9. MISCELLANEOUS.

- a. Elements from Companies F & G were rotated back through the BMT CP for showers and hot meals.
- b. CO, BMT 9 made liaison with the head buddhist priest at the orphanage at coord 00569 2, in the village of Duong Son (1). The purpose of this visit was to inquire into assistance needed by the orphanage and the villagers. It was determined that medical supplies and assistance was their main concern. A medical team was dispatched to study the situation and lend assistance. A team of Engineers also visited the village to make a road and bridge recon.
- c. Liaison. BMT 2/9 continues to establish liaison with Regional and Popular Forces in the area.

SITUATION REPORT No. 7

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 150001 - 152400H July 1965

3. GENERAL SUMMARY. Company E occupies defensive positions in the security of BLT 2/9 CP. Company F occupies same positions in vicinity of the village of Duong Son (1). 1st Plt, Co F joined its parent unit from BLT 2/9 CP security. Company G occupies same positions, with an additional mission of providing a security platoon for the ammunition supply dump at coord 987733. BLT 2/9 occupies an outpost at the north end of the bridge at coord 998708. BLT 2/9 CP at coord 998723.

4. ACTIVITIES.

a. Operations.

- (1) Company E elements and Companies F and G in vicinity of the Village of Duong Son (1).
- (2) Company F received sporadic sniper fire throughout the early morning hours. They also saw movement of personnel in the area and requested illumination on that area.
- (3) Company G received small arms sniper fire at approximately 150840H.
- (4) Company H. None.
- (5) 81mm Mortar Plt fired 2 missions of illumination on F Co position. Artillery fired 1 mission of illumination on Co F position.
- (6) Attachments. No change.

b. Patrols.

c. Ambushes. None.

5. CHANGES TO LOCATION OF HEADQUARTERS. No change.

6. CHANGE TO OR ESTABLISHMENT OF NEW CP's. No change.

7. TRAINING. None.

8. PLANS. Two reinforced companies will occupy and defend the village of Duong Son (1).

91 MISCELLANEOUS.

a. On the afternoon of the 14th of July, after the village of Duong Son (1) had been initially contacted, medical aid was offered. Three corpsmen and a doctor set up sick call in a schoolhouse. About 20 patients were seen, primarily children. Skin infections, eye infections and one severely infected foot were treated with the facilities available.

During the village search today, sick call was again set up and about 50 patients were seen, including almost all the 20 seen the previous day.

Infections are satisfactorily treated. People with more complicated problems like "fever", "weakness" or failing eyesight could not be handled because of translation difficulties and lack of the proper examining tools and medicines.

b. At 150910H, 1 platoon of RVN troops, a 6 man special security team from the Da Nang special sector, joined by an intelligence psychological warfare team from the RVN Popular Forces, passed through the village of Duong Son (1), using loud speakers, told the people of the village to go to the schoolhouse, instructed them concerning the reason the Marines were in their village. There was no attempt to force anyone to attend. Approximately 250 men, women and children attended (mostly children). Utilizing the Battalion CO's knowledge of french, the Battalion CO conversed (using a Marine interpreter) directly with the special sector security chief who was giving instructions to the people of the village simply stating as follows:

"The Vietnamese Government has asked us to leave our homes and families to come 7,000 miles to help you and your fight against the Viet Cong. Before we can defend your village, we must have both your help and assurance that Viet Cong are not in your village and that we will not be shot in the back as we defend the village from the outside. To give us peace of mind, we would like your help in searching your homes and your lands to destroy Viet Cong booby traps, punji traps, etc. We do not want to destroy your property or your homes. We do want to kill or injure anyone, so if one person from each house will go back to his house, we will begin the search. While the rest are waiting here, we will bring medicine and trained medical people to assist and advise you with your health and hygiene problems. In addition, I want to assure you that we will repair the damage that we have done to the graves of your ancestors and to your rice paddies. If you are ready to begin and ready to

help, we are ready to go and destroy the Viet Cong devices. I want you to know that your own soldiers will conduct the actual search, and we are only here to protect and defend them during the search.

Following this, the people returned to their houses where they assisted the RVN soldiers in the location and destruction of punji traps, man traps, tunnels and booby traps. The search was completed with no incidents and no expenditures of ordnance. The Security Chief indicated that scout dogs would be required before complete assurance of a thorough search. At the completion of the search, RET 9 Frag Order 2-65 was received by CO, BLT 2/9 who had been present during both the announcement to the people and the search of the village. On basis of directives contained in this order, troop units already on the ground were repositioned to occupy and defend the village. This was done with an RVN Popular Forces platoon attached to us by Frag Order 2-65 and who had conducted the search. Actions required by Frag Order 2-65 were completed by 1900 15 July 1965.

2. PERIOD COVERED. 160001 - 162400H July

3. GENERAL SUMMARY. Companies E (-), F, and G continue to occupy defensive perimeters in and around the village of Duong Son (1), with the defense oriented to the south-east and south. All companies continue to receive sporadic sniper fire from without the perimeter. Company E received 1 WIA with a minor flesh wound from small arms fire.

4. ACTIVITIES.

a. Operations.

(1) Company E. None

(2) Company F. Utilizing one reinforced platoon, Company F provided security for a Regional Force Platoon, (Da Nang Special Sector) conducting a clear and sweep operation in the village of Duong Son (1) 161300-161700H July 1965. It is noted that subsequent to the sweep of the same village by Co H elements on 15 July 1965, that all sniper fire from within the village had ceased and that the village has since been quiet from within.

(3) Company G. None.

(4) Company H. None.

(5) Fire Support. Btry E, 2d Battalion, 12th Marines. Company E, at 160920H, subsequent to the receipt of extensive sniper fire from the village of Duong Son (2), requested that an artillery fire mission be conducted on snipers in a house at coord 994681. The mission was approved by all monitoring agencies and the mission was fired utilizing 10 rounds of HE ammunition, with good effect achieved and no casualties observed. The volume of sniper fire decreased.

(6) Enemy situation. Received heavy sniper fire from Duong Son (2) (coord 994681) and Cam Ne (2) (Coord 990687) throughout the period covered. Company G fired on 2 VC at coord 994685 with sniper scopes and found a great deal of blood indicating at least one hit on a patrol sent out at daylight. A poncho and ammunition were also recovered.

Heavy sniper fire received from Duong Son (2) (coord 994681) was silenced by 106 fire. Casualties unknown. Company E spotted a sniper at coord 995680 and shot the sniper out of a tree. Villagers recovered the body and any weapons. Estimated VC losses: 1 KIA, 2 WIA.

(7) Attachments. No change.

b. Patrols. None.

c. Ambushes. None.

5. CHANGES TO LOCATION OF HEADQUARTERS. No change.

6. CHANGE TO OR ESTABLISHMENT OF NEW CP's. No change.

7. TRAINING. None.

8. PLANS. Companies F and G will occupy and defend village of Duong Son (1) to 360 degree perimeter. Company E (-) moves from present position back to vicinity of CP and prepares for subsequent mission.

9. MISCELLANEOUS.

a. BLT 2/9 BAS treated 36 civilians, the majority of these being skin diseases. One doctor and staff treated 3 civilians and ten RVN troops in the village of Duong Son (1).

b. Delivery of Class I, IV, V and water to Companies E, F, and G was accomplished by utilizing a convoy of M-274's. In order for this convoy to reach the village of Duong Son (1), a hasty bridge had to be constructed at coords 999700 out of sandbags.

c. CO's RLT 9, BLT 2/9 with designated staff officers visited and inspected the Duong Son Perimeter. The CO and XO of BLT 2/9 made liaison with Ngu Mui, the Canton Chief, and Ong Van Qua, the Canton police chief for the purpose of coordinating the efforts of the sweep and clear operation, scheduled 16 July 1965.

CONFIDENTIAL

SITUATION REPORT No. 8-7

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED. 170001 - 172400 July 1965.

3. GENERAL SUMMARY. At approximately 2300, both Companies E and G located to the south and west of Duong Son (1) received small arms fire, in addition to three rounds of 60 mm Mortar fire. Three WIA's resulted from one of these 60mm mortar rounds. It is believed that the enemy fire was coming from Duong Son (2). Illumination was requested and furnished by artillery until a flare plane arrived on station to provide illumination. Approximately one hour later, Company G received one more round of 60mm mortar fire. HE fire was approved for 81mm Mortar and artillery, but CO, BLT 2/9 elected to withhold using HE. Instead, a section of mortars from 2d Plt, Co G, 3d AT Bn fired 3 rounds at suspected 60MM Mortar positions. All night firing devices and TPSY-21 were reactivated when the flare plane ceased dropping flares at 170051H July.

Twice the TPSY-21 picked up targets south and west of Gelf Company's positions, vicinity coords 991683 and each time was fired upon by machineguns and 3.5" rocket launchers. Beginning at 170200H July, both Companies E and G heard rattling sounds in the village of Duong Son (2) as if fans were being beaten. Artillery illumination was again requested and received over the village of Duong Son (2). M-79 fire was delivered by Company E at coords 006688.

Company G was resupplied with ammo by helicopter. Ammo requested was 3.5" rocker mixed 50/50 (HE and W.P.), .50 Cal spotting rifle, M-79 and Machinegun linked .30 Cal.

All Companies - E, F , G reported quiet at 170230H July.

Both Companies G & H supported a sweep and clear operation conducted by ARVN troops. Company E returned to the Battalion CP upon completion of the sweep and clear operation.

4. ACTIVITIES.

a. Operations.

- (1) Company E. None
- (2) Company F. None
- (3) Company G provided an ARVN platoon with a reinforced squad for a sweep and clear operation of the village of Duong Son (1).
- (4) Company H provided an ARVN Company (-) with a reinforced squad and one interpreter for a patrol along the north side of Song Cau Do River, GS's 9770, 9870, and 9970.
- (5) Fire Support. Btry E, 2/12 fired two missions at 0215 and 0230; total of 11 rounds of illumination at coord 986721 and 995677.
- (6) Attachments. No change.
  - b. Patrols. None
  - c. Ambushes. None

5. CHANGE OF LOCATION OF HEADQUARTERS. No change.

6. CHANGES IN LOCATION OR ESTABLISHMENT OF NEW OP's.

7. TRAINING. None

8. PLANS. Continue to improve present positions and standby for subsequent operations.

9. MISCELLANEOUS.

- a. BLT 2/9 BAS treated 63 civilians, the majority of these being skin diseases. One doctor and staff treated 18 civilians in the village of Duong Son (1).
- b. Enemy Situation. At approximately 2300, 16 July 1965, VC forces estimated at one local force company took Marine positions under fire with a 60mm Mortar, one BAR, approximately 3 MG's (Thompson) and intense small arms fire. This fire continued with only short cessations for approximately 3 hours.

Approximate disposition of the VC company was as follows:

One (1) platoon Cam Ne (2) coord 991689; one (1) platoon Yen Ne (2) coord 991683; one (1) Plt Duong Son (2) coord 993688; and one (1) squad at Quang-Chau (2) coord 005688.

The District Chief of Duong Son (1) 999688 indicates that the 60mm Mortar was located in Duong Son (2) 995678 and that this was related to him by friendly villagers. This source indicates the force with which this Battalion has been engaged is a local VC force rather than VC hardcore. This source as yet can furnish no estimates of VC casualties.

The attack which began at 162300H was well coordinated. Mortar fire apparently triggered the attack and was immediately followed by intense small arms fire from the south, east and west. Light signals were reportedly observed between the VC positions indicated above immediately prior to the attack. Following commencement of the attack, the TAD #1 Not (21.96mg) was rendered useless by bagpipe and intermediate CW jamming. In addition, light small arms fire was received from within Duong Son (1) from an estimated 8 stay-behinds who had hidden out in tunnels. This last information reported by District Chief and villagers.

At no time did a large VC force attempt to penetrate friendly lines, when lack of illumination permitted, small groups of 5 to 10 VC attempted to probe friendly lines. It is estimated that the purpose of this attack was to harass and keep friendly forces from moving from their present positions rather than attempt to reduce the Marine positions around Duong Son (1).

An accurate estimate of VC casualties is virtually impossible to reconstruct because most of VC that fired upon were located in firmly VC controlled villages. Ontos 106 RR fire silenced positions from which heavy fire was being received. 2 snipers were observed to be shot out of trees at Duong Son (2). At least 3 VC were hit by a 3.5 WP round west of Company G's position in one action and another 3 to 4 were caught in the open by automatic weapons when illuminated by a 3.5" W.P. round and observed to fall. At first light, a single VC was shot down by rifle fire attempting to reenter Cam Ne (2). At dawn, the battlefield had been cleared and no bodies or weapons were found.

- c. Operation Situation. At 170950H July 1965, a search and clear operation was commenced in the village of Duong Son (1). Forces participating in the operation were elements of BLT 2/9, a platoon of Regional Force troops provided by the Da Nang Special Sector, and Popular Force elements from the Hoa Van District Headquarters.

The actual conduct of search and clear operations within the village proper was conducted by ARVN personnel only. BLT 2/9 provided one rifle platoon to act as security for the ARVN personnel conducting the search. The 2d Platoon, Co #, 3d Engineer Battalion provided a mine clearing detachment to assist ARVN personnel conducting the search.

The CO and XO so BLT 2/9 entered the village immediately after the ARVN search team and its security personnel had done so. Close rapport soon developed between the Canton Village Chief, the District Security Chief, and the Battalion Commanding Officer and Executive Officer.

In the conduct of the search, the Battalion Commander and Executive Officer visited the home of a middle aged woman who stated that her son had run away from home to join the VC and that he had vowed not to return to his family. She further indicated to the interpreter that she had been wounded or hurt in the fire fight during subsequent sweep operations. She had a minor wound and it was requested that she see the BLT 2/9 Medical Assistance point which has been established on the outskirts of the village on a day to day basis for the purpose of treating indigenous personnel. The woman appeared to be quite afraid of U. S. Marines initially, however after the interpreter explained to her the reasons for our being in her village, she became quite friendly.

Eventually, the woman became more at ease after we had been at her home for an hour or so. At this point, she went out into her garden and cut fresh sugar cane for the visitors to her home. The Battalion Commander and Executive Officer were catered to as were all present. As if this were not enough, the woman brought a large watermellon shaped fruit with a tough greenish brown rind, with a yellow and whitish fruit inside. It was most delicious and tasted somewhat like pineapple. It was enjoyed by all who partook. In a final gesture of friendship, the woman brought out an old white enamel basin and rags to be used as a finger bowl and napkins.

After partaking of the woman's hospitality, we departed, thanking her through the interpreter. In return, the CO of BLT 2/9 presented his hostess with two meals of M1cs, which were accepted and greatly appreciated. As we departed to continue the operation, one had the sense of having converted a potential enemy into a potential friend.

The remainder of the operation proved to be uneventful and achieved negative results.

d. Logistics. Lifted by helicopter, the following Class V, to G Company CP at 0350.

A-127 - 3200 rounds  
A 209 - .30 Cal. linked - 4000 rounds  
A576 .50 Cal - 400 rounds  
B568 40mm - 144 rounds  
H600 3.5 Heat - 18 Rounds  
H602 3.5 W.P. - 30 rounds  
60mm Mortar H.E.-5 cases  
60mm Mortar - 2 cases illum

Ammunition in with no difficulty.

Lifted 50 cases of M.I.C.'s, cold soft drinks and garbage cans into F Co CP by helicopter. No problems were encountered. The G.I. cans were used to remove garbage from the area and return same to the Division dump.

Hot noon meals transported to F and G Companies and fed from field mess at coord 997690. Ice and water included in the delivery. Now M.S.R. used for vehicle.

No logistic or supply problems encountered on this date.

SITUATION REPORT No. 9-10

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED. 180001 - 182400 July 1965

3. GENERAL SUMMARY. Company E moved from BLT 2/9 CP to defensive positions from coord 991723 to coord 987724. Companies F and G re-oriented and shifted their defensive positions around Duong Son (1). Company G established a squad (-) (reinf) OP at coord 993654. It is reinforced by a TPS-21. The first squad, 3d Platoon Co G with 4 (four) ARVN Popular Force troops and one interpreter attached patrolled the interior of Duong Son (1). Negative contact. Company H (-) remains in same position. The 1st Platoon (-) supported B-1/9 in accordance with 1st Bn, 9th Marines Frag Order 6-65. Acting as a blocking force, they boarded 6 LVT's and moved into positions along the Song Cau Do River. No VC contact.

4. ACTIVITIES.

a. Operations.

(1) Company ~~E~~ - Moved from BLT 2/9 CP to defensive positions from coord 991723 to coord 987724.

(2) Company F - Re-oriented and shifted their defensive positions around Duong Son (1). Present coord are, 1st Platoon from coord 999690 to 003689, 2d Plt from 003689 to 002685, and third Platoon from 002685 to 999685.

(3) Company G - Re-oriented and shifted their defensive positions around Duong Son (1). Front line coord, 1st Platoon 998683 to 994685. Second Platoon from 994686 to 995696. Third Platoon from 995690 to 999691. A squad (-) (reinf) OP has been established at coord 993684. It has been reinforced with a detachment of two (2) men from Bn S-2 Section equipped with a TPS-21. An attached section of Ontos is located at coord 995686. The 1st Squad, 3d Platoon with 4 ARVN

Popular Force troops and one (1) interpreter attached, patrolled the interior of the village Duong Son (1) during the period 172130H to 180030H - negative contact.

(4) Company H (-) remains in same position. 1st Platoon (-) supported B-1/9 in accordance with 1st Bn, 9th Marines Frag Order 6-65. Acting as a blocking force, the two squads boarded 6 LVT's at coord 998708 and proceeded to the following positions on the Song Cau Do River: coord 006707, 010709, 021718, 023722, 031727, 032731. They remained in position from 0600-0830; no VC contact was made and the unit returned to its parent unit 181000H July 1965.

(5) Fire Support. None.

(6) Attachments. No change.

b. Patrols. None

c. Ambushes. None.

5. CHANGE OF LOCATION OF HEADQUARTERS. No change.

6. CHANGES IN LOCATION OR ESTABLISHMENT OF NEW OP'S. A squad (-) (reinf) OP has been established at coord 993654.

7. TRAINING. None.

8. PLANS. Planned rotation of two platoons, from F Co with two platoons from Company H.

b. An aerial helicopter reconnaissance is planned for 190900H. Passengers will be Bn CO, Bn S-2, Bn S-3, S-4, and F and H Company Commanders.

9. MISCELLANEOUS.

a. BMT 2/9 BAS treated 21 civilians, the majority of these being skin diseases. One doctor and staff treated 10 civilians in the village of Duong Son (1).

b. Enemy Situation.

(1) Very light sniper fire from Cam Ne (2) coord 990688 commencing at 2100, 17 July and ending by 2200. At approximately 2120 hours, 2 rocket type devices were fired over Co G positions at coord 996689 from the direction of Cam Ne (2). This rocket device was described as a low velocity projectile with sparks

coming from the rear which went beyond friendly positions into the Duong Son (1) village complex. No explosion occurred on contact, but one of the devices started a fire deep in the village. The CO, Co G personally observed these devices and believes it is either a very small rocket, perhaps 40mm, or a fireworks rocket such as used on holidays fired for harassment purposes.

(2) Ngo Mui, the Canton Chief in the Duong Son (1) area furnished a report (document to Div G-2) which indicates approximately 40 VC hardcore wearing utility uniforms and helmets are operating in the Cam Ne (1) through Cam Ne (5) area on the south bank of the Song Cau De River. Efforts are being made to mine the south bank of this river. With these hardcore VC are believed to be 2 Chinese advisors.

Within the village of Duong Son (1), an attached ARVN Platoon continued clearing operations with District Security and political personnel. One VC carrying a Thompson submachine-gun was being pursued but had not been caught at last report.

c. Logistics. No logistical or supply problems exist on this date. The M.T.O. reports requirements for organic vehicle use have increased. Use for administrative support is more than anticipated. For example disposition of supporting units cause the Supply Officer to need vehicles, the functions of the Civil Affairs Office ~~area~~ such that the Chaplain, doctor and Civil Affairs office need transportation daily, also the Mess Sgt requires transportation to supervise feeding field troops hot chow.

SITUATION REPORT No. 11 12

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 200001 - 202400H July 1965

3. GENERAL SUMMARY. No Company participated in operations during this period. Companies continued rotation or personnel with Co E rotating two platoon and Company Headquarters with two platoons and Company Headquarters from Co G. Company F rotated two squads (reinf) into position at bridge OP (coord 998706) to replace the two squads (reinf) from Co H which previously occupied this position. Company G reported that approximate location at coord 991690. Fire was not returned since the flashes could not be seen from the sniper weapons. Co E reported at 201430H it had found an unexploded 60mm round at coord 994685. Angle of entry was 070°, Direction of fire 338° in.

4. ACTIVITIES

a. Operations.

- (1) Company E. None. 1st and 2d Platoons of Company E and Company Headquarters rotated and replaced 1st and 2d Platoons and Company Headquarters of Company G. Reported at 201430 it had found one (1) unexploded 60mm round near its position at coord 994685. Angle of entry 070°. Direction of fire 338° in.
- (2) Company F. None. Rotated two squads into position at bridge coord 998706 to replace two squads from Company H.
- (3) Company G. None. At 200030H received five (5) rounds of sniper fire from coord 991690 (approximate). Did not return fire since flash from sniper weapons could not be spotted. 1st and 2d Platoons and Company Hdqs rotated positions with 1st and 2d Platoons and Co Hdqs of E Co.

(4) Company H. None, Rotated two squads (reinf) located at bridge (coord 998706) with two squad from Co F.

(5) Fire Support. None

(6) Attachments. No Change.

b. Patrols. None

c. Ambushes. None

5. CHANGE OF LOCATION HEADQUARTERS. No Change.

6. CHANGE IN LOCATION OR ESTABLISHMENT OF NEW OP's. No Change

7. TRAINING. None

8. PLANS. Continue rotation of Companiew. Rotate 3d Platoon Co E with 3d ~~Platoon~~ Co G. Continue improvement and preparation of defensive positions. Intend to commence patrolling within seventy-two (72) hours subsequent to approval at coord 003692.

9. MISCELLANEOUS.

a. The 2/9 Battalion Aid Station treated a total of 49 civilians. The large majority of these involved skin diseases.

b. Enemy Situation. Lack of villagers in surrounding rice paddies, information from informants, and civilians observed evacuating Duong Son (1) indicated a possible attack on Marine positions by as many 3 VC companies. An observation A/C reconned the area to the south of our position from 1830-1915, 19 July 1965 and observed nothing unusual.

Company G and H received sporadic sniper fire from the south, west and east of the Marine perimeter. A small amount of the fire was received from within Duong Son (1); this may be from ARVN positions in the village.

Although no attack materialized on the night of the 19th, the VC possess the capability of attacking our perimeter with forces up to one (1) battalion.

c. Logistic. No logistical or supply problems exist on this date.

One anticipated problem is the possible shortage of office supplies and break-down of typewriters. All sections of this command have been asked to conserve office supplies, and use typewriter only when very essential. Also they have been asked to keep typewriters covered and free from dust.

Preventive maintenance on all weapons on the line is not satisfactory. The Bn. Armorer makes two trips daily to employed companies and repairs, replaces and inspects crew-served weapons.

A mine sweep was conducted of the dirt portion of the MSR at 0600 this date with negative results.

On 181815H, one section 106's joined G Company. 181830 received small arms fire from coord 992690. Approximately 15 rds of sporadic fire. Company returned fire. Co also countered with one (1) 3.5 round. Not sure of effect of 3.5 round. VC firing ceased.

181845 received small arms fire from coord 994679 - returned fire and also fired two (2) 3.5 rounds. Not sure of effect. VC firing ceased. Sniper scopes were on all night. No movement sighted.

VC beat on pans off and on from 181830H to 182030H. Came from area all around perimeter.

At 182000H, 1 Naval Officer and five (5) Marine enlisted from naval gunfire joined company.

- (4) Company H. Rotated 1st Plt (reinf), one squad (reinf) from 2d Plt, and 2 squads (reinf) from 3d Plt with two platoons from F Company.
- (5) Fire Support. 81's fired four (4) rds illumination on coord 968698 at 182145H. Suspected activity. Good effect. No activity sighted.
- (6) Attachments. No change.
- b. Patrols. At 182100H, Co G dispatched a squad size patrol from coord 02690. Patrolled south-southeast around Duong Son (1). Patrol returned 190015H. No contact.
- c. Ambushes. None.
- 5. CHANGE OF LOCATION OF HEADQUARTERS. No change.
- 6. CHANGES IN LOCATION OR ESTABLISHMENT OF NEW OP's. Listening post established by F Co at resupply point located at coord 004692.
- 7. TRAINING. None.
- 8. PLANS. Continue rotation of companies. Rotate 3d Plt, Co H to replace 3d Plt, Co F. 1st and 2d Plt's of Co E will replace 1st and 2d Platoons of Company H.
- 9. MISCELLANEOUS.
  - a. BLT 2/9 BAS treated 74 civilians, the majority of these being skin diseases. One doctor and staff treated 43 civilians in the village of Duong Son (1).
  - b. Enemy situation. Enemy activity during the period covered was negligible. Co G received sporadic sniper fire from the direction of Cam Ne (2), coord 990688 between the hours of 1850 to 2100. Company H received approximately 4 rounds sniper fire from coord 969701 at 1915 hours. ARVN Forces (Ho Cam Trng Camp) reported sighting and engaging a VC Company at coord 959698 and 958701 at 2100 hours.

Between 1000 and 1200, 19 July 1965, the S-2 Officer observed the area south of the Song Cau De River from a helicopter and through a BC Scope. Extensive damage is evident in Cam Ne (1) through (5). The fields between Duong Son (2) and Cam Ne (2) and Marine positions are virtually deserted, possibly indicating an impending attack. This was the case on 16 July when the VC kept all villagers inside and cut off all traffic flow prior to the evenings attack. Unusually large numbers of farmers are working along the river at Cam Ne (5). Among these, 3 groups of 2 farmers each may be planting mines but cannot confirm or deny at coord 988697.

c. Logistics. A mine sweeping team from the 2d Plt, Co C, 3d Eng Bn swept the road portion of the MSR with negative results. A reconnaissance trip by helicopters south of the river by the S-4 Officer was made. It was noted that in the event of operations south beyond our present positions, problems in transport of supplies will be dependent initially upon airlift and the M-274 vehicle. It is visualized that forward supply points along Highway 1 will have to be established. From there the M-274 would supply companies. There would be a need for engineer support and equipment to build a crossings of up to 15 feet across dikes and streams.

SITUATION REPORT No. 4314

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 220001 - 222400H July 1965

3. GENERAL SUMMARY. There were no company size operations during this period. At 211830H, 3d Platoon moved into positions southwest of Phong Se (1). Front line positions extend from coord 992698 to 994696. Received no fire while moving into positions. However, once in position received about six (6) rounds of small arms fire from inside Phong Le (1). The platoon received a substantial amount of sniper fire from Cam Ne (1) (coord 990693). Sniper fire continued sporadically from 212000H to 220100H. One reinforced squad from 2d Platoon, Co F patrolled route which was planned and approved on 21 July. Departed 220800H and returned 221000H. No VC contact. A sweep was made of Phong Le (1) village. The sweep commenced at 221000H and was completed approximately 221300H. This sweep was conducted by 2d Platoon, Co H in support of ARVN Troops. The sweep moved from east to west through the Village. The 3d Platoon, Co H remained in its position south-west of the village to act as a blocking force. Also three amtracs (with a fire team attached to each) were in position along the Song Cau Do River as a blocking force. The sweep was made with no resistance. The fillage was reported relatively clean. No punji traps etc were found. A few holes were found beneath houses which were believed to be used by the villagers as bomb shelters.

4. ACTIVITIES

a. Operations.

(1) Company E, None. Started receiving sniper fire at 211650H and continued sporadically until 211830. Fire was coming from Cam Ne (1) village (coord 990693). SITUATION REPORT No. ~~14~~ 15

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 230001 - 232400H July 1965

3. GENERAL SUMMARY. Companies E & H received small arms sniper fire during the early morning hours of 23 July. 2/9 supported by one (1) platoon of Popular Forces troops, participated in a sweep operation of the villages of Cam Nam and Phong Le (2). As H Co was moving into position for this operation (2/9 Frag 6-65), lead elements began to receive fire from what appeared to be VC forces. Co H returned this fire which resulted in one (1) Popular Force KIA and one WIA. The KIA was identified as Le Duc Chua - 22 year old grenadier from the Popular Forces, who under the command of Canton Chief Mr. NGO MUI, were to participate in this sweep operation. Other than this incident, no other difficulties developed. Both villages were found to be rather friendly, clean, and free of punji traps etc.

4. ACTIVITIES.

a. Operations.

- (1) Company E. At 230115H AN/TPS-21 spotted personnel moving into known sniper position. Request was made to fire Ontos and request was granted. AN/TPS-21 scanning after firing Ontos revealed nothing. Ontos had direct hit on sniper position. Quiet for remainder of the night. Company E participated in sweep operation in accordance with 2/9 Frag Order 6-65 (Enclosure I).
- (2) Company F. Participated in sweep operation in accordance with 2/9 Frag Order 6-65. (Encl 1).
- (3) Company G. Participated in sweep operations in accordance with 2/9 Frag 6-65 (Enclosure 1).
- (4) Company H. At 230045H reported it was receiving sniper fire and having heavy fire fights. Sniper fire was received from coord 999685 and 997686. At 230110H reported 4 possible enemy WIA. Sniper scope operator reported he saw enemy pull in possible wounded. Fired WP into hut and started fire. Company reported

enemy was thought to still be inside hut while it was burning. Company participated in sweep operation in accordance with 2/9 Frag Order 6-65 (Enclosure 1). At 230645, while moving into blocking position, Company reported it was engaged in a fire fight with VC located in Quang Chau (1). Company reported one (1) VC KIA and one VC WIA. One fire team was sent into village to retrieve KIA. It was then discovered that the suspected VC was in fact Vietnamese Popular Forces under the command of Canton Chief Mr. NGO MUI. H Co requested an ambulance at 230759 at coord 004694 to evacuate KIA and WIA. Further investigation of this incident revealed that Mr. NGO MUI was located in Quang Chau (1) Village with some 15 (approximate) Popular Forces. As Co H was moving into position at coord 005699, Mr. MUI's Popular Forces opened fire on VC that he reported were located at coord 008698. The Popular Forces fire hit in the vicinity of Company H. Therefore, H Company, seeing non-uniformed personnel firing in their direction, mistook the Popular Forces to be the VC and returned fire. Further investigation revealed the Popular Force KIA to be LE DUC CHUA, age 22, grenadier, home as Phong Le (2) and also the site of his burial this afternoon (23 July). He was killed in Quang Chau (1) village. WIA reported as HUYNH QUANG TAM, squad leader, 19 years old, AN NGAI Village, HCA THANH CANTON, HOA VANG District.

(5) Fire Support.

- (a) 222130H - 105's - HE 1, illum 7 - coord 007686 enemy activity ceased.
- (b) 222205H - 105's - 6 illum - coord 004694 - sniper fire ceased.
- (c) 222155H - 81's - illum 2 - 998702 - no enemy sighted.
- (d) 222235H - 105's 3 illum - 007686 - sniper fire ceased.
- (e) 230024H - 230100H - 105's - illum (25) - 007636 - sniper fire ceased.
- (f) 230125H - 81's - illum 2 - 991688 - area well covered.

5. CHANGE OF LOCATION OF HEADQUARTERS. No change.

6. CHANGES IN LOCATION OR ESTABLISHMENT OF NEW OP's. No change.

7. TRAINING. None.

8. PLANS. Establish and continue to improve present defensive positions.
9. MISCELLANEOUS.

a. BLT 2/9 BAS treated 49 civilians. The majority of these were concerned with skin diseases. One doctor and staff treated 89 civilians in the village of Phong Le (1).

b. Enemy Situation. Enclosure 2 is a translation of VC personnel data furnished this HA by NGO MUI, Canton Chief of Quang Chau.

A VC flag was observed at 696686. No effort made to recover same as yet. A VC suspect (no ID) was picked up by Co E at coord 005685. 3d ITT interrogated same and returned to Quang Chau (2). Was a 14 year old farm boy who started to run because he was afraid of Marines.

A morning sweep of Phong Le (2) and Cam Nam met with no enemy contact. The lack of punji traps and booby traps found indicates minimal VC control of these villages.

c. Logistics and Supply. No logistical or supply problems encountered on this date.

The fork-lift on loan to the BLT from 3d FSR was returned to FLSG this date. Some problems are expected in movement of supplies as bulk items have been kept palletized.

(d) The Bn XO attended funeral of deceased Vietnamese Popular Forces trooper. A headstone was given to the family in the name of 2/9.

(e) CG, 3d Mar Div, CO RLT-9, and CO 2/9 inspected BLT 2/9 positions 231300H.

- 8. PLANS. 2/9 plans to sweep the village of Quang Chau (2) on 26 July 1965. Continue preparation and consolidation of defensive positions.
- 9. MISCELLANEOUS.
  - a. BLT 2/9 BAS treated 19 civilians with an additional 37 civilians treated in the village of Phone Le (1). BAS reports that due to shortage of supplies, treatment of local villagers can only be continued for one more day at the most.
  - b. Enemy Situation. At 241820, an automatic weapon (believed to be .30 cal. MG) located at Cam Ne (1), coord 990695, pinned down a wire laying team from Co H. 3.5 rockets (5 WP & 2 HE) were fired at the MG position until the weapon was silenced. Enemy fire started a house afire in Phone Le (1). Small arms rounds apparently hidden within the walls were heard "cooking off". Sporadic sniper fire was received by Co E & H from 241800 until 250000, with peak activity between 1800 and 1900.
- c. Supply and Logistics. No logistical or supply problems encountered on this date.

Ten trucks are on a ready standby status for the reaction company, place a strain on transport for administrative and logistical functions.

Troops are responding to the daily run to the Central Exchange. The Companies send one representative for several troops.

The garbage NCO reports primitive conditions at the garbage dump with trash and garbage trucks being over-run by civilians. Hundreds swarm the trucks to get the garbage, resulting in fights and injuries to the civilians. Also the disorder delays the unloading of trash.

SITUATION REPORT No. 27 18

1. REPORTING UNIT. BLT 2/9
2. PERIOD COVERED 260001 - 262400H July 1965
3. GENERAL SUMMARY. 2/9 units participated in search and clear operation of the village of Quang Chau (2) in accordance with 2/9 Frag Order 8-65. The operation was conducted on time and as planned. Liaison was made with the local district chief, Capt HCA, prior to, during, and after the sweep operation. The sweep elements found one grenade, several trip wires which led to expended trip flares, and two or three spider holes. Three (3) suspected VC were discovered. After interrogation one (1) was discovered to be mentally deranged and excused. The other two were turned in to the Hoa Vang District Headquarters. Upon completion of the sweep operation, 2/9 units realigned defensive positions in accordance with attached overlay (enclosure 1). At approx 251855H, Co E suffered one WIA. WIA was identified as Pvt Richard Bruce WADE, 2108686/0311 USMC. Diagnosis was wound - missile - back left side. Condition is reported as being excellent. At 260019H, Co H reported it had suffered one WIA. WIA was identified as PFC BAUMAN, E.L. 2052774 USMC. Wound was in left ankle. Helicopter evacuation was requested and received though the aircraft was approximately eighty minutes in getting the casualty to medical aide from time of notification. 2/9 S-1 reports this casualty has not been run as a WIA, pending investigation of the matter. One Marine NCO and one (1) enlisted Marine radio operator are in position of RVN Popular Forces at coord 016705 as liaison element with this unit.
4. ACTIVITIES.

- 6. CHANGES IN LOCATION OR ESTABLISHMENT OF NEW OP's. None.
- 7. TRAINING. None
- 8. PLANS. Continue improvement and establishment of present defensive positions.
- 9. MISCELLANEOUS.
  - a. BLT 2/9 BAS treated a total of 27 civilians. In the village of Phone Le (1), 33 indigenous civilians were treated by a doctor and staff.
  - b. Enemy Situation. Between 251900 and 262300, Co E received sniper fire from the vicinity of Quang Chau (2), coord 006688 and 003685. Commenced sweep of Quang Chau (2) at 260400. No punji traps, booby-traps, or defensive fortifications observed. No enemy action.
  - c. Supply and logistics. Heavy rain on the evening of 24 July amplified the need for tents to cover material and troops. All troops sleep under ponchos and shelter halves which are inadequate protection during heavy rains.

The MSR remained open though-out the rain.

No supply or logistical problems were encountered during the past 24 hours.

One 3.5" RL belonging to E Company was destroyed by sniper fire. A round went through the side of the tube.

- d. Civil Affairs. Claims were filed with Division Civil Affairs for damages done to civilian property during this Battalion's activities in the district of Hoa Chu. Claims were made by:
  - (1) Ngo Ty for 30,000 Vietnamese piaster to restore his home which was burned by an illumination flare fired in support of this Battalion on 22 July 1965.
  - (2) Tran Thi Mat for 400 Vietnamese piaster to cover damages done to a rice field by an ontos on 13 July 1965. The loss of two thaten walls (of a home) taken 23 July 1965 was included.
  - (3) Le Thi Cu for 300 Vietnamese piaster to cover damages done for a small patch of seeded rice destroyed when the area was used for storing supplies on 13 July 1965.
  - (4) Ngo Thi Trang for 1,000 Vietnamese piaster for damages done to a rice field by an ontos on 28 July 1965. The strip was procured for a future road.
  - (5) Le Thi for 3,000 Vietnamese piaster to cover damages done to his home when it was struck by an illum flare on 22 July 1965

1. REPORTING UNIT. RLT 2/9

2. PERIOD COVERED 270001 - 272400H July 1965

3. GENERAL SUMMARY. No companies participated in operations during this period. Company E reported sporadic small arms fire during early evening hours of 26 July. At approx 270630H, 2d Plat, Co E (located at coord 990690 to coord 995686) observed a large VC flag located on the railroad tracks at coord 992683. A squad size unit was sent out to observe the situation. As the recon element approached the flag, an explosion was set off near the flag. Further investigation revealed a wire leading to the explosion site, indicating an electrical detonated explosion. From all indications, the wire came from Yen Ne (2). At 271010H, Co E received sniper fire from houses located at coord 993679 and 991685. Co Gmdr directed Ontos to fire 3 major rounds. The buildings were destroyed and bunkers damaged in front of one building at coord 992688.

6. CHANGES IN LOCATION OR ESTABLISHMENT OR NEW OP's. None.

7. TRAINING. None

8. PLANS. On the afternoon of 28 July 1965, Co G 2/9 goes to operational control of 4th Marines. Company G will be heli-lifted to Chu Lai area to occupy MLR positions while 4th Marines conducts a Bn size search and clear operation. Co's E, G, & H continue preparation and establishment of defensive positions.

## 9. MISCELLANEOUS.

- a. BLT 2/9 Battalion Aid Station treated 20 civilians. 10 people of this total were concerned with skin diseases.
- b. No supply or logistics problems encountered this date.
- c. Communications-Electronics. There are 35 PRC-10s committed on a continuous basis in the Battalion now with never more than one or two for back-up. The remainder of the 40 radios are being repaired. Out of 36 AN/PRC-6s, there are 28 in use constantly. There are two AN/PRC-6s used for back-up and six are being repaired.

Two AN/MRC-83s are used for back-up and special nets. The AN/MRC-36 is being employed the same way.

There are 139 telephones being used by the Battalion constantly now. All switchboards are being utilized. There are 7 telephones being repaired and the remainder of the phones are used for back-up. All types of telephones are being employed. The Battalion is using TA-312s, TA-1s, EE-8s, and TS-10s. A total of 80 miles of new wire has been used since 7 July. There are 70 miles of wire in use now. The high usage rate is partly due to the fact that rifle companies have moved a great deal and have often have been split up. Wire has been laid to them at all times.

Since 7 July, the Battalion and its attached units have used 450 BA 279 batteries and approximately the same number of BA 270s. A total of 1500 BA 30s have been used but only the supply of BA 279s has been exhausted. There are 20 BA 279 batteries available for all the AN/PRC-10s in the battalion now. Requisition and status reports have been continuously submitted to nc avail. The wire situation is also now getting critical with 5 miles of wire left. Two of the five miles are new wire.

Generator support is being furnished by 9th Marines to this Battalion. If it fails at any time, then the only generator that we have organic to this Battalion, (the FV 348), will not be able to support more than 30% of the power used at the present time. If the Battalion displaces, a power supply suitable for the needs of this unit should be provided.

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 280001 - 282400H July 1965

3. GENERAL SUMMARY. At 272005H, 2d Platoon, Co E and 3d Platoon Co H reported they had received two (2) or three (3) rounds of sniper fire. At 272250H, 2/9 liaison located at coord 016708 reported that the Popular Force Platoon Commander was fired upon by his own troops as he was checking their positions. An old man located some 300 meters away was hit in the leg by one of these rounds. On the morning of 28 July, personal liaison was made with 1st Lt HIRAI, U.S. Army advisor to Hoa Vang Popular Force units, to gain information on this incident. Lt HIRAI reported the following: One Regional Force Company was located in the vicinity of coord 999702 with a detached platoon located in the vicinity of coord 999702 with a detached platoon located in the vicinity of coord 016708. The detached platoon fired two or three rounds at a suspected VC. These rounds were fired in a north-east direction. The Popular Force unit located in the vicinity of coord 015716, thinking they were under fire, returned fire (approximately 40 rounds). In turn, the detached Regional Force Platoon countered with fire (approximately 50 rounds). In the process, one (1) male civilian in the village of Cam Nam received a gun-shot wound in the left thigh. This occurred at approximately 272260H. At 280659H, 2/9 liaison located at coord 016708 reported one (1) male civilian was at his position with an apparent gun-shot wound in his left thigh and requested medical aid. At 280716H, medical assistance was dispatched from BAS. The victim was later evacuated to the Vietnamese hospital. At 272030, a field demonstration of the portable flamethrower was run on the railroad tracks at coord AT 992683. Prior to firing the flamethrower, a hand crank siren was run for approximately 5 minutes. The combination of siren and flames was used with the purpose of introducing an unusual signal to counter the VC "drums" and to take advantage of the Vietnamese deep-seated fear of fire. It is too early to evaluate results, but no sniper fire was received following the demonstration. At 231330H, a liaison Officer from G-3 visited 2/9 and accompanied 2/9 CO in an inspection of front line positions.

SITUATION REPORT No. 201

1. REPORTING UNIT. BLT 2/9

2. PERIOD COVERED 290001 - 290400H July 1965

3. GENERAL SUMMARY. Company G remained operational control of 4th Marines. Company occupied IFR position while 4th Marines conducted a battalion size search and clear operation in Chu Lai area. Company G is scheduled to start returning at 291300H July in helicopter lifts of twenty (20) men with thirty (30) minute intervals between liftoff. Company is scheduled to arrive at Da Nang air strip. Company E established layouts at coord 993684, 93686, and 992698. Layouts were in position from 282000H to 290600H. No VC activity reported. Company H established layouts at coord 913694 and coord 913687. These layouts remained in position from 282100H to 290100H. No VC activity sighted. At 281837H, Co E reported four rounds sniper fire from Com No (2). At 282110H Co E reported seven (7) rounds of sniper fire from Com No (2). At 282110H the 2d Platoon, F Company located at bridge coord 998777 sent one squad across the bridge as security. At 282115H, Co H fired flame thrower at coord 009691 for psychological effect. At 290400H H/MS-21 crew located at coord 995787 visually spotted four men. 81 illumination was requested and received. M-79 rounds were fired at target. M-79 were on target. No further movement sighted. There was no confirmation of casualties. At 290630H one squad from 2d Platoon, Co F moved from its position at coord 998707 to provide security for RVN forces in search of Thong Le (1). Squad returned at 290800H. Companies F and H are experiencing considerable difficulty in patrolling forward of their defensive positions. This is due in part to the Companies defensive positions being in the close proximity of 2/9 IFR and also to the extensive area they are required to defend. To take troops off the line for patrol missions would leave large gaps in the Companies defensive positions.

4. ACTIVITIES.

a. Operations

(1) Company E. None

(2) Company F. At 290630H, one squad from 2d Platoon provided security for RVN troops as they went into Thong Le (1). Returned to Platoon position at coord 998707 at 290800H.

(3) Company G. Occupied M2R positions while operational control of 4th Marines as they conducted a battalion size search and clear operation.

(4) Company H. None.

(5) Fire Support.

(a) 290424H - "L's - 4rds illum - coord 996631 - unidentified personnel in rice paddy - good effect.

(6) Attachments. No change

b. Patrols. At 290615H, Co E dispatched a fire team size patrol to coord 993680. Patrol returned at 290745H. No VC contact or activity.

c. Ambushes. None.

5. CHANGE IN LOCATION OF HEADQUARTERS. None.

6. CHANGE IN LOCATION OR ESTABLISHMENT OF NEW OP's. None.

7. TRAINING. None.

8. PLANS. Withdraw Co E on 30 July to replace Co F as battalion reserve. Co F prepare to conduct search and clear operation of village of Hoa Da. Co H will assume present defensive positions now occupied, by Company E. This will be accomplished by establishing three platoon size strong points with foot patrols utilized between strong points. Co G on its return from Chu Lai, will prepare to relieve Co H in its defensive positions subsequent to 31 July 1965.

9. MISCELLANEOUS.

a. 2d Bn, 9th Marines PAS treated 13 civilians in their BAS today. In the village of Cam Nen, 40 Vietnamese Nationals were treated.

b. Supply / Logistics. No logistical or supply problems exist on this date. A trip was made to a school at coord 994691 which will open on 2 August 1965. Plans have been made to paint, repair and replenish desks and the interior prior to Monday. Paint and other material has been given by other units contacted. Labor will be provided by H&E Company, 2/9.

c. Communications-Electronics. EM 279 (MRC-10) dry cell batteries are once more available. Four-hundred-ninety-six (496) were issued to us by FMSG the 28th. At this time, all units tied in by wire have their radios turned off. Checking in every hour. All units have been notified that in the event the land line goes out, they come up on Bn TAC #2, in the event of a firefight, they come up on Net regardless of the landline. At the operations

center, the BN TAC Net is up 24 hours a day. This results in a tremendous savings on batteries, and money.

Normal communications. Radio and wire are in. Wire to companies across the river stayed in well last night. Over-heading continues. Wire continues to be critically short. A SSB Net between this CP and Co G at Chu Lai is up for drill and administrative purposes. This net is between a FMC-47 at Co G and a MRC-83 at this CP. Landline communications are available between this CP and Co G.

d. Civil Affairs. Division Civil Affairs returned five (5) claims for damages to civilian property forwarded by this Battalion on 26 July 1965. Although when issued there were no instructions given on filling out the required forms and at present there exist no Division SOP for making out and forwarding these claims, the following cases were returned for resubmissions:

- (1) Ngo Ty, 30,000 Vietnamese piastre for his home destroyed by an illumination flare on 22 July 1965.
- (2) Le Thi, 3,000 Vietnamese piastre for his home destroyed by an illumination flare on 22 July 1965.
- (3) Ngo Thi Trang, 1,000 Vietnamese piastre for 142 square meters of two (2) month old rice.
- (4) Tran Tai Ut, 400 Vietnamese piastre for 57 square meters of rice.
- (5) Le Thi-Cu, 300 piastre for 42 square meters of two (2) month old rice.

Forms will be resubmitted tomorrow with additional information.

On 25 July 1965, BAS expended all available Med Cap supplies on hand. A requisition was submitted by this Battalion on 21 July 1965 requesting approximately \$700.00 worth of supplies as soon as possible. A small loan of materials was obtained from Local RVN Medical Company but this is not expected to last through 1 August. Therefore, it is evident that unless our requisition of 21 July is filled, in part, within the next two days, our medical assistance to civilians will cease.

## Summary

A real problem exists in availability of fork lifts. The fork lift assigned this BMT is on Red Beach #2. FLSG provided a lift for unloading of pallets on this end, however this is on the basis of availability. This shortage has resulted in a delay on unloading of trucks from the beach on this end and complete lack of lift capability to sort and stack pallets.

## Summary

First day of contact with enemy - found that their was confusion on evacuation procedures. Helicopters were slow in arrival to pick-up wounded. Distortion of radio communications caused accurate and timely reporting of the injuries difficult. Transportation difficulties encountered were that the M-54 trucks attached are to heavy for roads and trails. Also shortage of organic vehicles to meet increased communications problems with the Forward Command Post.

## Summary

Some confusion again in getting an engineer team to clear mine fields. The engineers who were assigned the task were located in RLT-9 area building 8-holers. Troops are out of health and comfort items and smokes. A request for the health and comfort items proved inadequate as they were not available. The S-1 worked with the exchange officer to get a mobile PK in the area with no results.

Supply point distribution proves most satisfactory. The M-274 is excellent for delivery into area where other vehicles won't go. Some unit distribution takes place on special request.

Mount-out stocks are adequate and serving well. No real maintenance problems exist now however some are anticipated due to the heavy and constant usage. The armorer serves the units on line daily with tool box and spare parts.

The five ton M-54 proves to be to large for use on local roads with limited turn around points. Case in point the one truck that turned over in the rice paddy. There is a need for the M-37 for moderate loads and administrative work. Needs for this type of vehicle during the past twenty-four hours were realized where the M-54 proved to large for the job. Samples are: Hot chow transport, supply runs, flak jacket delivery, ammunition and food pick-up.

No yellow smoke is available for issue at this time and it is in demand as a signal for evacuation. The ammo dump for this command was completed and stocks sorted. The move from the beach resulted in a large amount of ammo being dumped here. All excess and ammunition this BMT doesn't rate has been returned to Division Ammo Dump. Complete inventory of stocks will be completed by tomorrow. Crimped cartridges for 30 caliber were found, ammunition was issued from 3rd MarDiv prior to departure. This has been turned in and replaced with 7.62MM crimped. It has been found since arriving that we have used on a full time basis one school trained ammunition Sgt with a clerk to control, inventory, store, and issue ammunition.

## Summary

Troops have been eight days without PX service. They are in need of soap, toothpaste, razor blades, and general health and comfort items. Laundry soap is in short supply. A visit to the PX Officer proved negative as he is very busy at the main exchange. The Red Cross provided 50 bags individual which where sent to F and G Companies on the line. Action on PX service and/or sundries are pending. A survey of routes indicate that a better MSR could be made available if two bridges across streams were built. First inventory of Class V was completed on this date. Bunkers for Class V were completed and all excess ammunition delivered from Red Beach #2 was returned to the Division Ammo Dump.

## Summary

Opened up a new MSR on this date which will carry the M-274 truck. The route ran on over a railroad to a blown bridge. The bridge was sandbagged so the trucks could get across the main streams. A dike and one other small stream was crossed by putting sandbags on bottom to form a spillway. The route saved G Company carrying supplies 600 meters. It is anticipated that hot chow will be brought to F and G Companies over this road. No supply problems were encountered on this date. It has been noted that line companies in the objective area have now anticipated their needs in a more efficient manner. Armorer makes two trips daily to maintain weapons in the field. He examines all automatic weapons twice a day and performs spot maintenance.

## Summary

The engineers completed the building of a bridge and two crossings at coord. 999699. This allows the M-274 and M-422 trucks to proceed to the G Co CP and gives access by road to village of Durong Son #1. The natives immediately commenced use of the road since the old bridge had been destroyed and only a foot trail remained. A mine sweep by the engineers will be conducted daily to clear the MSR and bridge. No supply or logistical problems exist on this date.

## Summary

Status of Supplies: Class I (MCT-2 days) (Fuel-2<sup>1</sup>/<sub>2</sub> days) Class II (Batteries-7 days) Class III (MOGAS-440gals) (Oils-50gals) Class IV (Concertina-150rolls) (Sandbags-18000). No supply problems were encountered on this date. During the Helo recon the S-4 noted the following: Movement south of the river Song ION Do will require additional engineer support. Movement of supplies off from highway (Highway #1) will be limited to M-274 truck, Helos and tractors. Advance supply dumps may have to be established along highway by any unit who may operate in that area. There would be a need for mobile bridges 8 to 15 feet in length which may be Helo lifted to dikes and small streams. In any case inland water lanes and streams will cause real resupply problems.

It was found that the delivery of ice water to the front lines was not worth the cost in transport. The ice in most cases melted prior to reaching the troops.

## Summary

Truck use for administrative traffic has increased while requests for tactical support remains heavy. Additional demands are being placed on trucks to support PX and liberty runs. It is anticipated that when liberty is granted on 22 July 125 troops will need transportation to downtown DaNang and back.

The armorer makes a twice daily check of all crew-served weapons. He found some damage to the sniper-scopes. All commanders notified to exercise caution on the use of the sniper-scope.

New supply routes were surveyed and requested. Since the natives use no wheeled vehicles except on Highway 1, roads are non-existent. Foot paths along rice paddies are useless for vehicle use. Rice paddies, streams, and dikes hamper transport.

## SUMMARY:

Heavy showers after dusk found many troops exposed. Make-shift shelters from ponchos and shelter halfs are inadequate cover for a rain of this nature. The substance of the ground is such that it absorbs the rain and caused the tent stakes to come loose, causing tents to collapse. Tentage to cover supplies and troops is a real need.
