PART II

NARRATIVE SUMMARY

During the period 1 through 8 October 1968 1st Battalion, 9th Marines was deployed in the southern position of the Demilitarized Zone on Operation Lancaster Trousdale North. Upon returning to Vandegrift Combat Base (VCB), the battalion was assigned the mission of providing the defense for VCB, Ca Lu, and Thon Son Lam, together with providing one company to conduct combined USMC/Popular Forces Regional Force Operations in the D-5 area east of VCB. From 16 through 19 October the battalion conducted search and clear operations to the west of VCB, relinquishing responsibility for perimeter defenses of VCB, Ca Lu, and Thon Son Lam to 2d Battalion, 9th Marines. 1/9 resumed responsibility for these defenses following the battalion's return to VCB on 19 October 1968.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. Combat mission assigned

Defense for Vandegrift Combat Base/Ca Lu/Thon Son Lam complexes and further assign one company for offensive operations in the D-5 area, establishing liaison and operating in close alliance with PF/PF forces in that locale.

a. 1st Battalion, 9th Marines FRAGO 54-68

(1) Provide defense for Vandegrift Combat Base /Ca Lu/ Thon Son Lam and provide one company for tactical operations in the D-5 area. Companies C, B, A, and D, respectively, and assigned these tasks.

b. 1st Battalion, 9th Marines OFO 10-68

(1) 1/9 attacks at 170730 to conduct detailed search and clear operations west of VCB/Signal Hill.

(2) Companies A and B continue assigned mission. Company C - on order, attack, seize, occupy and defend Bn Obj 1. On order, continue the attack to seize, occupy, and defend Bn Obj 4. Following seizure Obj A, and on order conduct detailed search and destroy operations towards Hill 512, 715, or 490, as directed.

(3) Company K 3/9 - at 170730H conduct helicopter borne assault into LZ Leatherneck. Establish defense and be prepared, on order, to continue the attack to seize occupy and defend Bn Obj B. Following seizure of objective B establish company patrol base and conduct aggressive patrols to seek out and destroy the enemy.

(4) Company G 2/9 Battalion Reserve. Be prepared on order to conduct helicopter borne assault into blocking position at Hill 512, 715, or 490, as directed.

c. 1st Battalion, 9th Marines FRAGO 64-68

(1) Company K returned to Opcon of 3/9 at 191600.

(2) Companies A and B returned to Opcon of 1/9 at 201000.

(3) Company F (-) chopped to Opcon of 1/9 at 201000. 1st Battalion, 9th Marine resumes defense of VCB/Ca Lu/Thon Son Lam with Company F augmenting Company C's defenses at VCB.

d. 1st Battalion, 9th Marines FRAGO 66-68

(1) Company A chopped to Opcon of the Third Marines at 221200H.

DECLASSIFIED

UNCLASSIFIED

DECLASSIFIED

e. 1st Battalion, 9th Marines Frago 68-68

Company D, at 243600H displace by tactical motor march to VCB. Be prepared to assume defense of VCB on order and in a sector to be assigned.

f. 1st Battalion, 9th Marines Frago 69-68

- (1) Company E returned to Opcon of 2/9 at 250800H
- (2) Company C provides entire perimeter defense for VCB

g. 1st Battalion, 9th Marines Frago 73-68

Company D provide augmentation forces to Company C as required for the defense of VCB.

2. Operations

01 October at 1230H Company C received 25 rounds from 82mm mortar fire. No casualties reported. An artillery mission was called on the assumed position of the mortar, with good coverage of the target. At 1500H, an AO observed 3-4 NVA running southwest at 905639, 2 NVA at 914633. Fixed wing strikes resulted in 6 KIA(c) at 611642. No BDA at other positions noted. At 2050H, while firing night defensive fires Company C observed a secondary explosion. Two repeats produced two and then four more secondary explosions, totaling 7 altogether.

02 October at 0900H 4 Company medevacs two casualties from 30 September. At 1900H Company A received about 25 rounds of 60mm mortar fire from 911644, and observed movement at 901638. Artillery and 81mm mortar missions were fired and a flare-ship and SPOOKY were requested. Company A had 4 casualties, with two medevacs. At 2130H, Company D sighted a figure on a path at a distance of 25-30 meters. Five M-16 rounds were fired and the figure disappeared.

03 October at 1300H, Company B sighted 2 NVA moving west on a trail and pursued by small arms fire and M-26. Inspection of the area produced negative results. At 1730H, Company A found at 859650 three bunkers with grass covers and one OP platform in a tall tree. The bunkers were explored with negative results. Fresh blood traces were also found along a trail at 860649.

04 October Company D found 5 reinforced bunkers within a meter interval. An 82mm mortar pit, containing 20 rounds destroyed by artillery was also found. Trees were cut away from around the pit to give clearance. Four rocket sites containing 40 empty rocket cannisters were also found. One cannister contained a document of an unknown type.

DECLASSIFIED

DECLASSIFIED

05 October at 1230H, Company A commenced movement toward regimental obj. B, discovering a to fifteen 60mm mortar fuze well covers and one fighting hole, 2-3 days old. Also one apparent 60mm mortar pit was found at 852648. Occupied obj. 2 at 1400H and a one plane NZ completed at 1800H.

06 October at 1500, Company A found one common defecation pit, one bottle of white pills (500) with ENH stamped on each one, and two spent AK-47 rounds, about a month old, at 845646.

07 October helicopters reported taking small arms fire from 867662. Five missions, consisting of 38 rounds of 81mm and 12 rounds of artillery were called in, giving good target coverage. Results unknown.

08 October Company A assumed defense of Thom Son Lam.

09 October at 1800H, elements of Company B received 15 rounds of sniper fire while acting as a countersecurity team at 010452. An artillery mission would not be called in because the area was a no-fire zone. At 2200H, Company D received 7 rounds of sniper fire from 076521, and heard movement in the same area. They responded with 60mm mortar fire and the sniping stopped. A search of the area in the morning produced negative results.

11 October at 1100H, a patrol from Company B checked a village at 025455 for PF's and RF's, learning from the elders that the village had had neither for a long time. The village was searched for tunnels with negative results. At 1830H, Company D sighted 10-15 NVA in the open, and called in 81mm mortar and artillery fire. The latter was checked fire, but the former gave good coverage of target with unknown results. Two UH-1E gunships also worked the area, getting one secondary explosion.

12 October at 1130H, a patrol from Company B encountered numerous indigenous persons, all destined for VCB trash dump. When the patrol passed through the Montagnard village and questioned the people, it found many individuals with malaria symptoms, primarily fevers, and a doctor was requested for them. The presence of the village chief in the village was revealed only after repeated questioning. He had wished to remain unnoticed fearing NVA terrorism. Villagers report that NVA often used the village for a rest center after operations. At 1845H, Company D sighted 2 indigenous personnel, one with a rifle and pack, leaving a deserted village. A 60mm mortar mission was fired, and later inspection revealed well beaten paths leading towards the mountains and blood traces.

13 October at 1215H, Company D discovered 1200 lbs. of rice later destroyed, in bins at 095542. At 1000H, a Company patrol learned from the villagers that 4 VC had entered the village with carbines and light machine guns 1-1½ hours earlier and sniped at Americans. No report as to the number of rounds or if fire was returned. Stories conflicted as to whether or not the VC received food in the village and as to the length of time VC normally stayed in the village, from 2 hours to 4 days. The corpsman inspected the villagers and

DECLASSIFIED

concluded that, in relation to the Montagnards, the Vietnamese villages are cleaner, healthier and better fed.

16 October at 0830H, Company B sighted 3 NVA unarmed but heavily laden with gear, at 999457. The NVA also saw the patrol, retreated into the vegetation, looked out once, and then stayed hidden.

17 October from 0630H to 0650H VBN received 23 rounds, suspected 82mm mortar fire. Four rounds hit 400-500 meters east of the 1/3 SOC and 19 rounds 400-500 meters north to northeast of it. Artillery responded with unknown results. At 1415H, Company D 2/12 took 3 small arms rounds from 3900 mils azimuth, range undetermined. At 1500H, a reconnaissance patrol spotted an 82mm mortar tube in the open at 996462, and one NVA next to it. Artillery mission called in, results unconfirmed.

19 October at 0445H, Company C received 4 rounds of heavy mortars or artillery within 50 meters of the perimeter.

20 October at 1215H, a Company D patrol set off a booby trap, causing 5 WIA.

21 October at 0145H, a Company A patrol, 400 meters from the lines at Thon Son Lam heard 6-7 rounds of small arms fire from the north to east quadrant. It could not be determined whether the fire was friendly or hostile.

At 1100H, Company B found and destroyed a cave at 999456.

23 October at 2300H, a SeaBee unit reported small arms fire coming from 028467 and impacting on Route 9. At 1500H, Company D found 4 bunkers, 2 grass huts, numerous clothes and tools, all used within the previous week, at 028467.

26 October at 1830H, Company D 2/12 received 1 round small arms fire.

" C	26,625 lbs.
" D	58,425 lbs.

3. Hot meals were supplied to "D"Co at D-5 H&SCo, "B"Co and "C" Co at VCB.

c. Transportation.

- (1) Truck from Quang Tri to VCB and from VCB to Mai Loc, Ca Lu and Back pile.
- (2)
- (3) MAG-39
- (4) 187,415 lbs. by air

d. Engineer Support.

The 1st Platoon, Company C, 3d Engineer Battalion served in direct support of the 1st Battalion, 9th Marines.

During Operation Lancaster Trousdale North the engineers constructed eleven one plane landing zones using some 5000 lbs. of explosives.

SECRET

DECLASSIFIED

DECLASSIFIED

The landing zones averaged 450 lbs of explosive each, 1000 ft of detonation cord, 100 ft. of time fuze and 50 to 75 blasting caps. During this same operation the engineers blew a great deal of enemy material including arms, ammunition, food, and clothing. It was found that a carefully stocked pile of enemy ammunition, small arms as well as cannon could be successfully detonated by exploding enemy anti-tank mines placed upside down on top of the pile.

At Vandegrift Combat Base the engineers used heavy equipment to dig trench lines in the 1/9 Battalion area. A grease pit 8'x8'x8' was also dug for the mess hall. The engineers used the 105 air compression with the small jackhammer attachment to cut the tops of barrels to be used by 1/9 for trash barrels.

9. Services Situation.

- (1) While at VCB showers, laundry and ice (to the mess hall) were provided when available.

f. Supply Situation. (None up to T/O)

- g. (1) GENERAL: During the month of October 1968, the BAS held sick call for Marine Corps Personnel.
 (2) SANITATION: Routine weekly sanitation inspections were made of the Battalion area.
 (3) DISEASE, INJURIES, AND TREATMENT IN GENERAL: Dapsone tablets are still in use for personnel in the Vandegrift Combat Base. Patients with FUO, URI, and acute diarrhea have presented a problem during the reporting period.
 (4) CASUALTIES and HOSPITALIZATION: There were 11 WIA's and 103 NBC's. Out patient treatment consisted of 1597 miscellaneous illnesses and injuries, 27 gastroenteritis, 08 URI, 15 FUO, and 02 gonococcal infections.
 (5) TRAINING: Orientation lectures were given to newly joined personnel. The subject matter included personal hygiene, self aid and buddy aid, venereal disease, care and protection of the feet, cellulitis, and snake problems in Vietnam.
 (6) COMPLEMENT OF BAS: At the close of the month, the BAS had a complement of 01 Medical Officer and 49 Hospital Corpsmen. There were 04 E-6's. There were 04 new personnel joined during the month. There were 13 noneffectives during the month.

11. Civic Action: There were no Civil Affairs conducted during the month of October 1968. This reduction was attributed to the lack of transportation and prolonged inclement weather conditions.

Letters were written to various organizations in the United States, explaining the Childrens Memorial Hospital, Sponsored by the 3d Marine Division. Any contributions from these organizations are expected to be in December 1968.

Further correspondence was sent concerning needed materials such as: clothing, soap, toothpaste and toothbrushes and other items needed for refugees and orphans located within the Division A. O. No delivery date can be obtained for these items.

12. Psychological Warfare There was no Psychological Warfare conducted by the 1st Battalion, 9th Marines, during the month of October 1968.

DECLASSIFIED

DECLASSIFIED

13. Intelligence The area of operations encompassed the southern D.M.Z., from the 85 to the 91 grid, and south from the 67 to the 63 grid. The terrain encountered was rugged and hilly with thick vegetation making trafficability extremely difficult. Movement was often cross compartment, restricted to an average rate of 200 meters per hour. Avenues of approach, both enemy and friendly, were generally restricted to existing trail systems found in the area. Stream fording points presented little difficulty during the operation, due to the lack of heavy rains. The vegetation consisted of double to triple type canopies with heavy brush and elephant grass.

One road was observed through field glasses at XD 915680, which is not charted. On one occasion, vehicle movement was heard, but the exact direction from which the sound came is unknown. The majority of trails were well used. Trails were also large enough to permit transportation of supplies by elephants.

It is believed that larger NVA units had conducted a withdrawal, as friendly units moved into the area. Contact was limited to squad and platoon size enemy units which were masking the withdrawal of other units, or guarding the numerous supply caches found in the area. Enemy incoming rounds were sporadic and light, consisting solely of 60 and 82mm mortars.

Enemy units through aerial observation and contacts, indicated enemy was equipped with AK-47's, heavy M.G., mortars (60mm and 82mm). Active 12.7mm A.A. positions were sighted, of which one was destroyed by close air-support.

The types of uniforms used by the enemy were green and khaki utilities. The belts worn with the utilities were either a green web or a tan leather with a star on the buckle.

The age of the enemy was estimated at between 18-24. This was determined by KIA's, POW's and uncovered graves.

The enemy used delaying and harrassing tactics ie. mortar fire, probes, and occasional sniper fire. The units involved were small as previously noted, and it is thought he used these delaying tactics, allowing his larger units to withdraw as they avoided contact with friendly forces.

Most of the bunkers that were found were "A" framed in shape, and were built with logs. All were well camouflaged and were 2-3 weeks old. These bunkers were used for living quarters only and took approximately 3-4 days to complete. There were a few other bunkers very similar in shape, with adjoining crewserved weapons positions, such as anti-aircraft and mortar pits. These were also well camouflaged with local vegetation. There were also numerous above ground dwellings made of thin logs that were used for eating places. They could hold 4-6 men at a table.

WEATHER: Temperatures ranged from the high 90's to low 70's, winds ranged from 5 - 25 knots. Precipitation was occasionally heavy due to two typhoons near the northeastern coast of South Vietnam. The month of October should have an average of 16 days of rain.

14. Air Support

A. Eleven air strikes were run by fixed wing during the month of October.

DECLASSIFIED

DECLASSIFIED

- B. MAG-39 aircraft supported 1/9 this month with 3 company sized lifts and 1 battalion lift.
- C. Equipment lifted by MAG-39 helicopters consisted of daily class I resupply items.
- D. Bomb damage assessment totals were 31 NVA bunkers, and destruction of many NVA improved trails.

15. Fire Support

a. Artillery

- (1) General: During the month of October 1968, artillery support for 1st Battalion, 9th Marines consisted primarily of fire that was defensive in nature. 1st Battalion, 9th Marines were located at Vandegrift Combat Base during the month of October and provided security in this area.
- (2) Significant events: On 16 October, 3 NVA were seen by a Company "B" plt. located on Signal Hill (Co-ordinates 978480). A fire mission was conducted by 62 a with two confirmed KIA's and one probable WIA. The following day Vandegrift Combat Base received 27 rds. of artillery fire later determined to be 105 howitzer rounds, found in a D battery, 2d Battalion, 12 Marines, a three day operation was conducted from the 17th to the 19th of October by 1st Battalion, 9th Marines (-). Supporting fires were conducted by artillery and negative contact was made.
- (3) Type missions fired:
 - a. observed - 32 missions
 - b. unobserved - 6 missions
 - c. H&I's 4,500 rounds
- (4) Number of rounds fired:
 - a. 105's - 5,425
 - b. 155's - 12 rounds
 - c. 106's - 62 rounds
 - d. 4.2" mortars - 210 rounds
- (5) Significant Surveillances:
 - a. KIA - - - - - - - - - - -2 confirmed
 - b. WIA - - - - - - - - - - -1 probable
 - c. Bunkers destroyed - - - - - -None
 - d. Secondary explosions - - - - - -None
 - e. Bridges destroyed - - - - - -None
 - f. Mortars destroyed - - - - - -None
 - g. 50 Cal. MG destroyed - - - - - -None

16. Communications/Electronics:

a. General: During the subject period, communications were generally good, with the battalion operating in terrain ranging from low valleys to high mountains, and weather ranging from from hot and dry to extended periods of rain.

As had been noted in the past, Command post siting is an extremely critical factor, communications wise when the CP sets in.

DECLASSIFIED

Some difficulty was encountered in the submitting of required Communication - Electronics reports on a timely basis, which was due primarily to the non-availability of helicopters during periods of inclement weather.

A final evaluation was made of the AN/PRC-77 and KY-38 equipment, and was forwarded to 3d Marine Division CTO under separate cover.

b. Comm Center: A limited Communications Center was incorporated into the Command Post Group during the subject period on an evaluation basis. This element consisted of two (2) message center men, whose sole mission was to service and maintain a log of the administrative traffic, both incoming and outgoing, which was passed over the regimental tactical net and Battalion administrative net. It was readily evident that this element was an asset, in that the delays in delivery and the non-deliveries was reduced to an acceptable minimum.

c. Wire:

(1) While on operations and in a fluid situation, the only wire communications employed by this battalion is a command post loop, which includes the 6,5,3, 14 and 24. Inasmuch as all equipment is man-packed while on operations, weight is the limiting factor, and it is therefore more desirable to use the TA-PT telephane, as opposed to the TA-312. It was determined, however, that the quality of communications is drastically reduced when more than three (3) TA-1's are connected to the same line.

(2) The supply of wire WD-1/TT within this Battalion is rapidly approaching the critical stage, due to the fact that our requisitions are not being filled.

d. Radio: There were, and are, situations in which conflict of frequencies seriously hampered radio communications. The more serious instances seemed to involve the radio frequencies assigned to the supporting attachments, i.e., artillery and air. In one instance, the LZ Common net was rendered ineffective in that an unknown station completely over-rode any transmissions made from ground to air.

(2) For reasons undetermined, the fire support coordinator attached to this battalion had difficulty communicating with FSC at Regiment during the subject period. The Battalion CP would have good communications on the Regimental Tactical net, while the FSC, using identical equipment as the Battalion operator, would be unable to communicate with the FSC at Regiment.

(3) As reported in the Command Chronology for September 1968, it is felt that the radio network required to support the administrative and logistic needs of this Battalion is too extensive, and commits men and equipment which could be more advantageously utilized in the field. It is again recommended, if only on a trial basis, that Regiment assume the responsibility of passing message traffic from the Battalion Command Post (forward) to the respective S-1 and S-4 sections of said Battalion.

DECLASSIFIED

SECRET

DECLASSIFIED

(4) While operating in conjunction with U. S. Army units, instances have arisen where U. S. Army call signs and/or frequencies were required. It is recommended that the U. S. Army equivalent of 3d Marine Division CQI be available for loan on an as-required basis, quite possibly these could be held and checked-out by 3d Marine Division CQO.

e. Radio relay: There was negative utilization of radio relay during the subject period.

17. Regimental Scout Snipers:

Headquarter Company, Headquarters Battalion, 9th Marines Regiment supplied the 1st Battalion, 9th Marines with 2 man Scout Sniper teams. The snipers were effectively employed against targets of opportunity.

2. MISSION:

THIRD MARINE DIVISION MAINTAINS A REACTION FORCE OF ONE RIFLE COMPANY (BALD EAGLE) IN EACH OF CERTAIN DESIGNATED AO'S, PREPARED TO EXPLOIT RECONNAISSANCE TEAM SIGHTINGS/CONTACTS, TO PROVIDE SECURITY FOR INSTALLATIONS OR DOWNED AIRCRAFT, REINFORCE UNITS IN CONTACT WITH OR THREATENED BY ENEMY FORCES, OR CONDUCT OTHER MISSIONS AS DIRECTED.

3. EXECUTION:

A. CONCEPT OF OPERATIONS. EACH DESIGNATED REACTION FORCE WILL CONSIST OF ONE RIFLE COMPANY WITH ONE REINFORCED RIFLE PLATOON (SPARROW/HAWK) READY FOR DEPLOYMENT WITHIN 20 MINUTES OF BEING ALERTED. THE REMAINDER OF THE COMPANY (BALD EAGLE) WILL BE READY FOR DEPLOYMENT WITHIN 60 MINUTES OF THE TIME OF ALERT. UNITS WILL BE PREPARED TO MOVE BY FOOT, TRUCK, TRACKED VEHICLE, BOAT, OR HELICOPTER TO EXPLOIT RECONNAISSANCE TEAM SIGHTINGS/CONTACTS, PROVIDE SECURITY FOR INSTALLATIONS OR DOWNED AIRCRAFT, REINFORCE UNITS IN CONTACT WITH OR THREATENED BY ENEMY FORCES OR CONDUCT OTHER MISSIONS AS DIRECTED. NORMALLY, SPARROW HAWK/BALD EAGLE UNITS WILL BE EMPLOYED WITHIN THEIR PARENT ORGANIZATION'S AO, HOWEVER, THEY WILL BE PREPARED FOR EMPLOYMENT ANYWHERE IN THE DIVISION AO. WHEN EMPLOYED TO EXPLOIT RECONNAISSANCE TEAM SIGHTINGS/CONTACTS SPARROW HAWK/BALD EAGLE WILL MAINTAIN CONTACT WITH AND DESTROY ENEMY FORCES WITHIN THEIR CAPABILITY.

B. AO COMMANDERS (LESS NAPOLEON/SALINE AO):

(1) MAINTAIN ONE REINFORCED RIFLE COMPANY ON 60 MINUTE ALERT WITH ONE OF ITS PLATOONS (REINFORCED) ON 20 MINUTES ALERT AT FOLLOWING LOCATIONS: KENTUCKY - C-2, LANCASTER-CAMP CARROLL, SCOTLAND-VGB, LIBERTY CANYON (WHEN ACTIVATED) - QTCB.

C. NAPOLEON/SALINE AO COMMANDER:

(1) THE REQUIREMENT FOR MAINTAINING A SPARROW HAWK/BALD EAGLE IS APPLICABLE TO THE NAPOLEON/SALINE AO WHEN ASSIGNED INFANTRY STRENGTH IS GREATER THAN ONE BATTALION. OTHERWISE, THE SPARROW HAWK/BALD EAGLE FOR THE KENTUCKY AO WILL BE PREPARED FOR COMMITMENT IN THE NAPOLEON/SALINE AO.

D. THIRD MOTOR TRANSPORT BATTALION.

(1) PROVIDE TRUCKS AS REQUIRED ON ORDER TO MOVE SPARROW HAWK/BALD EAGLE UNITS TO HELICOPTER PICK UP POINTS OR OBJECTIVES AS DIRECTED.

E. COORDINATING INSTRUCTIONS.

(1) BALD EAGLE IS DEFINED AS A DESIGNATED RIFLE COMPANY CAPABLE OF DEPLOYING ON SHORT NOTICE ANYWHERE IN THE DIVISION AO. THE INITIAL PLATOON (SPARROW HAWK) WILL BE CAPABLE OF DEPLOYING WITHIN 20 MINUTES, AND WILL BE ORGANIZED AS FOLLOWS:

- (A) ONE RIFLE PLATOON
- (B) ONE MACHINE GUN SQUAD
- (C) ONE ARTILLERY FO TEAM
- (D) FAC TEAM
- (E) ONE ENGINEER TEAM, WITH DEMOLITION CAPABILITY
- (F) THE PLATOON REINFORCED WILL CONSIST OF AT LEAST 50

AND NOT MORE THAN 60 MEN, AND WILL BE COMMANDED BY AN OFFICER.

(2) ANY UNIT MAY INITIATE A REQUEST TO COMMIT THE SPARROW HAWK/BALD EAGLE. REQUESTS WILL BE MADE THROUGH THE NORMAL CHAIN OF COMMAND TO THE DIVISION COC (PHONE 3D MARDIV 180).

(3) SEQUENCE OF ACTIVATION AND EMPLOYMENT: SEE ANNEX B

Prag Order 61-68 141600H to 151600H Oct 68

Time Zone: Hotel

Task Organization: No change

1. Situation:

- a. Enemy Forces: See Annex C.
- b. Friendly Forces: No change.
- c. Attachments and Detachments: No change.

2. Mission: No change.

3. Execution:

- a. No change.
- b. Coordinating Instructions: Inclement weather and reduced visibility dictate increased supervision in order to ensure continued security. Frequent physical inspections of positions by unit commanders at all levels will remain a constant requirement.

4. Administration and Logistics:

- a. IAW Battalion SOP.
- b. The Battalion Air Liaison Officer is providing instruction regarding air operations and employment of close air support. Where feasible, unit commanders are strongly urged to avail themselves of this instruction in the conduct of unit training. Instruction will be provided at unit areas on request.

5. Command and Communications: No change.

 George F. Smith
 Lieutenant Colonel, U.S. Marine Corps
 Commanding

ANNEX C (SPECIAL INTELLIGENCE SUPPLEMENT)
TO 1/9 FRAG ORDER 66-68Password Code for
221200H Oct 68 to 231200H Oct 68

Code # 55

Astronomical DataSunrise - 0643 Sunset - 1839
Lunar Illum 03%Significant Events1. Increased Mining Incidents

In recent days enemy mining activity in the Division AO has increased markedly. The enemy in addition to T-41 Anti-Tank mines, has employed plastic mines which are relatively non-detectable.

2. Effective Immediately; All captured rice will be reported as being either polished or paddy rice. Reports will continue to reflect amount, location, marking of cache, and disposition of rice. Paddy rice should not be spread on the ground as a means of destruction, as it does not decay, and can be easily regathered.

3. Several recent cache and bunker complex findings have of necessity been destroyed prior to being photographed. To assist in the gathering of intelligence information, personnel who use personal cameras to take these pictures may forward them to Division G-2 for processing and will receive a copy of their personal photos in return.

4. Recent reports reveal that hand grenade safety pins have become defective over an extended period and have resulted in friendly casualties. Small unit leaders should, while in a static situation for periods of time, conduct a visual inspection of grenades within his unit to insure maximum safety and that they are being carried in the prescribed manner while on operations.

5. Intelligence Requirement exists for the following types of captured ammunition:

- a. Boxed 82mm mortar rounds
- b. Boxed 7.62mm rounds Type 566 (For AK-47)
- c. AK-47 magazines

Ammo recovery should not be permitted to jeopardize success of your operations.

G.J. STUDDARD
Intelligence Chief

Astronomical DataSunrise - 0643 Sunset - 1832
Lunar Illum 2%Significant Events

1. Recent incidents at Quang Ngai indicate the possibility of the rise of a new non-toxic chemical agent by the VC/NVA. In order to minimize the effectiveness of possible future use of this or other riot control agents, unit commanders will insure that all personnel are in the possession of a properly fitted and serviceable protective mask. Protective masks will be carried or readily available for use.
2. Any member of this Battalion desiring information concerning the registration of war trophies should contact S-2.
3. Enemy multi-strand comm wire will not be cut or otherwise tampered with. All sightings of enemy multi-strand comm wire will be carefully plotted and the location passed to G-2, 3d Mar Div by FLASH msg/telecon.
4. Any Marine interested in becoming a Scout with the Battalion S-2 Section should submit his name through Company level, to S-2. He must have six months remaining in-country and be capable of learning the Vietnamese language. Anyone who can speak Vietnamese language is encouraged to submit his name.

1. DEFECTIVE ENEMY WEAPONS

A number of defective enemy weapons have been captured in the RVN, and occasionally, no attempt has been made to report or turn in these weapons for intelligence value. All weapons will be reported and appropriate action taken. No captured enemy weapons will be tampered with, unless the tactical situation necessitates their use.

2. RADIO PROCEDURE

A recent security transmission report makes note of the fact that there have been numerous security violations during radio transmissions. Extreme caution and correct procedure will be exercised when transmitting tactical information on a nonsecure net.

Prag Order 69-68 (251600H to 261600H Oct 68).

Time Zone: HOTEL

Task Organization: No change except Company F 2/9 changed from 1/9 OpGen at 250800H Oct. 68.

1. Situation:

- A. Enemy Forces: See Annex C.
- B. Friendly Forces:

(1) 2/9 Conducts offensive operations in zone southwest of the Dakrong River.

(2) 3/9 Conducts offensive operations in zone west of 1/9 AO.

(3) Battery E, 12th Marines D/S 1/9 vice Battery D.

C. Attachments and Detachments: No change.

2. Mission: Continue to provide defense for VCB/Ca Lu complex. Be prepared to reinforce the 2nd or 3d Battalions, in their respective AO's on 60 minute notice.

3. Execution:

A. Concept of Operations: 1st Battalion, 8th Marines (=) provides security for the VCB/Ca Lu complex with two rifle companies. A third rifle company is retained in readiness at VCB as the initial element to be employed should 1/9 be committed in its mission as regimental reserve.

B. Company B(Rein): Continue assigned mission. Be prepared to reinforce 2/9 or 3/9 on 60 minutes notice, as directed.

C. Company C(Rein): Provide entire perimeter defense for VCB occupying positions vacated by Company F 2/9. Be prepared to reinforce 2/9 or 3/9 on 60 minutes notice, as directed.

D. Company D(Rein): Maintain a ready posture at VCB, prepared for employment on 60 minute notice to reinforce 2/9 or 3/9, as directed.

E. Coordinating Instructions:

(1) In the event 1/9 is committed in a helicopterborne operation, lift sequence will be: D, C, Command Post, and B.

(2) The light command group will be prepared for tactical operations on 60 minute notice.

4. Administration and Logistics:

A. Units must be self sustaining for three days.

B. Ensure all personnel have minimum halazone supply. Local water to be main source of resupply.

C. Ensure BA class V is maintained. Additional class V in accordance with unit mission.

5. Command and Communications: No change.

1. MAPS

It is requested that upon the completion of an operation all maps pertaining to that AO be turned in to the Battalion S-2.

2. ENEMY MEDICAL SUPPLIES

In recent weeks, a large amount of enemy medical supplies has been captured. Unit commanders are reminded of the following: MACV SICR U-UPF-UL431 requires that all such items be evacuated after field exploitation. MACV Dir 525-9(c), ACVDir 381-24, and the Geneva convention specifically prohibit the destruction of medical supplies.

Sunrise - 0643 Sunset - 1831
Lunar Illum 23%**1. IMITATIVE DECEPTION**

Reports have been received indicating imitative deception is being practiced in the I Corps Tactical Zone. The reports concern FM radio nets.

- a. The unknown station uses the call sign "RAINBOW", and transmits, "ALL STATIONS, ALL STATIONS, THIS IS RAINBOW, RADIO CHECK". Any unit answering is queried as to their being Army, Navy, or Air Force.
- b. All unit commanders should take the following actions:
 - (1) Authenticate transmissions
 - (2) Any suspected imitative deception should be reported immediately giving frequency, location, and call sign.

Significant Events1. Handling of Detainees

Def: A detainee is any indigenous personnel, friendly or enemy, who is held for questioning. All indigenous personnel, who are apprehended, will be designated as detainees until they are reclassified by higher authority.

2. It is directed that all detainees be turned over to an S-2 representative, unless tactically impossible. No unauthorized personnel will attempt to interrogate or befriend detainees.

1. Interrogation report on POW captured by D company 1/9 on 27 Sept 68.

Interrogation report received by this command from 17th I.T.F. demonstrates the value of intelligence information derived from POW's.

The following are a few of the pertinent facts derived from initial interrogation:

A. Biography:

- (1) Name - NGAN XUAN ANG
- (2) Rank - Cpl
- (3) Job with NVA - Rifleman

B. Unit:

- (1) 3rd sqd., 4th plt., I-10 company, H-6 bn., 28-B regiment, O-2 division
- (2) Strength - POW gave information concerning his unit's strength up to division level.

Along with unit strength, POW also informed the interrogator of his unit's AO, base area, mission, personalities, and morale. POW stated that unit morale was very low due to shortage of food.

1. It is directed that all personnel engaging in conversation with Kit Carson Scouts, ARVN interpreters, or other indigenous personnel, be constantly on guard against security leaks (i.e. plans for forthcoming operations, unit strengths, dispositions etc.). These matters are seldom required to be known by such individuals and, when it does become necessary, are disseminated selectively and only by personnel authorized to do so.

DECLASSIFIED

SECRET5. SUPPORTING FORCES.

a. ARTILLERY. On the Lancaster Trousdale Operations, artillery played a minor role as no contact was experienced by ground units of 1st Battalion, 9th Marines. Prior to and immediately after insertion of the Battalion, artillery initiated and maintained preparation fires on surrounding prominent terrain features. Subsequent fire missions were sent in primarily by the company forward observers and were defensive in nature.

From 17 September to 08 October 1968 artillery fired mission in support of operation Lancaster Trousdale North. Artillery prep fires were fired in between Arclights and Air Strikes on known enemy bunkers, artillery positions, mortar sites, and infiltration routes. Mortar suppression fires were responsive throughout the operation. Due to the mountainous terrain high angle fire was used effectively. H&I fires were extremely accurate and at times plotted to within 150 meters of the perimeter. During and after contact H&I targets were fired upon every 30 minutes. Illumination fire was kept on call and used when flare ships were not available. Artillery support throughout the operation also included preparation fires, TOT's, and normal adjustment missions on enemy targets of opportunity.

b. AIR. During operation Lancaster Trousdale air support was limited to rotary wing and aerial observers. Normal resupply and visual reconnaissance were the only air support means employed during this period.

Lancaster Trousdale North used air support extensively. Close air strikes were used for Landing Zone evacs as well as to attack and destroy enemy bunkers, mortar positions, staging areas, active trails, roads, and troop concentrations. Aerial observers were employed to control all airstrikes and perform visual reconnaissance of the battalion's entire surrounding area of operation throughout the operation. All airstrikes were conducted in support of this operation.

Rotary wing support included resupply medevac, and troop transfer movements. Helicopter gunship support was effective and telling on the enemy. The operating weather was hazardous at times during helicopter operations, but the pilots risked the weather numerous times to perform their missions. 57 TFO's missions were requested during this operation with most of them being flown. This battalion also constructed nine helicopter landing zones to accommodate rotary wing requirements.

6. INTELLIGENCE. As Operation Lancaster Trousdale began, there were not known enemy units in the 1/9 area of operations. The Khe Giang stream area and surrounding valley is flat with old rice paddies. Movement was not restricted in the flat regions or lower hills. The higher hills and mountains was typical dense triple canopy vegetation. There are no known roads in this area and the few trails found could not support any vehicular traffic. Helicopter landing zones are numerous in the valley and surrounding hills. One HLZ was built at XD 913518 to accommodate 1 CU-53 or 2 CU-46 helicopters.

DECLASSIFIED

⑤

DECLASSIFIED

SECRET

During this operation temperatures ranged from the middle 70's to high 90's. A four-day tropical storm swept the area from 4 September to 7 September halting any significant operations. Throughout this operation there were no significant findings or enemy contacts for this Battalion.

Lancaster Trousdale North area of operations encompassed the southern D. M. Z. from the 85 to 91 grid and south from the 67 to the 63 grid. Terrain encountered was rugged and hilly with thick vegetation making trafficability extremely difficult. Movement was often cross compartment, restricted to an average rate of 200 meters per hour. Avenues of approach, both enemy and friendly, were generally restricted to existing trail systems found in the area.

Stream fording points presented little difficulty during the operation due to a lack of heavy rains.

Vegetation consisted of double to triple tree canopies with heavy brush and elephant grass.

One road was observed through field glasses at XN 615680, which is not charted. On one occasion, vehicle movement was heard but the exact direction from which the sound came is unknown. The majority of trails were well used. Trails were also big enough to transport supplies by elephants.

H/LZ grids are as follows: XN 902657 (capable of landing 246's), 912642, 903637, 904635, 892638, 880640, 873647, 862640, 855650, 850648. All are capable of landing 1x46 helicopter.

It is believed that larger NV units had conducted a withdrawal as friendly units moved into the area. Contact was limited to squad and platoon size enemy which were units masking the withdrawal of other units or guarding the numerous supply caches found in the area. Enemy incoming fires were sporadic and light, consisting solely of 60 and 82mm mortars.

Enemy units, through A.O. sightings and contacts, were confirmed with K-47's, M1's, 82 mortars, (60 & 82). Totals 12.7 mm A.O. positions were sighted of which one was destroyed by close air support.

The types of uniforms used by the enemy were green and khaki utilities. The belts worn with the utilities were either a green web belt or a tan leather belt with a star on the buckle.

The age of the enemy, estimated at between 18 - 24 years of age, was determined from VI's, POW's, and uncovered graves.

The enemy used delaying and harassing tactics i.e. incoming mortar fire, probes, and occasional sniper fire. The units involved were small as previously noted and it is thought he used these delaying tactics allowing his larger units to withdraw as they avoided contact with friendly forces.

Most of the bunkers that were found were "A" framed in shape and were 4'x4'x6' built with logs 3" - 4" in diameter. All were well camouflaged and were 2 - 3 weeks old. Looking from the top of these bunkers they appear to be L shapes. These bunkers were used as living quarters only, and took approximately 3-4 days to complete. There were a few other bunkers very similar in shape with adjoining covered weapons positions such as anti-aircraft and mortar pits. These were also well camouflaged with local vegetation.

SECRET
DECLASSIFIED

①

SECRET
DECLASSIFIED

There were also numerous above ground dwellings made of thin logs that were used for eating places. They could hold 4 to 6 men at a table and were well concealed.

Cumulative enemy losses inflicted by 1/9 were 335 KI's. There was also 2 detainees. Weapons captured were 2x82 mm mortar tubes (destroyed), 1x12.7 mm .50 mg (destroyed), 3xM16's, 4xM14's 1 link type automatic weapon, 450x82 mm mortar rds., 619x60 mm mortar rds., 2x107 mm rocket rds., 19x122 mm rocket rds., 11x107 mm rds., 234x82 mm rds., 213, 82 mm rds., 266, 350xM14 rds., 7.580x12, 7 rds., 300x7.62 mm rds. Numerous documents, 782 gear and medical supplies were also captured.

WEATHER

Temperatures ranged from the high 70's to the low 100's. Winds ranged from 5 to 25 knots and precipitation was occasionally heavy due to two typhoons near the coast.

7. MISSION.

a. Lancaster Trousdale: To conduct a battalion-sized search and destroy operation to seek out and destroy all enemy forces, installations, and equipment located in the designated Tn. AO.

b. Lancaster Trousdale North: To conduct a battalion sized search and destroy operation to seek out and destroy all enemy forces, installations and equipment located in the Tn. AO; to assess the effectiveness of 'RCLIGHT strikes within the Tn. AO; to construct LZ's in order to facilitate future operations.

8. CONCEPT OF OPERATIONS:

a. Lancaster Trousdale: 1st Battalion, 9th Marines to conduct a

DECLASSIFIED

helilift to commence Operation Lancaster Trousdale and establish a series of company sized patrol bases. To seek out and destroy the enemy, his supply caches, and infiltration facilities.

b. Lancaster Trousdale North: 1st Battalion, 9th Marines lands in Landing Zone Pacific. Following consolidation 1/9 attacks with two companies abreast to seize, occupy, and defend Battalion Objective 1. Following seizure of Objective 1, 1/9 continues the attack to seize, occupy, and defend Regimental Objectives A and B.

9. EXECUTION.

On 27 August 1968, 1st Battalion, 9th Marines conducted a helicopterborne operation in conjunction with operation Lancaster Trousdale. Company patrol bases were established with Company A in the vicinity of XD 922528, Company B with the Battalion CP at XD 919520, Company C at XD 800515, and Company D at XD 913529. At 1635, the Battalion CP observed an active enemy rocket site fire 2 volleys of 5 round each. A fire-mission was called but was checked due to the proximity of friendlies.

On 28 August 1968, at 1000 Company A, found a well used trail leading northwest from XD 918529. At 1230, 1st Platoon, Company C, found 12 fighting holes at XD 875506. At XD 870500, the platoon observed a "W" cut into a tree along a trail. This mark was noticed every 150 meters leading to a possible base camp at XD 877502. An artillery mission was fired into that area with unknown results. At 1530, Company D, at XD 910529, found a possible rocket site with command detonating booby traps. 20x2.75 inch rockets were found, 10 of which had been partially destroyed by ARGLIGHTS, the other 10 were piled and rigged for command detonation. Also in that area were 3 bunkers 6'x4'x4', constructed of logs and dirt, and 2-2'x3'x2' fighting holes. The positions and ordnance were destroyed in place. At 1900, Company C received 5 rounds of 82mm mortar fire at XD 800515. Only 3 of the 5 rounds detonated.

On 29 August at 1030, Company D at XD 917526, found approximately 100 feet of multi-strand electrical wire. At 1105, Company A found 8 old fighting holes overlooking the stream at 919532. The holes were 2'x3'x4' with log and dirt overhead and inter-connecting comm. wire. 3 suspected rocket positions, 8'x12'x3' were found in the same area with each position showing holes as a triangular position. These holes appeared to be where a tripod had been placed with the front hole being 7' from the rear holes, pointing on a 1400 mill azimuth. Also, in the positions, were found a plastic lid for a canister of unknown size, a canvas fuse pouch, and a document. The positions were destroyed.

On 30 August 1968, at 0900, a patrol from Company A found 2 dud 2.75 inch rockets and a 250 lb. bomb in the vicinity of XD 920537. All were blown. At 1215 a patrol from Company D found 2 bunkers, 6'x3'x5', about 1 week old covered with dirt and logs. The bunkers were 25 meters apart with 6 gauge comm wire running between them. The bunkers were destroyed. Several trails leading to a water point in the vicinity of XD 909531 were located. At 1310, the patrol from Company D found 2 documents about 25 meters from the trail. At 1330, the patrol found 11 bunkers, 3'x5'x6', with dirt and log overheads and destroyed them. At 1330, a patrol from Company C found a possible heavy weapons site at XD 897501.

On 31 August at 2250, Company D had one Marine accidentally

SECRET
DECLASSIFIED

(4)

DECLASSIFIED

SECRET

wounded and the man was medevaced.

On 1 September 1968, 1st Battalion, 9th Marines was still employed on Operation L'AMSTER TRAMPTER in the vicinity of the ROCKPILE. On 1 September, at 0030, the men of Company B's defensive perimeter had been hearing noise and movement about their position for a period of time. One Marine left his position to check on the position to his left, which was on a down hill trail in a grassy area. The man moved 10' or less and called out to the other position with no reply. Then returned to his position. After a period of time, the Marine heard movement to his left and opened fire, resulting in one MIA. A medevac was requested for morning. At 1700, 2nd Plt. of Company F found 5 sleeping positions in a heavy brush area on hill. They were well camouflaged (XD 919523). They destroyed the positions and searched the area with negative results. They also found writing on rock (XD 924523) (black paint on dark rock). An arrow was pointing SW beside the writing which was in the local dialect.

On 3 September at 1345, a patrol from Company A discovered a large quantity of blood on the grass at XD 873525. The blood appeared to be about 2 days old. No trails were found leading away from the area. At 1600, the 2nd Plt of Company C, at XD 958550, heard movement to the direct front of their position. Small arms and M-79 grenades launchers were employed with undetermined results. At 2130, on 2 September, Company C heard movement to the front of their position at XD 94755. M-26 grenades and M-79 grenade launchers were employed with unknown results. A listening post was withdrawn and an artillery mission fired with good target coverage. Results were undetermined.

At 1000 on 3 September, Company A displaced by tactical march to Vandegrift Combat Base. The displacement was completed by 1700 and Company A was chomped to operational control of the 1st Battalion, 9th Marines.

During the period 4 September through 6 September, there were no significant events. I Corps Tactical Zone was struck by a typhoon during this time.

At 1200 on 7 September, 2nd Plt of Company D, while on patrol at XD 998501, found a large gun pit measuring 25' by 15' by 4'. Forming a perimeter around the gun pit were twenty bunkers measuring 5'x4'x3' each and covered with dirt and logs. The positions, partially destroyed by air, had been rendered ineffective. At 1400, the same unit found a trail running NE to SW at XD 901504. Along the trail was a marker carved in a tree and an arrow pointing to the SW. The trail was two to three feet in width and had been cleared of undergrowth enabling easy and rapid movement. Ten "L" shaped trenches were discovered at XD 901504, measuring 5'x15'x2'. These trenches formed a perimeter 20 meters to the side of the trail. Five bunkers, 4'x5'x2', were inside the perimeter. They were covered with three feet of dirt and logs. The trail was followed to XD 900506, where four small perimeters were found, consisting of trenches and bunkers. These positions were destroyed.

On 8 September Company C was chomped to operational control of the 2nd Battalion, 9th Marines.

At 1015 on 9 September, Company B at XD 877514, found 9 reinforced

DECLASSIFIED

①

DECLASSIFIED

SECRET

bunkers, 6'x3'x4', with an overhead of dirt and logs. The bunkers contained 18 82mm mortar rounds, 3 sets of mess gear, 1 RPG booster charge and 1 bag of rice. All were destroyed. At 1200 on 9 September, elements of Company T found an old trail at XD 875530 which had recently been used. Pannisters had been constructed along the steep portions of the trail. At 1300, Company B at XD 875520, found a cooking hut and two other huts of unknown purpose. They appeared to be three to five months old. Near that same area some cooked rice and a bloody battle dressing were found. At 1400, Company B found what appeared to be a small base camp at XD 875518. Along the trail were fighting holes approximately 3 to 4 months old, with numerous footprints around them. The holes measured 24" x 18" x 12".

At 0845 on 10 September, a patrol from Company T at XD 873520, found a cave five feet deep and three feet high. Inside the cave was a sleeping area with large leaves on the ground. Some fresh rice and a cup of coffee-like substance were found in the cave. At 1100 elements of Company B found several "U" shaped bunkers 8'x3'x4', on a slope at XD 864524 with well prepared fields of fire. At 1430 on 10 September, a patrol from Company D found a trail at XD 875515. While checking the area, the patrol heard a shout that sounded like an alert and they requested a 60mm mortar mission. Upon checking the area, the patrol found two bunkers and two huts. At 1445, Company T sighted one man running down a trail at XD 876519. The man wore trousers but no shirt nor did he appear armed. Grenades were found along the trail. At 1530, Company B at XD 872523 found an abandoned camp site which contained the following gear: a blue sweat shirt, pieces of a poncho, six empty cans of which two were "WINTS" tomato cans, two grenades, one ID card, three NV belts, four empty rice sacks, six 130 cal. machine rounds, one ammunition pouch, three blood stained battle dressings, and one nurse pack with a red cross on it.

On 11 September, Company B and U.S. Company were helilifted to VCP. Company A returned to Operational Control of the 1st Battalion, 9th Marines.

At 0730 on 12 September, the 1st Battalion, 9th Marines (-), departed VCP by motor march to Camp Carroll. At 0900 Company D was choppered to Operational Control of the 9th Marines. At 1200 on 12 September, 1st Battalion 9th Marines (-) choppered to Operational Control of the 3d Marines. At 1400, Company C arrived by helicopter at Camp Carroll, and returned to Operational Control of the 1st Battalion, 9th Marines. At 1600 the Battalion assumed Operational Control of the 82mm mortar platoon of 3d Battalion, 3d Marines. At 1800, 1st Battalion, 9th Marines assumed the defense of Camp Carroll, Khe Gio Bridge, Thon Son Lam Route #9 position, and the Dong Ha Mountain OP. At 2215, the perimeter at Camp Carroll received 12 82mm mortar rounds from YDC75596. No casualties were taken and a counter mortar mission was fired.

At 1200, on 13 September, Company C found 40 81mm WP and Illumination rounds and four 3.5 rocket rounds at VD 066534. At 1400, Company B at Thon Son Lam received 5 rounds of mortar fire from XD 927546. A counter-mortar mission was fired. At 1500, Company A on the Dong Ha Mountain observation post sighted 20 NV at VD 051635. An artillery mission was fired resulting in 15 NV confirmed KIA.

DECLASSIFIED
SECRET

DECLASSIFIED

SECRET

At 1100 on 14 September, the 1st Battalion, 9th Marines was relieved of the security of Camp Carroll and the surrounding area and returned to Vandegrift Combat Base. Operational Control returned to the 9th Marine.

On the morning of the 15th, Company D was helilifted to Vandegrift Combat Base and returned to the control of the 1st Battalion, 9th Marines.

On 16 September, the Battalion maintained a ready posture at Vandegrift Combat Base.

At 0900 on 17 September, the 1st Battalion, 9th Marines conducted a heliborne assault into a landing zone just south of the Ben Hai River. The Battalion's mission was to search out and destroy or capture the enemy and his supply caches. The lift was completed to LZ Pacific (XD 907676) at 1200.

At 1210 on 17 September, Company A sighted 5 enemy troops at XD 913683. Elements of Company A engaged the troops with small arms and an artillery mission was requested immediately. Forward observers reported that there was excellent coverage of the target area and 25 NVA were later confirmed. Due to numerous elephant tracks and droppings, it was probable that the enemy had utilized these animals in this area. The tracks appeared to be one or two weeks old. At 1340, Company B sighted 4 enemy troops at XD 910681 moving from west to east towards the Ben Hai River. Snipers fired upon the enemy and artillery was employed, killing the 4 NVA. At 1410 Company A observed 6 to 8 enemy at XD 913683. Small arms and artillery were employed and 2 NVA KIA were confirmed. At 1410, a sniper attached to Company B, took three NVA troops under fire at XD 909684. One NVA KIA was confirmed. At 1450 on September 17, elements of Company B, observed enemy troops in a bomb crater at XD 908689. Small arms were utilized with one NVA KIA confirmed. At 1500 several NVA were sighted to the north of the Ben Hai River. Four flights of fixed-wing air support were run on the target. Three bunkers were destroyed and one secondary explosion was observed. Twenty-five NVA KIA were confirmed. At 1625 an Aerial Observer called a mission on 10-12 bunkers, buildings and a trail network at XD 901656. A fixed-wing mission was run resulting in 12 bunkers destroyed. At 1915 on 17 September, the Battalion CP located at XD 918687 received 15 rounds of 82mm mortars. This resulted in 4 USMC KIA and one civilian reporter KIA. One flight of fixed-wing and artillery were fired on XD 918687. At 2345, one 82mm mortar round impacted at Company C's position. Three USMC KIA resulted.

At 1630 on 18 September, elements of Company C found one "butterfly" mine at XD 917664. Engineers blew the mine in place. At 1900, the Battalion's CP at XD 913679 received 25 rounds of 82mm mortar fire from XD 922678. Air support engaged the target with 500 lb bombs and napalm. It confirmed the destruction of one .50 caliber machinegun and one 82mm mortar tube. At 2110, Company B, at XD 916667, received 8 grenades. Grenades were thrown in return; results however, were unknown. At 2150 while firing mortar suppression fires, a secondary explosion was observed. At 2150 a jet flying north to south between the 90 and 92 grid lines was fired upon by a suspected 23mm radar controlled gun. The weapon was believed to be on a tracked vehicle on highway #102. It seemed likely that a base camp was also in that area. Twenty TFO's and torchlights

DECLASSIFIED

SECRET

DECLASSIFIED
SECRET

were requested for 19 September.

On 0500 on 19 September, one explosive device was thrown into Company B's line. M-26 grenades were thrown in return. At 0817 the Battalion at XD 918667 received one 155mm artillery round from a friendly battery. One Marine was wounded. Throughout the day patrols from the Battalion found old bunkers and huts. There was no sign of recent activity, nor was equipment or ordnance found. At 1700, the Battalion CP, at VN 919603, received two 82mm mortar rounds. Air was employed on grid XD 922678 and two 82mm mortar tubes and one bunker were destroyed. Ten NVA KIA's were confirmed.

At 0640 on 20 September, the Fire Support Coordinator obtained a sound sighting of a suspected enemy tracked vehicle. Two flights of air support were run, but results were undetermined. Patrols continued throughout the day, but discovered nothing of significance.

At 1030 on 21 September, air strikes were run on XD 904643. One large secondary explosion was observed and two fighting holes and several bunkers were destroyed. At 1345, heavy bunker complexes were found at XD 901656 and XD 905659 by Company C and D, respectively. Deliberate searches of each area were conducted with good results. Company C found 350 bunkers and storage areas. Fighting holes were near each bunker. Communication wires connected the bunkers, fighting holes and storage areas. 3000 pounds of rice and 300 lbs of rock salt were found, but many of these were unserviceable. A few documents were found and forwarded to intelligence personnel. Leading to the bunker complex was a trail to the top of a nearby hill. Steps had been cut into the trail and a bamboo bannister ran along side. At the top of the hill was a bunker with good observation of the surrounding area. Company D found a mass grave at XD 903660, which contained twenty-four bodies. The bodies appeared to be 4-5 days old. Another grave was found nearby containing 96 more bodies. Also a small bunker complex consisting of a command post, a mess bunker, and 15 small living bunkers were located. Tables and chairs had been constructed on the top of the bunkers with camouflaged roofing above. Well worn trails connected all the positions. In a discarded pack along one of the trails were found a personnel letter, an ID card, and other documents, all of which was forwarded via intelligence channels. Total enemy KIA confirmed were 120.

At 0930 on 22 September, a patrol from Company B found a bunker complex at XD 910656. The bunkers measured approximately seven feet by five feet by six feet. Each had a patio with a thatched roof, tables and chairs. There were ten small kitchens with cooking materials left inside them. There appeared to have been a neat and orderly withdrawal as there was little gear left behind. A few of the bunkers had been destroyed. Also significant, was the absence of fighting holes in the surrounding area. The following gear was found: 1 S&S (serial # 295313), 5xM47 magazines, 200xM47 rounds, 1 bandolier, 1 grenade, 3 cans of rifle oil, 3 cooking pots, 1 water can, 9 packs, 3 E-tools, 1 canteen and cover, 1 compass, 4 hats, 5 lbs of salt, 3 machetes, 15 ponchos, 14 utility shirts, 13 utility trousers, 3 sweat shirts, 5 pairs of socks, several undershirts and shorts, 3 covers, 2 belts, assorted medical gear, \$10 of NVA currency, 2 gas masks and personal toilet articles.

DECLASSIFIED
SECRET

At 1600, Company C at XD 91656, found 75 more bunkers. They were empty of gear.

At 1700 on 23 September, Company B found a bunker complex at XD 910656. It consisted of approximately 100 covered bunkers, 50 open fighting holes, 15 living bunkers, and 1 storage bunker. A well developed trail system ran throughout the area. The storage area contained only 3x100 lbs of rice. The entire area was well camouflaged from aerial observation. The area had been thoroughly policed prior to its evacuation. At 1730 Company B reported finding 50 grass huts and several bunkers at XD 912654. 1500 lbs. of rice and assorted clothing had been left in the area.

At 0945, on 24 September, Company A found 13 one-man bunkers at XD 911653. They appeared to be 3-4 weeks old. At 1045 Company B found a thirty bunker complex at XD 911652. 250 lbs. of rice, 1 helmet, 1 gas mask, and 30x7.62 rifle rounds were found in the area. Several tables and chairs were also found. Near the area was an observation post in a tree. The words "Ta Ban Lon Tri" were written on the tree. A scout dog alerted the patrol but the area was checked with negative results. At 1200 a patrol from Company A at XD 916654 found a series of bunkers containing medical supplies, mess facilities and assorted equipment. A total of 350 lbs. of rice was found. At 1600 elements of Company A found 4 bunkers at XD 916654. In these were found 10 lbs. of salt, 250 lbs of rice, 6 cans of water, and a small medical kit. At 1800 Company D found 2 graves at XD 916643 containing an estimated 24 bodies each. At the head of one grave was written NGUYEN VAN THUNG 9/9".

At 1100 on the 25th of September, Company C at XD 927645, found an ammunition storage area 20 meters off a well used trail. The following ordnance was discovered: 616 60 mm mortar rounds, 307 82mm mortar rounds, 233 RPG-2 rounds, 218 RPL-7 rounds, 29 82mm rocket round, 147 anti-tank rounds (mines), 1,000 12.7mm rounds, and 246,000 7.62 rounds. 1800 lbs of rice was stored nearby. At 1330 the same day, Company B, while destroying an ammunition cache, at XD 927645, was taken under fire by enemy troops hidden in bushes. The unit returned fire and called in artillery support. The Company exploited the contact resulting in 7 NVA KIA confirmed. At 1430, Company B at XD 911648, found 50 bunkers, 60 .50 caliber machine gun positions and 3 mortar pits. 1,000 rounds of 12.7mm ammunition, 2 107mm anti-tank rockets with carrying cases, 1 82mm mortar round, 10 helmets, and 2 pairs of boots were found in the area.

At 0900 on 26 September Company B discovered 7 shallow graves, each containing 1 body, at XD 916641. They appeared to be 7-10 days old. At 0930, the same unit found a bunker complex at XD 917604. The bunkers were built in an A-frame measuring 3'x4'x6'. A kitchen was also found. Fighting holes surrounded the bunkers and trails connected the positions. 4 grenades, 300x7.62 machinegun rounds, and 20 new gas masks were found. At 1030 elements of Company B discovered a wounded NVA while searching the bunker complex. The prisoner had been wounded only slightly, but the nature of his wound had prevented him from walking.

DECLASSIFIED

DECLASSIFIED

SECRET

He was hiding among the trees and was without 'what', weapon, equipment or clothing. He made no attempt to escape and was returned to the S-2 for questioning and evacuation. At 1100 on 26 September, a patrol from Company A at XD 911645, found 60 bunkers, 30 fighting holes, 2x82mm mortar rounds, 100 lbs of rice, 4xM47 magazines, 100 rounds of 7.62mm ammunition, and medical supplies made in France, Hungary and Czechoslovakia. Written over one bunker were the words "Dat Ukirng Nghday Cam Uao". At 1400, Company C found an "L" shaped bunker 5'x6'x3', at XD 913644 with 50 boxes of .50 caliber machinegun ammunition. At 1530, a patrol from Company B found 4x 82mm mortar fuses at XD 908642.

At 1115 on 27 September Company B found 4 graves at XD 916641. Each grave contained one body and appeared to be about 7-10 days old. The following gear was found near the grave: 2 grenades, 100 small arms rounds, 280x12.7mm rounds, 3 NV belts, 1 canteen and 1 gas mask. At 1135 a patrol from Company D spotted one enemy moving towards their position at XD 891652. A Marine fired at the NV soldier, wounding him in the hip. He was then taken prisoner and evacuated. At 1145, a patrol from Company D made contact with a platoon sized force at XD 88654. The enemy employed automatic weapons, grenades and small arms. The patrol returned fire with their organic weapons. Two reinforced squads were sent to assist and their arrival enabled the unit to assault the enemy positions. The enemy withdrew and the patrol pursued by fire. One USMC KIA and 4 USMC WIA resulted. At 1230, Company A found 2250 .50 caliber rounds at XD 914646. At 1300, Company B found a bunker complex running south at XD 910640. One NV was seen running to the southwest of the complex. 2 explosions were heard and 2 NV were observed running from the area. Both were killed by small arms. They wore utilities and helmets. One M-47 rifle was captured. Approximately 10 NV were then sighted moving from the area, where the first NV had been seen. Marines fired upon them, wounding 4. At 1315, a heavy automatic weapon fired on a helicopter from XD 905635. Air, artillery and 81mm mortars were fired on that area with unknown results. At 1330 on 27 September, Company B while on patrol at XD 910640, heard movement in the bushes and observed 2 NV moving towards their position. One Marine fired his .45 pistol at both. The closest NV fell at the Marine's feet still alive and trying to shoot his M-47 rifle. The Marine took the NV's rifle from him and killed both enemy soldiers with it. At 1330, elements of Company B received small arms and 60mm mortars at XD 911641. They returned small arms fire and requested 81mm mortars and artillery for support. The patrol intercepted 6 NV and killed 2 and wounded 4. At 1440, a helicopter was hit with automatic weapons fired from an unknown location. At 1500, Company B, while moving south on a well-used trail at XD 888642, was taken under fire from 1 automatic weapon and small arms. They returned fire with organic weapons and confirmed 2 NV WIA's.

At 1530, a patrol from Company B found 4x 82mm mortar fuses at XD 908642. The enemy employed automatic weapons, grenades and small arms. The patrol returned fire with their organic weapons. Two reinforced squads were sent to assist and their arrival enabled the unit to assault the enemy positions. The enemy withdrew and the patrol pursued by fire. One USMC KIA and 4 USMC WIA resulted. At 1230, Company A found 2250 .50 caliber rounds at XD 914646. At 1300, Company B found a bunker complex running south at XD 910640. One NV was seen running to the southwest of the complex. 2 explosions were heard and 2 NV were observed running from the area. Both were killed by small arms. They wore utilities and helmets. One M-47 rifle was captured. Approximately 10 NV were then sighted moving from the area, where the first NV had been seen. Marines fired upon them, wounding 4. At 1315, a heavy automatic weapon fired on a helicopter from XD 905635. Air, artillery and 81mm mortars were fired on that area with unknown results. At 1330 on 27 September, Company B while on patrol at XD 910640, heard movement in the bushes and observed 2 NV moving towards their position. One Marine fired his .45 pistol at both. The closest NV fell at the Marine's feet still alive and trying to shoot his M-47 rifle. The Marine took the NV's rifle from him and killed both enemy soldiers with it. At 1330, elements of Company B received small arms and 60mm mortars at XD 911641. They returned small arms fire and requested 81mm mortars and artillery for support. The patrol intercepted 6 NV and killed 2 and wounded 4. At 1440, a helicopter was hit with automatic weapons fired from an unknown location. At 1500, Company B, while moving south on a well-used trail at XD 888642, was taken under fire from 1 automatic weapon and small arms. They returned fire with organic weapons and confirmed 2 NV WIA's.

DECLASSIFIED
SECRET

At 1540, Company B received small arms fire from 892654, returned fire but results were unknown. Contact was broken and no casualties were reported.

At 0930 on 28 September, Company D found one partially destroyed SKS rifle at XD 895. At 1040, one enemy was observed at XD 901635, and artillery fired with undetermined results. At 1330, Company B found numerous bunkers and "H" frame huts at XD 908640. Also found were five grenades, one RPG-2 round, eating utensils, a gas mask, a wallet and ID card, and 6 blocks of demolitions. At 1500, an aerial observer controlled fixed wing support of the destruction of five bunkers, at XD 918546, containing fifty 82mm mortar rounds, 100 .50 caliber rounds, and grenades, four M-47 rifle magazines, one canteen and cover, one bottle of insect repellent, two battle dressings and one piece of currency, which had been found by Company B.

At 1140 on 29 September, Company B received fifteen rounds of small arms fire from 892654. Small arms and 60mm mortar fire were returned with unknown results. At 1230, a patrol from Company A observed a squad size unit of NVA moving towards their position at XD 904637. They were on line and appeared to be looking for something. The enemy scattered when fired upon. At 1530, a Marine from Company A observed a bush moving 20 meters from his position down a steep incline. When he approached the area the bush continued to move so he fired one round at it. A search of the area revealed footprints only. At 1900, an observation post from Company A, at XD 911642, made contact with unknown size enemy force. The OP was reinforced shortly thereafter and came under a large volume of small arms fire and RPG rounds. One Marine was wounded as the enemy attacked from both the east and west flank. The contact was estimated to be a platoon size unit. Marines held their position and returned fire. Artillery and mortar fire were employed and the action subsided after thirty minutes. Marine casualties were two USMC KIA and seven USMC WIA. Company A confirmed one WIA. Throughout the night the perimeter received sporadic fire and a flare ship was on station throughout the night.

At 1030, 30 September, Company A saw enemy troops withdrawing from the area. No further contact was made that day.

On the 1st of October, 1st Battalion, 9th Marines was employed on Lancaster Trousdale North, just south of the Ton Koi River. At 1230 Company C while sitting in a defensive position received approximately 25 82mm mortar rounds of incoming, from grid XD 865642. An artillery mission was called in with good coverage of target. Results were one friendly WIA. At 1500, an AC noted 3-4 NVA were observed at XD 905639, running to a new bunker complex. Also, two NVA were observed at XD 911642 resulting in 6 NVA KIA confirmed. At 2050, Company C while firing night defensive fires observed one secondary explosion. Later another artillery mission was called with two more secondary explosions at that position.

On 2 October at 1100, three flights of fixed wing were run on grid XD 911642. At XD 911644, there were three bunkers destroyed along with a trail junction at XD 906639. At 1900, Company A received approximately twenty-five 60mm mortar rounds from XD 911638.

DECLASSIFIED
SECRET

9

DECLASSIFIED

SECRET

A fire mission with 81mm and artillery was fired with good coverage of the target. At 1920, Company A, at XD 903637, heard movement outside their defensive perimeter. Artillery and 81mm mortar missions were called and the movement ceased. At 2130, Company D spotted a figure moving between two trees headed down a path about 25 to 30 meters out. Five rounds of M16 small arms was fired and the figure disappeared.

On 3 October at 1300, the point platoon of Company F saw two enemy troops moving west on a trail. The platoon pursued the enemy troops by small arms and M-26 grenades. The area was checked with negative results. At 1730, Company A found three bunkers with grass covers, 4 ft. by 5 ft. by 3 ft. and one observation post platform in a tall tree. Also noted, was fresh blood along a trail at grid XD 869649. The bunkers were searched with negative results.

On 4 October at 0930, 2nd Platoon of Company D, at XD 877642, found five bunkers, 3 ft. by 4 ft. by 4 ft., covered with logs and dirt. The bunkers were spread out within 50 meters. One 82mm mortar pit was found measuring 5 feet in diameter and 4 feet deep. The pit contained 20 rounds of 82mm mortar rounds destroyed by an artillery round. The trees in the area were cut away for clearance. Also found were four rocket sites (8ft by 3ft by 3ft), facing south. The site contained 40 empty rocket canisters. At 1700, Company A heard movement; estimated 2-3 people moving away from them at an azimuth of 270 degrees, heading between grids XD 854647 - XD 853648. An attempt was made to call in an AC and supporting arms with negative results.

On 5 October at 1230, Company A, at XD 850648, found 10-15 empty fuze cans and numerous fuze well cans for 60mm mortar. They also found 1 fresh foxhole and 1 60mm mortar pit at XD 852648. Movement was heard at XD 851648, the area was checked out with negative results.

On 6 October at 1500, Company A, while on patrol found a trail running east to west (XD 850646) that was not recently used. They also found 1 slit trench, 1 bottle of white pills (500 with "W" stamped on each one), at XD 845646, they also found 2x M-47 rounds about a month old.

On 7 October at 0900, helicopters were taking small arms fire from XD 867662. An artillery and 81mm mortar mission was fired with good coverage of target. Company A and H&S Company were heli-lifted to VCB. The remainder of the Battalion was lifted into VCB, the following day, to complete the operation.

11. Administrative Matters:

a. Supply: During this reporting period all resupply was accomplished by helicopters. Double and triple pennants were used to put in resupply in the thickly vegetated mountainous areas where helicopters could not get close to the ground. Recovery of the resupply nets in this terrain resulted in using plastic water bags versus metal water cans. This technique of resupplying water was

UNCLASSIFIED

DECLASSIFIED

SECRET

unsuccessful as most of the water bags broke when landed. No other problems were encountered during this operation.

b. Maintenance: There was no maintenance assessment during this operation.

c. Treatment of Casualties, Evacuation and Hospitalization: See Medical paragraph f.

d. Transportation: All troop transfers were adequately handled by three helicopters.

e. Communications: Overall communications during this operation were good. Terrain and weather adversely effected comm at times, although not seriously. KY-38 performance was marginal and at times lost during periods of rain and humid weather. Minor frequency overrides were corrected by liaison to higher echelons.

f. Medical Evaluation: The major medical problems encountered were fevers of undetermined origin, immersion foot, and pyoderma (jungle rot). Follow-up on the fevers has shown that the majority of these men turned out to have malaria. Early evacuation from the field of all FUC's is essential in these endemic area for malaria since most of the malaria deaths can be prevented by early treatment.

Immersion foot is going to be a more serious problem with the upcoming monsoon. Every Marine should have an extra pair of socks in his pack (preferably wrapped in plastic so they will stay dry), a can of foot powder, and silicone ointment.

The pyoderma can be best handled by early care of minor cuts and abrasions. (OPERATION LANCASTER TROUSDALE).

g. The only unusual medical problem encountered on this operation was an outbreak of Salmonellosis and Shigellosis which resulted from contaminated water sent to the field. Initial difficulty stemmed from the inadequate supply of tetracycline and anti-diarrheal medicines needed to treat those affected (most of the Battalion). When supplies became available the problem was readily brought under control.

Several troops sustained what appeared to be some type of mite bite with resultant papular eruptions. These are currently being treated with steroid ointment and are responding.

FUC's are still with us, most turning out to be malaria, Company C is under treatment for worms. (OPERATION LANCASTER TROUSDALE NORTH).

Commanders Analysis: Assignment of a new Battalion Commander and a major turnover of Battalion staff personnel subsequent to termination of this operation preclude submission of a comprehensive analysis of Lancaster Trousdale. Two significant results however are believed to be most significant:

a. That the campaign proved extremely productive in the destruction of vast quantities of enemy supplies, equipment and materiel. Although not decisively impaired, the enemy will require expenditure of inestimable man-hours to re-develop his support base south of the Ben Hai River prior to resumption of meaningful operations in the Lancaster AO.

b. That insertion of a battalion sized force in the DMZ and its subsequent sustained overland operations in the mountainous area contiguous thereto, unquestionably served to prove that such units, adequately supported by supporting arms and helicopter resupply, can project the offensive into any geographical

UNCLASSIFIED

SECRET
