/US/RVNMF watch towers, outposts, convoys and lightly defended camps, isolated units and bases. An increase in terroristic activities against individuals (e.g. officials and CHIEU HOI) or small groups and increased sabotage against selected targets is expected.

14. Late Entries

a. At 101010Z, a Co A, 1stBn 9thMar squad patrol supported by tanks at (AT 985605) observed 6 armed VC at (AT 987606). The Marines fired 150 S/A rounds, 3 90mm (tank) rounds and observed 2 VC KIA (Confirmed) and estimated 4 VC KIA (Probable).

d. Other

(1) At 142120H, a 9thMar Psy-War team at (AT 967626) received 1 round S/A fire from (AT 974624). Marines did not return fire.

(2) At 150005H, ASP-1 received 6 rounds of S/A fire. The VC positions were unknown.

e. Counterintelligence

(1) On 12 August, the 3d GIT received a report from the DAI LOC District Headquarters that the District VC chief has ordered all VC village chiefs to recruit and send 10 guerrillas each to the VC training camp at MUU NIFEN (ZG 2047) for special training. May be in connection with terror campaign prior to and during elections.

(2) There are indications that the VC are attempting to induce Marines to destroy religious edifices and thereby alienate the civilian populace by planting ill concealed mines and booby traps in and adjacent to pagodas and shrines that will be destroyed when Marines blow these mines and booby traps. Care, within limits imposed by tactical consideration, should be exercised to preclude unnecessary damage or destruction of religious edifices.
