PART IINARRATIVE SUMMARY1. General

During early June, the 9th Marines began Operation CAMERON FALLS. 2/9 and 3/9 were deployed in the CAMERON FALLS AO, with 1/9 OPCON to TFH. The mission that had been assigned to the 9th Marines was to "conduct operations in the upper Da Krong and Western Ba Long Valleys to locate and destroy the enemy forces deployed therein".

Operating from FSBs SHEPHERD and WHISMAN, the original orientation for the two battalions was to the Northeast and East for 3/9 and to the West for 2/9. Fire Support was provided by 2nd Bn, 12th Marines from FSBs SHEPHERD and WHISMAN, with additional fire support positioned at CaLu. FSB HENDERSON was reopened toward the conclusion of the operation in order to support the battalions in the eastern portion of the Regimental AO.

2/9 was withdrawn from the CAMERON FALLS AO during 12-15 June, having swept to the East along the Da Krong River with 3 companies from 3 June to 14 June.

3/9 continued operations in CAMERON FALLS until 23 June, when it relieved 1/9 in the UTAH MESA AO, under OPCON of JTG Guadalcanal. Operation CAMERON FALLS concluded at 232400H June 1969.

Significant contacts during the month of June were the G/2/9 contact on 1 June, the M/3/9 contact of 2 June, and the H/2/9 contact of 5-6 June.

On 14 June 1969 CG, 3d Mar Div announced that RLT-9 would be redeployed and embark to Okinawa. In preparation, Hq, 9th Marines established a planning group in Dong Ha. The Operation Order (OpOrd 6-69), Embarkation Order (EmbarkOrd 1-69), and the Administrative Order (AdminOrd 1-69) were issued at 0800H, 27 June.

6. Communications

During the month of June the communication platoon provided support for the Regimental Headquarters at VCB and the rear at Quang Tri. In addition, two radio relay positions were maintained, one on Hill 819 and a second on Signal Hill, in support of Operation CAMERON FALLS. The regimental staff operated from VCB utilizing the communications facilities operating at the CP. With the termination of Operation CAMERON FALLS on 232400H June the Regimental Communication Section began packing and moving equipment to the rear in preparation for embarkation.

The message center personnel continued a courier service from 9th Marines rear at Quang Tri to the forward position at VCB. Traffic received at VCB message center from both the rear and Task Force Hotel was promptly processed and delivered to S-1 for further distribution. A secure teletype circuit between 9th Marines at VCB and 3d Mar Div COC was maintained. Total messages sent on the circuit were three while the number received on the teletype circuit was zero. Total number of messages sent by 9th Marines during June was 159 and the number of messages received was 1712.

Annex C (Counterintelligence Measures) to Operation Order 6-69

Ref: (a) 3d MarDiv Op Order 21-69

1. GENERAL. This annex sets forth guidance for all echelons of the RLT to assist in planning and implementation of security/counterintelligence measures during redeployment. Appendix 4 to Annex B to reference (a) provides additional guidance.

2. MILITARY SECURITY

a. General Military Secrecy

- (1) Inform all personnel of the requirement for security discipline during redeployment.
- (2) While enroute from rear assembly areas to POEs, cover all visible tactical markings on vehicles and other equipment (using paper and/or masking tape).
- (3) Security discipline is mandatory at all echelons, particularly with respect to handling of documents/maps, phone conversations, ~~dissemination~~ and speculation.
- (4) During movements by vehicle convoy, troops will not engage in conversation and discussion with U. S. and RVN nationals encountered enroute.

b. Safeguarding of Classified Information and Material

- (1) Screen all material to assure that material no longer required is destroyed. Turn material of reference value in to Division S&C Files.
- (2) To assure security of classified material stowage containers during movement, and in assembly areas, containers will be chained and locked to transporting vehicles.
- (3) Devote particular attention to communications security during redeployment. Existing COMSEC instructions will be strictly adhered to.
- (4) Proper security of planning areas will be established to restrict access to redeployment plans to personnel with a need to know.
- (5) To assist deploying unit commanders with their counterintelligence effort, Division Counterintelligence Teams are

C-1

SECRET NOFORN

(B.L.)

scheduled to conduct detailed sweeps of CPs as they are vacated.

c. Security of Troop Movements

- (1) Control points will be established to restrict movement of unauthorized vehicles in and out of assembly/embarkation staging areas.
- (2) Avoid unnecessary congregation of vehicles at command posts.
- (3) Restrict movement of personnel beyond immediate assembly areas when assembling for movement to, and upon arrival at FOEs.

d. Counterespionage/Countersabotage

- (1) Establish checkpoints to prevent movement of unauthorized civilians into troop areas. Violators will be reported to the supporting counterintelligence element.
- (2) All arrests/detentions of civilians violating security regulations will be made by military police or unit security/guard personnel.

3. TECHNICAL ASSISTANCE. Commanders will avail themselves of the technical assistance offered by local counterintelligence detachments.

Annex E (Psychological Operations)

Ref: (a) 3rd MarDiv Op Order 21-69

1. SITUATIONa. General

- (1) As RLT-9 redeploys by increments from the Republic of Vietnam to Okinawa, it can be assumed that the general population and the personnel of RVNAF will be apprehensive that this is a prelude to a general, large scale pullout of U.S. troops. It is anticipated that the enemy will attempt to convince the people and RVNAF personnel that this is so and that they would be well-advised to come over to the enemy side while there is time to do so with impunity. Further, as they did when the 1st Air Cav redeployed from ICTZ, the enemy can be expected to try to portray the RLT redeployment as "defeated" U.S. troops withdrawing for purposes of rehabilitation after being "mauled" by "victorious" communist forces.
- (2) For the morale of their own troops, it can be expected that the enemy will attempt to portray the redeployment as a magnificent victory demonstrating that what they have been telling their troops about imminent victory is true, i.e. "if only we persist through this year of hardship, victory will be a reality".
- (3) In brief, the redeployment of RLT-9 creates the conditions for a meaningful struggle in psychological operations with the enemy. Whether the redeployment is viewed by target audiences as a victory of defeat for Free World Forces will depend in large upon the skill and zeal of our psychological operations. Whether RLT-9 redeployment is viewed as victory or defeat is no mere academic matter. How the people of RVN vote in subsequent important elections, how the RVNAF and the enemy troops perform in battle will be determined to a large extent by how they perceive who is winning and who is losing. Consequently, PSYOP support in this operation must be a maximum effort.

- b. Enemy Forces. Annex B (Intelligence) to reference (a), and current intsums/perintreps.

SECRET NOFORN

c. Friendly Forces

- (1) Flight "A" 9th Special Operation Squadron (USAF) conducts leaflet dissemination and aerial broadcast support for the 3rd MarDiv (Rein) and subordinate units.
- (2) 7th Psychological Operations Battalion, U.S. Army, provides quick reaction leaflets and ground broadcast support. Detachment 2, 7th Psychological Operations Battalion is under OPCON of the 3rd MarDiv (Rein) and provides a maximum of two Audio Visual (HE) Teams and three Ground Loudspeaker (HB) Teams.
- (3) XXIV Corps provides assistance and advice on PSYOP matters as requested.
- (4) Strategic PSYOP will be planned by MACV in coordination with JGS and executed by the commands and agencies designated. MACV advises that PSYOP will be based on following objectives:
 - (a) To bolster the morale of the people of RVN, explain the redeployment of selected U.S. units and gain the confidence and support of the people.
 - (b) To induce the people of RVN to repel Communism and back the government's pacification and national development programs.
 - (c) Convince the people that the GVN is stable and, this time, RVNAF improvement and modernization has progressed to the point that some U.S. troops can be safely redeployed.
- (5) Civil Operation and Revolutionary Development and Support (CORDS) PSYOP provides assistance and advice in the use and support of Armed Propaganda Teams and Cultural Drama Teams, as requested. Coordination with Vietnamese Information Service (VIS) will be through CORDS PSYOP.
- (6) 3rd Marine Division (Rein)
 - (a) 1st Brigade, 5th Infantry Division (Mech) continues extensive PSYOP activities in highly populated AO.

(B.6)

SECRET NOFORN

- (b) 4th Marines continue present PSYOP in HERKIMER MOUNTAIN AO and in any subsequently assigned AO.
- (c) 3rd Marines continue present PSYOP in VIRGINIA RIDGE AO and in any subsequently assigned AO.

2. MISSION. RLT-9 conducts PSYOP to exploit the improved political/military climate in Quang Tri Province which permits redeployment of RLT-9 from combat. Assists and supports the GVN in pacification and national development programs.

3. EXECUTION.

a. Concept of Operations

- (1) PSYOP conducted will be a vigorous and imaginative campaign featuring ARVN and GVN Leaders bidding farewell and giving thanks to the departing troops and leaders for helping them defeat their enemies. The people who can best assert the positive aspects of the RLT's departure are RVNAF and GVN officials. It is anticipated that there will be no difficulty in persuading them to participate in such a program. Such ceremonies and festivities will serve as the vehicle for feeding the indigenous media with stories, pictures and films. In addition, leaflets, tapes and most importantly, handbills and the newspaper VAN TIN ("The News") will be produced and printed, stressing appropriate themes, and these will be widely distributed. Maximum use will be made of ground broadcasting teams, Armed Propaganda Teams and Cultural Drama Teams to spread the word face-to-face.
- (2) Specific themes will stress the victories achieved on the battlefield, the increased capability of the RVNAF, the non-precipitous nature of the redeployment, that it is a relatively small and carefully planned replacement- a natural outgrowth of increased RVNAF capability- that the U.S. is determined to help insure self-determination for the people of South Vietnam and will stay the course.
- (3) The following target groups will be used for initial planning:
 - (a) Population in GVN controlled territory.
 - (b) Population in VC controlled territory.
 - (c) VC personnel in I CTZ.
 - (d) NVA personnel in I CTZ.

SECRET NOFORN

b. Headquarters, RLT-9

- (1) Arrange for presentation of a 9th Marines' Plaque by the CO, 9th Marines to the CO, 2nd ARVN Regiment in honor of the monumental victory over the enemy in Operation DEWEY CANYON. The theme of this ceremony will stress the significant contribution of the ARVN in the battle. Verbal emphasis will be placed on the heavy casualties suffered by the enemy in personnel and material as opposed to the light casualties of U.S. and ARVN forces. If possible, photography of a Marine congratulating an ARVN hero of the operation should be posed.
- (2) Arrange for an interview of the CO, 9th Marines by an indigenous news media. The CO, 9th Marines will emphasize the ever increasing military capability of the RVNAF.

c. Embarkation Unit ALFA-1

- (1) Arrange an appropriate demonstration of U.S. support of the GVN pacification or national development programs during the period of final preparation for embarkation at Quang Tri.
- (2) Conduct company and platoon ceremonies with the local population and RF/PF Forces during period before embarkation.
- (3) As first increment of RLT-9 to redeploy, prepare to participate in an appropriate farewell ceremony at Danang as arranged by higher authority.

d. Embarkation Unit ALFA-2

- (1) On 12 and 15 July, respectively, conduct MEDCAPs in the Calu Bru Village and Camlo.
- (2) Arrange for visit by a group of enlisted Marines to Children's Hospital.
- (3) On 19 July provide a platoon of Marines to attend a Cultural Drama Team presentation in Mai Loc.

e. Embarkation Unit ALFA-3

- (1) Prior to commencement of stand down/rehab period, be prepared for television interview of several Marines stressing positive aspects of U.S. military assistance to GVN.

SECRET NOFORN

- (2) After commencement of stand down/rehab period, host local ARVN/GVN officials at Quang Tri rear. Simple hospitality provided should stress U.S. and South Vietnamese friendship and mutual respect.
- (3) Conduct a MEDCAP in Mai Loc on 4 August.

f. Coordinating Instructions

- (1) Commanders will ensure indoctrination of all personnel as to the importance of PSYOP and objectives to be achieved.
- (2) Press coverage of the redeployment will no doubt be abundant. Every effort will be made to integrate ISO/PSYOP activities with themes outlined herein. Unit PSYOP officers and ISOs must work in close coordination to ensure full exploitation of news coverage.
- (3) Maximum support of and assistance to PSYOP teams operating in AO will be rendered.
- (4) Requests for PSYOP support will be forwarded via normal chain of command by the most expeditious means.
- (5) Standard PSYOP Support Request Form (3rd MarDiv Order p3410.13) will be used. Minimum Lead time for leaflet and aerial broadcast will be 24 hours from the time the request is received at Division PSYOP.
- (6) PSYOP support will be provided in the following priorities:
 - (a) Strategic/Political warfare, particularly regarding redeployment of U.S. forces and in support of GVN National Objectives.
 - (b) Other PSYOP support of 3rd MarDiv requirements.
- (7) All plans for execution of tasks assigned by this order will be reviewed by this headquarters prior to implementation.
- (8) Propaganda themes to be stressed are:
 - (a) Growing strength of ARVN and GVN forces.
 - (b) Modernization of ARVN allowing it to assume a greater role in the fighting.
 - (c) The continual victories of the Free World Forces.

SECRET NOFORN

(d) That the U.S. Forces will leave only as the GVN forces become able to take a greater share of the fighting.

(9) Propaganda theme to be avoided: Any personal attack on the VC/NVA Leaders.

(10) Adverse American opinion is an effective tool of the enemy PSYOP program. Commanders will ensure that their Marines are aware of its impact and that the airing of personal opinions, which are contrary to the U.S. Policy and views precipitating the redeployment, are discouraged to the fullest. Personal example by leaders at every echelon of command is the most effective means of developing positive opinion.

4. ADMINISTRATION AND LOGISTICS

- a. Logistics support of assigned HB and HE Teams is the responsibility of the unit to which attached.
- b. All Logistics support for requested Armed Propaganda Teams and Cultural Drama Teams, to include transportation and messing facilities, must be provided by the requesting unit.

5. COMMAND AND COMMUNICATIONS All PSYOP related communications by REGT-9 units will be relayed through normal channels to this headquarters.

Annex G (~~Ports and Staging Areas~~) ^(DEEP WATER PIERS) to Embarkation Order 1-69

1. Deep Water Piers. See Appendix 1 (Deep Water Piers Sketch Map).

- a. Location: Danang.
- b. Type Facility: Deep Draft.
- c. Ship Capacity: 6 at Pierside.
- d. Staging Area: 33 Acres.
- e. Rated Cargo Capacity: 7500 S/T per Day.
- f. Type Cargo: All classes except Class V.
- g. Fork Lifts Available: 112.
- h. Concept of Operation: Cargo will enter through the main gate of Deep Water Pier and will be staged in designated areas for loading aboard ship. Prior to loading, cargo will be processed through the water rinse-down system for final rinse down. NSA will perform the final rinse-down only.

2. Bridge Cargo Facility. See Appendix ^{1 (Port of Danang) and Appendix 2 (Deep Water Piers).} ~~2 (Bridge Cargo Facility Sketch Map).~~

- a. Location: Danang.
- b. Type Facility: Shallow Draft.
- c. Ship/Boat Capacity: 3 LSTs, 8 LCUs or 2 Barges.
- d. Staging Area: 520,000 SqFt.
- e. Rated Cargo Capacity: 5820 S/T per Day.
- f. Type Cargo: All Classes.
- g. Fork Lifts Available: 20.
- h. Concept of Operation: Cargo will enter a gate at the southwest corner of Bridge Ramp and will be staged in designated staging areas. NSA will perform the final rinse-down.

SECRET NOFORN

3. Dong Ha Ramp. See Appendix ⁴ ~~3~~ (Dong Ha Ramp) ~~Sketch Map~~.

- a. Location: Dong Ha.
- b. Type Facility: Shallow Draft.
- c. Boat Capacity: 10 LCUs or 1 Barge.
- d. Staging Area: 87120 SqFt.
- e. Rated Cargo Capacity: 1500 S/T per Day.
- f. Type Cargo: All Classes.
- g. Fork Lifts Available: 10
- h. Two different methods of operation may be employed at Dong Ha. If cargo and equipment is to be moved to Danang for embarkation, final washdown will be accomplished at Danang. If, on the other hand, cargo is to be lightered to deep draft ships anchored off Cua Viet for movement out of country, final wash-down will be accomplished at the Dong Ha POE. In either case, since the staging area at Dong Ha is very restricted, loads will be called forward as unloading becomes available. NSAD Dong Ha will perform the final rinse only for cargo moving directly out of country from Cua Viet.

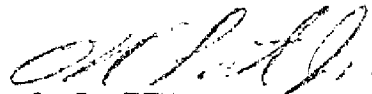

4. Cua Viet Ramp. See Appendix ⁵ ~~4~~ (Cua Viet Ramp) ~~Sketch Map~~.

- a. Location: Cua Viet.
- b. Type Facility: Shallow Draft.
- c. Ship/Boat Capacity: 2 LSTs, 6 LCUs or 2 Barges.
- d. Staging Area: 43560 SqFt.
- e. Rated Cargo Capacity: 1700 S/T per Day.
- f. Type Cargo: ALL Classes except Class V.
- g. Fork Lifts Available: 15

SECRET NOFORN

- h. Concept of Operation: Cua Viet will be used as a transshipment point for cargo/equipment moving from Dong Ha to Danang or for units coming from Dong Ha to be loaded on LSTs/LSDs at Cua Viet for movement out of country. If the Cua Viet to Quang Tri road has been completed and is used, the rinse-down facilities at Cua Viet will be used.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.**d. DTG:** Enter date/time group of radio message.**e. Incidents, Messages, Orders:**

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

5. Supporting Forcesa. Artillery and Fire Support Coordination

(1) Fire Support Coordination. Standard techniques and principles were used. The coordination problem was more complex due to the proximity of Vandegrift Combat Base. With the initiation of Operation UTAH MESA, fire support coordination became more complex in that many fires in contiguous areas had to be cleared with ARVN, JTF Guadalcanal as well as 9th Marines before execution.

(e) Centralized technical and tactical control was utilized throughout.

b. Air Support(1) Fixed Wing Support

(a) Weather was good throughout the operation, making it possible to utilize all forms of fixed wing support. A minimum of TPQ missions were requested and very few were hit due to a limited number of suitable hard targets.

(c) A total of 72 CAS missions were conducted accounting for the following BDA:

17 KBA, 8 probables
 2 .50 Cal guns destroyed
 33 Bunkers damaged, 58 destroyed
 1 AA position destroyed
 15 Secondary explosions and fires
 3 Structures destroyed
 28 Positions destroyed
 2 Storage pits destroyed

(d) Thirteen day and sixteen night TPQ missions were run dropping 241,500 pounds of ordnance.

(e) Tactical air observers flew 104 missions for a total of 304 hours.

(f) Flareships flew 15 missions in support of troops in contact and night medevacs. "Spooky" was utilized five times.

(g) Three psywar flights were flown.

SECRET

SECRET

(2) Helicopter Support

(a) Helicopter support was more than sufficient to support the tactical mission of the Regiment. Use of UH-34 aircraft greatly improved the command and control support which had heretofore been marginal.

(b) Helicopter support data:

1	379	Helicopters utilized
2	48	Medevac missions for 346 evacs
3	4,231	Troops moved
4	20	Company size or larger units helilifted
5	12	Battery lifts

(c) Helicopter utilization:

<u>Type</u>	<u>Number of Aircraft</u>
CH-54	1
CH-53	65
CH-47	6
CH-46	205
UH-1E	150
UH-34	52

e. Co A, 3d SP Battalion. Co.A provided Helicopter Support Teams (HSTs) down to the company and battery level. Terminal guidance was provided for incoming helicopters; external and internal loads were received and sent out; and assistance was provided for the construction of LZs. Shore Party personnel also provided logistical assistance at the Vandegrift Combat Base and Quang Tri Combat Base Logistic Landing Zones.

d. Co C, 3d Engineer Battalion. Co.C provided close combat support throughout the operation with a platoon assigned to each infantry battalion. Primary tasks were the construction of LZs, the improvement of PSBs, and the destruction of captured enemy material.

6. Intelligence

a. Terrain Description. Operation CAMERON FALLS was conducted in the mountainous terrain south and south west of Calu. The vegetation covering the majority of the area between the Da Krong River and the Quang Tri River was mostly triple canopy. The terrain to the south of the Da Krong River and above the Laotian salient was covered with elephant grass in the low ground and triple

SECRET

SECRET

canopy in the high ground. Observation was limited to the Da Krong River Valley and Quang Tri River Basin. Trafficability in the low ground was fair-to-good, especially along the rivers, while that in the high ground it was fair-to-poor and restricted to the numerous paths along the ridges and fingers.

b. Enemy Tactics

(1) At 010215 June a company size enemy force unsuccessfully attacked FSB WHISMAN utilizing RPGs, rifle grenades, S/A, mortars, and possibly one RR, satchel charges, and chicombs. Of significance was the fact that each NVA soldier carried 8 concussion grenades instead of the usual 2-3 fragmentation chicombs. The enemy used sandbags, logs, and bamboo bangalore torpedoes to breach the wire. One POW claimed that his unit had received the operation order at 311000H May to attack FSB WHISMAN. This time was prior to the occupation of FSB WHISMAN by 2/9. The POW added that the attackers had cut a trail up to FSB WHISMAN with machetes and had received no withdrawal information. It is noted that this attack lacked the detailed reconnaissance and planning which normally precede NVA sapper attacks.

(2) On 5 June H/2/9, in GS 0636, surprised a 2-man NVA LP, killing one while the other fled uphill. Shortly thereafter the point element of the company walked into an L-shaped ambush consisting of four light machine guns, two on the right flank and two in front in the rocks 20-30 feet above the friendly position. Contact was maintained throughout the night and the following day until a second Marine rifle company reinforced Hotel Co. 57 NVA bodies were found after the battle, some of whom were snipers tied in trees. Many concussion grenades were again in evidence. Subsequent search of the area uncovered what was believed to be a Battalion CP in the area of contact, and a possible battalion or regimental CP across the river.

(3) On 17 June 2/9 found a sketch of an attack plan believed to be against 3/9's position on Dong Cho Mt. It was passed to 3/9 the same day. That night an ambush from K/3/9 spotted 60 lights 10 meters apart weaving up Dong Ta Ri Mt. NW of Dong Cho and moving in an easterly direction. Over 1100 rounds from seven batteries were fired on the lights with excellent results. No attack was executed against Dong Cho.

c. Purpose of Special Equipment. A possible explanation for the large number of concussion grenades is that they

SECRET

SECRET

are well-suited for close-in fighting, because they expel small amounts of shrapnel. These grenades were also being substituted for regular satchel charges. One type was threaded at both ends enabling two to be screwed together. Another variety was tied together with wire and plastic cord.

d. Enemy Appearance. The NVA KIAs were neat, light green uniforms, new combat gear and steel helmets. Many of the enemy were of large stature (between 5'8" and 6' in height). Weapons were serviceable and nearly new.

e. Psyops. Within two hours after a Hoi Chanh had rallied to G/2/9 on FSB WHISMAN, the Battalion was employing the psyops "early word" broadcast system. The Hoi Chanh claimed that over 200 of his fellow soldiers were to the NW of WHISMAN and wanted to Chieu Hoi. There was no response noted to the broadcast.

f. Enemy Units' Designations. On 30 May M/3/9 picked up a wounded POW who was from the 57th Regt., 304th Div. Further, documents taken off NVA KIAs at FSB WHISMAN mentioned units in the 559th Transportation Group and 8th company, 5th Bn, 57th Regt., 304th Div.

g. Conclusions. The evidence from the contacts, living complexes and trails found indicate that the NVA infiltrated to the lower Da Krong River by moving east along route 926 and NE to the Da Krong River. The rockets on VCB in May could have been the precursor of planned continuous pressure on allied positions by the 57th Regt. However, the deployment of 2/9 and 3/9 along NVA LOCs probably disrupted the enemy's resupply and troop-movement schedules. In all probability the remaining enemy evaded the 9th Marines screening forces and escaped to the Laotian Salient and into Base Area 101. That JTG Guadaleanal has had contact with elements of the 57th Regt. south of the Khe Sanh plateau, supports the latter premise. It is considered probable that spelling operations by the 9th Marines upset a carefully-planned time table of NVA aggression against friendly installations and FSBs.

7. Mission. 9th Marines (-) (Rein) conducts operations in the upper Da Krong and western Ba Long valleys to locate and destroy the enemy forces deployed therein.

8. Concept of Operations. 9th Marines (-) (Rein) conducts a two battalion search and destroy operation to the E and NE of FSB SHEPHERD and FSB WHISMAN commencing on 29 May 1969. Fire Support is provided from FSB SHEPHERD and FSB WHISMAN by 2d Bn, 12th Marines.

SECRET

9. Execution

- 29 May Operation CAMERON FALLS commenced. 9th Marines assumed opcon of 3/9 from TFH effective 291000H. 3/9(-) at this time operating in vie of FSB SHEPHERD; FSB SHEPHERD had been activated on 25 May.
- 30 May Plt K, I/3/9 lifted from VCB to FSB SHEPHERD. 3/9 commenced operations oriented to the E of FSB SHEPHERD.
- 31 May 2/9(-) conducted a heliborne assault from VCB to FSB WHISMAN to seize and initiate search and destroy operations oriented to the E and NE of FSB WHISMAN.
- 1 Jun At 0215H, G/2/9 at FSB WHISMAN was attacked by an estimated NVA Co; results 3 FR KIA, 9 FR WIAE, 19 NVA KIA, 1 PW, 1 Hoi Chanh, 15 IWC, 2 CSWC. 11. Administrative Matters. The Administrative/Logistics Annex to the Operation Order was considered adequate.

a. Supply. Helicopter asset availability was limited, nevertheless, resupply was accomplished with a minimum of delay and units received a maximum amount of supply. During Operation CAMERON FALLS a total of 283 CH-46 and 84 CH-53 external resupply lifts were requested. 224 CH-46 lifts were completed for a total of 79 per cent and 69 CH-53 lifts for a total of 82 per cent. It should be noted that helicopter support of the personnel replacement program realized a notable improvement. The problem was solved by dedicating sufficient numbers of helicopters on Tuesday, Thursday, and Saturday to the task of carrying passengers to 9th Marines units. It should also be noted that the Vandegrift LSA introduced a new concept for preparing resupply lifts for units in the field. 3d Shore Party Bn drew the various supplies and staged them for the unit, having earlier received the requirement from the individual battalions. There were no significant problems noted with this plan. Resupply for Operation CAMERON FALLS was completely satisfactory.

b. Maintenance. No significant maintenance problems were encountered.

c. Treatment of Casualties. During operation CAMERON FALLS, the Regimental Aid Station remained at Vandegrift Combat Base with the Regimental Command Group. From this location medical support was provided to the Battalion Aid Stations in the field and at Vandegrift Combat Base. Patients requiring medical care were evacuated to 3d Medical Battalion, Quang Tri, or C-Med, Vandegrift. There were a total of 102 WIA evacuated and 32 WIA not evacuated. All the evacuated wounded were treated at 3d Medical Battalion. Other medical problems were minimal, and there was a notably low incidence of fever of unknown origin (FUO).

d. Communications

(1) General. During Operation CAMERON FALLS, the communications Platoon provided communications support from the Regimental CP at Vandegrift Combat Base, Quang Tri, Hill 819, and Signal Hill.

(2) Radio. The Regimental Staff operated from Vandegrift Combat Base utilizing the communications facilities normally operating at the CP. Direct communications with units operating the Da Krong River Valley was anticipated impossible using the VHF/FM radio equipment. The problem was solved by placing a relay station on Hill 819.

(3) Wire/Radio Relay. The wire and radio relay systems utilized were those organic to the Vandegrift Combat Base complex.

(4) Message Center. The message center provided daily courier service for the Regiment between Vandegrift Combat Base and Quang Tri. Task Force Hotel continued to guard for tactical messages.

12. Special Equipment and Techniques. None

13. Commander's Analysis. CAMERON FALLS was an offensive operation with the mission of entering an area in which the enemy was known to be concentrating, locate, engage and defeat him as well as destroy his fortifications and supplies. The numerous sightings and contacts quickly substantiated the presence of the enemy in strength. The confirmed number of soldiers killed (125) indicated that he was willing to defend his lines of communication

and his strategic area, located to the northwest and south of Dong Cho Mountain. The location and destruction of 221 bunkers and 144 living areas thwarted a substantial build-up that could seriously threaten Vandegrift Combat Base and the Mai Loc/Cam Lo areas.

The operation proved the requirement for rapidly establishing defenses upon occupation of a fire support base and the use of listening posts forward of the base to detect and identify attacks against the FSB. Further, the value of aggressive, small unit patrols (platoon size) and the disadvantage of larger scale (company size) movement was evidenced. The former permitted surprise, early engagement and pursuit; the latter, provided opportunity for detection, dispersion and withdrawal by the enemy. The company is too cumbersome to move quickly and quietly over the type of terrain encountered in Operation CAMERON FALLS. Once again, experience proved the valuable role of air observers overhead during movement to contact, as well as during contact; the requirement for well coordinated use of supporting arms (air and artillery); and, the validity of the Marine Corps' search and destroy techniques.

14. Recommendations. None
