B. Listing of Significant Events

(1) Personnel.

- (a) There were 6 corporals and 13 lance corporals promoted on 16 January 1966
- (b) Rotatees. There was one Officer and 11 enlisted personnel rotated to CONUS during January 1966.
- (c) Casualties. There were 61 battle and 11 non-battle casualties during the reporting period.
- (d) Strengths. The percentage of T/O strength on 31 January 1966 was 88.9%.

(2) Administration. A total of 37 Marines were sent on R&R in Hong Kong, Bangkok, Okinawa, Taipei and Saigon during January 1966.

(3) Intelligence. During the period covered by this report, the battalion operated in the assigned sector of the 9th Marine Regimental TAOR.

- (a) During the period 01 - 29 January 1966, units of this Battalion experienced moderate contact with the VC. Most contacts were made by patrols which received small arms, automatic weapons, machine gun fire, and grenades from VC units. The fire was usually delivered from treelines, hedgerows, and across rivers which made pursuit especially difficult. The VC continue to have excellent preplanned routes of withdrawal. They continue to have excellent police of their battlefield areas, and few VC KIA, WIA, or weapons were recovered by Marines. They also continue to refuse to engage in a fire fight unless they feel they have an overwhelming advantage.
- (b) There was a noticeable increase in the use of booby traps throughout the sector. Most of these were found in hedgerows, gates, and along trails leading into village areas. The U.S. M-26 fragmentation grenade was the most common type employed along

(4') In addition to the general training, approximately one hundred hours were utilized in care and cleaning of individual and crew served weapons, radio maintenance and voice procedure for communications personnel and 30 hours on employment of the 106mm recoilless rifle for the 106mm RR Platoon.

(d) The 81mm Mortar Platoon conducted 120 hours of training as follows:

(1') A total of 120 hours, including practical application, was spent on subjects as indicated below.

- (a') Laying the Mortar - 30 hours
- (b') Sight Manipulation - 20 hours
- (c') Handling Misfires - 10 hours
- (d') Mounting and Dismounting - 35 hours
- (e') Selection of Positions - 10 hours
- (f') Fire Commands - 15 hours

(2') In addition to the training outlined above, 65 hours were utilized on preventative maintenance.

(5) Operational Summary. During the reporting period, the battalion continued to defend its sector of the 9th Marines TAOR. Offensive operations against the enemy were conducted frequently. On 3 - 4 January, the battalion reinforced with tank, ontos, LVT's, artillery and close air support conducted Operation "WAR BONNET" in the south-eastern portion of the 9th Marines TAOR.

During the period 11-15 January 1966, Company G under OpCon of the First Marine Regiment participated in Operation MALLARD conducted in the south-western sector of the Da Nang enclave. Golf Company was credited with capturing four 60mm mortars during this action.

15 - 18 January 1966, the battalion (rein) conducted Operation BIG LODGE in the southern portion of the 9th Marines TAOR. Very light resistance was met during this action.

On 7 January 1966, Company F conducted a search and destroy operation in the southern portion of 2/9's sector of the 9th Marines TAOR. This operation was considered very successful. The company engaged

c. Arment. Confirmation of exact quantity and types of weapons carried by VC units in the area of operations has not been accomplished. Each company-size unit may be expected to be armed with at least one 60mm mortar and one light machine gun, as well as a proportionate number of automatic rifles, submachine guns, and other small arms. 82mm Mortars, 57mm RR, and the B-40 rocket launcher (RPG-2), while normally associated with battalion size units, should not be discounted in being in the area of operations.

d. Enemy Activities. See intelligence summaries and reports as issued.

## 2. CHARACTERISTICS OF THE AREA OF OPERATIONS

a. Weather. See daily weather forecasts and weather summaries as issued in ISUMS. Weather features for the month of January are as follows:

- (1) Clouds - Mean cloudiness 77% with .3 to .6 cloud cover.
- (2) Ceilings - 3000 - 5000 feet w/visibility of 5 miles better.
- (3) Temperature - Mean daily maximum 75° and a minimum 65°.
- (4) Humidity - Mean relative 86°.

NOTES:

- (1) Duration of Civil Twilight is approximately 23 minutes.
- (2) Civil Twilight definition: The degree of illumination at the beginning and end of Civil Twilight is such that the brightest stars are just visible and terrestrial objects can easily be distinguished.
- (3) DANANG local standard time is GCT plus 8 hours.

c. Terrain

- (1) Helicopter landing suitability in the area of operation will be generally unsuitable in the East and Southeast portion of the area. The majority of the remaining area consists of paddies and very little suitable landing sites throughout. However, some of the dry paddies will be suitable in some areas.
- (2) Terrain trafficability for foot troop movement is fair to good with paddies and streams hindering movement to some extent. The general area is much the same as the type we have been operating in with villages, sand, brush, dry crops, cane fields, and few cemeteries. The portion of the high ground in the area consist of brush.
- (3) River crossing sites included in the area are few in nature however the areas given are noted for LVT crossing at the following coordinates: Vicinity AT 953597, AT 954598, AT 962603, AT 967605, AT 973608, AT 973609, AT 979610, AT 990608, and AT 994607.

## 3. ESSENTIAL ELEMENTS OF INFORMATION

- a. Determine if the enemy will defend; if so when, where, and in what strength.
- b. Determine if the enemy will reinforce in the area of operations; if so who, when, where, how, and with what forces.
- c. Determine if the enemy will counterattack; if so who, when, where, and in what strength.

- d. Determine what defences the enemy will employ in and around the hamlets, (Special attention to their employment of automatic weapons and supporting arms, weak points/strong points in this defensive system, secret exits, hiding places for personnel and material, and tunnel patterns).
- e. Determine if the enemy will incite or coerce the local populace into mass demonstrations or mob actions against our units; if so who, when, and in what strength.
- f. Additional Intelligence Requirements.
  - (1) Are there enemy anti aircraft weapons located in the area? Type? Location?
  - (2) Confirm the size, identification, and type of VC units that normally operate in the objective area.
  - (3) How are VC units in the area of operations normally resupplied, and what land and water routes do they use?
  - (4) What is the nature of VC camps, training centers, storage areas, etc., located in the area? What is the purpose for these installations?
  - (5) Are there any indications of captured U. S. personnel having been in the area of operations? Location? Exploitation?
  - (6) Is there evidence of PAVN, CHICOM or other foreign advisers operating in the area?
  - (7) What are the road and bridge conditions and capacities in the area of operations?
  - (8) What methods and techniques do the Viet Cong employ to communicate? What radio and telephone equipment do they have? What other means? (Special attention to signals used for the purpose of warning; breaking contact; opening fire; marking minefields, stake traps, and booby traps; and the use of drums, bugles, whistles, flares, lights, signs and markers.
  - (9) What actions or attitudes in the past of the local civilian population are indicative of the presence of the Viet Cong in the immediate area, and what methods they use to control the local population.

#### 4. RECONNAISSANCE AND OBSERVATION MISSIONS.

##### a. Orders to Subordinate units.

- (1) All Units. Report as obtained information answering any intelligence requirements with respect to EII's and additional intelligence requirements.

(2) Submit information as obtained to S-2 by most expeditious means and laterally to units with immediate concern.

(3) Submit and report in accordance with SPOT REPORT.

b. Coordinating instructions.

(1) Make maximum effort to take enemy prisoners and forward to the Battalion Collection Point with any accompanying documents and/or equipment for intelligence exploitation.

(2) Submit by FLASH message first sightings or indication of:

(a) Enemy artillery, heavy mortars or other heavy caliber weapons.

(b) Enemy Company size or larger units within area of operation, (Include location and direction of movement, size unit, type and color of uniforms, equipment, weapons, and whether or not unit can be kept under observation.)

5. MEASURES FOR HANDLING PRISONERS, CAPTURED DOCUMENTS, AND CAPTURED MATERIAL

a. See reference (c) ..

b. Captured Personnel.

(1) The term "Prisoner of War" will not be used in connection with captives taken in counterguerrilla operations against the Viet Cong since the Viet Cong are not foreign nationals, and this is not a declared war. For operations in Vietnam, the term "Captive" will be used in reference to all prisoners taken by this unit.

c. Handling Captives.

(1) All captives taken by this unit will be accorded firm, just, humane treatment at all times in accordance with the law of land warfare as derived from custom and treaties, such as the Geneva Conventions. While the Viet Cong cannot be termed "Prisoners of War" as defined by Article 4, Geneva Convention Relative to Treatment of Prisoners of War, 1949, they will be treated humanely in the manner prescribed therein.

(2) Normal procedures in processing "Prisoners of War" apply to the processing of captives taken in counterguerrilla operations in Vietnam. Extreme care must be taken to ensure that friendly or potentially friendly civilians taken captive are not subject to any treatment that might engender a hostile attitude on their part toward this unit.

~~CONFIDENTIAL~~

(3) Handling of captives will be firm at all times, but will not involve force beyond that necessary to defend against or subdue resisting Viet Cong Captives or Viet Cong Suspects. Captives will be led firmly, but gently when blindfolded. Special care must be exercised in the handling of captives who are blindfolded and tied when being moved or transported to or from aircraft or vehicles. These captives are helpless and must be assisted to prevent injury.

(4) Viet Cong Captives and Viet Cong Suspects will be bound in such a manner as to ensure they cannot escape or harm either their captors, guards, interrogators or other captives. Bindings will ensure security but will not be such as to cut off blood circulation, cut, injure or otherwise cause pain. Captives will not be trussed in any way that is, could be, or may be mistaken to be tortuous.

(5) All captives will be searched, segregated, tagged and evacuated through the intelligence chain as expeditiously as possible. Innocent civilians will be separated from VCC/VCS as expeditiously as possible.

d. Returnees/Ralliers.

(1) Returnee is defined as "A person who voluntarily returns to RVN control after having actively supported the Viet Cong in some form of political or military activity".

(2) Every Viet Cong who comes under control of RVN/US/FWMA forces during period 18 Jan to 31 Jan and has a national Safe Conduct Pass will be treated initially as a "Chieu Hoi Rallier".

(3) Description of Safe Conduct Pass.

(a) The Safe Conduct Pass is 3" X 6" and basically yellow in color. atop the pamphlet is written: "Safe Conduct Pass to be honored by all Vietnamese Government agencies and all Allied Forces. This is written in Vietnamese, English and Korean in that order.

(b) Centrally located on the pamphlet is a picture of the South Vietnamese flag. Clockwise around it is a picture of the Korean, New Zealand, Australian and the American flags. All are in their national colors.

(c) On the reverse side again the Slogan appears. There also appears a Viet Cong and an Allied trooper in black and white. In the lower right hand corner is a serial number.

(4) Returnees will not be documented, reported or treated as Captives. They will be searched and guarded. However, consistent with security requirements and the military situation Returnees will be treated with dignity and encouraged to feel that their decision to cast their lot with the Republic of Vietnam was correct.

- (5) Returnees will be kept separated from VC Captives and VC Suspects at all times.
- (6) Returnees will be fully exploited by interrogation prior to release to RVN "Chieu Hoi" channels.
- (7) Returnees will be delivered to the Bn Collection Point for interrogation as soon as possible.
- (8) The importance of humane and dignified treatment of Returnees/Ralliers cannot be over emphasised.
- e. All wallets and personal effects of VC casualties will be forwarded INTACT to Bn S-2. Troops will be specifically instructed not to retain money, photographs, ID papers, jewelry, etc., recovered from VC dead.
- f. Every effort will be made to keep captured documents dry or, when wet upon capture, to minimize effect of wetting prior to forwarding to Bn S-2.
- g. ID Cards and personnel belongings will be left on captured individual.
- h. "Captives" will be turned over to Bn S-2 Collection Point as directed.

#### 6. MAPS AND PHOTOGRAPHS

- a. Reference (a) is the tactical map for this operation.
- b. Aerial photography will be provided when available.

#### 7. COUNTER INTELLIGENCE

- a. Classified material will not be taken forward of the Battalion Command Post except when essential for the conduct of operations. In such cases, only extracts of necessary information from classified documents shall be used.
- b. Upon displacement, command posts will be thoroughly searched to ensure that nothing of intelligence value is left behind.

#### 8. REPORTS AND DISTRIBUTION

- a. Spot intelligence reports will be submitted to this headquarters (S-2) when incidents occur. Answer what, where, when, and what action taken.
- b. Submit all information of possible intelligence value.

e. Methods of Control. During the time when the company was on the move and the FAC could not observe the target due to both movement of the company and dense bamboo tree lines, the DAO aircraft served as Tactical Air Controller (Airborne), TAC (A), and were able, after a thorough brief from the FAC, to direct the CAS fixed wing aircraft in on target, and adjust the runs, with FAC acting as a ground spotter, relaying information to the DAO aircraft. The FAC, whenever possible, controlled the CAS aircraft, as due to the close proximity of the firing runs to the friendly lines, aircraft heading was extremely important.

f. Type Targets. Enemy troops in river tree lines, dug in trenches, and enemy troops in trench line masked from view by bamboo hedge groves, 60-75 meters from friendly front lines.

g. Accuracy. Napalm strike within 75 meters of friendly troops. 20mm strikes 60-70 meters to the front of friendly troops, parallel to front lines. Later investigation revealed that trenches in tree lines were badly damaged, as much ordnance had landed right in the trenches.

6. In the area of Dong Tien (2), one (1) Main Force and two (2) guerilla Viet Cong companies had laid an ambush, directly in the line of advance of Co F, 2d Bn, 9th Marines. This ambush was well dug in and the enemy positions were mutually supporting on three (3) sides. The ambush was prematurely sprung as the point element of Co F, proceeding out of a wood line and into a clearing, reconned by fire the far bank of a rice paddy. At this time, the Viet Cong incorrectly assumed that their position had been discovered, returned a heavy volume of fire to include, in addition to small arms, machine gun and mortar fire. At this time, close air support, which had been reducing enemy resistance on the right flank was directed to shift its attack to the immediate and right front of the friendly positions. The distance separating the Marine Company from the enemy was between 50-100 meters, however, confidence in ground coordinated Marine Close Air Support was such that the Close Air Support was delivered without Co F. Commanding Officer pulling back his positions to permit the air strikes to occur 50-100 meters in front of his lines. The effectiveness of this closely coordinated air strike is exemplified by the fact that the last firing pass of the aircraft was the signal for the assault. No Marine casualties were incurred in assaulting through 100 meters of waist deep mud and water to the enemy positions. The air strikes had so disorganized the VC that they fled their position leaving one (1) of their dead, ammunition, and valuable papers (Maps and map overlays). Information gained at that time indicated that at least fourteen (14) Viet Cong were killed. Subsequent investigation at a later date of inhabitants of the area indicated that closer to 40-50 Viet Cong were either killed or critically wounded. Later that afternoon, while crossing a large rice paddy area, approximately 400 meters in width, the rear of the company incurred four (4) casualties from accurate small arms fire from their left rear. This event coincides with the fact that for the first time since 0700H that morning, there were no helicopters on station due to refueling. It

2. Friendly Units (See encl (1)). Enemy Units (See encl (4)).
3. Mission (See encl (1)).
4. In addition to blowing numerous tunnels and fighting holes and the seizure of Viet Cong Medical Supplies. Co F (rein) engaged one (1) estimated Viet Cong Main Force Company and two (2) Viet Cong irregular guerilla companies in the vicinity of Dong Tien (2). As the Viet Cong lay in ambush, reconnaissance by fire from Co F prematurely sprung the ambush, and close air support was called in with the following results:
  - a. After rocket and napalm runs on the right and right front flanks, heavy small arms fire ceased.
  - b. Napalm and 20mm fire to the front and right front forced a main force company to vacate its well dug in positions, at which time friendly troops continued on to their objective.
5. Details of Air Support.
  - a. Three (3) CAS missions requested.
  - b. Response times: 5-10 minutes.
  - c. Missions flown in CAS:
    - (1) Three (3) UH-1E sorties expending six (6) AERO-7D rocket pods and 1200 rnds 7.62mm.
    - (2) Two (2) F-8E sorties expending 1600 rnds of 20mm.
    - (3) Two (2) F-4B sorties expending eight (8) 19 shot rocket pods and twelve (12) MK-77 napalm tanks.
    - (4) One (1) A-4E sortie expending eight (8) MK-77 napalm tanks, four (4) LAU 10-A "ZUNI" rocket pods, and 800 rnds of 20mm.
  - d. Missions flown in DAS:
    - (1) Two (2) med-evacs for eight (8) casualties.
    - (2) One (1) helicopter resupply for 3.5 rockets, 60mm mortar, and 7.62mm ammunition.
    - (3) One (1) all day, relieve on station, Direct Air Observation mission that began at 0700H and ended when the friendly troops, in trucks, returned to the 2d Bn, 9th Marines Command Post.

is the opinion of the Co F Commanding Officer, that had our UH-1E gunships been on station, the casualties would not have been sustained. It should be brought out that while the two (2) DAO aircraft (UH-1E) were receiving the Close Air Support Mission Request from the FAC for the initial and subsequent missions, the aircraft were able to strafe with 7.62mm and 2.75" rockets and keep the Viet Cong pinned down in trenches until the fixed wing aircraft arrived. When the fixed wing aircraft arrived on station, the DAO aircraft made rocket passes, pinpointing the Viet Cong for the strikes. They were invaluable throughout the day as communication relays to the Direct Air Support Center, and every avenue of approach was carefully screened, often at an altitude of 100 feet, as the company advanced. The FAC was able to direct in med-evac helicopters while artillery was firing at a distance of 100 meters from the LZ, and many times there was only one avenue of approach with air/ground communications a necessity.

7. The Battalion Operations Center, located in the Battalion Command Post, has the capability of monitoring and entering all nets used in this operation. As indicated in enclosure (1), the Battalion Commander has final approval authority for clearance of supporting arms. All requests for supporting arms by Co F were monitored and plotted and using the "Silence is Affirmative" procedure, all requests were cleared. Since, on this particular day, Co F was engaged in the Battalion's major effort, no problems were encountered in the coordination of supporting arms. However, when more than one (1) company is engaged, which is usually the case, the Battalion Commander, through the Fire Support Coordination Center (FSCC), located in the Operations Center, has the capability of monitoring all requests for supporting arms and determining type and amount of supporting fires available, setting priorities, specifying allocation and overall coordination. This capability remains whether the Battalion is in a static or moving situation.

ENEMY FORCES IN AREA OF OPERATION.

1. 101st Company. Operates throughout the area on an east-west axis taking in a ten-thousand meter area. Usually this unit works to the south of the Song La Tho River. Basically made up of guerillas and local force elements. Organic weapons are: one (1) 60mm mortar, one (1) .30 caliber MG. It can be assumed that there are also an unknown quantity of small arms. Strength is unknown, but probably numbers 70 men. Supposedly a sub-unit of the 207th Battalion.
2. 345th Company. This unit lies to the west of the area of operation and has been reported stable for the past two (2) months. Weapons are unknown; strength is approximately 120 men.
3. Q-15-B Company. Has recently been reported operating near our southern front. The weapons consist of: one (1) 81mm mortar, one (1) 60mm mortar, one (1) 57 RR, three (3) light MG's, 18 AR's. Strength is 120 men. Unit is a subordinate of H-40.

## ANNEX C (Narrative Account of Operation) to After Action Report 2-66

1. Concept of Operation. Commencing H-Hour on D-Day, 2/9 (-) (rain) conducts a three-phase search and destroy operation, 3 companies to operate in an area bounded by the Song Yon on the west, Highway 14 (grid line 58) on the south, the 00 grid line on the east and the 64 grid line on the north, with 1 company operating in an area bounded by the Song Thanh Quit, Highway 1 and the Song Tam Giap.

Phase I. At H-Hour following preparatory fires on Hill 55, 2 companies conduct search and destroy operations in assigned zones adjacent to Hill 55. With tanks and mortars in supporting positions on Hill 55, one company aboard LVTs proceeds south west up the Song Bau Xau to south west portion of objective area and conducts search and destroy operation in zone and establishes blocking position. Two companies establish defensive perimeter on night of D-Day on north side of Song Bau Xau with one company crossing the Song Bau Xau by LVT to establish a defensive perimeter on the south side.

Phase II. Commencing at 0800H on D+1 one company conducts search and destroy operation in zone parallel and adjacent to Highway 14 and one company crosses the Song Bau Xau and conducts search and destroy operation east to the railroad tracks. One company proceeds down Song Bau Xau by LVT and lands on south bank to conduct a search and destroy operation in their zone. All companies establish night defensive perimeters on D+1.

Phase III. At 0700H on D+2, one company commences search and destroy operation in its assigned zone south of the Song Thanh Quit and establishes blocking positions along western edge of zone. At 0800, 2 companies commence search and destroy operation north on both sides of the railroad bed to 9th Marines positions. One company crosses Song Bau Xau in LVTs and screens movement to 9th Marines positions.

2. Narrative Summary.

Company E. Company (-) departed CP positions at 170655H for LCD. At 170715H company received heavy small arms fire at (BT 048607) from (BT 047606) and (BT 051604). VC exploded 1 of 4 booby-trapped 105mm rounds at 170715H causing slight damage to one 6x6 truck. Three of the four 105mm rounds did not detonate and were found in a nearby rice paddy, where they were destroyed by engineers. Marines returned VC fire with all weapons and fired 56 rounds of artillery into (BT 051604). VC fire ceased. Area searched and 18 VCS apprehended. Five Marine NBC's reported from injuries sustained from a 6x6 truck. One Marine WIA. Estimated 8 VC in ambush. Company crossed LCD at 170810H. At 171010H, blocking force was in position along river at (BT 025598) to (BT 031610). At 171015H, one platoon in blocking positions received approximately 20 rounds at (BT 024598) from vicinity (BT 025597). Fire not returned due to unknown position of friendly troops. At 171332H, company received order to withdraw from blocking positions along Highway 1. Company met 6x6 trucks at 171405H at (BT 048607) and moved out toward CP. At 171535H was reported returned to CP area.

Annex D (Lessons Learned) to After Action Report A-66

1. The objective area was disproportionately large for the time allotted to the operation. Thorough searching of all routes and populated areas was not possible.
2. The requirement to evacuate captured rice did not distinguish between home stores and large VC caches. Initially home stores were confiscated for evacuation because they were large (some in excess of 500 pounds per family) in relation to on-hand amounts where GVN authorities can enforce a system of storage and distribution. Consequently, D-Day movement was greatly retarded as units attempted to evacuate the numerous home stores encountered. Subsequent guidance limited rice capture to large caches which were obviously not family stores.
3. Troop movement by LVT's was not feasible in rivers located in the objective area.
4. Maneuvering close to fixed ARVN positions should have been avoided because of the difficulty of distinguishing between the ARVN soldier and VC soldier at a distance, and the probability that some ARVN soldiers will be moving about outside of their post.

DANANG, RVN  
250800H Jan 1966

Annex E (Suggestions For Future Operations) to After Action Report A-66

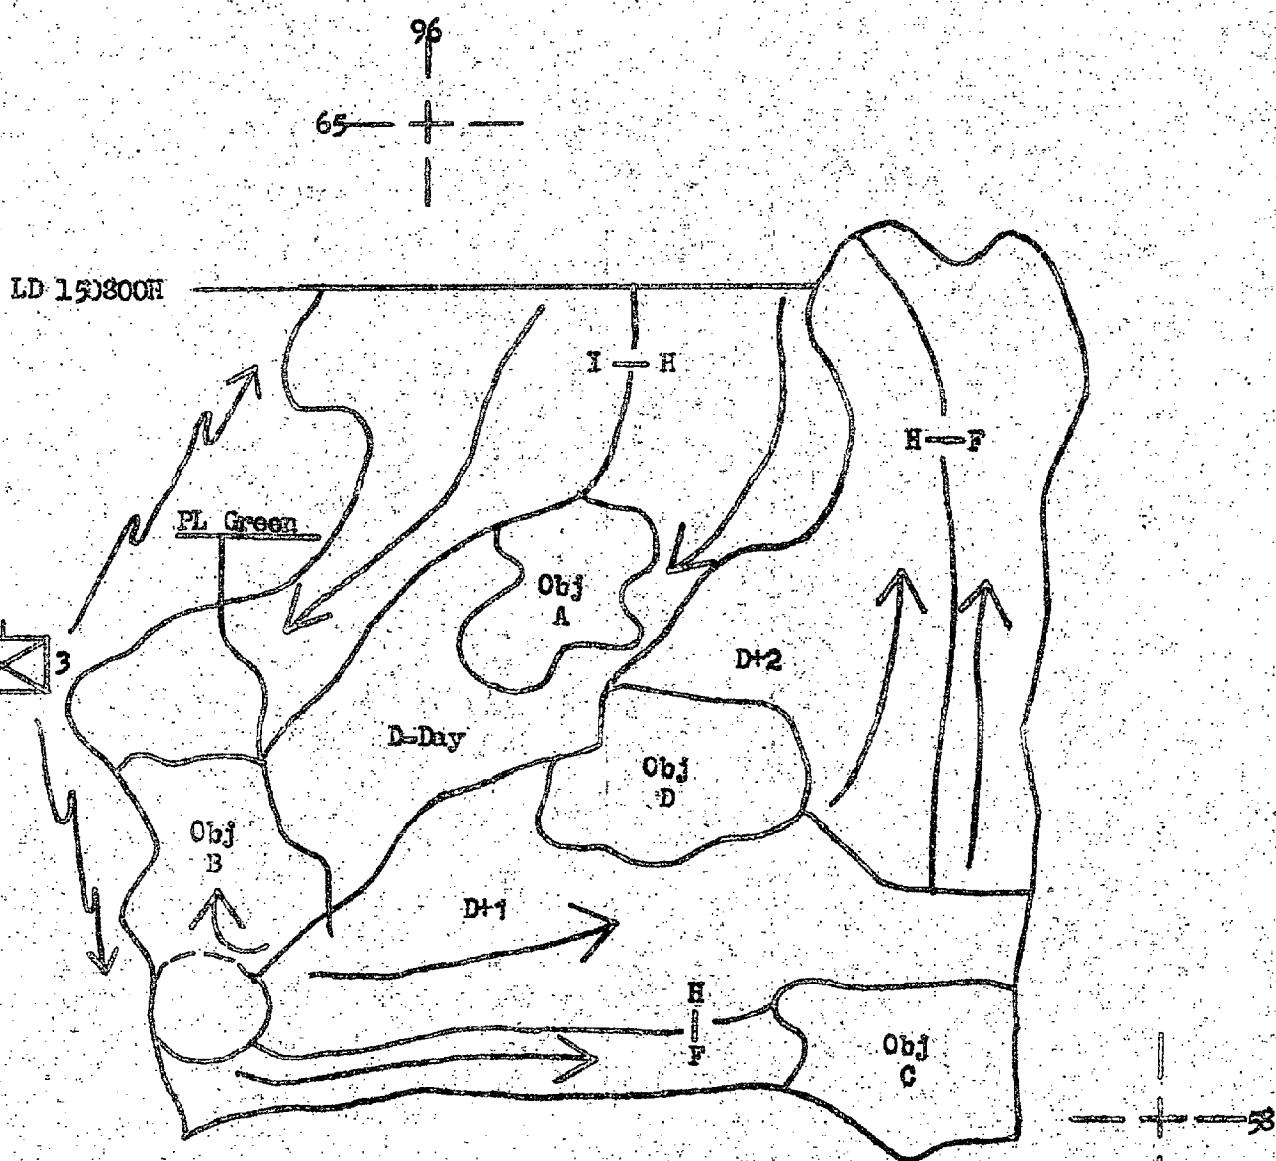

1. Unless there is positive intelligence to indicate contact with VC units (versus small guerilla forces), the objective area should be more limited in scope or the time frame expanded to permit thorough searching and conduct of effective psywar and people-to-people measures.
2. Employment of LVT's for troop movements in rivers should be limited to wide, easily navigable waterways with slow currents and numerous exit and entry sites.
3. The question of what constitutes VC rice to be captured and evacuated should be resolved for a particular objective area in advance of the operation.
4. Marine forces should operate in distinct, geographically separated zones of action from ARVN forces and positions.

1650	J-13	151650	BB-H To BB-2:	Reported destroying booby trapped 105 round S. at AT 981624. No indication as to how it was booby trapped was given.	
1825	J-14	151825	Sen-2 To BB-2:	VC employment of 60 and 81 mortars: Recent S. action confirm that VC within the TAOR are employing 60&81 mortars against friendly forces. At 150230H the VC employed mortars in areas to the rear of 9th Marines front line units. There is reason to believe this VC force is still in the rear areas. They are capable again of employing mortars. This warrants immediate counter action. Reports of VC employment of mortars will be transmitted as a flash message. All means will be utilized to locate and destroy mortars. Intelligence reports indicating locations of VC units possessing mortars will be investigated regardless of rating. Reports from friendly villagers will receive the same results as intelligence reports.	
1940	J-15	151940	Sen-2 To BB-2:	HVIH reports that the VC forces attacked the 594th and 703rd government RF companies in the vicinity of Qua Giang (ET 002667) during the morning of 15 Jan displaced from the vicinity of Ky Long (GS 9855), proceeded north on the route to the east and parallel to the railroad embankment, crossed the river in the vicinity of ET 007657, approached the RF location from the south and west. The VC force was estimated to have approx one battalion, but a battalion designation was lacking, thus indicating that the force was a provisional force brought together for the mission. The commanders name is reported as Le Tan Hoang. The agent reported that after the attack on the RF companies, the VC dispersed, the majority taking cover in local hamlets. The agent reported the VC were hiding in Bich Nam (2) hamlet, and Thai Cam (1), where the local villagers would provide concealment. HVIH rates this C-3, Sen-2 rates this F-3.

Captured VC document recovered in the delta region dated 4 Jan stated that all VC organizations must be prepared to launch full scale operations immediately upon termination of TET celebration period. Report indicates that intent of sg was to trigger accelerated operations w/minimum delay. Perhaps for psychological reasons. VC TET cease fire generally considered to extend to 232400H but examples from the field indicated that the VC set their watches ahead one hour for additional security.	S/F/T
				Several initiated reportes rec'd from Sen 2 during past 72 hours of VC movement in TACR. These reports do not necessarily indicate influx of VC units but may indicated movement but development in positions to initiate operations immediately upon termination of TET. #### 4. ADMINISTRATION AND LOGISTICS

##### a. Supply.

- (1) General. Battalion Supply is the initial source for all classes of supply. Resupply will be upon request through Battalion S-4 with the command group.
- (2) Prescribed Load.
  - (a) Class I - Two (2) MCI's with fuel per individual. One (1) day ration per individual will be carried with the command group.
  - (b) Class II - Normal arms and equipment. Resupply is not anticipated.
  - (c) Class III - Vehicle fuel tanks will be full upon departure. Vehicle commanders will watch their fuel carefully and inform S-4 when their fuel load nears the point of preventing their return to the LCD. Five (5) gallon fuel cans will be full and mounted on vehicles; two (2) days of special oils and lubricants will be carried. Resupply only in an emergency.

CONFIDENTIAL

- (d) Class IV - Riot control agents will be drawn before departure; ten (10) gas masks per search companies. Smoke machines will be carried by searching companies. No fortification gear is to be carried; however, it may be requested if needed.
- (e) Class V - Basic allowance for all weapons will be carried. An emphasis will be placed on demolitions. Resupply will be requested as needed.
- (f) Medical Supplies - Initial allowance plus two (2) days high usage items. These will be loaded into an LVT which will also be used as a mobile aid station.
- (g) Water - Two (2) full canteens per man. Resupply of water will be loaded in the LVT's and units will be resupplied upon request.

**b. Evacuation and Hospitalization.**

**(1) Evacuation.**

- (a) Commanders may evacuate casualties to the mobile aid station or to Company C, 3d Medical Battalion as the seriousness of the case may direct.
- (b) Individual weapons and organizational equipment will be evacuated with casualties; this will be noted on the casualty card. Crew served weapons and M-79's will not be evacuated with the casualty.
- (c) Injured VCC/VCS and indigenous civilian personnel will be evacuated to Company C, 3d Medical Battalion for emergency life saving surgery only.

**(2) Hospitalization. As directed by the attending physician.**

**c. Transportation.**

- (1) Transportation to the assembly area (vicinity of Marble Mountain) will be provided by wheeled vehicles on the morning of the operation. Requirements for transportation that have not been submitted will be submitted to the S-4 upon receipt of this order.
- (2) Transportation to the objective area will be by foot, wheeled and tactical vehicles, and helicopters.

**d. Personnel**

- (1) Casualty reporting will be made at the earliest possible opportunity. The casualty's initials (last, followed by first and middle initial) will be given preceding the last four digits of the serial number. Promptness and proper techniques in these incidents can not be over-emphasized.

CONFIDENTIAL

#### 1. SUMMARY OF ENEMY SITUATION

a. Intelligence information received by this headquarters include reports of the following VC units in the area bounded by BT 1265 - 0963 - 0958 - 1657 - 1959.

<u>UNIT</u>	<u>STRENGTH</u>	<u>LAST REPORTED LOCATION</u>
U/I	164	BT 110635 - BT 132612 16 Nov
U/I	UNK	BT 1059 and BT 1158 17 Nov
101st Bn.	UNK	BT 1063 and BT 1163 13 Nov
U/I Guerrilla Co.	100	BT 0665 Continuous
101st Co.	UNK	BT 1459 24 Nov

b. A VC training camp of unknown capacity has been reported located at BT 132613.

c. It is estimated that one MF company plus at least one company of guerrillas operate in the above area. In all probability the elements of these units are dispersed throughout the area rather than concentrated.

d. See current Intelligence estimates as issued.

e. See current Intelligence summaries and special reports as issued.

#### 2. CHARACTERISTICS OF THE AREA OF OPERATION

a. Weather. See daily forecasts as issued.

b. Astronomical and Tidal Data.

<u>DATE</u>	<u>TIME</u>	<u>TIDAL HT (Ft)</u>	<u>SUNRISE</u>	<u>SUNSET</u>

c. Terrain.

- (1) Streams will be flooded and paddies and surrounding areas will likely be inundated.
- (2) Trails and foot paths across paddies have maximum width of 8 - 10 Ft. and most likely flooded.
- (3) River depth and current speed cannot be determined. The three rivers will be generally slow and sluggish, typical of all meandering coastal flood plain drainage systems.
- (4) Flooded paddies flanking the river may restrict LVT's to the main river channels. Levees supporting Route 14 centered at BT 179589 and BT 182588 will channelize traffic. The scattered fishing weirs and the sandbar across Song De Vong, BT 182588, will impede sampan traffic.

## 3. ESSENTIAL ELEMENTS OF INFORMATION

- a. Determine if the enemy will defend; if so when, where, and in what strength.
- b. Determine if the enemy will reinforce in the area of operations; if so who, when, where, how, and with what forces.
- c. Determine if the enemy will counterattack; if so who, when, where, and in what strength.

CONFIDENTIAL

CONFIDENTIAL

- d. Determine what defences the enemy will employ in and around the hamlets, (Special attention to their employment of automatic weapons and supporting arms, weak points/strong points in this defensive system, secret exits, hiding places for personnel and material, and tunnel patterns).
- e. Determine if the enemy will incite or coerce the local populace into mass demonstrations or mob actions against our units; is so who, when, and in what strength.
- f. Additional Intelligence Requirements.
  - (1) Confirm the size, identification, and type of VC units that normally operate in the objective area.
  - (2) How are VC units in the area of operations normally resupplied?
  - (3) What is the nature of VC camps, training centers, storage areas, etc., located in the area? What is the purpose for these installations?
  - (4) Are there any indications of captured U. S. personnel having been in the area of operations? Location? Exploitation?
  - (5) Is there evidence of PAVN, CHICOM or other foreign advisors operating in the area?
  - (6) What are the road and bridge conditions and capacities in the area of operations?

#### 4. RECONNAISSANCE AND OBSERVATION MISSIONS.

- a. Orders to Subordinate units.
  - (1) All Units. Report as obtained information answering any Intelligence Requirements with respect to EEI's.
  - (2) Submit information as obtained to S-2 by most expeditious means and laterally to units with immediate concern.
  - (3) Submit and report in accordance with SPOT REPORT.
- b. Coordinating instructions.
  - (1) Make maximum effort to take enemy prisoners and forward to the Battalion Collection Point with any accompanying documents and/or equipment for intelligence exploitation.
  - (2) Submit by FLASH message first sightings or indication of:
    - (a) Enemy artillery, heavy mortars or other heavy caliber weapons.

CONFIDENTIAL

(b) Enemy Company size or larger units within area of operation, (Include location and direction of movement, size unit, type and color of uniforms, equipment, weapons, and whether or not unit can be kept under observation).

5. MEASURES FOR HANDLING PRISONERS, CAPTURED DOCUMENTS, AND CAPTURED MATERIAL

a. See reference (a) and (d).

b. Captured Personnel.

(1) The term "prisoner of war" will not be used in connection with captives taken in counterguerrilla operations against the Viet Cong since the Viet Cong are not foreign nationals, and this is not a declared war. For operations in Vietnam, the term "captive" will be used in reference to all prisoners taken by this unit.

c. Handling Captives.

(1) All captives taken by this unit will be accorded firm, just, humane treatment at all times in accordance with the law of land warfare as derived from custom and treaties, such as the Geneva Conventions. While the Viet Cong cannot be termed "prisoners of war" as defined by Article 4, Geneva Convention Relative to Treatment of Prisoners of War, 1949, they will be treated humanely in the manner prescribed therein.

(2) Normal procedures in processing "prisoners of war" apply to the processing of captives taken in counterguerrilla operations in Vietnam. Extreme care must be taken to ensure that friendly or potentially friendly civilians taken captive are not subject to any treatment that might engender a hostile attitude on their part toward this unit.

(3) Handling of captives will be firm at all times, but will not involve force beyond that necessary to defend against or subdue resisting Viet Cong Captives or Viet Cong Suspects. Captives will be led firmly, but gently when blindfolded. Special care must be exercised in the handling of captives who are blindfolded and tied when being moved or transported to or from aircraft or vehicles. These captives are helpless and must be assisted to prevent injury.

(4) Viet Cong Captives and Viet Cong Suspects will be bound in such a manner as to ensure they cannot escape or harm either their captors, guards, interrogators or other captives. Bindings will ensure security but will not be such as to cut off blood circulation, cut, injure or otherwise cause pain. Captives will not be trussed in any way that is, could be, or may be mistaken to be, tortuous.

(5) All captives will be searched, segregated, tagged and evacuated through the intelligence chain as expeditiously as possible. Innocent civilians will be separated from VCC/VCS as expeditiously as possible.

CONFIDENTIAL

- d. ID Cards and personnel belongings will be left on individual.
- e. "Captives" will be turned over to Bn S-2 mobile collection point as directed.

6. MAPS AND PHOTOGRAPHS

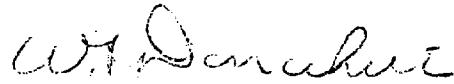

- a. Reference (a)
- b. Aerial photography will be provided when available.

7. COUNTER INTELLIGENCE

- a. Classified material will not be taken forward of the Battalion Command Post except when essential for the conduct of operations. In such cases, only extracts of necessary information from classified documents shall be used.
- b. Upon displacement, command posts will be thoroughly policed to ensure that nothing of intelligence value is left behind.

8. REPORTS AND DISTRIBUTION

- a. Spot intelligence reports will be submitted to this headquarters (S-2) when incidents occur. Answer what, where, when, and action taken.
- b. Submit all information of possible intelligence value.

## Annex C (Narrative Account of Operation) to After Action Report 1-66

The concept of operation called for 2d Bn, 9th Marines (-) (Rein) supported by LVT's, tanks, ontos, and engineers to conduct a movement south along the coastline to the southern end of the objective area and conduct a search and destroy operation north; establishing blocking positions west and north of the objective area. Companies E, H and K supported by LVT's (LVTP-5 and LVTH), tanks, ontos, and engineers moved from assembly area (BT 078718) to assigned positions at south end of objective and conducted search and destroy north. Co B (Rein) supported by tanks moved to west side of objective area and established blocking positions. Company L (Rein) established blocking position on north end of objective area. 427th and 706th RF Co's provided blocking force south of objective area. (See Annex F).

Co E. At 030701H, Co E (rein) crossed LOD embarked in LVTP-5 tractors and moved to the southern end of objective area. At 030859H, contact was established with Co H at (BT 180593). Commenced search and destroy north. At 030927H, observed and destroyed trench line with three (3) strand double apron fence from (BT 176596) to (BT 177598). Co E reached Phase Line Green at 030930H. At 030956H, Co E commenced search and destroy to Phase Line Brown. Arrived Phase Line Brown at 031130H. At 031135H, panji pit reported and destroyed at (BT 164604) with three (3) strand barb wire fence and trench approximately 100 meters long. At 031230H, anti-helicopter panji stakes 100 meters by 100 meters found and destroyed at (BT 158606). At 031310H, crossed Phase Line Brown. At 031500, vic (BT 147612) found mat and numerous freshly cut pine branches spread on ground which could sleep 10 - 20 persons. Hasty movement appeared evident upon examination of foot prints in area. At 031630H, Co E arrived Phase Line Purple. Move north to night defensive position occurred at 031740H. At 031800H, Co E was in position at (BT 145617) defending eastern portion of Battalion perimeter. During D-Day, people in cleared portion of objective area appeared very frightened. Absence of men in villages noted. Hundreds of empty holes 1'x2'x1 $\frac{1}{2}$ ' deep throughout area. At D+1 at 040920H, Phase Line Yellow was secured. At 040950, a trench fortified with cactus was found at (BT 135625) to (BT 133621). Road in (GS 1362) was rendered impassable by holes averaging 8'x4'x2'. At 041010H, at (BT 132624) a road block of cactus forward of a 5' trench was observed. At 041025H, at (BT 127621) a barb wire fence approximately 200 yds in length with a cactus barricade and hundreds of wooden panji stakes and trench line was observed and destroyed. At 041025H, three (3) VCS were apprehended at (BT 128621) for not having I.D. cards. Two (2) of the captives attempted to escape but were run down by Marines. Captives evacuated to ITT. Search and destroy completed at 041045H. Negative VC contact. No Marine casualties.

Co H. At 030650H, Co H (rein) crossed LOD embarked in LVTP-5 tractors and commenced move south. At 030815, Co H reported that AO observed five (5) VC at (BT 170596). At 030830H, a mine field was reported at (BT 183593),

investigation, however, revealed four (4) to six (6) fragmentation grenades secured with trip wires. At 030859H, contact was established at southern end of Objective with Co E at (BT 180593). Commenced search and destroy north. At 030940H, Phase Line Green was reached. Searched north to Phase Line Brown at 030945H. Phase Line secured at 031133H. One (1) VCS found at (BT 164600). Evacuated to Bn Collection Point. Crossed Phase Line Brown at 031335H. Reached Phase Line Purple at 031515H. At 031740H, commenced move toward Bn night defensive perimeter. At 031800H, Co H was in position at (BT 146616) defending western portion of Bn CP perimeter. At 040800H, Co H was reverted to Bn reserve and followed in trace of Bn for remainder of operation. Approximately 20 panji pits destroyed throughout area during search and destroy operation. Negative VC contact. Negative Marine casualties.

Co K. Crossed LOD embarked in LVTP-5 tractors at 030655H in trace of assault companies as Bn reserve. At 031605H, Co K was helo-lifted to Obj A for search and destroy operation on the island. Negative VC contact. One (1) VCS evacuated to Bn Collection Point for questioning. Two (2) Vietnamese females helo-evacuated to C&C. One (1) Marine NBC (sprained ankle) evacuated to C&C. Retrograde move by helicopter began at 031730H. Co K rejoined Bn at (BT 145617). Assigned security of inner perimeter of battalion in night defensive locations. At 040800H, Co K was assigned western portion of area. Commenced search and destroy at 040845H. Reached Phase Line Yellow at 040930H. Area was secured at 041045H. Negative VC contact. One (1) Marine non-battle casualty.

Co L. At approximately 030710H, Co L was helo-lifted from Da Nang Airfield into blocking positions at (BT 120635). Reinforced platoons located at (BT 124637), (BT 121635) and (BT 119635). Co L CP located at (BT 120635). Blocking force was in position and dug in at 030845H. At 030915H, one (1) VCS was captured at (BT 121635). The 40 yr old male was seen observing USMC activity from a trench line. VCS evacuated to 1/9 S-2 at 041400H. At 031000H, a five foot hole was blown by engineers at (BT 120636). Evidence of recent use was noted. During daylight hours five (5) fire team size OP's were employed, and during the hours of darkness ten (10) three (3) man LP's and three (3) sqd size ambushes were employed. Co L reported villagers of Ha Quang (1) (BT 128633) unusually friendly. 33 women and children with superficial cuts and infections were treated by Co L aid station. Villagers in return offered Marines bowls of rice. It was reported that approximately 200 women and children came to the Co positions begging the Marines not to leave at the end of the operation. The villagers feared the return of VC. Negative VC contact reported during operation. Negative Marine casualties.

Co B. Co B departed CP area at 030435H for blocking positions. During move to assigned area a tank at 040535H sustained moderate damage at (BT 090640) when it detonated a pressure type TNT mine. One (1) Marine WIA. Casualty helo-evacuated to C&C. At 031030H, the Co established blocking positions at (BT 133600), (BT 120610) and (BT 115619). At 032230H, a sqd size ambush located at (BT 132603) observed four (4) VC at (BT 133603). Eight (8) rnds SA fired. One (1) VC KIA. One (1) U.S. carbine recovered. At 041132H, Co B was chopped to OPCON 1/9. Results of operation: one (1) VC KIA, one (1) Marine WIA.
