PART II: GENERAL CONCEPT OF OPERATIONS DURING THE REPORTING PERIOD

During the period 1-16 February, when the Battalion occupied the left flank sector of the 9th Marines TAOR, the assigned mission of defending the DANANG Air Base and the Marble Mountain Military Complex was effectively accomplished by the maximum utilization of squad patrols and ambushes operating from mobile platoon bases located throughout the Battalion TAOR. Frequent river patrols were conducted at infrequent intervals and by varying routes, to deny VC access to the waterways within the assigned sector. In early February, the mission of defense of Zone Bravo was assigned to the DANANG Air Base Defense Battalion, relieving 1st Battalion, 9th Marines of this responsibility. At the same time, responsibility for HOA PHUNG peninsula was assigned to the 1st Battalion, 9th Marines. Buring this period, the 1st Battalion, 9th Marines also provided the "SPARROWHAWK" force, a heavily reinforced infantry squad capable of rapid deployment by helicopter anywhere within the 9th Marines TAOR. The mobile platoon base concept proved effective also in providing opportunities for civil affairs and psychological warfare activities in the many widely-separated hamlets and villages throughout the TAOR.

On 17 February, the Battalion assumed the mission of Air Base Defense Battalion, having been relieved in place by 3d Battalion, 9th Marines. At this time, 1st Battalion, 9th Marines chopped to operational control of III MAF. Three companies were assigned defense of the perimeter of the DANANG Airbase, and the fourth rifle company was assigned the mission of defense of Zones Bravo and Charlie, which encompass the Marble Mountain Military Complex and the MGN KY Mountain area. All companies conducted aggressive patrols and ambushes throughout assigned sectors, saturating the area 24 hours a day. These patrols were closely coordinated with the activities of the Combined Action Company, which was organized during the period and whose platoons were located in six hamlets in the TAOR under the operational control of the 1st Battalion, 9th Marines.

PART III: SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

- 1. Personnel. Detailed personnel data is contained in the S-1 Journal submitted as a supporting document. This Battalion had a decrease in strength during this period. During this period there were 51 Marines WIA and four KIA. This Battalion rotated three officers and 124 enlisted Marines to CONUS and transferred 70 enlisted Marines by service record. Replacements of four officers and 142 enlisted Marines were received. A total of 122 Marines were afforded the opportunity of R&R.
- a. Two Navy replacements were received and nine were lost due to transfers. Ten Navy personnel were afforded the opportunity for R&R.
- 2. Administration. Nothing significant.
- 3. Intelligence. During the period from OlOOOlH to 171600H February 1966, little Viet Cong contact was made. Average Viet Cong small arms fire incidents were about one per day. It was believed the Viet Cong reduced their strength in the left flank TACR because of very heavy friendly patrolling. About 10 February, the Viet Cong strength was reported to be one Local Force company and one Main Force company. Indications were that many VC moved out of the area to the west possibly to re-supply and re-train personnel for their Rice "Tax" Campaign to be conducted during the approaching harvest season.

During the month of February the Battalion had a total of 10 VC KIA, 14 VCS apprehended, two weapons captured (one U. S. Carbine, 30 caliber, Ml and one U. S. Pistol, .45 caliber, M1911A1), six ChiCom fragmentation grenades captured, and one shaped charge believed to have been of Russian manufacture captured.

During the period 16-18 February, the move to the DA NANG Air Base was accomplished without Viet Cong harrassment. The pecrecy of the move was well-kept and this is considered a contributing factor for the lack of Viet Cong attempts to take advantage of distractions caused by shifts of units. Information was received on 18 February which concerned an alleged attempt by the Viet Cong to penetrate the DA NANG Air Base defense with an Engineer (Sapper) Platoon during the dark of the moon (19 February to 1 March). A maximum effort was devoted during this period to external and internal patrolling and the use of the mobile search-light. The reported attempt did not materialize.

a. Psychological Warfare. Psychological warfare activities were conducted through the following mediums:

(1) The I Corps Psy-War Team (USA) conducted operations in TRA KHE (3) Hamlet on 9, 12, and 16 February UNGLASSIED

- (3) Face-to-face persuasion was conducted by the companies' regularly scheduled patrols utilizing interpreters and/or leaflets. Pamphlets, magazines, and leaflets were provided for the companies in support of face-to-face persuasion.
 - b. Employment of AN/TPS-21, SID/150, and the Infrared Sighting Device
- (1) AN/TPS-21. The Battalion has two AN/TPS-21's. One set was destroyed in an LVT which struck a mine on 23 October 1965. A replacement was ordered on 1 November 1965, but has not arrived as of this date. The second set was used from 1-13 February 1966 in support of the Battalion defensive perimeter. No definite targets were picked up. The set was then secured because of a faulty transmitter and generator, both were evacuated to FLSG on 15 February. The transmitter was repaired and returned on 19 February, but the generator was beyond repair and a new one was ordered on 21 February 1966. The new generator has not arrived as of this date.
- (2) SID/150. From 1-17 February the Battalion utilized 20 SID/150's; 16 were used by the forward companies, and four were used by the Battalion CP on the perimter with negative contact. Two SID/150's were turned in to FLSG for repair on 1 January 1966. From 16-28 February, 30 SID/150's were utilized on the DA NANG Air Base perimeter without contact.
- (3) <u>Infrared Sighting Device</u>. Ten scopes were in use by the forward companies in ambush/patrol and perimeter defense activities. Six were deadlined awaiting parts. There has been no reported contact for the period.
- 4. Training. All units received periodic instruction concerning the mission and role of U. S. Forces in the Republic of VIET NAM, rules of engagement, and treatment of prisoners. While occupying the left flank portion of the 9th Marines TAOR, additional training was conducted for selected individuals and units in demolitions, land navigation, scouting and patrolling, and communications. Upon assumption of the mission of Air Base Defense Battalion, a comprehensive training program for all hands designed to maintain the Battalion at the highest possible state of combat readiness was initiated.
- 5. Special Operations. The HOA PHUNG Peninsula was assigned to this Battalion's TAOR at 270730H January 1966 and subsequently, between 1 and 6 February, an intensive search and destroy operation for the mortars which fired on the Battalion CP, MCB-11, and the DA NANG Air Base on 25 January was conducted. The operation was

LWOLASSIFIED

primarily conducted by Company "B", 1st Battalion, 9th Marines with the assistance of elements of Company "K", 3d Battalion, 3d Marines; Company "I", 3d Battalion, 9th Marines; Company "K", 3d Battalion, 9th Marines; and Company "L", 3d Battalion, 9th Marines. It resulted in the destruction of numerous enemy bunkers and fighting holes and the discovery and capture of several small ammunition caches, but terminated without significant enemy contact.

- 6. Nuclear, Biological, and Chemical Warfare. Nothing significant.
- 7. Command and Control. Nothing significant.
- 8. Communications-Electronics. Nothing significant.
- 9. Close Combat. Aggressive squad and platoon combat patrols, ambushes, and search and destroy operations while occupying the left flank portion of the 9th Marines TAOR resulted in 10 confirmed VC KIA during the period of 1-16 February. Since assuming the mission of Air Base Defense Battalion, enemy contact has been limited to four instances of harrassing small arms fire.
- 10. Fire Support and Fire Support Coordination. Nothing significant.
- 11. Logistics. Significant events in the field of logistics were as follows:
- a. On 15 February the relief of this organization by 3d. Battalion, 9th Marines commenced. This relief was accomplished as scheduled, smoothly, and without any significant problems by 18 February.
- b. On 18 February, 27 new M274Al vehicles were received from FLSG. All M274Al vehicles in this Battalion are presently on administrative deadline.
- c. On 24 February a limited technical inspection team from the Ordnance Maintenance Company, FLSG conducted an inspection of the organic weapons of H&S Company and Company "A". LTI's for the weapons of the remaining rifle companies have been requested and are scheduled to be performed on 5 March.
- d. On 26 February a request for the engineer and logistical requirements for the DA NANG Air Base was submitted to Commanding General, III MAF.
- 12. Air Defense. Nothing significant.
- 13. Combat Air Support. Nothing significant.

14. Medical and Dental Support. The Battalion Surgeon carried out routine visits to forward areas, made several trips with the psychological warfare team to forward areas, and held sick call three times a week in the hamlet of NUI KIM SON.

15. Chaplain Support

- a. During the period 1-14 February, worship services, both Catholic and Protestant, were held regularly in the Battalion Chapel and as much as possible in the field. Extensive troop commitments and transportation difficulties hampered holding of some services in the field. Memorial services and communion services were held as appropriate. Regular services were also held at 1st Force Recon Company; Battery "D", 2d Bn, 12th Marines; and for RLDS personnel. Since the Battalion move to DA NANG Air Base of 17 February, regular Protestant and Catholic services have become available to all hands with the Battalion Chaplain holding regular Sunday Protestant Services for the Battalion CP, Company "C", and Company "D".
- by The Chaplain has received, acknowledged, and distributed a continuing supply of civil affairs materials from individuals and groups contacted during "Operation Mail Call VIET NAM."
 "Operation Mail Call VIET NAM" still continues with numerous letters and boxes to the troops which have been distributed equally among the companies.
- c. Counseling on personal problems has been held with seven men of the Battalion.
- d. Church parties left the Battalion for Jewish, Latter Day Saint, Christian Science, and Roman Catholic church services.
- e. Moral guidance and the "Religions of VIET NAM" discussions were held with all new personnel and with Company "D".

16. Civil Affairs

expansion of civic action in the secured areas of the Battalion's TAOR. The principle effort in secured areas was the reopening of the lines of communication, and hereby contributing to increased development of the economy. The village of HOA LONG received the major portion of this effort and consequently it benefitted greatly through an increase in local business and a rise in the number of shipments of local produce to the city of DA NANG. The largest hamlet in HOA LONG Village, and the main business center of the village, NON NUOC (BT 073702), requested assistance in enlarging the market place, in order to accommodate the new businesses. The assistance was given by borrowing a bulldozer from a supporting unit. A foot bridge was also constructed over a stream at (PT 056732) so that farmers could move their produce to the markets.

Unglassified

- b. The medical and sanitation assistance program was continued throughout the TAOR by MEDCAP patrols, dental assistance, and the spraying of insecticide and larvacide.
- (1) MEDCAP patrols brought medical assistance to the villages of HOA LONG, HOA HAI, and HOA LAN on a daily basis.
- (2) Dental assistance was provided to the people from the hamlets of XOM DA ME (1) (BT 058734), XOM DA ME (2) (BT 056728), and MI THI (BT 052744).
- (3) Insecticide and larvacide were sprayed in the market places of HOA LONG Village.
- (4) Soap was distributed to all persons receiving medical assistance.
- (5) Numerous evacuations of sick or injured civilians were accomplished from all of the villages in the TAOR.
- c. The Battalion supported the construction and repair of schools in the hamlets of MY THI (BT 052744), NON NUOC (BT 073702), and XOM DA ME (1) (BT 058734). In addition, school supplies and equipment were delivered to schools in the hamlets of XOM DA ME (1) (BT 058734), MY THI (BT 052744), and HO DA Village.
- d. The Chief of HO DA Village requested assistance in defending his village and improving the local schools. The requested assistance was provided by the Battalion with the delivery of enough wire and stakes to construct a 1,900 meter three strand barbed wire fence. One hundred sixty school kits were also delivered to the village school.
- e. With the movement of the Battalion to the DA NANG Air Base, the civic action effort became centered in the following villages that border the airfield: HOA CUONG, HOA THO, and the DA NANG Suburb. Additionally, a pacification and civic action program was continued in the hamlets of MY THI (BT 052744), ZOM DA ME (1) (BT 058734), and ZOM DA ME (2) (BT 056728). The villages bordering the airfield were found to be incomparably more advanced in organizational leadership and defense than those in which the Battalion had previously operated.
- f. A Combined Action Company, composed of Marines and Vietnamese Popular Force soldiers, was established in the major hamlets surrounding the Air Base. The company had daily contact with the local people and has given medical assistance to a large number of them.

- 5. Suitable helicopter landing zones for projected 1-9 operations as required.
- 6. Enemy ECM capabilities against 1-9.
- 7. Enemy supply and infiltration routes into and within the 9th Marines TAOR.
- 8. Degree of Viet Cong control of population and resources within 9th Marines TAOR.
- Provide requested aerial photography in support of current or projected operations as required.
- 10. Provide additional interrogator/translator counterintelligence or other intelligence specialist/equipment support as required.
- (2) Battery "D", 2nd Battalion, 12th Marines.
  - (a) Report all target acquisition data not available to this Command.
- 5. MEASURES FOR HANDLING CAPTURED PERSONNEL, DOCUMENTS AND MATERIAL.
  - a. Captured personnel.
    - (1) The term "prisoner of war" will not be used in connection with captives taken in counterguerrilla operations against the Viet Cong since the Viet Cong are not foreign nationals, and this is not a declared war. For operations in Vietnam, the term "captive" will be used in reference to all prisoners taken by 1st Battalion units.
    - (2) Classification of captives. Due to the nature of counterguerrilla operations and the environment in which the enemy is found, captives taken in sweep operations will generally fall into one of several possible categories. In referring to captives, they will be classified by the following definitions:
      - (a) Viet Cong Captive (VCC) applies to members of the Viet Cong forces, auxiliaries to those forces, or Viet Cong cadre infiltrated in RVN in any form or by any means; spies, agents or persons who speak a North Vietnamese dialect; all persons from other than North or South Vietnam; and any person taken captive while engaging in combat against any 1st Battalion, RVN, or allied unit under any circumstance.

SECRET

- Very Important VCC applies to important captives requiring flagging and special processing depending on intelligence requirements. VCC considered "very important" include VC officers (platoon leaders and above), intelligence agents, communications/crypto personnel, district level or higher political (or finance, recruiting, etc.) commissars or cadre. Very Important VCC will be redefined periodically.
  - Viet Cong Suspects (VCS) applies to collaborators, accomplices or others taken captive who, while not directly or conclusively known to have been engaged in combat against 1st Battalion or RVN forces, are suspected of being Viet Cong, collaborators or accomplices by virtue of their unexplained presence or actions in or near the scene of action between 1st Battalion or RVN forces and Viet Cong forces; or who, although unarmed, are suspected of having taken part in such action and have been captured in subsequent sweep operations; or persons whose unexplained presence, behavior or actions in or near the 1st Battalion or RVN unit positions or facilities arouses suspicion as to their legal status and intentions.
- (d) Other Indigenous Captives applies to persons captured by 1st Battalion units under unusual circumstances. Their status will generally be in question at the time of capture due to the lack of identification, their being encountered in an area of operations, or such other circumstances that require further investigation in order to clear them. Often this includes aged men, women or children. These latter should not be categorized as VCS unless there is firm evidence of hostile or suspicious activity. They should not be indiscriminately evacuated as VCS. The great majority of captives including suspects are eventually cleared and returned to their villages.
- (e) "Ralliers" applies to those individuals not engaging in combat who voluntarily surrender and rally to the cause of the Government of the Republic of Vietnam under the "Open Arms" or CHIEU HOI policy of the Vietnamese Government.

# (3) Handling captives.

- (a) All captives taken by 1st Battalion units will be accorded firm, just, humane treatment at all times in accordance with the law of land warfare as derived from custom and treaties, such as the Geneva Conventions.

  While the Viet Cong cannot be termed "prisoners of war" as defined by Article 4, Geneva Convention Relative to Treatment of Prisoners of War, 1949, they will be treated humanely in the manner prescribed therein.
- (b) Normal procedures in processing "prisoners of war" apply to the processing of captives taken in counterguerrilla operations in Vietnam. Extreme care must be taken to ensure that friendly or potentially friendly civilians taken captive are not subject to any treatment that might engender a hostile attitude on their part toward the 1st Battalion.
- (c) Handling of captives will be firm at all times, but will not involve force beyond that necessary to defend against or subdue resisting Viet Cong Suspects or Viet Cong Captives.

  Captives will be led firmly, but gently when blindfolded. Special care must be exercised in the handling of captives who are blindfolded and tied when being moved or transported to or from aircraft or vehicles. These captives are helpless and must be assisted to prevent injury.
- (d) Viet Cong Captives and Viet Cong Suspects will be bound in such a manner as to ensure they cannot escape or harm either their captors, guards, interrogators or other captives. Bindings will ensure security but will not be such as to cut off blood circulation, cut, injure or otherwise cause pain. Captives will not be trussed in any way that is, could be, or may be mistaken to be, tortuous.
- (e) Commanding Officers will ensure that all Marines and other personnel in their command are instructed in the proper manner and procedures in the handling of captives and that these procedures are applied to all insurgent captives.

#### (4) Processing captives.

- All captives will be searched, segregated, tagged and evacuated through the intelligence chain as expeditiously as possible. Innocent civilians will be separated from VCC/VCS as expeditiously as possible.
- Normally, processing at the Battalion level will involve screening captives by the S-2, using assigned interpreters, to obtain any information of immediate tactical value and to determine the category of the individual to facilitate and expedite disposition.

#### (5) Disposition of captives.

- (a) Initial screening of captives will normally take place at the Battalion level. Here, based on the circumstances of capture and any information obtained by the S-2 captives will be classified into the categories defined above and disposed of as follows:
  - VCC. All Viet Cong Captives will be forwarded to the Battalion Collection for interrogation, For Companies information, the captives will be forwarded to GVN . control as follows:
    - Very Important VCC will be forwarded to the G-2 ICTZ in DA NANG.
    - Other VCC will be forwarded to the S-2 QUANG NAM Special Sector in HOI AN.

#### 2. VCS.

a. Battalion T.OR. All VCS captured in the Battalion T.OR will be forwarded to the Bartalion Collection Point for interrogation. They will be returned to GVN control by forwarding them to the S-2 QUANG NAM Special Sector in HOI AN.

# Ralliers.

a.) Battalion TAOR. All Ralliers surrendering in the Battalion TAOR will be forwarded to the Battalion Collection Point for interrogation. They will then be returned to GVN control by forwarding them to the Province Chief, QUANG NAM Province, at HOI AN. SECRET

B-6

- 4. Other Indigenous Captives. Civilians who are not VCC, VCS nor Ralliers will be turned over to the local Village Chief for identification and release. These will generally be local civilians picked up in the area of a search and clear sweep, persons without ID Cards, and may include unidentified persons with weapons found in pacified or cleared areas whose status is unknown. This latter category may involve RF or PF soldiers who, by virtue of the fact they lack uniforms, may appear to be Viet Cong.
- (b) Wounded captives will be evacuated as follows:
  - 1. All VCC to be evacuated by helicopter will be sent to the 3d Marine Division Collecting and Clearing Company serving this area.
  - 2. All VCS/Suspicious Persons evacuated by helicopter will be sent to the 59th ARVN Hospital in DA NANG.
- (c) In all cases where helicopter evacuation is required, the following steps will be followed:
  - 1. Complete circumstances will be recorded on on tags (in the case of VCC, a "thumbnail" sketch of the action will be included on the tags).
  - 2. A spot report will be forwarded to the S-2 by the most expeditious means available.
  - 2. All captured equipment/documents will be forwarded to the S-2 by most expeditious means available.
  - (d) Wounded captives not requiring air medical evacuation will be processed through normal medical channels.
  - (e) Wounded captives not requiring evacuation will, after initial treatment, be processed through normal intelligence channels for interrogation and disposition as outlined previously.

# b. Captured documents.

- (1) All captured documents must be tagged to show time, place and circumstances of capture prior to forwarding through intelligence channels to 3d ITT for timely exploitation. Complete information concerning the documents is necessary to aid in the evaluation of same and to permit return of "friendly" documents which may have been captured during sweep operations.
- (2) RVN ID Cards will not be taken from captives, but will remain with them throughout the evacuation process.
- (3) Captured documents relating to communications, including operating instructions, codes, messages, frequency lists and call signs, will be tagged and evacuated to the S-2 without delay. UNDER NO CIRCUMSTANCES WILL PLAIN LANGUAGE TRANSMISSIONS BE MADE TO REPORT THE CAPTURE OF ENEMY COMMUNICATIONS AND SECURITY MATERIAL.
- (4) Documents captured at communications installations will not be separated from the equipment unless recapture is imminent or evacuation of the equipment is impossible. Such documents and equipment will be tagged and evacuated together to the S-2 without delay.

#### c. Captured material.

- (1) See Appendix 1 (Intelligence Requirements).
- (2) All captured weapons, munitions, uniforms and equipment will be evacuated to the S-2 for intelligence evaluation. A system of accountability will be established to prevent the loss of captured equipment to provide for more positive verification of reported Viet Cong KIAs and insure evacuation and delivery through proper intelligence channels.
- be reported immediately and evacuated to the S-2 without delay. Any associated documents and/or personnel captured with the equipment should be evacuated with the equipment. Following capture of such equipment, notations should be made of dial settings to ensure that such information is available for technical exploitation. Dial settings will not be changed nor will any parts be removed to include identifying labels or manufacturer's plates.

B-8

- (4) Captured ordnance will be forwarded to the S-2.
  - (a) Semi-automatic and manual action rifles not manufactured by an allied power will be returned as war souvenies. Proper DD forms must be completed by the owner or the weapon will be confiscated at a U.S. POE. These forms are available at the S-2 office.
- (5) Explosive ordnance materials will be inspected by a designated representative of the S-2 (where reasonably possible). Those items of intelligence or training value that can be made safe will be turned over to the S-2 for further disposition.
- (6) Items desired for intelligence and training include all weapons and ordnance, uniforms, equipment, punji traps, booby traps (photographs were safety dictates destruction of the device), tunnel lids and covers, and any other item or device encountered which would be of value in learning more about the Viet Cong and his techniques.

Units should notify the S-2 of any deficiencies or inadequacies in the stated map allowance based on peculiar requirements for maps in counterguerrilla operations or climate conditions in Vietnam.

Map corrections. All units will maintain a record of map corrections covering their TAOR. Such corrections should be reported to the S-2 as encountered. Whenever a unit is relieved of its TAOR, the record of map corrections and any additional geographical information will be turned over to the relieving unit.

# b. Photographs

- (1) All requests for aerial photography will be forwarded through the S-2.
- 7. COUNTERINTELLICENCE. See Appendix 2 (Counterintelligence).

# 8. REPORTS AND DISTRIBUTION.

a. All units submit to S-2 reports of enemy activity, encountered or observed in their vicinity. These reports must be timely and accurate.

# b. Patrol reports.

- (1) Patrol debriefs will be summarized and a spot report forwarded to S-2 immediately.
  - (2) Written patrol reports will follow as soon as possible following the standard debrief format.
- c. Spot reports. When information is of an urgent nature and full details are not yet known, a spot report with all available facts will be made immediately. As soon as possible thereafter, as more information becomes available, follow-up reports will be made to amplify all incomplete spot reports.

# d. Shell report/mortar report.

- (1) Viet Cong use of mortar or artillery will be reported immediately.
- (2) Crater analysis will be performed as soon as practicable and the results reported to this Headquarters.

- Upon receipt, Companies will report by overlay the pacification status of their sectors, to include area considered to be pro-GVN, neutral, and pro-Viet Cong.
- (2) As further information is received or as changes occur, follow-up reports will be made.

## Population displacement report.

- All units report displacement of the local populace from area within or contiguous to their respective sectors.
- Indicate, if possible, whether displacement was due to USMC/GVN action or Viet Cong action or threats, direction of movement, destination, and whether building were abandoned, destroyed or carried away by the inhabitants.

Appendix 1 (Intelligence Requirements) to Annex B (Intelligence) to Operation order 1-66

# 1. ESSENTIAL ELEMENTS OF INFORMATION.

- a. Will the Viet Cong attack the Battalion TAOR? If so, when? Where? In what strength? With what forces? From what direction?
- b. Will the Viet Cong defend against USMC operations in VC-held or VC-controlled areas? If so, where? How? In what strength? With what units?
- c. What defenses will the Viet Cong employ in and around their combat hamlets? (Special attention to their employment of automatic weapons and supporting arms, weak points/strong points in their defensive system, secret exits, hiding places for personnel and material, and tunnel patterns).
- d. Will the Viet Cong reinforce units now in contact or in the Battalion TAOR? If so, when? Where? How? With what forces?
- e. Will the Viet Cong employ artillery or heavy mortars to shell or support an attack upon the 1st Battalion positions of installations at Marble Mountain. If so, from what positions? When? On what targets? (Special attention to howitzers, heavy mortars, anti-aircraft guns and other large caliber weapons.)
- f. What are the road and bridge conditions and capacities in the 1st Bartalion TACR.
- g. What suitable helicopter landing zones exist in projected areas of operations in and around the TAOR? What is the capacity of these zones? If vulnerable to indiction by ground fire, from what locations?

## 2. OTHER INTELLIGENCE REQUIREMENTS.

a. What is the location of Viet Cong headquarters, camps, rest areas, training areas, special cultivation areas, supply points, and weapons and ammunition storage areas?

- b. What methods and techniques do the Viet Cong employe to gain access to friendly positions and/or installations? (Special attention to infiltration of individuals or units by deceptive or covert means to include tunnelling).
- c. What methods and techniques do the Viet Cong employ to communicate? What radio and telephone equipment do they have? What other means? (Special attention to signals used for purposes of warning; breaking contact; opening fire; marking minefields, stake traps, and booby traps; and the use of drums, bugles, whistles, flares, lights, signs and markers; and use of carrier pigeons).
- d. What are the Viet Cong reactions to defenses and counter-measures against reconnaissance, surveillance and detection techniques and devices? (Special attention to their methods of avoiding detection and contact with the 1st Battalion forces.)
- e. What land and water routes do the Viet Cong use for infiltration of personnel and material into RVN? (Special attention to routes leading into the Battalion TAOR).
  - f. What is the attitude of the local population toward lst Battalion and Viet Cong forces in areas defined as pacified, under pacification, cleared, neither GVN nor VC controlled, VC controlled? What factors affect these attitudes?
  - g. What methods do the Viet Cong employ to control the local population? To instill and maintain a hostile attitude towards 1st Battalion units in the minds of the local opulation? What is the relative effectiveness of these different methods?
  - h. What actions or attitudes on the part of the local civilian population are indicative of the presence of the Viet Cong in the immediate area? In the general area?

# 3. SPECIFIC INTELLIGENCE COLLECTION REQUIREMENTS (SICR).

This or higher headquarters will periodically issue SICRs in response to a specific intelligence requirement of limited or extended duration. These SICRs will be given special distribution and carry a reporting requirement on an "as obtained" basis. SICRs will be cancelled when the requirement has been met or extended if necessary to meet the requirement.

#### 1. GENERAL.

- This appendix amplifies references (a) through (f) concerning counterintelligence procedures.
- b. Security is especially important in the counterinsurgency environment in the Republic of Vietnam. The Viet Cong may be expected to continue:
  - To conduct espionage activities to obtain military information.
  - To sabotage vital U.S. or RVN installations. (2)
  - To undertake acts of terrorism against U.S. (3) personnel and the pro-Government civilian population.
  - pers(4) To propagandize the Vietnamese civilian population to incite anti-U.S. feelings.

#### MILITARY SECURITY.

New Extension from the continuous con-

- Safeguarding Military Information.
  - (1) Classified information will be handled and safeguarded in accordance with references (a) and (b).
- Classified material will not be taken forward of the ima (2) Battalion Command Post except when essential for the conduct of operations. In such cases, only extracts of necessary information from classified documents shall be used. The be in the contract (1) ស្តេចម្ចាស់ ពេលនៃក្រុម ប្រមាទិធីមិន សំខាន់ និងស្ថិត សមាន ប្រ**ទេស ខេត្ត ប្រមាទល**់ប្រែសាសនៈ

- (3) Upon displacement, command posts will be thoroughly policed to ensure that nothing of intelligence value is left behind.
- (4) Special Instruction
  - (a) While current U.S. Armed Forces security directives do not require that unclassified maps, training manuals and other publications of this nature be treated as classified material, RVNAF require that these items be treated with utmost care. Frequently this difference in policy has caused serious difficulty in adjudicating what are, from the RVNAF standpoint, breaches of security.
  - (b) During the period of operational deployment in RVN, unclassified maps, training manuals and other publications of this type will be given sufficient protection to prevent their falling into unauthorized hands. Disposal will will be made as if the material were classified.
- (5) Classified material furnished to this Command by a foreign government or international organization will retain the same classification as the furnishing government has assigned it. Vietnamese defense information is limited to the following categories of classification.
  - (a) TOI MAT is the Vietnamese equivalent of TOP SECRET.
  - (b) MAT is the Vietnamese equivalent of SECRET.
  - (c) KIN is the Vietnamese equivalent of CONFIDENTIAL.

All material carrying these classifications will be afforded the same or greater degree of protection than that which the United States affords material of lake classification.

- b. Communications Security.
  - (1) Communications security will be in accordance with provisions of Annex I (Communications-Electronics) and other directices issued by higher authority.

- (2) Classified information will not be discussed over telephones or voice radio nets. Coupling sheet and Operation Codes will be used when appropriate to safeguard friendly information.
- (3) The CEO will prepare an Emergency Destruction Plan Plan for Crypto Material.

## c. Challenge and Fasswords.

(1) Compromise of the challenge and password will be reported to S-2 immediately.

## d. Countersabotage.

- (1) All units will stress countersabotage in security plans. Particular emphasis will be placed on safeguarding Command Posts, supply points, communication centers and water points.
- (2) Prior to occupying an existing building or structure, a thorough search will be made for hidden explosives or booby traps.

# e. Counterespionage.

- (1) Commanders will ensure that all personnel are warned that low level agents (bar girls, vendors, shop keepers, pedicab drivers) have been known to gather information for the Viet Cong.
- (2) The Viet Cong also have the capability of using Caucasian or Negro agents, either in uniform or civilian clothes, to penetrate our installations or units. Any person, regardless of rank or position, who acts suspiciously, expresses undue interest in military routine, location or units, or who is observed in a restricted area, will be approached and identified. If he has improper identification or requires verification, he will be detained and the details will be reported immediately to the S-2.

# f. Countersubversion.

(1) Troop information programs will include the official role of the United States in the Republic of VIETNAM in both political and military matters.

(2) Any propaganda directed at United States policy or U.S. servicemen will be reported immediately to the S-2 with all details possible.

# g. Visitor Control.

- (1) All units will provide escorts for and control the movement of all visitors within their areas of responsibility.
- (2) Representatives of the press and photographers will be escorted by designated members of the S-2.
- h. Protection of Ranking Officials. Units being visited by ranking government officials or general/flag officers will provide adequate protective security for such visitors.

# i. Target Lists.

- (1) Facilities and Installations. To be issued.
- (2) Personality Lists. To be issued.

## CIVIL SECURITY.

# a. Control of Civilians.

- (1) Civilians will not be permitted access to camps or installations unless appropriately cleared and authorized by the commander.
- (2) All personnel are prohibited from dealing with itinerant vendors operating on the periphery of camps and along MSRs.
- b. <u>Civil Leaders</u>. Friendly civilian community leaders, including village and hamlet officials, will be treated with due respect.
- c. Civil Unrest. Notify the S-2 immediately of any incident which may indicate a deterioration in relations between the local civilian population and U.S. forces.

Ref: (a) 3rd MarDiv OpOrder 343-65

(b) 9th Marines OpOrder 328-65

Time Zone: H

## 1. CONCEPT

- a. This concept is developed as a general guide for the tactidal employment of this Battalion in accomplishment of currently assigned missions. It will be necessary from time to time to alter or suspend certain portions of the concept to conduct special operations or to comply with tactical demands or additional missions.
- Clear and hold operations and aggressive patrolling have been conducted in the Battalion TAOR since early September. The majority of VC contacts have been small unit engagements with occasional contact with VC forces of platoon size. For the most part, the VC forces have been local guerrillas, and they have been armed with submachine guns, Chinese carbines, and Chicom or M-25 fragmentation grenades. Recently there have been indications of increased VC activity in the area to the rear of the two companies that have occupied positions in the forward sectors of the TAOR. The primary enemy activity which must now be combatted is ambushes, sniping, mining of routes of communication, agitation and propagandizing of the populace, terrorism, and infiltration and sabotage of rear area installations.
- c. Deep reconnaissance and combat patrols in force will continue to the limit of the 3rd Marine Division TAOR within assigned zones. The maximum number of small unit patrols and ambushes will be planned and executed within assigned zones to include rear and previously cleared areas. Emphasis will be given to locating and killing Viet Cong in their "safe" and rest areas. Harrassing and interdiction fires will be continued.

CONFIDENTIAL

- d. Three reinforced rifle companies will be assigned to forward positions. All forward companies will aggressively conduct operations within their assigned sectors to destroy VC rorces and facilities; provide for mutual reinforcement; and emasculate VC influence in the area through an active civil affairs and psychological warfare program with maximum utilization of face to-face persuasion through the use of assigned interpreters and ARVN personnel. A fourth rifle company will constitute the Battalion Reserve and will conduct aggressive patrols and ambushes as required, provide a reinforced rifle platoon on 10 minute alert for deployment anywhere within the Battalion TAOR, and will provide defense of the bridge and waterpoint (BT 071701).
- e. Control of areas by forward companies will be maintained and extended by use of tank-infantry-LVT task forces establishing mobile strongpoints and conducting offensiv operations as described in paragraph c. above. A semipermanent company base camp will be established within assigned forward sectors to provide logistics and combat support to deployed platoons and to provide limited messing and rest facilities for returning platoons.
- f. Companies will normally be rotated between forward positions, center, and reserve duties on a four week cycle, spending two weeks forward, one week as center company, and one week as reserve company.
- g. Certain tanks, LVT's, and AT's will normally be assigned direct support of the forward rifle companies. The balance of tracked vehicles will remain in direct support of the Battalion CP to permit periodic maintenance, rotation, and reinforcement capability.
- h. The civil affairs program already initiated will be continued. Companies will emphasize the civil affairs aspects of their operations and patrols, especially in vicinity of base camps and in rear areas.
- Psychological warfare will continue to receive added attention as more material and special psychological warfare units become available. Face-to-face persuasion should be used through interpreters and attached ARVN personnel whenever possible. Psychological warfare themes will be published periodically and disseminated.

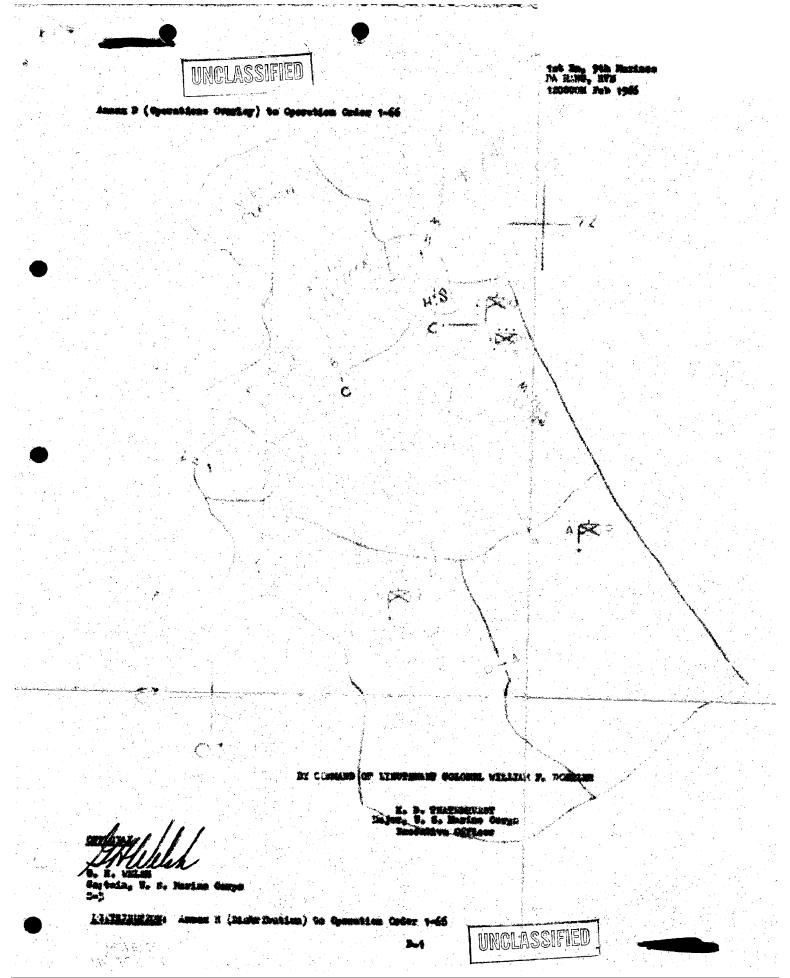

j. Logistical considerations continue to be of primary concern, especially in view of the capability of the VC to mine MSR's and tracked vehicle routes. Administration and logistics runs by tracked vehicle will be kept to an absolute minimum. Where possible, the resupply period will be lengthened from two to three days. Helo resupply will be scheduled periodically and where possible, supplies will continue to be brought by wheeled vehicles.

## Friendly Forces

- (1) Annex K (Air Support).
- (2) Annex L (Artillery).
- Annex M (Naval Gunfire Support). (3)
- MISSION. Supporting arms support 1st Battalion, 9th Marines operations to include reconnaissance operations, security missions, offensive and defensive actions, and counterattacks; destroy or neutralize enemy forces by direct or indirect fire; conduct harrassing and interdicting fires; and provide illumination on call.

## EXECUTION

#### Concept of Operation

Fire support coordination will be in accordance with (1)reference (b).

#### b. All Units

Supporting arms will not be fired into any populated area except when the Battalion Commander personally determines that the area is hostile and that such action is necessary to save Marine lives, and that there is no alternative to such a course of action.

CONFIDENTIAL

- (2) All supporting arms missions, with the exception of barrages, preplanned, and unobserved fires, will be controlled by an airborne or ground FAC, forward observer, NGF spot team, or RVNAF observer. All observed and unobserved fires, except barrages, will be positively approved at the Battalion FSCC prior to their use.
- (3) Hamlets or villages not associated with ground operations will not be attacked without prior warning (by leaflets and/or speaker systems or other appropriate means) even though light fire is received from them.
- (4) Hamlets and villages may be attacked without prior warning if the attack is in conjunction with a ground operation involving the movement of ground forces through the area, and if, in the judgement of the Battalion Commander, his mission would be jeopardized by such warning.
- (5) None of the foregoing is intended to deny the application of force against the source of hostile forces. Enemy forces engaging friendly troops will be destroyed by utilization of any available means.
- (6) All 81mm and 60mm mortar fire missions, registrations, and H&I fires will be cleared by the Battalion FSCC. The only exception is if in the judgement of the Company Commander, he determines the tactical situation is an emergency, he may fire without clearance from Battalion FSCC and then notify Battalion FSCC as soon as possible.

# 4. TARGET INFORMATION

#### a. Target List

(1) Appropriate target information will be disseminated to all units as required for specific operations. Targets of opportunity will be passed immediately to the Battalion FSCC.

# b. Restricted Targets

- (1) Every effort will be made to preserve religious, cultural, medical, and public utility installations.
- (2) Fires will not be called on bridges, highways or railroad tracks unless the tactical situation dictates the necessity to do so.

# 5. AIRCRAFT SAFETY

## a. Air Sentries and Lookouts

- (1) Air sentries will be positioned at 60mm and 81mm mortar firing units, artillery firing units, and naval gunfire support ships will cease fire when friendly aircraft are observed approaching danger areas.
- (2) Artillery and mortar forward observers and naval gunfire spotters will cease fire when it appears that the trajectories of artillery, support ships, and mortars will endanger friendly aircraft.
- (3) Unless special coordination measures are prescribed, fires on heliopter routes in use are restricted to observed fires where the observer is capable of ensuring the safety of the helicopters using the routes.

## b. Restrictive Fire Plans

- (1) When the possibility of massed artillery, mortars and/or naval gunfire exists and when massing may endanger a simultaneous air mission, a restrictive fire plan will be employed as follows:
  - (a) Plan Whiskey. All surface fires are prohibited between a prescribed maximum and minimum altitude within a specified rectangular area during a stated time interval. The length of the area is designated by two coordinate points and the width is specified by a given distance to either side of a line joining the two coordinate points.
  - (b) Battalion FSCC will recommend a restrictive fire plan if such plan is required. Recommendations and orders for restrictive fire plans will state the coordinates of the points delineating the centerline, distances to either side of the centerline, and maximum and minimum altitude, and the time period.

EXAMPLE: "Whiskey X 792851 to 797228 X 3000 X 1000 to 10,000 ft. X 0755 to 0815.

(2) Every effort will be made on the part of the Battalion FSCC to exercise prudent judgement in the use of restrictive fire plans so that the maximum use of all supporting arms is available and used to aid in the accomplishment of the Battalion's mission.

c. Landing Zone Preparation. Unsecured helicopter landing zones will be prepared by artillery fire and/or air delivered fires, as required, prior to their use by helicopters performing a tactical lift.

# 6. SAFETY OF GROUND FORCES

a. Supporting arms will not be fired without prior approval a cofithe Company Commander in whose zone the fire is required. I cov. 21 000.01 of 0001

No fire lines established by infantry commanders will be coordinated by each higher Headquarters as required.

#### c. Bombline

- (1) Bomblines are land lines established to delimit attack by friendly aircraft. These lines are utilized by air, ground, and affoat agencies to ensure troop safety and integration of air support with other tactical operations.
- (2) Recommended bomblines will be forwarded by the Battalion Commander to the Commanding General, 3d MarDiv, who will prescribe the final bombline.

Annex G (Daily Operation Minimums for Companies) to Operation Order 1-66

#### Time Zone: H

1. A standard format will be used in the planning, identification, and reporting of daily operations of all rifle companies within the Battalion.

# 2. Minimum Daily Requirements

- a. Day Patrols. One per platoon for the three forward companies; one patrol daily for the reserve company.
- b. Night Patrols. One per platoon for the three forward companies; one night patrol in the assigned sector south of the bridge (BT 071701) from the reserve company.
- c. Ambushes. One per plateon for the three forward companies; one in the assigned sector south of the bridge (BT 071701) from the reserve company.
- d. Local Security Patrols. As required. Local security patrols in the CP area will be assigned to the reserve company by this headquarters (S-3).
- e. Scout Sniper Teams. One team from each of the three forward rifle companies. Hours in place should extend from darkness through daylight.
- f. Listening Post. No minimum requirement, but good security measures dictate at least one per company base, and as required in PPN's.

# 3. Special Requirements

a. From time to time higher headquarters will direct the execution of special operations during specialed times, ander the code names of HAYDAY and SPREADEAGLE. The requirements for these special operations are as follows:

- (1) HAYDAY. Maximum ambush activity throughout the TAOR. Previous minimum requirements have been four ambushes per platoon in forward areas (12 per company) and ambushes in rear areas as determined by 5-3. Forward companies should maintain a current list of of preselected ambush sites 1000 to 1500 meters around present positions to facilitate reporting HAYDAY ambush locations.
- (2) SPREADEAGLE. A special operation designed to deceive the enemy as to the exact location of perimeters of "fixed" positions or installations. The concept requires the expanding of perimeters by 200 to 400 meters outward during the period specified. IUsually after dark and for two or three hours duration). Essentially, this requires selection of unprepared "alternate" positions outside the normal perimeters and the tightening of the inner perimeter with fewer personnel. This operation does not apply to mobile PPE's, but to semi-permanent platoon positions, and company and battalion CP's.
- (3) When HAYDAY is executed, previously submitted patrol plans (and ambush plans as neccessary) will be cancelled for the duration of HAYDAY.
- (4) When SPREADEAGLE is executed, units continue execution of previously submitted ambush and patrol plans.

#### 4. Method and Time of Reporting

- a. "Periods" of planning and reporting of all activities is 1800 to 1800 daily. Regimental S-3 requires Battalion to submit general plans at least 52 hours in advance of the reporting period. Considering the time required for this Headquarters to receive and consolidate plans and transmit them to Regiment, companies are required to submit plans to this Headquarters (S-3) at least 58 hours in advance. For example, plans for the 24 hour period of 141800 to 151800 must reach this Headquarters by 120800.
- b. Identification and designation of patrols, ambushes, scout sniper teams, and LP's will be standardized, utilizing the following:

- (1) A/14/PO5 This figure is broken into four groups as follows:
  - (a) A- Company Designation
  - (b) 14 Reporting period (all activities for the period 1800-1800 will carry the designator of the first date in the period).
  - (c) P Indicates type of activity P-Patrols; A-Ambushes; L-Listening Post; and S- Scout Sniper Team, (FALS)
  - (d) 05 Indicates 5th activity planned for the period, assigned in chronological sequence. A recommended method is to assign a block of numbers to each platoon. 1st Platoon 0 through 10; 2d Platoon 11 through 20, etc.
- c. Companies may shorten designator for use on company radio new if desired. However, full designator must be used when transmitting information about patrol to battalion.

# 5. Submission of Plans

- a. Submission of plans should be by overlay showing the areas, times, designations, or other pertinent information. It is realized that this cannot always be done because of tactical commitments, lack of transportation means, and other valid reasons. For this reason, the following alternate means of submitting plans is established.
  - (1) 58 Hours in Advance. Submit the general patrol areas by grid square. For example:

RWC3 X GS 0368 and 0369 X 141200 to 150600 X

OR

RWE1 X NOTHERN HALF OF GS 0965 X 141900 to 150600 X

b. Following the general plans submitted 58 hours in advance, the following specific information is required to be submitted by 0800 of the day of execution for the period commencing 1800 that day and ending 1800 the next day. This includes the exact location of PPB's, LP's, Ambushes, Scout Sniper Teams, and the time frame for each.

- (1) Examples:
  - (a) Patrol routes and times:

B15P22 X 152100 to 160300 X 095658 to 092653 to 103650 to TP X (Indicate size of patrol if other than squad)

(b) Ambush:

C15AU, X 160230 to 160600 X 064745 X (If more or less than a squad, indicate size)

(c) Listening Post:

D15L1 (Numerical designator is required) X 047667 151900 to 160600 X

(d) Scout Sniper Teams:

ALSS (Numerical designator not required) X 077716 X 160500 to 160930 X

c. When submitting detailed plans in overlay form, include the information indicated in paragraph b. above as marginal information. The following symbols will be used on overlays to indicate type activity:

IP - Initial point for patrols

- 🚱 Ambush site
- C Listening post
- / Scout Sniper Team location
- 🚣 Platoon Patrol Base
- 6. Changes to Previously Submitted Plans
  - a. It is realized that the 58 hour advance submission time and the changing tactical situation will necessitate a large number of changes to plans. Changes should be submitted as soon as they are known, and except in unusual cases, should be included in the detailed information submitted by 0800 daily. An example of a routine change is as follows:

CHANGE B15P22 to READ 151900 to 160200 X or CANCEL C15 A14 or ADD C15A16 X 151800 to 160100 X 060737 to 059758 to 064754 to IP X PLATOON SIZE X

DISTRIBUTION: Annex N (Distribution) to Operation Order 1-66

# Annex H (Civil Affairs) to Operation Order 1-66

1. Concept. Civil affairs will be strictly subordinated to tactical operations. The civil affairs effort attempts to win the good will and support of the civilian population. The ultimate objectives accrued by winning the good will of the populace are an increase in intelligence information and preparing the civilians for the eventual return to GVN control. In no way should the civil affairs effort be misconstrued as the beginnings of a U.S. Military Government. In view of the above defined role of civil affairs, the effort will be low keyed and directed for maximum impact with short range programs.

## 2. Programs

- a. Companies operating in forward areas should provide daily medical treatment to civilians. Medical supplies are available on request.
- b. Medical evacuations of civilians to hospitals will be supported. Request for evacuation of civilians will be routed through the S-3.
- c. Personal assistance will be rendered through the distribution of soap, clothing, and other designated supplies to needy familes; supplies are available on request.
- d. The Battalion Aid Station will supply medical treatment three days of every week to the civilians in the area of Marble Mountain.
  - e. All support for schools and institutions will be controlled by the Battalion Civil Affairs Officer.

## 3. Reports

- a. Companies operating in forward areas will submit a daily Civic Action SITREP to include: MedCAP treatments and distribution of soap and clothing. Report is due at 0800 daily.
- b. The Civil Affairs Officer will compile reports from the forward companies and submit a daily Civic Action SITREP to Regiment by 1600 daily.

- 1. As stated in the basic Administrative instructions for this relief, maximum utilization of all available motor transport assets will be required in order to make this a smooth, orderly and efficient transition with as little confusion as possible. In order to achieve this desired aim it is recommended that all 6x6 truck transportation be coordinated by the S-4 Officers of the battalions involved and that requests and matters pertaining to truck transportation be directed to their offices.
- 2. Assumption. It is anticipated that both battalions will receive additional 6x6 trucks during the move.
- 3. The following schedule of events is recommended as a basis for the proposed move. This schedule is in consonance with the tactical aspects of the move and will facilitate maximum utilization of trucks and smooth transition of the relief.

TASK ORGANIZATION. See Annex A (Task Organization).

#### 1. SITUATION

a. Enemy Forces. See current intelligence reports.

# b. Friendly Forces

- (1) 9th Marines occupy and defend assigned tactical area of responsibility in the DA NANG area to defend the DA NANG Airfield and Marble Mountain (DA NANG EAST) military installations against attack; support pacification program; conduct civil affairs program in assigned area; and be prepared to conduct unilateral or coordinated US-ARVN operations within and outside area.
- (2) 2d Bn, 9th Marines occupies and defends the area on the right flank of 1/9.
- (3) Platoon, Company "C", 3d AT Bn direct support 1/9.
- (4) Company "B" (-), 3d Tank Bn direct support 1/9.
- (5) Platoon, Company "B", 1st AmTrac Bn direct support 1/9.
- (6) Platoon, Company "C", 3d Engineer Bn direct support 1/9.
- (7) Assigned PF unit participates in security of village of NUI KIM SON.
- c. Attachments and Detachments. See Annex A (Task Organization.

# d. Assumptions

(1) That lst Battalion, 9th Marines will be relieved of responsibility for rear area defense of the Marble Mountain (DA NANG EAST) military installations prior to D-day.

CONFIDENTIAL

- (2) That negotiations for land requested will be concluded prior to Dels.
- (3) That permission to displace the 1st Battalion, 9th Marines! GP will be obtained from higher Headquarters prior to D-15.
- (4) That another organization is scheduled to occupy and take over all existing facilities of list Eattalion, 9th Marines' present CP on displacement.
- (5) That sufficient tentage, equipment, and supplies are available for construction of another Battalion CP prior to D-15.
- (6) That should the tactical deployment of companies on D-15 be such that there is no center forward company, then the mission of that company will be assigned to the reserve company.
- 2. MISSION. Commencing D-day, 1st Battalion, 9th Marines displaces CP forward to vicinity of (BT 073665) and continues assigned mission.

#### 3. EXECUTION

a. Concept of Operation. On D-15, one plateon of the center forward company will commence construction of the new Battalion CP, installing necessary perimeter wire, constructing required bunkers, and emplacing defensive positions. As amount of work required increases, the center forward company will supply additional units as needed. Additional assistance will be provided by engineer personnel. Additional construction will be completed as materials become available, to include tentage, maintenance areas, and the establishment of a waterpoint. On D-day, the CP will displace, the Commander's echelon will establish operations and effective communications, and the old CP will close. By D+3, all elements will have displaced forward.

# b. Headquarters and Service Company

- (1) Provide normal administrative and combat service support to 1st Battalion, 9th Marines.
- Supply working parties, as available, commencing D-15, to assist in the construction of the new Battalion CP, located vicinity (BT 073665).

- (3) Prepare plans for the internal arrangement of the Battalion CP by D-15.
- (4) Be prepared to provide internal security for the Battalion CP and all billeting areas therein, commencing D-day.
- (5) Prepare defensive fire plan and overlay indicating the trace of the Battalion CP perimeter defense by D-15.
- (6) Prepare plans for the orderly displacement of subordinate elements to the new Battalion CP; displacement to be completed by Da3.

# c. Center Forward Rifle Company

- (1) Be prepared, on D-15, to commence installation of perimeter wire, required bunkers, and defensive positions. Initially assign one platoon to this task; this platoon will also provide security for the CP site.
- (2) Be prepared, on order, to supply additional elements as work progresses, and as materials, including tentage, becomes available.
- (3) Be prepared, on D-day, to be relieved of security of the CP by Headquarters and Service Company.

# d. 1st Platoon, Company "C", 3d Engineer Battalion

(1) Be prepared, commencing D-15, to render any engineer assistance necessary, to include, but not limited to, bunker construction and excavation of wells.

#### e. Coordinating Instructions

- (1) Commence construction on order.
- (2) This plan does not envisage the construction of a full, strongbacked cantonment package, but rather the establishment of a CP in consonance with organic capabilities of the Battalion. The semi-permanent cantonment construction will be initiated at a later date.

# (3) Priority of Effort

- (a) Erection of a parapet around the perimeter.
- (b) Emplacement of defensive wire.

Subj: Special Intelligence Report 4-66; Possible attack on DANANG Air Base during period from 22Feb - 28Feb66.

1. The following reports have been received by this Headquarters:

a. Possible existance of a reconnaissance group of the 5th VC Regiment located five kilometers northwest of the DANANG Air Base. Rated F/3.

Their possible mission is to recon the route from that direction to the air base.

b. Possible existance of the 278th Engineer (Sapper) Company located approximately 15 kilometers northwest of the DANANG Air Base. Rated F/3.

- c. Agent reports which indicate the desire of the Viet Cong to strike the DANANG Air Base during the new moon phase or shortly thereafter. Rated F/3.
- 2. If an enemy attack were to materialize against the DANANG Air Base, it would probably take the following form:
- a. Mortars located south of the field would fire on the troop positions in the Uniform and Victor sectors, and the Air Force Class V (A) dump near the 1-9 Command Post. This would be used as a diversion tactic.
- b. One or two engineer platoons (sapper) would then strike the Tank Farm on the northwest perimeter and the aircraft of MAG-11 (a covered route of approach exists between the northwest perimeter and the MAG-11 aircraft).

Commanding Officer From: Distribution List To:

Essential Elements of Information Subj:

- 1. Analysis of current Viet Cong mine and booby trap incidents show a sudden increase in the use of "grenade mines", a cluster of M-26 Tragmentation grenades. The use of these clusters is in addition to an increase in the use of single M-26 grenade booby traps. Analysis indicates that the VC have come into possession of a quantity of these granades.
- 2. It is requested that a special intelligence collection requirement be issued for the following essential elements of information:
- a. What is the primary source of the M-26 fragmentation grenades now in the hands of the VC?
- b. Are the VC obtaining the grenades from other areas and transporting them into the DANANG TAOR?
- c. Are the VC obtaining the grenades in the DANANG TAOR from us or ARVN sources by either loss, neglect, or theft.

Submit reports as information is obtained.
