ENCLOSURE (1)

SECRET
DECLASSIFIED**HEADQUARTERS****BLT 1/9****3rd Marine Division (Rein), FMF**
c/o FPO San Francisco, California, 96601**Part II - Narrative Summary**

1. BLT 1/9 embarked at White Beach, Okinawa on 19 December 1964 aboard the USS HENRICO (APA-45), the USS UNION (AKA-106) and the USS VANCOUVER (LPD-2) sailing on 21 December 1964 and arrived at the Naval Station, Subic Bay, R.P.I. on 23 December 1964. Immediately upon arrival in Subic Bay this organization exchanged shipping with BLT 3/3 embarking aboard the USS PRINCETON (LPH-5) flagship of CTG 76.5, the USS BEXAR (APA-237) and the USS THOMASTON (LSD-28). BLT 1/9 assumed the status of the Number 1 Surface BLT, Seventh Fleet, an element of Task Group 76.5 on 23 December 1964 and completed loading supplies and equipment the following day.
2. Christmas morning, 25 December 1964, Task Group 76.5 was alerted for Special Operations. By 1200 of that day TG 76.5 was underway for station off Cap St. Jacques, Republic of Vietnam. The BLT arrived on station on 27 December and was placed on a six hour reaction time with the mission of occupying and securing Tan Son Nhut (TSN) Airfield in Saigon to ensure continuation of air operation at that facility. Necessary Frag Orders were issued for the accomplishment of the assigned mission and after arrival on station several conferences were conducted with representatives of COMUSMACV in Saigon for further coordination.
3. On 7 January 1965, a practice turnaway helicopter and surface landing was conducted. During this period on station shipboard training was commenced immediately with special emphasis on helicopter operations, riot control measures and physical fitness.
4. Planning continued within 76.5 and on 12 January 1965 the CO of BLT 1/9 was conducted on an air reconnaissance of Tan Son Nhut, Bien Hoa and Vung Tau Airfields. The same day two of the BLT Company Commanders were conducted on a tour of the ground defenses of Tan Son Nhut Airfield.
5. The BLT remained on station off Cap St. Jacques until 25 January 1965 when the reaction time was changed to ninety-six hours and then the entire TG 76.5 was underway for Hong Kong. The next day, 26 January 1965, the BLT was again alerted for Special Operations and proceeded to station off Danang, Vietnam. Then on 28 January the Task Group again returned to station off Cap St. Jacques on six hour reaction time.
6. The 30th of January again saw the reaction time relaxed to ninety-six hours and the Task Group was underway to Subic Bay, P.I. Upon arrival in Subic Bay on 2 February the BLT conducted a practice helicopter and surface landing. The next several days the BLT attended to preventive maintenance and on 6 February started Jungle Training in the Subic Bay Training Area.

SECRET
ENCLOSURE (DECLASSIFIED)
DECLASSIFIED

SECRET

7. 7 February again brought the alert to the BLT for Special Operations. That day the Task Group commenced movement to station off Cap St. Jacques. On 10 February the BLT was again on station standing by on a six hour reaction time with the same mission of occupying and securing TSN Airfield, Saigon. Shipboard training continued with general military subjects training with emphasis on physical conditioning. On 27 February the reaction time was again moved back to ninety-six hours and the Task Group proceeded to Subic Bay arriving on 2 March.

8. For the next several days the BLT conducted preventive maintenance and prepared for relief as Number 1 Surface BLT. On 7 March BLT 2/9 relieved BLT 1/9 as Number 1 Surface BLT and BLT 1/9 off loaded from the Number 1 Surface BLT shipping.

9. Upon off loading on 7 March the BLT loaded aboard Landing Ship Squadron Nine (six LSTs) for the return to Okinawa. Loading was completed on 8 March and the BLT was enroute to Okinawa from 9 to 12 March.

10. On the 13th of March the BLT commenced off loading at Buckner Bay and Ora Wan Beach, Okinawa. The Completion of off loading of the BLT was conducted at Naha, Okinawa on 14 March 1965.

1 GENERAL

a The landing plans contained herein provide for the following type landings

(1) Landing Plan ALPHA-all surface landing of the BLT from two separate shipping groups.

(a) Phase I - landing from 1 APA, 1 AKA and 1 LPD. (Enroute to Subic Bay, P.I.).

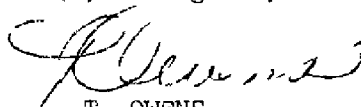

(b) Phase II - landing from 1 LPH, 1 APA and 1 LSD (Afloat SLF)

(2) Landing Plan BRAVO - all helicopter landing with a follow up sea-tail of the BLT from 1 LPH, 1 APA and 1 LSD (Phase II Afloat SLF)

(3) Landing Plan CHARLIE - combination helicopter and surface landing of the BLT from 1 LPH, 1 APA and 1 LSD (Phase II-Afloat SLF)

b. For detailed instructions see appendixes.

2. SHIP-TO-SHORE CONTROL. Tac-log groups organize, embark and function in accordance with references (a) through (e)

Time Zone Local Time in Area of Operations

1 GENERAL

- a Landing Plan ALPHA is designed for an all surface landing of the BLT from two separate shipping groups
 - (1) Phase I - Landing from 1 APA, 1 AKA and 1 LPD (Enroute Subic Bay, P I)
 - (2) Phase II - Landing from 1 LPH, 1 APA and 1 LSD (Afloat SLF)
 - b This plan provides for
 - (1) Landing one reinforced assault company over a designated beach by LVTP-5
 - (2) Landing two companies, 81mm Mortar Platoon and H&S Company (-) in column by LCVF
 - (3) Landing the remainder of the BLT in non-scheduled serials by LCU, LCM and LCVF
 - c For detailed instructions see attached tabs
- 2 PRE H-HOUR TRANSFERS Elements being transported aboard one ship and scheduled for debarkation from another ship will conduct pre H-Hour transfers as directed

1 GENERAL

- a Landing Plan BRAVO is designed for an all helicopter landing with a followup sea tail of the BLT from 1 LPH, 1 APA and 1 LSD (Phase II - Afloat SLF)
 - b This plan provides for
 - (1) Landing of four reinforced rifle companies, the 81mm Mortar Platoon, the BLT Command Post and selected BLT attachments in designated landing zones
 - (2) Landing of the remainder of the BLT by surface means
 - c Surface elements will be landed in accordance with Tab D (Landing Sequence Table) to Appendix 1 (Landing Plan ALPHA) to this Annex.
 - d For detailed instructions see attached tabs.
- 2 PRE H-HOUR TRANSFERS Elements being transported aboard one ship and scheduled for debarkation from another ship will conduct pre H-Hour transfers as directed

F OWENS
Lieutenant Colonel, U S Marine Corps
Commanding

1 GENERAL

- a Landing Plan CHARLIE is a combination helicopter and surface landing of the BLT from 1 LPH, 1 MPA, 1 ISD (Phase II - Afloat SLF)

b This plan provides for

- (1) Helicopter landing of two reinforced rifle companies, the 81mm Mortar Platoon, the BLT (Alpha) Command Group and selected BJT attachments in designated landing zones

- (a) Helicopter availability in accordance with Tab A (Helicopter Availability Table) of Appendix 2 (Landing Plan BRAVO) to this Annex

- ch/* (b) *heliteams will be landed in accordance with Tab E to this Appendix, followed by*
 In execution of Landing Plan CHARLIE all heliteams indicated by a (\$) ~~in~~ in Tab D (Heliteam Wave and Serial Assignment Table) of Appendix 2 (Landing Plan BRAVO) to this Annex.

- (2) Surface landing of two reinforced rifle companies, the BLT (Bravo) Command Group, and selected BJT attachments across a designated beach.

- (a) In this plan Tab E (Landing Craft and Amphibian Vehicle Availability Table) and Tab F (Amphibian Vehicle Employment Plan) to Appendix 1 (Landing Plan ALPHA) to this Annex apply.

- (b) In execution of Landing Plan CHARLIE all boat teams indicated by a (@) will be landed in accordance with Tab G (Landing Craft and Amphibian Vehicle Assignment Table) to Appendix 1 (Landing Plan ALPHA) to this Annex

- (3) Surface landing of all remaining BLT attachments across a designated beach in non-scheduled serials prior to general unloading

- (a) In landing the remaining BLT attachments, serials indicated by a (*) will be landed in accordance with Tab D (Landing Sequence Table) to Appendix 1 (Landing Plan ALPHA) to this Annex

~~CONFIDENTIAL~~
~~CONFIDENTIAL~~

--CONFIDENTIAL--

- | | Mount-Out | Operating |
|--|------------------|--------------|
| <u>4</u> Replenishment Combat Dependables | N/A | 30 days |
| <u>5</u> Weapons - See Annex A (Weapons Density) | | |
| <u>6</u> Vehicles - See Annex B (Vehicle Density) | | |
| <u>7</u> Stationary Supplies | 30days | 60 days |
| <u>8</u> Batteries | 30days | 25 days |
| <u>9</u> Wire, comm | 30days | 20 days |
| <u>10</u> Mask, protective M-17
(M-14 A-1) for tank crews | 1 per individual | |
| <u>11</u> Targets and Target cloth | N/A | 20 days |
| <u>12</u> Engineer tape | N/A | 20days |
| <u>13</u> Gloves, leather gauntlet | N/A | As available |
| <u>14</u> Engineers will report with sufficient nails,
screws and etc in various sizes to support
BLT training for a 30 day period. | | |
| <u>15</u> Attachments will report with sufficient
mosquito repellent to support their own
personnel for a 30 day training period.
Additionally, the Battalion Supply Officer
will take the same quantity for personnel
of the 1st Battalion, 9th Marines. | | |
| <u>16</u> (Deleted). | | |
| <u>17</u> Two sheets and one pillowcase will be carried
by each individual in B T 1/9 upon embarkation.
These items will be provided by the attachments. | | |
| <u>18</u> Two sheets, one pillowcase and two mattress
covers per individual will be boxed and
carried by BLT Supply for 1st Battalion,
9th Marines personnel. Attachments will
box and carry the same number of items for
personnel in their units. | | |
| <u>19</u> Barber kits will not be hold stowed but will
remain available for use. | | |

-CONFIDENTIAL-

20 "Armor, body (uppers & lowers) (Special Class IV Organizational Clothing) 1 per individual.

21 Attachments will bring all applicable Supply Manuals, SL's, TI's and etc. peculiar to their items of equipment.

" 1st and 2nd echelon repair parts will be carried by using units. 3rd echelon repair parts for BLT 1/9 will be carried by Detachment, 3rd Service Battalion.

" "Uppers" will be sized, marked with the individuals name on tape, and boxed by companies and attachments, based on personnel assignments to shipping. It will be the responsibility of the CO of troops to insure he has the required "upper" for each person embarked aboard his ship. The upper will be stowed as D-1 cargo under continuous security guard, where they will be immediately accessible. "Lower" will be boxed by Battalion and attachments for their respective personnel embarked and loaded as either mobile loaded or bulk cargo.

(3) Class III .

(a) The BLT Supply Officer will report to 3rdFSR for briefing and instructions in operating procedures to be executed to obtain Class III on shore.

(b) Quantity to be embarked, see reference (b).

(c) Attachments will report with 30 days allowance Class III lubricants for equipment embarked. Quantity to be based on usage data.

(4) Class IV .

	<u>Mount-Out</u>	<u>Operating</u>
(a) B-g, burlap	5000	5000'
(b) Post, fence, metal 2'	150	100
(c) Post, fence, metal 32"	150	100
(d) Post, fence, metal 5'	300	225
(e) Barbed wire	25	15
(f) Concertina	100	50

-CONFIDENTIAL-

(5) Class V .

(a) In accordance with current contingency requirements based on the task organization and as assigned by the Division Ordnance Officer.

(b) Training ammunition as required and requested.

(c) The BLT S-3 will determine the quantity of Class V to be loaded as D-1. For quantity to be embarked, see Annex D.

(6) Water .

(a) All personnel will embark with two full canteens.

(b) BLT Supply will embark with all available 5 gallon water cans.

(c) All mobile loaded water cans will be filled prior to embarkation.

(d) Units with water trailers will insure that they are filled prior to embarkation.

(e) The BLT Embarkation Officer will insure that sufficient water cans are assigned to each ship and loaded in such a way as to permit the landing of two gallons of water per man.

(f) BLT Supply will carry 25,000 water purification tablets.

(7) Medical.

(a) All medical personnel will carry individual medical and surgical supply kits.

(b) The BLT Aid Station will embark with the Battalion Basic Outfit, Medical, Ground and the Battalion Sick Call Chest.

(c) The detachment, 3rd Medical Battalion will embark with the Basic Outfit, Medical, Ground, Initial Supply Block, (Medical Ground 11 days), and organic T/E supplies and equipment for one clearing platoon (30 beds) minimum.

(d) All medical vehicles will be combat loaded to the maximum extent with the first priority going to equipment for shock treatment, admission and disposition, and field operating units in that order.

-CONFIDENTIAL-

(8) Individual Clothing.

(a) BLT Supply will carry a minimum amount of combat type clothing and make sales as required.

(b) At the end of each month, the BLT Supply Officer will submit the report as required by para. 415 b. of reference (b).

(9) Restrictions on use of Supplies and Equipment.

(a) Mount-Out Supplies. Designated mount-out supplies of repair parts will not be utilized.

(b) Operating Supplies. Those supplies not designated as mount-out will be used for training purposes and to maintain equipment as required.

(c) Camp Property. Only that Camp Property specified as sheets, pillow cases and mattress covers will be removed from Okinawa.

(d) Class III and V. No Class III or V designated as contingency items will be used.

c. Control and Distribution.(1) Control.

(a) BLT 1/9 TACLOG Group, will be organized and guided in accordance with instructions to be issued.

(2) Distribution.

(a) Unit distribution to all assault elements of BLT 1/9.

(b) Supply point distribution to all other units.

(c) Emergency supply lift available upon request to this Headquarters (Attn S-4).

d. Plan for Landing. To be issued.e. Resupply.

(1) Upon request to BLT 1/9 Headquarters. Request must be submitted in accordance with reference (e).

(2) Third Marine Division will remain normal supply source for BLT 1/9. Resupply will be effected in accordance with reference (b).

(3) NSD, Subic Bay will be the source of emergency resupply.

-CONFIDENTIAL-

(4) The BIT Fiscal Officer will obtain an OPTAR to be used for emergency resupply.

(5) There will be no resupply of Class II and IV except for emergencies.

(6) BLT Supply will box and carry a 10% overage of 782 gear.

f. Air Delivery. None at present, if this becomes a necessity, separate details will be issued.

g. Captured Material.

(1) Units of BLT 1/9 are responsible in their zones.

(2) All captured material will be reported to the BLT S-4.

h. Salvage.

(1) Units of BLT 1/9 are responsible in their zones.

(2) All salvaged material will be reported to the BLT S-4.

i. Excess.

(1) Units of BLT 1/9 are responsible in their zones.

(2) All excess material will be reported to the BLT S-4.

2. EVACUATION AND HOSPITALIZATION See Annex C (Medical).

3. TRANSPORTATION.

a. Ocean. See Embarkation Plan 201-64.

b. Highway.

(1) Control.

(a) Tactical areas - by units.

(b) Subic-Cubi area - by NSD, MP Personnel.

(c) Staging areas - see Embarkation Order 201-64.

(2) Circulation

(a) MSR s - to be issued.

~~CONFIDENTIAL~~

(b) Tactical area marking of MSR's as required.

(3) Restrictions.

(a) Convoys will be under the joint control of S-4 and the BLT Motor Transport Officer.

(b) Speed limits will be enforced.

(c) Drivers will be especially alert while driving through school zones or other high density pedestrian areas.

(4) Pre-loading Assignments.

(a) The 1st Platoon, Company "B", 9th Motor Transport Battalion will provide vehicles for preloading as follows.

1 1/9 Battalion Supply, 4 - 6x6 trucks and 1 trailer.

2 1/9 Communications, 1 6x6 truck and 1 trailer.

3 1st Platoon, Company "C" 3rd Engineer Bn. 1 truck, 6x6 to haul water point and two bath units.

4 1/9 BAS, one trailer M-105

5 H&S Co. 1/9 two trucks, 6x6 with trailers.

6 Det. 3rd Medical Battalion, 2 trucks, 6x6 and 1 trailer.

7 1/9 galley gear 4 trucks, 6x6 with trailers.

(b) Vehicles organic to 1st Battalion, 9th Marines will be assigned in accordance with reference (a) except one M-422 and one M-100 assigned to Battalion MT will be left behind for the rear echelon.

(c) Vehicles will be embarked with tanks 3/4 full. Additionally, vehicles up to 1/2 ton will carry one (5) gallon gas can (full), vehicles over 1/2 ton will carry two (5) gallon gas cans (full).

(d) All vehicle dispatching will be under the control of the BLT Motor Transport Officer.

(e) Vehicle requests will be submitted in accordance with reference (a).

-CONFIDENTIAL-

4. SERVICE.a. Functions and Assignments of Responsibilities.(1) Detachment, 3rd Service Battalion.

(a) CP Afloat, USS HENRICO (Phase I)
USS THOMASTON (Phase II)

(b) Provide spare weapons by type as indicated and in quantities as directed by applicable references.

Rifle, 7.62mm w/e
Gun, machine, M-60 w/e
Launcher, rocket, 3.5", w/e
Mortar, 81mm, w/e

(c) Provide service support as required.

(d) Provide 3rd echelon maintenance as required by reference (b).

(e) Companies and attachments will load vehicles in accordance with tactical considerations. All vehicles will be waterproofed and loaded with items essential to a combat landing. Vehicles will be inspected prior to embarkation for load types. Personnel are to be reminded that vehicles are not assigned for the purpose of transporting personal items of clothing.

(2) 1st Plt. Company "C", 3rd Engineer Battalion.

(a) CP afloat, USS UNION (Phase I)
USS THOMASTON (Phase II)

(b) Provide engineer support as directed by the BLT Commander.

(3) 1st Plt. Company "D", 9th Motor Transport Battalion.

(a) CP afloat, USS UNION (Phase I)
USS THOMASTON (Phase II)

(b) Provide motor transport support as directed by the BLT Commander.

(4) Battery "D", 2nd Battalion, 12th Marines.

(a) CP afloat, USS VANCOUVER (Phase I)
USS THOMASTON (Phase II)

-CONFIDENTIAL-

(b) Provide back-up motor transport support as directed by the BLT Commander.

(c) Provide back up engineer support as directed by the BLT Commander.

(5) Detachment Coll Plt., Company "C", 3rd Medical Battalion.

(a) CP afloat, USS HENRICO (Phase I)
USS BEXAR (Phase II)

(b) Provide medical support as required.

(6) Detachment, 3rd Shore Party Battalion.

(a) CP afloat, USS VANCOUVER (Phase I)
USS THOMASTON (Phase II)

(b) Provide shore party support as directed by the BLT Commander.

(c) Provide back up engineer support as required.

(7) Detachment 3rd Dental Company.

(a) CP afloat, USS HENRICO (Phase I)
USS BEXAR (Phase II)

(b) Provide dental services as required.

b. Other attachments will provide logistical support when needed and as directed by the BLT Commander.

c. Services from the above detachments will be coordinated through the BLT S-4.

5. PERSONNEL. Not to be published for Phase I of the SLF. Normal embarkation rosters will be prepared and submitted.

6. MISCELLANEOUS.

a. Rear Echelon.

(1) Property.

(a) The Officer in Charge of the rear echelon will receipt for all Camp Property.

(b) Units will report all lost or damaged equipment to the S-4 Office immediately.

b. Protection of equipment.

-CONFIDENTIAL-

(1) Packing, marking, and crating of supplies will be in accordance with Embarkation Order 201-64.

(2) Care will be exercised to insure that all items are protected against inclement weather, fire and pilferage.

(3) Company Commanders and CO/OIC of attachments will insure that each individual has sufficient cleaning gear for his personal weapon. In addition, adequate cleaning equipment must be available for crew served weapons.

c. Special Reports.

(1) Attachments will submit immediately to BLT S-4 any item of combat essential equipment that becomes deadlined. See reference (d) for specific instructions and items to be reported on.

(2) Other reports will be submitted by attachments as directed.

d. Excess Equipment.

(1) The following items will not be taken.

(a) Long underwear and sleeping bags.

(b) Field jacket liners.

(c) Pack boards (except sufficient quantities for communications and carrying water cans).

e. Uniform and Equipment.

(1) Normal arms and equipment will be carried by each individual of BLT 1/9. Individuals will carry an extra padlock to secure their weapons. Attachments will report with sufficient chains for security of their personal weapons.

(2) Units of 1/9 will submit requests to Battalion Supply for chain for security of weapons.

(3) Pistols will be carried aboard in unit pistol chests and issued as needed. It will be the responsibility of the CO of troops on each ship to insure that pistols of all embarked personnel aboard that particular ship are physically located on that ship and under proper security.

(4) Personnel of BLT 1/9 will embark in utilities, marching pack, w/entrenching tool, helmet (green side out), cartridge/pistol belts w/two canteens and normal equipment. Individual equipment not part of the marching pack will be carried in individual seabags or footlockers.

-CONFIDENTIAL-

(5) The haversack will contain the following items

- (a) Poncho
- (b) Two pair socks, cushion sole
- (c) Two undershirts, cotton
- (d) Two drawers, cotton
- (e) One coat, utility
- (f) One trousers, utility
- (g) Towel and toilet articles
- (h) Mess gear

(6) Individual clothing.

(a) The minimum clothing allowance will be carried by all personnel of BLT 1/9.

(b) All clothing in excess of minimum established allowances will be carried in individuals seabag.

(c) Packs, weapons, and cartridge belts, etc., will be tagged with the owners name.

(7) Uniform Aboard Ship.

(a) Officers and Staff NCO's, utilities or uniform of the day.

(b) E-5 and below, utilities.

(8) Uniform Ashore.

(a) Working - utilities or uniform of the day.

(b) Liberty.

1 Officers and Staff NCO's uniform of the day
or appropriate civilian attire.

2 Sergeants and below - Uniform of the day.

f. Baggage Authorized.

(1) Sergeants - one seabag or footlocker.

(2) Corporals and below - one seabag.

-CONFIDENTIAL-

(3) Officers and Staff NCO's - one centerfold suitcase, and one trunk locker or seabag. The BLT Embarkation Officer will insure that trunk lockers are loaded in such a way that Officers and SNCO's will have access to them.

g. Storage of Personal Effects.

(1) 1st Battalion, 9th Marines.

(a) The 1st Battalion, 9th Marines Messhall will be used for the stowage of CONUS baggage.

(b) All items so stored will be tagged using the baggage claim check with the individuals name, rank, serial number, organization and complete address of ultimate destination. A duplicate tag will be placed inside the baggage at a location where it will be seen upon opening the bag.

(2) Attachments - as prescribed by unit Commanding Officer.

h. General.

(1) Officers in Charge of attachments will become familiar with the contents of references (a) through (e).

(2) Prior to embarkation, all personnel will be indoctrinated in the measures to be employed in conservation of government supplies and equipment. Shipboard Naval property will not be misappropriated, tampered with or destroyed. Examples of types of equipment commonly misused or misappropriated are life jackets, battle lanterns and cargo nets.

(3) All personnel are reminded of the mission of the SLF. It is paramount that detailed attention be given to items carried and loaded and the manner in which they are carried and loaded. Units should be capable of self support as indicated in this Administrative Order, and in addition, be prepared to execute an amphibious combat landing. Combat loading as defined by FMFM-11 will be observed by the BLT Embarkation Officer, Officers in Charge of attachments and units organic to 1/9. It is essential that all supplies and equipment designated 'D-1' such as gas masks, body armor, M16's and Class V are in fact loaded as D-1 cargo.

~~CONFIDENTIAL~~

Additionally, Class I, Class III, Class IV, Class V and medical supplies will be loaded in the upper levels of the ship (to conform with the ship's characteristic pamphlet) and with access to hatch squares for immediate unloading.

Annex C (Medical) to Administrative Plan 201-64

Ref: (a) 3rd MarDiv OpPlan 201-63

Time Zone: I

1. Organization.a. Medical Troops

(1) The Battalion Aid Station will consist of two (2) Medical Officers and eleven (11) Hospital Corpsmen.

(2) Rifle Companies will have attached one (1) Senior Corpsmen and four (4) Hospital Corpsmen.

b. Attachments

(1) "C" Company, 3rd Medical Battalion will supply a Collecting Section of seven (7) Hospital Corpsmen and one (1) Marine driver

(2) "S" Company will supply twenty-four (24) Marines to be used as litter bearers as required

2. Mission.

a. Company Corpsmen will give medical support to respective units.

b. Battalion Aid Station Receive casualties and sick, routine sick-call, preventive medicine and evacuation of casualties. Insure that all troops are instructed in necessary first-aid and buddy-aid procedures. Instruct litter bearers in additional first-aid and litter handling.

3. Supply

a. The Battalion will have the initial mount-out block with the Battalion Landing Team.

b. Each Corpsman will carry his Medical Instrument and Supply Set, Individual with him

c. While disembarked on exercises or combat the resupply will be maintained as follows:

-1-

~~CONFIDENTIAL~~

DOWNGRADED AT 3 YEAR INTERVALS,
DECLASSIFIED AFTER 12 YEARS
DOD DIR 5200 10

~~CONFIDENTIAL~~

(2)

-CONFIDENTIAL-

(1) Primary Supply - "C" Company, 3rd Medical Battalion.

(2) Secondary Supply - 3rd FSR, 3rd Marine Division.

d. The Battalion will have a 10 day, day-to-day, sick-call supply in addition to the initial supply block.

e. While embarked on board ship, the ship's sick-bay will resupply the day-to-day sick-call chests.

4. Medical Treatment Support

a. Sick-call while embarked aboard ship will be as follows:

(1) Screening sick-call by Company Aid-man.

(2) Follow-up sick-call by ship's sick-bay.

b. Sick-call while temporarily garrisoned ashore will be as follows:

(1) Screening sick-call by Company Aid-man.

(2) Follow-up sick-call by Battalion Aid Station.

c. Hospitalization will be by local dispensaries and station hospitals or ship's sick-bay.

5. Immunizations and Malaria Prophylaxis.

a. All immunizations required for Area CT will be up-to-date prior to embarkation for exercise.

b. Malaria prophylaxis will be as follows:

(1) While in the exposed area each member shall take one (1) Chloroquine Phosphate tablet and three (3) Primaquine Phosphate tablets weekly.

(2) Prophylaxis will be continued for six (6) weeks after termination of exposure.

(3) Prior to embarkation the Senior Corpsman of each company will draw enough prophylaxis for the company.

(4) While in exposed area the prophylaxis will be controlled by Company Commanders at Company formation.

(5) The continued prophylaxis for the six (6) weeks period will be handled on an individual basis upon return to garrison.

~~-CONFIDENTIAL-~~

6. Sanitation and Preventive Medicine.

a. Company Commanders insure that all troops are instructed in necessary personal hygiene and field sanitation.

b. All heads while ashore will be closed and marked in accordance with existing regulations.

c. Water: Initial water supply will be carried in by units. ALL local water is considered polluted and is not potable until treated. Treatment will be accomplished on an individual canteen basis using iodine tablets in accordance with directions on the bottle.

d. Preventive medicine measures will be maintained as follows:

(1) All troops use individual protective coverings (nets, insecticides, and repellents).

(2) After dusk, all personnel while on training ashore will remain fully clothed.

(3) If cots are used for sleeping, properly positioned mosquito netting will be used

7. Administration

a. Medical Records.

(1) The Medical Records for each company will be transported by the Company Senior Corpsman with the Company Headquarters.

(2) Battalion Medical Records Section will be transported with the Command Group. Health Records for the XO Group will be in the custody of the senior Medical Department representative of the group

(3) Health Records of the attached units will be in the custody of the senior Medical Department representative of the unit. If no unit Medical Department representative is on board the Health Records will be turned over to the BLT senior Medical Department representative aboard.

b. Naval Personnel Service Records.

(1) Naval Personnel Service Records of all Navy personnel attached will be delivered to the Medical Records Section for custody and servicing while attached.

~~CONFIDENTIAL~~
~~CONFIDENTIAL~~

8. Evacuation.

a. All actual casualties who require further medical treatment will be evacuated to the Battalion Aid Station.

b. Ground evacuation from Battalion Aid Station will be accomplished by the attached Collecting Section to the assigned Clearing Section.

c. Air evacuation will be submitted in the aircraft mission request format and the additional pertinent information shall be furnished.

(1) Number of casualties

(2) Urgency.

(3) Nature of injury

(4) Medical assistance required to accompany patient.

9. Miscellaneous.

a. Diseases in the objective area include dysentery (amoebic and bacillary), venereal disease with gonorrhea most prevalent, scrub typhus, encephalitis, tuberculosis, typhoid, cholera, meningitis and various worm infections.

b. Security of individual equipment brought to the Battalion Aid Station is the responsibility of the Battalion Aid Station personnel until property is collected by parent unit property NCO.

c. Routine sick-call will be conducted twice daily at 0730 and 1800.

SECRETMEMO FOR RECORD

Subj: Visit to Tan Son Nhut, Bien Hoa and Vung Tau Airbases

1. Subject airbases were visited on 12 January. No tour or briefing was conducted at TSN, however Capts DOUDNA and FILMORE toured the perimeter that afternoon. A briefing and tour was conducted at Bien Hoa and a briefing and brief flyover conducted at Vung Tau.

2. Bien Hoa. Overall command of the airbase is exercised by the VNAF Commander. External security is provided by ARVN. The USAF and USA contingents provide internal security for their own areas and man an inner perimeter defense inside the airfield. It is still possible for VC harrasing attacks to occur as there are numerous areas to the north of the airfield that are lightly patrolled. There is an excellent barbed wire fence around the airfield and all U.S. personnel have covered defensive positions.

3. Vung Tau. The airbase security was in the process of being completely revised. In any case the overall command rests with the Vietnamese. The area just north of the Vung Tau peninsula is heavily infested with VC, however the area around the airfield is considered pro-government. The bridges to the mainland cannot be by passed by any vehicles, however a man can wade across near the coastline to the northeast.

4. The best route of egress from White Beach appears to be the road on its left flank, however one small road and several trails were observed near the center of the beach.

SECRETRECORD FOR MEMO

Subj: Tan Son Nhut (TSN) Defensive Perimeter

Encl: (1) Annotated Map of TSN Outer Defensive Perimeter

1. On the afternoon of 12 January, Captain R. DUNHAM, USA, Ground Security Advisor to USAF and VNAF units stationed at TSN, conducted Captain W.D. FILMORE ("C" Co) and Captain T.E. DOUDNA ("A" Co) on a motor reconnaissance of the TSN Defensive Perimeter. The following observations were noted:

a. The perimeter generally corresponds to the outline indicated on Tab (1), and is physically identifiable by an outer perimeter fence which surrounds the field. This fence in most places is standard chain link and is about 7" in height; however, in some areas it is marked by a double apron barbed wire fence. The fencing in most areas is overgrown with heavy vegetation and is infrequently, if ever, monitored for breaks, etc. In areas where there are known or reported minefields, the outer limit of the field is marked by the perimeter fence while the inner limit of the field is marked by either a chain link or barbed wire fence. The approximate physical location together with pertinent particulars concerning these minefields is included as part of enclosure (1). It should be noted, however, that mines have been indiscriminately planted in the area adjacent to the fence for years so that all areas on the west and north should be considered as mined. In addition it should be noted that there are no lanes through these minefields which would mean that friendly troops, if engaged from positions opposite the minefields, would be restricted to engagement or pursuit by fire unless they could be lifted over the minefields by helicopter or around them by vehicle.

b. The perimeter fence is manned by an ARVN battalion whose defensive posture consists almost entirely of fixed positions with the main strength of the battalion concentrated on the east and northeast portions of the perimeter. The northwest quadrant of the perimeter is unmanned for a distance of approximately 1900 meters and security for the west and southern portions is for the most part limited to gate sentries.

c. Complimenting the outer defensive perimeter, is an inner defensive perimeter which is manned by USA, USAF and VNAF personnel during alerts. This perimeter encompasses the runways and immediate operational facilities thereto. In addition to the two perimeters, an active patrolling program up to a distance of 10,000 meters from TSN is supposedly in being. This program is the responsibility of an ARVN battalion located at Ba Queo.

MEMO FOR RECORD

On this date conference was held at the office of Colonel WILCOX
 CO, 33rd TAC Sqd. Tan Son Nhut.

ATTENDANCE

Colonel WILCOX	USAF, CO, 33rd TAC Sqd (Officer-in-Charge of airfield security)
LtCol PESECARA	USAF, XO, 33rd TAC Sqd
LtCol GRANT	USAF, J-3, COMUSMACV, Action officer for function and control of non-combatants
Major DOZIER	USAF, 2nd Air Division
Major HINES	USAF, Security Officer TSN
LtCol OWENS	USMC, CO, BLT 1/9

Prior to this meeting undersigned had orientation tour of CRC (Paris
 Control) they requested liaison officer if committed. I concur, they
 will contact all a/c in TSN area.

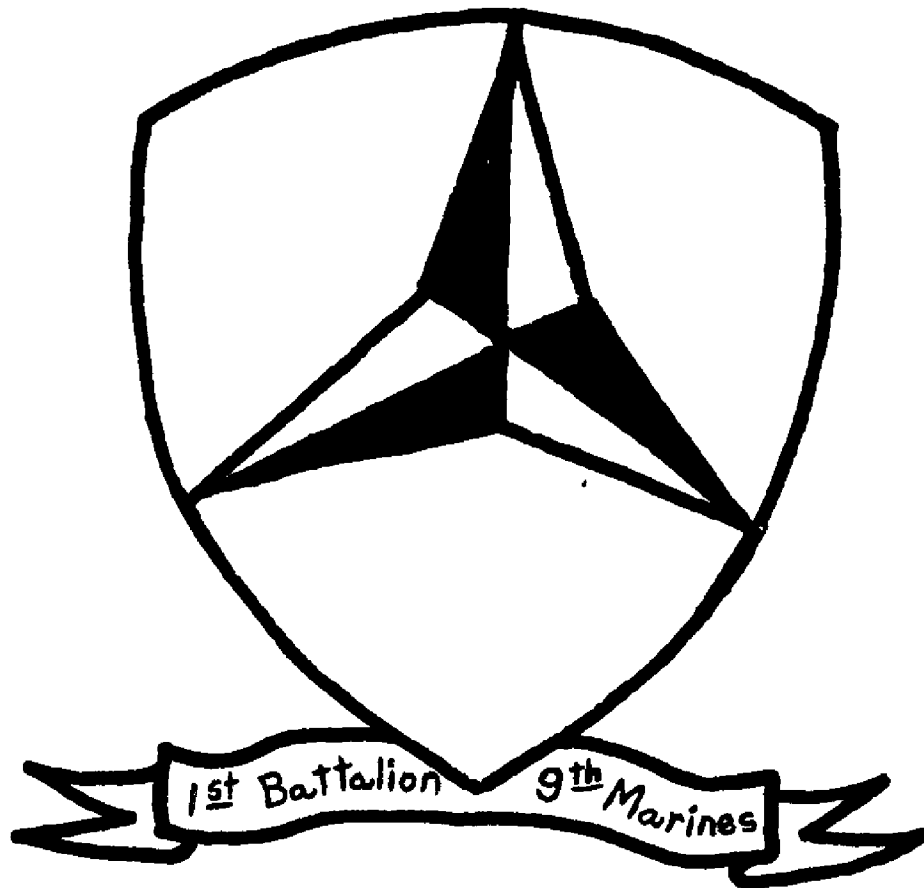

Points covered in "Field Security" are as follows.

1. BLT will patrol out as far as 10,000 meters to secure airfield
 from mortar fire.
2. Reaction force (rein, rifle co.) could be made available to
 support riot control measure if required.
3. Location of reaction force in vicinity of LS YELLOW (airstrip
 crossing).
4. Telephone hot lines from C.P. (Bldg 104) to Security Hq and
 Colonel WILCOX.
5. Major HINES to furnish back-up radio for security net.
6. Command relations. Worried about it, but I stated we both
 work for COMUSMACV.
7. BLT to be self-sustaining, for a period up to 72 hours.
8. Colonel WILCOX will coordinate with ARVN.

1 Purpose To promulgate information and instructions concerning the implementation of the training program for BLT 1/9 while assigned as Number 1 Afloat BLT, U S Seventh Fleet, in accordance with references (a) through (f)

2 Background. Reference (a) requires the preparation of a training program which can be implemented on a continuing basis, both ashore and afloat, while deployed as the Number 1 Afloat BLT. To meet this requirement, the training program for BLT 1/9 outlined herein is designed to provide direction and guidance as well as flexibility of implementation through the following provisions

a The establishment of training objectives for both the individual Marine and units of the BLT

b The establishment of minimum training requirements with regard to selected subject areas.

c The establishment of training blocks of varying duration with regard to specified types of training

BLT Bul 1500
1 Dec 1964

d. Designation of CO of Troops aboard each ship as the coordinator for training for units embarked

e. Coordination of training by this headquarters as necessary with regards to ship's movement schedule, availability of training facilities and training support

3 Training Objectives

a. Individual

(1) To increase knowledge of General Military Subjects through instruction geared to the needs of the individual Marines

(2) To increase individual proficiency in matters relating to technical skills by periodic specialized MOS training

(3) To maintain a high state of physical, moral, and spiritual well-being by continuing programs in these areas

(4) To develop an awareness within the individual of the geographical areas in which he may be called upon to operate

(5) To develop and improve leadership at all levels

(6) To develop and improve upon the individual Marine's ability to live, fight, and survive in a jungle environment

(7) To further improve each Marine's competence with his individual weapon.

(8) To continue to enhance professional knowledge through maximum participation in correspondence courses and group study projects

b. Organizational

(1) To maintain to the maximum extent preparedness to conduct any of the following type operations

(a) Amphibious

(b) Helicopter

(c) Counter-Guerrilla

(d) Conventional

(e) Combination of the above

BLT Pul 1500
1 Dec 1964

(2) To increase the proficiency and marksmanship of all crew-served weapons crews through live fire exercises.

(3) To increase the organic PLT communications capabilities by COMFYTS in varied environments

(4) To increase proficiency in the coordination of supporting arms

(5) To implement an active "People to People" program, not only by creating favorable impressions wherever the BLT is dispatched, but by actual participation in projects of a humanitarian nature.

4 Concept of Training Program

a. Shipboard Training

(1) Shipboard training will be conducted by all PLT units to the maximum extent possible under conditions prevailing aboard each ship whenever troops are embarked and have no access to training facilities ashore

(2) Shipboard training will be scheduled by separate training units for a minimum of four hours each day, Monday through Friday, to include but not be limited to the following

- (a) 1/2 hour physical conditioning
- (b) Personnel, equipment, and weapons inspection
- (c) Training as prescribed by enclosure (1)

(3) Shipboard training will be coordinated by the CO of Troops aboard each ship

b. Training Ashore

(1) Training ashore will be conducted at every opportunity when training facilities ashore are available

(2) Training ashore will include but not be limited to those training blocks listed in enclosure (2)

(3) Training schedules, other than that provided for in training blocks, will be unit prescribed and/or in accordance with future training directives

BLT Bul 1500
1 Dec 1964

(4) Training ashore for the units aboard each ship will be coordinated by the CO of Troops with this headquarters. In the absence of the Command Group aboard the LPH-5, coordination of training will be effected through the alternate Command Group aboard the APA 237. In the absence of these command elements, the CO of Troops embarked on the LSD 28 is authorized direct liaison with the 3rd Marine Division Liaison Officer, Subic Naval Base.

(5) The normal working day will be 0800-1600 on Monday through Friday and 0800-1200 on Saturdays.

c. BLT Exercise A BLT Landing Exercise to include both surface and helicopter troop lifts will be conducted as directed by the Commanding Officer and/or higher authority.

d. Staff NCO and Officer's Training Staff NCO's and Officer's School will be conducted as prescribed in enclosure (3) when directed by this headquarters.

e. Inclement Weather Training Shipboard training will be substituted for training ashore that cannot be carried out because of inclement weather.

5 Training Support

a Training Areas, Ranges and Facilities

(1) Information concerning areas, ranges and facilities available for training at Naval Base Subic is provided in enclosure (4).

(2) Requests to use training areas and/or ranges should be submitted to BLT S-3 at least 72 hours in advance.

b Training Aids

(1) Reference Material

(a) Training references are available for shipboard training as indicated in enclosure (5) and are under the control of the CO of Troops.

(b) References for training ashore will be available in the Operations Office (S-3) BLT Headquarters.

(2) Training Films and Graphic Aids Training films and graphic aids are listed in enclosure (6) and are available on request from BLT S-3 for shipboard training and training ashore.

c. Class I Supplies Available on request from BLT S-4 forty-eight hours in advance.

d. Class V Supplies Allocations of Class V are listed in enclosure (7) and are available on request from BLT S-4 three working days in advance.

ELTBul 1500
1 Dec 1964

c Transportation

(1) Small boats and vehicles are available on request from BLT S-4 twenty-four hours in advance

(2) Helicopters are available on request from BLT S-4 twenty-four hours in advance

6 Action

a Training Schedules

(1) All units will submit preposed training schedules, in duplicate, prepared in accordance with reference (g) and paragraph 4 of this bulletin to the CO of Troops aboard ship on which embarked. Upon approval the CO of Troops will forward one copy to this Headquarters.

(2) Training ashore will be scheduled in blocks of five training days, the schedule for the first block of training to be submitted no later than three working days prior to embarkation and succeeding schedules as directed by CO of Troops and this headquarters.

b Lesson Plans

(1) Enclosure (8) is a index to available lesson plans for general guidance in ship-board training.

(2) Unit leaders and/or instructors will prepare instruction and training periods to satisfy the needs and requirements of the individual training units.

c Reports Reports of training completed will be submitted to CO of Troops aboard ship to be forwarded to the BLT S-3 by 1600 on Monday for the previous week's training. These reports will consist of a copy of the weekly training schedule using the remarks column to show the number of officers and enlisted personnel attending each period of instruction.

d Range Regulations Officers in charge of firing and Range Safety Officers will be familiar with and insure compliance with references (c), (d) and (e) as appropriate.

e Range Firing Plans The Range Safety Officer will submit Range Firing Plans to BLT S-3 in accordance with reference (e), forty-eight hours prior to live firing.

f LOD Explosive Ordnance Personnel will be present for the firing of any explosive ordnance to include 106mm, 81mm, 90mm, 105mm ammunition and demolitions.

g Corpsman A Corpsman will be present during all live firing and all training.

BLT Bul 1500
1 Dec 1964

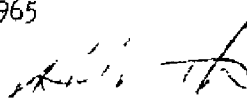

h. Communications Continuous communications will be maintained with BLT Headquarters by units conducting training outside the immediate Naval Station Area. Units utilizing the ZIMPLES area will comply with paragraph 12 of reference (a)

1. Emergency Evacuation

(1) ZIMPLES AREAS Request helicopter or boat, as appropriate via Harbor Control or BLT Tactical Net

(2) SHRIC AREAS Request via BLT Tactical Net or phone 55-3257 for helicopter

7. Self-cancellation 10 March 1965

TRAINING AREA INFORMATION AND REGULATIONS

1. ZAMBALES TRAINING AREA The Zambales training area (referred to by local Naval authorities as the ground defense training area) consists of about 9000 acres and lies on the western side of Subic Bay, opposite the Naval Base proper. The area is generally broken into three major compartments with beaches of varying usefulness furnishing access to the training areas. Vegetation in the coastal areas consists mainly of clumps of grass two to three feet high giving way to thick growths of bamboo to the west. In the valleys, thick stands of bamboo and willows grow along the river beds. Further inland, approaching the north-south ridge line, there are thick under-growths of ferns, vines, thorn bushes, and palms, which severely restrict movement. Dense woods consisting of trees measuring 12" - 36" in diameter are located inland in the valleys, particularly on the north-south ridge line above 500 meters elevation. Although a limited road network exists, it does not penetrate further inland than 2500 meters. Due to these characteristics, reinforcement and resupply are at best, difficult. The Zambales area is suitable for small scale counter-guerrilla operations. However, it provides the only opportunity for the live-firing of supporting arms or live fire exercises in the Subic Bay area.

2. SUBIC TRAINING AREA The Subic training areas are located to the east of the Subic Naval Base and Naval Air Station. The areas are excellent for jungle and guerrilla warfare training, and Subic #2 lends itself to conventional operations as well. The areas used independently permit joint company or combined arms training. Although a number of trails exist in the north-central areas, the western and southern areas retain the desirable jungle training characteristics of possessing few well defined routes of movement and supply. Limited helicopter landing sites are available.

a. Kalayan Area. This is the smallest of the Subic Training Areas. There are numerous trails and unimproved roads throughout the area rendering it appropriate for introductory jungle training (Accessible by vehicle)

b. Subic #1 Heavy jungle foliage throughout the area restricts movement. However there is an extensive trail network. The area is adequate for platoon-size operations (Not accessible by vehicle)

c. Subic #2 This area is similar to Subic #1, except that large areas of fairly open terrain render it suitable for conventional as well as guerrilla operations. Trails and paths are numerous throughout the area (Not accessible by vehicle)

d. Subic #3 This is one of the largest of the Subic training areas and possesses a variety of terrain features, including a small river (the Jadjad) and steep jungle clad ridges. The area lends itself to patrolling, platoon tactics, and cross-country navigation. (Accessible by vehicle)

BLTBul 1500
1 Dec 1964

e Subic #4 This area consists of semi-open terrain with growths of heavy vegetation. The area is sufficient in size for platoon and company size operations. The area includes Mt Santa Rita, a prominent terrain feature. (Not accessible by vehicle)

f Subic #5 Heavy jungle foliage and dense woods render this area, together with Subic #6, excellent for jungle training. The area is suitable for company-size operations. (Not accessible by vehicle)

g1 Subic #6 This area is similar to Subic #5, but possesses some well defined trails. It is suitable for ambushes and counter-guerrilla warfare training. (Not accessible by vehicle)

3 Naval Magazine, NAS, Cubi Point. Conditioning hikes, jungle warfare training, and minor amphibious landing operations may be conducted within the magazine area. There are two beaches suitable for landings.

a Sandy Beach This beach is located between Kamayan Point and Binanga Point. It is occasionally utilized by Naval EOD personnel for demolitions and may be utilized for this purpose by other units upon request. The beach is suitable for limited landing exercises. Two trails lead from the beach to Corregidor Highway near the ammunition wharf. The area between beach and highway is heavily vegetated and excellent for jungle warfare training.

b White Sandy Beach. This beach is located near the southern boundary of the magazine and lies just north of Dapua Point. It may be utilized for company-size landings, but egress is limited to one dirt road at the south end of the beach. The area between the beach and the junction of Morong Road and Corregidor Highway may be utilized for jungle training.

4. Boton Valley. Boton Valley is located halfway between the Naval Station and the Naval Air Station, and its entrance is located 100 yards northeast of the Cubi Point check point. The valley floor is flat and grassy with some clumps of brush and contains a ten target pistol range, a ten target rifle range, and a flamethrower range. The south slope of the valley is covered with extremely thick primary and secondary growth and may be utilized for jungle warfare training. Although most suitable for platoon-size operations, the latter may be utilized for company-size training.

5 Naval Station Swimming Pool This pool is available for both recreational and combat swimming.

6 Grande Island This island is located at the entrance to Subic Bay. It is equipped as a recreation center and possesses excellent picnic and beach facilities. This island may be utilized for limited company size raid operations.

BLTBul 1500
1 Dec 1964

7. Athletic Facilities Athletic facilities are available for softball, basketball, handball, tennis, and volleyball.

8. Miscellaneous Facilities

a Filipino Guides Negrito tribesmen living in the vicinity of the Naval Station may be obtained to assist units in survival training (3d MarDiv Liaison Officer, Subic Bay)

b Emergency Evacuation Both helicopters (phone 55-3257) and boats (phone 44-3457) are available for emergency evacuation.
